THURSDAY, MARCH 2, 1882.

SHOOTING AT THE QUEEN

AN ATTEMPT UPON THE LIFE OF HER MAJESTY QUEEN VICTORIA.

She is Fired Upon at a Railway Station—Happily She Escapes all Injury From the Cowardly Assassin.

Special to the Review.

LONDON, March 2.—"Queen" Victoria was fired at, at Windsor railway station to-day. She escaped unhurt.

KINGSTON.

Special to the Review, March 2.

THE GIRL Mary Sweet *alias* Edith Gray Stokes, who attempted suicide some days since by shooting herself with a revolver, died this morning at eight a.m. She was unconscious. Her friends arrived a few hours before her demise. An inquest will be held, when interesting developments are anticipated.

ENNISMORE.

From our own Correspondent.

THE LICENSE BY-LAW.—On Monday last our Council met and gave our famous by-law the third reading. Henceforth a tavern or shop license will cost $600 in the township of Ennismore. Messrs. Curtain and Leonard brought the by-law before the Council about a month ago, and it must have been a source of gratification to those gentlemen to see the by-law carried by an overwhelming majority when submitted to the people on Feb. 22nd. Mr. Curtin is one of our oldest and most respected citizens. As a public man he has always been distinguished for his honesty and straightforwardness—always careful to avoid "ways that are crooked and tricks that are vain." The people are rejoiced that a Councillor of Mr. Curtin's sterling worth and integrity fathered so respectable a by-law.

BELLEVILLE.

GOLD MINING.—Operations at the Canada Consolidated Gold Mining Company's property are being conducted with vigour. The main shaft is down two hundred feet, and the vein continues strong, whilst a rich find is reported.

WARKWORTH.

DAMAGE BY FLOOD.—Very heavy rains fell on Tuesday night and Wednesday morning. The mill-dams have been washed away, causing considerable damage to the mill property and adjacent buildings. Mr. Wm. Bensley had a very narrow escape from drowning while working at the ice jam at the gates. The stables belonging to the Daly House had the floors washed away, and not a little difficulty was experienced in saving the horses. The water has somewhat subsided, but is still very high and all danger is not yet gone.

A YOUNG stranger sauntered into a revival meeting at Carlisle, Ind., and listened to a stirring exhortation to repentance. He went forward when repentant sinners were invited, and wept while the brethren prayed for him. When questioned, he said he was Arthur Thomas, a burglar; that he had come to the village to open safes, and had entered the church to kill time; that he was truly penitent, and wished so confess robberies which he had commited in neighboring towns. A Sheriff who happened to be present arrested him, and found the tools of his calling in his pockets. He is to be tried for the crimes of which he accused himself.

MIDNIGHT TELEGRAMS

CABLE.

COALITION AGAINST BISMARCK.

BERLIN, March 1.—It is reported at Berlin that a coalition has been formed between the Liberal and Ultramontane members of the Reichstag, and that they have resolved to reject Prince Bismarck's tobacco monopoly bill.

OUTRAGE IN IRELAND.

DUBLIN, March 1.—A charge of dynamite was to-day found under the door of the Custom House at Limerick.

THE LORDS' COMMISSION.

DUBLIN, March 1.—The commission of the House of Lords on the Irish Land Act have invited Mr. Forster, Secretary for Ireland, to appear before them as a witness. Mr. Forster has refused under instructions received at a special Cabinet Council. The invitation included a statement regarding the scope of their enquiry, which was obviously designed as a basis of agreement on the issue raised between the House of Lords and the House of Commons. The Cabinet decided that neither the form nor the substance of the communication justified their acceptance of it as a settlement of the question raised. It is stated that the committee will not enquire so much into details as into the general principles which the working of the Act illustrates. They will not examine the particular reasons upon which the decisions of the land commission are based.

THE BALKAN INSURRECTION.

LONDON, March 1.—A Vienna despatch says: A deputation of Bosnians has waited on the commander-in-chief of the Austrian forces in the insurrectionary district at Serajevo, and asked him to send a commissioner into the insurgent lines to negotiate terms of peace, at the same time expressing their belief that if conciliatory terms were offered a speedy termination of the present difficulties could be arrived at without further blood-shed. The commander-in-chief, in replying to the deputation, said that at present the only proposition he could agree to was an unconditional surrender. Russian troops are massing along the frontiers of Galicia. Vienna advices state that detectives were ordered to watch Gen. Skobeleff from the moment of his arriving at the frontier. Gen. Skobeleff said he failed to understand the stir caused by his speech, as much severer language was being spoken and written in Russia daily. He has started for St. Petersburg.

THE NIHILISTS' SENTENCES.

ST. PETERSBURG, March. 1.—It is reported that the sentenced of death will be commuted to penal servitude. Those sentenced to hang are the woman Lebedeva and Michaeloff Kolodkewitch, Trigonia, Baranikoff, Hanoff, Klyetotschnikoff, Isnaieff, Emilianoff, and Merkuloff all of whom have been convicted of complicity in the assassination of the Czar.

THE INSURGENTS.

CAIRO, March 1.—The Tunisian insurgents have reappeared in the vicinity of Sfax, where they have raided the tribes who submit to the French.

SKOBELEFF'S SPEECH.

ST. PETERSBURG, March 1.—The Russian newspapers have been ordered to be extremely guarded in discussing Gen. Skobeleff's speech.

DEATH OF HESSY HELFMANN.

ST. PETERSBURG, March 1.—Hessy Helfmann, whose removal was announced lately, died in the fortress at St. Petersburg several days ago of illness contracted during her *accouchment*.

ADVISING VOTERS.

LONDON, March 1.—Mr. Redmond, M. P., Land Leaguer, goes to Northampton to advise the Irish voters to oppose the return of Mr. Bradlaugh. A cavalry regiment will be sent there in view of possible disturbances. The polling takes place to-morrow.

AMERICAN.

KILLED ON THE TRACK.

OSWEGO, N. Y. March 1—Yesterday afternoon as the train was leaving for Syracuse, Michael Burns in jumping from the smoking car while in motion fell beneath the car. He fell in such a position that a wheel struck the left arm above the elbow breaking it. The upper part of his thigh was next struck producing a compound fracture. Passing along it smashed the knee and leg terribly. He died at 9.15 p. m.

Increased Wages.

The Ottawa correspondent of the independent Montreal *Star* gives the following account of an episode in Sir Leonard Tilley's Budget speech:—

He made some very happy hits, and got any amount of applause from his party. In one case, where he was quoting figures to prove how much wages had increased since within two years past, and ascribing the increase to the N. P., Mr. Paterson, of South Brant, asked, "How do they compare with wages in the United States?" Mr. Plumb called out, "They have got a very high tariff there." Sir Leonard answered that he knew that workmen were brought into Canada to supply the demand of many factories. He went on with another branch of his subject, when Mr. Rykert came trotting down to his desk with an open *Hansard* of 1876 in his hand. Sir Leonard took it with great gusto, read an extract from a speech of Mr. Paterson's of that year, in which that gentlemen said that Sir Richard's policy in putting increased duties on cigars had brought a thousand workmen into the Dominion from Germany and had not increased the cost of the article one iota. Mr. Paterson said the language was figurative, but the Tories fairly shook the Chamber with their applause of the point made.

A Globe Slander.

An Ottawa correspondent says:—On Monday afternoon Sir Charles Tupper received a telegram from Mr. McDonald, of McDonald & Charlebois, assuring him that he had not prompted the charges made in the Opposition press against the Minister of Railways, and that he entirely exonerated him of any suspicion of unfairness or impartialty in the awarding of the contract.

Law and Justice.

The Independent Winnipeg *Sun* says:—"One of the cries in the Ontario Legislature in regard to the boundary award that the law is not administered in Keewatin and in the disputed territory. Those who ought to know and who live there declare that nothing could be more untrue, and that the district is as well off as regards law and justice as any other part of the Dominion."

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

TROUBLED IRELAND.

LONDON, March 2.—The commission of the House of Lords have offered to restrict the examination of the working of the Irish Land Act to the action of the commissioners, and the Government have agreed to accept. Mr. Forster, Chief Secretary for Ireland, has gone privately to Limerick under a special guard, for the purpose of enquiring into outrages alleged to have been perpetrated there. He was obliged to walk through the streets under guard of a patrol.

SEDITIOUS LANGUAGE

ST. PETERSBURG, March 2.—It is rumoured that Amelianoff's counsel will be transported for using seditious language.

SEEKING AID AND ADVICE.

LONDON, March 2.—A deputation representing thousands of unemployed persons in London waited on the Lord Mayor and asked advice and aid, especially regarding emigration. The Lord Mayor advised them to confer with Sir Alex. T. Galt, high commissioner for Canada.

BRADLAUGH'S CONSTITUENCY.

NORTHAMPTON, March. 2.—A detachment of infantry has arrived, and also a troop of dragoons, and a troop of lancers to prevent any possible disturbances at the Parliamentary elections to-day.

A FARMER SHOT.

DUBLIN, March 2.—A farmer was shot by armed men at Feacle and died. Nineteen arrests were made in that vicinity under the Coercion Act.

CONCEALING THE TRUTH.

LONDON, March 2.—A letter from an eminent Rabbi indicates Russia as trying to conceal the truth.

AMERICAN.

CONKLING'S JUDGESHIP.

WASHINGTON, March 2.—The report that Conkling has refused the place of Supreme Court Judge is untrue.

AN ART COLLECTION.

NEW YORK, March 2.—The sale of the Morton and Hoe collection of pictures realized $29,000.

KILLED BY GAS.

NEW YORK, March 2.—Two men were discovered dead in bed at an hotel here yesterday, having failed to turn off the gas when retiring.

AN ENTERPRISING DIPLOMAT.

WASHINGTON, March 2.—The amendment added by the Senate yesterday to the resolution for an enquiry in regard to the Peruvian Company and the Credit Industry Society, so as to include similar transactions in Bolivia, was caused by the discovery that our Minister to that nation had made direct propositions embracing the working of nitrate and guano deposits by an American company. It further appears that the United States minister at Bolivia was very active in his attempts to secure the intervention of the United States. It is also stated that the Bolivian Minister Cabrea and Minister Adams have been very active in the formation of an American Company to work the silver mines at Potus.

NO CABINET CHANGES.

NEW YORK, March 2.—The *Herald's* Washington despatch says that there is no reason to believe that the President contemplates any immediate cabinet changes.

WILL HE BE CONFIRMED?

NEW YORK, March 2.—The *Sun's* Washington despatch says that while no very aggressive movement is being made to defeat the confirmation of Conkling's appointment, there is a good deal of quiet effort being made to compass such a result.

TERRIBLE CONFLAGRATION.

MEMPHIS, Tenn., March 2.—A vast area from a point fifty miles south of Cairo to Vicksburg has been submerged. Thousands have been driven from their homes. A vast number are [cooped in houses, barns, and lofts, with water all around them, and no means of communicating without. The unfortunate people are living on potatoes and corn; many have died of hunger and exposure. In Crittenden, Lee, and Phillips counties, Arkansas, fifteen thousand negroes are destitute and in danger of starvation.

THE PEDESTRIANS.

NEW YORK, March 2.—Rowell 383, Fitzgerald 330, Hazel 370, Hart 340, Sullivan 333, Hughes 353, Normen 320.

2 p. m.—Hazel 398, Rowel 492, Fitzgerald 377, Sullivan 366, Hughes 363, Hart 361, Normen 345.

EFFECTS OF THE FLOOD.

HELENA, Ark., March 1.—The river fell an inch to-day. Four negroes and a white man have been drowned by a break near Concordia. People are panic-stricken. At Laconia Circle many negroes are starving, and others are feeding on the putrid carcasses of drowned cattle. Whole families are subsisting on half a peck of meal per week. People are offering milch cows for 25 cents a head, as the animals are dying of starvation. Efforts are being made to remove the people. The distress all along the river below is unparalleled.

MOLLY MAGUIREISM.

PITTSBURG, Pa., March 1.—Lawlessness in the bituminous coal fields of western Pennsylvania, accompanied by sanguinary conflicts, creates the belief in police circles that the Molly Maguire element is preparing for the inauguration of a reign of terror. Washington County has been the scene of no less than five shooting affrays within the past few week, the participants in three of them receiving fatal injuries.

Dr. Cheyne and Beau Nash.

When Cheyne asked Beau Nash if he had followed his prescription, his witty patient replied, "No, indeed, doctor, for if so I would have been dead." "How so?" asked the doctor, aghast. "Because," said Nash, "I threw it out of the window."

"I DON'T WANT THAT STUFF," is what a lady of Boston said to her husband when he brought home some medicine to cure her of sick headache and neuralgia which had made her miserable for fourteen years. At the first attack thereafter, it was administered to her with such good results, that she continued to use it until cured, and was made so enthusiastic in its praise, that she induced twenty-two of the best families in her circle to adopt it as their regular family medicine. That "stuff" is Hop Bitters."—*Standard.*

Daily Evening Review

THURSDAY, MARCH 2, 1882.

READ THIS.

(From the Globe of 24th Feby., 1882.)

"SIR LEONARD TILLEY protested when launching the N.P. that, on his reputation as a heaven-born financier, the tariff discriminated against the Americans. He intended, he said, to take nearly all his new taxation "out of the Americans." We have from time to time given facts showing that the heaven-born made a profound miscalculation of the effects of his tariff, and indeed at the time he made his foolish boast we assured him he was labouring under a mistake. The new volume of Trade and Navigation returns furnishes additional evidence that we were right, when in March, 1879, three days after the tariff was issued, we denounced its anti-British tendencies.

The relative proportions of our imports from Britain and the States in 1880-81 were as follows:—

	Dutiable.	Free.	Total.	Duty.
	$	$	$	$
Great Britain	35,869,461	7,723,347	43,583,808	8,772,949
United States	25,632,313	11,071,799	36,704,112	5,649,151

Calculating the percentage of duty levied on the goods brought from each country, we arrive at the following remarkable result:—

PERCENTAGE OF DUTIES LEVIED ON BRITISH AND AMERICAN GOODS RESPECTIVELY.

	Per cent. levied on dutiable goods.	Per cent. levied on total importations.
Great Britain	24.4	20.1
United States	22.4	15.4

That is, we discriminate against British goods by levying upon them a rate of taxation nearly twenty-five per cent. higher than that levied upon American goods; or taking the dutiable goods as the basis, we levy a little over nine per cent. more of taxation on British goods than on American. But the proper basis of comparison is on the total importation. As soon as British and American prices have adjusted themselves the baleful effects of this discrimination against our trade with Britain will become visible. In fact, those effects are already visible, for last year the imports from the United States increased faster than those from Britain, even according to Sir Leonard Tilley's probably garbled figures."

Then this:

Sir Richard Cartwright, better known as the Knight of the two faced shield, was the friend par excellence, of the golden bond of commerce which binds us to the mother land, and which the arch-traitor Sir Leonard Tilley is now doing his best to sever to the manifest advantage of the United States, as so ably, intelligently and honestly set forth in the foregoing article taken entire from Canada's greatest champion of British connection, the Toronto *Globe*. In order that the reader may fully appreciate the sincerity of the *Globe* and its love of father-land under any and all circumstances, we beg to state that during the last full year under the patriotic reign of Mr. Mackenzie and Canada's great financier "the relative proportions of our imports from Britain and the States in 1877-78 were as follows:—

	Dutiable.	Free.	Total.	Duty.
	$	$	$	$
Great Britain	32,139,788	5,291,397	37,431,180	6,445,985
United States	23,464,568	25,163,686	48,628,189	4,790,426

Calculating the percentage of duty levied on the goods brought from each country, we arrive at the following remarkable result:—

	Per cent. levied on dutiable goods.	Per cent. levied on total importations.
Great Britain	20.55	17.2
United States	20.04	9.4

That is we discriminated against British goods by levying upon them a rate of taxation nearly fifty per cent. higher than that levied upon American goods; or taking the dutiable goods as the basis we levied a little more taxation on British goods than on American. "*But the proper basis of comparison is on the total importation.*" As British and American prices adjusted themselves the baleful effects of discrimination increased. In fact, those effects were already visible and the imports from the United States had held their own while those from Britain decreased as the following figures show:—

	Imports from U.S.	Imports from G.B.
1876	46,070,033	40,734,260
1877	51,312,669	39,572,239
1878	48,631,739	37,431,180

even according to Sir Richard Cartwright's probably *(un)* garbled figures.

And then this:

Although the application of almost the *Globe's* own words to the figures of 1878 which correspond with those of 1881, contained in the article we have quoted, are of themselves sufficient to convict that journal once more of its usual dishonesty and hypocrisy, and prove the truth of Sir Leonard Tilley's prediction that the National Policy would increase our trade with Britain, and decrease it with the States, yet as we are on the subject it may not be amiss to point out that the figures already given show that the volume of our trade with these two countries has been wellnigh reversed since 1878.

Our imports were from

	1878.	1881.
Britain	37,431,180	43,583,808
United States	48,631,739	36,704,112

Moreover, notwithstanding the large decrease in our trade with the States which these figures show, the actual reduction in *manufactured* articles in much greater than they indicate, because during this period our imports of cotton wool, sheep's wool and hides, has increased almost $2,000,000, and yet the *Globe* talks about the N.P. being an anti-British tariff! It may be so, but if it is, will the *Globe* kindly tell us what sort of a tariff the Mackenzie-Cartwright one was, and also how a tariff which has decreased our imports from the States, and increased our imports from Britain can be said to be realizing the predictions which it made in March, 1879, of "its anti-British tendencies?"

DOMINION PARLIAMENT.

THE Civil Service Reform Bill, providing among other things for qualifying examinations, was read a first time.

The debate on drawbacks on exports was resumed, Mr. Charlton speaking against the Government and his own former speeches.

The second reading of the Deceased Wife's Sister Bill was carried by 137 to 34.

Sir. L. Tilley in introducing his budget made a very able speech, and had a most satisfactory state of affairs to announce. The surplus for the past year was $4,132,743, the expenditure being $500,000 less, and the revenue $1,500,000 than had been estimated. The debt had been reduced and there had been an expenditure of eight millions on capital account. He announced a remission of taxes principally freeing tea, coffee and bills of exchange. The other modifications in the tariff were in favour of protection. He made a lucid and able statement, proving conclusively by authentic figures the economic management of our finances and the flourishing state of the country and its industries.

Sir R. Cartwright followed, but his criticisms did not appear to carry convictions even to his own side.

Sir Charles Tupper replied with his accustomed ability, dealing very fully with the coal question and other disputed points.

ONTARIO LEGISLATURE.

MR. MOWAT moved in favour of giving up the escheated estate of an illegitimate son to the heirs. He said he would have taken possession of it if it had been a large one.

The Market Fees Bill was read a second time.

The second reading of a Bill to establish a Provincial Board of Health and to give increased power to local boards, received little opposition

LAKEFIELD NEWS.

From Our Own Correspondent.

NOMINATION.

The nomination of candidates to fill the office of councillor in Lakefield, rendered vacant by Mr. Hull being unseated, was held in the council room, Lakefield, on Monday the 27th of February. At 12 o'clock Mr. Sanders, the village clerk, acting as returning officer, opened the meeting by reading the notice calling the same, and stating that he was then ready to receive nominations.

Mr. ROBT. GRAHAM moved, seconded by Mr. JOHN RICHARDSON,—That Mr. John Hull be nominated as a candidate for the office of councillor for the remainder of the year 1882.

It was moved by Mr. GEORGE MCILMOYLE, seconded by Mr. JOHN DINWOODIE,—That Mr. Thomas Joseph Nelson be nominated as a candidate for the office of councillor, for the remainder of the year 1882.

Mr. ROBT. GRAHAM demanded a poll for and on behalf of Mr. Hull, and Mr. GEORGE MCILMOYLE demanded a poll for and on behalf of Mr. Nelson.

At one o'clock the returning officer declared that, there being more than one candidate and a poll being demanded, the proceedings would be adjourned until Monday next, March the 6th, when a poll would be opened at the same place, at nine o'clock in the forenoon, to complete the election, and the nomination was over. It was at once moved, seconded and carried that Mr. Sanders act as chairman. The chairman stated that he supposed the object of the meeting was to hear speeches made by the candidates, and their movers and seconders, and he proceeded to call upon them in their regular order. The candidates, Messrs. Graham, Richardson, McIlmoyl and the chairman made short speeches, and the first meeting of the campaign terminated.

PUBLIC MEETING.

A public meeting will be held in the Council Room on Saturday evening next, March 4th, for the purpose of discussing two very important subjects, viz., the Lakefield dam and the advisability of offering some inducements to new enterprises in the village.

LAKEFIELD BRIDGE.

The new bridge is now open for traffic, the Toronto men having finished and returned home. Nothing remains to be done but to make the approaches to the sidewalk and remove the rest of the old bridge, which will only occupy a day or two. The new bridge makes quite an addition to the appearance of our village, and from appearances will prove as serviceable as it is ornamental.

ORANGE MEETING.

The regular monthly meeting of L. O. L. No. 122, commonly known as the old lodge, will be held in the Orange Hall, Lakefield, on Monday evening next at 7.30 sharp.

MASONIC MEETING.

The regular communication of Clementi Lodge of A. F. and A. M. will be held in the Masonic Hall on Queen street, Lakefield, on Tuesday evening next, the 7th March, at eight o'clock.

ST. JOHN'S CHURCH.

A good collection was taken up in this church last Sunday in accordance with the Bishop's circular, in favor of the widow of the late esteemed missionary at Kinmount, the Rev. John Burkitt.

FORESTERS' MEETING.

Court Lakefield, No. 43, will meet in Union Hall, Lakefield, on Thursday evening next, the 9th March.

BLANCHARD SHOOTING CASE.

Montray Committed for Trial by the Magistrate—Mossip's Injuries not Serious.

ST. MARY's, Feb. 28.—Leslie Montray, who shot Mossip last week in the township of Blanchard, was brought to this town to-day by a constable on a warrant issued for his apprehension by W. F. Sanderson, Reeve of the township. The Town Hall was crowed with people, anxious to get some reliable information concerning the affair. Many reports had been circulated, calculated to damage Montray, but today were found to be incorrect. The magistrates who heard the evidence were W. F. Sanderson, Charles Bellamy, and Richard Box. Mr. W. C. Moscrip, of this town, appeared for the prisoner.

EVIDENCE OF AN EYE-WITNESS.

The chief evidence given to-day was by William Amos, a neighbour of both parties, who stated that he and Montray went over to the barn situated on the Montray farm for the purpose of getting something belonging to Montray. While there Mossip came in and spoke pretty roughly to Montray. Shortly after coming in and when Mossip had ordered Montray off the place and threatened to put him off, he heard a report of a pistol but did not see who fired it. Mossip and Montray then got into close quarters, and he (Amos) got the revolver from Montray. Mossip then struck Montray. Montray also at that time noticed that Mossip had a revolver in his hand and was threatening to shoot old Montray. Montray ran and Mossip ran after him with the revolver still in his hand and threatening to shoot him. The shooting had taken place in the barn where the things were which Montray and Amos had gone to procure. The witness was subjected to a long and close cross-examination by Mr. Moscrip as to the position in the barn, and it turned out on such cross-examination that he did not know Mossip had been shot until after Mossip had ceased going after Montray with the revolver. When Montray got off the place altogether Mossip first complained of being shot. Until this witness did not know it.

MEDICAL EVIDENCE.

Dr. Hall and Dr. McKay, both of this town, were also sworn, and said they had examined the wound of Mossip, but did not consider it dangerous. Dr. Hall saw him yesterday and he appeared as well as ever, except the wounded spot. Neither of the medical men, unless some complications arise, consider Mossip's life in danger at all. They have not been able yet to get the ball, but consider from the location of the wound that even if it is not got it will not bother him much. However, they did not think it safe at present to bring him here to give testimony.

COMMITED FOR TRIAL.

The case took up the greatest part of the day, most of the time being occupied with the cross-examination of Amos, who is the most important witness in the case. The Court was closed after the above witnesses had given their testimony. The magistrates decided to commit Montray without waiting for the evidence of Mossip, although strongly objected to by the prisoner's counsel. The prisoner was conveyed to Stratford gaol to-night. There appears to be a conviction by many that when the evidence comes before the Court Montray will be able to show circumstances which will alter the present appearance of the case.

THE *Moniteur du Commerce* says that Messrs. T. R. Lamb & Co. have added a new and important branch to their manufactory, that of the making of glass and emery paper. A considerable plant and skilled workmen have been brought from the United States. This is the first manufactory of the kind in Canada.

GIVEN AWAY.—We cannot help noticing the liberal offer made to all invalids and sufferers by Dr. King's New Discovery for consumption. You are requested to call at Taylor & Macdonald's Drug Store and get a trial bottle, if you are suffering with Consumption, Severe Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Hoarseness, or any affection of the Throat or Lungs. It will positively cure you. —6.

DRUGGISTS throughout the country testify to the great merits of Dr. Carson's Stomach and Constipation Bitters. No medicine they sell acts so promptly in curing Dyspepsia, Indigestion, Biliousness, Liver Complaint, &c. Have you tried it? J. D. Tully, agent for Peterboro'.

AUCTION SALE

OF

"Moira Hall"

AND

FURNITURE.

The residence of the late MRS. COTTINGHAM will be offered for sale by Public Auction at the premises on

Friday, 10th of March Next

At 11 o'clock a. m. The Property is composed of Lots Numbers 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, according to Reid's plan of the South Quarter of Lot Number 12, in the 13th Concession of North Monaghan and containing six acres of land, more or less. The house is a large well-built brick building, nearly new, and in good repair. Amongst the advantages of the house, may be mentioned, a good furnace, which thoroughly heats the whole house, and fireplaces in all the principle rooms as well, a bath-room with hot and cold water pipes all in good working order, lightning rods, bells, etc. The house is comfortably arranged, and is easily heated, is papered, and in good order. There are suitable outbuildings, including stable, and fine, large greenhouse. There is is also a large brick lodge for man and family. The grounds are well laid out with beautiful shade trees, garden, etc. There is a large fruit orchard in full bearing. The property being outside of the Town Limits, although only ten minutes walk from the market, offers the advantage of low taxes, and would make a very desirable residence for a business or professional man. Intending purchasers can inspect the building on application to the man in charge at the lodge. After the sale of the land, the sale of the

FURNITURE,

Which is chiefly of walnut, and in good order, will take place.

Terms easy to suit purchasers, and will be made known at time of sale.

Notice of Removal.

The undersigned having leased the

"PETERBOROUGH HOUSE"

Situated on Hunter Street, at present occupied by John Sullivan, will remove thither on the 15th of February.

This hotel is well adapted for the accommodation of farmers and the travelling public, being situated in the most central portion of the town.

The undersigned proposes to conduct the hotel in a first-class style, the table will be always supplied with all the luxuries of the season, and the bar with the very best brands of liquors and cigars.

Good sample rooms will be provided, and commercial travellers will find it to their advantage to patronize my house.

Every effort will be put forth by me to meet the wants and comfort of farmers and others, and from my long experience in providing for my guests, the undersigned feels warranted in saying that his house will be found the most comfortable in town.

Good sheds and stabling, and a careful hostler always in attendance.

Kendall's Spavin Cure

For Horses and other Animals.—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved beyond a doubt that **"Kendall's Spavin Cure"** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns, bunyons, frost-bites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as for beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

☞Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1w1y

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation, when the cough is more observable, but rather dry; then becomes of a leaf fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. This free from strong opiate and astringent articles, which are often drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props.
MONTREAL, P. Q.

A NEW YORK TRAGEDY.

A Former Actress Suspected of Attempting to Murder her Husband.

NEW YORK, Feb. 28.—In the village of New Utrecht, about midway between Brooklyn and Coney Island, Geo. Barry Wall, a young lawyer whose office is in Wall Street, last summer rented a handsome summer residence, and with his young wife lived quietly. To outsiders they seemed devoted to each other. On Sunday last Jane Goodenough, a servant employed by the Walls, called S. W. Dewboise, sexton of the Dutch Reformed Church, out of Church and said that Mr. Wall was shot, and that he must have a doctor. The sexton and two ladies of the congregation went with the girl to Mr. Wall's house and found him in a bedroom in the second storey, lying on the floor with his head propped up with books, and his wife kneeling on the floor beside him, holding her finger to a wound in the side of his neck. The blood was spattered over everything, and was smeared over Mrs. Wall's hands and clothing. When Mrs. Wall removed her finger from the wound, the blood spurted in a stream. By the side of the wounded man was a pistol, also covered with blood. When the strangers entered the room, Mrs. Wall cried out:—"You must bring a doctor. He is getting faint, and I have been holding my finger here for twenty minutes. O, my husband, my poor husband! It was an accident. It was accidental." Doctors were summoned, and found that the ball had lodged in the vertebrae, producing paralysis. Wall finally said that it was an accident. Mrs. Wall told the police that her husband had been in the habit of keeping a loaded revolver on the table near his bed, and that morning he had neglected to remove it. They had started to take the train for New York, but missing it went back to the house. They entered the bedroom and Mrs. Wall remarked, "this is no place to keep a revolver," and picking it up intended to place it in a drawer, and while picking it up it exploded with the result shown. Her statement was believed, and no steps were taken the matter. Later on the statements of a servant and the gossips of the neighborhood induced the justice to place a watch on Mrs. Wall. This afternoon at three o'clock the doctors were hastily summoned to relieve Mrs. Wall of poison which she had swallowed. They found her lying upon a sofa calling for milk. Antidotes were applied and her stomach was relieved. This evening it was decided to move Mr. Wall to this city, but before doing so to have an *ante-mortem* statement. It was of such a nature that it was decided to lock up Mrs. Wall in the Town Hall. Mrs. Wall is a very prepossessing young woman in appearance, and has a fine figure. It is said that at one time she was an actress, and that she played with Boucicault in "Shaughraun." Mrs. Wall was formerly known as Miss Lizzie McCall, and her parents reside in Buffalo.

A KINGSTON MYSTERY.

A Young Girl Found Shot Through the Head in a Hotel.

KINGSTON, Feb. 28.—A terrible tragedy occurred in this city this afternoon. About a week ago a young woman arrived at the British American hotel and registered her name as Edith Gray Stokes, of Picton. She stated that she came to the city for the purpose of seeing a niece who was in the convent, and of whom she was guardian. She was not sure where the niece was, having only heard that she was in the convent, and she therefore enlisted the service of Mr. Davis, proprietor of the hotel, in searching for her. The day after her arrival, however, she was taken ill with hemorrage of the lungs, and was confined to her bed. Medical assistance was brought in, and every care possible given her. Having plenty of money she hired a nurse to look after her wants. In a day or two she recovered, and was able to be about, but only to be taken down again the next day with the same complaint. During her first illness she stated to her nurse that she was very wealthy, having a large amount of land both in Manitoba and Ontario, and that she was also possessed of considerable cash. On being taken sick the second time she was constantly attended by a medical student named Grange, who, it appears, proposed marriage, to which she consented. In the meantime, however, she became posessed of an idea that she was going to die, and would not be consoled. A will was drawn up by a lawyer, bequeathing a large amount of money and land to the student, and this the young woman signed. It also appointed him guardian of her niece. Before the day was over, however, she regretted her action, and declaired that she would never marry Grange. The will got into the hands of Mr. Eli Tree, clerk of the British American Hotel, who, at her request, destroyed it. The woman, who was in great trouble about the engagement, again sought the assistance of the proprietor. He demanded of her who she was and all about her. She stated that she had a guardian at Trenton named Titus, a lawyer. He was telegraphed to concerning the girl, and asked to come on to the city, and arrived this afternoon. The young woman was informed of Mr. Titus' arrival, when she sought her room, and remained there while he held an interview with Mr. Davis. After the consultation was finished they proceeded together to her room, but found the door locked. They called, but no answer was returned. They called again, but all was silent as before. On peeping through the keyhole they saw her lying on the floor. Thinking that she had been sick again (she had recovered from her second sickness sufficiently to be up) they burst open the door to render her assistance, but started back aghast, horrified at the sight that met their gaze. There she lay with a "Bluejacket" revolver by her side, and a wound in the inner corner of her right eye where the ball had entered. The location of the ball is not positively known. The doctor who was called in thinks she may live for a day or two, but that she cannot survive. On an examination being made of the wound it was found that the eyebrow was not singed—an indication that it was not a case of suicide. Her life has either been attempted or she is the victim of an accident, so the experts say.

A REMARKABLE outrage was commited the other evening on Queen Anne's "mean and sooty" statue in front of St. Paul's Cathedral, London. A man of wild appearance was seen to clamber over the spiked railing enclosing the effigy. With the agility of a monkey he climbed the figures forming the base of the statue, and then, taking an axe from beneath his coat, began to hack away at the features of the royal presentment, chopping off what remained of her Majesty's nose, and smiting off the right ear. Passing round to the rear of the figure, he vigorously set to work on the back of the head, chipping the stone away in large flakes all round. Having exhausted his passion, the man calmly decended, and again scaled the railings. When arrested, the prisoner explained it to the police that "the stars told him to do it."

FROM ALL OVER.

BUSINESS lots in Brandon now range in price from $60 to $200 per foot frontage, and are rapidly going up in price.

MR. ALEXANDER BEGG, of Winnipeg, has been appointed Land and Emigration Commissioner of the Canada Pacific Railway Company in England.

CRAMPS are immediately relieved by taking a teaspoonful of Perry Davis' Pain Killer in a little milk and sugar; it takes about two minutes to relieve the worst cases.

MRS. TAYLOR, proprietress of a city bagnio, in Winnipeg, has died, leaving accumulated property and riches to a well-known citizen. Not a very enviable legacy.

COUGHS, Colds, Asthma, Bronchitis, Pains in the Throat and Chest, relieved and cured by the use of Dr. Carson's Cough Drops. The most reliable testimony has been received as to their efficiency. In bottles, 50 cents. J. D. Tully, agent for Peterborough.

THE Brandon Sun says:—The train from the east was several hours late on Tuesday evening. Cause—a crowd of real estate agents on the track about five miles from the Postage station.

FIFTY dollars worth of three-cent stamps were sold in the Portage la Prairie post office one day last week. This is the largest amount of stamps ever sold in one day since the office was first opened there.

We have no nervous tonic at once so reliable and convenient as Fellows' Compound Syrup of Hypophosphites, and we, therefore, gladly recommend it in the diseases of such organs as depend for health upon involuntary muscular action.

KNOX Church and site, in Winnipeg, sold by auction, last Friday night, for $126,000, half cash and the balance on mortgage. Rental, $17,500 per annum for five years. John and Andrew Northwood were the purchasers.

QUANTITY AND QUALITY.—Are at their beds among animals and poultry that have their feed mixed with Harvell's Condition Powders, which destroy all disease and result in health, strength, fatness and prolificness. Make the stables and barn yards pay. These great specifics are for sale everywhere.

MR. JOSEPH GARNER, of St. Marys, started on a trip to Russia a few days ago. It is said he has gone to prospect for the sinking of oil wells and entering with a company largely into the production and refining of petroleum in the neighborhood of the Black Sea, in the South of Russia.

FROM HAMILTON.—A gentleman writes: "I have suffered for over four years with night losses and general weakness, caused by abuse. I had tried all the advertised medicines, and a number of eminent doctors, and found no relief or benefit. I have used twelve boxes of Mack's Magnetic Medicine, and am entirely restored." See advertisement in another column.

ABOUT nine o'clock on Saturday evening the large saw mill and furniture factory of Messrs. Flagg & Vroman, of Mitchell, was totally consumed by fire. Loss $8,000; insured in the Phœnix Mutual Insurance Company for $2,000. The cause of the fire is unknown.

"WOMEN NEVER THINK."—If the crabbed old bachelor who uttered this sentiment could but witness the intense thought, deep study and thorough investigation of women in determining the best medicines to keep their families well, and would note their sagacity and wisdom in selecting Hop Bitters as the best, and demonstrating it by keeping their families in perpetual health, and at a mere nominal expense, he would be first to acknowledge that such sentiments are baseless and false.—*Picayune.*

MRS. BELL, relict of the late Rev. Wm. Bell, of North Easthope, and sister of Mrs. (Rev.) Thomas McPherson, of Stratford, died very suddenly at her residence in Stratford on Sunday, 12th inst., from the bursting of a blood vessel. Her remains were interred alongside of her late husband's on Tuesday in that Township.

A MAN may be excused for being ill-natured when he has the rheumatism, but he cannot be excused for prolonging his misery by neglecting to use the Great German Remedy, St. Jacobs Oil. Richard Webb, a section hand in the Durfee Mills, Fall River, Mass., used the St. Jacobs Oil with the very happiest results, and cannot say too much for the Great Remedy. He had rheumatism and said the Oil cured him when nothing else would touch his case. Mr. Webb also says that one of the mill hands who was subject to violent attacks of rheumatism and had to go home from her work about once a month, writhing in the tortures of pain, was advised by him to use the Great German Remedy. She employed it and realized permanent cure. She now makes full time, and is in the enjoyment of perfect health.

THE Thomson & Williams Manufacturing Company, Stratford, have secured the contract for supplying the whole of the machinery of an extensive mill to be erected on the month of Red River, where it empties into Lake Winnipeg. The engine is to be of 60 horse power. The price is about $5,000, and the work has to be ready in six weeks.

IS IT A HUMBUG? Some people think all proprietary medicines humbugs. In this they must be mistaken. A cough medicine like N. H. Downs' Elixir that has stood the racket of 52 years must have some virtue, and must cure the diseases for which it is recommended, or people would not continue to buy and use it as they do. It seems to us that even if we knew nothing of its merits, the fact of its large and continually increasing sale justifies us in recommending Down's Elixir to all who may need a reliable cough medicine.

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

A POSITIVE CURE FOR DYSPEPSIA.—From Abram Mead, of Littleton, Mass.—"I have for several years suffered severely with Dyspepsia, accompanied by weakness and nervous irritability, which made life a burden to me. Nothing but the simplest nutriment could remain in the stomach without pain, sourness and windy evacuations, uncomfortable feelings in the head, bad taste in the mouth, catarrhal symptoms, inactivity of the liver and bowels, piles, general debility and a nervous state of extreme susceptibibility, made up a diseased condition rebellious to ordinary medical treatment. By advice of an eminent physician of Boston, I commenced taking Peruvian Syrup; at once I began to experience benefit. After taking three bottles all these bad feelings have left, my health is restored, and I enjoy life as well as ever. Most cheerfully do I recommend Peruvian Syrup." Sold by dealers generally.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CHAS. BUTLER,

HUNTER STREET.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

LOCAL AND MUNICIPAL.

Honour Roll.

The following is the honor roll for February of the Ashburnham Public School, W. J. Hallett, teacher :—

GRADE I.—(*a*) S. McGregor, M. Anderson, J. Anderson, K. Payne, A. Smith ; (*b*) F. Pakenham, G. Overton G. Goldie, H. Bridgewater, E. Long, E. Cook, G. Mills ; (*c*) P. Walker, K. Cadigan, E. Faint, A. Goldie, C. Mercer.

GRADE II.—(*a*) Stanley Matthews, Maggie McGregor, Maude Pakenham, Martha Emery, Effie Bennett, Katie Phillips ; (*b*) Lizzie Beattie, Charlie Crowe, Archie Wood, Aggie Wills, Maud Deacon, Freddie Long.

GRADE III.—(*a*) R. Dormer, Fred Cook, Alice Griffin, Maxwell Anderson, Fred. Downer, Gregor McGregor ; (*b*) Robert Erskine, Maud Weigester, Edith Cathcart, Harold Jewett, Maud Dawson, Minnie Hamilton ; (*c*) Willie Frith, John Lynch, Sarah Payne, Willie Mien.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station :—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

The Weather.

To-day is more like May than March, and there is every appearance of the weather glass being at "Set Fair." The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a. m. to-day, by the Great North-Western Telegraph Company, are as follows :—Lakes—Light to moderate winds; fair, mild weather.

Legal.

In the law reports for March 1st, we find the following under the head of the Chancery Division of the High Court of Justice, before Chancellor Boyd :—

"TOWNSHIP OF MONAGHAN V. DOBBIN.—Judgment delivered over-ruling preliminary objections to motion. Motion adjourned for two weeks from Tuesday last. Defendant's affidavits in answer to be served within ten days."

Missionary Meeting.

On Monday evening the annual missionary meeting will be held in St. Paul's Church, when addresses will be delivered by Rev. D. Mitchell, of Belleville, and others. The collection will be in aid of Home Missions.

The North-West.

The Rev. James Robertson, Superintendent of the Missions of the Presbyterian Church in the North-West, will visit Peterborough and preach next Sabbath morning in St. Paul's Church, and in the evening in St. Andrew's.

Peterborough to the Fore.

Mr. Thomas White, M. P., has received the hearty endorsation and re-nomination of the Liberal-Conservatives of Cardwell.

The Midland.

The Midland Railway of Canada Bill passed its third reading on Wednesday.

Commercial House.

For bright fine "Nor-West" Cream Ale, call at Bill Kenealey's, opposite the Post office.

THE HOMES OF FARMERS.

A farmer should do everything he can afford to make his home pleasant. One of the most attractive features of a country place is a roomy door yard. The old fashioned idea of a door-yard was the fences. If the house had plenty of picket fence around it and in front of it; if it was closely fenced in, the surroundings were considered complete. This was expensive, for fences will decay and posts will get away, and a tumble down fence soon ceases to be ornamental. This expense can be saved by tearing away the fences and leaving the dwelling to stand in open ground. The effect is to give the place a much more artistic appearance, and besides it is more economical. Why cannot farmers have "grounds" as well as others, who add these charms to their suburban homes? It is not necessary to have elaborate walks dressed with gravel or other material, nor is it essential that there should be "drives," graded and tended; but there may be grounds, nevertheless, artistically laid out, and beautiful to look at, and most enjoyable.

The space around a house may open and free, and seeded down to grass. This should be kept clean and tidy and the grass cut frequently. No trees should be set close to a dwelling to keep the sunshine and light out, but around the house, twenty or thirty feet away, shade trees may be planted. These should be trimmed up so that they will not hide the view, and under them the cool breezes will pass into the rooms, and over the dwelling will throw grateful shade. All these trees should be far enough away, so that the limbs will not reach the roof.

On one side of the lawn should be a fruit orchard filled with as great a variety of fruit trees as space and climate will permit. No regular order should be followed but a promiscuous grove, so that there will be a mingling of kinds, with a correspondiog mixture of blossoms and fruit. There is nothing more beautiful than such an orchard and nothing more attractive to a home. It should contain such a variety that in the early season and in the late, it will be fragrant with ripened fruit. No care or expense to speak of will be required for this portion of the "ground" after it has been well planted, except to mow the grass and every few years to dress it with manure. The trees will grow and each year furnish the table with most wholesome desserts.

On another side there should be a plot for flowers, large or small, according to the time which the owner or the household may have to spare for them. Hardy flowers and shrubs may be put in favored spots to render the picture more complete, and add to the beauties of the home. Many of these, like peonies and hollyhocks, will greet the eye as spring shall return, and the shrubs will uphold their beauty, untouched.

As a part of the grounds there should be a garden, extensive enough to utilize a horse and cultivator, and here a bountiful supply of vegetables should be grown.

A home with these surroundings is the privilege of any farmer. Beauty, comfort and economy may be united and become hand maids working together for contentment and hapiness. Grounds around the farmer's home should be reckoned by acres instead of feet. Children would gather at such a home and love it. They would stay. What a pleasing contrast such grounds are to the cramped and unatractive door yards which are generally connected with farmer's houses. Five acres would make a grand lawn. All the portion not required for a garden could really be a meadow and at the same time a flower garden, a fruit orchard, a nut grove. As an original outlay, the fences would cost as usually built, as much or more than the trees required to stock the fruit orchard, while repairs and new constructions always follow, whereas the fruit trees, once planted will renew themselves quite largely. The nut trees will grow from such an inexpensive beginning that no one need refrain from their culture on account of the expenditure. A few nuts of each kind planted when ripe and cared for a few years, cover all the expense and labor required. There is a sacredness to me in the old homestead where forethought in grandsire or father, has reared a comfortable home, and planted flowers and trees, and cared for them through all the years, until the time of manhood and womanhood for the children.—*Kerby Homestead, N. Y.*

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6 Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

AUCTION SALE

OF

"Moira Hall"

AND

FURNITURE.

The residence of the late MRS. COTTINGHAM will be offered for sale by Public Auction at the premises on

Friday, 10th of March Next

At 11 o'clock a. m. The Property is composed of Lots Numbers 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, according to Reid's plan of the South Quarter of Lot Number 12, in the 13th Concession of North Monaghan and containing six acres of land, more or less. The house is a large well-built brick building, nearly new, and in good repair. Amongst the advantages of the house, may be mentioned, a good furnace, which thoroughly heats the whole house, and fireplaces in all the principle rooms as well, a bath-room with hot and cold water pipes all in good working order, lightning rods, bells, etc. The house is comfortably arranged, and is easily heated, is papered, and in good order. There are suitable outbuildings, including stable, and fine, large greenhouse. There is is also a large brick lodge for man and family. The grounds are well laid out with beautiful shade trees, garden, etc. There is a large fruit orchard in full bearing. The property being outside of the Town Limits, although only ten minutes walk from the market, offers the advantage of low taxes, and would make a very desirable residence for a business or professional man. Intending purchasers can inspect the building on application to the man in charge at the lodge. After the sale of the land, the sale of the

FURNITURE,

Which is chiefly of walnut, and in good order, will take place.

Terms easy to suit purchasers, and will be made known at time of sale.

FRIDAY, MARCH 3, 1882.

VICTORIA'S ASSAILANT.

THE SIXTH ATTEMPT ON THE LIFE OF OUR BELOVED QUEEN SINCE 1840.

Full Particulars of the Dastardly Affair—A Cranky Grocer's Clerk this Time—A Dastardly Deed—Threats of Lynching.

Special to the Review.

We give the particulars of the attempt on the life of Her Majesty Queen Victoria, which we briefly mentioned in our issue of Thursday night:—

WINDSOR, March 2.—Late this afternoon, as the Queen, with the Princess Beatrice, was entering her carriage at the railway station to drive to the castle, she was fired at by a man in the crowd, happily without harmful result. The Queen had been in London holding a drawing-room reception, and was just returning. The royal train had just arrived and the station was crowded with Eton boys and townspeople, who with their hats raised,

WERE HEARTILY CHEERING

her as she crossed the crimson carpeted platform to the royal carriage. She had first entered the carriage, and the aged John Brown had taken his seat beside the coachman, who started the horses. While the air was still resounding with the cheers a shabby, ill-looking man about thirty-five or forty years old, standing at the entrance of the station yard among the other spectators, about thirty paces from the carriage, deliberately raised a pistol and fired at the Queen.

HE SEEMED ABOUT TO SHOOT AGAIN

when the revolver was struck from his hand by James Burnside, a photographer of Windsor. Others seized him, and the police rushed in and took him into custody. Meantime the Queen's coachman drove on as though nothing had happened, and reached the castle in safety. The crowd attempted to take the man from the police.

THE EATON BOYS CRIED "LYNCH HIM!"

and a rush was made toward the spot, where a handful of police protected the would-be assassin. But a cab was sent for, and the man was got safely away, though severely hustled. It should be stated at once that the cartridge is believed to have been blank, though the pistol contained two loaded ones. The noise of the shot was very slight, and the

QUEEN DID NOT HEAR THE EXPLOSION.

She only learned what had happened from her excited ladies-in-waiting and the commotion in the crowd. She was perfectly possessed, and sent back to the station as soon as she arrived at the castle to hear if any one in the crowd was hurt. A few minutes after the Queen despatched the following telegram to the Prince of Wales at Marlborough house:—

"In case exaggerated reports should reach you, I telegraph to say that as I drove from the station here, a man shot at the carriage, but fortunatel y hurt no one. He was instantly seized. I am none the worse."

The Queen's dinner-party at the castle was held as usual. Her Majesty appeared perfectly composed and possessed of all her habitual calm. On entering the police station.

THE WOULD-BE ASSASSIN

was promptly placed in the dock, while the particuiars of the case were entered against him. The prisoner, who to all appearances is a thorough crank, gave his name as Roderick McLean, aged 32. He stated that he was a clerk out of employment. He was a native of London, and was born in Oxford street. He said he recently came from sea, and had been in Windsor a few days only. Although dilligent search has been made no bullet has been discovered. The news of the attempt occasioned great

EXCITEMENT IN LONDON.

The Prince of Wales was one of the first to hear of the outrage. Mr. Gladstone and Sir William Vernon Harcourt, who were in the House at the time, received a telegram from Sir Henry Ponsonby, giving the particulars of the attempt, and stating that her Majesty was in no way suffering from the shock. The news spread rapidly in the House of Commons and created a profound sensation. The Premier, with Sir Stafford Northcote, at once sent a telegram to Her Majesty congratulating her on her providential escape. Numerous enquiries were made at Marlborough House late in the evening, and a large crowd gathered outside the gates.

RESOLUTIONS EXPRESSING HORROR

at the attempt to assassinate the Queen were passed at various meetings to-night here and in the provinces, including a meeting of Irishmen. The Czar, the Empress of Austria, and the Emperor William telegraphed messages of sympathy. The Queen held a dinner party as usual. No political significance is attached to the outrage.

THIS IS THE FIFTH ATTEMPT.

that has been made on the life of the Queen. The first was in June, 1840, by a crazy lad named Oxford. He was sent to an insane asylum for life. The second was in 1842, by John Francis, who was sentenced to be hanged, but who was transported for life. The third was in July of the same year by John Bean, who escaped with eighteen months' imprisonment; and the fourth was in 1875 by a half-witted Irish boy named O'Connor, who got off with a year's imprisonment and twenty lashes.

NO SYMPATHY.

LONDON, March 3.—The *Times* says that if no more can be said for MacLean, the would be assassin of Queen, than could be said for Guitean, the assassin of Garfield, or Lefroy, the murderer of Gould, he can as little expect any sympathy.

ABOUT THE SHOOTING.

LONDON, March 3.—Minister Rowell has tendered to the Queen, the congratulations of the American nation on her escape. A telegram expressing similar sentiments arrived at Windsor throughtout the night. It is officially announced that she Queen passed a good night and is not in any way affected by the attempt on her life.

MACLEAN PASSED A RESTLESS NIGHT.

He will be brought up at a special sitting of the Windsor Borough Justices this afternoon. Latest accounts appears that MacLean fired another shot after the carriage was in motion. The Princess Beatrice and John Brown saw him point the pistol at the carriage. He was

EXACTLY THIRTY PACES DISTANT

when he fired. The four loaded chambers of the revolver contained only two blank cartridges.

MacLean walked from Portsmouth to London a week ago. Upon his person was fund a purse containing a penny and three farthings, and a pocket-book containing the following:—"Reynold's newspaper gives as correct an idea of the wide difference that divides the people of England as any newspaper in the world. I note the free outspoken principles of an unbiased thinker."

MacLean was charged at the Police Station with shooting at the Queen

WITH INTENT TO DO GREVIOUS BODILY HARM.

He asked whether the Queen was hurt or not. They refused to give him any information. On searching the grounds the police found a small bullet embedded in the ground. It bore marks of having first struck some other object.

THE LATEST.

LONDON, March 3.—A special thanksgiving service was held at Windsor to-day for the escape of the Queen.

THE WOULD BE ASSASSIN.

McLean is now under examination before the Magistrates. He was stoned by the crowd while on his way to court.

IRELAND.

PARNELL has been punished by a week of solitary confinment in Kilmainham Gaol for breach of discipline in trying to smuggle a letter from the prison. Parnell denies the charge.

THOMAS FALIHEEN, who was arrested some six weeks ago in the Kildysart district and conveyed to Limerick gaol, where he is since confined as a suspect, is dangerously ill consequent on his imprisonment.

A MEETING of the Ladies' Land League was held in Cork on Feburary 5th. Two constables attended, but the members refused to give any information to the police. One lady played "Harvey Duff" on the piano. The police finally withdrew.

MR. T. J. O. DEMPSEY, having refused to give a promise to the Government for his future good behavior, in aid of the statutory reconsideration of his case at the end of three months of his imprisonment has been remanded by the direction of the Lord Lieutenant.

THE Queen's Bench on Feburary 9th decided that Major Clifford Lloyd had acted legally in committing for three months, in default of bail, Miss Bridget McCormic, who was charged before him at Tulla, County Clare, with inciting tenants not to pay rents, and gave no satisfactory explanation.

A POSITIVE CURE FOR DYSPEPSIA.—From Abram Mead, of Littleton, Mass.—"I have for several years suffered severely with Dyspepsia, accompanied by weakness and nervous irritability, which made life a burden to me. Nothing but the simplest nutriment could remain in the stomach without pain, sourness and windy evacuations, uncomfortable feelings in the head, bad taste in the mouth, catarrhal symptoms, inactivity of the liver and bowels, piles, general debility and a nervous state of extreme susceptibibility, made up a diseased condition rebellious to ordinary medical treatment. By advice of an eminent physician of Boston, I commenced taking Peruvian Syrup; at once I began to experience benefit. After taking three bottles all these bad feelings have left, my health is restored, and I enjoy life as well as ever. Most cheerfully do I recommend Peruvian Syrup." Sold by dealers generally.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

VICTORIA'S ASSAILANT.

LONDON, March 3.—The *News* says there is reason to believe that the attempt to kill the Queen is the out-come of some plot. It is rumored that after the occurence a man was heard to say that "the man in custody has not done it," but this has not been reported to the police. MacLean said he would not have done what he did had he not been hungry. It appears however that he took a hearty meal at a Coffee house shortly before the attempt.

RUSSIA'S TROUBLES.

ST. PETERSBURG, March 3.—The Emperor has abandoned the idea of receiving Skobeleff lest that should give him undue importance. It has been decided Skobeleff shall be kept as much as possible in the back ground. An immense secret printing establishment, has just been discovered at Odessa and several important arrests made. Grave charges are made against Greig and Makoff, ex-Ministers of Finance and Interior and Schamshine, privy councillor.

RUSSIAN AND TURKEY.

CONSTANTINOPLE, March. 2.—Russia has demanded priority for her claim on the Roumelian treasury of twenty-three million francs for the maintenance of the Russian army of occupation. The Porte contends that the siguatory powers must decide the amount due to Russia, and that the revenue the Russians collected while occupying the province must be deducted from the claim.

FORTY-SEVEN DROWNED.

LONDON, March. 2.—Advices from the west coast of Africa report that a ferry boat crossing the lagoon of Lagos capsized, and that 47 out of 60 persons were drowned.

MR. BRADLAUGH RE-ELECTED.

LONDON, March. 2.—Mr. Bradlaugh has been re-elected member of Parliament from Northampton. The vote stood:—Bradlaugh, 3,798; Corbett, 3,687. The Opposition members of the House of Commons have decided to resist any attempt of Mr. Bradlaugh's to take his seat.

AMERICAN.

A FLOOD.

SAN QUOIT, March 3.—The San Quoit Creek and Mohawk River were booming yesterday. Much damage was done in the San Quoit valley.

INDIAN MASSACRE.

DENVER, March 3.—It is now stated that the four Mormons including two women, reported as having been massacred by Apaches, were not killed but lost during a trip through Arizona and New Mexico. There are no particulars.

TOO MUCH RYE.

UTICA, N. Y., March 3.—John G. Ehring, last night on a wager drank two quarts of whiskey and died in a few hours.

MAIL SERVICE.

NEW YORK, March. 3.—The *Herald's* Washington special says it is not probable that the bill authorizing Post master general to contract with the steamships for carrying mails will pass the house.

CONKLING'S CASE.

WASHINGTON, March. 3.—It is understood that when the vote is taken on Conkling's nomination there was at first no quorum but one or two senators were afterwards persuaded to come in.

ROWELL OUT.

NEW YORK, March 3—9. a. m.—The scores at the walking match are:—Hazel, 475; Fitzgerald, 452; Hart, 437; Sullivan, 429; Nomenac, 426; Rowell, 415; Hughes, 406.

HAZEL LEADS.

NEW YORK, March 3.—At two o'clock p.m. the scores were:—Hazel 498, Sullivan 438, Normac 450, Hughes 420, Fitzgerald 475, Hart 456. Rowell has withdrawn altogether. At 2.19 p.m. Hazel completed his five hundredth mile.

FLOODED OUT.

NEW YORK, March 3.—All the lowlands west of Chester county and contiguous rivers and creeks are submerged. Houses are surrounded by water. Fences, outhouses, and bridges are gone down stream. The roads are impassable in the vicinity of the rivers, and are under water from six to ten feet.

DRIVEN FROM HOME.

MEMPHIS, Tenn., March 3.—The steamer Dean Adams, from Arkansas City, made thirty-five landings, some of them extremely dangerous. At nearly every landing men, women and children were driven from their homes by the floods. They were taken aboard. Detailed reports continue to arrive from different points confirming previous accounts of the immense damage by flood. It is estimated that forty lives were lost in the flooded district between Cairo and Vicksburg.

A HEAVY SUIT.

NEW YORK, March 3.—The General Term in deciding the appeal case of Attorney General vs. the North American Life Insurance Company, charges the receiver with abusing his trust and required 4 per cent interest be charged on his monthly balance. The Receiver claimed $390,000 commission. The Special term refused to allow his claim and reduced the commission nearly $40,000. The General Term affirms the decision of the lower court.

GREAT LOSS.

LITTLE ROCK, Ark., March 3.—Half of the stock in Chicot County has been drowned, the loss is $100,000. The losses in Mississippi, Crittenden, Disha, Phillips, Munroe and St. Francis Counties are estimated at $500,000. Five more men are reported drowned.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

QUANTITY AND QUALITY.—Are at their beds among animals and poultry that have their feed mixed with Harvell's Condition Powders, which destroy all disease and result in health, strength fatness and prolificness. Make the stables and barn yards pay. These great specifics are for sale everywhere.

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

Daily Evening Review

FRIDAY, MARCH 3, 1882.

OPPOSITION TACTICS.

The Independant Toronto *Telegram* has the following article on Sir L. Tilley's budget speech :—

"In all respects Sir Leonard Tilley's budget speech was a success. Obviously, it has rather alarmed the Reformers in the House, and it has irritated them profoundly. The vigour of it is alone an annoyance, but from the partizan point of view that is not the worst of it. Sir Leonard's account of the actual facts of the financial situation and condition of the country are eminently calculated to revive uneasiness among his political opponents, and his statements cannot be successfully contradicted. It is possible, of course, to give a slightly different account of those facts; but there is enough of keenness and common sense among the great bulk of the electors to distinguish between that which is most and that which is least true in those matters, and the truth is manifested on the side of Sir Leonard. The burden of his speech throughout is that there is an end to commercial depression in this country, and that the fiscal policy of his Government has proved all that was claimed for it. The Treasury Benches are further off than ever for the Opposition and Sir Richard Cartwright, and there is little doubt that were the general election to take place on conclusion of the session the present position of the two parties in the House would not be changed. The course adopted by the extreme faction of the Reform party with Sir Richard Cartwright as its leader, is not calculated to win much support. No doubt there are some anomalies in the present policy of Sir John and his colleagues, but when Sir Richard placed the disappointment and disadvantages of that policy under an enormous magnifying glass, and asks the electors to agree with him in thinking the proportions bewildering, he will find them stubborn in refusal. Politicians like Sir Richard, and newspapers like the *Globe*, continue to make a triumphant clatter about a state of affairs that does not exist, but they succeeded only in deceiving themselves. Their object is perfectly clear to the average elector—political hate and party rage. Both writer and politician are aware that they are playing a game. They both know perfectly well how the case really stands, and what the real condition of the country is; but it is their business, for mere party purposes, to misrepresent it, and to sustain their misrepresentation by exaggeration. The *Globe* is unfair and unscrupulous; Sir Richard is pragmatical and hair-splitting. But sulely the electors see through all this; surely the Reform party must understand it, and unless that party is blind to its own future as a party, it will protest; if not, the triumph it so cheerfully anticipated is yet a long way off."

RECKLESS DEFORESTATION.

Colonel Playfair, in his "Travels in the Footsteps of Bruce in Algeria and Tunis," gives the following description of the disastrous effects of reckless deforestation in the North African coast, about Susa. It is another much needed lesson for Canada :—

"We know (he says) that at one time the country was covered with forests. I myself have travelled for days over plains where not a tree exists, and yet where ruins of Roman oil-mills were frequently met with. Ibn Khaldoun, in his history of the Berbers, says, 'El Kahina caused all the villages and farms throughout the country to be destroyed, so that the vast region between Tripoli and Tangiers, which had the appearance of an immense thicket, under the shade of which rose a multitude of villages touching each other, now offererd no other aspect than than that of ruins.' Even in modern days the same destruction of forests has been continued, if not wantonly or for purposes of defence, as in the time of the early Arab conquerers, still as surely by the carelessness of their descendants, who never hesitate to set fire to a wood to improve the pasturage, or to cut down a tree when timber is required, but who never dream of planting another, or even of protecting those which spring up spontaneously from being destroyed by their flocks and herds.

In Bruce's notes, writtten 110 years ago, frequent allusion is made to forests through which he passed, where not a tree is now to be seen, and this is a work of destruction which must go on with ever-accelerating rapidity year after year."

PORT HOPE.

THE FRESHET.—The *Times* of March 2nd says:—There was quite an excitement in town yesterday over the freshet in the creek. The soft weather and rain caused an unusual quantity of water to come down; fortunately, however, there was but little ice. The railway track at Beamish's mills suffered to some extent by the water submerging it, and making considerable of a "wash-out." The trains are still able to pass over the weak portion of the track by going very steadily. No damage is anticipated there. The Lambert hotel property is but little damaged, though the cellar is pretty well flooded, as was also the first floor of Beamish's Mill, yesterday morning. Mill-st., opposite Salter's dam was completely flooded over, but the ice in the pond was soon washed off and the water had a clear passage. Fears are entertained, as we go to press, that some of the country dams have broken away but nothing certain is known. The creek has risen several feet since morning, and is still rising as we go to press. A good deal of rubbish and a few logs have come down in the stream, which is rushing along with great force.

A FLOURISHING INDUSTRY.—It is a pleasure, says the *Times*, to record that at least one industry is thriving. We refer to the tannery of Wm. Craig & Son. This long standing firm have been making strides forward for some considerable time past, showing that they possess a spirit of enterprise—a thing we are greatly in need of in Port Hope. We understand that this industry is now worked to its utmost capacity. Forty-two men are at present engaged in the different departments of the business. This result is due to a large extent to the National Policy, under the fostering care of which, and the business tact of its owners, we possess a manufactory which, we believe, has but one equal in capacity in the Dominion, and no superior in the class of goods manufactured.

THE MIDLAND BANKING CO.—This new financial institution, with Mr. Stanley Paterson at its head as president, has commenced business. Mr. Paterson's many years experience in connection with his own extensive banking business and the business management of the Midland Loan and Savings' Company is a guarantee to all having business with the new Company that every transaction will be conducted in the most careful, straightforward manner, and that both depositors and borrowers will have their interests as heretofore efficiently looked after. It is the intention of the Company to do a general banking and loan business, and its success may be said to be assured from the start.

CANINE SAGACITY.

Notable Incidents of Recent Occurrence—A Rough Looking Lot.

The *Sacramento Record Union* of February 1, publishes the following :

Was it instinct, or a grade of intelligence approaching reason of the higher order, that moved a dog to that strange act in a J. street store the other day? His master has at this season valentines for sale, and naturally the boys of the street are attracted by those of the comic order and miss no opportunity to examine them. The merchant is the owner of a remarkably fine specimen of the crossed St. Bernard and Newfoundland dog. The animal has had no special training, and has not been taught to watch or to know anything about property ownership; but it has been permitted to visit the store frequently, and has undoubtedly noticed that people are entitled to remove from the establishment whatever a salesman hands to them or permits them to take—and it may be reasoned in the same way that the dog has worked out to his own satisfaction that whatever is removed without delivery being made by an *attache* of the store is removed improperly, and that all good dogs should resist such efforts. Certain it is that the other day the dog acted upon that line of reasoning, if reason it is when manifested in one of the lower order of animals. A group of boys came into the store to examine the valentines displayed on the counters in tempting array. They were a

RATHER ROUGH LOOKING LOT,

and as soon as he could leave other customers the merchant hastened toward the boys. The dog was lying upon the floor near them. The boys soon concluded that they did not want to purchase, and were about to retire, when the dog arose, barred their passage to the door and growled threatingly. This surprised the salesman, who had never before known the animal to show any disposition to attack a person without apparent provocation. He accordingly spoke sharply to the dog, and on his still continuing to menace the boys, and show by his manner that he was opposed to their departure from the room, his master ordered him to the back part of the store, and started to enforce his order, when he espied a package of valentines sticking from the pocket of one of the boys. He immediately seized the youngster and searched him, and as a result found that he had stolen and stored away about his person a good supply of the tempting valentines. On the property being taken from the boy, the dog appeared to be perfectly satisfied, and gave the matter no further concern. It would be a work entirely without successful results for any one to attempt to convince that merchant that the dog did not know when the boy stole the valentines that he was stealing, and that it was his duty, as a faithful servant of a kind master, to do all in his power to prevent the loss of his property. And who shall say that he is not right?

SORROW OF A BLACK AND TAN.

The *Los Angeles Times* of January 31 details the annexed remarkable incident: It is a well known fact that a dog's affection for his master is far greater than for any of the dumb animals. As strange as it may look to the casual observer, the poor dog will leave his own kind and become the slave of his master without receiving any compensation whatever except a little food with numerous blows and kicks. Why this is so has been a conundrum to the student of canine nature, and will never be answered in this world. But one of the strangest cases that has been heard of came to light yesterday. It seems that about six weeks ago a man named C. Schweizer was taken to the county hospital and died on the 23rd of January. He was buried just a week ago to-day, and now comes the strange part of the story. Schweizer was the owner of a small black and tan dog. For years they had been companions. While he was sick at the hospital the dog stayed around on the outside, and when the corpse was taken to the Evergreens Cemetery the dog followed the hearse out and has been on the grave ever since without eating or drinking. Yesterday a *Times* reporter visited the cemetery, and was met by Mr. Corcoran, the sexton, who informed him that he had tried every means possible to get the dog away from the resting place of his master. A week ago the poor brute was fat and healthy, but now he is almost skin and bone, and looks as if he was about to follow his master to the realms of the unknown. A number of citizens visited the grave yesterday, and many a tear was dropped by the softer sex.

MILLBROOK.

AN OLD SETTLER GONE.—The *Messenger* says that on Tuesday Feb. 28., peacefully passed away, one of Cavan's oldest settlers, Mr. Richard Staples, who had reached the ripe old age of ninety years. Sixty-three years ago he left his native land, County Wexford, Ireland, to find a home in the New World. After living at the front, for three years, he located in the Township of Cavan, and has resided in this Township for over sixty years. He was one of the first settlers, and, for some years, had to carry his grist to Port Hope, on his back. The first house he put up, on his lot, was just long enough for him to lie down in. During his long life, he ever commanded the respect of his neighbours. Of ten children—eight sons and two daughters—one daughter and seven sons survive him. His remains was buried in the 9th Concession Cemetery, (on his own farm) on Thursday, March 2nd. His brother-in-law, Mr. Wm. Swain, who came to this country with the deceased, is still living, and is some months his senior.

SUDDEN FLOOD.—The *Messenger* says that owing to the warm wind and the strength of the sun, on Tuesday, what little snow was left rapidly disappeared, and filled the small streams Towards evening, rain set in, with a south westerly wind. About 9 o'clock the creek that is fed from Needler's dam, became much swollen, yet there was little expectation of a much further rise. About 3 a. m. this morning, an alarm was given that the dam was overflowing, although the water-gates has been open all afternoon and evening. This must have been caused by the south-westerly wind driving the water of the large pond to the head. In an incredible short time, the main part of the village was under water, from one to four or five feet. Some of the sidewalks are badly washed away, and the cellars were filled with water. The worst sufferer that we hear of is Mr. A. Fee, the drainage from his cellar into the sewage was stopped up. Besides considerable groceries his bake shop, which is in a corner of the cellar, is wrecked. This flood was quite unexpected, and was a surprise to every one.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

"I DON'T WANT THAT STUFF," is what a lady of Boston said to her husband when he brought home some medicine to cure her of sick headache and neuralgia which had made her miserable for fourteen years. At the first attack thereafter, it was administered to her with such good results, that she continued to use it until cured, and was made so enthusiastic in its praise, that she induced twenty-two of the best families in her circle to adopt it as their regular family medicine. That "stuff" is Hop Bitters."—*Standard.*

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved beyond a doubt that "Kendall's Spavin Cure" has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frost-bites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure. I have since then been well and free from lameness. It is very valuable for man as well as for beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

HAGYARD'S YELLOW OIL

CURES RHEUMATISM

FREEMAN'S WORM POWDERS.

Are pleasant to take. Contain their own Purgative. Is a safe, sure, and *effectual destroyer of worms* in Children or Adults.

"THE SEED TIME OF HEALTH."

Frazer's Magazine contains Dr. Richardson's address to the Brighton (Eng.) Health Congress, of which he is president. It is entitled "The Seed Time of Health," and contains much interest regarding the inherited, accidental, and inflicted perils to which the young are subjected or subject themseves. Dr. Richardson is a noted authority on health topics, and his views are, consequently, of value. Writing of inherted diseases he remarks that it is safe to say that no one is born free from taint or disease, and adds that there is no definable disease that does not admit of being called hereditary, unless it be accidentally produced. On the perils that are inflicted he discourses in these words:

The third among the perils incident to the early life are those inflicted by means of ignorance, or false knowledge and practice, or hard necessity, or all combined. These perils begin with the earliest days of infancy and continue onward. The tight swathing band in which the helpless infant is enrolled, as if it were an Egyptian mummy; the frequent error that is made in depriving it of its natural food, its mothers milk, and in substituring for that true standred of food, foods having no proper arrangement nor proper assimilable quality; the too hasty introduction to it of foods in common use in adult life; the not uncommon introduction even of stimulants to the young; the imperfect feeding of the mother and pampering her with stimulants when she undertakes the maternal duty of being nurse to her own child; the poisonous method of giving the soothing or narcotic quietness to children; the almost injurious plan of taking up children from their gentle life giving sleeps and exposing them to shocks, surprises and excitement that are injurious to every function of nutrition and mental repose; the confinment of the child in close rooms away from the fresh air; the evil plan of taking it out in the night air and into crowds and noisy places like the railway station or busy thoroughfares; the worse plan still, of scolding, frightening, and even slapping, the helpless thing, and thereby implanting in it a nervous irritable nature which it will never lose. These are the truly crying evils which in earliest, dreamiest and most eventful days and months of human life, plant, imperceptibly, their accused stings in every day of life that it is to follow. If young animals of lower life, that are to be bought and sold and made gross profit upon, were to be subjected to the same penalties, there would be such discomfiture in the selling of them that the reform of the manner would soon be accepted by the most ignorant salesman. It was so in the insane traffic in human flesh and blood. The child of the choise slave, intended ultimately for the market, was often better nurtured in its infancy than the child of the man who owned it, and be came a better specimen of humanity.

Those evils inflicted on childhood in its first estate are, moreover, followed later on by other evils not less reprehensible and by one worse than all, I mean the evil of endeavoring, during the time when all the nervous force the growing frame demands is barely sufficient to sustain the natural wants of nutrition, to tax that growing frame beyond the powers that belong to maturity, with competitive mental and physical labors. Both good in their way in moderate form, both necessary for health in moderate form, mental and physical labors are these days, made the bane of the nation. The false and useles effort which crumple up the animal and spiritual natures, making distate for all labor an early disease, and blighting every flower of genius so soon as it begins to bud, is equal in falsity only with the conviction it engenders, that men and woman are made but to learn up to the time of maturity, and that an education which is not what is called finished when the school or college is left behind is an education that can never be made up in after life. I know nothing so deathly to mind and body as this anxiety, now all but national in its exceptance, to complete education within twenty-one years, when the fact really is that length of life, and length of happy life, depend on the continued cultivation of mental and physical existence beyond all else.

He who has ceased to learn begins to die.

Schools for boys and girls do you say? "Yes," I reply; "and schools for men and women through every phase of life, if you would have them complete their career." That crystal brain of the young man, surcharged with more than it can bear, will discharge itself abruptly and remain an empty shell. But the crystal brain, always crystal, slowly charged and sedately assimilating, will retain its natural lucidity and power through every stage, and will animate to its natural termination the body to which it is the ministering spirits.

And still to this grand evil inflicted on youth there is a supplemental evil which adds physical to mental scathing, viz., the commission of corporeal punishment on the helpless young, before they know why that is wrong for which they are punished, and often when no wise man or woman could detect any wrong in any part of the savage performance save the wrong done by the one who punishes. To me, as a physician, nothing is more tainted with iniquitous injury than the corporeal punishment of children, which proceeds to teach what is believed to be wrong by the instant infliction of physical pain. To the punished and the punisher alike the system is as mischievous as it is barbarous. On the punished it brands hate, or servility, or palpitating fear. On the punisher it brands coward, tyrant, hasty adjudicator of rights and wrongs; while it so perverts the judgment, that he who would scorn himself if he struck a woman, will think the act right if a child be the object of his infliction. In another century it will sound as the tones of inquisitorial suffering sound to this, that in our public schools, not masters merely but masterful boys, should be trained, during the seed-time of health, to tund, to strike with ashen rods, their younger, feebler fellows for faults or failings, or it may, indeed, be virtues, which they themselves are not old enough to comprehend, nor wise enough to rectify if they did so much as comprehend.

A Flower that Explodes.

In some seasons nature's greatest blossoming effort astonishes and delights the traveler in presentation of the talapat tree (carypha umbraculifena) in bloom, which marvellous flower, it is said, appears only at intervals of many years and then bursts from its sheath like a rocket, with report like a small cannon, sending out immense feathery sprays of pale yellow or white color, laden with an oppressive perfume.

THE Sligo people have been informed that the Government are about to establish a convict settlement at the entrance to Sligo harbor. An officer of the Royal Engineers has lately inspected the proposed site, near the two lighthouses on Oyster Island, and he has reported favorably on the project.

A GOOD FILTER.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

St. JACOBS OIL

TRADE MARK.

THE GREAT GERMAN REMEDY.

FOR

RHEUMATISM,

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

Baltimore, Md., U. S. A.

March Almanac.

We quote the following revised prediction from Vennor's weather bulletin:—

Wednesday	1	The month may enter quietly
Thursday	2	in many sections, but will speed-
Friday	3	ily give place to a—
Saturday	4	*Storm period.* Cold and snow
Sunday	5	storms in Northern and Western sections.
Monday	6	A generally fair and mild
Tuesday	7	week in the majority of sec-
Wednesday	8	tions, with rains in Southern
Thursday	9	and Western, and snowfalls in
Friday	10	northern localities towards the end of the week.
Saturday	11	*Second storm period* of month
Sunday	12	with pretty general snowfalls.
Monday	13	Mild to warm weather, with
Tuesday	14	showers. Waters opening in
Wednesday	15	most sections. Week ending in
Thursday	16	
Friday	17	ST. PATRICK'S DAY.
Saturday	18	General, heavy rainfall, and
Sunday	19	snowfalls in western sections. Heavy rains at New York and Atlantic seaboard probably.
Monday	20	
Tuesday	21	A rather unsettled week in
Wednesday	22	most sections, with occasional
Thursday	23	snowfalls, and colder weather
Friday	24	towards the latter end.
Saturday	25	Generally cold, blustry wea-
Sunday	26	ther in Canada and U. S.
Monday	27	Fair, frosty weather along St
Tuesday	28	Lawrence, snowfalls probable
Wednesday	29	in Lower Provinces and West.
Thursday	30	Rains at New York and At-
Friday	31	lantic seaboard—high winds.

Two-thirds of this month are likely to prove stormy. There will probably be brief periods of unusual warmth.

Dated, February 20th, 1882. H. G. V.

CRAMPS are immediately relieved by taking a teaspoonful of Perry Davis' Pain Killer in a little milk and sugar; it takes about two minutes to relieve the worst cases.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

We have no nervous tonic at once so reliable and convenient as Fellows' Compound Syrup of Hypophosphites, and we, therefore, gladly recommend it in the diseases of such organs as depend for health upon involuntary muscular action.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

FROM HAMILTON.—A gentleman writes: "I have suffered for over four years with night losses and general weakness, caused by abuse. I had tried all the advertised medicines, and a number of eminent doctors, and found no relief or benefit. I have used twelve boxes of Mack's Magnetic Medicine, and am entirely restored." See advertisement in another column.

"WOMEN NEVER THINK."—If the crabbed old bachelor who uttered this sentiment could but witness the intense thought, deep study and thorough investigation of women in determining the best medicines to keep their families well, and would note their sagacity and wisdom in selecting Hop Bitters as the best, and demonstrating it by keeping their families in perpetual health, and at a mere nominal expense, he would be first to acknowledge that such sentiments are baseless and false.—*Picayune.*

WORTHY OF PRAISE.—As a rule we do not recommend Patent Medicines, but when we know of one that is really a public benefactor and does positively cure, then we consider it our duty to impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure billiousness, Fever and ague, Stomach, Liver and kidney complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—*Exch.*—Sold at fifty cents a bottle, by Taylor & Macdonald.—6.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

The Best Field FOR EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

Daily Evening Review

FRIDAY, MARCH 3, 1882.

GRAND ORANGE DINNER

TENDERED TO THE MEMBERS OF THE GRAND LODGE OF ONTARIO EAST.

By the Brethren of Millbrook and Cavan—An Unqualified Success—Some Eloquent Addresses—A Synopsis of Proceedings.

(From our own Reporter.)

The Grand Orange Lodge of Ontario East, having been in session in Millbrook on Monday, Tuesday and Wednesday, the brethren of Millbrook and Cavan on the latter evening entertained the members of the Grand Lodge to a dinner in the town hall.

The hall was beautifully and tastefully decorated with flags, banners, charters and mottoes, the principal of which were "R.W.G.L., of Ontario East, Welcome to Millbrook," "Boyne," "Enniskillen," "Aughrim," and "Derry."

In the gallery at the eastern end of the hall quite a number of ladies were seated, and remained till the close of the evening, appearing interested spectators of all that was transpiring. The tables, of which there were three, running the full length of the hall and one across, seated 150 persons, and were completely filled. The spread was undoubtedly one of the best that we have ever seen, and reflected the highest credit on Mr. W. Reynolds, of the Queen's hotel, who was the caterer, and at once placed him in the highest rank. Many of the speakers who have been at the annual banquets for years paid high tributes to Mr. Reynolds, and stated that the tables were the best that they had even sat down to.

The chair was occupied by Mr. T. B. Collins, County Master of East Durham, and the vice chairs by Messrs. Vance, Thorndyke and Atkins. The chairman was supported on his right by D. Marshall, Grand Master, and on his left by W. Johnston, Deputy Grand Master, and among the other grand officers present were Rev. Smithett, Grand Chaplain; Rev. Norriss and Smith, D.G.C.; A. T. VanIngen, Grand Secretary; R. Gordon, Grand Treasurer; R. J. Craig, J.D.G.M.; G. Bell, G.D. of C.; J. B. McWilliams, Grand Lecturer; D. Ewing, D. G. Secretary and others.

A pleasing feature of the occasion was that the supper was conducted on temperance principles, all the toasts being drunk in cold water.

After the cloth had been removed, metaphorically speaking of course, "the feast of reason and flow of soul commenced."

The chair gave "The Queen," song "God Save the Queen," followed in rapid succession by the "Governor-General and Princess Louise" which was appropriately received.

"The Army, Navy and Volunteers" by the chair. Song, Jolly Good Fellows.

Mr. A. J. VAN INGEN, Quartermaster of the 40th Battalion, returned thanks. The deeds of the army and navy of Great Britain needed no eulogy from him and the volunteers made the best possible show on the small amount they received from the Government. He had been in the artillery, cavalry and "flatfoots," and had catered for them all, and if he could always do it as well as he had tried to do it, through his friends on this occasion, he would be perfectly satisfied. (Cheers.)

Mr. MCGARBEY, of Cobourg, also returned thanks. The first company of volunteers he had ever seen came from Millbrook in 1866. He never wanted to see a sword drawn, but thought that if Canada was assailed, the volunteers could be depended on to do their duty. (Cheers.)

The CHAIR next gave the "Glorious, Pious and Immortal memory of William III."

Rev. Dr. SMITHETT, of Omemee, said that as he looked at the mottoes on the walls, he was reminded of the days of 1690-1-2, when William III settled the true principles of civil and religious liberty in Ireland. He carried his auditors back to Torbay, and saw each man as he landed put on an Orange cockade, while the fugitive King and his followers wore white cockades. Orangeism extends all over the world and has exerted a powerful influence for good. If you go to the Triennial Council, you will see representatives from England, Ireland, Scotland, Canada, the United States and from the whole world. A complete revolution has been accomplished. When William III landed there were only a few millions of people, and that constituted all who were under British rule. Now she ruled one-half of the world, one-third of the people and was complete mistress of the seas. (Cheers.) What did all this spring from? Civil and religious liberty. Once England was like Spain, but now she is first in arts, first in war, first in everything. She had sent people to 220 different places to give the inhabitants religion and civilization, and all this could only be ascribed to William III's influence, and that influence will never die "while the morning sun follows the drum beat of the English drum." (Cheers.) Orangemen were always looked on as leaders, and all members of the Order should teach their principles of British liberty and benevolence to the rising generation. Let us not sell our rights for anything personal. The King cannot do wrong, we love our country but in God we put our trust. All had but a short time to remain here and what we do here will not die with us. As you act, as you live, so your influence will widen out for good or evil. There was a glorious heritage handed down to us and all should remember our great motto "Our God, our Country and our Queen." (Cheers.)

The CHAIRMAN then gave the "Earl of Enniskillen." (Kentish fire.)

The Rev. W. A. SMITH, in reply, said that in responding to the toast of the Imperial Grand Master, he felt that he was not very far away from him. He felt that frequently people could nor honor positions, while the positions honored the occupants, and he felt the latter was the case with him to night. All classes and professions belonged to the Orange Order, men of the highest calibre, leaders of thought, and men occupying the highest positions of trust. They were banded together to resist a great evil, to scatter truth and expose error, to hold up things that have built up our country. All Romanists enjoy their liberties through the Orangemen. Members of the Order should take a leaf out of the Roman Catholic book, they were always a unit. He hoped the Order would progress and show the world that we are not only Orangemen in color, but also in heart and life.

"William Johnston, President of the Triennial Council," by the Chair, was received with "a salute of 21 guns."

Mr. R. GORDON, returned thanks. He eulogized Mr. Johnston highly as a man and an Orangeman, and held him up as an example for all to follow. There are good men in Canada, but if he was called on to select a first-class man he would cross the ocean. He referred to Ireland, the land of his birth, to the Boyne and Londonderry. He advised all to maintain their privileges. We should not remain idle until our work is accomplished, and until that is done "no surrender."

The CHAIR proposed "The Grand Master of British North America."

Mr. E. COCHRANE, County Master of East Northumberland, replied in one of the best and most loyal speeches of the evening. It was warmly received, and his reference to Canada brought forth loud cheers. He felt proud to be associated with such brethren, whom, he felt confident, had the welfare of the country at heart. He had met the Grand Master under rather peculiar circumstances, on one occasion, but he had met him since, and found him a thorough gentleman, and true to his colors. It was the duty of Orangemen to love their country. Canada he called one of the greatest in the world, extending as it does from the Atlantic to the Pacific, and from the 49th parallel to the frozen seas. Mr. Gordon loved Ireland, Mr. Smithett England, because those countries gave them birth. For the same reason he loved Canada. Canada will make a revolution in the world; in a few years, if we are true to ourselves, we will be able to feed the entire world. Look after the rising generation now going to the golden Northwest. The ladies in the gallery could exert more influence than all others. Take not the advice of Yankee emigration agents, but go to Manitoba. All met here on one common level. Ministers of several denominations were present. An open Bible made friends, and extended to all civil and religious liberty. He liked Roman Catholics as citizens but did not like their religion. We should not let our liberties slip from our grasp. He hoped that all would live in such a manner that the star would guide them home to realms of eternal day. (Loud cheers.)

"The officers of the Grand Lodge of Ontario East," from the chair, came next.

Mr. D. MARSHALL, Grand Master, said that being an Irishman, of course he felt timid, and after listening to such excellent speeches as had been delivered, they could not expect much from him. The Orange Society is very democratic, a feeling that permeates most Canadians. The officers of the Grand Lodge were selected on account of their long services, as it was justly proper that those who had served the order for years, should fill the offices. He thought that every Orangeman when joining, unless he felt that such an organization was necessary, should not take the solemn obligations he did. He recollected the time when in By-Town, now Ottawa, a Protestant could not go to church, without being insulted. That caused the Protestants to unite, Orange lodges were organized and are in existence yet. He also remembered, at Slabtown, near St. Catharines, that when some Orangemen were eating a dinner, as they would not be allowed to carry flags or walk in procession, they had to celebrate the 12th of July, by taking a quiet dinner—when a howling mob surrounded the building, and the Orangemen numbering only 25 drove off over 200. He referred to the Campbell and Scott murders, and said the last affair was the cause of the establishment of many lodges in Manitoba. He spoke of the Hackett murder and contrasted the conduct of Mayor Beaudry of Montreal, with that of Mayor Metcalf of Toronto, at the time of the Jubilee riots. He called the Hon. C. F. Frazer, a bigot. That individual had stated that the Grand Lodge expelled a member for voting for O'Donoghue, but the fact was that O'Donoghue's brother sympathized with the Fenians and made speeches at Buffalo, and he felt proud that the Grand Lodge expelled him. He thanked East Durham for their princely entertainment, and said that Cavan and Millbrook more particularly, Mr. J. B. Collins, should be credited. He had been asked where Millbrook was, when the question of meeting here came up, but he felt confident that the same question would not be asked again. It had been said that the Orange order was a political machine, but such was not the case. In public he always expressed himself freely. If Orangemen obey their ritual, it will make them liberal, better men and fathers, and happier in the world to come. If he possibly could he would carry out the wishes of the Grand Lodge and visit Ireland. He esteemed it an honor and would feel it the proudest day of his life to be present at the Triennial Council on the 1st of July, next. He would point out the great future of of Canada, our unlimited resources and freedom, and the civil and religious liberty that can be enjoyed here by all classes. People in the old land would be surprised to learn that we had Orange lodges everywhere—at every cross road, and the members are just as ready to fight for civil and religious liberty as our forefathers. He again returned thanks and resumed his seat amid great applause.

Messrs W. JOHNSTON and G. BELL also made suitable replies, but owing to want of space we are unable to produce them.

The CHAIRMAN next gave the "Grand Lodge of Ontario West." (Kentish Fire.)

Mr. CLARKE, of the *Orange Sentinel*, suitably acknowledged the toast.

"The Clergy," by the Second Vice-Chairman was responded to by Rev. Messrs. ALLEN and SMITHETT.

The Second Vice gave "the County Masters of Ontario East," which brought Mr. J. H. Delamere to his feet.

The First Vice gave the "Press."

Messrs. J. G. MACDONALD, Peterborough DAILY EVENING REVIEW, and J. CLARKE, *Orange Sentinel*, Toronto, replied.

The Third Vice gave "The Ladies." (Kentish Fire.) Replies by Messrs. HENDERSON and SMITH.

The GRAND MASTER proposed "Mr. T. B. Collins and Cavan." Salute of 21 guns.

Messrs. T. B. COLLINS, VANCE, and THORNDYKE responded in an appropriate manner.

"Our Host and Hostess" was the last on the list.

"God Save the Queen," by the Company, brought an exceedingly pleasant evening to a close, all present joining in complimenting Mr. Collins and the Millbrook and Cavan brethren for the princely manner in which they had been entertained.

Grand Lodge of Ontario East.

At Wednesday's session of the above lodge at Millbrook, the following officers were elected for the ensuing year. It will be noticed that all but one of them reside in this district:—

Bro. D. Marshall, Port Hope.....G.M.
" Wm. Johnson, Belleville.....D.G.M.
" R. J. Craig, Stirling.....Jr. D.G.M.
" Rev. T. W. Smithett, Omemee.G. Chap.
" Robert Gordon, Tweed.....G. Treas.
" A. J. VanIngen, Cobourg.....G. Sec.
" J. B. McWilliams, Peterboro'.G. Lecturer.
" Geo. Bell, Newboro'.....G. D. of C.

Our Members.

On Thursday there were three divisions in the Provincial Legislature. Dr. Kincaid voted with the opposition against the River and Streams' Bill, he voted with the government in favour of compelling municipalities to pay railway companies across whose tracks they made roads, half the value of the land, and again with the government to enable railway companies to repair street crossings and charge the municipalities with the costs. Mr. Blezard voted with the government on each of the three divisions.

Lively Work.

A few days ago two men in the employ of Wm. Hales, jobber for Messrs. Ullyott, Sadler & Co., Peterborough, named respectively Thos. Nesbit and Thos. McIlmoyle, cut 101 saw logs in 98 minutes, averaging 14½ inches. The logs were cut with a Lance Tooth saw, and the work was done fairly and honestly, for which the culler of the said logs can vouch.

The Weather.

The probabilities for this district for the following 24 hours, as reported from Toronto at 10a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes—Moderate to fresh north-westerly to northerly winds, fine cooler weather. Sharp frosts at night.

The Kennedy Family.

We are pleased to be able to state that Kennedy, the celebrated Scottish vocalist, will visit Peterborough on his return from the United States, and will give a farewell entertainment in Bradburn's Opera House on Tuesday the 14th of March.

No Quorum.

Messrs. Grant, McGrath and Dr. Hourigan were the only members of the Separate School Board who put in an appearance for the regular monthly meeting on Thursday evening.

Commercial House.

For bright fine "Nor-West" Cream Ale, call at Bill Kenealey's, opposite the Post office.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

Young maiden if you'd boast those charms
That win a lover to one's arms,
And that may never let him go,
'Twill be through Sozodont whose powers
Gives to the breath the balm of flowers,
And leaves the teeth as white as snow.

Bucklen's Arnica Salve.

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.
The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.
Five minutes inspection will verify this statement.
A full range of INSERTINGS to match and of equal lengths.
WE shall be pleased to quote prices, and will cut off any length that may be required.

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

AUCTION SALE

OF

"Moira Hall"

AND

FURNITURE.

The residence of the late MRS. COTTINGHAM will be offered for sale by Public Auction at the premises on

Friday, 10th of March Next

At 11 o'clock a. m. The Property is composed of Lots Numbers 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, according to Reid's plan of the South Quarter of Lot Number 12, in the 13th Concession of North Monaghan and containing six acres of land, more or less. The house is a large well-built brick building, nearly new, and in good repair. Amongst the advantages of the house, may be mentioned, a good furnace, which thoroughly heats the whole house, and fireplaces in all the principle rooms as well, a bath-room with hot and cold water pipes all in good working order, lightning rods, bells, etc. The house is comfortably arranged, and is easily heated, is papered, and in good order. There are suitable outbuildings, including stable, and fine, large greenhouse. There is is also a large brick lodge for man and family. The grounds are well laid out with beautiful shade trees, garden, etc. There is a large fruit orchard in full bearing. The property being outside of the Town Limits, although only ten minutes walk from the market, offers the advantage of low taxes, and would make a very desirable residence for a business or professional man. Intending purchasers can inspect the building on application to the man in charge at the lodge. After the sale of the land, the sale of the

FURNITURE,

Which is chiefly of walnut, and in good order, will take place.

Terms easy to suit purchasers, and will be made known at time of sale.

Daily Evening Review

SATURDAY, MARCH 4, 1882.

WARNING.

To the Editor of the Review.

SIR.—An insidious attempt is being made to obtain a cash bonus of $20,000 from the town for the proposed carworks company. The advocates of this scheme say that they want the town to become stockholders in the company, but as this cannot be done until an Act of Parliament is passed empowering the corporation to subscribe for stock, they, in the meantime, ask for the bonus.

Is it likely that the Government would pass an Act to enable municipalities to engage in manufacturing enterprises or business speculations? I think it would be a most dangerous power to give to any municipality.

In this case we have a number of wealthy gentlemen who have subscribed for stock in the Peterborough Carworks Company, and the first thing they do after the stock has been taken is to ask the town to give them a bonus of $20,000 to increase the value of their stock. If this bonus should be granted the stock will undobtedly sell at a premium, the stockholders could sell out at a profit, and we should be apt to see a repetition of the Toronto and Ottawa Railway job—calling it by no harsher name. It is most desirable that the carworks should be assisted by the town, as they would certainly be a great benefit both to the town and neighborhood. But this should be done by exempting the works from taxes and by giving land for the buildings, yards and sheds. The day for granting bonuses is fast passing away, as much evil has been done by that vicious system.

Peterborough is prosperous because it is out of debt, because it is the best produce market in Canada, and because it is the headquarters of the Midland Railway Company.

The town has again and again lately decided against granting bonuses, and wisely too, and the people should give such a vote on this by-law as would discourage further attempts in that direction.

What sight is more deplorable than to see a poor person's stoves and few articles of furniture sold by the Collector for taxes on the market square—taxes for moneys that, in some instances, never should have been raised or spent.

Mr. Ponsette's resolution in the town council reads:—"That whereas it is expedient to grant a bonus of $20,000 to the proposed carworks only on condition that the amount of said bonus be repaid to the town upon the town taking stock in the company to the same amount." If the town cannot legally take stock, what then? Once the money is paid over would it be to the interest of the company to trouble themselves about getting an Act of Parliament if such an Act could be obtained? I fear it would be something like the $2,000 given to assist the Toronto and Ottawa railway. If it is desirable to take stock in the company would it not better to loan the company the $20,000, taking security for the same until stock could be legally subscribed by the town? The tendency of the present age is to form syndicates, amalgamations and monopolies—a centralization of capital, and in most instances for which the masses have to pay dearly. I trust the ratepayers will give this matter their serious attention before they consent to burden their properties by additional taxation by voting for this by-law.

X.

Peterborough, March 4, 1882.

Those Who May Vote.

In connection with the coming vote on the Carworks question, we have taken the trouble to ascertain the number of person, who, according to the voters' list, may vote on the question and find that they number 819, divided as follows:—

Ward No. One	261
Ward No. Two	158
Ward No. Three	254
Ward No. Four	146

As the law now requires that one half of the qualified voters whose names appear on the voters' list, shall vote for a money by-law to carry it, it will be necessary for 410 votes to be polled in favour of the carworks by-law.

A Little Winnipeg.

The Port Hope *News* says that property is booming at Midland City. A lot that was purchased there a couple of years ago for $200, was sold again last week for $3,400. From that it may be seen that Mr. Hugel has as great a bonanza in the Midland Land Co., as holders of Winnipeg property. Mr. Hugel has great faith in Midland City.

SHOOTING AT VICTORIA.

Trial of the prisoner—Remanded—Resolutions of Sympathy—The Would be Assassin Moved.

LONDON, March 3.—The prisoners was driven to the town hall in an an open fly at half-past one in charge of Superintendant Hayes. He had a wretched look, and is a man very much of the Guitteau type. He was unclean and unshaven. He has a slight black moustache. He was immediately taken before the magistrates, the Mayor of Windsor presiding. Mr. Stevenson, solicitor to the Treasury, prosecuted. In reply to the Mayor the prisoner said in the most off-hand manner and firm voice that his name was "McLean," Roderick McLean," Superintendant Hays then swore to the facts of the shooting, and also testified to the letter found on the prisoner. The letter was read. It said that the prisoner would not have done the crime had ten shillings been given to him, instead of the insulting small sum of six shillings. He was compelled to commit the crime against

THE "BLOATED ARISTOCRACY,"

headed by that "old lady Mrs. Vic." The witness further said that this morning the prisoner wished to make a written statement, saying, "I have a complete answer to the charge." He then wrote a letter. In it the prisoner said he was not guilty of shooting at the Queen with intent to do her grievous bodily harm. His object was only to create public alarm, with the object of having his grievances redressed. His pecuniary straits and circumstances tended to prove the truth of the statement. Had he cared to have injured the Queen he would have fired at her as she was getting out of the carriage. As it was he shot at the wheels but the pistol kicked and the bullet might have hit the carriage door. The prisoner was remanded.

A LOYAL DEMONSTRATION.

Before beginning business on the Stock Exchange this morning, all the members in the room sang "God Save the Queen."

HOW M'LEAN MISSED HIS AIM.

McLean roughly endeavoured to force his way through the Eton boys at the station to a good position to await the passage of the Queen and the consequent hustling prevented his having an opportunity to fire when he might have done so with worse result. There are various accounts as to whether his arm was struck while firing, or after he had fired. An eye witness of the shooting states that McLean was observed fumbling in his pocket while the Queen was being helped into the carriage, but the pressure of the crowd prevented him raising his arm till the carriage was in motion. The same cause made him aim very wide.

THE BULLET

found in the station yard weighs about one-third of an ounce, and corresponds with the others found on McLean. Before the revolver was seized the prisoner brought another loaded chamber opposite the hammer.

THE POPE'S REGRETS.

The Pope has telegraphed his regret at the attempt upon the Queen and congratulations upon her escape.

LUNATIC ASYLUM INMATE.

The police has ascertained that McLean was formerly in the Wells lunatic asylum and was only discharged in September last. A solicitor has written to the Mayor of Windsor stating that he defended a man named Roderick McLean at Maidstone in 1874 charged with attempting to upset a train. The *News* says it may be pretty safely concluded that McLean is insane. Since his discharge from the Wells asylum he has been confined in the Weston-super-mare asylum. The police have received information that he was incarcerated in Dublin asylum for many months.

THE QUEEN CHEERED.

The Queen drove through Windsor to-day, and was welcomed with indescribable enthusiasm.

SYMPATHY FROM CANADA.

OTTAWA, March 3.—The following is the text of the joint address of the Senate and Commons to the Queen:—

"*To the Queen's Most Excellent Majesty:*

"MOST GRACIOUS SOVEREIGN,

"We, your Majesty's dutiful and loyal subjects, the Senate and Commons of Canada in Parliament assembled, desire most earnestly, in our own name and on behalf of the people whom we represent, to renew the expression of our unswerving loyalty and devotion to your Majesty's person and government. We were profoundly shocked, may it please your Majesty, by the intelligence which was received by telegraph yesterday that an attempt had been made on your Majesty's most honoured and valuable life. We take the earliest opportunity of adding our congratulations to those which we are persuaded will come from our fellow-subjects in all parts of your empire at your providential escape from so grave a peril. We are deeply grateful to the Author of all good for averting a dire calamity from your Majesty's people, and thankful to Him that your Majesty's life may still be counted among the precious possessions of your devoted subjects.

"We pray that the blessings of your Majesty's reign may long be continued.

(Signed) "D. L. MACPHERSON,
"Speaker of the Senate.

"J. G. BLANCHET,
"Speaker, House of Commons."

Our Champion Skater.

The Hastings *Star* in discribing the recent carnival in that village says:—

"The chief attraction of the evening was the fancy skating of Mr. E. J. Hartley, of Peterborough, (It may not be out of place, here, to correct an an error into which we had fallen, by stating in our last issue that Mr. Hartley is a professional. Mr. Hartley is simply an amateur, never having entered the professional arena.) The performance of this gentleman was truly wonderful, no feat, however difficult, appeared impossible of execution, the rapidity of movement and variety of execution renders a description impossible. The exhibition must be seen, to be understood and appreciated. The managers of the rink presented Mr. Hartley with a silver medal at the close of the exhibition which lasted about forty minutes."

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

BRIGHAM'S BODY.

OMAHA, Neb., March 4.—A Morman who is not a polygamist, visiting here, is reported as saying that he believes that Brigham Young is still alive. He saw a body supposed to be that of the Morman leader and while it possibly might have borne a slight resemblance to Brigham Young, it was in reality some other man. He knows hundreds of latter day saints who also failed to recognise the body of Young. He heard that Young often predicted that he should be resurrected from the dead. He believes that when the crisis arrives in the affairs of the Mormons that the resurrection dodge will be played upon the ignorant fanatical Mormon people. He asserts that with complete organization of the secret working of the church it would be easy to keep Young almost any length of time. He asserts that the alleged remains did not bear any resemblance to Young.

THE GREAT WALKING MATCH.

NEW YORK, March 4.—Popular interest in the walking match is increasing. At 11 o'clock a.m. Hazel was 20 miles ahead of Fitzgerald's great time made in his last match. Hazel has given his trainers more trouble than the other men owing to his stubbornness. 12 o'clock, noon, Sullivan is the most badly broken up of the six., $42,000 will be divided among the winners. Rowell has entered the building and was greeted with loud clapping of hands. 12.45, Hart has completed his 525th mile. He finished the last lap in a rapid run and was loudly applauded. Noremac is suffering from severe bleeding of the nose.

2 o'clock p.m., the score now is Hazel 584, Fitzgerald 562, Noremac, 539, Hart 529, Hughes 520, Sullivan 507.

SCOVILLE TO RETIRE.

WASHINGTON, March 4.—Scoville intends after the hearing before Judge Cox on his bill of exceptions, to withdraw from the Guiteau case. He feels that he will then have done his whole duty. He understands that Reed will also withdraw, and Guiteau will seek other counsel to argue before the court *in banc*, Scoville retires because his treatment at the hands Guiteau has been shameful.

A DESPERADO.

MORGAN CITY, La., March 4.—Jas. Woods the other day at Ship Shoal lighthouse, attacked Edward Dunn, the keeper, and assaulted a man named Leach, with a pistol and hatchet. Leach was badly cut and shot three times. Dunn was also shot three times. The latter shot Woods in the knee. Woods had possession of the lamp for 48 hours, and then surrendered. He has been brought here. The wounded men will recover. It is suspected that Woods killed two other men here.

IN WANT OF FOOD.

LITTLE ROCK, Ark., March 4.—At Loconia Circle the heaviest loser is Dr. Blackburn, the noted breeder of blooded stock, and brother of the Governor of the state. Other planters were damaged from $5,000 to $10,000 each. It is estimated that from 5 to 10,000 people require rations for a time at least.

MODERN MIRACLE.

STENBENVILLE, O., March 4.—Mrs. Owens, has been in a helpless condition for months, on Thursday she read her bible and prayed that her health be restored. She arose, dressed herself and seemed entirely recovered.

BOILER EXPLOSION.

STONE, Ind., March 4.—A boiler at Wester and Barne's handle factory exploded, killing Geo. Wester, head clerk; Robert Randall, Wm. Yanker, Wm. Fleming and Lewis Mann. Three others were seriously injured.

THAT JUDGESHIP.

WASHINGTON, March, 4.—It is reported that prominent citizens are strongly urging Conkling to accept the nomination. It is understood that if Conkling declines the Judgeship the President will strongly urge Edmonds to accept it.

ANOTHER "MILL."

NORTH ADAMES, Mass., March 4.—Dane Hewett and a man named Sparrow, had a brief prize fight on Johnston's Island on Thursday. Fifty spectators were present. Hewett won. Several hundred dollars changed hands.

MR. EDW. HAMILTON, of the Grand Opera House and Ubrig's Cave, St. Louis, Mo., is a gentleman well-known to the theatrical profession and the respective patrons of those places of amusement. His experience is most peculiar and opens a new case for the inestimable remedy spoken of. "I had been riding on horseback one afternoon," said Mr. Hamilton, "and was pretty well tired out. In getting off my horse I gave my right leg a severe wrench, but as it did not inconvenience me at the time I paid no attention to it. In a very short time, however, an excruciating pain came on in the vicinity of the hip,—this recurring ever ten minutes and seeming to grow wors with every recurrence. I went to a doctor, who made an examination and said nothing ailed me. But I knew better, for I could hardly walk. He gave me something to bandage the leg with, but it was of nor more avail than so much water. Late in the evening I was attending to my duties at the Cave and limped so badly that several people asked me what was the trouble. A friend advised me to get St. Jacobs Oil, and told me I had undoubted strained a leading sinue. It was too late that night to get the medicine, and even after I got to bed it was like a severe cramp, coming at periods, and I passed a miserable night. Early in the morning I procured a bottle of the Oil, and, saturating a silk handkerchief with it, and bound it aronnd the affected part. It seemed to work its way right in and found the sore place. I was quiet all day and kept applying the Oil. In the evening I was straight as a die, and no trouble from the strain have I noticed or experienced since."

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

Daily Evening Review

SATURDAY, MARCH 4, 1882.

FOOD FOR REFLECTION.

When publishing the census figures for this county, the other day, we called attention to the fact that the figures for 1881 when compared with those for 1871 indicated that in the older settled townships population had already reached a maximum. Since then we have taken the trouble to compare the returns of 1881 with those of 1871 for a number of the older townships in the adjoining counties, and the following is the result:—

Township	*Pop. in '71*	*Pop. in '81*	*Dec.*
Haldimand	5,796	5,401	395
Hamilton	5,721	5,155	566
Murray	3,638	3,560	78
Hope	5,075	4,522	543
Manvers	4.114	3,976	138
Darlington	5,931	5,465	466
Clarke	6,728	5,169	1,559
Cartwright	2,514	2,357	157
Ops	3,350	3,358	Inc. 8
Mariposa	5,363	5,531	" 168

So far as we are aware the limits of these ten townships were precisely the same in 1881 as they were in 1871. If so, then the comparison is a fair one, and may be taken as indicating the course of population in the rural and well settled districts of this province. It will be observed that out of the ten named only two show an increase, and in both of these cases it is to be noted, that it is more than probable that their increase is attributable to other causes than that of agriculture, inasmuch as the first one surrounds the town of Lindsay and the second has several incorporated villages within its bounds. In all the other cases a decrease in population is shown. Nor should we be surprised to find that such is the case. As the country becomes cleared, the land improved and rendered fit for agricultural machinery, true economy will necessitate larger farms than in the earlier stages of settlement. The same machinery that is required to work a hundred acres will work two and even three hundred quite as well, and so on through nearly the whole of the capital required for the profitable and economical working of a Canadian farm in the present day, and such being the case, so far as this aspect of farming is concerned, the state of affairs indicated by these figures is certainly not to be deplored.

But, if the population of our rural districts has reached a stand still, it must be evident that the population, and consequently the growth, of those towns and villages which are entirely dependent upon the trade of the agriculturist for their support, must very soon, if they have not already done so, reach their maximum growth, and that to prevent such a result, it will be necessary for such towns and villages to become something more than mere marts of exchange for the people of the surrounding townships and the distant producers of those articles which the farmer requires to obtain in exchange for the products of his farm. In other words if the older settled districts of this province are to go on increasing in population, it must be brought about by there being manufactured or produced *within* these districts articles which are now imported from without. If Peterborough, for instance, is to grow, she must not be content to rely solely upon the number of her stores and the ability of her merchants, to give better value for the farmer's money than perhaps any other city or town in the Province—desirable and calculated as these things are to draw to us the trade within an unusually large circle of country—but we must try to increase our home production of what our customers require, and of articles which will find an outside market. While it only takes a man a few minutes to buy and sell a suit of clothes, a reaper or wagon, it will take several men a good many minutes to make any one of these, hence the greatest advantage accrues to the places where they are made, not to those where they are sold.

Nor does the advantage derived from "home" manufacturing accrue only to the towns and villages in which such manufactures is carried on. The farmers of the adjoining townships have a deep and abiding interest in everything which increases the population of the towns and villages in which they do their trading. While it may be difficult to trace the direct effect of an increased home market upon grain which is easily transported from point to point, every farmer knows full well the importance of having a good market near his own door for the numerous articles, which he can and must produce to farm profitably, but which will not bear the risk and cost of long transportation, and for a profitable market for which he is entirely dependent upon the home consumer. Every farmer in the townships adjoining Peterborough knows full well that it would be of great advantage to himself if the population of Peterborough could be doubled or trebled.

Just as the merchant wants to see and profits by an increase of customers, for what he sells, so does the farmer by an increase of customers for the dozen and one articles which he offers for sale in our market from week to week. In fact the thing is so patent that it seems superfluous to state it, notwithstanding that there are some who use arguments which, if they mean anything, mean that the proximity of a manufacturing population is of no benefit to the farmer. As we have already said, all history proves that manufacturing and prosperous farming go hand in hand. There is no country in the world where manufacturing has been carried on to the same extent as in Britain, and there is no country in the world where agricultur – that is the profits derived from the lands and labour spent upon it combined—has been so great as in Britain. In Turkey, for instance, where manufacturing is at a minimum, the agriculturist too is at the foot of the ladder. Indeed it is not necessary to go so far as Turkey for a comparison, because we have only to cross the channel to Ireland to realize the baneful effect of divorcing manufacturing from farming and limiting the energies of a people to a single pursuit.

But to come back to the lesson which we conceive the census figures should teach, and from which we have in some measure wandered in the foregoing general observations, we would invite the people and especially the owners of property in the town of Peterborough to ask themselves what must be the future of our town if we do not in some way put forth an effort to increase its manufacturing population. So far as the trade of the surrounding townships is concerned we think it can scarcely be questioned that our town has reached its maximum. If so are we content to stand still, or will we put our shoulders to the wheel, and venture something in order to gain something? It may be said, it no doubt will be said, that the N. P., if it is all that it has been represented to be, should make this a manufacturing centre. But the N. P. was not designed specially for Peterborough. It was designed to increase manufacturing within the Dominion, and it is doing that. But it was not, it cannot be so framed as to give Peterborough any advantage over any other place within the Dominion. If we want to get the start of our neighbors we must help ourselves. Again it may be said, and said with truth, that Peterborough's natural advantages are at least second to those of no other place for the location of manufactories, and that if it will not pay to start these without municipal assistance they are not worth encouraging. In theory this again is correct, but people are not going to invest their capital in Peterborough if they can invest it to better advantage, all things considered, elsewhere. And this being the case, the question is: Are our property owners going to sit still and do nothing; while their rivals are holding out inducements which more than counterbalance our natural advantages? Is it their interest to do so? After all they are the people who will make or lose by any thing that is done. If business increases, and population increases, rents and the value of lots will increase, and the merchants and traders who remain will just be very much where they are now. In this case their number will adjust itself with the trade to be done; in the other cases the stores, houses, and land, must remain where they are and their value will just be in proportion to the demand which exists for them. Consequently the food for reflection which we have suggested concerns chiefly the property owners of our town, and we leave it here for the present at least.

LINDSAY.

A Fatal Operation.—The *Post* says that on Friday afternoon Mr. Robert McMahon, who worked for Mr. Hawkins, near Mount Horeb, came to town to have a toe which had been frozen amputated. He was accompanied by a neighbor, Mr. Moore. Dr. Burrows assisted by Dr. Coulter undertook the operation, and at the request of the patent administered an anæsthetic, a mixture of chloroform and ether. An examination of the man by the medical men showed that his pulse was regular and beat normal, and in fact there seemed to be no reason why the anæsthetic should at not be given. The doctors affirm that no time during the operation was the patent thoroughly under the effects of the mixture administered and that at the conclusion of the operation his breathing was natural and conditions favorable. Suddenly he gave a gasp or sigh and a moment after expired. The usual means to bring about resuscitation were immediately tried. Dr. Poole was summoned and brought a battery and suggested other means for the restoration of vitality, but without success, the man having died, we are told, from the shock induced by the amputation which must have been great in a man of his age, nearly fifty-five years. No inquest was held, the friends believing that every precaution had been taken, and that the man had died from causes beyond the control of the physicians. The body was taken home by his friends for burial. As a good deal has been said regarding the omission of an inquest, it may be said that Drs. Burrows and Coulter went to Dr. Poole and desired that gentleman on his authority as coroner to hold the inquiry. Dr. Poole concurred in the view that an inquest was desirable, and in keeping with the law in this matter directed them to apply to the county attorney who would issue his order. Application was made to Mr. Devlin who at once gave the necessary directions. As has been said the friends decided not to go on with it and removed the remains for interment.

A still further boom.—Among those of our local manufacturing men who propose to catch on and get the benefit of exemption from taxes upon the conditions of increasing their facilities is Mr. L. O'Connor. The carriage and wagon trade done by Mr. O'Connor has been steadily on the increase and noticeably so during the past few month, and the premises at present used by him are cramped and somewhat inconvenient. He has had a favorable offer to make use of the property on Kent street nearly opposite the Benson house, from which the present tenant is going in a few days. By erecting an addition to the rear some 30x60 feet and two stories high, Mr. O'Connor can have just the location he needs, using of course the rooms over the ground flat. The store, a large and roomy one, will be turned into a carriage show-room and will be very convenient and well fitted for the purpose. To obtain the exemption Mr. O'Conner will have to employ a larger number of hands, enough to allow him to come within the line proposed to be laid down by the manufacturing committee. This he thinks he can do, and indeed would employ a number at once did his present location allow. Mr. O'Connor is going to run up to Manitoba this spring and see how the demand lies in that province, and make arrangements for pushing for a share of the trade.

Cut his foot.—Mr. John Downey of Lindsay met with a painful and serious accident on Wednesday week while chopping wood for Mr. F. Costello, Ops, on the Oakwood road. His axe caught in a twig overhead, and glancing struck his foot, inflicting a long and deep gash in the instep, requiring five stitches to close the wound. Dr. Kempt was called in and the injured man is progressing favorably, but it will be three months before it will be well.

Peck out.—Proceedings having been taken against Mr. Peck as reeve of Dysart on the ground of no qualification, Mr. Peck disclaimed. The county council of Haliburton meets on Friday to elect a warden and appoint a clerk and treasurer.

Accident.—While Mr. Hugh McIntyre of Argyle, Eldon, was saw-logging last week a large log rolled on him and kept him down over three hours, when a passer-by attracted by cries for help extricated Mr. McIntyre. A dislocated ankle was the principal injury.

CAMPBELLFORD.

T. V. Woollen Mills.—The *Herald* says that there are now about 70 hands employed at the Trent Valley Woollen Mills, here. An excellent sample of flannel manufactured at these mills, was shown a few days ago. The machinery throughout the buildings is now in active daily operation. The number of hands will be increased as the necessity demands.

IRELAND.

On February 7th, the farm of Mr. Simon Malone, of Yewtree, near Monasterevan, was the scene of a demonstration. Mr. Malone is at present confined in jail under the Coercion Act. Over 100 horses and an equal number of carts and ploughs and their owners were engaged in ploughing and otherwise preparing forty acres of his land for spring crops.

The Messrs. Furlong, millers of Fermoy, have purchased in the United States 13,000 acres of prairie land, on which they intend growing wheat, to be ground on their premises at Fermoy, and at others owned by them in the city of Cork. They also intend converting an old paper mill at Fermoy into a sack and twine factory. The sacks are to be used for the conveyance of the flour to Ireland.

On Feb. 1st, the tenant farmers of Laragh and the surrounding districts, assembled and ploughed the land of Mr. Thomas Brady, a suspect, of Drumgooney, whose land extends to more than 40 acres; and being on a mission of relief under an unexpected and sudden emergency, they also extended their good assistance to the adjoining farm held by Mr. Brown, and, unsolicited, ploughed his farm also.

Rev. B. Mooney, a Catholic priest, was fined £20 at Crossmaglen Petty Sessions on Feb. 4th. At a fair some time ago the police arrayed themselves in plain clothes, and made the night hideous by noisly ill-treating the people. The priest interfered, to save some of his parishioners, and for turning aside some of the bludgeons he was mulcted for assault in the above amount. Eight witnesses denied that he obstructed the police. His cross summonses against the constables were dismissed. The "assault" consisted in laying his hand on the shoulder of one of the constables.

A Case of Consumption.—Chesterfield, N.H March 26.—Messrs. Seth W. Fowle & Sons: Gentleman—I feel in my duty, called upon voluntarily to give my testimony in favor of Dr. Wistar's Balsam of Wild Cherry. I was taken sick last October with a lung complaint, accompanied with a very serious cough; and after having been treated a number of weeks by the best physicians, they gave me up as an incurable case of consumption, and for about six weeks my friends expected I might die any day, having entirely despaired of my recovery. At this time I read the advertisement and certificates of the Wild Cherry Balsam, and was induced to try it myself. I have taken five bottles, and from the commencement I have been gradually recovering. My cough has now entirely ceased. I have regained my flesh and strength, and am feeling quite well. I attribute the cure to Dr. Wister's Balsam of Wild Cherry, as I have taken no other medicine since I commenced taking that." Very respectfully yours, Mrs. Milas S. Smith.

Gentlemen.—Mrs. Smith gives me the foregoing certificate of the efficacy of your medicine in her case. She is an acquaintance of mine, and took the Balsam on the strength of my certificate, which she saw in the papers. Her story is literally true. Yours truly, W. H. Jones. 50 cents and $1 a bottle. Sold by dealers generally.

The new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

For all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

Sulpholine Lotion.—An external means of curing skin diseases.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

Sulpholine Lotion, a fluid peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

Sulpholine Lotion.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

Sulpholine Lotion.—Bottles containing nearly half a pint.—Sold by chemists everywhere. Made in London, Eng.

LIVER COMPLAINTS.

Dr. King's Dandelion & Quinine Liver Pills (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

Pepper's Quinine and Iron Tonic strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

Pepper's Quinine and Iron Tonic rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

Taraxacum and Podophyllin.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. Pepper, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

TENNYSON'S LAST POEM.

"The Charge of the Heavy Brigade" Immortalized in Verse.

The following is Tennyson's new poem, "The Charge of the Heavy Brigade," cabled from London lately.

I.

The charge of the gallant three hundred, the heavy brigade;
Down the hill, down the hill, thousands of Russians,
Thousands of horsemen, drew to the valley and stayed,
For Scarlett and Scarlett's three hundred were riding by,
When the points of the Russian lances broke in on the sky;
And he called:—"Left wheel into line," and they wheeled and obeyed.
Then he looked at the host that had halted he knew not why,
And he turned half round, and bade his trumpeter sound
"The charge," and he rode on ahead as he waved his blade
To the gallant three hundred, whose glory will never die,
"Follow, and up the hill;"
Up the hill, up the hill followed the heavy brigade.

II.

The trumpet, the gallop, the charge, and the night of the fight!
Down the hill, slowly, thousands of Russians
Drew to the valley, and halted on the last height,
With a wing pushed out to the left, and a wing to the right;
But Scarlett was far on ahead, and he dashed up alone
Through the great gray slope of men;
And he whirled his sabre and he held his own
Like an Englishman there and then.
And the three that were nearest him followed with force,
Wedged themselves in between horse and horse,
Fought for their lives in the narrow gap they had made;
Four amid thousands, and up the hill, up the hill
Galloped the gallant three hundred; the heavy brigade.

III.

Fell like a cannon-shot,
Burst like a thunderbolt,
Crashed like a hurricane,
Broke through the mass from below,
Drove through the midst of the foe,
Plunged up and down, to and fro,
Rode flashing blow upon blow;
Brave Enniskillens and Greys,
Whirling their sabres in circles of light;
And some of us all in a maze
Who were held for a while from the fight,
And were only standing at gaze
When the dark muffled Russian crowd
Folded its wings from the left to the right,
And rolled them around like a cloud;
Oh, mad for the charge and the battle were we
When our own good red coats sank from sight
Like drops of blood in a dark gray sea,
And we turned to each other muttering, all dismayed,
Lost are the gallant three hundred, the heavy brigade.

IV.

But they rode like victors and lords
Through the forests of lances and swords
In the heart of the Russian hordes;
They rode or they stood at bay,
Struck with the sword-hand and slew,
Down with the bridle-hand drew
Their foe from the saddle and threw
Under foot there in the fray;
Raged like a storm or stood like a rock
In the wave of a stormy day;
Till suddenly, shock upon shock,
Staggering the mass from without,
For our men galloped up with a cheer and a shout,
And the Russians surged, and wavered, and reeled,
Up the hill, up the hill, up the hill, out of the field,
Over the brow and away.

V.

Glory to each and to all, and the charge that they made;
Glory to all the three hundred, the heavy brigade.

The three hundred of the heavy brigade, who made the famous charge of Balaklava, were the Scots, Greys, and the second squadron of the Enniskillens. The remainder of the heavy brigade subsequently dashed to their support.

TRICKS OF ROGUES.

Some of the Newest Devices for Filching the Unwary.

According to a confession made by a railroad conductor in Chicago the other day, persons of his calling pocket a good deal of money by rascality, as indicated in what follows: Members of the Legislature, State officers and others, holding annual passes, constantly violate the "not tranferable" rule. The conductor studies faces and sees to it that every real pass-holder shall be known by sight. Rascally conductors keep books with descriptions of the men jotted down. The statesman lends his p[illegible]s to Tom, Dick and Harry. "As an example," said the conductor who confessed, "one day last month a man handed me a Senator's pass, I went on through the train, and when I returned to his seat I noticed he was flurried. An easy victim, I thought. 'Now,' said I, 'you are not Senator——; here is his description (and pulling out a book read, 'Senator——, tall, dark hair, 40, annual 0197'). The man who was little and redheaded trembled all over. I could see that he wouldn't have the thing get out for a hundred dollars. He tried to smile, but I looked determined. Then he began to enter into a long explanation of how Senator——had pressed the pass upon him and wound up by handing me a twenty dollar bill to pay his fare. When I told him that I would have trouble to get the note changed he smiled and said, 'Never mind;' 'so I kept the whole bill." The conductor was caught by a detective of the company in the way described. By that and other tricks he had made $12,000 during his connection with the road.

"The wagon-tongue Lan" has been having things pretty much his own way among the Missouri farmers. He is of genteel appearance and pleasing address. He drives up to a farmer's house and during his talk with a farmer lets him know what a big business he is doing with a certain wagon-tongue pa[illegible]ent. He is on his way home, and as he may not be back in that county the farmer may have the right for the county for $250. If the farmer should want it he may just write. In a few day the swindler's confederate happens along. He has learned that the farmer has the right of county for the patent wagon-tongue, and as he made a big thing out of it in Nebraska, he wants to buy the right of the county for $400. He pays $10 down to bind the bargain. The farmer at once writes to No. 1, sending his note for $250. He never hears of either of the men again, but his note comes up for collection in a neighboring town all the same.

A Philadelphia visitor in San Francisco was walking along a quiet street of residences about two weeks ago, when he observed a seedy looking youth stop eagerly and pick a shining object from the pavement "What a lucky find!" exclaimed the youth, turning to the Philadelphian, "She's a $20, isn't she?" the latter eyed the object and saw that it was a gold nugget pin, similar to the small nuggets frequently carried by miners and others on the Pacific coast. "It's a windfall to me, for I'm dead broke," continued the youth, "I'll take her right down town and sell her." What do you want for it?" asked the unsuspecting victim, who thought he had a good chance to turn an honest penny. "I'm so hard up I believe I'll take $10." The hoodlum got his $10 and the Philadelphian, as he afterwards discovered, got his penny's worth of brass. The dodge is said to be the most troublesome on that coast.

This is about the way a man victimized the Jackson county bank at Jackson, Mich., a week or so ago. He was gentlemanly in appearance, and as he entered the bank looked as though he wouldn't stoop to any kind of wrong doing. He drew a check for $500 from a check book of a New York bank. When he asked the banker to forward the check for him and collect it, the banker innocently agreed to comply. In a few days the bank received from New York a draft for the amount. Then the stranger, calling to get his money, asked that the draft be cashed. The request was granted. After the swindler had disappeared the Jackson bank officers discovered that there was no such bank in existence as the one mentioned in the check. The confidence man had a confederate in New York who had received the check and sent the draft.

Shortly after the heads of the houses along a street on Champion Hill, London, had gone to their business one day recently, a man planted a photographic apparatus in a conspicuous place. It was a bright morning. In a few moments the groups of women, children and babies on the steps were charming. The views, the artist assured his sitters, were perfect; the charge levied for each view was low and cheerfully paid, and the clever scamp left Champion Hill after actually registering all his customers and promising to bring the photographs on a day named. No photographs were delivered of course; indeed the scamp knew nothing about photography. The policeman whose duty it is to look after the lambs in that part of the metropolis not only failed to suspect a cheat, but during the performance took his stand by the side of a favourite housemaid so that his handsome face might light up the picture.

A few days ago a well dressed man entered the established of a prominent pen manufacturer in New York and purchased half a dozen pens. He gave as his residence a New Jersey town, and not having a sufficient sum of money to liquidate the bill left a pawn ticket purporting to be a pledge for a $300 watch as collateral until the following day. The stranger failing to return, the pen man visited the pawn broker named on the ticket's face and learned that it was a clever forgery.

There is a young man now travelling around in Eastern Texas who vaccinates negroes with beeswax. He charges $1 for the work, and representing that he was appointed by the United States Government threatens that sure penalties await those who refuse to be operated upon.

A bogus countryman was arrested in Hartford, Conn., the other day for peddling bogus honey. He had a glass box of fine honey in the comb for show and a tin can of cheap syrup for sale.

FROM ALL OVER.

Signor Franki insists that he has examined the musty documents which record that Patti was born in Madrid thirty-nine years ago last Sunday, four a. m.

Three stuffed mice adorn the hat of a belle of New Orleans. As they are three blind mice it is probable that the gentlemen look at them to "see how they run."

Two considerations: "What a change," exclaims the novelist Roe, "one little woman can make in a man's life!" Exactly; and what a heap of "change" she requires while doing it.

"The secret of three is all the world's," but it is no secret that the demand in Canada for pens of the Esterbrook Steel Pen Company's make is steadily increasing. No stationer's stock is complete without them.

The presence of sewage pipes near oyster beds has so poisonous an effect on the bivalves that sickness sometimes results from eating them. The oysters acquire a "stale" taste.

"The Beauty" of having a bottle of Perry Davis' Pain-Killer in the house is, that you are prepared for the "worst," Croup or Cholera. The Pain-Killer is a sovereign remedy.

Sophia (sentimentally)—"I dearly love to listen to the ticking of a clock. It seems to me that a clock has a language of its own." Mr. Smart—"Yes, Sophia, the clock has a language—you might say a dialect."

Nervous Exhaustion, and all diseases arising from youthful indiscretions are speedily and radically removed by that wonderful remedy known as Mack's Magnetic Medicine, an advertisement of which appears in another column.

The poet OscarWilde remarks upon the absence of ruins on the American continent. But a rich treat awaits him. When he comes to Canada he will behold the magnificent ruin of the Reform party.

A young gentleman, an amateur artist, was displaying to his admiring friends a bird that he had made in clay. But his eyelids dropped when the punster said, "If that was baked it would make a very fine brick-bat."

"Accept our Gratitude."—Dr. R. V. Pierce, Buffalo, N. Y.: *Dear Sir.*—Your "Golden Medical Discovery" has cured my boy of a fever sore of two years' standing. Please accept our gratitude. Yours truly, Henry Whiting, Boston, Mass.

A celebrated lawyer said that the three most troublesome clients he ever had were a young lady who want to be married, a married woman who wanted a divorce, and an old maid who didn't know what she wanted.

Her loving salutation.—"I thought, Miss S., that you hated that flirty minx. Yet you went up and kissed her." Miss S.—"I do hate her, and that is why I did it. Look at the big freckles on her cheek where I kissed the powder off."

Dr. Pierce's "Favorite Prescription" is not extolled as a "cure-all," but admirably fulfills a singleness of purpose, being a most potent specific in those chronic weaknesses peculiar to women. Peculiar to Women, 96 pages, sent for three stamps. Address World's Dispensary Medical Association, Buffalo, N. Y.

The Stomach and Bowels.—The slightest derangement of the vital organs must be attended to at once. Delays are dangerous. Dr. L. R. Herrick's Sugar-coated Vegetable Pills are a sovereign remedy for all such ailments. They never fail. Ask for them. They are sold everywhere.

In the Curling match for the Quebec Challenge cup, the Ottawa Club defeated the Blue Noses of New Glasgow,, Nova Scotia, one rink on each side playing iron and the other stone. With iron Ottawa scored 25 to 13, and with stone, 20 to 10.

Mr. Percy Punshon, youngest son of the late Rev. Dr. Punshon, is about entering the ministry of the Methodist Church of Canada, and was recommended as a candidate to the Toronto Conference at the last quarterly meeting of the Metropolitan Church.

Maine News.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

The deputation of Montreal merchants who waited upon the Minister of Customs on Monday for the purpose of urging the continuance of the Board of Appraisers were assured by Mr. Bowell that the Government had no intention of dispensing with the services of the board.

1—Free of Cost.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

Is it a Humbug? Some people think all proprietary medicines humbugs. In this they must be mistaken. A cough medicine like N. H. Downs' Elixir that has stood the racket of 52 years must have some virtue, and must cure the diseases for which it is recommended, or people would not continue to buy and use it as they do. It seems to us that even if we knew nothing of its merits, the fact of its large and continually increasing sale justifies us in recommending Down's Elixir to all who may need a reliable cough medicine.

1—Farmers and Mechanics.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

Dr. Pierce's "Pellets"—little liver pills (sugar-coated)—purify the blood, speedily correct all disorders of the liver, stomach, and bowels. By druggists.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

The Best Field FOR EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co, in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

Daily Evening Review

SATURDAY, MARCH 4, 1882.

LOCAL AND MUNICIPAL.

Railway Notes.

Mr. R. Jaffray of Toronto one of the Midland Directors is in town.

Mr. Fowlde of Hasting, who is purchasing the right of way for the "Missing Link" was here to-day.

Mr. J. C. Bailey, Chief Engineer of the Toronto and Ottawa, and consulting engineer of the midland was here yesterday.

The *Intelligencer* says that very large shipments of iron ore will be made from Madoc region during the present season. One Company expects to ship 400,000 tons before the close of navigation.

Work has been commenced in earnest on the "Missing Link." A large stock of barrows, tools etc., have been taken to a point about five from Peterborough where one of the heaviest cuts is to be made. Owing to the fact that none of the farmers residing in the neighborhood were willing to board the navvys, buildings of a considerable size, that can be moved from place to place, have been erected, and are now ready for occupation. Owing to the fact that the frost is not yet out of the ground, but very slow progress can be made at present, the men are just making holes for the steam shovels, which are expected to arrive every day. An expert informs us that after the frost is out of the gronnd, all will be plain sailing and the work will go ahead rapidly. It is very difficult to say when trains will run over the line, but those must likely to know state that it will not be until well on to the end of the year.

We are informed that cars belonging to thirteen different railways were standing in the Midland yard here at one time the other day.

Mr. Bailey, informs us that good progress in being made with the T & O. Division East of Madoc. He says that the men are ditching something very unusual for this season of the year.

A Ottawa despatch of to-day says that it is said the contract between the Quebec Government and the Canada Pacific Railway Company for the sale of the Occidental railway, between Montreal and Ottawa was signed this morning at the price of $4,000,000.

Regarding the Toronto and Ottawa, Railway, the Madoc *Review* says that Mr. J. B. Campbell, the right-of-way agent has been in this neighborhood for some days.—We learn learn that Mr. W. H. Breakell has secured the contract for fencing the line between Madoc and Bridgewater. The barbed wire will be used.—It is again rumored that the contract east of Bridgewater has been let. We heard this before, however.—Messrs. C. and H. S. O'Hara have been engaged for some weeks past drawing large stone from McKinnon's quarry for the bridge over Deer Creek in this village. Some of the stones are from three to six feet long. The bridge will undoubtedly be a good one. It is said that the bridge over Black Creek, near Bridgewater, will be built of stone from the same place.

Run Him Out.

The-give-away-money-prize-package young man was on the market this morning, and did a thriving business until a gentleman in blue appeared, when he hastily drove off. He was about the greenest looking specimen of humanity that ever sold on the market. The police shouln rout all such characters out, as in selling as they do, they are contravening the town by-law.

Midland Railway of Canada.

The traffic of the above railway for the week ending February 25th, 1882, was as follows:—Passengers and Mails, $4,605.96; Freight, $8,759.99; Total, $13,365.95 as compared with $9,807.87 for the corresponding week of 1881, being an increase of $3,558.08; and the aggregate traffic to date is $103,494.94, being an increase of $38,844.46 over 1881.

The Weather.

The probabilities for this district for the following 24 hours, as reported from Toronto at 10a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes—Increasing north-easterly to south-easterly winds, increasing cloudiness, followed by rain or snow to-night or towards morning, stormy weather to-morrow with snow or rain.

Commercial House.

For bright fine "Nor-West" Cream Ale, call at Bill Kenealey's, opposite the Post office.

HOMES FOR EMIGTANTS.

Meeting of the Committee to Consider a Scheme for Aiding Emigrants.

On Thursday, March 2nd, a meeting of the committee appointed to consider a scheme for aiding immigrants in finding homes in this district, was held at the office of Messrs. Poussette & Rogers. Present:—the Rev. Wm. Bennett. Geo. Hilliard Esq., M. P., Messrs. E. Edwards & A. Poussette. Wm. Bennett was appointed Chairman, and Mr. Poussette Secretary.

It having been deemed desirable to proceed with the scheme it was resolved that the schedule prepared by Mr. Bennett, with slight alterations, be adopted as fitting for the purpose of obtaining descriptions of farm and other properties for sale. That these forms should be placed in the hands of the postmasters for the purpose of being filled, and that they be allowed a fee equal to ten per cent of the fees charged for placing the properties on the lists to be circulated. That a fee of one quarter per cent on the price asked shall be charged for placing the properties on the lists, and that the same be paid before the properties are placed on the lists. That the schedules when filled up be sent to the Chairman of the Committee. That the Chairman write to Mr. Hilliard requesting him to to call upon the Minister of agriculture with a view to obtaining his assistance in circulating the lists through the Immigrant Department in Great Britain and also in obtaining through the Postmaster-General, the co-operation of the different post-masters.

THE ONTARIO AND QUEBEC.

Does the Company intend to Build the Line? —No Information Here.

The Toronto *World* of Friday contained the following special telegram from Montreal:—

"The probability of the Ontario and Quebec being built is a menace to the Grand Trunk, and already a movement has been initiated from here to secure control of the Toronto and Ottawa. I understand that instructions have been sent to Mr. Cox of the Midland to get Mr. Jaffray and Mr. Worts of Toronto, to try and arrange with Mr. Howland and Mr. Osler for a transfer of the road. It is not known here what success they will meet with."

We called on Mr. Cox, but could not obtain information of value. It would not be surprising if the Ontario and Quebec road was gobbled up the same as the Toronto and Ottawa. We await further developments.

Vital Statistics.

The total number of births, marriages and deaths registered with the Town Clerk, Division Registrar, during the month of January, were as follows:—

Births	11
Marriages	11
Deaths	4

During February they were as follows:—

Births	10
Marriages	9
Deaths	5

Both months are decidedly below the average, and those who have not registered any of the above events had better do so, or they may get into trouble.

A Genius.

An exchange asks if there is a genius in this country who can outwit the little English sparrow? The little nuisance will dodge a bullet, refuse poisoned food, stand twenty degrees below zero, and begin rebuilding his nest within two minutes after it has been torn down.

FELLOWS' Compound Syrup of Hypophosphites is not only the most reliable remedy for consumption, but it is a specific also for Bronchitis and Asthma.

DIGEST YOUR FOOD.—If you want to be healthy. How can you if your teeth refuse to do their work? Get them put in order by skilful dentists, and use Sozodont to keep them right. Sozodont is the best preparation for the teeth.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

Bucklen's Arnica Salve.

The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.
The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.
Five minutes inspection will verify this statement.
A full range of INSERTINGS to match and of equal lengths.
WE shall be pleased to quote prices, and will cut off any length that may be required.

A good intelligent boy, who wishes to learn the Printing Business thoroughly can have a good chance to do so by applying at the

REVIEW OFFICE.

BRANDON! BRANDON!

Through the Interest of one of the Proprietors, I have secured for sale in Peterborough,

ONE HUNDRED VALUABLE LOTS

IN THE TOWN OF

BRANDON,

Which I shall Offer for Sale by Auction,

AT

THE "ORIENTAL" HOUSE,

ON

Wednesday Evening, 8th, March 1882,

AT 7 O'CLOCK SHARP.

To Capitalists, Merchants, Mechanics, Traders, Speculators, and all who wish to make money: Secure Lots before the Spring "Boom." Prices must go higher, and those who buy now cannot but make handsome profits in a few months.

The coming spring and summer will be the best that Manitoba has yet seen. The number of emigrants already booked is simply enormous. Capital is flowing in, and the railways are being built at a rate that is astonishing. Brandon is a solid town with future wealth and prosperity assured by its splendid natural position, in the centre of one of the finest agricultural districts in all Manitoba, and the Syndicate is directly concerned in its success. Its growth has been wonderful, and must continue for many years. Hotels, Warehouses, Stores, Dwellings, Public Buildings, &c., are going up on a large scale, and immense contracts have been given for spring and summer work.

It is now the popular town for investment among shrewd buyers, and many of the leading Winnipeg Capitalists are investing largely. Its "boom" is only beginning. The lots to be sold are splendidly situated, being high and dry, near C. P. R. Station, and in the finest parts of Brandon. HUDSON BAY TITLES.

TERMS.—One-half Cash; balance in six months, or a discouut of ten per Cent on the Credit portion for all Cash.

CHARLES STAPLETON, Auctioneer.

REVIEW OFFICE.

Daily Evening Review

MONDAY, MARCH 6, 1882.

A Fine Residence.

Dr. George Burnham can now boast of having one of the finest and most complete residences in the town of Peterborough. It is complete in every respect and has all the modern appliances. bath rooms, hot and cold water, and is heated throughout with hot air. The rooms are all large and well ventilated, while the hall up stairs is a very model. The sheds, stables, and outbuildings are all of brick, while a high wall on the west secures almost perfect immunity from fire. The roof is covered with galvanized iron, and taken altogether we see no room for improvement. From the balcony in front a fine view of the northern and eastern portions of the town is obtained. The situation is one of the most healthy and quiet in town, and the doctor has just reason to pride himself. The contractor Mr. John Alfords, has carried out his instructions to the letter, and has given the most perfect satisfaction to his employer—as he always does. The brickwork was done by Mr. J. J. Hartley, and reflects the greatest credit on him, and Mr. T. B. McGrath, did the painting in a first class manner.

A Treat in Store.

We have much pleasure in informing our readers that the Emerald Dramatic Club of this town has secured the services of Mr. and Mrs. R. A. Brennan, late of "Erin and the Brennans," and a select company to appear here on the 17th of March, St. Patrick's Day. As the majority of our readers know the Brennans always gige a high class entertainment and "pack the house." We fully expect that the same will be the case on this occasion.

The Weather.

The weather of Saturday night was rather fine, but on Sunday night a slight drizzling rain set in; to-day is fine but cloudy. The probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes—Fresh to strong, westerly to north-westerly winds. Cloudy to fair, colder weather with locrl falls of snow.

No More Bill Stamps.

By the Bill which has been assented to by the Governor-General, no more bill stamps are required on promissory notes, drafts or bills of exchange drawn or accepted in Canada. Those who have such stamps on hand can exchange them for postage stamps of like face value, or use them for paying custom duties.

"Corporation Moonlight."

Fair Luna forgot to show up last night, and following suit the man who runs the "corporation moonlight" also forgot to show up, and in consequence the streets were exceedingly dark. There should be some provision made for lighting the gas lamps on such occasions.

The Promenade.

The promenaders were out in full force on Saturday night, the weather being exceedingly propitious. The old "two block" promenade is still the favorite, although some branched off to the side streets, or went further north or south than the Strong.

A Graceful Athlete.

In the account of a recent show held a Omemee the *Herald* thus refers to one of our citizens:—Mr. T. McNaughton, the graceful athlete, in his Indian club swinging and juggling, dazzled the audience by the intricate and difficult feats he performed.

Board of Education.

The regular monthly meeting of the Board of Education takes place at the Collegiate Institute building on Tuesday evening next, at 7.45 o'clock.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

DRIVING THEM OFF.

ST. PETERSBURG, March 6.—It is reported that 33,000 Jewish Colonists will be driven off crown lands because they don't engage in agriculture.

CRAZY MacLEAN.

LONDON, March 6.—MacLean has been removed to Reading jail. It is stated that the certificates of two eminent physicians, Mandsley and Goderick, assert that he has mental aberration of long standing.

PAYING THE PIPER.

LONDON, March 6.—It is stated that in order to prevent divisions in the Irish Parliamentary party, and stop the tax attendant on its members, it is proposed to pay each member elected at the next election £300 per session, and contribute £300 towards the expense of each contested election. The Parnellites expect to return 75 members next election. It is proposed to raise the fund by the levy of a shilling a year from each elector, and to ask the Land League to contribute in the event of a deficit.

AMERICAN.

AS IT SHOULD BE.

NEW YORK, March 6.—At many Land League meetings here yesterday the attempt to kill Queen Victoria was denounced.

MOUNTAINS OF ICE.

NEW YORK, 6.—Every European steamship that has arrived during the last three weeks reports great fields of ice and ice-bergs on the banks of Newfoundland. The ice appeared on the banks two months earlier than usual this season.

MORTALITY.

NEW YORK, March 6.—There were 6,900 deaths here during January and February, against 6,000 for the same months of last year. The health officials says that the increase in mortality is far too large a number to be accounted for by the increase of population.

MORE MORMONISM.

NEW YORK, March 6.—John Sharpe, a prominent Mormon Bishop, being asked if there is any truth in the romour that Brigham Young is still alive replied, "I positively decline to answer that question or make any statement whatever on the subject." Sharpe intimated that he was watching the sentiment at Washington on the Mormon question. He said that he believed the storm had about blown over.

HAZAEL WINS THE WALK.

NEW YORK, March 6.—The great walking match finished at 10 o'clock on Saturday night. The following were the scores made,—Hazael, 600, Fitzgerald 577, Noremac 555, Hart 542, Hughes 535, and Sullivan 525.

JEWS FOR AMERICA.

NEW YORK, March. 6.—At a meeting of Jewish citizens at Brooklyn yesterday, it was stated that 10,000 refugees from Russia will arrive in this country during the next 30 days.

STEAMBOAT DISASTER.

LOUISVILLE, March 6.—The steamer Jas. Parker, yesterday struck a rock while descending the Indiana chute on the falls, and sunk in two minutes. The vessel is a total loss. The crew and passengers numbering 120, rushed to the hurricane roof, the only place of safety. All were rescued by men collected at the life saving station. A woman who jumped from the boat and floated on a barrel over the Falls was rescued four miles below. Many acts of heroism are related. The officers stood to their posts like men. The boat would have gone to pieces but for the fact that 600 kegs of nails were among the freight and held her down. The current on the Falls is thirty miles an hour. It is wonderful that no lives were lost. This is the third accident to the Parker in ten years. She is owned by the Memphis and Ohio River Company, of Cincinnatti. The loss is $60,000.

U. S. RELATIONS.

NEW YORK, March. 6.—The *Times'* Washington despatch says the witnesses to be summoned by the congressional committee investigating our diplomatic relations with Chili, Peru and Bolivia will be Sheppard, Blaine and Hurlbert.

PIG IRON PRODUCT.

PHILADEPHIA, March 6.—4,641,000 net tons of pig iron was produced in this county last year. About 8 per cent. more than during the previous year.

THE LOG CUT.

ST. PAUL, March 6.—The log cut in the Upper Mississippi Valley this season is 240,000,000 or 90,000,000 less than anticipated.

THAT APPOINTMENT.

NEW YORK, March. 6.—The *Tribune's* Washington special says a friend of the President says that the latter has received a number of communications from Conkling concerning his appointment.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

MIDNIGHT TELEGRAMS

CABLE.

NO EVIDENCE.

LONDON, March 4.—The men arrested on suspicion of stealing the body of the Earl of Crawford, have been discharged for lack of evidence.

FORSTER'S TRIP.

DUBLIN, March 4.—The Chief Secretary for Ireland concluded to-day his personal investigations into the state of county Clare, having held consultations with magistrates, priests, gentlemen, and heads of the police, and having seized every opportunity of advising the tenant farmers to take advantage of the Land Act and combine to repress outrage, warning them that the Government was powerful enough to maintain the law. Mr. Forster paid personal visits of condolence to the bedside of Constable Wills, who drove the car when Mr. Wilfred Lloyd was shot at, and to the tenant Moloney. Both lie at the point of death. Mr. Forster gave the latter a ten-pound note. He also visited the house of Col. O'Callaghan, a boycotted landord. The windows were barricaded, the house garrisoned, and the soldiers were completely prepared to resist an attack.

THE CONDEMNED NIHILISTS.

ST. PETERSBURG, March 4.—The execution of the condemned Nihilists will probably not take place till the end of the month. Procureur Monravieff starts for France on leave of absence to-morrow. Strict orders have been issued to prevent foreign correspondents in Russia from holding telegraphic communication with the papers they represent. An inquiry has been opened under the direction of General Ignatieff and Secretary Voiekoff, with a view of ascertaining by what means "certain foreign newspapers, and especially the New York *Herald*," lately succeeded in baffling the authorities, and reporting the Nihilist trial.

THE QUEEN'S ASSAILANT.

LONDON, March. 4.—It is expected the Queen will issue a proclamation returning thanks for the sympathy manifested for her. The persons who yesterday tried to upset the carriage conveying McLean intended to throw him into the Thames. A solicitor has been retained by McLean's friends to defend him. According to McLean's own account he has a sister married to Mr. Harris, lessee of Drury Lane theatre. An examination shows that McLean's shot was fired in a line with the Queen's carriage. McLean bears himself cheerfully and sings in his cell. The British press express much gratification at the manifestation of feeling by the American papers and people of all shades of politics. The almost universal opinion in England seems to be that McLean is a lunatic. General Ponsonby has replied to Minister Lowell's telegram as follows:—"The Queen is much touched by your congratulations, and desires to express her sincere thanks."

EXPELLED FROM AUSTRIA.

LONDON, March 4.—It is stated that Mr. Evans, correspondent of the Manchester *Guardian*, has been ordered to quit Austria within three days. Two individuals have been arrested at Ragusa for assisting Mr. Evans to spread false news of insurgent victories.

THE FRENCH DEFEATED.

ALGIERS, March 4.—Three hundred French troops reconnoitring south of Ain-Sefra were surprised and defeat ed by the insurgents. Fifteen hundred insurgents afterwards endeavoured to bar the passage of the French, but were routed, leaving one hundred killed and wounded. The French lost twelve killed and wounded.

AN IMPORTANT ARREST.

MOSCOW, March 4.—The most important arrest has just been made at Moscow. The chief of the section of the revolutionary party known as the "Parti Noir," has fallen into the hands of the police.

One of Cupid's Freaks.

When the French sought to establish a monarchy in Mexico a Mazatlan youth raised a regiment of boys and waged against such of the invaders as appeared in Sinaloa a warfare that told. The young man's father was of Castilian blood, and his mother was a Mexican. His name, Corona, soon became famous, and at the age of twenty-five he was regarded as the Mosby of Mexico. At the end of the war he was a Major-General, the hero of the soldiers, and the idol of the Mazatlan society. He was six feet tall, broad-shouldered, handsome and daring. While attending a ball at the American Hotel, in Mazatlan, he stumbled over a domestic, knocking a tray from her hand. Stooping to pick up the crockery, General Corona noticed that the girl was pretty and very saucy. She told him that her name was Betty Bowman, that her mother was a San Francisco washerwoman and that he ought to know better than to rush so headlong down a dark stairway. Corona made love to the American miss and before leaving for the capital he had learned of her irreproachable though very humble life. Once away, Betty's face and pert ways haunted him so much that he wrote to her, arranging for marriage by proxy. He remained in Mazatlan; the bride went to a convent school. They were a thousand miles apart and wrote to each other daily, the husband constantly instructing the wife in polite ways. President Junrez, fearing that Corona's popularity would lead the people to give their vote to the young soldier at an election then approaching, concluded to send him as Minister to Madrid, the most enviable diplomatic position in the eyes of all Mexicans. General Corona took the washerwoman's daughter to his palace in Madrid, and she is now regarded as the most brillant and accomplished lady at the Court of Spain—*Philadelphia Times.*

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

Bucklen's Arnica Salve.

The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

Daily Evening Review

MONDAY, MARCH 6, 1882.

THE CAR-WORKS BY-LAW.

We think it is to be regretted that our correspondent X did not wait to pen the letter for which we made room on Saturday until he had an opportunity of reading the by-law, which the Council has decided to submit to the ratepayers for the purpose of encouraging the establishment of carworks, as had he done so he would have found that some, at least of the objections which he raises thereto have been foreseen and provided for.

For instance, had he seen the by-law he would not have found it necessary to raise the question as to what will be the result, should the assistance proposed be given, and the Legislature refuse the legislation to be asked for; inasmuch as the by-law is so framed that in such an event the $20,000, or so much thereof as shall have been advanced, shall be repaid to the town within five years without interest, if the Company shall have during each of said years "employed at least one hundred and fifty persons in and about their works, for two hundred and twenty-five days in each year," and with interest to the amount of two thousand dollars for each year in which the full number of persons named have not been employed. Such being the provision of the by-law itself, we take it that the result of the proposed Legislation not being obtained, will be to limit our assistance to the car Company to a *loan* of $20,000 for five years without interest, in the event of their employing a certain number of persons, and failing that at the rate of ten per cent interest during the years the minimum number named, are not employed. Did we entertain the same view as our correspondent with regard to this matter we should certainly desire that, in the event of the by-law being passed, the Legislature should refuse the legislation to be asked for.

Again he says: "If it is desirable to take stock in the Company would it not be better to *loan the Company* the $20,000, *taking security for the same until the stock could be legally subscribed* by the town?" Well X, will no doubt, be surprised to learn that this is precisely what the by-law proposes to do. Had X's letter been written before instead of after the by-law was drawn, one would have supposed that it had been framed in accordance with his suggestion, because the by-law provides that no money shall be paid "on account of the said bonus until the said company shall have executed to the said Corporation a good and sufficient *first mortgage* upon the Company's land, buildings, and fixed machinery for the purpose of securing to the said corporation the due performance by the said Company of the several conditions upon which the said bonus is granted."

Thus we see that at least two of X's objections to the by-law now before the ratepayers has been provided for.

We must confess that we cannot appreciate the force of X's objection to the giving of a bonus, while he is ready to "give" land. To our mind the giving of land, is the giving of a bonus quite as much as the giving of money. And still less can we understand the force of his objection to the town's taking stock when he is of opinion that the moment the by-law is passed the stock of the Company will be at a premium. If the stock held by private individuals in the Company is at a premium surely similar stock held by the town will also be at a premium, if we get it, and if we do not get it, then before the stock of the shareholders can be worth a single cent, our $20,000 must be repaid under the conditions which we have already stated.

Had X been of the opinion that the stock we are to get would prove worthless, then we could understand his opposing $20,000, as too much to invest in such an undertaking, but as he is of the contrary opinion, and as the by-law provides for the very contingencies which he is apprehensive of, we trust that a perusal of it will not only convert him from an opponent to a supporter of the by-law, but induce him to become a stockholder in an undertaking which is certainly calculated to benefit the town.

A SLANDER EXPOSED.

A letter from Mr. Duncan McDonald is published expressing his regret at the discussion in the press as to the letting of the Port Moody contract, and stating the marking of his cheque as good for "two days" was simply a clerical error and put in unintentionally by the bank. Mr. Clouston, manager of the Bank of Montreal also writes that the limit of "two days only" was unintentional.

This is hard upon Messrs. McDonald and Charlebois, but if they have suffered through a careless blunder of the bank they have their remedy.

It is disgraceful that newspapers should invent and circulate such slanders against our public members in the hope of gaining a dirty advantage over them with too credulous readers. Sir C. Tupper only carried ont the law (introduced by Mr. Mackenzie) and he would have been as virulently assaulted if he had accepted as a deposit a mere piece of waste paper.

Too Weak for the Caucus.

The independant Montreal *Post* says:—

"As the Hon. Mr. Blake is absent in Toronto owing to the severe illness of a near relative, the command of the Opposition devolves upon the Hon. Mr. Mackenzie. But Mr. Mackenzie's voice is too weak to reply to Sir Charles Tuppe's speech on the Budget. One would think the voice of the honorable gentleman would be strong enough to be heard in a caucus of his party, but it is not and he, therefore, does not attend caucus meetings.

Very Unhappy.

The Montreal *Post*, an independant journal says:—

"The Opposition have been very unhappy in their fault finding this session. Out of their own mouths they have been convicted, and in every instance the Government have come out with flying colors."

THE EAST RIDING.

Liberal Conservative Meeting at Norwood—The Officers of the Association.

A meeting of the Liberal Conservatives of the East Riding of Peterborough, for the purpose of re-organizing the Liberal Conservative Association of the Riding, was held in the village of Norwood on Thursday afternoon, 2nd inst. Although the almost impassable state of the roads deterred many of the electors from appearing, there was a large and encouraging attendance from distant parts of the Riding, and, it might be said with candour, a more unanimous or more enthusiastic political meeting was never held in Norwood. A pleasing feature of the gathering was the presence of gentlemen who, formerly holding undecided political views, boldly came forward and joind the Conservative ranks.

Mr. JOHN BURNHAM, the popular representative of the Riding for the Commons, was chosen chairman, and Mr. Thos. Burke, secretary of the meeting.

Mr. BURNHAM explained the object of the meeting, viz., to re-organize the Liberal Conservative Association, and to appoint officers for the different local Conservative Associations in the Riding. Mr. Burnham delivered a lengthy and eloquent address, going over a good deal of ground covered by the great fiscal policy ot the Dominion Government, and gave lucid explanations regarding his own conduct in Parliament. The frequency with which he was applauded evinced the fact that the policy of the Government as well as the straightforward course pursued by Mr. Burnham in the House, was approved by all the electors present

Mr. HENRY CALCUTT also addressed the meeting, speaking in highly eulogistic terms of the management of the Canadian Pacific railway, and the unparalleled progress of the settlement of the North West Territory, which he said was due to the speedy construction of that road, as well as to the encouragment given to settlement by the Dominion Government.

After Mr. J. B. PEARCE and several other gentlemen had spoken, the following business was transacted.

Moved by Mr. O'REILLEY, seconded by Mr. D. ROSE,—That the draft of the constitution as read by Mr. Burnham be adopted.—Carried.

Moved by Mr. H. T. STRICKLAND, seconded by Mr. ROBERT SCOTT,—That the Vice-Residents of the West Riding Liberal Conservative Associations in Galway and Harvey, be also Vice-Presidents of those municipalities in the East Peterborough Association.—Carried.

Moved by Mr. O'REILLY, seconded by Mr. J. P. BROWN,—That the first Vice-Presidents of the municipalities in the Haliburton district attached to this riding be such persons as may be appointed first Vice-Presidents of the North Victoria Association in such municipalities.—Crrried.

The committee to whom was referred the naming of President, Vice-Presidents, and other officers of the Association, reported as follows:—

PRESIDENT.—J. B. Pearce, Reeve of Norwood.

VICE-PRESIDENTS.—Geo. C. Rogers, Ashburnham; F. Birdsall, Asphodel; George Read, Otonabee; John Moloney, Douro; R. C. Strickland, Lakefield; John P. Brown, Norwood; John Brown, Belmont; Edward McIlvane, Dummer; Jas. Golborne, Burleigh, &c.

Vice-Presidents for the townships not named will be appointed as soon as possible.

SECRETARY.—Thomas Burke, Norwood.

TREASURER.—Alex. Campbell, Keene.

The report on motion was adopted.

Moved by Mr. W. J. ROSEBORO, seconded by Mr. J. P. BROWN,—That the present chairman vacate the chair, and that the chairman of the Association take his place.—Carried.

Mr. J. B. PEARCE on taking the chair thanked the members for the great honor they had conferred upon him in electing him President of the Association, and assured his hearers that he would do his utmost to efficiently discharge the duties of that position.

Moved by Mr. O'REILLY, seconded by Mr. CAMPBELL,—That the thanks of this Association be tendered to Mr. John Burnham for the very satisfactory manner in which he has fulfilled his duties.—Carried.

OMEMEE

DIVISION COURT.—The *Herald* says that at the session of this court, on Tuesday last, in the village hall, some sixteen cases ware disposed of, during the progress of which some excellent arguments were brought out. There is one case, however, which, we are sorry to say, has, or is likely to terminate very disagreeably, and that was English *vs* Kincaid, action to recover wages. Verdict for the defendent. Some time after the court had been adjourned, Mr. English went to Mr. Kincaid's residence, kicked the door in and used abusive and threatening language to the owner, and it seemed that "blood" was the only thing that would be a balm for his lacerated feelings at losing his case. Mr. Kincaid went before a J. P. and swore his life and property were in danger, and had a warrant issued for the arrest of English, but owing to the tardiness of our most worthy constable, he made good his escape.

An Invited Attack.

Commenting on Sir Charles Tupper's lashing of the ex-Finance Minister, the parliamentary correspondent of the Montreal *Witness*, an opposition journal, says:—

"There can be no doubt that Sir Richard Cartwright invited such attack by his manner both in the House of Commons and on outside platforms, and that manner prevents him from winning the cordial admiration of the Liberals with whom he cast in his lot in 1873."

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

A GOOD FILTER.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

FROM ALL OVER.

OF the dangerous classes in France it is said that they are unable to keep their own secrets and cannot commit a crime without being afterward somewhot ostentatious in manners.

DIGEST YOUR FOOD.—If you want to be healthy. How can you if your teeth refuse to do their work? Get them put in order by skilful dentists, and use Sozodont to keep them right. Sozodont is the best preparation for the teeth.

THE delusion of an otherwise sane Chicago man was to believe that his cane was possessed of a spirit. He talked to it, never let it be out of his sight in waking, and kept it by him when asleep.

NERVOUS EXHAUSTION, and all diseases arising from youthful indiscretions are speedily and radically removed by that wonderful remedy known as Mack's Magnetic Medicine, an advertisement of which appears in another column.

THE rope with which a convict descended from the window of his cell and escape, at Jackson, Mich., was made of small pieces of terred twine, taken from bundles of staves in the cooper shop. To gather the material and from the rope required months of sly, hard work.

THE STOMACH AND BOWELS.—The slightest derangement of the vital organs must be attended to at once. Delays are dangerous. Dr. L. R. Herrick's Sugar-coated Vegetable Pills are a sovereign remedy for all such ailments. They never fail. Ask for them. They are sold everywhere.

MISS KORTRIGHT lately brought suit in a Superior Court at Westmeath, Ireland, to recover from the Countess Della Turre possession of her house, with arrears of rent. Counsel stated that the furniture was not sufficient to distrain upon, but that some thirty or forty cats were in possession of the rooms.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

A BANQUET in a steam boiler was recently given by a German manufacturer in the Duchy of Baden to celebrate the completion of one of the largest steam boilers in the world. Inside the boiler a table was arranged for thirty guests, while racks for the crockery and wines were placed along the sides.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

A MONTANA newspaper says that on December 15 on army of buffaloes, estimated to have been a millon in number, entered the Yellowstone Valley. Numbers of people went from Miles City to look at the wounderful sight and to hunt. One brought back the rare trophy of the skin of a white buffalo.

A PRICE is set upon the heads of wild horses in three of the Australian colonies. They hang upon the outskirts of civilization and are a ceaseless cause of annoyance and loss to outlying squatters. They are vicious, physically weak, and worthless as work horses. Stalking them with the rifle, or running them down, is a favorite sport.

MR. JOS. JEFFERSON, who lives two or three miles from Columbus, in Alabama, informed an *Enquirer-Sun* reporter yesterday that a shower of spiders fell between the city and his home on Friday night. He says that the ground was literally covered yesterday morning with them. They were nearly an inch long, but no larger than a horse hair.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

1—FARMERS AND MECHANICS.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

A CASE OF CONSUMPTION.—Chesterfield, N.H March 26.—Messrs. Seth W. Fowle & Sons: Gentleman—I feel in my duty, called upon voluntarily to give my testimony in favor of Dr. Wistar's Balsam of Wild Cherry. I was taken sick last October with a lung complaint, accompanied with a very serious cough; and, after having been treated a number of weeks by the best physicians, they gave me up as an incurable case of consumption, and for about six weeks my friends expected I might die any day, having entirely despaired of my recovery. At this time I read the advertisement and certificates of the Wild Cherry Balsam, and was induced to try it myself. I have taken five bottles, and from the commencement I have been gradually recovering. My cough has now entirely ceased. I have regained my flesh and strength, and am feeling quite well. I attribute the cure to Dr. Wister's Balsam of Wild Cherry, as I have taken no other medicine since I commenced taking that." Very respectfully yours, MRS. MILA S. SMITH.

GENTLEMEN.—Mrs. Smith gives me the foregoing certificate of the efficacy of your medicine in her case. She is an acquaintance of mine, and took the Balsam on the strength of my certificate, which she saw in the papers. Her story is literally true. Yours truly, W. H. JONES. 50 cents and $1 a bottle. Sold by dealers generally.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

AT THE MESS TABLE.

At the mess table brooded silence,
And the fire flickered low,
And the guests seemed thinking sadly
Of home and long ago;
And the General bade the Captain,
Bearded and bronzed and hale,
"Come give us one of your stories,"
And the Captain told his tale:

THE PHANTOM OF THE PECOS.

"It was a sultry summer some twenty years ago,
When the emigrant train left Texas, bound for New Mexico.
Strong men and gentle women, threescore were in the band,
And nigh as many children left wee foot-prints in the sand.

"Northward they travelled slowly, and bitter was the road,
The sun, a ball of fire, in the brazen heaven glowed;
The sands were like red ploughshares beneath a martyr's feet.
And the thorney spikes of cactus dropped, shivelled in the heat.

"There was no wind till evening, and then its fevered breath
Like that was of the angel that bears the wand of death;
And the moon, a fiery cresent, swooned in the sky afar,
As it had been the reddened blade of his baneful scimetar.

"And as they travelled northward, within its sandy bed,
The river sank away from them as if with guilty dread,
And narrower grew the water, and shallower, until
The river had dwindled to a creek, the creek to a muddy rill.

"Then here and there a languid pool in those accursed lands,
And then the river bed was naught but rocks and arid sands,
And the little water that they found by digging long and deep,
Was bitter as that on seaside rocks when the tide is at the neap.

"And as into the flinty earth the treacherous river sank
Fewer the following footprints were upon its burning bank;
Twenty beheld the red sun rise, fifteen flagged faint at noon,
And only ten went into camp under the lurid moon.

"And twice again the red moon sank, twice rose the copper sun,
And the ten that staggered on were eight, were five, were three, were one.
One man was left of the emigrant train that two short week ago
Had left the Texan valley bound for New Mexico.

"And as he tottered northward across the endless sands,
His bloodshot eyes still shading with thin and blistered hands,
Sudden from out the desert, up to the cloudless skies,
A vast and awful figure the traveller saw arise.

"It was the watery mirage. There shimmer to his view
Fleecy cascades down-falling and lakes of deepest blue;
But though he strains to reach them, and desperate staggers on,
Ever a step beyond him the vision is withdrawn.

"Ever before him hovers, and seems to bar the way,
The Phantom of the Pecos, a cloud of dusty gray;
Its mocking eyes glareon him, and through the fervid air
Its voice of doom makes answer to his question of despair.

"The dying wanderer listens, the Phantom speaks his name,
And moves his cracking lips in vain one piteous prayer to frame;
And the awful vision mutters on the salt sand as he sinks,
'Don't you think it's a long time—a long time between drinks?'"

The General started from his chair
As he had felt a wound,
"Captain," he said, "you're right I swear—
Send the decanter round."

—G. T. L., in Harper's Magazine.

A MYSTERIOUS CASE.

The Suicide of "Edith Gray"—The Story of a Murder.

KINGSTON, Ont., March 2.—The girl Mary Edith Sweet, her true name, died at 8 o'clock this morning. By the midnight train there came from the west deceased's brother, Wm. Sweet, and her brother-in-law, A. Dogroff, both registering as from the township of Hillier. There also came Mr. L. U. C. Titus, of Trenton, and a friend, Mr. A. C. Forbes. The relatives were taken to the room where the girl lay, and a painful and trying time passed. This morning, after the death, a reporter met the brother and brother-in-law. Both are evidently farmers. The brother feels the blow sadly, and remarked, "She has brought it upon herself." He said that her name was Mary Sweet; that she was about 20 years of age; that her parents reside in the township of Hillier; that two years ago, when a man named Amens was shot in the township of Hillier, Mary was said to be somewhat involved in the case, or to know considerable about it. She was summoned to court, but not sworn and examined. To keep her away, he said, she had been paid hush money in large sums, and was sent to Loretto Convert, in Lindsay, to be educated at the expense of Mr. Titus. The secret, he thought, preyed upon her mind, and had been the great trouble of her life. She would tell nothing, but once in a while made the remarks that showed how she was agitated. She had not been at home for a long time, but last winter was sick at the house of Mr. Thorne, who took an interest in her. Her late movements he was not aware off. All her fortune was that received for keeping the secret. The brother states that he first heard of the shooting affair yesterday afternoon through the papers. He understood that when she went to the convent in Lindsay she assumed the name of Edith Gray, not desiring to go by that name of Sweet, by which she was known in connection with the Amens case. Why she had adopted the name of Stokes afterwards he could not tell.

THE INQUEST.

At two o'clock this afternoon Coroner Shaw, with Dr. Saunders as associate, opened an inquest in the Council Chamber. The coroner ordered a *post mortem* examination by Dr. Saunders. A requisition was ordered by the jury, appointing as his associate Dr. Sullivan.

The first witness called was Mr. A. C. Forbes, of Trenton. He denied all knowledge of the case. He did not even know the girl. He was in Kingston on his own private business. He knew nothing of the case except what he read in the papers. He had never seen Miss Gray.

Mr. L. U. C. Titus, of Trenton, lawyer, was next sworn. He said he recognized the body as that of a girl known to him as Edith Gray. The girl had told him that she was the adopted child of Mr. Sweet, that her parents died when she was young, and that she was left to Mr. Sweet to be brought up. He had since learned that her name was Mary Elizabeth Sweet. Her brother he had known for the first time to-day. He met deceased in October, 1880, at the house of Joseph Pierson, in Hillier township. He made her acquaintance casually while being engaged at his profession. He never was legally her guardian. She was placed at school under his advice about a year ago. She consulted the witness about the matter. She attended Loretto Convent, Lindsay.

A juror—Who pays her bills?

Witness—Well, the funds were supplied by Mr. Joseph Pierson. I do not know of her having any funds either in the bank or otherwise. The witness related the circumstances of his coming to Kingston. Miss Thorne and Mr. Thorne were telegraphed to. Miss Thorne was requested to come to Kingston to take the girl "Sweet" home as she was very ill. When he saw the girl she was lying with a bullet wound over the eye. He did not think any one could have notified Miss Gray of his arrival previously.

Joseph Pierson—Is a married man; he had taken an interest in the girl. Witness could state no cause for the interest he took in Miss Gray. She was not a witness in the Pierson Point murder case. She was not subpœnaed, and he had no reason to think that she was paid for or educated for suppressing criminatory evidence. She was in Picton during the murder trial, and could have been called if necessary. The last money paid by him for Miss Gray was to the ladies of the Loretto Convent. She was sent to the institution, after the murder, by Mr. Pierson. Miss Gray left the convent at the midsummer vacation, and had been visiting friends since then. He thought she was for a considerable portion of the time in Selby or Napanee. He had seen her in December at Thorne's, in Hillier. Three weeks ago he saw her in Trenton. She was then *en route* to Napanee, and said that she was married to one Gray, who was in the States. She told many contradictory stories. He did not know whether she had a child. She told him that she was fired at in Hillier village a year ago last December. On one occasion she declared that some person rushed past her and fired. Afterwards she said she was shot in the side. She did not tell him who shot at her. The Pierson Point murder case has been tried, and cannot be brought up again, and even if Miss Sweet knew anything about it, none would have any interest in doing away with her. The feelin Prince Edward was so strong against the prisoners (Pierson and Thompson) that it was thought they would not get a fair trial. There is some feeling existing against them yet. This concluded Mr. Titus' evidence.

Mr. Sweet, deceased's brother, was sworn, and said his sister was at home last about six weeks ago. She was in the habit of wandering around from place to place. Had been a hired girl with the Piersons at the time of the murder. She told him she was getting money from Jos. Pierson through Titus to keep her at school. The money was given her, she said, so that she would keep quiet in regard to the Amens murder. She said she was afraid of her life of the Piersons. She had been shot at twice. The first time she was certain the shot was fired by Joseph Pierson. This happened at Slab Creek. The other time the attempt on her life was made at Hillier, when some men tried to carry her off and were obliged to give up the attempt. She fired at the one who hold of her, and was fired at in return.

Mr. Grange, the medical student, was the next witness. Met the girl at the hotel, where he was boarding. Became enamored of her, proposed and was accepted. Was present at the drawing of the will. The girl left a farm near Ogdensburg to him. He had used no undue influence to persuade the girl to become engaged to him. She was just as anxious to marry him as he was to marry her.

Miss Thorne said that Miss Sweet had stopped with her at Trenton for some days. While at our house she said she was afraid of somebody. She told me that she was shot at in Toronto four weeks before she came to our house. I saw the wound, which was near the heart, and which was healing when I saw it. Dr. Ruttan was called in while she was sick, but he did not see the wound. I came to attend her at Kingston simply because I thought a great deal of her.

Dr. Saunders presented his report of the autopsy that he had held in conjunction with Dr. Sullivan. The paper stated that the ball had penetrated the right hemisphere of the brain and lodged at the back of the skull.

Mr. Tree, clerk of the hotel, said he was called up out of his bed about two o'clock on Sunday morning to witness a will which the deceased had made. He went to the room and he found Mr. Grange and a medical student named Mr. McGhie, Miss Grange and Louis Davis, the son of the proprietor. McGhie had drawn up the will. Tree refused to sign it; thought the girl was out of her mind and sent for Dr. Saunders. Advised them to tear up the will. Acknowledged having sent a telegram to Titus to the effect that Grange was prosecuting the girl. Thought that was the case. It was the common talk around the hotel. He said the girl told him she did not care anything for Grange.

The porter of the hotel then took the stand. Had seen the girl in the hall. Had not spoken to her. On Tuesday was called to open the door of her room. Brought up a step-ladder and looked over the top of the door. Saw her lying on the floor. Helped the 'buss-driver in getting through the fan-light above the door and descending into the room. The door was locked and bolted on the inside, and the key was in the lock. No one could have escaped from the room. From what he saw he judges the girl had killed herself. The 'buss-driver corroborated the evidence of this witness.

Mr. Grange here asked that Mr. Daly should be called as a witness, in order to clear his character of some imputations put upon it.

Mr. Daly said that the girl asked him to do all in his power to assist in bringing about the marriage between herself and Grange.

The evidence being concluded Mr. E. H. Smythe made a few remarks relative to inquests. He touched upon the law in the matter.

The Coroner cleared the court and the jury then went into consultation. They returned the following verdict: "That the deceased Mary Sweet, alias Edith Gray Stokes, came to her death by a pistol shot wound inflicted by her own hand, and that the jury finds nothing in the evidence to determine whether the said wound was inflicted by design or through accident."

The verdict was received with general approbation. The friends of the deceased were well satisfied.

"Pour oil on troubled waters" is an old recommendation; in the modern interpretation of the phrase we hear such expressions and advice as the following contained in the closing words of a long article in the Boston *Herald*: During my jauntings around town I heard many remarks of a complimentary character in relation to the merits of St. Jacobs Oil, and one person said: "There's the venerable Hanibal Hamlin of Maine, our Ex-Vice-President. He never wears an overcoat, and is therefore the legitimate prey of rheumatism. If he wants to continue saving the expense of an overcoat, and at the same time escape rheumatism, such weather as this, he must invest fifty cents in a bottle of St. Jacobs Oil and lather himself with it right well. He will find it a cheap and serviceable overcoat to keep the rheumatism from his body.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

"THE BEAUTY" of having a bottle of Perry Davis' Pain-Killer in the house is, that you are prepared for the "worst," Croup or Cholera. The Pain-Killer is a sovereign remedy.

BRANDON! BRANDON!

Through the Interest of one of the Proprietors, I have secured for sale in Peterborough,

ONE HUNDRED VALUABLE LOTS

IN THE TOWN OF

BRANDON,

Which I shall Offer for Sale by Auction,

AT

THE "ORIENTAL" HOUSE,

ON

Wednesday Evening, 8th March, 1882,

AT 7 O'CLOCK SHARP.

To Capitalists, Merchants, Mechanics, Traders, Speculators, and all who wish to make money: Secure Lots before the Spring "Boom." Prices must go higher, and those who buy now cannot but make handsome profits in a few months.

The coming spring and summer will be the best that Manitoba has yet seen. The number of emigrants already booked is simply enormous. Capital is flowing in, and the railways are being built at a rate that is astoniahing. Brandon is a solid town with future wealth and prosperity assured by its splendid natural position, in the centre of one of the finest agricultural districts in all Manitoba, and the Syndicate is directly concerned in its success. Its growth has been wonderful, and must continue for many years. Hotels, Warehouses, Stores, Dwellings, Public Buildings, &c., are going up on a large scale, and immense contracts have been given for spring and summer work.

It is now the popular town for investment among shrewd buyers, and many of the leading Winnipeg Capitalists are investing largely. Its "boom" is only beginning. The lots to be sold are splendidly situated, being high and dry, near C. P. R. Station, and in the finest parts of Brandon. HUDSON BAY TITLES.

TERMS.—One-half Cash; balance in six months, or a discount of ten per Cent on the Credit portion for all Cash.

CHARLES STAPLETON, Auctioneer.

Daily Evening Review

MONDAY, MARCH 6, 1882.

LOCAL AND MUNICIPAL.

Peterborough Abroad.

Under the heading "A $50,000 boom," the Emerson *International* says:—

"The finest investment ever made round the four corners was that entered into by Albert J. DeLaney on Thursday of last week, being the purchase of the Frank Colomb property at South Pembina for the sum of $10,000. The property joins the town on the south, and contains about 138 acres, and also 56 lots in South Pembina which are selling from $125 to $300 each. On the north lies the Gaffney and Keeshaw property, bought a short time ago from Mr. Renville, which will soon be subdivided; on the south is the Front Pembina Reservation, and on the east runs the Red River of the North on the opposite bank of which is situated the town of St. Vincent. The land is all high and dry and in an exceedingly beautiful location. From the above brief description it will be seen that the purchase is the "Hub" of the three towns, lying in the very centre of them. Mr. DeLaney in the purchase is associated with his brother, Mr. A. H. DeLaney, of Grand Forks, Dakota, who transacts a very extensive real estate business throughout Northern Dakota, and who has lately interested himself largely in Manitoba. He is intimately acquainted with every town in northern Dakota, and this last purchase pleases him best of all. Immediately opposite this land on the Minnesota side is a large elevator, capacity 125,000 bushels. During last fall and winter about 500,000 bushels have passed through it. Assurances have been received that the Northern Pacific Railway and the St. Paul, Minneapolis and Manitoba road want a reserve for their depot and yards on this place. Mr. DeLaney intends leaving about 26 acres intact next the river, so that when the site for the stations is selected it may be taken out of this reserve. This is the property Mr. F. R. Delano, the superintendent of construction for the Northern Pacific R. R. selected last summer for their grounds."

The Messrs. DeLaney mentioned above formerly resided in Peterborough, where they are well known. We are glad to hear of their prosperity and hope it may long continue.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

Journalistic.

We have received the first number of the *Mirror*, published at Meaford county of Grey. It is a large 48 column eight page paper, well printed and filled with news, put in a readable form. We wish the proprietors success in their venture and hope that the *Mirror* may live long to reflect the opinions of the Liberal Conservatives of the good old county of Grey.

Plate Glass.

Bound to keep up with the rest of the stores, Mr. Garvey is having plate glass placed in his store. A very large number of panes have arrived here of late, but where they are to be placed appears a mystery to us, as the large majority of the shops are already supplied.

A Rumpus.

There was considerable yelling and hooting indulged in in the northern portion of the town on Saturday night. This is the first occurrence of this character for some time. Perhaps another dose of "specials" would have a good effect.

Railway Notes.

The Toronto *World* says that according to the Rapid City, (Man.) *Standard* the Grand Trunk and Midland railways have bought the charter of the Souris and Rocky Mountain railway and will begin construction at once.

Y. M. C. A.

Mr. Bone, of the Tract Society, will deliver an address entitled "Notes from a Log Book," to young men only in the rooms of the Young Men's Christian Aassociation, this (Monday) evening, at 8, p. m. Admission free.

License Commissioners.

The following License Commissioners have been appointed;—

PETERBOROUGH.—(East Riding)—James Drummond, William Moher, senior, William Darling.

Commercial House.

For bright fine "Nor-West" Cream Ale, call at Bill Kenealey's, opposite the Post office.

POLICE COURT.

D AND D.

MONDAY, March 6.—Martin Welsh, of Auburn, was charged by P. C. McGhee with being drunk and disorderly on the public streets on Saturday. The officer stated that the prisoner was very obstreporous and resisted arrest, attempting to throw stones. He had to procure a carter to bring prisoner to the cells. He passed Sunday in gaol.

Judgement—Fined $10, and costs $3.

Personal.

Mr. D. Carlisle has left on a trip to the Southern States. He will only remain a few weeks.

Mr. Wyllie, the champion draught player of the world, left this morning for Seaforth.

Mr. R. Bird, of the firm of Bird & Walton, Emerson, formerly of Peterborough, is here on a visit. We understand that he has a town site for sale. They all do it. Mr. John Dixon, of Winnipeg, formerly of Peterborough, is in town Town lots too.

Mr. R. Tate, the "bloated monopolist," who had the exclusive right to run the ferry from Winnipeg to St. Boniface, is here. He formerly resided in Peterborough, and of course is wealthy.

Messrs. Carson & Mills, of Winnipeg, are here purchasing cattle for Winnipeg. They have secured a large number of fine animals.

Mr. R. B. McKee has returned home after a trip through Manitoba and the Western States. He is much pleased with the country and "invested."

Mayor Logan, of Winnipeg, two or three aldermen and several lesser lights, are here spying out the land, to see what kind of a place the people that built Winnipeg up came from. They are delighted with our town, but say it is hardly as lively as the "peg."

Mr. Shirley, of Oshawa, formerly of the firm of Hackett & Shirley, here, is visiting the "hub." He is surprised at our rapid progress.

Mr. J. W. Cronn, of Winnipeg, is in town.

Draughts.

Peterborough possesses some good draught players, but none of them ever had a real good chance to see how little they knew about the game until Mr. Wyllie, the "Herd Laddie," champion draught player of the world, at present on a visit to America, came here. He arrived on Thursday and remained until this morning, being domiciled at the Caisse House. While here he played 72 games losing 4, drawing 8 and winning 60. Mr. Robert McLaurin our local champion played 18 games with him, winning 2, drawing 5 and losing 11. Mr. C. Pickering played 14 games, winning 2, drawing 3 and losing 9. We may here state that from the time Mr. Wyllie crossed the Atlantic after playing all along until he came to Peterborough, although he has played almost numberless games, he never lost over one game to any player. Before coming here he had lost but one game, but when he left that score was increased to five. Among those who played with him here were Messrs. R. McLaurin, C. Pickering, Wm. Eastland, John McClelland, John Primroe, Aaron Cox, T. G. Choate, A. McDonald, Lindsay, and J. Douglas, but with the exception of the two named, he had a walk over.

The Concert of the Season.

On Friday evening next, the 10th of March, the concert of the season will take place in Bradburn's Hall, under the auspices of the Ladies' Aid Society of the George street Methodist Church. The management bound to surpass all previous efforts, have secured for this occasion the services of the Victoria College Glee Club, of Cobourg, and the Misses Burn, three in number. In addition all the principal amateurs of the town will take part. As the object is a meritorious one the Hall should be filled. Admission 25 and 50 cents. Professor Heathfield will preside at the piano.

The Grand Junction Mails.

A mail is now despatched from here every day by the 3 p. m. train for Hastings, Campbell ford, Stirling and Belleville, and the places usually served from those points. In order to be in time matter must be posted not latter than 2.30 p. m. The mail from the above points is also due here at 11 a. m. We understand that no change will be made in the Greystock, Keene and Norwood mails until the 1st of July next.

Budding.

The lilac bushes are already putting forth their buds. When did they do so before.

FELLOWS' Compound Syrup of Hypophosphites is not only the most reliable remedy for consumption, but it is a specific also for Bronchitis and Asthma.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.

The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.

Five minutes inspection will verify this statement.

A full range of INSERTINGS to match and of equal lengths.

WE shall be pleased to quote prices, and will cut off any length that may be required.

T. DOLAN & Co

Baltimore, Md., U. S. A.

Notice of Removal.

The undersigned having leased the

"PETERBOROUGH HOUSE"

Situated on Hunter Street, at present occupied by John Sullivan, will remove thither on the 15th of February.

This hotel is well adapted for the accommodation of farmers and the travelling public, being situated in the most central portion of the town.

The undersigned proposes to conduct the hotel in a first-class style, the table will be always supplied with all the luxuries of the season, and the bar with the very best brands of liquors and cigars.

Good sample rooms will be provided, and commercial travellers will find it to their advantage to patronize my house.

Every effort will be put forth by me to meet the wants and comfort of farmers and others, and from my long experience in providing for my guests, the undersigned feels warranted in saying that his house will be found the most comfortable in town.

Good sheds and stabling, and a careful hostler always in attendance.

MICHAEL HALPIN.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved beyond a doubt that **"Kendall's Spavin Cure"** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as for beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

The Best Field
FOR
EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

Wanted.

25 words under this head 25 cts. first insertion; 12½ cts. subsequent insertion; additional words same rate.

SERVANTS WANTED.

WANTED, TWO SERVANT GIRLS and a SERVANT MAN. Apply to Mr. THOS. BRADBURN. d55

For Sale or to Rent.

FOR SALE

THAT BRICK HOUSE on the corner of Aylmer and Dalhousie Streets. Apply to MRS. G. F. ORDE, Dalhousie Street. d52

TO RENT

ON the first day of April next, the premises now occpied by J. J. Baguley as a stove and tin shop, George Street. For terms, apply to D.G. HENTHORN, or to MOORE & SAWERS. d48

Valuable Property for Sale.

TWO DETATCHED BRICK HOUSES AND STORE, and dwelling at the corner of George and Edinburgh Streets, Peterborough, and the vacant lot in the of the rear same and south Edinburgh Street on liberal terms. ROBT. JOHNSTON. d14w3

AUCTION SALE

OF

"Moira Hall"

AND

FURNITURE.

The residence of the late MRS. COTTINGHAM will be offered for sale by Public Auction at the premises on

Friday, 10th of March Next

At 11 o'clock a. m. The Property is composed of Lots Numbers 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, according to Reid's plan of the South Quarter of Lot Number 12, in the 13th Concession of North Monaghan and containing six acres of land, more or less. The house is a large well-built brick building, nearly new, and in good repair. Amongst the advantages of the house, may be mentioned, a good furnace, which thoroughly heats the whole house, and fireplaces in all the principle rooms as well, a bath-room with hot and cold water pipes all in good working order, lightning rods, bells, etc. The house is comfortably arranged, and is easily heated, is papered, and in good order. There are suitable outbuildings, including stable, and fine, large greenhouse. There is is also a large brick lodge for man and family. The grounds are well laid out with beautiful shade trees, garden, etc. There is a large fruit orchard in full bearing. The property being outside of the Town Limits, although only ten minutes walk from the market, offers the advantage of low taxes, and would make a very desirable residence for a business or professional man. Intending purchasers can inspect the building on application to the man in charge at the lodge. After the sale of the land, the sale of the

FURNITURE,

Which is chiefly of walnut, and in good order, will take place.

Terms easy to suit purchasers, and will be made known at time of sale.

E. B. EDWARDS,
Vendor's Solicitor

Daily Evening Review

TUESDAY, MARCH 7, 1882.

The G. J. R. vs. the County.

The *Globe* gives the following account of the above case which came before the Supreme Court at Ottawa on Monday:—

"The case of the Grand Junction w, Corporation of the county of Peterborough was next taken up. Mr. Cameron and Mr. Robinson, Q.C., of Toronto, appeared for the appellants, and Mr. Bethune, Q.C., of Toronto, and Mr. E. B. Edwards, of Peterborough, for the respondent. This is an action for a *mandamus* to compel the Corporation of the County of Peterborough to issue, and hand over to the Grand Junction Railway, debentures to the amount of $75,000, with accrued interest amounting to $50,000. They claim these debentures by virtue of a by-law passed by that corporation, which was submitted to the ratepayers, but did not receive its third reading. Subsequently the Grand Junction and other charters were purchased by the Grand Trunk, forming an amalgamation of several different lines. The Grand Trunk failing to build the line the charter was restored and revested in the promoters of the Grand Junction. All legislation thus far had been by the Dominion Parliament, but in 1871 the Ontario Legislature passed an Act declaring that the by-law passed by the County Council of Peterborough should be valid and binding although it had not received a third reading. The Council subsequently repudiated the by-law, and the debentures were never called for until 1879, when an action at law was brought by the Grand Junction Railway Company. The Council repudiated the by-law on the ground that the charter having been given to the Grand Trunk it has never been revested in the Grand Junction, and even assuming it had been restored to them the Ontario Legislature had no jurisdiction to pass an Act declaring valid the by-law of the municipality granting a bonus to a company which had been incorporated by the Dominion Parliament.

The Grand Junction succeeded in the Ontario Court of Queen's Bench, Justice Cameron dissenting. The Court of Appeal subsequently unanimously reversed that decision, against which the Grand Junction are now appealing.

Mr. C. Robinson, arguing as to the validity of the contract declaring valid the by-law granting the bonus claimed that as both corporations are wholly within the Province of Ontario the Local Legislature was competent to pass such a measure. In answer to the contention that the charter had never been vested in the Grand Junction he asserted that the Local Legislature by its Act declaring valid the by-law granting the bonus recognized the existence of such a charter and thereby declared valid as much as if they had made a declaration to that effect.

It being four o'clock Court adjourned."

A telegram this afternoon informs us that the argument has been completed and judgment reserved.

A Sudden Death.

News has been received that Mr. Frederick Barlee, of Lakefield, died on board the Allan steamship Sardinian, on her voyage to England. Mr. Barlee has been in the Canadian mail service for twenty years, and has many relations and friends in Lakefield and Peterborough. The particulars have not yet been learned.

Board of Education.

The regular monthly meeting of the Board of Education takes place this evening, at the Collegiate Institute Building, at 7.45 o'clock.

Premature Milking.

The appearance of milk in a mare or a heifer before dropping the foal or the calf is no indication that anything is wrong, unless there is some other additional cause for suspicion. Heifers have been known to give milk some months before they calved, and occasionally before they have been in calf. It is a freak of nature, that is all. In the case of a mare to foal in April, it would be as well to dry up the milk as quickly as possible, taking a little away twice a day to relieve the udder; the milk will return when the foal is dropped.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

FORSTER ON IRELAND.

TULLAMORE, Ireland. March 7.—Forster spoke to a large crowd here yesterday. He deplored the outrages and asked the people to help stop them. He said God save Ireland from the cruel grasping land lords, rack rent land lords, dishonest tenants and midnight mauraders. He also said that the English people have no ill will towards Ireland, we know you have been a badly governed country. The English Government in the past did many cruel and unjust things to Ireland and allowed many to be done. We wish to undo those and make you as prosperous, rich and powerful as ourselves. Forster said that the suspects would be released as soon as the outrages cease. The address was listened to with deep attention and created a profound sensation.

THE POLES ASTIR.

WILNA, March 7.—There are serious signs of a movement among the Poles.

NOT INSULTED.

TULLAMORE, March 7.—No attempt was made to insult Forster, and he was everywhere courteously received.

MORE DYNAMITE.

MOSCOW, March 7.—The Customs officers have discovered a box containing dynamite in a case unclaimed.

AMERICAN.

A CRAZY BLUE NOSE.

NIAGARA FALLS, March 7.—E. F. Clement, of Yarmouth, Nova Scotia, jumped from the second story of the Niagara House this morning and broke both of his legs, while suffering from temporary aberration.

IMPEACHING JUDGES.

NEW YORK, March 7.—The *Herald* Albany despatch says frequent whispers are heard as to the probable impeachment of certain judges, said to be indentified with frauds. The names of important witnesses to be summoned before the committee are talked of, including Mayor Grace and ex-Mayor Wickham.

WESTERN JUSTICE.

DENVER, Col., March 7.—On Thursday Arnold Howard and Frank Young, charged with cattle stealing were jailed here. The next day an attempt was made to break the jail. On Saturday night about one hundred mounted men ordered the guards to throw up their hands and commenced firing in every direction. The jail was broken open. The prisoners attempted to escape. Young was mortally wounded and Howard killed. The body of the latter was thrown into the river. The windows of the jail were riddled with bullets. Howard had been arrested twelve times, charged with cattle stealing and in every instance was cleared.

LYNCHED.

FRANKLIN, Ky., March 7.—Bob Sarver, colored, was lynched last night for attempting to outrage a white girl.

OBIT.

NEW YORK, March 7.—General Zachariah Deas, a prominent officer of the Confederate army, died here yesterday.

FAILED.

NEW YORK, March 7.—Wm. Rutter & Co., manufacturers of Morocco, have assigned with liabilities of $175,000.

FEARFUL FLOOD.

LITTLE ROCK, Ark. March 7.—The damage by floods in Ashley and Chicot counties is estimated at a million of dollars. 15,000 people in Ashley County alone are utterly destitute. It is the opinion of planters that they will not recover from the effects of the flood in ten years.

THE CHIFF JUSTICE.

NEW YORK, March 7.—The *Tribune* says that it can be stated positively that Clarence Seward will not be appointed Supreme Court Justice. The universal belief of the President's well informed friends is, that Judge Blackford will be chosen.

FOREIGN BUTTER.

NEW YORK, March 7.—1,000 firkins of Halshire butter, imported here as an experiment, sold at 45 to 46 cents.

A YANKEE ARTIST.

NEW YORK, March 7.—F. C. Welsh, the American painter, who achieved renown in Europe, arrived yesterday. He began his career here, but subsequently established himself in Syracuse. His studies for landscapes were originally made in Northern New York.

UP AND DOWN.

NEW YORK, March 7.—Edwin James, Ex-Queen's counsel, who has just died in London, in poverty, was once a brilliant and widely-known lawyer. He was ruined by the turf. He came here, when he met with poor success, and afterwards returned to England.

BURSTED BANK.

BOSTON, March 7.—The banking house of Charles A. Sweet & Co., suspended to-day causing considerable excitement in financial circles. A committee is now investigating its affairs. It is asserted that the suspension will only be temporary. It is stated that the house has been advancing money to a new railway, taking bonds which sank in value.

CONKLING REFUSES.

NEW YORK, March 7.—Conkling's refusal of the Judgeship caused very little remark in Washington.

A HARD CASE.

WASHINGTON, March 7.—Shipherd will be examined by the House Committee on foreign affairs on Friday or Saturday. The impression among the members of the committee is, that he is a monstrous braggart and falsifier.

INDIANS AND HALFBREEDS.

ST. PAUL, Main, March 7.—A Glyndon special says that the Sioux stole horses from the Gros Ventres. Afterwards there was a fight. Three Sioux were killed and one of the Gros Ventres. 150 half-breeds encamped on Milk River hold as a prisoner Sheriff Healey of Chattau county, Montana, who has been collecting taxes from them. The half-breeds are all trespassers from over the line.

THE YANKEE BEATEN.

LONDON, March 7.—The boat race between Largan and Goodkin, of the American, for £100 a side over the Thames championship course was won by Largan by two lengths after a good race. A foul occurred under Hammersmith bridge which was decided in Largan's favour.

NOT DONE YET.

NEWARK, N. J., March 7.—The Receiver of the Mechanics Bank has sued director Condit for $700,000.

RAILWAY COLLISION.

CHICAGO, March 7.—A freight engine on the North-Western Road, slipped a boiler bolt last night. The escaping steam severely scalded the fireman and engineer. The engine ran unchecked until it collided with a passenger train. Both engines were wrecked. Three mail clerks were considerably bruised.

A NEW PRESIDENT.

TRENTON, N.J., March 7.—The union formed on acount of the differences at Princeton College lately has resulted in a change in the Presidency. Dr. John Hall of New York is mentioned as the coming man.

PHIL'S BIRTHDAY.

CHICAGO, March 7.—The fifty-first birthday of General Sheridan, was celebrated here last night by a dinner given by Illinois Commandery of the Loyal Legion of the United States. Speeches were made by eminent citizens who served with the General in the 64th regiment.

THE GREAT BRIDGE.

NEW YORK, March 7.—The amount needed to finish the East River Bridge is $1,250,000. The total cost will be nearly $15,000,000. Another year will pass before the bridge will be raised. The alderman recently appointed a committee to investigate the laying of the pier.

MIDNIGHT TELEGRAMS

CABLE.

ABOUT VICTORIA.

LONDON, March 6.—Earl Granville wrote to Mr. Lowell:—"I have just received a message from the Queen desiring me to convey her Majesty's acknowledgement, for the congratulations you offered on behalf of the President and people of the United States, and to express her hearty thanks for the kind feeling manifested towards her Majesty." In the House of Commons to-night Mr. Gladstone, in moving an address to the Queen relative to the attempted assassination, said similar attempts upon the lives of rulers in other countries have been associated with some grievance or discontent, whereas the attempt on the Queen was prompted solely by a morbid desire for notoriety in an intellect of the narrowest kind. The motion for the address was carried unanimously. The House of Lords also adopted an address to the Queen congratulating her on her escape.

HIS ARRIVAL.

ST. PETERSBURG, March 6.—When General Skobeleff arrived her on Sunday last about one hundred persons assembled to meet him. Admission to the railway station was refused them. As soon as the General made his appearance he was greeted with enthusiastic cheers. He rapidly traversed the crowd, smiling, saluting, and distributing here and there a warm shake of the hands. He got into a carriage without delay, accompanied by a Lieutenant. There were only three or four officers in the crowd.

THE BOSNIAN INSURRECTION.

VINNEA, March. 6.—The announcement that Prince Milan has been declared King of Servia has created a sensation in Austria in view of the effect that it may have upon the Bosnian insurgents. Virulent smallpox, has broken out among the Austrian troops in Cattaro and Mula on the coast of Dalmatia and storms have arrested the operations against the insurgents.

GENERAL SKOBELEFF.

BERLIN March 6.—It is stated that on the day on which Gen. Skobeleff made his first speech, General Ignatieff hinted to a friend that Skobeleff would make remarks which would create a profound sensation in Europe. Gen. Skobeleff's friends believe his language was authorized. It is stated that Gen. Skobeleff's brother-in-law is continuing the agitation in Paris. It is stated that Gen, Skobeleff's speech was writen for him by Akhsakoff, and that Skobeleff submitted the manuscript to Gen. Ignatieff, who struck out several pages. Gen Skobeleff, carried away by champagne, took no account of the erasures when he delivered the speech, and this led to rumours that he and Gen. Ignatieff were in collusion.

VERY LIKE A WHALE.

LONDON, March 6.—During a hurricane in the north of Scotland three hundred whales were driven on shore on Shetland Island and shoaled. They were all captured.

THE HATTON GARDEN ROBBERS.

LONDON, March. 6.—A telegram from Brussels says that three men and two women was arrested at a hotel yesterday charged with being concerned in the Hatton Garden post-office jewellery robbery. The principal prisoner, an English ticket-of-leave man, made a violent resistance.

SERVIA A KINGDOM.

VIENNA, March 6.—At the unanimous invitation of the Servia Skuptschina, Prince Milan to-day accepted the royal dignity. The Minister of Foreign Affairs forthwith acquainted the diplomatic body of the fact. The Austrian Minister shortly afterward presented to the King Milan the congratulations of the Emperor Francis Joseph.

A NEW ANTI-RENT MOVE.

LIMERICK, March 6.—On many estates the money for the payment of rents has been lodged in the bank to the joint credit of landlord and tenant, the latter binding himself to give his signature for the withdrawal of the money the moment the suspects are released.

SAFELY CAGED.

ST. PETERSBURG, March 6.—The person recently arrested at Moscow is the editor of the famous journal *Lenet*, which has been preaching the distribution of land to the peasantry. He is not a terrorist, but a simple revolutionist. He has long been sought by the police, and is now in prison in St. Petersburg.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

Mothers!! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

Daily Evening Review

TUESDAY, MARCH 7, 1882.

THE FARMER BENEFITTED.

THE Lindsay *Post* is aggrieved with us for saying that it sacrifices truth and reason to persistent attacks upon the N. P., and challenges us to the proof. Not having a file of the *Post* at hand, we glanced over the same number, and in the column immediately adjoining we find the following paragraph:—

"The manager of the Waterous Engine Works Co., Brantford, in a letter to a local paper confirms the statement of Mr. Paterson in the House of Commons that the tariff has taken over $6,000 a year more from that industry than before the adoption of the N. P. The material is used mainly in the construction of saw mills and farm machinery, and is another proof that the tariff harasses the lumber and farming interests—the two most important interests we have."

Now this is a specimen, in a very mild form, however, of the unfairness of which we complain. In the first place, the *Post* seizes upon this false statement, but omits to state that a subsequent letter confesses that the $6,000 was not an amount really paid, but a mere theoretical calculation of the amount of the increased duties on dutiable goods consumed. Now it is notorious that the amount of the duty, on many articles, at least, is not added to the cost. The *Post* would be assured of this by practical men in almost any line of business, if it made the slightest enquiry. It must even be within its own knowledge, in its own business, that offers are continually made by foreign manufacturers to make an allowance on the price list to cover the duties, and that Canadian-made goods are rather cheaper than dearer since the change of tariff.

But the greatest unfairness is in the application of this letter. An attempt is made to instill into the minds of the farmers that they are called upon to pay higher prices for their machinery in consequence of these increased duties. Now this is a wilful falsehood—wilful in the sense that the writer, if he made the slightest enquiry, would learn that the prices of agricultural machinery have been absolutely reduced instead of being raised.

In the very same debate, that on draw-backs on exports, in which Mr. Paterson introduced the Waterous Company letter, Mr. Charlton in commenting on a similar letter received by him, said: "We may take the amount of $2 on each machine, or an aggregate cost upon their business of about $2,000, which they must get from their customers, because they have to sell their machines as low as formerly."

This dialogue followed:—

Mr. WHITE, Hastings—"How is it that the manufacturers are selling the machines from 10 to 15 per cent. cheaper than they were under the old tariff?"

Mr. CHARLTON—"The manufacturer tells us that he is not making as much on their machines as he did before."

Mr. WHITE—"Then the manufacturers are not public robbers?"

Mr. CHARLTON—"He tells us that they are selling machines at as low a price as they did formerly, while under the tariff they cost them more, and therefore the tariff injures them."

A little later in his speech Mr. Charlton quoted Messrs. Patterson Bros., of Patterson, as stating that the tariff has increased the price of this raw material, and dimished their profits *without reducing the* PRICE OF THEIR GOODS.

We need hardly pursue the subject further. The *Post* can easily ascertain either from their own local firms, from larger establishments in other parts of the province, or from the statements and arguments of their own friends in Parliament, that the farmer is getting *cheaper instead of dearer machinery*, and therefore we object to its untruthfully suggesting the contrary to the farming community.

As to the manufacturer, we need only say that notwithstanding lower prices, he is enabled to make still greater profits than before, by a better market and surer payments.

Why cannot the opponents of the N. P. criticise it fairly? If they have a good case why should they be driven to such falsifications, such inconsistencies, and such wilful blindness to facts? We advise our contemporary before again stating that anything is raised in price by the tariff, to enquire from the merchants and manufacturers of Lindsay whether there is really any increase on the particular article in question. This is what we have done in our own town, and we have found the results agree with our contentions. Such facts are worth columns of theory.

THE TENDENCY OF PRICES.

WE observe that the New York *Public*, a journal said to be well up in such matters, estimates the advance in prices in the United States since 1878 at a little over thirty per cent. This is certainly a very large increase to take place in the time named, and one which we should feel disposed to question were we not assured that it has been arrived at after taking the actual market value of no less than fifty-two articles in 1878 and 1881. But even if we should be disposed to discount this estimate somewhat, it would still afford good grounds for looking for a substantial increase in Canadian prices, inasmuch as our markets are contiguous and open to much the same influences under ordinary circumstances.

That prices have not advanced, along the line in Canada, thirty per cent we believe even the most rabid hater of the N. P. will concede, although he will of course dispute the correctness of the following statement of the relative prices prevailing in Canada in 1878 and 1881, tabulated from figures given by Sir Leonard Tilley in his Budget speech:—

	1878.	1881.
Waggons	$62 00	$60 00
Carriages	105 00	100 00
" "	100 00	100 00
Buggies	160 00	150 00

Ploughs in 1881 at 15 per cent. less than 1878.
Agric. Implts. in 1881 at 5 to 20 p.c. less than '78.
Boots and shoes, custom work, 15 p.c. higher.
" " factory " 10 to 25 p.c. less.
Hardware somewhat higher as a whole.
Furniture, 1st class is higher, common kinds not higher.
Iron castings, 9 p.c. higher now than in 1878.
Nuts and bolts, lower than in 1878.
Cut nails, 5 p.c. lower now than in 1878.
Finishing nails, 9 p.c. lower now than in 1878.
Pressed spikes, 20 " " "
Railway spikes, $2 per ton lower now than in '78.
Horse-shoe nails, 8 p.c. higher " "
Tea, 5 cents per lb. less.
Sugar, 30 cents per 100 lbs. less.
Molasses, 10 per cent. less.
Soap, 12 per cent. higher.
Woollen goods, cheaper now than in 1878.
Wool yarns, as cheap.
Hats and caps, the same price.
Lamp shades, lower than before.
Glassware, lower than before.
Organs, lower than before.
Tools and files, less now than in 1878.

A MONSTER CONTRACT.

Five Hundred Miles of the Canada Pacific Given to one Firm—How they will Push it.

It was the intention of the C. P. R. company until the past few days to divide the work on the main line for the ensuing season between some ten or fifteen good contractors, but failing to secure sufficient to cover the whole distance of 500 and in view of the near approach of spring and of the extent of preparations necessary to be made, it has been decided to accept the bid of Langdon, Shepard & Co., of St. Paul, for the entire work extending from where Brackett left off grading last season, about 100 miles west of Brandon, to a point 500 miles further west, the location being of course dependent on the crossing which may be selected for the South Saskatchewan. Location has been completed west to Moose Jaw creek, and it is intended to get through the final surveys to the Rockies this year.

The name of Langdon, Sheppard & Co. are household words in railway circles. They are without doubt the largest construction firm on the continent. The magnitude of their operations may be judged by the fact that last year they built over 1,100 miles of line in the Northwestern states alone, which may be taken as a good guarantee of their ability to perform the vast work which they have now undertaken. Skeptics, who are always to the fore, of course express doubts about the possibility of putting through such a distance in one season, but this doubt is not entertained by General Manager Van Horne or by the contractors, and it is further dissipated by a knowledge of the extensive preparations for the supply of material which have been going on steadily since the close of last season's work, as evidenced by the enormous amount already filled up at the end of the track west.

The contractors will start to work at the earliest possible moment, having no time to lose, as it is understood they have undertaken the work subject to heavy penalties in case of non-fulfilment of contract by the end of the season. It is expected that they will bring in a large number of Swedes and Norwegians to work on the line, who will ultimately become valuable settlers, as multitudes of their co-patriots have done in the Northwestern States of the Union.

HOW TO PLANT TREES.

We take from the *Canadian Horticulturist*, published by the Fruit Growers Association of Ontario, the following essay by N. Robertson, of the Government grounds, Ottawa:—

A great deal has been written and said about tree planting. Some advise one way, some another. I will give you my method, with which I have been very successful, and, as it differs somewhat from the usual mode, it may be interesting to some of your readers. I go into the woods, select a place where it is thick with strong, young, healthy, rapid growing trees. I commence by making a trench across so as I will get as many as I want. I may have to destroy some until I get a right start. I then undermine, taking out the trees as I advance; this gives me a chance not to destroy the roots. I care nothing about the top, because I cut them into what are called poles eight or ten feet long. Sometimes I draw them out by hitching a team when I can get them so far excavated that I can turn them down enough to hitch above where I intend to cut them off; by this method I often get almost the entire root. I have three particular points in this: good root, a stem without any blemish, and a rapid growing tree. This is seldom to be got where most people recommend trees to be taken from—isolated ones on the outside of the woods; they are generally scraggy and stunted, and to get their roots you would have to follow a long way to get at the fibres on their points, without which they will have a hard struggle to live. Another point recommended is to plant so that the tree will stand in the direction it was before being moved; that I never think about, but always to have the longest and most roots on the side where the wind will be the strongest, which is generally the west, on an open exposure.

For years I was much against this system of cutting trees into poles, and fought hard against one of the most successful tree planters in Canada about this pole business. I have trees planted under the system described that have many strong shoots six and eight feet long—Hard Maple, Elm, &c.—under the most unfavorable circumstances. In planting, be particular to have the hole in which you plant much larger than your roots; and be sure you draw out all your roots to their length before you put on your soil; clean away all the black, leafy soil about them, for if that is left, and gets once dry, you will not easily wet it again. Break down the edges of your holes as you progress, not to leave them as if they were confined in a flower pot; and when finished, put around them a good heavy mulch. I do not care what of—sawdust, manure, or straw. This last you can keep by throwing a few spadefuls of soil over; let it pass out over the edges of your holes at least one foot.

I have no doubt that the best time to plant is the fall, as, if left till spring, the trees are too far advanced before the frost is out of the ground; and by fall planting the soil gets settled about the roots, and they go on with the season.

Trees cut like poles have another great advantage. For the first season they require no stakes to guard against the wind shaking them, which is a necessity with a top; for depend upon it, if your tree is allowed to sway with the wind, your roots will take very little hold that season, and may die, often the second year, from this very cause.

All who try this system will find out that they will get a much prettier headed tree, and much sooner see a tree of beauty than by any other, as, when your roots have plenty of fibrous roots, and are in vigorous health, three years give you nice trees.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

FROM ALL OVER.

IT is stated that twenty thousand people in Arkansas and fifteen thousand in Mississippi have been reduced to destitution by the floods in the Mississippi valley.

THE overdue steamship City of Berlin, which met with an accident to her shaft, arrived at Boston yesterday in tow of the Samaria. All on board were well.

THE lambs of over fifty ewes have already made their appearance at the Ontario Model Farm. This is a larger number than ever before in the month of February.

LAST year's grain product of nine farms in the Silver Plains settlement, on the west bank of the Red River, a few miles north of Morris, was 9,816 bushels of wheat, 11,185 bushels of oats, and 627 bushels of barley.

AN Irish male hospital nurse when asked what case in his ward he deemed the most dangerous, pointed with a grin to the case of surgical instruments on the table, and said "That, sur."

BECAUSE of a rumour that the Princess of Wales obtains her delicate complexion by using at the bath the waters of a German spring, it is proposed to erect a building in London for the sale of the various German mineral waters, which the English ladies now have a mania for using.

DIGEST YOUR FOOD.—If you want to be healthy. How can you if your teeth refuse to do their work? Get them put in order by skilful dentists, and use Sozodont to keep them right. Sozodont is the best preparation for the teeth.

AN important modification in the usage of the Vatican has been decided on by Leo XIII. His Holiness intends to celebrate all Pontifical ceremonies in the Loggia of St. Peter's, where the canonixation was recently solemnized, leaving the famous Sixtine Chapel to become a monument of religious art.

BISHOP RYLE, of England, says that much of the Christianity of to-day is "jelly-fish religion," of which the basis is, as far as it has any, "no dogma, no distinctive tenet, no positive doctrine." He holds that, both in the Church of England and out of it, there are hundreds of ministers who have not a single bone in their "body of divinity."

THE STOMACH AND BOWELS.—The slightest derangement of the vital organs must be attended to at once. Delays are dangerous. Dr. R. V. Herrick's Sugar-coated Vegetable Pills are a sovereign remedy for all such ailments. They never fail. Ask for them. They are sold everywhere.

AROUND Nelsonville, Man., says the *Mountaineer*, speculation is wild. It is getting to be quite common for a settler to sell his farm at from $5,000 to $10,000—$25 cash, balance in twenty to thirty days. The calculation of the purchaser is that within the time specified he may dispose of the land at an advance; if not, he only loses his $25.

AKRON, Ohio, May 7th, 1880.—Some three years ago I had a horse become very lame from a spavin. I treated it with Kendall's Spavin Cure with marked success. Since then I have sold a great many bottles, and have heard of cures resulting from its use. I am frank to say I can cheerfully recommend it as an honest remedy. Yours truly, A. M. ARMSTRONG.

LARGE anti-Chinese meetings are being held in California and Nevada, and the Chinese residents of San Francisco have become so alarmed at the progress of the movement that they have telegraphed to Hong-Kong to stop the progress of the eastward emigration.

BALLOONS have crossed the English channel before to-day. In 1837 a balloon left the Vauxall gardens, London, on a Monday at half-past-one. They were over Canterbury at four, and quitted England at twelve minutes before five, and made the French coast near Calais in exactly one hours' time. In the morning the aronauts descended at Weilburg in Nassau, having travelled a distance of 345 miles.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

1—FARMERS AND MECHANICS.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

REPUBLICAN CITY, Neb., March 31, 1880.—I tried your Kendall's Spavin Cure, and it had the desired effect. It cured the spavin which other treatments failed to do. I did not use quite one bottle of your liniment. After the spavin was removed I drove the horse and his mate over 500 miles, from Linn County, Iowa, to Harlin County, Neb., with a load of 2,000 pounds, and made the trip in four weeks. Please send me your "Treatise on the Horse." Yours truly, JAMES YELLENIC.

AN exceedingly bad attack of rheumatism afflicting Mr. J. Levett, 67 Market st., Lynn, Mass., was cured by St. Jacobs Oil. He had the disease in his right arm and shoulder, which became perfectly helpless after being affected a few hours. His pain was so great that he could not rest in comfort or attend to business with any degree of satisfaction. After enduring this sort of thing for some time, he purchased a bottle of the Great German Remedy and began to apply it. He did not mince matters at all, but just used the Oil for all it was worth. After pursuing this mode of treatment for three days the pain was banished and his father was in a perfectly healthy condition. He has never since felt any rheumatic pain and trusts he never will.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

DISTRICT INTELLIGENCE

COBOURG.

FRESHET.—On Thursday morning quite an excitement was created when it was known that the bridge crossing the factory creek, on the road to the woollen mills had been swept away, with a young man named Hebden Cliff, an employee at the woollen mills on it. The following are the particulars. About 6 o'clock the watchman at the mills found that the water had risen so high in the pond as to overflow the dam. Accordingly, the flow-gates were opened and a very large body of water was thereby allowed its freedom. The ice formed a jam, and one of the timbers, supporting the bridge, gave away and the bridge was carried down by the terrific current. When the bridge gave way, about twenty minutes after six, there were two persons on it. One of them, Cephas Pierce, said he heard the bridge crack and was able to reach the road. The other young man H. Cliff, was carried away on the bridge; kneeling down he clung to the strongest part of the structure and while drifting down the current, part of it broke up. What remained stuck on some rocks near the little bridge at the mouth of the creek. Mr. Thomas Heasman, the teamster at the factory, was just about to cross from the east side with his team and waggon, as the bridge gave away—a moment more and he would have been on it. He drove down the back streets to the place where the wreck stuck. Mr. John Moffat and another man went out in a boat and took the young man off. While interviewing him he stated that he was a little frightened but in no way hurt, only receiving a wetting, but was very glad to reach *terra firma*. Very little work was done in the mill yesterday on account of there being no communication except over the dam and a large number of the employees did not wish to cross it. The damage will be considerable, and when the bridge is replaced it should be by a good substantial one. If the accident happened about 10 minutes later serious loss of life might have taken place as the factory hands all commence work at half past six o'clock, and numbers might have been crossing.—*Sentinel Star*.

SAD.—The family of Mr. Staples, west of the Old Court House, have suffered sad bereavement within the past three weeks, two children having been taken away by diphtheria. Several others of the family have been suffering from the same disease, but we are happy to state they are in a fair way to recovery. The family have the sympathy of the public in their sad loss.

DOING WELL.—We are pleased to learn that the knitting factory started some time ago in Colborne by Mr. A. King, is doing a prosperous business, from twenty to twenty-five hands being employed, and the weekly pay-sheet foots up $125.

THE FIRST.—On Tuesday afternoon a train went out on the C. P. & M. R. R. as far as Harwood, and brought in a quantity of wheat for Mr. A. Macdonald.

CATHOLIC ASSOCIATION OF COBOURG.—Steps for the organization of this Association were taken some time since, and the preliminaries necessary have been arranged, the first general meeting for organization and election of officers took place in the Separate School Hall, on Tuesday evening of last week, 14th inst., when the following officers were elected :—

Edward Gordon.....President.
James Bulgar.....1st Vice President.
Thomas McGuire.....2nd Vice President.
Bernard McAllister.....Treasurer.
Thos. Mulreainn.....Secretary.
Chas. Doherty.....Ass't. Secretary.

EXECUTIVE COMMITTEE.—John Connelly, James Cullen, John Gormley, Henry Flesh, Andrew McGuire.

CLASS "B."—1st Willie Taylor, 2nd Wilbert Mather, 3rd Lena Helson.

ENNISMORE.

From Our Own Correspondent.

WEATHER NOTES.—The month of February of 1882 will long be remembered as one of the mildest on record. While January averaged 17°7 above zero, February averaged 21°13. The highest reached was on the evening of the 12th at sun down, when the thermometer rose to 46° above zero, and the lowest on the mornings of the 18th and 24th when it fell to 1° below zero. Snow fell on 7 days to the depth of 7 inches, and rain on 6 days to the depth of 2⅝ inches; making a total depth of water of 4½ inches. Although the month has been fine the down fall has been small especially in snow.

THE ROADS.—Our roads here about claim sisterhood with others surrounding us, namely a good hard bottom but some 3 feet to find it.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

Where Corsets Come From.

Mr. Catlin, the American Consul at Stuttgardt, in the Kingdom of Wurtemberg, writes a statement of the corset trade of that country, especially with the United States. The manufacture of woven corsets in that Kingdom began in 1848. Its progress was slow until in 1856, orders from the United States gave a strong impetus to the trade, but the great development of the trade began in 1865, at the close of the war in the United States. Since that time, one-third of the total value of all the exports of Wurtemberg to the United States has been in woven corsets. The total annual production (in 1880) of corsets in the Kingdom is 1,250,000, valued at $750,000, requiring 40,000 pounds of cotton yarn. The industry requires sixteen distinct processes in the change of the raw material to the finished corset. These are the weaving, cutting out, stitching, stamping, embroidering, insertion of whalebones, punching eyelet-holes, washing, starching, shaping, ironing, eyeletting, clasping, measuring and boxing. In the manufacture of these goods 1,700 hand looms and about 4,500 persons are employed. About 1,700 are male weavers. All the work except the weaving is done by female operatives, and most of the work is done at home. These women get on an average of $6 50 per month, and the male weavers from $17 to $18 per month.

The unknown City.

The Winnipeg *Sun* of the 24th of February says:—"Day after day parties are leaving Winnipeg for the far or rather farther west. While people in the older Provinces have Winnipeg in their mind's eye, and hold as their destination, there is not an hour passes but some scheme is matured in Winnipeg for the opening up and occupation of lands out west. The Qu'Appelle Valley and the forks of the Saskatchewan are the chief objective points, and it is thither that the intending settlers are flocking. There is no doubt but that in the near future a great city must spring up hundreds of miles nearer the Rockies than we are, and that our wonderful story of growth, development, and wealth will be repeated. The air is full of rumors as to exactly where that great city will be, and all the knowing ones are on the alert. There is one thing certain, and that is that millions are awaiting the men of push, pluck and endurance, who will first locate in the unknown town."

"THE BEAUTY" of having a bottle of Perry Davis' Pain-Killer in the house is, that you are prepared for the "worst," Croup or Cholera. The Pain-Killer is a sovereign remedy.

NERVOUS EXHAUSTION, and all diseases arising from youthful indiscretions are speedily and radically removed by that wonderful remedy known as Mack's Magnetic Medicine, an advertisement of which appears in another column.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

A CASE OF CONSUMPTION.—Chesterfield, N.H March 26.—Messrs. Seth W. Fowle & Sons: Gentleman—I feel in my duty, called upon voluntarily to give my testimony in favor of Dr. Wistar's Balsam of Wild Cherry. I was taken sick last October with a lung complaint, accompanied with a very serious cough; and after having been treated a number of weeks by the best physicians, they gave me up as an incurable case of consumption, and for about six weeks my friends expected I might die any day, having entirely despaired of my recovery. At this time I read the advertisement and certificates of the Wild Cherry Balsam, and was induced to try it myself. I have taken five bottles, and from the commencement I have been gradually recovering. My cough has now entirely ceased. I have regained my flesh and strength, and am feeling quite well. I attribute the cure to Dr. Wister's Balsam of Wild Cherry, as I have taken no other medicine since I commenced taking that." Very respectfully yours, MRS. MILA S. SMITH.

GENTLEMEN.—Mrs. Smith gives me the foregoing certificate of the efficacy of your medicine in her case. She is an acquaintance of mine, and took the Balsam on the strength of my certificate, which she saw in the papers. Her story is literally true. Yours truly, W. H. JONES. 50 cents and $1 a bottle. Sold by dealers generally.

ZOPESA.
(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

BRANDON! BRANDON!

Through the Interest of one of the Proprietors, I have secured for sale in Peterborough,

ONE HUNDRED VALUABLE LOTS

IN THE TOWN OF

BRANDON,

Which I shall Offer for Sale by Auction,

AT

THE "ORIENTAL" HOUSE,

ON

Wednesday Evening, 8th March, 1882,

AT 7 O'CLOCK SHARP.

To Capitalists, Merchants, Mechanics, Traders, Speculators, and all who wish to make money: Secure Lots before the Spring "Boom." Prices must go higher, and those who buy now cannot but make handsome profits in a few months.

The coming spring and summer will be the best that Manitoba has yet seen. The number of emigrants already booked is simply enormous. Capital is flowing in, and the railways are being built at a rate that is astonishing. Brandon is a solid town with future wealth and prosperity assured by its splendid natural position, in the centre of one of the finest agricultural districts in all Manitoba, and the Syndicate is directly concerned in its success. Its growth has been wonderful, and must continue for many years. Hotels, Warehouses, Stores, Dwellings, Public Buildings, &c., are going up on a large scale, and immense contracts have been given for spring and summer work.

It is now the popular town for investment among shrewd buyers, and many of the leading Winnipeg Capitalists are investing largely. Its "boom" is only beginning. The lots to be sold are splendidly situated, being high and dry, near C. P. R. Station, and in the finest parts of Brandon. HUDSON BAY TITLES.

TERMS.—One-half Cash; balance in six months, or a discount of ten per Cent on the Credit portion for all Cash.

CHARLES STAPLETON, Auctioneer.

Daily Evening Review

TUESDAY, MARCH 7, 1882.

LOCAL AND MUNICIPAL.

Railway Notes.

The turn-table on the Midland at Belleville near the wharf, which was removed about a year ago, is being replaced in its former position.

The *Globe* says that in view of the Midland combination running their trains into the Union Station by the latter end of this month, the Grand Trunk ticket office will be enlarged, and a new wicket, to open into the station, put in.

The Ontario and Quebec surveyors still have their headquarters at Peterborough. They have finished the location survey west to Toronto, and are now working east. They are now about five miles out. They are following very closely the old Toronto and Ottawa survey.

The "Missing Link" survey as regards the place where the link is to branch off the main line has been definitely settled. The committee appointed by the Town Council called on Mr. Cox and we understand were assured that the public interests would be looked after, and Brock Street would not be injured to any extent.

Mr. Hogg, C.E., left for Toronto on Monday night to commence the survey of the Midland line from Toronto to Buffalo.

The line from Downer's Corner to the main line of the Midland has been located. It will join the Midland just north of the circus ground. A very straight line has been secured. Construction will soon commence.

Mr. Stephens, G. J. R. train despatcher at Belleville, will leave Port Hope some day this week. He will be succeeded in office by Mr Thos. Spencer, of Port Hope.

An Ottawa telegram informs us that the Sault Ste. Marie Bridge Bill has passed the House of Commons Committee.

The Brandon Sale.

The sale of a hundred lots in the celebrated town of Brandon, in Manitoba, which is advertised to take place at the Oriental House on Wednesday evening, March 8th, at 7 o'clock, will, no donbt, be well attended by purchasers. The Montreal *Star* says of the recent sale in that city :—

"Brandon bids fair to maintain its claim to rival Winnipeg, and some gentlemen, including Professor Selwyn, Mr. A. T. Drummond, Mr. Martineau, and others who are well acquainted with the North-West, showed their confidence in this part of it by buying a number of lots each. Those who bought yesterday have already done well and must, at least, double their investments before the summer, and perhaps much earlier. One of the buyers resold eleven lots at a good round profit within an hour after the sale."

The Weather.

The weather during the last 48 hours has been decidedly rather cool, especially at night, and in the morning. The sun has been shining brightly all day, but still an overcoat is not at all a burden. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows :—Lakes—Fresh to strong northwesterly to north-easterly winds, cloudy to fair colder weather with local falls of snow.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station :—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

A Rich Treat for Old and Young.

Mr. Bone, the well-known Sailors' Missionary, will deliver one of his interesting, instructive and edifying addresses this evening, in St. Paul's Church, at 7.30 o'clock. As Mr. Bone represents the general interests of the Upper Canada Tract Society, as well as the Welland Canal Mission, it is expected that all those who love to hear of Gospel truth diffused in our midst will come and bring their friends with them.

Shipment of Horses.

Mr. James Haw of Port Hope, who has been here for some days purchasing horses for shipment to Montreal, drove to Port Hope this morning, some sixteen general purpose animals.

A Good Joke.

Anent the recent "mile" track on the Little Lake, a good joke is told. It appears that the persons who were charged with laying out the track, went to a certain surveyor and asked him for the loan of his chain, at the same time telling him what they wanted it for. Being a bit of a wag, he substituted a civil engineer's chain for the ordinary P. L. S. chain, and instructed them that eighty chains made a mile. The two worthies hastened away and soon measured off the "mile." The owner of one of our local "fliers" took his horse around for a spin, asking some of the bystanders just to time him and see how much under three minutes he made the mile. Several held watches, but before he had reached the starting point five minutes had elapsed. He could not account for it and said that the track must be too long. To satisfy him the mile was again measured, he holding one end of the chain, and keeping "tally" of the number of chains. Perfectly satisfied that the track was only 80 chains long, he again started out on a trial trip, but with the same result as before, his three-minute horse could not get around in less than five. He said that it was not his horse's day for trotting, and after making several other excuses, drove home somewhat discomfited. As soon as he had gone, the surveyor, who was an interested spectator, explained to those remaining that a surveyor's chain is only 66 feet long, and 80 of them make a mile, while a civil engineer's chain is 100 feet long, or 34 feet longer than the other, so that the supposed "mile" track was nearly a mile and a half long. The secret was well kept. At least a dozen owners of speedy horses tried them on the track, and after carefully noting the time made, took their horses home to their stables, coming to the conclusion that their animals were not in good trotting order this winter. At last the joke has leaked out, and the owners of three minute horses are now satisfied that they can make that time on a square track. Any of the horsemen can now tell you the difference between the two chains.

Obit.

The Winnipeg *Sun* of Thursday last says :—

"This morning the mortal remains of the late Mrs. H. Cronn, mother of R. H. Cronn of this city, were taken to the station to be conveyed for burial in the family plot in Peterborough (Ont.) cemetery. Mrs. Cronn is the relict of the late Henry Cronn, of Peterborough, and since her husband's death has resided in Winnipeg, some four years. The lady was seventy-five years of age and was highly respected. The funeral this morning was attended by many leading citizens, who came to show their sympathy for the family and their respect for the dead."

The funeral took place this afternoon from the Union station, the body being interred in the Little Lake Cemetery. Mr. J. W. Cronn, of Winnipeg, accompanied the body here,

An Airy Costume.

The Knappen House, one of the largest hotels in Winnipeg was totally destroyed by fire on Tuesday last. The house was full of guests, many of whom had narrow escapes from a horrible death. Among them was a former resident of Peterborough who according to a Winnipeg paper "reached the street clad in a nightshirt and paper collar and carried in his hand a cane and umbrella. With the thermometer at 35° below zero, the costume was not at all appropriate."

Farewell Supper.

On Monday evening prior to his departure for Winnipeg, Mr. Joseph Dann V. S. was entertained, with a number of his friends at a farewell supper by Mr. Wm. Hetherington. About twenty sat down and spent a very enjoyable evening, all wishing the guest of the evening success in the "Great Lone Land."

Still They Go.

This morning Messrs' Joseph Dann, his brother and J. Walker, J. Coughlin, W. Ross, Miss Walton and four others left for the New Eldorado. Many others are also making preparations to go as soon as spring opens up.

FELLOWS' Compound Syrup of Hypophosphites is not only the most reliable remedy for consumption, but it is a specific also for Bronchitis and Asthma.

COLOMA, Mich., Nov. 4, 1880.—Dr. J. K. Kendall & Co.—Gents: Accept thanks for circulars, which help us considerable. We are selling a large amount of your Kendall's Spavin Cure, which gives great satisfaction. We are authorized to say for Mr. A. H. Sutton, a farmer near here. "I have used six bottles of Kendall's Spavin Cure, and cured as many spavins (well marked) on different horses. I consider it a remedy never equalled for spavins or ringbones." Yours truly, RYNO & GILSON.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.
The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.
Five minutes inspection will verify this statement.
A full range of INSERTINGS to match and of equal lengths.
WE shall be pleased to quote prices, and will cut off any length that may be required.

Baltimore, Md., U. S. A.

Notice of Removal.

The undersigned having leased the

"PETERBOROUGH HOUSE"

Situated on Hunter Street, at present occupied by John Sullivan, will remove thither on the 15th of February.

This hotel is well adapted for the accommodation of farmers and the travelling public, being situated in the most central portion of the town.

The undersigned proposes to conduct the hotel in a first-class style, the table will be always supplied with all the luxuries of the season, and the bar with the very best brands of liquors and cigars.

Good sample rooms will be provided, and commercial travellers will find it to their advantage to patronize my house.

Every effort will be put forth by me to meet the wants and comfort of farmers and others, and from my long experience in providing for my guests, the undersigned feels warranted in saying that his house will be found the most comfortable in town.

Good sheds and stabling, and a careful hostler always in attendance.

MICHAEL HALPIN.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved beyond a doubt that **"Kendall's Spavin Cure"** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as for beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

The Best Field
FOR
EMIGRANTS.

An IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

AUCTION SALE

OF

"Moira Hall"

AND

FURNITURE.

The residence of the late MRS. COTTINGHAM will be offered for sale by Public Auction at the premises on

Friday, 10th of March Next

At 11 o'clock a. m. The Property is composed of Lots Numbers 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, according to Reid's plan of the South Quarter of Lot Number 12, in the 13th Concession of North Monaghan and containing six acres of land, more or less. The house is a large well-built brick building, nearly new, and in good repair. Amongst the advantages of the house, may be mentioned, a good furnace, which thoroughly heats the whole house, and fireplaces in all the principle rooms as well, a bath-room with hot and cold water pipes all in good working order, lightning rods, bells, etc. The house is comfortably arranged, and is easily heated, is papered, and in good order. There are suitable outbuildings, including stable, and fine, large greenhouse. There is is also a large brick lodge for man and family. The grounds are well laid out with beautiful shade trees, garden, etc. There is a large fruit orchard in full bearing. The property being outside of the Town Limits, although only ten minutes walk from the market, offers the advantage of low taxes, and would make a very desirable residence for a business or professional man. Intending purchasers can inspect the building on application to the man in charge at the lodge. After the sale of the land, the sale of the

FURNITURE,

Which is chiefly of walnut, and in good order, will take place.
Terms easy to suit purchasers, and will be made known at time of sale.

Daily Evening Review

WEDNESDAY, MARCH 8, 1882.

LOCAL AND MUNICIPAL.

The Brandon Sale.

Those who wish to buy a lot in Brandon, the rising city of the North-West, should remember the sale at the Oriental Hotel to-night, at seven o'clock. The Montreal *Witness* in discribing the recent sale in that city says:—

"Mr. Potter's room was crowded yesterday afternoon with a good buying audience, who evinced their confidence in Winnipeg's rival by bidding spiritedly. Before the sale Mr. Potter gave a most eloquent and lucid description of the great North-West generally, with special reference to the peculiar advantages of Brandon. Among the buyers of several lots were Professor Selwyn, C.G.M., A. T. Drummond, Esq., and others who have been over the ground and know the country."

Complimentary Concert.

The complimentary concert tendered to Miss Paffard at Bradburn's Hall last night was a grand success. The attendance was larger than at any similar affair ever held here. The programme was a very lengthy one and gave unbounded satisfaction. Among the principal performers were Mrs. J. E. McIntyre and Mrs. F. H. Scobell, of Winnipeg, both of whom acquitted themselves admirably, and were obliged to respond to *encores*. The piano used was a William's Upright, from Mr. E. J. Hartley's warerooms.

The Weather.

Probs, is guessing pretty near the mark at present and his predictions are well borne out. To-day is considerably warmer, but still the air is raw. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes—Fresh to strong north-easterly to easterly winds, fine weather to-day, followed by increasing cloudiness and snow or rain by to-morrow night. Higher temperatures.

What Other Places are Doing.

At a largely attended meeting in St. Catharines the other evening, the following resolution was passed:—

"That in the opinion of this meeting the council of the corporation of the city of St. Catharies will be acting for the best interests of the city by assisting, either by bonus, loan, or subscribed capital to *bona fide* capitalists, who are willing to locate within the limits of the city, any new industry not conflicting with those already here, and giving employment to 100 artisans, and not less than 50."

Police Court.

John Sullivan, a rather hard case, who can never come to town from the woods or drive without getting on a "tear" imbibed rather too freely of some intoxicating beverage, and was "cooped" by Chief Johnston. He was brought up before Mr. R. Fairbairn, J.P., and remanded to gaol until Thursday morning, when, if sober enough, he will make his bow before the Police Magistrate.

Picturesque Canada.

We have just received from Mr. E. E. Dodds, the agent of the Art Publishing Company, of Toronto, the third and fourth parts of "Picturesque Canada," which are fully up to the high standard of the previous parts, both as to the engravings and the letter press. This work is a credit to Canada.

Personal.

Mr. R. Tate, of Silver Heights, took his departure for Ottawa last night.

Mr. R. B. Rogers, D.L.S., left for "Boomland" on Monday night. He may remain there if he likes the country.

The Tract Society.

The annual meeting of the Tract Society took place last night at St Paul's Presbyterian Church. The Rev Mr. Bone was present, and delivered a very instructive address. We are obliged to hold our report over.

Cold Snap.

Moses Oates says we will have another cold snap in March, but it will not endure long enough to interfere with the early opening of navigation.

MIDNIGHT TELEGRAMS

CABLE.

CONSERVATIVE VICTORY.

LONDON, March 7.—At the Malmesbury election to-day Mr. Mills, the Conservative candidate, received 491 votes, while Mr. Luce, the Liberal candidate, received 335, the former being elected by 59 majority,

AN UNLIKELY STORY.

BRUSSELS, March 7.—A convention exists between Germany and France agreeing to the annexation by the latter of Luxemburg in certain eventualities.

NO ATHEISTS WANTED.

LONDON, March 7.—In the House of Lords to-day a bill, introduced by the Earl of Redesdales, excluding atheists from both Houses of Parliament, was read a first time.

STOCK SPECURATION.

LONDON, March 7.—The Paris correspondent of the *Times* says he hears on good authority that since the subsidence of the crisis from thirty to forty million francs' worth of stock, chiefly of the least speculative kinds, has been absorbed by the investing public, and that large amounts have been offered to the promoters of the revival of the Union Generale.

THE LAND COURT.

DUBLIN, March 7.—To Feb. 24th 72,408 applications were made to the Land Court to fix fair rents. The parties agreed between themselves in 2,180 cases, and 2,365 cases were decided by the Court.

A FATAL STUDENT RIOT.

ST. PETERSBURG, March 7.—The authorities of Cracow, learning of an intended demonstration to-day, by the students of that city against the sentence of death recently passed on ten Nihilists at St. Petersburg, attempted to suppress it. In doing so a fight ensued, in which two students and four *gendarmes* were killed.

VICTOR HUGO TO THE CZAR.

PARIS, March 7.—M. Victor Hugo has issued a protest against the sentence passed on the Nihilists at St. Petersburg. He says civilization ought to interfere, and warns the Czar "to spare the people, if not, God spare the Czar."

BARNHARDT'S VAGARIES.

PARIS, March 7.—Sara Barnhardt has again been exciting the wrath of the Italian public by her vagaries. The other night at Milan, finding that her audience did not applaud her quite as frantically as she would have liked, she abruptly left the theatre and refused to finish the programme.

GUARDIAN'S CORRESPONDENT.

VIENNA, March 7.—The commander of the Austrian forces at Ragusa, has placed Mr. Arthur Evans, coarespondent of the Manchester *Guardian*, under arrest, claiming that notwithstanding orders to the contrary, Mr. Evans was sending communications to his paper, the publication of which would aid and comfort the insurgents in the Bosnian provinces.

EUROPEAN CONFERENCE.

VIENNA, March 7.—It is rumoured that the English Government has proposed a conference to settle the Bosnian question.

THE REAL SECRET.

LONDON, March 8.—The *Times* publishes a letter from St. Petersburg which says there are the best reasons for doubting the talked of alliance. It accurately describes the situation. The letter declares that Skobenoff speeches were pre-arranged between him and Enmateuoff. It was the object of the latter to cry down Skobenoff to such a degree, as to create an opportunity for him to offer his services to the Czar as minister of foreign affairs.

AMERICAN.

FALLING INTO LINE.

NEW YORK, March 7.—The Welshmen of New York city last night adopted an address to Queen Victoria, congratulatimg her on her escape from the assassin's bullet. The address states that the recent experience through which this nation has passed in the loss of its President at the hands of an assassin has rendered the people peculiarly sensative to the impression of any similar sorrow which another nation might be called upon to endure, and the sympathy shown by Queen Victoria to the late President, his family, and the nation, has endeared her to the people, who already admired her as a monarch, a mother, a wife, and a woman.

THE INDIAN BUDGET.

CALCUTTA, March, 7.—The Indian Budget says there is no reason why the benefits of free trade should be withheld from India. Therefore all import duties are abolished except those on wine, beer, spirits, ammunition, salt, and opium. The estimates show a surplus of £1,577,000. The estimated revenue for 1883 is £66,459,000, and expenditure £66,174,000.

THE JEANNETTE.

WASHINGTON, March 7.—W. W. Danenhawer has received a letter from Lieut. Danenhawer saying that the Jeannette party had to travel seven hundred miles over ice from the ship to the mouth of the Lena. After wading two miles to land they were forced to travel one hundred miles further before reaching shelter. Danenhawer was up five days and four nights without sleep or rest. He says that out of the thirty-three comprising the crew and officers of the Jeannette, only thirteen are known to be living. The Governor of Yakoutsk treated them with the greatest consideration. He sent sleighs for them, and gave them a supper on Christmas Eve.

A BIGGER FRAUD THAN GUITEAU.

WASHINGTON, March 7.—R. S. Scudder has been arrested in Burlington, Iowa, for practising fraud through the mails. Scudder sent out circulars calling for money to be used in the defence of Guiteau. He claimed that Guiteau was but a tool in the hands of a political ring, and if money enough were forthcoming this fact could be proved and would lead to the downfall of the party in possession of the Government. The money received was appropriated by Scudder to his own use.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THEY KNOW HIM.

LONDON, March 8.—The would-be assassin, MacLean, has been identified as the man who last summer frequented the vicinity of Windsor Castle and acted suspiciously.

A NEW CARDINAL.

ROME, March 8.—It is said that at the approaching consistory the Pope will create several Cardinals, including McCabe, Arch-bishop of Dublin. It is understood that this will express the Pope's approval of the efforts of McCabe in the cause of law and order in Ireland.

SHIP ON FIRE.

CALCUTTA, March 8.—The American ship Valiant, on fire here, will probably be a total loss with her entire cargo.

AMERICAN.

40 PER CENT A YEAR.

NEW YORK, March 8.—The executive committee of the Western Union Telegraph Co., yesterday recommended a quarterly dividend of 10 per cent.

NEW MEDICOS.

NEW YORK March 8.—213 doctors graduated from the University of the City of New York last night.

WITHDREW HIS BILL.

NEW YORK, March 8.—The *Herald's* Albany despatch says that assemblyman Haggerty, yesterday withdrew his bill abolishing fees for naturalization.

NOBODY WILL ACCEPT.

NEW YORK, March 8.—The *Times* Washington despatch says it is reported that Edmund has declined the Supreme Court Justiceship, because his health would not permit him to undertake the work, and he prefers to remain in the Senate.

A DOUBLE MURDER.

MOUNT VERNON, Ky., March 8.—Last night an unknown man entered the cabin of Mrs. Rhoda Segman, 7 miles from here and shot her dead. He then went out and consulted with some one and returned and killed the old woman named Mary. Her little children gave the alarm to the neighbors, when the assassin left. There were nine wounds on Mary's body, five of which were each fatal. Jas. Bishop, whose brother was killed a year ago at this cabin, has been arrested on suspicion.

OBIT.

PHILADELPHIA, March 8.—Joseph Pancoast, an eminent physician and medical author, died yesterday, aged 77.

REASON FOR THE BILL.

NEW YORK, March 8.—It is stated that a ring in the courts of record in New York city is under operation by which certain officials divide $40,000 or $50,000 annually. It is said that this is particularly true of the Court of Common Pleas. It is understood that illegal fees are exacted from persons who have been naturalized, notably in furnishing naturalization certificates. Haggerty proposes to have his bill amended so that severe penalties will be exacted in prosecuting those swindlers.

STRIKERS FOILED.

READING, Pa., March 8.—There was a great strike last night at the Phoenix Iron Company's Mines. Seven large mines are closed. It is a complete victory for the company.

REFORM AT WASHINGTON.

NEW YORK, March 8.—The *World's* Washington special says it is not probable that the House judiciary committee will adopt Balke's bill reported in the Senate. The committee is disposed to favor a bill on the Lowell plan embodying the codified system. The Tariff Commission bill lies on the Speaker's table with over 60 bills on top of it and cannot be reached this session unless by general consent or a two-thirds vote. The tax reformers, however, are inclined to agree to have it called up, out of order, on condition that the Republicans permit a debate and offer amendments. The tax reformers propose to strike out the expert commission and substitute a commission of 9 members of the House, five Republicans, and four Democrates, to be selected by their representative parties. These to report the reform tariff by the 1st of June. If the Republicans vote down this proposition they will be offered another to form a joint commission of representatives and Senators, Democrats and Republicans, to report by June 1st. If both these proposition are voted down a third will be offered that pending the report of the tariff commission no duties above 50 per cent *ad valorem* shall be exacted.

THEY MUST GO.

NEW YORK, March 8.—The *Tribune's* Washington special says it is expected that the senate will vote on the Chinese bill to-day. There is no doubt of the passage of the bill but it may be modified by the adoption of an amendment limiting the suspension of Chinese immigration to ten instead of twenty years.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

Art and Oil.

The Norkfolk (Va.) *Virginian* of Jan. 16. 1881. referrs to the remarkable cure effected by St. Jacobe Oil in the case of Prof. Cromwell,—known the country over for his magnificent Art Illustrations—who had suffered excruciating torments from rheumatism, until he tried the Oil whose effects were magical.

Daily Evening Review

WEDNESDAY, MARCH 8, 1882.

SUCCESS AND FAILURE.

The *Canadian Spectator* says:—

Sir Richard Cartwright's attack upon Sir Leonard Tilley's Budget speech and general financial policy was, as usual, bold even to rashness, and angry even to bitterness. But Sir Richard's position is easily understood and his bitterness accounted for. For years he tried his hand at national financing, and at no time was he a conspicuous success—on the contrary, he was at all times a conspicuous failure, if judgment may be based upon the fact that his exchequer got to be in a chronic state of deficiency. He said it was the inevitable outcome of the bad times, and that they were helpless under the operation of that higher economic law of Free Trade by which all right-minded nations will consent to be governed. Sir Richard is a theorist, and, like all theorists, he feels bound, in duty to himself, to demonstrate the strength of his position. Were Sir Richard a hero he would rejoice to see the country prosperous, although that prosperity means the annihilation of his theories and the falsification of his predictions; but Sir Richard is not a hero, he is simply a high-and-dry *doctrinaire*—one of those who first dogmatise and then set to work to support their dogmas. These surpluses are wormwood and gall to Sir Richard, not because he does not wish to see the country prosperous, but because it has not found prosperity along the lines he has laid down, and so discredits his theories. Sir Richard worships his fetish, and Sir Leonard rejoices in large surpluses. Sir Richard is worthy of pity more than scorn, but practical men, who want prosperity and not high-and-dry theories, will leave the national financing in the hands of Sir Leonard.

SUPPLYING THE NORTH-WEST.

THE Brantford *Expositor*, to which was addressed the letter of the Waterous Engine Company, complaining of the duties they have to pay, in its issue of March 3rd gives the following account of shipments by the company for Manitoba and the North-West Territory. We may safely assume that the Waterous Company finds this trade profitable or it would not embark in it. It is also certain that they would not find it so profitable, if indeed they could secure it at all, were the present tariff not in force, and our great north-west, as in former days was being supplied from the States:—We notice that the Waterous Engine Works have made several large shipments the past week. The first of these was a portable saw-mill of 20 horse power, also a 20 horse power Fire-proof Champion engine on wheels, with shingle mill, planing and matching machine; 20-inch corn and provender mill and wood saw, shipped on Monday last for the Morton Dairy, Farming and Colonization Company, Brandon, N. W. T. This machinary occupied two cars, and is taken out by the Company to prepare lumber for the building of the colony. A better selection of site or better machinery could not be had than that made by the Company. The Morton Company is wholy Canadian, with ample capital, composed of Eastern and Western men, actively engaged in and mean business. We believe they have applications for more farms than they can prepare in one year already in, and a large number of permanent hands left for Brandon on Wednesday last, *via* G. T. R., with the manager, Mr. George Morton, who will remain out there permanently. Having one of the Company always on the ground, the settlers can be sure of having their application and wants looked after. This Company is just the thing wanted to assist the settlers in a manner no private individual could possibly do, and it deserves great credit for the enterprise.

The second shipment was a complete twenty-horse-power saw mill and grist mill for the Toronto, Manitoba and North-west Colonization Company. Its destination was also Brandon, from whence it will be teamed some twenty or thirty miles south to the site of the Souris city. This Company is composed entirely of Toronto capitalists, and from the energetic way in which they are pushing matters bids fair to become an important factor in the settlement of the great North-west.

Their next shipment to Manitoba is a complete machinery outfit for the Cochrane Ranche Company, of Bow River, N. W. T.

BEECHER FAINTS

And is Unable to Continue a Lecture—Exciting Scene in Chicago.

CHICAGO, March 6.—Henry Ward Beecher lectured in the Music Hall this evening on the "Moral uses of luxury and beauty." After speaking half an hour, and having quoted the scriptural passage, "How hardly shall they that have riches enter the kingdom of God," he suddenly stopped, his eyes became fixed, his complexion turned marble white, and his hands clenched. He stood in this position without uttering a word, nearly a minute. The audience was spell-bound, but was aroused by a gentleman near the stage shouting, "Catch Mr. Beecher, he's fainting." Beecher's body was swaying to and fro, and he was about to fall as a gentleman on the platform sprang to his assistance, and led him to a chair. A glass of water was brought, and it partly revived the sufferer. He began rubbing his fingers, which were numb. His face continued to grow paler. Prof. Swing, who was in the ante-room, rushed on the stage, took a seat beside Beecher, felt his pulse, and stepping to the foot-lights said that Beecher had been feeling unwell for two or three days, and was in no condition to continue the lecture. The audience then dispersed.

Beecher was driven to a hotel and stated to a doctor that for five minutes before he began to totter, he could not see the audience, but by the force of will power he kept on speaking, thinking it an attack of dizziness. The doctor said the attack was not paralysis as feared, but simple dizziness, due to the stomach and a nervous chill during the day. At 1.30 a. m., Beecher was much better, but very weak.

A Strange Suicide.

BRUSSELS, March 6.—Geo. Fitzackerby, a well-to-do farmer in the township of Grey, a mile south of Brussels, left his home on Wednesday morning, and it was supposed by his father that he had gone to Seaforth. On Sunday last two children were in the woods on the adjoining farm, and discovered his body under a tree. His throat was cut, and the razor was in his hand. He had taken his coat of and rolled his collar down, and had evidently laid down on a knoll with his head down the incline. He had of late been of a very melancholy disposition, but nothing to cause alarm.

A LADY RIVAL TO VENNOR.

Miss Minnie L. Osgo Ode Robinson, Bury, P.Q., as a Weather Prophetess.

A rosy sunset, whether the sky be clear or cloudy at the time, presages fine weather. But if a rosy sunrise, bad weather, either rainy or windy, my be confidently expected. An old rhyme says:—

"Evening red, and Morning gray
Will set the traveller on his way:
But Evening gray and Morning red,
Will bring down rain upon his head."

A bright yellow sky at sunset foretells wind; but a deep orange or flame color foretells rain.

These signs are almost infallible, but oftentimes the sky is overcast and the sunset is not visible.

A dark gloomy blue sky indicates wind, and a light blue fair weather, light feathery clouds drifting across dark gloomy ones, foretell wind or perhaps wind and rain. If the clouds are soft, less rain and more wind may be expected: the harder and blacker the clouds, the more rain. Soft feathery clouds with no definable tint indicate fair weather; harsh outlines and an unusual depth of color presage wind and rain.

A dull laden sky, from which no cloud is distinguishable, accompanied with a slight degree of dry cold, indicates an approaching snow storm. But it never snows while the air is clear and piercingly cold.

A ring around the moon presages bad or unsettled weather. This sign is dreaded by sailors, as it is supposed to especially to foretell a storm at sea. A sailor also dreads to see the birds known as "Mother Carey's chickens" flying about the ship, as it is an unfailing warning of a storm. Superstitious seamen believe firmly that the birds bring the storm with them.

When sea-gulls fly towards the land, uttering in their flight loud and piercing cries, a storm is near at hand. An intense heat followed by a dead calm indicates the approach of a hurricane.

On land, if swallows, or high-flying birds, fly close to the ground or up and down rain may be expected. Before a storm cattle may be seen hurrying to shelter, and the birds hang about their nests; the smoke does not ascend straight from the chimnies but in a zig-zag line, etc.

Some of the superstitions about the weather are very curious. If a cat is seen to sit with her back to the fire, old grannies say "It is growing cold, it will soon be snow." "If a pig carries a straw to his sty, the weather will change." "It is unlucky for rain to fall on a bride;" or the following couplet:—

"Blessed is the bride the sun shines on,
Blessed is the corpes the rain falls on."

The old superstition about a rain storm while the sun is shining is well known. It will not continue raining long, and will, without fail, rain the next day at precisely the same hour.

If the rain is very fast, and the drops of great size, it will not stay long; but if on the contrary it rains softly, it will rain long, Apropos of this is the following:—

"Rain hard, go soon.
Rain soft, stay long."

"It never rains but it pours." "You look like a dying duck in a thunder shower." Which latter saying by-the-by, is more expressive than polite.

"A rainy Friday, makes a rainy Sunday.
A fair Friday, a fair Sunday."

"Never start on a journey during a thunder-storm; if you do misfortune will follow you."

Farmers say:—"A rainy spring and a dry harvest."

Spanish children often apostraphize the rain and say:—

"Rain! Rain! Go away!
Little Gio wants to play.
You may come again another day."

Little Scotish children also say:—

"Rain! Rain! Go away!
Don't come back till Christmas day.
When I brew, and when I bake,
I'll gie you a little cake."

We often hear "Every cloud has a silver lining;" which though a mere metaphor is a very true one.—*Canada First.*

MARY SWEET'S SUICIDE.

Her Statements Respecting the Hillier Tragedy Denied—In the Courts.

KINGSTON, March 6.—Joseph Pierson, whose name was mentioned as having supplied Mary Sweet with money in order to keep her out of the way, was in the city to-day. He states that there is no truth in the statement that he was afraid of Mary Sweet making anything public, as she knew nothing whatever about the shooting of Emmons at Hillier. She was a servant girl at Joseph's house, while the shooting was done at James' house, over a mile and a half distant. He was thunderstruck when he read an account of her death in the *Mail*, and that she claimed to knew something about the death of Emmons. Mr. Pierson has procured a copy of the evidence taken at the inquest, which he has handed over to Mr. Dickson, barrister, Belleville, who will see that proceedings are taken against Titus, for swearing that he received money from Pierson to pay for Mary Sweet's schooling, and also that he had been consulted as to where to locate her. Mr. Pierson affirms that he not only did not contribute a penny to her support, but that he did not know that she had been sent to school. Also that he did not know where she went after she left his house. The case when it comes on will prove of great interest, and place Joseph Pierson in a proper light before the public.

DISASTER AT A FIRE.

Several Persons Killed and Injured by the Fall of a Roof—A Sad Affair.

STRATHROY, March 6.—A fire broke out in C. P. Heal & Co's. dry goods store on Front street about twelve o'clock. The building was a brick one, and occupied by Heal, dry goods; R. Diprose, groceries, and P. H. Mathews, tailor's shop, upstairs. Just as the firemen had the fire under control, and while a number of citizens and firemen were standing on the side-walk in front of the building, the roof shot out into the street, carrying the front wall with it, and buried a number of those standing on the street. Among these were Hamilton Howe, undertaker, killed instantly; A. H. Kettridge, E. W. Woodbury, proprietors of the Queen's hotel, severely injured—the latter has a leg broken; G. M. Francis, confectioner; T. Legallee, drayman; David Gibson, grocer; Dougald Graham, grocer; W. Murdock, carpenter; Richard Wallace, bookkeeper; Robert McEwin, Vorus Spurr, shoemaker; John Laufesty, jr., severely but not fatally injured so far as can be ascertained at present. The building was owned by J. & J. H. English, and was rebuilt during the past summer. It is not known how the fire originated.

FROM ALL OVER.

THE short stories written for English magazines are as a rule superior in plot and construction to those published in America. Why should this be so, or continue to be?

When all his brother's debts are paid, the present Earl of Lousdale will have only £20,000 a year, instead of the original £60,000, wherewith to drag out a miserable existence.

Dr. Pierce's "Pellets"—little liver pills (sugar-coated)—purify the blood, speedily correct all disorders of the liver, stomach, and bowels. By druggists.

IT is significant of the change of sentiment toward Jews in England that the Evangelical Earl of Shaftesbury writes: "I have long desired to see such a man as Sir Moses Montefiore in the house of lords."

"THE BEAUTY" of having a bottle of Perry Davis' Pain-Killer in the house is, that you are prepared for the "worst," Croup or Cholera. The Pain-Killer is a sovereign remedy.

NERVOUS EXHAUSTION, and all diseases arising from youthful indiscretions are speedily and radically removed by that wonderful remedy known as Mack's Magnetic Medicine, an advertisement of which appears in another column.

A GROWN-UP resident of Leesburg, Fla., laughed as heartily as the boys who tied a blazing spongeful of kerosene to the tail of a dog—until the brute ran under his house and set a fire which destroyed it.

THE English Catholic Duke of Norfolk has presented an estate at Storrington, near Arundel, to the Premonstratentians expelled from St. Michel de Frigolet, who will accordingly build an abbey there.

DIGEST YOUR FOOD.—If you want to be healthy. How can you if your teeth refuse to do their work? Get them put in order by skilful dentists, and use Sozodont to keep them right. Sozodont is the best preparation for the teeth.

AFTER a protracted silence Sir Robert Peel appeared at a recent election to denounced the proposed cloture as "an attempt to gag the opposition, such as had not been attempted since the days of King John."

A rattlesnake confined in a cage for eleven months shed its skin four times, ate sixty rats, and although it had access to a tank of water, an apparatus prepared for the purpose proved it had never drank a drop.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

THE fact that the letter containing explosive material, which was sent to the chief secretary at Dublin castle, bore the arms of Trinity college, and was mailed within a few yards of it, has led to the surmise that the iodide of nitrogen was obtained by a student from the college labarotory.

THE STOMACH AND BOWELS.—The slightest derangement of the vital organs must be attended to at once. Delays are dangerous. Dr. L. R. Herrick's Sugar-coated Vegetable Pills are a sovereign remedy for all such ailments. They never fail. Ask for them. They are sold everywhere.

A ST. CATHARINE'S, Canada, jury of twelve enlightened and thinking men, who were called to judge the facts of a case wherein a murder had probably been done—its victim a woman—came to the fore with the conclusion:—"Died by the visitation of God under suspicious circumstances."

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

A priest in Cork complimented a young man on his profound sense of filial duty when a few weeks since he proffered his reverence a ten pound note in payment of two pounds worth of masses for his parent's soul, and got in change eight nice golden sovereigns, and the young man went his filial way, much gratified at having thus satisfactorily worked off his forged "tenner."

1—FARMERS AND MECHANICS.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

A CASE OF CONSUMPTION.—Chesterfield, N. H March 26.—Messrs. Seth W. Fowle & Sons: Gentleman—I feel in my duty, called upon voluntarily to give my testimony in favor of Dr. Wistar's Balsam of Wild Cherry. I was taken sick last October with a lung complaint, accompanied with a very serious cough; and after having been treated a number of weeks by the best physicians, they gave me up as an incurable case of consumption, and for about six weeks my friends expected I might die any day, having entirely despaired of my recovery. At this time I read the advertisement and certificates of the Wild Cherry Balsam, and was induced to try it myself. I have taken five bottles, and from the commencement I have been gradually recovering. My cough has now entirely ceased. I have regained my flesh and strength, and am feeling quite well. I attribute the cure to Dr. Wister's Balsam of Wild Cherry, as I have taken no other medicine since I commenced taking that." Very respectfully yours, MRS. MILA S. SMITH.

GENTLEMEN.—Mrs. Smith gives me the foregoing certificate of the efficacy of your medicine in her case. She is an acquaintance of mine, and took the Balsam on the strength of my certificate, which she saw in the papers. Her story is literally true. Yours truly, W. H. JONES. 50 cents and $1 a bottle. Sold by dealers generally.

English Advertisements.
SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.
SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.
SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.
SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.
LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.
PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.
PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.
TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

To give all classes an opportunity of purchasing at the GREAT SALE, the Store will be open every morning at 7 o'clock, and will not close until 8 o'clock at night. Terms Strictly Cash!

A LEAF.

BY ANNIE L. JACK.

There fell from a tattered book, to-day,
A pressed and withered leaf,
(The book was shabby and sadly worn
Its pages had come to grief)
But the growing colors could yet be seen
On the maple leaf that was pressed between.

The gentle hands that had placed it there
Were quiet now and cold,
And dust had gathered about the book,
But the *leaf* had not grown old,
Once the pride of a lofty maple tree
It had kept its beauty still fresh, for me.

'Twas part of an autumn long since dead
But is dear to the hearts of all
Who claim a home where the maple leaves
In the glowing autumn fall,
Scarlet and golden and brown we see,
Emblems of hope and of constancy.

—*Canada First.*

Hangman's Rope as a Talisman.

The popular pocket piece just now in this city is a piece of hangman's rope. If all the hangman's rope was taken from the pockets of superstitious St. Louisians they would form a rope of considerable length. The five hangings recently taken place in this city have brought out again the superstition that hangman's rope is a sure cure for rheumatism, consumption, heart disease, apoplexy and everything else. The rope is a sure cure for all the ills that flesh is heir to, if properly applied and adjusted; but that is not the way that a great many St. Louis men and women look at it.

In the police stations nearly every prisoner who is searched carries a piece of rope, and a great number of private citizens, treasure up the ghastly hempen mementoes. Every tramp carries one, and in the alleys frequented by the colored populace there are yards of rope with which Ellis and Ward were executed. The supply is not yet exhausted, and half an inch of the execution rope sells for the phenomenally low sum of five cents. A gentleman with whom a reporter had a conversation stated that a very nice lady had asked him for a piece of rope. She was handsomely dressed, and pretty, too. With recklessness he promised to procure her a piece, not thinking she was in earnest. He met her again. She asked for a piece of rope. He straightway proceeded around among his friends, but could not get any genuine. He had to have a piece for that lady, however, and the brilliant idea struck him that he could give her any piece of twisted hemp. She would never know the difference. He gave her a piece of frayed and broken clothes line, saying that it was a strand of the rope, and she put it in her purse and went away happy. Several parties have been selling the rope about town and taking in the gullible people.

He Held the Case.

One day a notorious horse-thief had been captured and brought into court to be committed. While the examination was progressing the prosecuting attorney and the sheriff stepped to the door to counsel. The thief seized the opportunity, and clasped in the 'squire's hand a $20 gold piece with the remark: "Hold the case until dark; then dismiss for error in the complaint. It sets forth that a horse has been stolen, while the evidence shows that it was Fare." The case went tripping along until the sun had dropped behind the hills and darkness shadowed the land. Then the court raised the horse and mare question and dismissed the prisoner. Before a new complaint could be made he was far away under cover of darkness. The 'squire then adjourned the court, and went straight home in high glee. Arriving there he clapped the "double-saw-buck" over his eye and went capering around the floor like a young colt. His good wife, noticing the wealth made some remarks about apparel. "Nothing to wear, eh?" said the 'squire. "A calico dress goes." Supper being over, he repaired to the barn to feed his beast. But lo! she was gone. He had a bogus coin in his pocket, while the thief was bestride his beautiful mare over the hills and far away.

Chapped Hands.

This is one of the most troublesome affections that usually present themselves every winter. All known remedies have been tried from time to time, and finally, after several years' experience, it has been learned that sheep suet and camphor melted together and applied at night have given the very best results. The proportion should be about one drachm of camphor to two ounces of sheep suet, or, as the patients are very often instructed, melt together a piece of camphor about the size of a large walnut, with half a teacupful of sheep suet. The ointment so prepared is hard, almost like a piece of tallow candle, and the patient should always be instructed to break of a piece about the size of a shellbark, and rub it in the palm of the hand until the temperature of the part softens the substance, so that it can be easily rubbed over the angry and inflamed surface. In other cases the oil of ergot rubbed in the parts will often prove equally efficacious.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

A GOOD FILTER.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

Dr. Pierce's "Favorite Prescription" is not extolled as a "cure-all," but admirably fulfills a singleness of purpose, being a most potent specific in those chronic weaknesses peculiar to women. Peculiar to Women, 96 pages, sent for three stamps. Address World's Dispensary Medical Association, Buffalo, N. Y.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

The Best Field FOR EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

BOARD OF EDUCATION.

THE MEMBERS SPEND AN HOUR AND A HALF IN DOING NOTHING.

The Most Unimportant Meeting Yet Held—The Cadet Question in "Statu Quo" After a Squabble—A Week's Holidays Granted—Minor Matters of Little Interest.

The regular monthly meeting of the Board of Education was held at the Collegiate Institute on Tuesday evening.

Present,—James Stevenson, Esq., chairman, and Messrs. McClelland, Rutherford, Weir, Sproule, Stratton, Poussette, Wrighton, Sawyers, Burnham and Cox.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS.

From the Bell Telephone Co., asking the board to connect the various schools of the town by telephone, and offering to connect the schools for $30 each, or $90 for the whole.—Received.

From Captain E. B. Edwards, saying that he had enrolled 24 boys for the cadet corps, and stating that he could easily secure 40. He advised procuring tunics from the Government at a cost of $160. The suits would last for 10 or 12 years, and he asked the board to afford assistance.—Received.

The Secretary read a letter from Lieut.-Col. Villiers, stating that the arms of the cadet corps could be retained here pending re-organization.—Received.

SCHOOL ATTENDANCE FOR FEBRUARY.

	On roll.	*Average.*
Collegiate Institute	129	116

PUBLIC SCHOOLS.

	On roll.	*Average.*
Central School	566	486
South Ward School	226	197
Third Ward School	151	131
Total	944	814

—Received.

From the chairman of the Lindsay board of education, asking for the salaries paid in Peterborough, the grades taught, etc.—Answered.

ACCOUNTS.

T. Menzies, green paper, ... $1 00

Ordered to be paid.

COMMITTEE ON APPOINTMENTS.

Mr. Poussette read a report of the above committee, recommending an increase of $25 in the salary of the secretary-treasurer, making altogether $265.

Mr. Poussette said that he had examined the books and found that they were remarkably well kept. He employed his business-like manner of conducting the business, and thought that the officer was underpaid.

Mr. McClelland, did not want to undervalue the services of Mr. Morrow, but at the same time he thought that a motion passed in November, fixed the salaries for this year. He did not want to re-open the question of salaries.

—The report was received and adopted.

SCHOOL SUPERVISION.

Mr. Stratton read the following report of the above committee:—

The committee on School Supervision beg leave to report as follows:—

(1.) Your committee having fully considered the re-organization of a cadet corps, and after the fullest investigation possible by your committee, and after conversation with parents, guardians and others, your committee are of opinion that the existence of such corps is detrimental to the best interests both of the school and of the boys who might join it, as it would lead to idleness, indifference and neglect of studies, and would be attended with costs for uniform and things necessary, which the majority of the parents object to. Your committee therefore cannot recommend the re-organization, but on the contrary desire that the arms be returned to the Government with as little delay as possible.

(2.) That in accordance with instructions from the board, your committee asked for tenders for the necessary supply of stationery, ink, &c., for the use of the schools for the year. Three tenders were received, and on comparison of quality of material and prices, your committee accepted that of Messrs. A. L. Davis & Co., which was most favourable.

Your committee would also ask the secretary of the board to request the principals of the public and high schools to be as economical in the use and furnishing of the stationery, &c., as is consistent with the requirements of the schools.

All of which is respectfully submitted.

(Sg.) J. R. Stratton,
Chairman.

Mr. Rutherford objected to the clause regarding the cadet corps and thought that the committee had pursued a rather curious course, after the almost unanimous feeling of the Board on the matter, and the trouble that had been taken to re-organize the Company. He thought the report was one-sided.

Mr. Poussette thought that the Supervision Committee had exceeded their powers. The Board had decided that it was expedient to re-reform the Company, and the matter was referred to the Committee to consider the best means to carry out the wish of the Board, but instead of doing that they tried to throw all the cold water they could. Only 16 more members were required to make up the Company, and he thought they could easily be procured. There was no trouble about obtaining instruction. He wanted to see the corps formed and if the boys did not attend to drill regularly, then the Company could be disbanded for good.

The Chairman said that Captain Edwards offered to instruct the Company and look after the arms.

Mr. Sproule thought that if the clothes were supplied by the Government so that they could not be carried off, there would not be any trouble in keeping up a Company. Boys, by stooping over their desks become round shouldered, but by drilling they would be straightened and learn to walk erect. Perhaps the country would become involved in war and in that case the advantage of early drill would be found very beneficial. He would support the formation of the Company and oppose that clause of the report.

Mr. Stratton said that the Committee were unanimous in coming to a conclusion. Since the 24 names were secured several had declined to join. Parents objected and the teachers were not unanimous in favor of the Company.

Mr. McClelland was opposed to purchasing tunics as he felt that the ratepayers would object to it. Many of the boys who had joined the Company were quite young. He advocated the erection of a gymnasium.

Mr. Weir thought that if the Company was a practical thing it would be a good one. If the uniform was provided by the Government and kept by Captain Edwards, the subject was a good one. In former years the volunteers had to provide their own uniforms but the Government in order to properly maintain the force purchased the uniforms for them. An early military training was very beneficial as had been proved in the case of Germany. Young boys would learn more in six months than old men would in six years, and if the Government saw fit, to expend so much in training old men surely the Board could afford to expend a small sum to train the youths on whom we would have to depend in the future.

Mr. Cox thought the whole volunteer system of the Dominion was a humbug and that this was a miniature one.

In amendment it was moved by Mr. Poussette, seconded by Mr. Rutherford,—That the School Board endeavour to obtain from the Government a supply of tunics for the cadet Company.

The amendment was lost.

The vote stood as follows on the amendment.

Yeas—Messrs. Poussette, Rutherford, Weir, Sproule and the Chairman—5.

Nays—Messrs. Cox, Wrighton, Sawers, Burnham, Stratton and McClelland—6.

Mr. Poussette raised a point of order on the adoption of the report as the Committee had not reported on the matter referred to them.

The Chairman held that the point was well taken.

Mr. Stratton asked leave to amend the report.

Permission was allowed on a vote being taken.

Mr. Braden said that the Company would not interfere with the public schools at all, as the members would be drawn from the Institute. If the drilling took place after school hours it would not interfere with the school at all.

Mr. Stratton, having struck out some objectionable words again read the report.

Mr. Poussette again rose to a point of order.

The Chairman ruled the first clause out of order.

The Chairman recommended that the report be laid over until Captain Edwards returned.

The first clause was finally laid over and the others were adopted.

RAISING THE WIND.

A by-law to allow the Secretary-Treasurer and Chairman to borrow money to an amount not exceeding $8,000 to carry on an school until the town funds were paid over, was carried.

MORE HOLIDAYS.

Mr. Stratton moved that a deputation of scholars regarding granting a week's holidays at Easter be heard.

Mr. Max. Hamilton addressed the Board in support of the request.

The request was granted.

ASHBURNHAM'S GRANT.

The Chairman and Messrs. Stratton and Poussette were appointed a Committee to wait on the Reeve of Ashburnham, regarding the annual grant towards the town schools from the village council.

OUTSIDERS.

Mrs. James Dixon's case regarding paying fees to the town schools, as she paid town taxes, although a non-resident, was taken up.

As she paid the average tax, the Board had no alternative but to grant the request.

The Board then adjourned.

"Accept our Gratitude."—Dr. R. V. Pierce, Buffalo, N. Y.: *Dear Sir.*—Your "Golden Medical Discovery" has cured my boy of a fever sore of two years' standing. Please accept our gratitude. Yours truly, Henry Whiting, Boston, Mass.

Fellows' Compound Syrup of Hypophosphites is not only the most reliable remedy for consumption, but it is a specific also for Bronchitis and Asthma.

FRESH EVERY DAY!

BRANDON! BRANDON!

Through the Interest of one of the Proprietors, I have secured for sale in Peterborough,

ONE HUNDRED VALUABLE LOTS

IN THE TOWN OF

BRANDON,

Which I shall Offer for Sale by Auction,

AT

THE "ORIENTAL" HOUSE,

ON

Wednesday Evening, 8th March, 1882,

AT 7 O'CLOCK SHARP.

To Capitalists, Merchants, Mechanics, Traders, Speculators, and all who wish to make money: Secure Lots before the Spring "Boom." Prices must go higher, and those who buy now cannot but make handsome profits in a few months.

The coming spring and summer will be the best that Manitoba has yet seen. The number of emigrants already booked is simply enormous. Capital is flowing in, and the railways are being built at a rate that is astonishing. Brandon is a solid town with future wealth and prosperity assured by its splendid natural position, in the centre of one of the finest agricultural districts in all Manitoba, and the Syndicate is directly concerned in its success. Its growth has been wonderful, and must continue for many years. Hotels, Warehouses, Stores, Dwellings, Public Buildings, &c., are going up on a large scale, and immense contracts have been given for spring and summer work.

It is now the popular town for investment among shrewd buyers, and many of the leading Winnipeg Capitalists are investing largely. Its "boom" is only beginning. The lots to be sold are splendidly situated, being high and dry, near C. P. R. Station, and in the finest parts of Brandon. HUDSON BAY TITLES.

TERMS.—One-half Cash; balance in six months, or a discount of ten per Cent on the Credit portion for all Cash.

CHARLES STAPLETON, Auctioneer.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.
The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.
Five minutes inspection will verify this statement.
A full range of INSERTINGS to match and of equal lengths.
WE shall be pleased to quote prices, and will cut off any length that may be required.

T. DOLAN & Co

Nos. 1 and 2, Clurton's Block, Corner of George and Hunter Streets.

Notice of Removal.

The undersigned having leased the

"PETERBOROUGH HOUSE"

Situated on Hunter Street, at present occupied by John Sullivan, will remove thither on the 15th of February.

This hotel is well adapted for the accommodation of farmers and the travelling public, being situated in the most central portion of the town.

The undersigned proposes to conduct the hotel in a first-class style, the table will be always supplied with all the luxuries of the season, and the bar with the very best brands of liquors and cigars.

Good sample rooms will be provided, and commercial travellers will find it to their advantage to patronize my house.

Every effort will be put forth by me to meet the wants and comfort of farmers and others, and from my long experience in providing for my guests, the undersigned feels warranted in saying that his house will be found the most comfortable in town.

Good sheds and stabling, and a careful hostler always in attendance.

MICHAEL HALPIN.

"Moira Hall"

AND

FURNITURE.

The residence of the late MRS. COTTINGHAM will be offered for sale by Public Auction at the premises on

Friday, 10th of March Next

At 11 o'clock a. m. The Property is composed of Lots Numbers 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23 and 24, according to Reid's plan of the South Quarter of Lot Number 12, in the 13th Concession of North Monaghan and containing six acres of land, more or less. The house is a large well-built brick building, nearly new, and in good repair. Amongst the advantages of the house, may be mentioned, a good furnace, which thoroughly heats the whole house, and fireplaces in all the principle rooms as well, a bath-room with hot and cold water pipes all in good working order, lightning rods, bells, etc. The house is comfortably arranged, and is easily heated, is papered, and in good order. There are suitable outbuildings, including stable, and fine, large greenhouse. There is is also a large brick lodge for man and family. The grounds are well laid out with beautiful shade trees, garden, etc. There is a large fruit orchard in full bearing. The property being outside of the Town Limits, although only ten minutes walk from the market, offers the advantage of low taxes, and would make a very desirable residence for a business or professional man. Intending purchasers can inspect the building on application to the man in charge at the lodge. After the sale of the land, the sale of the

FURNITURE,

Which is chiefly of walnut, and in good order, will take place.

Terms easy to suit purchasers, and will be made known at time of sale.

LAKEFIELD NEWS.

From Our Own Correspondent.

PUBLIC MEETING.

A public meeting was held in the Council Room, Lakefield, on Saturday evening last for the purpose of taking into consideration the Lakefield dam. The Council room was well filled with people from the village and surrounding country. A good deal of discussion took place which would not be interesting to yo ur general readers. The following resolutions were passed att he meeting without any opposition.

Moved by Dr. BELL, seconded by JOHN ISBISTER, and adopted,—That whereas the members of the County Council at the January session, after hearing a deputation of influential ratepapers from Lakefield relative to the regulation of the waters between Lakefield and Julian's Landing, carried unanimously a re solution calling upon the representatives of the east and west riding of this county in the Local House to urge upon their Government the immediate necessity of assuming control of these waters, so as to regulate navigation. That this meeting fully endorse the action of the said County Council, and regret that the Local Government have not placed in their estimates a sum of money sufficient to carry out the wishes of the County Council, and the expressed wishes of the ratepayers of this county expressed to the council on this matter.

And that the plea that these waters are not under the control of the Local Government is unsound, and cannot be accepted by the said ratepayers or this meeting as the said Government have from year to year spent large sums of money on the same waters, and have this year placed a further large sum in the estimates for expenditure at Young's Point.

Moved by Mr. R. C. STRICKLAND, seconded by Mr. JOHN C. SHERIN, and adopted,—That it is desirable to urge on the Local Government the necessity of appointing a commissioner or commission to investigate into all claims for damages arising from assuming and keeping up the Lakefield dam, with a view to settling the matter and keeping up navigation, which is a necessity on account of steamboats and other interests being involved, and from the deliterious influence it will have on the health of the people in the vicinity, if the water is lowered and the drowned land exposed to the sun.

Moved by J. C. SHERIN, seconded by W. HARPER, and adopted,—That Messrs. W. H. Casement, R. Graham and Dr. Caldwell, be appointed a deputation to go to Toronto next Tuesday and urge on the Government the views contained in the foregoing resolutions, and that the village pay their expenses. An amendment was moved by Mr. Sanders and carried, changing Mr. Casement's name for Mr. J. C. Sherin.

The Kennedys Leave for Four Years.

The Montreal *Witness* of the 4th instant says:—

"There was another first-rate audience in the Queen's Hall last night to hear the closing concert in this city of Mr. Kennedy and his family. The singers were very generous with songs last night, giving some which were not on the long programme, a programme containing some of the very best known songs of Scotland, as well as some which deserve to be quite as well known. Mr Kennedy surpassed himself in his story of Saunders McGlashan's courtship, and the humorous "Laid o' Cockpen", and the pathetic "Ewie wi' the Crookit Horn" were among his numerous songs. The young ladies distinguished themselves as usual, Miss Helen Kennedy's "Standard on the Braes o' Mar" being specially well received among the solos. The the piano and violin duets, reels and strathspeys were very heartily encored, and well deserved the reward they received. Mr. Robert Kennedy's voice—it becomes more and more clear—is one of very exceptional power and richness, and his "MacGregors' Gathering" and "March o' the Cameron men," were enthusiastically given and enthusiastically received.

Before giving the last song—"We've aye been provided for, and sae will we yet"—Mr. Kennedy thanked the people of Montreal very heartily for their support, and told that it was in this city, sixteen years ago, that his successful public career as a singer began. They now go west as far as Winnipeg, then back to the old country by way of New York. From home they start for Australia on their last tour round the world, and will not be again in Montreal before the year of 1886. A very hearty cheer was then given to Mr. Kennedy as a farewell from those whom he had pleased so well."

MIDNIGHT TELEGRAMS

CABLE.

WAR IMMINENT.

LONDON, March 8.—A despatch received from the Cape of Good Hope, says war is imminent between the Basutos and the Cape Colonists.

AMERICAN PRISONERS.

LONDON, March 8.—The United States Minister, replying to an application on behalf of the American citizens arrested in Ireland, says the Coercion Act is contrary to the spirit and foundation of the principle both of English and American juisprudence, but is the law of the land, and controls all persons domiciled in the proclaimed district of Ireland, whether British subjects or not. It is manifestly futile to claim that naturalized citizens of the United States should be exempted from the operation of the Act.

SEEKING AN ALLIANCE.

CONSTANTINOPLE, March 8.—Tho Porte, it is said, is seeking an offensive and defensive alliance with Austria in the event of war with Russia.

DON CARLOS "ABDICATES."

PARIS, March 8.—It is rumoured that the pretender to the Spanish crown, Don Corlos, has abdicated in favour of his son. who is ten years old.

A NIHILIST THREAT.

GENEVA, March 8.—The Russian Nihilists in Geneva have issued a declaration that if the execution of the recently condemned Nihilist, which is to take shortly at St. Petersburg, be not averted, their deaths will be avenged.

BI-METALLIC MEETING.

LONDON, March 8.—At a bi-metallic meeting at the Mansion House to-day letters of approval from the Ministers of France and Germany were read. The United States Minister, and the Ministers from Greece, Holand, Roumania and Chili were present. The governor of the Bank of England, and the following members of Parliament:—Messrs. Belfour, Williamson, Cotton and Campbell, spoke to the resolutions favouring the free coinage of silver, and the object of the Paris conference, which were carried. Twelve hundred persons attended, including many prominent business men.

A PROCLAMATION.

VIENNA, March 8.—A proclamation by King Milan says the political edifice founded in 1832 has been worthily crowned. It expresses gratitude to the European powers for their sympath towards Servia, and says the national enthusiasm is a guarantee that in future the spirit of Servia's immortal liberator Milosch and of the hero Martyn Michael will be honoured. The energies of the new king will be devoted to the dissemination of virtue and enlightenment.

AMERICAN.

BAFFLED ROBBERS.

MEXICO, March 8.—A coach near Guadaljara was attacked by robbers. The passengers resisted, killing eleven robbers when the rest fled. The passengers were unhurt.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

A ROW FEARED.

LONDON, March 9.—An ugly feeling is growing over the Bradlaugh case. There are serious fears of a popular uproar over it.

UNITED IRELAND.

LONDON, March 9.—A large number of copies of *United Ireland* hare been seized.

A PRUSSIAN SPY.

PARIS, March 9.—A Prussian spy has been arrested at Brotteaux, a suburb of Lyons. A number of maps and plans of the defence works were found among his luggage. He stated that he was a captain in the German army.

AMERICAN.

DEADHEADS.

DES MOINES, March 9.—The Anti-Free Pass Bill was defeated in the House by 65 to 31.

THE THIRD TIME.

WASHINGTON, March 9.—The Mahone case was before the Senate yesterday for the third time this session.

A COSTLY HORSE.

CHICAGO, March 9.—Ex-Gov. Stanford of California has bought the stallion "Pediam" with a record of 2.17¼ for $30,000.

NO WORK—SUICIDE.

BROOKLYN, N. Y. March 9.—Henry Hochswender and his sweetheart arrived in this country a few nights ago in a sailing vessel. Hochswender spent all his money, and being unable to find employment stabbed and killed himself last night, in his sweetheart's presence.

HANDSOME DONATION.

NEW YORK, March 9.—Sarah Burr died on Monday. Her own estate and property inherited from two sisters is valued at about three millions. Except several small donations, it will be divided among benevolent and religious societies, in this city.

A VALUABLE CARGO.

NEW YORK, March 9.—The American ship burned at Calcutta yesterday, has a cargo valued at $120,000.

SELLING DISEASED CATTLE.

BROOKLYN, March 9.—The grand jury of Queen's county yesterday indicted Hopkins the State Veterinary Surgeon charged with selling diseased cattle.

RAILWAY DIVIDEND.

NEW YORK, March 9.—The New York Central and Hudson River Railway has declaired a quarterly dividend of two per cent. payable April 15th.

MORE FLOODS.

NASHVILLE, March, 9.—There has been incessant rain since yesterday morning. The Cumberland is raising rapidly and another flood is anticipated here. Ten rafts have been lost since yesterday morning. The rain extends from Texas East to Georgia thence northward to Ohio and thence westward to Kansas. Additional and more destructive floods are predicted in the Mississippi Vally.

SUPREME COURT OF CANADA.

The Validity of Provincial Charters to Railway Companies—G. J. R. v. Peterborough.

OTTAWA, March 8.—In the Supreme Court, the case of the Grand Junction v. the Corporation of Peterborough, was resumed to-day. Mr. Bethune, continuing his argument, contended at great length that all railways coming under the head of trade and commerce, over which the Dominion Government had exclusive jurisdiction, should be chartered only by that Government; that the Local Legislature had no jurisdiction over Provincial railways. If such were not the case, he said there would be two separate sets of railway powers, under which it would be impossible to enforce the proper regulation of trade and commerce. If there was one subject more than another that was intended to be under central control, it was matters relating to trade and commerce. The Court of Appeal in the present case has declared that the Dominion Act of 1870 was valid, in so far as the separation of the Grand Junction charter from the Grand Trunk was concerned; but that the Federal Government had no power to restore it to the Grand Junction, and the declaration in the Act to that end was not valid, because it did not recite in express terms that the Grand Junction was a work for the general benefit of Canada.

PROVINCIAL LEGISLATION ULTRA VIRES.

He deemed that the Dominion Government had no power to revest the charter in the Grand Junction, and claimed that such charter was the only valid one obtained by the Company, subsequent Acts of the Local Legislature, to that end being *ultra vires.* Under the Dominion charter the Company were bound to complete their road within a specified time, and the bonus being granted on the faith of that stipulation being complied with, the Company by not completing the road within the time limited by their act of incorporation forfeited their right to enforce the payment of the bonus. That if the Dominion charter should be considered as the only valid one, the Company had failed owing to non-completion of the road within the time specified in their Act of incorporation, and on the other hand he claimed that the payment of the bonus could not be enforced under the Acts of the Local Legislature, assuming for the moment that the were legally enacted, owing to fact that the bonus was specially granted to a Company chartered by the Dominion Government and not to a Company chartered by the Ontario Government. He further contended that the by-law had not been approved of by a majority of the duly qualified voters of the County of Peterborough, and that Parliament when validating the by-law assumed that it had been so approved of. No record having been kept of the voters on the by-law by the County officials, the appellants were bound to follow the wording of the Act, which would not support their contention that it was dealing with a by-law that had been approved of by a majority of the electors who voted. He claimed that at that time there were some three thousand voters in the County of Peterborough, and that only about one thousand had voted upon the by-law.

DIVISION OF THE COUNTY.

Another difficulty in dealing with the case was the fact that by an act passed in 1874 a portion of the county of Peterborough had been separated from it, forming the district of Haliburton, and in that separation no provision was made for the payment of the bonus, the by-law having been considered as lapsed, and he claimed that the latter district ought to be equally liable with the county of Peterborough, and as they were not liable in fact, Peterborough ought not to be made liable. The county of Peterborough was not now in a position to raise the amount claimed, and that was a fact that the court was bound to consider, and the cited authorities in support of the contention that if it could be shown that without some illegal action the money could not be levied it was a good reason for refusing the *mandamus.*

Mr. Edwards followed up the argument by referring to the evidence bearing upon the questions of fact regarding the construction of the road and voting upon the by-law granting the bonus.

The court adjourned at four o'clock. The case will occupy the greator part of to-morrow. —*Globe.*

SMITH.

From Our Own Correspondent.

HONOUR ROLL.—The following is the honour roll for February of School section number four, Smith. A. Weir, teacher.

FOURTH CLASS.—Total number of marks 846; Fred Davidson 758, Herbert McKibbin 595, Edith Pearson 592.

THIRD CLASS.—Total number of marks 425; Maggie Elliott 312, Ada Davidson 275, Louisa Fitzgerald 189.

SECOND CLASS (A).—Florence Davidson, Albert Garbutt, Addie Elliott.

SECOND CLASS (B).—Robt. Davidson, Ada Wareham, Charlie Millar.

PART SECOND (I Book).—Charlie McDouell, Hatty Fredenburg.

PART FIRST (I Book).—Florence Elliott.

The Great Case

The law costs of McLaren vs. Caldwell, which has been going on for three years, and which is now before the Supreme Court, are something enormous, amounting already to about $40,000. The evidence taken in the case is also enormous, about 126 witnesses having been examined. This is the case which gave rise to the famous bill dealing with streams and rivers, which was passed by the Ontario Legislature but was disallowed by the Dominion Government.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

Daily Evening Review

THURSDAY, MARCH 9, 1882.

CANADIAN PARLIAMENT.

An address congratulating the Queen on her escape from assassination was adopted, on motion of Sir John Macdonald, seconded by Mr. Mackenzie.

Mr. Boultbee continued the budget debate. He showed that Sir R. Cartwright, though impudently accusing Sir C. Tupper of falsification in charging him with misquoting Sir H. Tyler's speech, in regard to the coal used by the Grand Trunk railway, had a reality quoted from a forged paragraph which appeared in the *Globe*, but was not really uttered by Sir H. Tyler.

Mr, Ross, (Middlesex,) and Mr. Rinfret, (in French,) Mr. Mackenzie and Mr. Charlton followed on the opposition side, and Mr. McLennan, Mr. Plumb and Mr. Coursol, (in French,) in support of the Government.

Sir John Macdonald in answer to a question, said that 25,000 maps of the North-West had been issued and sent to Europe. The unexpected demand had exhausted the supply, but a second issue would soon be ready.

In answer to Mr. Mills Sir John Macdonald said that the bill for the re-distribution of seats was under consideration, and would be submitted in time for full consideration by the House.

ONTARIO LEGISLATURE.

The River and Streams Bill, with the view of settling the case of Caldwell *vs* Maclaren, now before the Supreme Court, was read a third time and passed. This is the bill that was disallowed by the Dominion Government.

The Bill to establish a Bureau of Industries, was read a second time, Mr. Meredith pertinently asking what was the use of the clause for obtaining information of the precise nature of that which Mr. Hardy clipped from a public report last year, though he had not suppressed similar paragraphs in previous reports, because he had not then the same political purpose to serve.

An address of congratulation to the Queen on her recent escape from the hands of an assassin was carried.

Mr. Bell's bill for providing for the ballot at the election of school trustees was defeated.

A bill enabling women to vote on municipal money by-laws was read a second time.

The Market Fees Bill was read a third time and passed.

Mr. Fraser announced that it was not intended to proceed with the new Parliament buildings.

A series of resolutions were passed against the Dominion Government declaring certain Ontario railroads to be for the general advantage of the Dominion, or more than one of its provinces.

THE CADET CORPS.

To the Editor of the Review.

SIR,—On reading the report of the School Board Committee of Supervision in your issue of this evening, I was rather surprised at its tenor, and I doubt the accuracy of its statements. I should like to know what "the fullest possible investigation" amounted to and how many of the parents, guardians and others were interviewed respecting the matter of the cadets. Military training cannot be detrimental physically, I cannot see why it should be mentally—on the contrary the vigor imparted to the frame by the well regulated exercise, must have a most salutary effect on the mental powers. Schools of the very highest order in old Fatherland have their gymnasiums and very many of them employ drill sergeants to instruct their pupils in the rudiments of military exercise. I candidly avow that I don't believe a small minority, not to speak of a majority, of the parents were consulted about the matter—nor do I believe that (except the question was put with a strong animus against the proposition) any parties except a few nervous old ladies could be found to condemn it.

Parents, as a rule, have more sound common sense than to believe in continuous cramming; we want our boys to be made men and not mere pedants, men physically as well as intellectually—who will be able if required to fight the battle of life with all their powers developed to the highest degree possible, and under the supervision that will surely be exercised over a cadet corps, neither habits of idleness, indifference or neglect are likely to be contracted. Drill is not the only advantage of military training, discipline also is an esential element.

It is about time we had more men and less old women on our School Board.

Peterborough, March. 7th, 1882. T.C.D.

HASTINGS.

H. M. MAIL.—The *Star* says that the Hastings bag, which contained the eastern and western mail, was in some unaccountable manner lost from the stage between Castleton and Warkworth, and although a change was made at Morganstown, the loss was not discovered until Warkworth was reached, and from whence a telegram of enquiry was sent to Castleton. Meanwhile the bag had been picked up by a farmer and carried to Morganston, arriving here on Monday. Such mishaps would be avoided were the principal mail carried by train, as it would do away with the necessity of using a separate bag for the way mail by stage. We trust this accident will expedite arrangements to carry all the eastern and western mail destined for Hastings and dependencies by train.

PERSONAL.—We regret to hear that Mr. Bosanko, who for some length of time practiced dentistry in Hastings and latterly in Norwood, is about leaving this part of the country to accept the management of a large office in Barrie. Mr. Bosanko will carry with him the good wishes of a number of warm friends in the neighborhood, for his success in his new home.

ENLARGING.—Mr. Peters intends extending the business done in the woollen mill, and with this end in view has leased the building formerly used as a knitting mill, and is fitting it up for the reception of additional machinery, and is also putting a Leffel wheel into the old mill.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week,

MASONIC.

Dedication of New Temple at London—An Interesting Event.

LONDON, March. 7.—The dedication and formal opening of London's new Masonic Temple to-day was the occasion of a large gathering of the fraternity from various parts of the Province and the neighbouring States. Among the Grand officers present were:—Col. Moffat, Grand Master; J. J. Mason, Hamilton, Grand Secretary; J. Ross Robertson, Deputy-Grand, of Toronto; Wm. Hayden, Deputy-Grand, of Woodstock, Grand Warden; Rev. E. Davis, Grand Chaplain; Deputy-Grand McLaughlin; Deputy-Grand Milner, of Strathroy; Deputy-Grand Dr. Sutton, of Clandeboye. Among others Masonic visitors of note were John A. Lockwood, P.D.D.G.M., Buffalo, N. Y.; E. H. Long, Grand Registrar, Waterford; C. E. Young, P.D.D.G.M., Buffalo, N. Y.; Dr. W. H. H. Marlyn, P.D.D.G.M., Kincardine; Donald Mallock, P. G. Registrar, Clinton; Donald Ross, Rochester, N. Y.; Dr. H. E. Tamlyn, Wingham; Wm. Mills, Westchester, N. Y.; M. E. Tinder, Toronto; W. Bro. Dio. E. Shipley, and many others of more or less note.

THE PROCESSION.

At two o'clock the lodges organized at the drill shed and thence, after some preliminary evolutions, marched through the principle streets to the temple, headed by the 7th Fusiliers band, the brethren of the Egyptian Masonic Rite of Memphis acting as escort to the Grand Lodge. The day was cold and bleak, but the streets were nevertheless thronged with spectators, and the appearance and order of the parade were highly creditable.

THE DEDICATION.

Arriving at the temple, the party proceeded to the library, where the Grand Lodge was opened in due form.

The Master of No. 20 and his wardens assumed the chairs, and opened the Lodge in the form prescribed by the ritual. Brethren in the regalia of craft masonry only were admitted within the portals. This order was given by command of Grand Master Moffat, and was strictly carried out. The idea of it was to prevent any clash with the Memphis Rite, the members of which might claim precedence on the strength of their degree. The consecration and dedication took place according to the prescribed ritual.

THE BANQUET.

The dedication was followed by a superb banquet at the City Hotel, at which W. Bro. John Siddons occupied the chair, and W. Bro. Thos. Brunton the vice chair. The usual toasts and music enlivened the occasion, after which the Grand Master was presented with a life size portrait of himself, accompanied by a unique and complimentary address, to which Col. Moffat made an apt response. The banquet closed at 7.20, many of the brethren attending

THE OPERA

of "Betsy Baker," which was given at the Opera House under the auspices of the fraternity. The celebration from its inception to its close was a perfect success.

SPORTING NEWS.

AQUATICS.

LONDON, March 6.—Five hundred pounds to two hundred and fifty pounds was laid on Hanlan against Boyd to-day. Strange to say, the Canadian champion is a greater favourite in the north country than in London. Boyd is reported as having made a wonderful trial yesterday, but of course the time is a sealed secret. Hanlan has shown trials which have electrified his backers. Both men are now out every day, and could not be in better condition. Boyd has made many friends by his rowing, and also by his bearing, and has completely silenced his critics. Laycock's friends say probably that he and Pearce will go to Winnipeg, Man., and take part in the proposed great regatta there.

ELLIOTT ON BOYD AND HANLAN.

As previously stated in the *Mail*, William Elliott, of Blyth, is now convalescent. He will arrive in Pittsburg, Pa., shortly, and will then call upon F. A. Plaisted to make good his challenge of last fall. The following report of an interview with the English ex-champion was unfortunately crowded out of the *Mail* yesterday:—

In response to a question as to what he thought of the Hanlan-Boyd race, Elliott said:—"Well, if Hanlan is Hanlan, he is bound to win, though Boyd is a good man without a doubt."

Q. "Do you know if Boyd has shown any improvement to warrant the making of the match?" A. "I don't think he is much, if any, better than he was two years ago. You see, they are reckoning him up to be as good as Hanlan because he beat me, they say, as easily as Hanlan beat me. If they asked me I could tell them Boyd beat me easier than Hanlan did, but that was not because he is a better man, for it was my fault. When I rowed Hanlan I was never better in my life, and when Boyd rowed me I was in no condition for a hard race. You saw the Hanlan race, and you will remember Hanlan jumped right away from me, try all I knew how to keep up with him. Now when I rowed Boyd I led him until my want of condition stopped me, and I was easily beaten because I could not keep on rowing. Then there is another thing they don't take into account. The Hanlan race was rowed on a neap tide, which is a weak one, and when we started it was slack water. When I rowed Boyd we had a spring tide, and had it strong under us all the way and yet Boyd was two minutes slower over the distance."

Q. "Do you thing Boyd can stay the course when he has a hard race? You recollect how Higgins rowed him down on the Thames?" A. "At that race I was on the little launch that carried the umpire, Mr. Ireland, and it was the only steamer that got through below Hammersmith bridge. Boyd shut up the moment Higgins got to him at Chiswich eyot, and that is not the only time he has done that. He had a lead of me in the *Sportman's* cup race of half a dozen lengths, and I rowed him down half way up the Thames course. Then he fouled me when I tried to get by him. He did the same thing with Higgins on the Tyne, and crushed the London man's boat in with his hand to fill and sink it. Higgins, you know, got into another boat and rowed over the course. Then there were two races for the championship of the Tees between Boyd and Hogarth. In the first Boyd led for a long way, then Hogarth came up to him, and Boyd was done. They said he was not in condition, and made another match to row in six weeks, which was the old one over again, for Boyd stopped at the same place when Hogarth got up to him. I don't think Boyd can row a hard race with a man alongside of him."

Q. "Then you are of the opinion that Hanlan will beat Boyd?" A. "Certainly, that is what I am sure of, providing, of course, that he is in condition, for no man who is not fit can win a championship race."—*Mail*.

For all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

Cheaper not Dearer.

The *Canadian Manufacturer* says:—The fact that our imports of raw cotton have increased from seven million dollars odd in 1878, to sixteen millions odd in 1881, speaks volumes. By extension of old mills and the building of new ones, the number of cotton spindles in the Dominion, counting some mills nearly finished, or soon to be, has increased in the same interval from 106,500 to 355,000. This is an enormous expansion, and the capacity of the home market for home goods is such as to warrant much more of it for the next few years. Five million dollars are paid out annually for wages in the cotton mills. In 1874, with raw cotton at 15 or 16 cents, cotton cloth sold at about 36 cents per pound, a difference of say twenty cents. To-day, with raw cotton at from 12½ to 14 cents, the cloth is sold for 27 cents, a difference of say only fourteen cents for the manufacturing. And cotton cloths, of the kinds made in Canada, are cheaper, and not dearer, to the consumer as the result of this large expansion in the home manufactures.

A CASE OF CONSUMPTION.—Chesterfield, N.H March 26.—Messrs. Seth W. Fowle & Sons: Gentleman—I feel in my duty, called upon voluntarily to give my testimony in favor of Dr. Wistar's Balsam of Wild Cherry. I was taken sick last October with a lung complaint, accompanied with a very serious cough; and after having been treated a number of weeks by the best physicians, they gave me up as an incurable case of consumption, and for about six weeks my friends expected I might die any day, having entirely despaired of my recovery. At this time I read the advertisement and certificates of the Wild Cherry Balsam, and was induced to try it myself. I have taken five bottles, and from the commencement I have been gradually recovering. My cough has now entirely ceased. I have regained my flesh and strength, and am feeling quite well. I attribute the cure to Dr. Wister's Balsam of Wild Cherry, as I have taken no other medicine since I commenced taking that." Very respectfully yours, MRS. MILA S. SMITH.

GENTLEMEN.—Mrs. Smith gives me the foregoing certificate of the efficacy of your medicine in her case. She is an acquaintance of mine, and took the Balsam on the strength of my certificate, which she saw in the papers. Her story is literally true. Yours truly, W. H. JONES. 50 cents and $1 a bottle. Sold by dealers generally.

An Inspection and Comparison of Goods and Prices cordially invited.

THOMAS KELLY.

BATTLE WITH BURGLARS.

Two Cracksmen Trapped in a Freight Car—A Man Full of Bullets.

CLEVELAND, March 3.—Conductor Gunsolly's L. S. & M. S. freight train left Erie, Pa., coming west, between 9 and 10 o'clock last night. While making the run between Erie and Ashtabula, Gunsolly discovered that two burglars had broken into a box car, and were even then ransacking it. Gunsolly, with admirable presence of mind, at once resealed the car, securing the burglarous occupants, and telegraphed ahead to Ashtabula to have officers at the depot upon the arrival of the train. When the "cracks" discovered that they had been bagged, they make a bold attempt at escape by sawing their way out of the car, but before success crowned their efforts the train rolled into the Ashtabula depot. The officers who had been notified by telegraph were in waiting. The car was opened and surrounded, when the occupants opened fire on the police, each of the burglars was armed with a brace of revolvers. For a few minutes the firing was fast and furious. The officers responded promptly to the volley from the car, and the firing was kept up on both sides until 20 shots had been exchanged. At this juncture one of the burglars dropped his weapons and fled towards the woods. The other was secured and handcuffed. Neither the captured burglar nor the officers had been hit in the rather promiscuous exchange of leaden compliments. The prisoner was marched off to the station. When about to be consigned to a cell he made another desperate dash for liberty. Although manacled, he sprang through the window, taking sash and all with him in his flight. The officers gave chase and recaptured him within a few hundred yards of the jail. In the meantime officers were despatched in all directions in pursuit of the burglar who fled, and the alarm was spread throughout the surrounding country. Late in the night a strange man appeared in Sherbrook, a hamlet ten miles from Ashtabula, in search of a surgeon to dress pistol wounds. The Ashtabula authorities were at once notified and the "suspect" held to await their arrival. He was wounded in three places. One bullet made a flesh wound in his back, a second entered his arm, and a third his side near his ribs. The Ashtabula officers at once identified him as the shootist of the box car, and he was taken to Geneva jail over night. This morning he was taken back to Ashtabula.

TRAGEDY IN A COURT ROOM.

A Lawyer Shot by a Witness whom he Had Accused of Being a Thief.

SAN FRANCISCO, Feb. 28.—David J. Murphy, ex-District Attorney and a leading criminal lawyer of this city, was shot in open court yesterday by a witness whom he cross-examined in the usual aggravating way of lawyers. Thos. Doliver, a wealthy wholesale dealer in and importer of leather, was arrested five months ago on a scandalous charge. While the trial was in progress, John Cardinel, a well-known broker, offered $200 to the mother of one of the girls who made the charges against Doliver if her daughter would modify her testimony against the defendant. Cardinel was caught paying over the money, and was arrested for subornation of perjury, but has not yet been tried. Police Officer John Morony arrested Doliver, and worked on the case against him. He says he was offered $2,000 to have the prosecution stopped. After many continuances the case was tried with closed doors at Doliver's instance. Even the prosecuting witness, Officer Morony, was excluded. Murphy was Doliver's leading counsel. The jury disagreed, and a second trial was begun last week, at which the same evidence of the little girl was heard. On Friday Morony was on the witness stand, and was cross-examined by Murphy, who insinuated that he had been an Australian convict. Yesterday, in his opening to the jury for the defence, Murphy said Morony had tried to blackmail Doliver, and he would prove that he offered to stop the prosecution for $2,000. Murphy was terribly denunciatory of Morony. When he finished, Morony stepped behind him, placed a revolver at his head, and fired. The ball entered the neck close to the angle of the right jaw, and made a terrible wound, which is believed to be fatal. Morony tried to shoot again, but was knocked down and disarmed, and hurried down stairs to the city prison in the same building as the police court. Here he drew another pistol and attempted suicide, but failed. When shot, Murphy arose, and, with the blood spurting from his neck, exclaimed:—"Murdered while in performance of duty," and fell to the floor.

Morony was interviewed, and said:—"The public know all about it. You know how I have been abused. They could not buy me for $2,000, and kept sounding me and trying to make me out a thief. I am an honest man, and they tried to make me out a criminal because I came from Australia."

The public do not justify Morony, but agree that he had great provocation. Doliver is a very wealthy man, and every agency has been used to destroy the force of Morony's prosecution. Morony had threatened to produce evidence that would disbar Murphy.

DETROIT ROUGHS.

Attempt to Throw a Detective out of a Window—He is Badly Kicked and Beaten.

DETROIT, Mich., March 4.—Considerable excitement was created shortly after 5 o'clock last night at the corner of Griswold and Congress streets, by cries for help, and a man's head and shoulders crashing through the glass of a window in the third story of the Telegraph block. Soon after 3 men were seen to come hurriedly down stairs, walk hastily across the street, and go into Flynn & Bigelow's *cafe* on Congress street. It seems that about half an hour before Albert C. Buckenberger, detective, connected with the International Detective Agency, while walking up Griswold street, met Jerry Falvey, Fulljames, Thomas C. Costello, who was arrested on suspicion of the county treasury robbery, and Tom Bigelow, one of the proprietors of "The Cafe." Buckenberger claims that Bigelow made some insulting remark and slapped him, which in dignity he returned with a blow on Bigelow's nose. The party then went to wash up their companion, and the detective retired to his office. He had been sitting there a short time, no one being present but an office-boy, when Costello, Fulljames, and Falvey came in, and, he says, without giving him a chance to defend himself, he jumped on him, pounded him severly, and attempted to throw him out of the third storey window. He saved himself by throwing out his arms and calling for help, so that the gamblers desisted; but before leaving they threw him down on the floor and kicked him in the mouth, knocking out one of his teeth. Capt. Girard heard these statements, and ordered detectives Manning and McDonnell to arrest the assaulting parties, but none could be found except Costello. He was locked up at the Central station on a charge of assault with intent to kill.

FELLOWS' Compound Syrup of Hypophosphites is not only the most reliable remedy for consumption, but it is a specific also for Bronchitis and Asthma.

FROM ALL OVER.

AN astrologer in Nevada prophesies, and backs up his prediction with a wager of an oyster supper, that some monarch now reigning in Europe will die during the month of March.

"THE BEAUTY" of having a bottle of Perry Davis' Pain-Killer in the house is, that you are prepared for the "worst," Croup or Cholera. The Pain-Killer is a sovereign remedy.

A FREIGHT train on the Central Vermont was dumped into a culvert, Wednesday, near Swanton, Vt. The fireman, Alfred Duall, was killed and the engineer and brakeman slightly injured.

AT Big Rapids, Mich., on Wednesday, Valentine Kehler and John Johnson engaged in a quarrel, when Kehler pulled a revolver and shot Johnson, instantly killing him. Johnson has lived there many years. He leaves a wife and five children. Both men were intoxicated.

NERVOUS EXHAUSTION, and all diseases arising from youthful indiscretions are speedily and radically removed by that wonderful remedy known as Mack's Magnetic Medicine, an advertisement of which appears in another column.

AT Georgetown, O., on Wednesday Chas. Fry, a prisoner in jail, broke the furniture in his cell. Sheriff Helbling entering the cell, Fry murderously assaulted him. Helbling's son shot Fry dead.

COLONEL JOHN MILLER, of Sharpsburg, Washington county, Md., was born and has slept in the same house and in the same room for ninety-seven years, and is still hale and hearty. He gained the title of Colonel in the war of 1812.

DIGEST YOUR FOOD.—If you want to be healthy. How can you if your teeth refuse to do their work? Get them put in order by skilful dentists, and use Sozodont to keep them right. Sozodont is the best preparation for the teeth.

AN Ohio rope manufacturer has asked for the privilege of making the rope with which Guiteau will be hanged. He bases his request on the doctrine of State rights, claiming that Garfield's murderer should be hanged with Ohio rope. He proposes that the rope be made of silk.

A RIOT occurred on Wednesday at Hamstead, Pa., growing out of troubles between strikers and non-strikers, employes of the Bessemer Steel Works. A policeman fired a shot among the crowd, but it did not take effect. The crowd turned on the officers, unarmed them, and beat them severely.

THE STOMACH AND BOWELS.—The slightest derangement of the vital organs must be attended to at once. Delays are dangerous. Dr. L. R. Herrick's Sugar-coated Vegetable Pills are a sovereign remedy for all such ailments. They never fail. Ask for them. They are sold everywhere.

THE Prince of Wales is now a Savage, having recently been elected an honorary member of the Savage Club, an institution long famous for the inaptness of its name, its members being men of the mildest, not to say milk and water, description. The club is of a strictly Bohemian character, and is made up of artists, actors, musicians, and literary men, only a few of whom have attained fame in their respective walks in life.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

A PRESBYTERIAN at Blyth, called on his pastor and handed him $100 as a donation for missionary work. The pastor, knowing that the man was not wealthy, expressed astonishment and asked him how he happened to have so much to give away. The man explained that it was tobacco money which he had saved. Formerly he used the weed inordinately. He had reformed, and the money was one the first substantial proofs that his reform was in earnest.

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

"MALARIA," "malarial fever" and "nervous prostration" have become unpopular terms in Washington, because people have cynically come to the belief that they indicate that the patient, if a man, is only suffering from the effects of much wine at dinner. So that when a Washington person has an attack of honest chills and fever he prefers that it should be believed that he had pneumonia, small-pox or some other innocent disease; but he shudders at "malaria."

A conspicuous illustration of St. Jacobs Oil as a remedy for rheumatism is found in J. A. Bonham, the well-known lawyer of Philadelphia, Pa., who thus tells his experience: "About two weeks ago I was seized with what the doctor called muscular rheumatism in my right leg. The leg below the knee was swollen until I could hardly stand upon it. I had seen St. Jacobs Oil advertised, and I sent to the drug store near my house, on the corner of Nineteenth and Master streets, for a bottle of it. I rubbed my leg with it that night, and in a short time the pain seemed to go away. Next morning the swelling had shifted from under the ankle to the upper part of the knee. Well I applied the Oil again, and the swelling in a short time went away, leaving a very slight pain. I didn't use any more of the Oil, thinking that the attack was all over. About a week later it appeared again in the same place. The leg swelled so badly that, after coming down and walking several squares, I gave completely out. Well, I went home intending to try some French medicine, but I forgot to get it, and having a part of this battle of St. Jacobs Oil in the house yet, I tried it again, bathing the limb thoroughly. Well, sir, when I got up in the morning the pain and swelling were both almost gone, and after one more application I was as well as ever, and from that time to this haven't been troubled."

Transplanting Evergreens.

The best season for transplanting evergreens is from April to June. Spruces are very easy to transplant, and if the roots are kept from drying and are protected from the air, and well spread and surrounded with the fresh soil, they can be moved without any loss whatever.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

The Best Field FOR EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CHAS. BUTLER,

HUNTER STREET.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

REMEMBER THE NEW ADDRESS,

3 Doors North of Their Old Stand.

Daily Evening Review

THURSDAY, MARCH 9, 1882.

LOCAL AND MUNICIPAL.

An Old Stand Re-Occupied.

Peterborough is to have another first-class retail dry goods store. Mr. Thomas Kelly has opened out in Burnham's block, on the corner of George and Simcoe Streets, and will enter into a lively race with the older established dry goods merchants of this town, for a share of the business continuing in this fast growing town. Mr. Kelly is one of the oldest dry goods clerks in Peterborough, having had an experience of over twenty-three years in the retail and wholesale dry goods business. He was in the employ of the Messrs. Harty, of Kingston, and this town, for over seven years, the Messrs. O'Neil, of Port Hope, five years, and with Messrs. W. Fairweather & Co., of this town, over nine years. Mr. Kelly's experience and thorough knowledge of the wants of the trade ought to draw to him a large share of the public patronage. He has had the store thoroughly overhauled, repainted and new counters placed in position, which is a decided improvement. A REVIEW reporter called at the store yesterday and found Mr. Kelly hard at work marking new goods. He said that he intended keeping only the best quality of dress goods, staples, and fancy goods, always as represented, and at as low rates as is possible consistent with a fair living profit. Mr. Kelly commences business with the best prospects of success, having sufficient capital and a thoroughly knowledge of the wants of the people.

Rowdyism.

The other evening some young men called gentlemen by some, amused themselves by destroying property in the very centre of the town. Two large and costly step laders the property of Mr. D. Carlisle, which were standing near the building at the corner of George and Hunter streets were carried off. One was broken into very small pieces and the other one placed against one of the doors of the Stewart House. In the morning, when the man who opens the hotel opened the front door, the ladder fell in on him, knocking him down, but fortunately not injuring him. Mr. W. G. Greens "Liquor- Tea" sign was also carried away and placed on top of the porch in front of the Bank of Montreal, giving early risers the opinion that the bank officials had embarked in a new business. Such acts as these, together with several of a like character that have occurred on the streets recently, point out the necessity of having police officers on the street at night.

The Boston Opera Company.

We are glad to learn that we are again to have an opportunity, unfortunately too rare, of hearing good music worthily rendered. On Thursday, March 16th, the celebrated Boston Opera Co. will perform in Bradburn's Hall, the comic opera, "Betsy Baker," which has become so popular. In speaking of the performance in Boston on last Thanksgiving Day, the Boston *Post* says:—

"Chief among the attractions of the afternoon was the operatta "Betsy Baker," given by the Boston Opera Co., at the Boston Theatre. The happiest hour was looked for by the young people in this direction, and it was with difficulty that all who came were accommodated. Those who gained admission were thoroughly delighted, and their great satisfaction was one of the pleasantest features of tne day."

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

A Sneak Thief.

Mr. T. J. Herndon the popular comedian, lost his vest, in the pockets of which were a gold watch and chain, a topaz ring and some money, the whole valued at about $175, while performing at Whitby. It appears that some sneak thief entered the dressing room from behind, and while Mr. Herndon was on the stage appropriated the property. The Company has done a good business in every place in Canada except Port Hope and Whitby.

POLICE COURT.

VAGRANCY.

THURSDAY, March 9.—John Sullivan, who had been in gaol since Tuesday, was brought up on remand by Chief Johnston, charged with wandering around the streets without any fixed place of abode or peaceable means of employment.

The prisoner who was shaking and evidently suffering from the effects of a long continued spree, pleaded not guilty.

CHIEF JOHNSNON said that he had been sent for on Tuesday night to arrest the prisoner, who had been wandering around the town in a drunken condition for three or four weeks. The person who sent for him expressed a fear that the prisoner would freeze to death as he was in the habit of sleeping in sheds or wherever he could lay down.

The PRISONER then admitted that he had been drinking heavily, but said he had a place to sleep in.

The MAGISTRATE said that the prisoner was suffering from the effects of a debauch, and in order to give him a chance to get the whiskey out of his system, he would sentence him to gaol for ten days with hard labor.

Silver Spring, Manitoba.

Messrs. Bird and Lane will be in town for a few days, and are offering town lots in Silver Spring, Manitoba, at private sale. Silver Spring is situated on the western bank of the Pembina river, 90 miles west of Emmerson, 15 miles north of the American boundary and at the crossing of the Pembina branch of the C.P. R. and Manitoba, and South Western Railway. It is also on the Missouri Trail, running from the Red River to the Rock Lake and Souris Districts and is in the centre of a fine agricultural country already thickly settled. A post office has been opened and a number of buildings are in course of erection. Messrs. Bird and Lane are the sole owners of this town plot, and are in a position to sell any lots on the map. They are also prepared to give lots to parties who will agree to take immediate possession, and erect buildings thereon. Messrs. Bird and Lane may be found at Stapleton's old auction rooms, south of archway to the market from 9 a.m. to 6 p.m.

The Weather.

The weather last night was rather cold, the wind blowing quite strongly. Snow has been falling all morning but from its appearance we we should judge that it will not remain very long. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes—Strong winds and gales from the north-east and south-east, cloudy weather with snow and rain in the southern portion and snow in the northern portion. Stationary or higher temperature.

A Good Sign.

Mr. W. J. Devlin has sold three sets of harness to Messrs. Carson & Mills of Winnipeg, who intend to take them to that city. This makes four sets that Mr. Devlin has sold within a short time for the Prairie Province, and speaks volumes for the excellence of his goods. We see no reason why our harness makers and other manufacturers should not open up a large and profitable trade with the North-West, as the quality of goods they turn out cannot be beaten in Canada.

Midland Railway of Canada.

The traffic of the above railway for the week ending March 4th, 1882, was as follows:—Passengers and Mails, $5,227.48; Freight, $8,289.80; Total, $13,517.28, as compared with $8,445.41 for the corresponding week of 1881, being an increase of $5,071.87; and the aggregate traffic to date is $117,012.22, being an increase of $43,916.36 over 1881.

Important Sale.

Our readers should remember that the sale of the Cottingham estate will take place on Friday, March 10th. The house and grounds, forming one of the most desirable residences in the immediate neighbourhood of Peterborough, will be offered at 11 o'clock. The household furniture, nearly new and very handsome, will be sold at half past twelve o'clock.

Shipment of Horses.

Two horse buyers from Vermont, who have been purchasing horses here for some weeks past, on Wednesday shipped a car-load of good general purpose animals. Two or three other buyers are also here, and will ship four or five car-loads as soon as they can procure the necessary cars.

The Brandon Sale.

The sale on Wednesday night of lots in Brandon, N. W. T., was successful, a number of lots being sold at satisfactory prices. We learn that two of these lots have already been re-sold by the purchasers at an advance of fifty per cent.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.
The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.
Five minutes inspection will verify this statement.
A full range of INSERTINGS to match and of equal lengths.
WE shall be pleased to quote prices, and will cut off any length that may be required.

Notice of Removal.

The undersigned having leased the

"PETERBOROUGH HOUSE"

Situated on Hunter Street, at present occupied by John Sullivan, will remove thither on the 15th of February.

This hotel is well adapted for the accommodation of farmers and the travelling public, being situated in the most central portion of the town.

The undersigned proposes to conduct the hotel in a first-class style, the table will be always supplied with all the luxuries of the season, and the bar with the very best brands of liquors and cigars.

Good sample rooms will be provided, and commercial travellers will find it to their advantage to patronize my house.

Every effort will be put forth by me to meet the wants and comfort of farmers and others, and from my long experience in providing for my guests, the undersigned feels warranted in saying that his house will be found the most comfortable in town.

Good sheds and stabling, and a careful hostler always in attendance.

MICHAEL HALPIN.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin, and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved beyond a doubt that **"Kendall's Spavin Cure"** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure. I have since then been well and free from lameness. It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1wly

There is no excuse for suffering from
CONSTIPATION
and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S
MANDRAKE BITTERS

will give immediate relief, and in a short time effect a permanent cure. After constipation follows **Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc.,** all of which these Bitters will speedily cure by removing the *cause*. Keep the *Stomach, Bowels, and Digestive Organs in good working order and* **perfect health** will be the result. **Ladies** and others subject to **SICK HEADACHE** will find relief and permanent cure by the use of these Bitters. Being **tonic** and **mildly purgative** they **PURIFY THE BLOOD** by expelling all **Morbid Secretions.**

PRICE 25 CTS. PER BOTTLE.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1½ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

FRIDAY, MARCH 10, 1882.

BLOWN TO ATOMS.

A Man Enters a Railway Tunnel, An Explosion Follows and he is Blown to Pieces.

Special to the Review.

YALE, British Columbia, March 10.—Hugh Craig went into the railway tunnel, where explosives were stored, to get a fuse. A tremendous explosion occurred,

SHAKING THE GROUND FOR MILES.

Craig was blown into pieces. Thos. Williams, who was standing one hundred feet away was fatally injured. Two others were slightly hurt. The damage to the works will be considerable.

POLICE COURT.

FOUND DRUNK.

FRIDAY, March 10.—"Jack" Fry, painter, was brought up by Chief Johnston to answer to a charge of being found drunk.

This was not John's first appearance before the Magistrate, but it is to be hoped it will be his last. He appeared to be well known by all the officials and spectators, who knew that the prisoner had been there before, and the records showed that such was the case, several previous convictions being recorded against him for his favorite offence—consuming too much "essence of rye."

The magistrate administered a good sound lecture, and backed it up by imposing a fine of $2.00

Railway Notes.

The new Midland time table, will come into force on Wednesday next. As soon as it is finally approved of we will give it in full to our readers. As we stated some time ago Peterborough is to be served in a manner becoming a town of our size and importance. We will have five Midland and three Grand Junction trains a day each way.

We understand that on account of the large amount of business transacted here that a shunting engine is to be placed in the yard at an early day. It has been required for some time and will be a great convenience to the train hands who now have as much as they can do to look after their trains without doing any shunting.

The Correct Situation.

A Winnipeg paper gives this as the girl situation:—

Women we want here:
Girls to make farmers' wives,
Girls for general servants,
Girls who can begin life in a shanty,
Girls with a soul above buttons.

Women we do not want here:
Girls who despise house work,
Girls who can only nurse poodles,
Girls who giggle in church,
Girls of the period.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

MIDNIGHT TELEGRAMS

CABLE.

THE NIHILISTS.

ST. PETERSBURG, March 9.—The Nihilist leader arrested at Moscow is Stephanovitch. He directed the publication of two revolutionary papers. The death sentence of the woman Jakinoff having made a bad impression in Russia, her name was stricken from the list of the condemned and replaced by that of the lieutenant.

LAND ACT COMMISSION.

LONDON, March 9.—In the House of Commons to-day the debate was resumed on Mr. Gladstone's resolution relative to the House of Lords' enquiry into the working of the Land Act. A motion by Mr. Gibson (Conservative) for the previous question was rejected by 303 to 219. The Parnellites left the House without voting. Mr. Gladstone's resolution was carried by 303 to 235.

THE CZAR AFRAID.

LONDON, March 9.—The Czar refused to accept General Ignatieff's resignation, because he feared to offend the Panslavist party, who are the sole supporters of the Goverment. The Berlin *Bourse Gazette* feels inclined to interpret this as an indication that the Russian war party is in the ascendant.

HATTON GARDEN ROBBERS.

LONDON, March 9.—It is believed that the three men arrested at Brussels for complicity in the Hatton Garden post-office robbery include the pretended American Colonel Gaston and an accomplice who robbed a Paris jeweller of 246,000f, worth of goods.

FALL IN PRICES.

LONDON, March 9.—There has been a sudden fall in the prices of nearly all the European securities dealt in at the London Stock Exchange. The admitted cause of the decline is the prevalence of the belief that Russia has plainly refused to render to Germany a satisfactory answer in relation to General Skobeleff's speech.

RIOT AT CONSTANTINOPLE.

CONSTANTINOPLE, March 9.—The *Neo-Logos* having charged the patriarchate with misapplying money raised for educational purposes, a mob of Greeks attacked the *Logos* office. The editor was killed after wounding a number of his assailants. The police have arrested several of the ringleaders.

RUSSIA'S GREAT CRANK.

ST. PETERBURG, March 9.—General Skobeleff presented himself on Monday at the office of the Minister of War, who telegraphed him to return. The Minister blamed General Skobeleff for the abuse he made of a simple *conge*, during which he became merely a private individual. The General called on General Ignatieff, who laughed heartily while blaming him for repeating in Paris his St. Petersburg speech. General Skobeleff said the editor of *La France* collaborated his speech, and had it prepared for publication four days before he (Skobeleff) arrived in Paris. No one was more astonished than he at the excitement the speech caused. Everyone sought to turn it to account, but more especially the party which is seeking a return to power in France. In reply to a question as to whether the Emperor would send for him, General Ignatieff replied that the Emperor had taken no part whatever in his recall. It was a simple act of military discipline, with which his Majesty had nothing to do. General Skobeleff will have an opportunity of meeting the Emperor on Monday at the ceremony which will mark the close of the imperial mourning. It is reported that General Ignatieff told General Skobeleff the Czar had nothing particular to say to him.

DEPUTIES' PRIVILEGES.

PARIS, March 9.—The vote of the French Chamber of Deputies in favour of an agreement with the railway companies by which members of the Chamber shall have the right to travel anywhere in France for one hundred and tweuty francs a year has created very unfavourable comment. Private persons have to pay 12,900f. for a similar privilege. It is presumed that the railway companies expect legislative favours. There is also a revival of the movement for increasing the salaries of the Deputies to 12,000f. The President of the Council is said to favour the project.

BOER REVERSES.

DURBAN, March 9.—The Boers and natives, with three guns, attacked chief Montsiva on the 21st ult. The latter sallied and completely repulsed the attacking party. The latter whose losses are supposed to be heavy, again advanced on the 25th, when they fell into an ambuscade and retreated, losing thirty-eight, including their commander. Montsiva's loss is trifling.

CUBAN POLITICAL TROUBLES.

MADRID, MARCH. 9.—The last Cuban mail brought full details of the disturbances between the Liberals and the reactionary party, which were only stopped by the Governal-General summarily arresting, and sending to Spain, the editor of a Liberal paper, who had caused the conflict by violent articles against the famous volunteers, who in turn threatened to take the law into their own hands. The conduct of the governor is praised in Madrid, but Senor Sagasta ordered the excited journalist to be set at liberty directly he landed at Santander. Senor Cespeda, on arriving in Madrid, had a long interview with the Minister for the Colonies, and exposed the grievances of the Liberals. He declares that the favours shown to the reactionary party in Cuba were certain to lead to systematic abstention by the Liberals, if not to worse results.

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

PARNELL'S PUNISHMENT.

LONDON, March 10.—The *News* denies the report that Parnell was recently published by solitary confinement.

WITHOUT BOTTOM.

LONDON, March 10.—A despatch from New York says the reports of an impending European war are effecting the whole of the markets. Nothing is known here to justify such reports.

SUBSIDING.

LONDON, March 10.—There are signs of a subsidence of the tension to which Skobeloff's speech gave rise.

BLOOD AND THUNDER.

BERLIN, March 10.—Scobeloff delivered an address to a number of Russian officers stating that the best Russian is the Czar. Europe knows that he said what he thinks on the slave question. His recall was only a new humiliation proceeding from a man, who, with blood and iron founded such, and it must be destroyed by Russian blood and iron.

AMERICAN.

IN THE VAN.

NEW YORK, March 10.—Chautaqua county is the first county in the state to pay its amount of subscription to the Garfield Monument Fund.

HE SAYS NOT.

NEW YORK, March 10.—The clerk of the Court of Common Pleas denies the report of the clerks that this court has been wrongly appropriating court fees.

THE ANGRY OCEAN.

NEW YORK, March 10.—The bark Inca, which sailed for Hamburg on the 16th of February, has been given up as lost, with Captain Kemm and 17 men. The vessel was valued at $50,000. The ship Columbia from Liverpool met with almost continuous gales. Two seamen were lost.

HILLS' AFFLICTION.

PHILADELPHIA, March 10.—It is stated that when Senator Benjamin Hill left the hospital four months ago, Dr. Gross considered him cured, the only wound made by the knife having healed. The cancerous structure cannot have become fatal since then, even if it should, Hill would have in all probability several years life before him.

FOR HIGH TREASON.

WINDSOR, March 10.—MacLean, the Queen's assailant, has been committed for trial on a charge of high treason.

MURDER WILL OUT.

SALEM, Mass., March 10.—A lodger at the police station has been identified by a witness of the crime, as the murderer of Mrs. Dell. He gives his name as Edwards, and he has been taken to Boston.

LINDSAY.

PRESENTATION.—The *Post* says that on Saturday evening last Mr. A. Burton, assistant superintendent of the Whitby and Victoria division of the Midland railway was made the recipient of a well deserved testimonial as to his personal popularity with the staff of the railways. The employees connected, with the railway services in various capacities under that popular official of the company, together with a few friends on the train staff, who were allowed to share in the movement, taking the occasion of his advancement to the position of assistant superintendent as a suitable opportunity to show some little mark of their esteem, visited his residence on the above mentioned evening as a deputation for the purpose of presenting him with a complete set of Dickens' works, handsomely bound, and accompanied by an address. After the reading of the address Mr. Burton replied in a very happy style, thanking the employees for this united expression of their regard, which he was not slow to appreciate, knowing it to be sincere. A pleasant hour was spent in social conversation and then the deputation departed.

THE "TAR GANG."—A correspondent sends us the names of a number of boys and young men who he says are a portion of the "tar gang," and asks us to publish them as a warning to the others. We hope that the step will not be necessary, though if the parents of those lads knew that they were looked on by other people as promising ruffians it might stir up parental authority to a good purpose. It is probable that the members of the "gang" have been reading some sensational New York story paper and are fired with a desire to go and do likewise to the heroes shown up in its columns. Let these boys take warning and behave or else they may find themselves in print and with a reputation sticking to them that will be hard to get rid of. We have the names all right, but will give them one more chance before exposure.

SONS OF ENGLAND.—Lodge Westminster, No. 20, was formally opened and dedicated in this town on Wednesday evening of last week by Bro. J. W. Carter, G. S., assisted by Bro. Edmett, President, and other officers and members of Lodge Old England, Port Perry. The following is a list of the newly-elected officers:—President, Bro. C. H. Lloyd; V. P., Bro. T. McConnell; Secretary, Bro. J. W. Wallace; Treasurer, Bro. John Robinson; Chaplain, Bro. J. L. Dunsford, First M. C., Bro. J. Cumming; Surgeon, Bro. P. P. Burrows, M. D.; Trustees, Bros. S. Parsons and Wm. Goodenough; O. G., Bro. F. Carr. After the lodge was closed the visitors and brethren were invited by the W. President to an oyster supper, and all enjoyed a pleasant hour in toast, song and sentiment.—*Warder.*

LOYALTY.—On Sunday, at the close of his sermon in the morning Rev. V. Clementi alluded to the attempt to take the life of Her Majesty, after which the national anthem was played during the effertory. In the afternoon Rev. S. W. Jones alluded to the same subject at the close of the Sunday school, and the national anthem was sung by the scholars and teachers. The attempt on Her Majesty's life was referred to in eloquent terms in the other churches in town, and in the prayers special reference was made to the fortunate escape.

THE "HUM."—Messrs. Needler & Sadler's new machinery is now running steadily. It is worth the short walk to look at it, but as there are some tight fits in getting round things, tall hats and broadcloth coats had better be left at home.

Daily Evening Review

FRIDAY, MARCH 10, 1882.

TO OUR READERS.

Owing to the demands made upon our space by our advertising patrons, we have for sometime past been compelled to curtail the amount of reading matter, to an extent which we fear cannot have proved satisfactory to our readers. We trust however they will kindly bear with such a state of affairs for a few days longer, until we have completed the arrangement now being made for enlarging the Daily Evening Review, in a way that will meet the requirements of advertisers without curtailing the usual amount of reading matter.

REVIEWS.

Canadian Monthly.—The current number of Rose-Belford's *Canadian Monthly* is a good one. The Rev. W. W. Smith continues his reminiscenses of "Canadian Life." The Hon. Jas. Cockburn has an article on "The Power of disallowance, and its national importance," in which he clearly shows the necessity for this check. A paper on "The Northern and Western Boundaries awarded to Ontario," by "Parliamentum," endeavours to establish that the question belongs to the executive, and not to the judiciary. Fidelis' discources on "University Education." Other articles are "The Religion of Goethe," by Thos. Cross, Ottawa; "Poetry as a Fine Art," by Prof. Moyse, Montreal; "The Personal Responsibility of Bank Directors," a timely contribution, by A. T. Innes; and "Erasmus of Rotterdam," by Geo. Simpson, Toronto. There is a liberal proportion of poetry, among which as especially deserving of attention, is a second "Canadian Idyll," by Wm. Kirby, of Niagara, the scene being laid at Balsam Lake. The young people's department, bric-a-brac and book reviews complete a very creditable number.

LAKEFIELD NEWS.

From Our Own Correspondent.

SUDDEN DEATH.

On Monday evening last the many relations and friends of Mr. Frederick Barlee, living in and about Lakefield, were startled by the receipt of the sad intelligence, through a cablegram, that he had died at sea, on his way to England. Mr. Barlee had been a resident of Lakefield for many years, and had endeared himself to so large a circle of acquaintances that the sad news of his death was received in the midst of very many sighs. He left our midst only as it were so few days ago in his usual health, that it seems difficult to realize that he will return no more. At the regular communication of Clementi Lodge of A.F. and A.M., held in the Masonic Hall, Lakefield, on Tuesday evening the 7th inst., it was moved by Bro. Sparam Sheldrake, seconded by Bro. Dr. Bell, and unanimously resolved,—That whereas the officers and members of Clementi Lodge, No. 313, A.F. and A.M., desire to express their unfeigned sympathy with the widow and family of our late brother Frederick Barlee, in their sad bereavement, and to place on record the estimation in which he was held both as a friend and brother. It is therefore resolved that the Lodge be draped in mourning for three months, and the members wear a mourning badge on the left breast for thirty days, and that the Secretary is instructed to transmit a copy of these resolutions under seal of the Lodge to Mrs. Barlee.

LENTEN SERVICES.

During Lent, the subjects for the Wednesday evening lectures in St. John's Church, by the Rev. Mr. Bell, this year will be as follows:—

March 1st—The Birth and Infancy of Christ.
" 8th—The Childhood of Christ.
" 15th—The Baptism and Ministry of Christ.
" 22nd—The Temptation of Christ.
" 29th—The Parables of Christ.
Sunday April 2nd—The Suffering Messiah.
Monday, April 3rd—The Trial before Pilate.
Tuesday, April 4th—The Denial of Peter.
Wednesday, April 5th—The Betrayal of Judas.
Thursday, April 6th—Pilate's Wife.
Good Friday, April 7th—The Crucifixion.
Saturday, April 8th—The Descent into Hades.
Easter Sunday, April 9th—The Resurrection.

MUNICIPAL ELECTION.

The municipal election held on Monday in this village passed off quietly during the day, but was a little noisy at night. Mr. Hull was victorious, polling 90 votes. Mr. Nelson polled 75 votes, hence Mr. Hull's majority was 15.

NEW BRIDGE.

The bridge at Lakefield is fully completed and it certainly is a credit to all concerned in its construction. In the matter of this bridge the professional skill of Mr. J. E. Belcher county engineer has ben fully tested and amply sustained. Mr. Belcher and also his foreman in condemning the old bridge last summer met with some opposition of course, as is usually the case from a few parties whose opinions were valueless though loudly made known, but the rotten timbers scattered along the river bank and near the approaches of the bridge attest and substantiate the correctness of their judgement. These croakers should now acknowledge frankly that they were wrong and that these public servants know their business thoroughly. Mr. Charles Wynn forman for the county acting under instructions from Mr. Belcher has done everything that could have been done to facilitate trade and accommodate the public. He was assiduous and untiring while engaged at the Lakefield bridge, in the discharge of his duty as foreman and in looking after the interests of the County Council. The position he has occupied has been a trying one, considering the number of people always ready to cavil and find fault and we are of the opinion that none could have been more and very few as successful in meeting the requirements of the public.

COUNCIL MEETING.

The regular meeting of the municipal council of the village of Lakefield, will be held in the council room on Monday evening next, the 13th instant, at 7.30 o'clock.

SCHOOL MEETING.

There will be a meeting of the Lakefield public school board, on Tuesday evening next at 7.30 o'clock.

AN ADVERTISEMENT.

On Friday an advertisement of strayed colts was published in the Review. On Saturday morning the owners claimed and obtained the animals, having learnt where they were from this advertisement. This shows the benefit of advertising in the most widely circulated paper.

ABSENTMINDEDNESS.

A queer case of absentmindedness transpired here this week. A party living not far from the village and whose children attend our school, expected important mail through the post office one day last week, and the eldest child was given strict orders to be sure and call at the post office on the way home from school. In the meantime the party changed his mind and went to the post office himself and obtained the letters, papers, &c. Then, of course, as naturally it would, it occurred to our absentminded friend that he should inform his child of the fact that it was not necessary to call at the post office. So a post card was obtained upon which was written the information above. It was addressed and left in the post office telling the child not to call, &c.

THROWING STONES.

Some of the boys of this village have been lately annoying one of our bakers by throwing stones at his bread basket. This baker does not say much, but he intends a good deal. Some of these bad boys will find themselves before a justice of the peace shortly, if they do not desist from such evil practices,

SCHOOL REPORT.

The following is a report of the Lakefield public school for the month of Feby., 1882.

	Roll No.	Avge.
1st Division	55	46
2nd "	53	42
3rd "	64	57
4th "	88	60
Total	260	199

General proficiency standing of the pupils.

Fifth Class.—1st H. Schofield, 2nd M. McWilliams, 3rd W. Sherin.

Fourth Class.—1st D. Smith, 2nd T. Dunford, 3rd D. Strickland.

Third Class "A."—1st Everet Griffin.
Class "B."—1st Ada Galvin.
Class "C."—1st Susie Sanders.
Second Class "A."—1st Lizzie Glazier.
Class "B."—1st Burt McWilliams.
Class "C."—1st Albert Jory.
Class "D."—1st Fred Tanner.
First Class, part II, Class "A."—1st Wm. Cox.
Class "B."—1st Charles Podger.
Class "C."—1st Wm. Freeburn.
Part I, Class "A."—1st Robert Recroft.
Class "B."—1st Andrew Hamilton.
Class "C."—1st Nellie Sanders.
Class "D."—1st Lottie Mason.

PORT HOPE.

A Young Man Who Followed His Inclinations.—The *Times* says that with the Estrelle Dramatic Combination that appeared in the Music Hall last week, was a young man from London, a hanger-on as it were. It appears that while the troupe in question was in London, Ont., one of the actresses, a captivating miss, took his eye and he resolved, like the heroine in the Book of Ruth, to follow in her footsteps. While here, he characterized himself as a free-and-easy cuss with a strong liking for "hot rums" and other soul-stirring appetizers, the result being that during a stay of two days he was "paralyzed" for a season of twenty six hours at a stretch—a tolerably long snooze for even a seven-day sleeper. He was trusted for a good deal more than his funds in hand would justify, and when the company left, a a little bill of $3.50 was also left—to be liquidated in the uncertain future. A few days since, a gentleman enquired at the Queen's if "the Estrelle Combination stopped here." Upon looking at the register, he ran down the column of names until he came to one which he said was his son, who had deserted his roof for the society of the pretty girl "in the show." His father is wealthy, and says he has had a great deal of trouble with his boy. He was then in search of him, and the same evening to hunt him up and bring him home. On Tuesday he returned with the youth, paid his hotel bill, and left for his home in London with his prodigal in charge. The boy is in a repentant mood, no doubt expecting the fatted calf all ready for him. The exterior of the same, worked into sole leather and applied judiciously, might not be lost in developing a sense of moral rectitude in him.

Accident.—Mr. William Rowden, brakesman on the Midland, last Saturday was helping some men to unload ties near Beamish's bridge, in their hurry to have the work completed before the train came along, he slipped and fell, a number of the ties falling upon him. The violence of the fall rendered him senseless, and he was picked up and placed in the van. Although his injuries were painful at the time, he is again out of doors.

Lucky.—Five years ago, Mr. A. Stricker, formerly of the Midland, entered the service of the Flint and Pere Marquette Railway. Since that time he has been promoted three times. On the 20th of December last, he was appointed foreman of the coach and car department at Cacity.

CAMPBELLFORD.

Nearly Through.—The *Herald* says that Mr. Hugh Gibb narrowly escaped a fall through the railway bridge, a few days ago. As he was passing through the aperture, he managed to grasp one of the planks, and thus saved himself from an introduction to the water below. The above gentleman is one of several who have had a similar experience, one individual falling, mained himself for several weeks. The bridge is an unsafe walk at any time, and should be avoided as a "near cut" as much as possible. Like the proberbial running of the fox, one may cross it ninety and nine times, but an inadvertent step the hundredth time may bring sorrow to the walker.

Cheese Factory Moved.—The interested ones in the "Woodlands" cheese factory in Seymour west, have found a more desirable spot for their building, and consequently it has been placed on a little rise of ground on the north-west corner of the crossing, on the farm of Mr. D. O'Sullivan. Preparation is being made for spring work. A blacksmith shop is now in course of erection a few yards from the factory. The artizan comes from Belleville.

Good Price.—Mr. R. Oliver, of Seymour west, lately disposed of two ewes to a fellow-labourer of the soil, for the sum of $25. They are of the Cotswold and Leicester breed. Seymour farmers are getting better stock, building better houses, cultivating more and better fruit, improving their farms, and it is to be hoped cultivating sound, honest principles in themselves.

NORWOOD.

Runaway.—The *Register* says that a general runaway and "smash-up" occured on Peterborough street the other day. Mr. Eason, of Otonabee, on coming into the village left his horse in charge of a "small-boy," while he went into a store to make some purchases—the consequences was that the horse became unmanageable and ran away, smashing both cutter and harness into "smithereens." Drivers should not be too ready to commit their steeds to the care of "small-boys." You not only risk the wreck of harness and vehicle, but also the life of the youngester you leave in charge.

Revival.—Revival services are being held nightly in the Methodist Church in this village. A good work is being done.

FROM ALL OVER.

The first telegraph instrument was successfully operated by S. F. B. Morse, the inventor, in 1835, though its utility was not demonstrated to the world until 1844.

Apropos of Bradlaugh, it has been proposed that the custom of opening Parliamentary sittings with prayers should be discontinued. An Irish paper recommends that the present Government should use "The Form of Prayer for those at Sea."

For all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

"What is Stanley's opinion about your Homer?" once asked John Bright of the late Lord Derby. "Stanley," was the reply. "I don't suppose he ever read a line of it. The only way of getting him to read it would be to print it in a blue-book."

"I remember," says the celebrated Wesley, "hearing my father say to my mother. 'How could you have the patience to tell that blockhead the same thing twenty times over? 'Why' said she, 'if I had told him but nineteen times I should have lost all my labor.'"

"The Beauty" of having a bottle of Perry Davis' Pain-Killer in the house is, that you are prepared for the "worst," Croup or Cholera. The Pain-Killer is a sovereign remedy.

Mrs. Langtry's terms with provincial managers are sixty per cent. of the receipts, she to furnish nothing except herself and company. The furniture and scenery must, moreover, be of the best description particularly the latter, as she does not accept the usual scenery found in stock.

A New Orleans paper speaking of a very nice person residing in that city, and one every body wants to be on good terms with, remarked that "he hasn't an enemy in the world, not one—he has killed them all—sixteen or seventeen is the total." He must be very much gratified at his popularity.

Belle Boyd, the Confederate spy, who died recently at Plymouth, England, is living at Corsicana, Texas, in easy circumstances. She is also living in a garret in Baltimore, where she makes a scanty living by needlework, so the papers say. Belle is beating her Confederate record of being in two places at once.

London *Truth*:—"Jewelled epaulets are the newest feature of evening dress. This decoration assists the effect of square shoulders, to attain which has for some time been the principal aim of fashionable women. Epaulets, without sleeves, may appear an inconsistency to many, but Fashion goes on her capricious way without troubling herself as to what is consistent."

Artificial mother-of-pearl has been made by an ingenious Swiss, after several years' experiments. It is so accurately manufactured that the false cannot be distinguished from the real substance, while, further, the imitation mother-of pearl can be produced in any color, or moulded in any shape, and is besides impervious to the weather.

A Good Filter.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

The Lakeview (Oregon) *Herald* says that the remnants of the Modoc Indians that were transferred from the lava beds to the Indian Territory are now among the quietest, most peaceable, and industrious in the country. There are only 100 left, but they cultivate 460 acres of land, have established schools, and are thriving generally. Scarefaced Charley, one of the heroes of the Modoc war, is now a respectable farmer.

1—Farmers and Mechanics.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

Sampson, who lives near Whitby, arrived in Toronto on Thursday with hir wife. About six months ago she one day drank a cup of water dipped up from a pool, and on swallowing it fancied she felt something hard go down her throat. Since then she has suffered much, and her physicians think she swallowed a tadpole, and the creature has now developed into a frog. If the woman can't get relief she will go to New York.

A new device for heating passenger coaches is being tried. Hot water is the medium. A safety heater in the corner of the car furnishes the calorio. The water circulates through pipes running along the sides and across the end of the car, and returning to the boiler again. The heat causes the circulation. The pipes carrying the water are not so hot as to burn the hand, and it is presumed that the water would not scald were the pipes to be broken by accident. The pipes distribute an equal and pleasant warmth through the car, the best feature being that the heat is greatest at the feet.

Before going abroad just study the climate and the season, and your system as well; such forethought will pay if you are subject to rheumatism. If you are inclined to traverse the damp and marshy districts, don't do it unless you are well supplied with St. Jacobs Oil, which is far more efficacious in curing rheumatism than all the tours that may be undertaken. In proof of this we will give the words of our well-known railroad man, and member of City Council from the Sixth Ward, Mr. D. J. Dalton, of Cincinnati. Meeting that gentleman on 'Charge yesterday, and speaking on this subject, he said:

"You remember when my shoulder and arm was so bad with the rheumatism, last summer, and for the spring and winter preceding? Well, I had tried several remedies and derived no benefit from their use. I thought I would try a change of climate, and did so, going to Point Burnside, on the Cincinnati Southern Railroad. The beauty of the scenery and the foolish hope of relief used to tempt me to take early morning strolls. The entire valley at that time of day (just before sunrise) is covered with mist arising from the Cumberland River. That mist settled my rheumatism. I was not there two weeks until I was three times as bad as when I started. I came home, and gave up the study of climatology. Time and again I remarked the wonderful cures performed by St. Jacobs Oil. I tride it. Five bottles of St. Jacobs Oil effected a complete cure, and I am proud to say to you, or to any one else, that the Great German Remedy will always meet my hearty indorsement."—*Cincinnati Enquirer.*

To give all classes an opportunity of purchasing at the GREAT SALE, the Store will be open every morning at 7 o'clock, and will not close until 8 o'clock at night. Terms Strictly Cash!

THE BABY.

TRANSLATED FROM THE IRISH BY W. B.

Down beside the gentle river,
Where the lovely aspens quiver,
And the comely willows shiver,
Darling baby plays;
Zephyrs kiss the cheeks of baby,
Birds enchant the ears of baby,
Angels joyful gather, may be,
Where the baby strays.

Baby holds a tiny bramble,
Round the baby lambkins gambol;
With it infant spirits ramble,
Straying where it strays.
Lo! the wood nymph yonder sleeping,
Round her ivy-leaves are creeping;
No—her charming eyes are keeping
Watch o'er baby's ways.

Gods alone are here beholding
Baby's mother now unfolding,
Graceful beauty—nature's moulding—
Art compelling praise.
Forth she comes thro' flowering bushes;
In the sparkling water rushes;
Naiads admiring, watch her blushes,
Far from human gaze.

Horror! see the flood is seeking
To prevent her now from speaking!
Yet how wildly is she shrieking,
While her child's in view—
While of death she's sadly thinking,
While the fatal fluid she's drinking,
While her lovely baby's sinking,
"Willie, babe, adieu!"

Willie, you have lost your mother,
Never can you find another;
She had loved you like no other,
Yet you laugh away;
Night is coming—see it yonder;
Where will little baby wander?
On the thought what heart can ponder?
Let a mother say,

THE MONTREAL MURDER.

A Verdict of Manslaughter Returned by the Jury—Sentenced to Twenty Years.

MONTREAL, March 8.—The trial at the assizes of Charles Albert Smith, for the murder of Jno. J. Hayes in a saloon here lately, was concluded to-night by the jury bringing in a verdict of manslaughter, after being in consultation for ten hours. They came into court, and said they could not agree, some being for murder and others for manslaughter. Judge Ramsay explained the duty of the jury under such circumstances, and said it was for them to decide and to give the prisoner the benefit of the doubt if they had any. The jury returned, and in an instant came back with their verdict. In sentencing the prisoner to twenty years' imprisonment, the judge stated very emphatically that if the jury had brought in a verdict of murder he would have approved of it, although he was glad to be relieved of the painful duty of pronouncing the extreme penalty of the law. He dwelt with great force upon the enormity of the prisoner's offence, and stated that he would have made the sentence for life but for the good character which the prisoner had received.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

DREAMS.

Their Nature and Cause from a Scientific Standpoint.

Dreams are night thoughts, unchecked by the judgment and uncontrolled by the will. It is not true that we do not reason in dreams, that the exercise of the judgment is wholly suspended, and that the will is entirely powerless or ceases to act. These faculties are not altogether in abeyance, but they dose while the subordinate powers of the mind—those which play the parts of picture carriers and record finders—ransack the treasurers of memory, and mingle together in the direst confusion old things and new. Imagination is not active, but it remains just enough awake to supply the connecting links which give seeming continuity to those parts of the phantasmagoria which we chance to remember on recovering perfect self-consciousness and which being remembered we call "dreams." No one remembers more than one dream, unless he has roused from sleep more than once. This experience has led to the inference that dreams only occur at the time or in the act of waking. There are dreams which take place in the process of returning to consciousness—for example, those instantaneous scenes and spectacles which are suggested by the sound or feeling that rouses the dreamer; but in result of a long and close studdy of dreams and the laws of dreaming, for medical purposes, in connection with the treatment of sleeplessness, I am persuaded that dreams occur in the course of sleep and are wholly forgotten.

That they do not and cannot take place in deep sleep is probable, because deep sleep is general sleep, and when this state prevails the subordinate faculties are sleeping, and the pictures and records which compose dreams are not disturbed. To understand dreams we must understand sleep, and it is because the two phenomenas have not hitherto been studied together that so little is generally known about either.

Reform at Washington.

NEW YORK, March 8.—The *World's* Washington special says it is not probable that the House judiciary committee will adopt Balke's bill reported in the Senate. The committee is disposed to favor a bill on the Lowell plan embodying the codified system. The Tariff Commission bill lies on the Speaker's table with over 60 bills on top of it and cannot be reached this session unless by general consent or a two-thirds vote. The tax reformers, however, are inclined to agree to have it called up, out of order, on condition that the Republicans permit a debate and offer amendments. The tax reformers propose to strike out the expert commission and substitute a commission of 9 members of the House, five Republicans, and four Democrates, to be selected by their representative parties. These to report the reform tariff by the 1st of June. If the Republicans vote down this proposition they will be offered another to form a joint commission of representatives and Senators, Democrats and Republicans, to report by June 1st. If both these propositions are voted down a third will be offered that pending the report of the tariff commission no duties above 50 per cent *ad valorem* shall be exacted.

NERVOUS EXHAUSTION, and all diseases arising from youthful indiscretions are speedily and radically removed by that wonderful remedy known as Mack's Magnetic Medicine, an advertisement of which appears in another column.

FELLOWS' Compound Syrup of Hypophosphites is not only the most reliable remedy for consumption, but it is a specific also for Bronchitis and Asthma.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

THE STOMACH AND BOWELS.—The slightest derangement of the vital organs must be attended to at once. Delays are dangerous. Dr. L. R. Herrick's Sugar-coated Vegetable Pills are a sovereign remedy for all such ailments. They never fail. Ask for them. They are sold everywhere.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

A CASE OF CONSUMPTION.—Chesterfield, N.H March 26.—Messrs. Seth W. Fowle & Sons: Gentleman—I feel in my duty, called upon voluntarily to give my testimony in favor of Dr. Wistar's Balsam of Wild Cherry. I was taken sick last October with a lung complaint, accompanied with a very serious cough; and after having been treated a number of weeks by the best physicians, they gave me up as an incurable case of consumption, and for about six weeks my friends expected I might die any day, having entirely despaired of my recovery. At this time I read the advertisement and certificates of the Wild Cherry Balsam, and was induced to try it myself. I have taken five bottles, and from the commencement I have been gradually recovering. My cough has now entirely ceased. I have regained my flesh and strength, and am feeling quite well. I attribute the cure to Dr. Wister's Balsam of Wild Cherry, as I have taken no other medicine since I commenced taking that." Very respectfully yours, MRS. MILA S. SMITH.

GENTLEMEN.—Mrs. Smith gives me the foregoing certificate of the efficacy of your medicine in her case. She is an acquaintance of mine, and took the Balsam on the strength of my certificate, which she saw in the papers. Her story is literally true. Yours truly, W. H. JONES. 50 cents and $1 a bottle. Sold by dealers generally.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

The Best Field FOR EMIGRANTS.

An IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co, in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

MUNRO & ALEXANDER.

Daily Evening Review

FRIDAY, MARCH 10, 1882.

LOCAL AND MUNICIPAL.

Personals.

We find the following in a recent issue of the Guelph *Mercury* :—

"The reading competition for prizes in the Ontario Agricultural College Literary Society, took place on Wednesday evening, Mr. Tytler, Principal of the Guelph High School, acting as judge. A great deal of interest was manifested in the competition, both by the officers of the Institution and by the members themselves, and as many as eleven competitors entered the field. After all had read a piece Mr. Tytler desired several to read a second time. Having done so he gave his decision as follows :—First, E. H. Barclay ; 2nd, J. B. Carnegie, 3rd, F. W. Greenlaw ; 4th, C. H. Major. At the close of the competition a vote of thanks to Mr. Tytler, for his services as judge, was moved by President Mills Honorary President of the Society, seconded by Prof. Brown, and carried unanimously. Before the meeting adjourned Mr. Tytler complimented the Society upon the creditable manner in which the competitors had acquitted themselves, and congratulated it upon being able to turn out so many good readers.

Using the Vags.

This morning our citizens might have noticed "Patsy" Glen, "Paddy" Handrigan, and "Jack" Sullivan, gaily dressed in yellow and black suits, kindly provided by the Government, busily engaged in shovelling the snow off the sidewalk from Water street to the Court House. This was probably the first hard work that any of the three had done for some time and they did not appear to take very kindly to it, but the watchful eye of turnkey Nesbitt was on them, and business was the word. It would be a good idea if the prisoners were used to clean the snow off all the side walks in the vicinity of the Court House park, for instance from George street to the Collegiate Institute and along Brock to the Post Office. There is no use of boarding these vagrants unless they are made to work and contribute something towards their support.

Bummers and Gutter Snipes.

Lindsay, according to the local papers, is troubled with a large number of rowdies to whom the above names are applied. The *Warden* remarks that it thought we monopolized all the roughs in this district, but at last it has found out its mistake, and acknowledges that Lindsay has an overdose of such creatures. We could have told it so long ago. Our few rowdies are bad enough, but we honestly believe that the majority of them would shrink from doing the acts that the Lindsay papers credit to their samples. We are almost free from such creatures now, thanks to an efficient Police Force and a strict Police Magistrate.. We would advise the Lindsay authorities to make examples of some of the leaders of the "tar gangs." Six months in the Central Prison has had a good effect here and probably would have in Lindsay.

Nelsonville.

We take the following from Macdougall's Illustrated Guide and Gazetteer for Manitoba and the North-West :—

Nelsonville is situated in Townships 3 and 4, Range 6, about 70 miles from Winnipeg, and 58 west from Emmerson. Is the leading town in Southern Manitoba, and is surrounded by one of the richest and best settled districts in the whole North-West. Its growth has been rapid, but steady, and as it will almost certainly be a point on the South Western Railway, it must soon develop into a considerable town.

The Mechanics' Institute.

In the report of the Minister of Education we find the inspector speaking as follows, of the Peterborough Mechanics' Institute. "The library is in excellent order, the books are well kept, and an increased interest in the library is manifested by the public." The number of volumes in the library is given as 3371, and the number issued during the year 8448.

An Important Move.

The Port Hope *Times* says :—

"Peterborough has originated a scheme for aiding emigrants in obtaining homes in that immediate vicinity. The move is an important one, and it should behove our farmers to be on a similar look-out. By reason of the exodus to Manitoba, laborers are going to be very scarce, and labor very dear, next summer. A batch of emigrants distributed through this section would be a great boon to the farmers."

Carworks.

All property owners favourable to the passage of the by-law now before the ratepayers, granting assistance to the proposed car works, are requested to attend a meeting to be held in the office of Messrs. Moore & Sawers, on Monday evening the 13th inst., at 7.30 o'clock.

ANOTHER VICTORY.

Our Curlers Defeat the Lindsayites by a Score of 49 to 39.

On Thursday two rinks representing the Peterborough Curling Club, proceeded to Lindsay for the purpose of having a friendly game with the players of that suburb. Twenty-five ends were played, and after a well contested match, victory perched on the banners of those from the "hub," who won by ten shots. Our men are loud in their praises of the manner in which they were treated. The game was played in the most gentlemanly manner throughout, and disputes were unknown. The following is the score :—

Rink No. 1.

PETERBOROUGH.	LINDSAY.
Budden,	McDonald,
Ferguson,	Wallace,
Attrill,	Gladman,
MacDougall, Skip 27	Flavelle, Skip 17

Rink No. 2.

Hilliard,	Cooper,
McGill,	McLenan,
Boucher,	Needler,
Brown, Skip 22.	McMurtry, Skip 22
Total....49	Total.....39

Majority for Peterborough 10 shots.

Silver Spring, Manitoba.

Messrs. Bird and Lane will be in town for a few days, and are offering town lots in Silver Spring, Manitoba, at private sale. Silver Spring is situated on the western bank of the Pembina river, 90 miles west of Emmerson, 15 miles north of the American boundary and at the crossing of the Pembina branch of the C.P. R. and Manitoba, and South Western Railway. It is also on the Missouri Trail, running from the Red River to the Rock Lake and Souris Districts and is in the centre of a fine agricultural country already thickly settled. A post office has been opened and a number of buildings are in course of erection. Messrs. Bird and Lane are the sole owners of this town plot, and are in a position to sell any lots on the map. They are also prepared to give lots to parties who will agree to take immediate possession, and erect buildings thereon. Messrs. Bird and Lane may be found at Stapleton's old auction rooms, south of archway to the market from 9 a.m. to 6 p.m.

To-Night's Concert.

Once more we remind our readers of the grand concert to be given this evening at Bradburn's Opera Hall, under the auspices of the Ladies' Aid Society, of the George Street Methodist Church. The promoters have put forth every endeavor to make it the concert of the season. In addition to the best local talent procurable, they have secured the services of the Victoria College Glee Club, 11 voices, and the celebrated Burn Family, of Port Hope, Mr. Burn, violincello, Miss Burn, violin, and Miss. Burn, piano. Don't fail to be present. Admission 25 and 50 cents.

The Supreme Court.

The *Globe* says that in the Supreme Court on Thursday, Mr. Robinson concluded his argument in the case of the Grand Junction v. Corporation of the County of Peterborough. Judgment was reserved. Before the Court rose, the Chief Justice, Sir William Ritchie, announced that there would be a meeting of judges on Saturday, when a time for delivering judgments would be decided upon. He hoped that an early day could be named for the delivery of a number of judgments, and that all the cases which had been argued would be disposed of before the next term.

Obit.

The death of the Rev. W. Hooper, an ex-president of the Bible Christian conference. is recorded. The sad event took place at Exeter, Ont. Mr. Hooper had been forty-two years in the ministry and was greatly respected. The deceased when President of the conference was stationed in Peterborough, having charge of the Murray street church. His many friends and acquaintance in Peterborough and vicinity will hear of his early demise with pain and regret. One of his sons at present resides here. The family have the heartfelt sympathy of the community in their bereavement.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station :—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

Welcome Snow.

The long expected and much wanted snow commenced to fall last night, and has continued at intervals ever since. At the time of writing the snow is deeper than it has been at any former period this year, and in consequence the sleighing is very good. Farmers will be now be able to bring in wood and saw-logs, and it will also assist lumbering operations in the back country greatly.

Spring.

A gentleman informs us that a large flock of wild geese flew south on Thursday morning, and he predicts from that fact that spring has not just yet arrived and certainly the appearance of the street will bear him out. Probably the harbingers of spring, as the geese are termed were "taken in" by the mild spell, but upon finding out their mistake, they took their departure for a more salubrious clime.

Why Is It!

A correspondent asks as to whether the gas lamp on Reid street behind the Old Kirk church is for ornament or use. He says that if it it intended for the latter purpose it is very seldom lit, and if it is for the former it might as well be removed.

Moira Hall.

Moira Hall and grounds, the residence of the late Mrs. Cottingham, situated just outside of the corporation, was sold by auction to-day to Mr. Geo. A. Cox for $10,600. It is regarded as cheap.

DIGEST YOUR FOOD.—If you want to be healthy. How can you if your teeth refuse to do their work? Get them put in order by skilful dentists, and use Sozodont to keep them right. Sozodont is the best preparation for the teeth.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.
The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.
Five minutes inspection will verify this statement.
A full range of INSERTINGS to match and of equal lengths.
WE shall be pleased to quote prices, and will cut off any length that may be required.

T. DOLAN & Co

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.
DR. B. J. KENDALL & CO., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.
Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "Kendall's Spavin Cure has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.
DR. B. J. KENDALL & CO., Gents :—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as or beast.
Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.
Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.
Sold by all druggists.

H. C. ROGERS, Postmaster.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d. ; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

SATURDAY, MARCH 11, 1882.

CANADIAN TELEGRAMS.

LONDON.

Special to the Review, March 11.

A LONDON TOWNSHIP farmer named James Watson has been missing since Monday. It is thought that he fell into the river and was drowned. He was seen late on Monday night in the city where he had been intoxicated.

NIAGARA FALLS.

Special to the Review, March. 11.

THE CUSTOM HOUSE here was entered by burglars last evening. The safe was tapped by a hole being drilled near the combination lock and it being picked open. The burglars secured two hundred dollars in cash and a cheque for $350 which is useless unless signed by the collector. There is no clue to the burglars.

LYNDEN.

Special to the Review, March 11.

BURBANK'S STORE was broken into last night, but the burglars were disturbed in their operations by the night watchman and escaped, but were cleverly captured at Capetown this morning by detectives McKenzie and Gates and constable Varmetten. The prisoners are the noted "shang" Clark and Samuel Lindsay. The latter escaped from Simcoe jail lately.

HAMILTON.

Special to the Review, March 11.

AN EXPLOSION OCCURRED in the wire works last evening. The walls of the building were blown down and the roof fell in. The adjoining building took fire but the brigade being called out speedily extinguished it.

THE STRIKING TAILORS of Sanford Vales & Co., became violent this morning, and endeavoured to prevent the goods being taken from the building by those willing to work at the present prices. Several blows were exchanged, and some of the strikers have given way, but the majority still hang out.

A Penitent Sinner.

"The Toronto *Telegram* says:—It is comforting to learn from the *Globe* that, in describing Sir Charles Tupper and his acts, it is trying to be truthful and accurate." No right-minded person can look upon the honest efforts of a fellow-being to lift himself out of the slough of wickedness and untruth without expressing the hope that the efforts may be successful. All who have observed the malicious and vindictive way in which the *Globe* has pursued Sir Charles Tupper must realize that the organ has "a big job on hand," as Lincoln said about putting down the rebellion; but the rebellion was put down for all that, so there is room for hope that the other big job may meet with corresponding success. There is nothing more touching than the striving of a penitent soul to be good and to live a better life, and we all know that "while the light holds out to burn the vilest sinner may return."

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

MIDNIGHT TELEGRAMS

CABLE.

GOLD COAST DISTURBANCE.

LONDON, March 10.—A despatch from Cape Coast Castle says that fresh disturbance has broken out on the Gold Coast, and that serious trouble is anticipated.

IRISH MATTERS.

LONDON, March 10.—In the House of Commons this afternoon Mr. Forster, replying to a question by Mr. Healy, said he was not aware that the United States had made any representation to the Government regarding the stoppage of the *Irish World*. The Irish members denounced the arrest of Mr. Rourke as due to spite against Mr. Egan. Mr. Forste denied emphatically that the arrest had any connection with Mr. Egan.

AMERICAN.

NEARING THE END.

WASHINGTON, March 10.—Judge Porter says that although the exceptions in the Guiteau case are lengthy, their settlement will be comatively easy, and require but a few days.

SERGEANT MASON'S SENTENCE.

NEW YORK, March 10.—General Hancock has approved and promulgated the finding of the court-martial which tried Sergt. John A. Mason for shooting at Charles J. Guiteau. The sentence of the court is that the prisoner be dishonourably discharged from the service of the United States, with a loss of all pay and allowance now due or to become due to him, and then to be confined at hard labour in such penitentiary as the proper authority may direct for eight years General Hancock designates the penetentiary at Albany as the place of confinement at hard labour of the accused, who is to be held at Washington barracks until further orders are given in regard to his disposition. The General court-martial is dissolved.

CAVED IN.

PITTSBURG, Pa., March 10.—At the Baltimore mines, Pennsylvania, owned by the Delaware and Hudson Canal Company, yesterday over two acres of ground caved in, and the gap is widening constantly. Nobody was injured, but people residing near are leaving their houses. Men are working to stop the cave.

UTAH'S CURSE.

WASHINGTON, March 10.—In the House yesterday the Speaker laid before the House memorials from 11,000 young ladies, 13,000 young men, 15,000 women, and 12,000 men, all residents of Utah, praying for the suspension of further action on the bills relating to Utah, and for the appointment of a commission of honourable and unprejudiced men and women to enquire into the state of affairs there.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

OBIT.

CHICAGO, March 11.—J. J. Davis, County Judge and Surrogate, of Warren county, died this morning.

ANOTHER VICTIM.

NEW YORK, March 11.—A white woman, the wife of Sam George, a Chinaman, was found dead with her throat cut, in a cellar yesterday. It is not known whether it is suicide or murder. George has been arrested.

CHANDLER'S CASE.

NEW YORK, March 11.—The *Tribune's* Washington special says it is believed that there has been sufficient opposition to the appointment of Chandler as Postmaster-General, to deter the President from making it as expected. If Chandler is invited into the Cabinet at all it will be as Secretary of the Navy.

THE CHIEF JUSTICE.

NEW YORK, March 11.—Some of his friends think they see signs of weakening of Edmunds' determination not to except the Supreme Court Judgeship. In the event of his declination all the straws point to the nomination of Blackford.

FREIGHT RATES.

CHICAGO, March 11.—An offer was made yesterday to carry corn to New York, by lake and canal for 7¼ cents per bushel.

THE GREEN EYED MONSTER.

TYRONE MOUNTAIN, N. C. March. 11.—Dela Mill's sweethear paid attentions to Jane Jackson. Dela and her brother Dan beat Jane to death with sticks and stones. Dan has been arrested, but Dela escaped. All are negroes.

IN TROUBLE AGAIN.

HARRISBURG, March 11.—An account has been filed by the State Treasurer and Auditor General against the Pullman Palace Car Company for £42,000 taxes on their capital stock.

THE SPY'S MONUMENT.

NEW YORK, March 11.—The order of the Iron Hand, a secret society, is pushing the movement for the removal of the Andre monument at Tappan.

CANAL TROUBLES.

NEW YORK, March 11.—The *Herald* says that there are charges of incompetency and irregularties in the management of the Ohio canal between Cleveland and Ackron. The system for years has been giving trouble to the state.

A CHEEKY THIEF.

NEW YORK, March 11.—Kate McMentrick, a pretended seamstress, has been arrested on a charge of stealing articles given her to finish by over 60 manufacturers. Her thefts aggregated $3,000.

MISMANAGEMENT.

NEW YORK, March 11.—The *Herald* says it has been reported to the commission investigating the management of the soldiers' Home near Washington, that the choicest fruit and vegetables raised on the farm connected with the Home, have been usually delivered in their season at the residences of the commissioners in charge of the Home, and the products of the dairy has been delivered to one of them. It is further reported that a green house maintained at considerable cost has constantly been drawn on for fruits etc., for some of the commissioners and their friends. The opinion of those engaged in the enquiry seems to be, that at least two commissioners, the Surgeon-General and Commissary General, will be obliged to ask for a military court of enquiry.

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

COBOURG.

SAD ACCIDENT AND DEATH.—The *World* says that we regret to record an accident which occurred the week before last, and which resulted in the death of Mr. Hugh Tunney, son of Mr. Tunney, of Grafton, both father and son being well known in this town. Mr. Tunney was driving a load of wood on the front road near Wicklow, when, fearing an upset, he shifted his position on the load in such a manner that he fell to the ground. The runner of the hind bob passed over his thigh, dragging him some distance under the load, and injuring the artery in a terrible manner. On Saturday last, the doctors decided on amputation as the only possible hope of saving his life. The operation was performed accordingly; but poor Hugh gradually sank, till death put an end to his sufferings on the same day.

IN DEATH NOT DIVIDED.—A funeral took place in Grafton on Sunday last which was somewhat remarkable as the committing to the ground of husband and wife, who had died within a few hours of each other. The parties referred to were Mr. W. J. Monroe, of the Lake Shore, near Grafton, and his wife, Mrs. Prudence Monroe. The latter has been ill with pneumonia for three weeks, and died on Friday morning at 10 o'clock; and the former, after an illness of only one week, of the same disease, followed her on Saturday about noon. They were buried together in the Methodist burial ground at Grafton on Sunday.—an impressive discourse being delivered in the church by the Rev. H.S. Jenkinson, the pastor.

NO SUCH THING.—The *Globe* had a story among its telegraphic items on Tuesday morning to the effect that a newly-married couple, who stayed here on their way west over Sunday, were robbed of a number of bridal presents at a hotel in this town. No such thing occurred at any hotel here. No newly-married couple stayed over on Sunday, and nobody in these parts reached after any of their traps.

FIRE.—On Tuesday afternoon a fire broke out in the loft of a small stable in rear of the building owned by Mr. J. V. Boswell, and now occupied by S. Osterhout, Esq., on King street. In five minutes after the alarm was given, No. 2 Company had a stream of water upon the flames, which were soon quenched—the building not being consumed. The fire was well handled by the brigade, members of the other company assisting No. 2, and the steamer not being called out. Children playing with matches.

Our Princess.

A chatty London correspondent says:—The Princess Louise infinitely prefers selecting her own friends and forming her own circles. She is at the head of a great number of associations for art needlework, fan painting, house decorating in the Queen Anne style, and general artistic promulgation of taste. She is fond of artists, painters, and musicians; invites them to dinner and takes to her box at the opera, whence she is afterward escorted by a severely respectable Chamberlain. If she likes them, she cultivates the acquaintance. Having heard that Jacques Blumenthal the composer, had arranged his house at Kensington in the most approved method of high art, and that he followed the newest and most appropriate designs in shaded gold, peacocks, and pomegranates, the Princess Louise invited herself to be shown over it. Mme. Blumenthal, who is as much an elegant woman of the world as she is herself an artist, impressed the Princess so favorably that she became a frequent visitor, even staying three weeks at the Blumenthal fairy-like chalet in Switzerland, near Montreux. There she did away with the outward paraphernalia of rank, dismissing even her lady in waiting, and joining in all the pursuits of her hostess. She was so popular that men cast lots to sit beside her at dinner, and she was fully aware of it, although pretending to ignore the discomfiture of the unlucky ones. Of all the daughters of the British royal house, the Marchioness of Lorne is the one who finds the stiff formalty of Osborne, Windsor, and Balmoral the most irkmome.

What the N. P. Has Done.

Mr. W. Clendenning, an iron founder of Montreal, and formerly a leading supporter of the Grit party, closes a very able reply in a local paper to a free-trader in the following pertinent terms:—"When the Mackenzie-Cartwright Government took office Redpath's refinery was in full blast. Montreal by the St. Lawrence route was doing a large tea trade. That Government meddled or muddled the tariff so that the refinery shut up and we lost the tea trade. The Sir John Government got into power and it meddled. The refinery at once started work, and to-day there are more men at work in the factories of Montreal and the factories of the country than ever before, so that a meddlesome Government is not always a scourge. It is said the only class suffering just now is the lawyers. People as a rule are making money and paying their accounts. There is a marked absense of litigation, offical assignees have either left the country or taken to some other occupation. If the advent of Sir. John into power be contemporary with this state of affairs, whether produced by his meddling or not, I for one prefer things as they are, and do not just now feel like meddling with those given to change."

THE man who expects to adjust the rope around Guiteau's neck is named Robert Strong. He has had enough practice to make him proficient. He says that, although Guiteau seems brave now, he expects to see him die like a cur.

SULLIVAN was refused admission to the wake held over the body of his friend McCarty, in Boston, and he thrust his arm through a window, seized the lamented McCarty by the foot and had pulled him half way out before the amazed company could stop him.

SOMEHOW or other the Detroit *Free Press* discovers that it takes but thirteen minutes to load an elephant on a railroad train, but it takes twenty for any sort of a woman to kiss her friends good-bye, and lose the check for her trunks. But then a woman has more trunks than an elephant.

Bucklen's Arnica Salve.

The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

Daily Evening Review

SATURDAY, MARCH 11, 1882.

THE GENERAL ELECTION.

STRANGE as it may appear the *Globe* claims to have it upon "undoubted authority," that the next general election for the House of Commons is to come off shortly after the close of the present session. Whether its information be good or bad we know not, but we do know, that if such a course has or may be decided upon, there need be little difficulty in finding good and sufficient reasons for justifying such a course, and that will fully offset the *Globe's* chief objection thereto, namely, the putting of the country to the expense of a general election some twelve months before it is absolutely necessary to do so.

Whether the tug-of-war take place in 1882 or 1883 it must be obvious to every one that the country is destined to be kept in a state of semi-political excitement from now until the contest be over, and that the longer this state of affairs is drawn out the greater will be the loss to the country. It has been calculated that every Presidential election in the United States costs the people of that country many millions of dollars, besides seriously interfering with the ordinary course of business for the preceding twelve months. While the effects of a Canadian general election is by no means so serious, yet it is serious enough to justify any Government in taking it into consideration in deciding upon the time when such an election should be held. So long as reasonable notice be given the electorate, and the example of Mr. Mackenzie's midnight attack in 1873 be not followed the sooner "the agony" is over the better for every public and private interest. In this view of the matter the *Globe's* own announcement and the general preparation for the struggle which is already going on are of themselves strong arguments why the election should be held at an early day rather than be postponed until after another session.

But independent of the foregoing reasons, which will apply to any general election, there are special reasons why a general election at the present time would be expedient in the public interest. At the last general election the electorate decided upon a fiscal policy the wisdom of which was then and is still seriously questioned, and which it is alleged the electors are now only waiting an opportunity to reverse. Now as our fiscal policy has undoubtedly an important influence on the business of the country, it is desirable that the question as to whether the present policy is to be reversed or maintained should be decided as soon as possible. Until the question is decided at the polls much doubt must exist as to the decision, and capitalists will naturally be chary of embarking their money in enterprises which may be made or ruined according to the nature of the tariff which is endorsed at the polls. If a tariff framed on the principle of protecting home industries is to be swept away at the next election, the sooner that election takes place the better, and if it is to be maintained for another five years the sooner that fact is known the better. Nothing proves so injurious to the business and prosperity of a country as "uncertainty," as to the future. Having entered upon a period of uncertainty the sooner it is brought to an end the better.

Then again Mr. Mowat has thought proper to throw the boundary matter into the political arena so far as he can do so, and the sooner he gets his answer the better for the country, and that answer can only be obtained at the Dominion elections.

Another incidental advantage which would accrue from bringing on the elections during the ensuing summer would be that they would be held on voters' lists, which were made without any special reference to a general election, and are therefore likely to be at least quite as fair to both parties as those which are about to be made. Moreover the holding of the Dominion election this year would prevent the general election for the Ontario Legislature being held at the same time, and thus be of some assistance in keeping the issues of the two campaigns more distinct than it would be possible to do were they both going on at the same time.

A FLOURISHING INDUSTRY.

THE Lindsay *Post* is, we are glad to see, able to give the following satisfactory account of the enlargment of a local industry :—

"Messrs. Robson Bros. of this town, who are well known as manufacturers of a superior class of shoe leathers, have just finished an addition to their tannery which will give them much needed room, and increase their facilities. The firm commenced business in the year 1871, and had their premises destroyed by fire about five years after. Upon re-building they greatly enlarged the tannery and by the increase of trade since, became cramped for room. Last spring steps were taken to add on additional wings to the main building, which have just been completed. The largest addition is of stone, 20x47 feet, which will be used as a beam-house for preparing hides for the liquor vats. The smaller wing will contain the raw hides brought in, where they will be salted until ready for working up. The room given in the main shop by taking these details out will be used for liquor vats and additional appliances for handling stock in process of manufacture. The principal out-put is what is known in the trade as "pebbled cow-hide," and is made from the grain side after the hide is split. The flesh side of the hide is worked up into a leather from which course boot stock is made."

After an account of the process of manufacture, the *Post* continues :—

"Messrs. Robson employ thirteen *men*, not hands, and pay the best wages going. They hope to add considerably to the number before the summer is over, and will, if they think the outlook warrants it, enlarge still farther. May their best expectations be realized, and the boom in uppers go on until the product of their tannery is trodden under foot even by every resident of Manitoba."

THE Pittsburg Woman's Christian Association supports a home for Friendless Woman, a Home for the Friendless, a Young Woman's Boarding House, a Sheltering Arms, an Industrial School for Girls, a Holly Tree Inn Association, and a Home for Orphans.

AWAY FROM HOME.

The First Long Night in the Empire City of the West—Sights and Scenes.

Hardly had the five hundred emigrants who arrived by the many trains on Saturday set foot on our streets before the north wind began to blow and the snow to rush violently through our streets. Those who had for years perhaps meditated a trip to Manitoba, for the purpose of building themselves new homes here were not disappointed in the appearance of the city. The houses were larger and more numerous than they had expected to see, the air was balmy and the snow was gently falling. But hardly had they taken a fair look at the city of their hopes before the

BLIZZARD BEGAN TO BLOW

and as the night wore on it increased in violence till one of the most terrible storms of the season was sweeping over Manitoba. A rush was made to obtain accommodation but this was no easy matter. The hotels were full, the private boarding houses were overcrowded and there was no place for them to lay their heads. Some finally obtained berths off the mellow side of bar room floors, others sat on chairs and nodded at the stove all night, while over fifty men, women and children decided to remain in the station. Here they passed a night which they will not forget for years. Every one knows what

A WRETCHED BARN

that so-called station is. The city horses and milch cows have better accommodations by far. The wind swept around the unprotected building with alarming force till the frail structure trembled and quaked in every joint. The snow sifted through the seams and rushed in in great clouds whenever the door was opened.

ALL NIGHT LONG

the wind and storm played a wierd accompaniment to the mournful thoughts of the lonely immigrants within. There they sat listening to the trumpet call of the storm which seemed to be summoning all the strength of the gale to break down the building and come cold-blooded at

THE TREMBLING WRETCHES

within. In the ladies' waiting room a miserable attempt was made to make the women and children comfortable. A few sheets were strung across a corner of the floor covered with travelling rugs and blankets. In this wretched shelter the women and little children huddled together.

Yesterday morning early, the Khan having heard of their condition, faced the blast and with the utmost difficulty reached the station. In the main waiting room a cheerless sight presented itself. The floor was three or four inches deep with snow and every time the door was opened a fresh relay was blown in. About 30 men were huddled mutely around the stove. In a far corner two farmers' sons were sitting on a bench with a loaf of bread and a hunk of cheese between them. They had their jack knives in their hands and were making their first meal in Manitoba. It was so cold that they were completely wrapped up, and when they took a bite they had to pull down their mufflers to get at their mouths. The only expression that sat on each faces was

VAGUE ASTONITHMENT,

This merged a little into fear when the building rocked with the force of the blast, but they never said a word or complained in the least. In answer to questions Charley Carroll, a young fellow from the neighborhood of Guelph, said : "Oh we're doing pretty well considering. All we're sorry for is that we can't get west as the trains are snowed up, but," he added cheerily, "we're all right. We came to rough it and

ALL THE BLIZZARDS THAT EVER BLEW

won't scare us out of Manitoba. I came here to grow up with the country and I'm a stayer from the word go."

The Khan explained to the party that this was the first storm of the season, that the winter hitherto had been a most delightful one and at the moment the sun burst through the snow clouds and shot a stream of softening light into the dreary place, as if in corroboration of what he had said. The Khan then visited the female quarter and found them cheerful and wonderfully contented. The little children were making snow balls in the corner and

PELTING EACH OTHER

with them, and the women were lying on the benches reading and chatting. Their impromptu bed room in the corner was a sorrowful looking sight ; but was the the best that could be had under the circumstances.—*Winnipeg Sun.*

GAOL-BREAKERS FOILED.

Serious Attack on the Governor of The Kingston Lock-up—Plot Frustrated.

KINGSTON, March, 9.—Two members of the "B" Battery named Reynolds and Earle, who are now serving terms of imprisonment in the gaol, the former for desertion and the latter for striking an officer, made an assault on Governor Corbett this morning with a view to escaping. While the latter was talking to Earle, Reynolds made a rush at him from behind, and gave him a severe kick on the leg. Earl assisted in the attack, and struck the governor a blow with his fist in the mouth. In the meantime Reynolds had run into the kitchen and procured a knife, with which he prepared to defend himself should the officials attempt to place him in the cells. Mr. Corbett not having a weapon on his person, retired from the corridor and sent for the police. By the time the police arrived the two prisoners had become very abusive. It appears that a prisoner who had been discharged to-day had made it up with the other two that he would throw a rope over the wall to them while they would be at work in the yard, when they would be able to effect an escape. Their little game was spoiled by the governor giving them indoor duty during the day. This action angered them. It is impossible to catch the governor napping, this being the second time this year he has frustrated an attempt at escape.

Emigrants' Complaints.

BUFFALO, N. Y., March 9.—A New York special says :—The English steamer Persian Monarch, which arrived on Tuesday, brought 292 steerage passengers, among whom were several Russian Jews. Some of the latter made a general complaint at Castle Garden yesterday, claiming that for three days during the voyage they were deprived of bread. Some of them asserted that they had several articles stolen from their personal effects. One declared that he had lost a watch, and a number alleged they had lost clothing. Capt. Dunscombe and the other officers of the ship declare that the Hebrews quarrelled among themselves during the voyage, that they would not eat the food which the other passengers ate, and that the only theft reported to him was a watch, which the interpreter afterwards told him had been found in possession of one of their number, and restored to its owner. The Commissioner of Emigration will investigate.

IRELAND.

ON February 17th, a Land League hunt, attended by thirty horsemen and some one thousand of spectators, took place at Doon.

THE ladies of the Rosscarberry Land League have pledged themselves never to marry a landlord, agent, bailiff, landgrabber, peeler, or any one who is not a Land Leaguer

THE present season is one of the mildest experienced in Roscommon for many years. The farmers have their ploughing in a very advanced state ; some are busy planting early potators. Bees are to be seen now at many apiaries bringing home wax.

ON Feb. 13th, some hundred men assembled at Gurtnaville, Bohola, on the farm of Patrick White, late secretary of the Straide Branch of the Irish National Land League, who is at present a suspect now confined in Armagh jail. The ploughs engaged numbered about fifty. The work of turning up the ground, building walls, &c., was completed in a very few hours.

ON February 13th, an explosion of a serious natnre occurred in the Queen's Island Shipbuilding Yard, Belfast. Willam Dow, a furnaceman, who resides in Lagan Village, and Joseph McConnhl, brassmoulder, of Conway atreet, were, it appears carrying a pot of molten lead over a grating under which was a quantity of water, when the pot split, allowing its contents to fall into the water, thereby causing the explosion. Some of the furnaces were blown in pieces. and large quantities of steam generated. The men, Dow and McConnel were frightfully injured, particularly the former, whose face, body, and arms were severely burned. Three other men, named Sands, Lavey, aud Ferguson, have also received injuries.

ON February 12th, Mr. Wilford Lloyd, temporary Resident Magistrate at Scariff, and an officer of the 57th, on detachment duty, were going to Tulla, in a wagonette, belonging to the Constabulary, driven by Sub-Constable Thomas Willis, when they were fired on by a party, concealed in a thicket, within fifty yards of the public road, about a mile from Bodyke. The policeman was in the box seat. and one of the bullets hit him in the left arm. passed through the flesh, across his chest, and passed out through his other arm. Five or six shots were fired by the attacking party in quick succession though but one took effect. The policeman and Mr. Lloyd both returned the fire with their revolvers, and drove into Tulla, where the injured man had his wounds dressed. Six arrests were made by the police on sucpicion.

Lace Curtains,	Table Damasks,

AND A LARGE STOCK OF

Grey and White Cottons, Ducks, Tuckings, Denims, Sheetings, Table Linens, Towelings, Towels, Pillow Cottons, Quilts, Etc., Etc.

MY AIM

Will be at ALL times to Sell only such Goods as will give satisfaction both in QUALITY and in PRICE.

I PROMISE

That the Display of FASHIONABLE GOODS will INTEREST you, and that the PRICES will be PROFITABLE to you. All Goods will be marked in Plain Figures, and only One Price. No Discounts will be allowed, for to be candid, the profits will NOT ALLOW it.

An Inspection and Comparison of Goods and Prices cordially invited.

THOMAS KELLY.

PRAISES OF MEN.

A poor little girl in a tattered gown.
Wand'ring along through the crowded town,
All weary and worn on the curb sat down
By the side of the way to rest;
Bedimmed with tears were her eyes of brown,
Her hands on her bosom pressed.

The night was approaching and winter's chill blast.
That fell on the child as it hurried past,
Congealed the tears that were falling fast
From the poor little maiden's eyes;
The blinding snow on her pale cheek cast,
Unheeding her plaintive cries.

Now, hurriedly passing along the street,
She catches the sound of approaching feet,
And she wearily rises, as if to entreat
Some aid from the passer-by;
But slowly and sadly resumes her seat,
Repelled by the glance of his eye.

He saw the wild tempest resistless hurl
The gathering snowflakes, with many a whirl,
Upon her bare head, where each soft shining curl
Was swept up by the breath of the storm;
But what did he care for the little girl,
His raiment was ample and warm.

He went to a charity meeting that night,
And spoke to the listener's great delight,
Of how 'twas the duty of all to unite
The suffering poor to relieve;
And held up his cheeh for a thousand at sight,
So all of the crowd could perceive.

He handed the check to the treasurer, when
The audience applauded again and again,
But the angel who holds the recording pen
This sentence, methinks, did record;
"He doeth his alms to be seen of men,
Their praise is his only reward."

The papers next morning had much to say
Of how the "good gentleman" did display
His generous spirit in giving away
So much to the poor man's cause.
He smiled as he read his own praise that day.
And thought of the nights applause.

Near by, the same paper went on to repeat
A story they'd heard, of how, out in the street,
A watchman, at dawning of morn, on his beat,
A poor little child had found,
With only the snow as a winding sheet,
Frozen to death on the ground.

Ah! who can declare that, when God shall unfold
Eternity's records, he will not hold
Him guilty of murder, who seeks with his gold
In charity's name to buy
The praises of men, while out in the cold
He leaves a poor child to die.

—*New York Mercury.*

THE MEADOWLEA TRAGEDY.

Particulars of the Death of the Taylors near Winnipeg—Fire and Frost.

WINNIPEG, March 9.—The particulars of the Meadowlea fire and frost disaster on the night of the recent blizzard are heart-rending. The fire broke out on last Saturday night, when Thomas Taylor, his wife, and three children, aged respectively 27, 25 and 21 years, also Miss Reid, of the city, a visiting friend, were in the house. All had retired to sleep except the daughter Lizzie. The latter gave the alarm, and all arose, and only partially dressed, being anxious, if possible, to stay the fiery element. Their efforts were in vain. Lizzie, it is supposed went to her uncle's house, a short distance away, for assistance. Miss Reid took refuge in a stable twenty yards from the house. Miss Taylor, anxious about Miss Reid's whereabouts, went in search of her, but was overpowered by a blizzard, then ranging at its highest pitch. She perished. Annie, the other daughter, next went in search of both, but was compelled to take shelter in a vacant house a quarter of a mile off. Miss Reid, in the meantime, returned to the fire, and along with the old man, and the daughter, Mary Jane, took such comfort as was afforded by the smouldering remains in the cellar. Annie returned to the fire at daylight, but finding that her mother and Lizzie had not returned, went again in search, and no more was seen of her. The fire being low and affording no warmth, the old man and Miss Read concluded to go to the house that sheltered Annie during the night. The women reached it through the storm, but Mr. Taylor was forced to return to the fire. Soon after reaching the vacant house Mary Jane began to get despondent, and reproved herself for having left her father, and thinking that he and all the remainder of the family were frozen to death, expressed a wish that she might die also. She lay prostrate on the floor, and continued to moan, refusing to be consoled by Miss Reid, and was discovered next morning by Ralph Taylor, son of Wm. Taylor, brother of the father of the destitute family, and in a house only three-quarters of a mile distant he found the uncle terribly frozen and unconscious. Ralph Taylor returned for a cutter and assistance. When the party returned, they found Mrs. Taylor frozen on the prairie, Mary Jane lying on the floor, and Miss Reid kneeling at her side. Miss Reid was much exhausted. Ralph Taylor drove them all to the uncle's house. Neither of the women spoke a word from the time they were put into the sleigh until they reached Wm. Taylor's house. Mary Jane only breathed for a few minutes after being carried into her uncle's house, notwithstanding that every effort was made to resuscitate her. Every attention was given Miss Reid, but it was only after she had been some time wrapped up in warm flannels that she regained consciousness. The storm was raging so hard that it was impossible to continue the search for the remainder of the bodies.

Mr. D. H. Scott, ex-warden of the county, hearing of the affair, at once took the matter in hand and the search was renewed, and Dr. Pitford was brought from Stonewall. Scott found Annie's body frozen on the prairie, half a mile from the burned house. She was lying on her face, her head and shoulders being covered in a quilt, which she had seized soon after the fire broke out. Forty or fifty neighbours resumed the search on Tuesday morning, and at 2 p. m. Lizzie's frozen corpse was found four miles from home in the direction of her uncle's house, but beyond it. The scene was heartrending in the extreme, and has cast a gloom over the entire community.

CAMPBELLFORD.

ACCIDENT.—On Thursday last, Mr Daynard of Percy, met with an accident whereby he narrowly escaped losing an eye. It appears that while engaged in a conversation with Mr. Jas. Morrow, near Hastings, a chip from the axe of a man who was chopping in the immediate vicinity, struck him just below the right eye, inflicting a gash nearly two inches in length and cutting the flesh to the bone.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

FROM ALL OVER.

A MARRIED woman in Robertson county, Ky., who is only fifteen years old, is six feet six inches in height.

AT A polyglot lunch served in Oriental style in Chicago, twelve Eastern languages were spoken by those who were present.

Two emigration agents have been arrested at Hamburg for shipping young girls, chiefly German, to immoral houses in America.

OSCAR WILDE and Sullivan, the fighter, being in Chicago at the same time, are regarder as the lily and squash, and the *Journal* speaks of them as the two mashers.

MACK'S MAGNETIC MEDICINE is a positive remedy for nervous exhaustion and all weakness of the generative organs in both sexes. See advertisement in another column.

EX-POSTMASTER General James is quoted as saying: "The happiest moment of the last ten months was when I had resigned from the Cabinet and sat in the car for New York."

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

OSCAR WILD told a Chicago reporter that he had never been properly criticized. He says the Niagara Falls "are not so noble in action and design" as he expected. He thinks the west has "the type of civilization distinctively American."

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

MLLE. RHEA returns to Detroit at the request of citizens, who in addition to recalling her to play, have arranged for a social reception, a committee of 100 ladies having the matter in hand.

SICK and bilious headache, and all derangements of stomach and bowels, cured by Dr. Pierce's "Pellets"—or antibilious granules. 25 cents a vial. No cheap boxes to allow waste of virtues. By druggists.

GENEVIEVE WARD, the actress, is said to be an accomplished pedestrian. Even the most unfavorable weathar does not discourage her from taking a constitutional of three or four miles every morning.

FORTY discontented artists, whose pictures were rejected by the hanging committee of the American Water-color Society in New York, have decided to exhibit at the American Art Gallery 250 of the 1,100 pictures rejected by the committee.

No new thing under the sun—except that the Esterbrook Steel Pen Co. are every year bringing out new styles of steel pens to meet the popular demand. In the meantime, their old standard reliable pens are having a larger run than ever. All the Stationers keep them.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

1—FARMERS AND MECHANICS.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

RESTORED TO COMPLETE HEALTH.—From Chas. E. Pearcy, of Brooks, Me.—"From early youth I was in feeble health, troubled with humor in my blood, weakness and debility of the system generally: was unable to labor much, and only at some light business, and then only with great caution. Seven years ago, the past spring, I had a severe attack of Diphtheria, which left my limbs paralized and useless, so that I was unable to walk or even sit up. Noticing the advertisement of Peruvian Syrup, I gave it a trial, and to my great joy soon found my health improving. I continued the use of the Syrup until three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present health intirely to the use of Peruvian Syrup, and hold it in high estimation. I cannot speak too strongly in its praise. I have several times recommended it in cases very similar to my own with the same good results. Sold by all druggists.

ST. JACOBS OIL
TRADE MARK.

THE GREAT
GERMAN REMEDY.
FOR
RHEUMATISM,
Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,
Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

A CHANGE.

On and after to-night, in conjunction with the leading merchants of the town, we will keep our place of business open until 8 p. m.

MUNRO & ALEXANDER.

Daily Evening Review

SATURDAY, MARCH 11, 1882.

LOCAL AND MUNICIPAL.

A Grand Success.

That is about the most appropriate caption that we can call to mind for an account of the concert at Bradburn's Hall on Friday evening, under the auspices of the Ladies' Aid Society, of the George Street Methodist Church. The ladies, with the assistance of some of the sterner sex, had made extensive preparations, and their energy and perseverance were fully rewarded. When the curtain rose the hall was filled to repletion with one of the largest and most respectable audiences that ever assembled in the building, and, although a number of juveniles were present, there was not the least sign of the whistling and stamping, that so often interrupts performances. The programme was an exceedingly long one, rather too long in fact, and was fully carried out, a few slight changes being necessitated. In every respect the concert was a grand success, those who took part acquitted themselves admirably, and the audience, one and all, were more than satisfied. The presence of the Victoria College, Cobourg, Glee Club, doubtless served to swell the audience. The Club numbered nine voices and rendered several glees and medleys in a finished manner. There is nothing particularly artistic about the singers, the pieces being given in the rollicking style peculiar to college boys. They were forced to re-appear on each occasion. The playing of the Peterborough Orchestra was one of the features of the evening, and the loud applause amply testified that their fine music was fully appreciated. A recitation "The Trooper's Death," by Mr. Hetherington, the student who was severely injured at the recent fire at Cobourg, was given in an admirable manner. His pourtrayal of the dying soldier, who wanted his comrades to pray, but who while thinking of his Maker could not refrain from asking of the last charge "Wasn't it grand," was perfect and well merited the applause it received. "The Heart Bowed Down," was given in Mr. T. Brown's usual style. Mr. A. L. Davis was in excellent voice and gave "Alone in the Desert.' The instrumental trio by the Burns family, of Port Hope, was a treat, Mr. Burns playing the violincello and the Misses Burns violin and piano respectively. Of the playing of Mr. Burns it is needless to speak as his abilities as a first class musician are fully known and recognized throughout this district. The violin playing of the elder Miss Burns was charming, showing that she has a complete mastery over that difficult instrument. She is undoubtedly the best lady violinist that we have ever heard, and we hope that she will again favor a Peterborough audience. Miss Burns, jr., played the piano in a very creditable manner for one so young. Recitations were given by Messrs. E. C. S. Haycke, "Asleep at the Switch," and A. C. Crews, "The Eagle's Rock," both of which met with considerable favor from the audience. Evidently the latter gentleman is not accustomed to such a large hall as ours, as it was only with great difficulty that he could be heard at the rear. Solos by Messrs. Nelles, Cobourg, and Manning were well rendered. Mrs. F. H. Scobell, by special request, sang, "Think On" and "Kathleen Aroon," in both of which she appeared to good advantage. A solo by Miss Stratton was one of the best features of the entertainment, and she was loudly encored, to which she responded by a bow. A solo by Mrs. D. W. Dumble was also well given. A duet "The Singing Lesson" by Messrs. Jewel, Whitby, and Holden was very amusing, and they had to respond to an encore. Later in the evening the same gentlemen sang "The Lost Ship," and won further honors. A quartelle by the Misses Huston and Wells and Messrs. Morris and Jewel was received with favor. Prof. Heathfield presided at the piano. Taken altogether the concert was one of the best ever held in town, and we congratulate the ladies that their endeavours have been crowned with such great success.

Snow Slides.

Snow slides from the mansard roofs have been very frequent all day, and numerous startled horses and teams were the result. The snow should be cleared off, as we understand that there is a by-law in force to compel it to be done.

Prorogation.

Both the Ontario and Nova Scotia Legislatures were prorogued on Friday. A large number of bills were assented to.

Silver Spring, Manitoba.

Messrs. Bird and Lane will be in town for a few days, and are offering town lots in Silver Spring, Manitoba, at private sale. Silver Spring is situated on the western bank of the Pembina river, 90 miles west of Emmerson, 15 miles north of the American boundary and at the crossing of the Pembina branch of the C.P. R. and Manitoba, and South Western Railway. It is also on the Missouri Trail, running from the Red River to the Rock Lake and Souris Districts and is in the centre of a fine agricultural country already thickly settled. A post office has been opened and a number of buildings are in course of erection. Messrs. Bird and Lane are the sole owners of this town plot, and are in a position to sell any lots on the map. They are also prepared to give lots to parties who will agree to take immediate possession, and erect buildings thereon. Messrs. Bird and Lane may be found at Stapleton's old auction rooms, south of archway to the market from 9 a.m. to 6 p.m.

Assented to.

Among the Bills of the Ontario Legislature, assented to on Friday by the Lieutenant-Governor, were the following of particular interest to our readers in this district:—

An Act respecting Market Fees.

An Act respecting the Gatling Gold and Silver Mining Company.

An Act respecting the Midland Railway of Canada.

An Act to provide for the construction of Waterworks by cities, towns and villages.

An Act to establish a Provincial Board of Health, and to give increased powers to local Boards of Health.

An Act to extend the powers of companies for supplying cities, towns and villages with gas and water.

An Act to consolidate the Toronto and Nipissing Railway Company, the Whitby, Port Perry and Lindsay Railway Company, the Victoria Railway Company, The Toronto and Ottawa Railway Company, the Grand Junction Railway Company, and the Midland Railway of Canada."

A Loyal Utterance.

The Lindsay *Warder* says that in the course of his sermon last Sunday morning, the Rev. V. Clementi alluded to the recent attack on the life of Her Majesty the Queen, and gave expression to the feeling of horror and indignation that pervaded the hearts, not only of all her subjects, but of the inhabitants of the whole civilized world, as soon as they were made acquainted with the outrage. On behalf of the congregation he gratefully recognized the over-ruling providence of God, which had, happily frustrated that and previous attacks on our beloved Queen; and he concluded with a prayer that the Almighty would still continue to guard and guide her, until, full of years and honors, she shall exchange her earthly throne for a more enduring throne in Heaven.

Boston Opera Company.

In reference to the coming performance by the Boston Opera Company of the comic opera "Betsy Baker" in Bradburn's Hall on Thursday next, we publish the following letter which has been received from Mr. Philp, whose musical skill and judgment are so well known here:—

GUELPH, March 10th, 1882.

DEAR SIR,—Boston Opera Company played here last evening. I am not given to gush, but must say that the show is the best ever given in this city. The audience towards the close were worked up to a pitch of the wildest enthusiasm, and that is saying a great deal for a Guelph audience. Every member, even to old Wilkie, is a star, and dont you forget it. Wishing you success with them, I am yours truly.

W. PHILP, Organist,
Guelph Ontario.

The Boom.

Regarding the lots which Messrs. Lane & Bird are selling here, the Emerson *International* of Tuesday says:—

"There has been the most unparalleled success in the sale of Silver Spring lots within the last couple of days. Now is the time for those desirous of making money by investment in one of the most desirable town-sites in the North-West. The lots will be put on the eastern market within a few days. The maps and plans (registered) are to be seen at the office of DeLaney & Douglas, in this town. Already 130 lots have been disposed of in Emerson.

Nelsonville.

We take the following from Macdougall's Illustrated Guide and Gazetteer for Manitoba and the North-West:—

Nelsonville is situated in Townships 3 and 4, Range 6, about 70 miles from Winnipeg, and 58 west from Emmerson. Is the leading town in Southern Manitoba, and is surrounded by one of the richest and best settled districts in the whole North-West. Its growth has been rapid, but steady, and as it will almost certainly be a point on the Sonth Western Railway, it must soon develop into a considerable town.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

Recently in Toronto.

Over 1,000 physicians and sufferers visited Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the the French army, he will be at the Huffman House, Peterborough, on the 17th of March, for five days and will have with him a supply of Spirometers for the cure of Catarrh, Bronchitis, Asthma and Lung diseases. Physicians and sufferers can try it free.

The Weather.

The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes—Moderate to fresh westerly to southerly winds. Fair weather. Not much change in temperature.

Carworks.

All property owners favourable to the passage of the by-law now before the ratepayers, granting assistance to the proposed car works, are requested to attend a meeting to be held in the office of Messrs. Moore & Sawers, on Monday evening the 13th inst., at 7.30 o'clock.

Last of the Season.

The last grand skating carnival of the season will take place at the Victoria Rink, Hastings, on Thursday evening next. A special feature will be the presentation of a handsome silver medal to the best skater in costume. The band will be present. We would advise any of our skatorial artists who may want to spend an enjoyable evening, to go down, and we can guarantee them a good time.

Received his Medal.

Mr. E. J. Hartley has received from the committee of the Hastings Skating Kink Company the medal which he won at the last carnival held there. It is a very handsome silver medal, about the size of a fifty cent piece, suitably engraved and suspended by a tri-colored ribbon. It will add materially to Mr. Hartley's already large stock.

Personals.

Mr. Freeman Lane, of Emerson, formerly of Peterborough, is in town. He is interested in Silver Spring property.

Mr. William Toole has left for the land of blizzards and booms.

The Cobourg College Glee Club and their friends left for home on the 10.30 train to-day. They warbled a lay as the train left,

CORPORATION MOONLIGHT.

To the Editor of the Review:

SIR,—I would like to know why the youth, who, in the evening twilight, rides the electric horse, has neglected to light the gas lamp by the railway crossing on Antrim street, thus depriving the ratepayers of said street of their rightful share of "corporation moonlight." Treat all hands alike, Johnnie, and none of this favouritism.

Yours truly,
Peterborough, March 10. CITIZEN.

It has done more for the rheumatic sufferers throughout the land than any remedy ever known. We refer to the Great German Remedy, St. Jacobs Oil. I. L. Tobias, the well known and popular cigar manufacturer of 447 Third avenue, New York, informs the writer that both himself and wife have been great sufferers from rheumatism, and that St. Jacobs Oil in the only thing that did either of them any good. "The fact is," said Mr. Tobias, "it has cured us entirely and in a very short time, and we used only a couple of bottles—the whole cost two dollars. Much less expensive than a large doctor's bill, with the apothecary's charge for putting up his prescription added. You can tell the world what I know of St. Jacobs Oil, and what my wife knows about it. I want everybody with rheumatism to know as much of it as we do, and to feel as good as we did when we found ourselves as well as ever.".

YOUNG MEN, and middle aged ones, suffering from nervous debility and kindred weaknesses, send three stamps for part VII of Dima Series Books. Address World's Dispensary Medical Association, Buffalo, N. Y.

"BECAME SOUND AND WELL."—Hatcher's Station, Ga., March 27, 1876.—R. V. Pierce, M. D.: Dear Sir—My wife, who had been ill for over two years, and had tried many other medicines, became sound and well by using your "Favorite Prescription." My niece was also cured by its use, after several physicians had failed to do her any good. Your truly, THOMAS J. METHNIN.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

EMBROIDERIES!

Our sales last season of Imported Swiss Embroideries were so large, and the goods gave such general satisfaction, that we again placed a large order, and the goods are now to hand with us.

THE POINTS OF EXCELLENCE.

The Cambric is extra fine and strong.
The edges all sound.
The patterns beautiful.
And of the richest and most varied character.

The entire stock comprises some 125 pieces, and offers a range of patterns and widths, which cannot be duplicated in town.

Five minutes inspection will verify this statement.

A full range of INSERTINGS to match and of equal lengths.

WE shall be pleased to quote prices, and will cut off any length that may be required.

The Best Field
FOR
EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

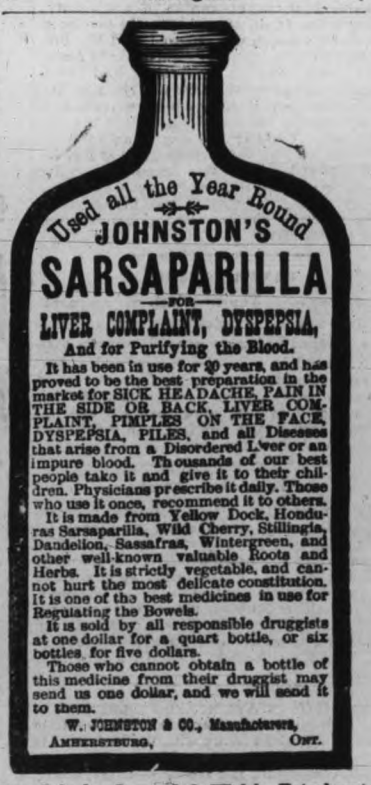
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "Kendall's Spavin Cure has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.



Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

☞ Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1d 1wly

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

MONDAY, MARCH 13, 1882.

WINNIPEG ON FIRE.

The Fire Demon Destroying the Prairie City—Work for Carpenters and Masons.

Special to the Review.

WINNIPEG, March 13.—A terrible fire is raging at one p.m. on the west side of Main street, north of the Bank of Montreal. The loss will be very heavy. A clean sweep of Scott Street is certain.

3 P.M.—The fire is still raging.

COBOURG.

CHEAP FUEL.—The *Sentinal Star* says that as a result of the washing away of the factory bridge several people had free kindling; but one fellow, who had an eye to business, wanted to monopolize the whole affair, and, armed with an axe, proceeded to the ruins on the factory creek, and dared any person to touch a portion of the timber. One fellow, however, dared, and the wielder of the axe, after suffering several heavy kicks, caved in, and divided the spoils.

CAUGHT AT LAST.—One day recently a hardy son of toil entered one of the leading gents' furnishing stores and purchased a coat and vest. Wishing to make a little for himself as "discount for cash" he appropriated a pair of gloves. On being sent down to the Knight of the Goose to have his measure taken, he was requested to take the gloves out of his pocket, to allow the tailor a better chance to get a good fit. The tailor did not know they were stolen but one of the employes in the store recognized them. His discomfiture may be easier imagined than described, when they were taken away from him.

MADOC.

SUDDEN DEATH.—The *Review* says that another sudden death is added to the long list that has taken place it this village or vicinity during the last few years. The victim this time was a man named Lawrence Horrigan, who has been working on the T. & O. R'y for some months, and who came to his sudden end at the Windsor House, in this village, on Friday morning last. He was known to many as greatly addicted to liquor, and this seems to be the cause that hastened him to his untimely end. While lying out in some his "sprees," he contracted a heavy cold resulting in inflammation of one of his lungs, and was for some days previous to his death under Dr. Defoe's care. On Tuesday he left his room and walked to the Doctor's in the rain, which sent the inflammation into the other lung. Early Friday morning he walked down stairs and asked Mr. Conley to go for the doctor, as he had great difficulty in obtaining his breath, remarking, "If he don't come quickly I'll smother," Mr. Conley immediately complied, and the man walked up stairs to his room. When Dr. Dafoe entered his room shortly afterward he was standing in one corner evidently in great distress. He was helped to the bed, but was no sooner laid down than he seemed to fill up, and expired in a few minutes. The unfortunate man's friends, who reside near the Grand Trunk station, Belleville, were telegraphed for and arrived the same night, when they took charge of the body. It was kept in the R. C. Church over night and conveyed to Belleville by train on Saturday morning. Deceased was apparently about 30 years of age, and unmarried.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

MIDNIGHT TELEGRAMS

CABLE.

LORDS AND THE LAND ACT.

LONDON, March 11.—The Committee of the House of Lords announce they will proceed with their enquiry into the working of the Land Act notwithstanding that a majority in the Commons condemn it.

WITHOUT JUDGE OR JURY.

ST. PETERSBURG, March. 11.—It is rumored that the Austrians have captured several Russian officers serving with the Roumanian and Bosnian insurgent ranks, and shot them without court martial.

THE UNHAPPY RULER.

ST. PETERSBURG, March 11.—There is strong indignation against the Czar in all Russian circles.

SKOBOLOFF'S CONTRITION.

ST. PETERSBURG, March 11.—General Skobeleff's reply to the Czar's rebuke expresses contrition. He declared he had no intention of posing as a political agitator.

MR. LOWELL'S LETTER.

LONDON, March 11.—It is stated that Mr. Lowell's letter, declining to interfere in behalf of the Irish-American prisoners, was published without his consent. The publication was presumably contrived by the prisoners to whom the letter was addressed.

THE TUNISIAN INSURGENTS.

TUNIS, March 11.—The Italian Consul-General has protested against the insecurity of life and property in the regency. He declares he will hold the Bey responsible in the event of Italians losing their lives. It is reported that the Tunisian insurgents have proclaimed Ali Kalifa, their leader, Bey of Tunis. French flying columns will be sent from Gafsa and Gabes in the direction of the Tripolitan frontier.

CURTAILING.

LONDON, March 12.—At a meeting of thirty limited companies of Oldham held last evening, it was resolved that if the East Lancashire manufacturers continue the short time movement, steps will be taken to ascertain the desirability of curtailing the production of yarn.

INTERNATIONAL RIFLE MATCH.

LONDON, March 11.—Sir Henry Halford publishes his correspondence with Colonel Wingate with reference to the International shooting match. He calls upon the foremost shots among the volunteers to practise with special reference to participating in the contest. He adds:—"Nothing short of the best work of the best men the country can produce will insure success for the British.' The *Volunteer Service Gazette* says:—"We may now confidently hope the International military shooting match will become an event, if not of yearly, at least of very frequent occurrence. The great ingenuity and energy of the Americans give hope that it will lead to great improvements in military rifles and team shooting."

PASTORAL LETTER.

DUBLIN, March 11.—A pastoral letter of the Archbishop of Dublin was read in all the Catholic churches to-day. It strongly denounces all the recent outrages, and attributes them to the "no rent" decree and also to secret societies.

AUSTRIAN SUCCESSES.

SCUTARI, March 11.—The Austrians to-day occupied Crikuice and Dragali, the head-quarters of the insurgents in Crivoscie. The fort at Dragali was mined and exploded by the insurgents. According to the reports from Slavonic sources the Austrians fired upon women and children in their flight from Gragali. The fugitives were allowed to pass the Montenegrin cordon.

SUBMARINE CABLES.

PARIS, March 11.—DeFreycinet has invited the Maritime powers to send delegates to the International Congress to regulate the question of the ownership of submarine cables.

CUBAN AFFAIRS.

MADRID, March 11.—After approving the new and liberal press law, the Council of Ministers to-day, presided over by the King, decided to maintain General Prendergast in Cuba. Though not well satisfied with his recent acts, yet after mature deliberation, the Government deems it imprudent to send out a Conservative commander in the present agitated state of the colony.

RIVAL TRADE WITH BORNEO.

MADRID, March 11.—Active negotiations are going on between England and Spain about Borneo. The Madrid Government has decided to respond to the creation of a British company by the occupation of several islands in the Sooloo archipelago and near Borneo.

THE EARL'S BODY.

LONDON, March 11.—The Earl of Crawford and Balcarres has engaged four spiritualists, who are now at Dunecht house, Scotland, endeavouring by clairvoyance to see who violated his father's tomb.

FRANCE AND RUSSIA.

PARIS, March 11.—A vague feeling of uneasiness is still noticeable in the utterances of the French press. Events across the Rhine are being watched with close attention here, and the utmost care is being taken to avoid giving Germany the slightest pretext for taxing France with the intention of concluding an alliance with Russia, and tempting fortune in another war in the hope of recovering Alsace and Lorraine. Gen. Ignatieff's adjutant is expected here soon on an important mission to the French Government. His coming may revive the suspicions of the German press.

AMERICAN.

POLYGAMY DOOMED.

SALT LAKE, March 11.—The Legislature adjourned *sine die* last evening. In the closing speeches there was a tacit recognition of the fact that the day of polygamous legislation was forever passed. Previous to the passage of Edmunds' bill, the Legislature was disposed to treat lightly all attempts at interference. Since that they became aware that a crisis in their history is upon them. The younger element would probably have met it by concession if possible; the older and polygamous element had no thought save to stand on what they termed their rights.

A NEW STAR.

WASHINGTON, March 11.—The Smithsonian Institute has received the announcement of the discovery by Palira at Berlin, on the 10th of March, of a planet of the thirteenth magnitude, in 11 hours 10 minutes right ascension, 8 degrees 18 minutes north declination, with daily motion four seconds.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

AN EARTHQUAKE.

PANAMA, March 13.—Intelligence has reached here of an appalling earthquake at Costa Rica. The towns of Aljula, San Rulon, and Herma were destroyed. Several thousand lives were lost. Those left alive there are homeless.

AMERICAN.

DROWNED.

CONCORD, N. H., March 13.—Three women and a boy were drowned here by the capsizing of a boat.

FROM FLOODS.

MEMPHIS, Tenn., March 13.—About 68,000 square miles of country in Memphis and Vicksburg are now under water. The population of this country is 150,000. One third of the people are suffering.

DIED.

NEW YORK, March 13.—Commander John G. Glasson, on the retired list, died yesterday at the advanced age of 77 years.

OBIT.

WASHINGTON, March 13.—Lord George A. Montague, Secretary of the British Legation died yesterday.

A FOOLISH REQUEST.

NEW YORK, March 13.—A Land League meeting last night adopted resolutions urging the Government to recall Minister Lowell, and requesting the Legislature to ask the National Government to define its policy on the base of protection to American citizens abroad.

THAT JUDGESHIP.

NEW YORK, March 13.—The *Herald's* Washington special says the President will soon send to the Senate the name of Judge Blatchford as Associate Justice of the Supreme Court.

MASON'S TRIAL.

WASHINGTON, March 13.—It is reported that the trial of Sergeant Mason will be declared void through irregularities in the case having been arraigned before the Court was sworn.

DEAD.

OMAHA, Neb. March. 13.—G. P. Armstrong machinist has died. The occurrence threatens greatly to complicate troubles.

A RIOT.

OMAHA, Neb., March 13.—Last night a gathering of men and boys threw brick bats at some militia officers and hit several. The soldiers charged on the crowd and several of the assailants were severely wounded with bayonets.

JUMPED THE TRACK.

PUENA VISTA, Cal., March 13.—A Denver and Rio Grande train jumped the track yesterday near Hastings. A coach went down the embankment, and the engine and tender went through the bridge. Passenger Rickie and brakeman Ford were killed, and two men and two women were injured slightly. The bridge and coach were totally destroyed.

YANKEE ENTERPRISE.

ST. LOUIS, March 13.—A newspaper here will send out a small steamer from Cairo tomorrow on a news expedition through the entire flooded districts of the lower Mississippi river.

LYNCHERS FOILED.

LINKVILLE, Oregon, March 13.—Last night a dozen masked men entered a Hotel where W. C. Lawes, charged with murder was in custody of some officers. The lynchers refused to halt, Deputy Sheriff Lewis fired, wounding one slightly. The lynchers returned the fire killing Lewis and wounding Justice Wright. They then left without taking Lawes. The excitement is intense.

Forests and Rainfall.

In alluding to the connection between forest and flood, the Providence *Journal* of a late date says that "violent floods alternating with extreme and long continued low water, each damaging to navigation and commerce, have been noticed in the Ohio valley now for some years, and with such regularity that they can no longer be ascribed to exceptional conditions. The river is more and more assuming the conditions of the Nile, or rather of those which flow through the treeless deserts of Arizona and New Mexico, which are raging torrents at one season and dry beds of sand at another. Nor is there any doubt that it is from the same cause. Whatever effect forests may have on the rainfall itself, and there is no doubt that it is very considerable, it is certain that its leaves and roots absorb and hold it in longer solution, and that instead of pouring down into the streams at once, it slowly percolates and its flow extends over days instead of hours."

NEW tomatoes are of good size and flavor, and with the "cultivated cucumber" from Boston make an excellent breakfast salad. An orange salad is likewise in order about time, the Florida fruit being abundant and delicious.

A PACIFIC Coast paper makes the alarming suggestion that the glorious climate of California is changing, the weather appearing to grow colder every winter. The present winter has no recorded parallel there, either for the low degree of temperature attained or the number of days of frost.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the exercuciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

Bucklen's Arnica Salve.

The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

KISS ME.—"TRABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

Daily Evening Review

MONDAY, MARCH 13, 1882.

A DELUSIVE BILL.

If the bill now being published in some of our contemporaries be really a true copy, as finally passed, of the bill relating to market fees, we venture to predict that before it has been twelve months in operation it will have proved itself one of the most delusive of the many delusive bills by which the Mowat Government has sought to gain a little cheap popularity.

So far as the first seven sections of the bill are concerned, they are certainly so sweeping as to lead one to the conclusion that the sooner towns like Peterborough abandoned the keeping of a market, the better, but when one comes to the eighth section, it is suddenly discovered that it is within the power of towns to repeal or at least render of non-effect all that has gone before, by passing a by-law "providing that the vendors of any articles in respect of which a market fee may, under the municipal acts, be lawfully inforced, may, without paying market fees, offer for sale and sell, or otherwise dispose of, any such articles at any place within such municipality, *excepting* only at and upon the market place or places thereof," or "upon any street immediately adjoining or surrounding, or being within one hundred yards of the market place." And upon this being done they are authorized to collect "market fees from such vendors of articles in respect of which a market fee may *now* be imposed" from such persons "as shall voluntarily use the market place or the adjoining streets for the selling of such articles."

Briefly put, the whole change effected by this wonderful act is, that those bringing produce into the towns for sale need no longer go to the market place, but if they do the towns are at full liberty to charge them the same fees as they are now doing.

And what will this wonderful boon amount to in its practical working? Take Peterborough as an example. If the council pass the by-law to which we have referred, not a farmer can offer for sale on our market, or within one hundred yards thereof, a single article without paying the very same fees as those which he has been paying for months past. True, if he likes the job and can make it profitable, he may now peddle his produce from house to house, but nothing more, because if he occupies any street in a way calculated to interfere with the ordinary traffic, or to inconvenience the ordinary public, he must either move on or render himself liable to fine. Such being the practical result of this much vaunted measure, we venture to prophesy that ninety-nine per cent. of those bringing their articles to town for sale, which are usually sold on the market, will prefer to continue to pay the present fees rather than be excluded therefrom.

It will be remembered that not many years ago, when there was an outcry against our market tolls, the village of Ashburnham tried to establish a free market, and what did it amount to? Simply nothing, and such we venture to predict will be the result upon the present occasion. Sellers will very soon find out that a common and understood place of meeting is of quite as much necessity to them as it is to buyers. Although wheat and other grains are made a parade of in this bill, we all know that the practice in Peterborough, at least, has been to allow them to be sold where the seller pleased, and that in practice the new law only applies to articles chiefly sold for local consumption, and that the destruction of the market—of a common meeting place—can only result in throwing this trade into the hands of middle men, who, if they do, and so far as our experience goes, they don't, take a toll out of the buyer, are pretty sure to take a much larger toll out of the seller than even the most avaricious of our market clerks have been in the habit of doing.

However, notwithstanding that these are our views with regard to this last and greatest effort of the Mowat Government on behalf of the farmer, we would strongly urge upon our council the inexpediency of taking any action which could even be construed as hostile to those frequenting our market. In the first place anything which is calculated to drive people away from it is certain to prove injurious to our townspeople and to the trade of the town. There is in fact a mutual benefit derivable from a market place. If it is good for the seller it is also good for the buyer, and if it is good for the buyer it is also good for the seller, and it is undesirable that any other course should be pursued than that which is likely to prove mutually advantageous. Such being the case, our opinion is that our council should pass the by-law provided for in the 8th section of the act, and continue the market in the future as in the past, with or without a revision of the present rates of toll as may seem best.

Cuban Affairs.

MADRID, March 10.—Governor-General Prendergast insists on resigning in consequence of the severity with which the Creole Liberals are blamed by the Madrid Government. The Cabinet has determined to send to Cuba Senor Concha, Senor Jovellar, or Senor Castillo, with positive instructions to show no preference to either Conservatives or the Liberals in future. A journalist's account of the state of the island is not favorable, but he declares that the Creoles and colored people are loyal to the mother country, and have hopes of reforms being granted to Cuba.

Snubbed by the Czar.

BERLIN, March 10.—According to intelligence from St. Petersburg the Czar on receiving General Skobeleff said:—"I am displeased with you. You doubtless wished to glorify Russia. Look at the results obtained. Before your speech Russia enjoyed a certain authority in Europe; now you see her forsaken. Austria is irritated, and France distant. Gladstone has his hands tied, and the Russophobist English party triumphs at finding a foundation on which to base its invectives against what it regards as the bellicose disposition and grasping tendencies of Russia."

THE SUSPENSION BRIDGE.

History of This Triumph of Engineering Skill—How it Was Done.

There is no greater or superior piece of mechanical engineering skill in existence than that exhibited in the construction of the railway Suspension bridge spanning Niagara river, connecting Canada with America, at the village of Suspension bridge two miles below Niagara Falls.

THE WORK OF BUILDING

this structure was commenced in the month of October, 1853, and completed in March 1855, shortly after which the first train passed over. It was built entirely of wood and cost $500,000. The work was under the immediate supervision of John Robeling, one of the best engineers of that day. The first wire leading to the construction of this bridge was taken across the chasm attached to a huge kite, after which a large one was drawn over, followed by a cable. Upon this cable

A LARGE IRON BASKET

was operated to and from Canada for the accommodation of the workmen and to convey material for the bridge. This basket is yet in the possession of the bridge company and hangs under the foot of the railway portion of the American side. The length of the bridge from centre to the centre of the towers is 822 feet. The height of the railway track from the rapids is 258 feet. The towers on the American side stand 38 feet above the ground, and are built several feet

IN THE SOLID ROCK.

On the Canada side they are 78 feet above, and built in a like manner. The stone used for the towers came from the Medina, N. Y. quarries. There are four cables—two supporting the railway and two the carriageway. Each of these cables is 10½ inches in diameter, with 3659 oiled wires of size No. 9 in each. The estimated aggregate.

STRENGTH OF THE CABLES

is 12,400 tons, and they are anchored many feet in the solid rock. The weight of the superstructure is 800 tons. The weight of the superstructure and maximum loads is 1250, while the stays and cables will support 7309 tons. The carriageway floor is 230 feet above the water of a stream the most turbulent of any upon the face of the globe. Three years or more ago, there was so much doubt manifested regarding

THE SAFETY OF THE BRIDGE

that it was finally condemned, the cable anchorages were uncovered and every one was found to be in as good condition as they were the day they were first placed, and to make the structure still more secure, several additional anchors were set to each cable, in the summer of 1880.

EVERY PARTICLE OF WOOD WORK WAS REMOVED,

and replaced with iron and steel, with the exception of the floorings. During the time occupied in doing this work, not one moment's detention was caused with either railway or other traffic. The work was superintended by Engineer Buck and is undoubtedly the most skillful ever accomplished. By this operation the width of the bridge was decreased about four feet, and the weight, it is strange to say, a number of tons, while

THE STRENGTH WAS ALMOST DOUBLY INCREASED.

The bridge is owned by a stock company of eastern capitalists, with W. M. G. Swan, of Albany, N. Y., as superintendent. The Great Western railway hold a 99 years' lease, and outside of this company but one other crosses it, and that is the Erie. On an average 600 cars pass over it daily, and it is an unusual occurrence to see the track unoccupied during the day.—*Buffalo Telegraph.*

EATING A BOAT'S CREW.

Shocking Case of Massacre and Cannibalism At the Fiji Islands.

The Liverpool *Post* of the 12th inst. has a report of a horrible massacre at the Fiji Islands. The victims were the crew of a boat from the labor vessel Isabel. It appears that the Isabel was on a cruise in search of laborers, and one of the islands touched was Santo Island. The Isabel lay off the island, and a boat was sent off to the shore to open negociations for recruiting workmen. While the negociations were in progress the treacherous islanders made a sudden attack on the boat's crew. The men were assailed in so sudden a manner that they were unable to offer very much resistance. Out of the whole crew but two got away, and these had narrow escapes, while one had two wounds in his head inflicted by tomahawks. It was evident the attack had been arranged previous to the landing of the unfortunate men, as all the natives joined in the affray simultaneously. They were also well armed with muskets and tomahawks. At the moment, Captain Hawkins of the Isabel, could not do anything, but some time afterwards a search party was sent from the schooner, and pushed their way to the village in the bush. The sight which here met their eyes was shocking to behold. The village was deserted, the natives leaving behind them a hand, a thigh, portions of a chest, heart and liver, without doubt the remains of the former comrades of the search party. The natives had evidently been surprised while preparing to make their last meal on the unfortunate men of the Isabel, as all the remains found had been cleaned and scraped, and ready for cooking. All the human remains found were collected and burned. There was not the slightest doubt in the minds of the searchers that the remainder of the bodies had been eaten by the Santo Island natives, who are known to be cannibals. Capt. Hawkins received the full particulars of the attack from the two who escaped, and who positively affirmed that not the slightest provocation was given to the islanders to commit the outrage. As soon as possible after the sad affair, Capt Hawkins proceeded to Fiji to report the matter to the authorities there.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis. Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

MACK'S MAGNETIC MEDICINE is a positive remedy for nervous exhaustion and all weakness of the generative organs in both sexes. See advertisement in another column.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

A Common Sight in Boston Theatres.

At one of our theatres last evening a large number of the audience witnessed with shame what is getting to be altogether too common at places of amusement. A young man of about 20 years of age, who was accompanied by a woman a little his junior, left his seat between the acts to get liquor, and shortly after returned smiling. He did so for a third time, but then returned reeling down the aisle and tumbling into the seat beside the mortified girl so drunk that he could not stand.

New Advertisements.

Cow Strayed

FROM the premises of the undersigned about the beginning of February last, A Small Four Year Old Cow, red colour, mixed with grey and white, will calve this month. Any information respecting her whereabouts will be thankfully received, and any person bringing her to the undersigned will be suitably rewarded.

To give all classes an opportunity of purchasing at the GREAT SALE, the Store will be open every morning at 7 o'clock, and will not close until 8 o'clock at night. Terms Strictly Cash!

TRADE NOTES

Two more looms are to be added to Toomey's woollen mills at Napanee, increasing the production to sixty pairs of blankets daily.

Messrs. McDougall & Co., Drummondville, Que., have commenced heating their new hot blast furnace, and expect to commence smelting by Wednesday.

Plans for a new cotton mill at Hamilton, larger than the two now there, are being prepared by Mr. Balfour, the architect of the two at present in operation.

The Ontario Metallic Spinning Co., of Woodstock, have just shipped a large lot of their barbed wire to Brazil, for the Brazilian line of steamers from Halifax.

The Montreal Cotton Company resolved at its meeting last week to issue $100,000 of new stock at par to the shareholders for the purpose of manufacturing a new line of goods never attempted here before.

Mr. W. Buck, of Brantford, manufacturer of stoves, says he had no trade whatever with the North-West previous to the N. P., but that now he cannot supply his orders for goods for that country.

Tilsonburg rejoices in a new industry recently started there—the manufacture of virified stoneware, an article heretofore manufactured in England alone. The clay used is brought from Devonshire, England, and is known as English ball clay.

Messrs McKechnie & Bertram, of the Canada Tool Works, have just received an order for the complete outfit of machinery for the new car works at Kingston. This makes the third order the firm now have on hand for new car works in Canada.

The Globe Agricultural Works Company, of London, intend building an addition to their new premises, which will give over 3,000 feet of extra floor room. The new building is to be completed in four weeks. It will be three storeys high with a mansard roof.

A new brick carriage factory is about to be built at Woodstock, Ont. The main building will be 120x60 feet, and three stories high, and the blacksmith shop 60x40 feet, and two stories high. The factory is to be completed by the 1st May next, and will give employment to about sixty hands.

Not long since seven carloads, containing 180 Maxwell reapers, mowers, and hay rakes, were shipped from Paris, consigned to Odessa, Russia. This is the largest shipment ever made to to a foreign country from Canada. It is a proof that the N. P. can do some good, and that our export trade is *not* ruined in that direction.

A boom in furniture has taken place in Oshawa lately. The Cabinet Factory has shipped about five car loads of superior goods to Winnipeg during the last two weeks. There are few empty houses in town at the present time, it being difficult to get a good one to rent. This is one of the symptoms of returning prosperity.

The N.P. has struck the town of Orillia very heavy; one effect being a perfect boom in waggons and carriages, manufactured for the North West trade. Mr. William Ramsay has secured several large contracts in this line, one being for four hundred waggons to be delivered in Winnipeg. His establishment is a perfect hive of industry.

Messrs. Killey & Co., of Hamilton, are putting into various factories no less than eight new boilers, varying in power from 15 to 90 h. p. One of 90 h. p. is for the Canada Screw Co's works at Dundas; one of 60 h. p. for the Hamilton Cotton Mills Co.; two of 40 h. p. for the Canada Life Ins. Co's building, and several others. A 70 h. p. engine is in course of construction for Brennan's Mills at Hamilton, and a 75 h. p. condensing engine for the Cotton Warp Mills at Dundas.—*Canadian Manufacturer.*

A CURIOUS CASE.

A Pennsylvania Man Annually Seized with Frightful Convulsions.

Erie, Pa. March 6.—The medical faculty of this city, and in fact of the whole country, are nonplussed over a case that defies their combined skill, and one that has no parallel in medical history. The victim of the fearful and unnatural disease is Wm. B. Ferguson, a well-to-do farmer and highly esteemed resident of Springfield township in this county. His malady attracted the attention of physicians all over the world. Mr. Ferguson has been subjected to an annual visitation of horrors that no pen can depict. About the same day in the latter part of every February he is seized with frightful convulsions, which last a few hours and continue daily, at the same hour for seven or eight days. He is at this time passing through this fearful period of anguish, and is being visited by many medical men and scientists. At whatever hour he is first seized with the convulsions they recur periodically at that time each succeeding day until the period of suffering passes. Putting a clock backward or forward makes no difference. When the exact moment arrives he is seized just as before. On Thursday a number of medical men went from this city to see him, and were eye-witnesses to one of these dreadful scenes. They arrived some hours before the time for seizure, and found Mr. Ferguson in an apparently normal condition. He chatted pleasantly with his visitors until the hour of his affliction drew near. What followed was peculiarly distressing. The wife of the farmer then entered, and with a look of intense mental suffering asked her husband if it was not time to prepare. Mr. Ferguson said it was, and that no time should be lost. The furniture was then hastily removed from the apartment and a robe spread. Upon this Mr. Ferguson seated himself, first removing his boots and unbuttoning his vest. About five minutes before an electric shock, as it were, darted through his body; he moaned as if in great pain. Suddenly, at precisely seven o'clock, there was a quick, convulsive movement, and swift as a flash of lightning the moans were instantly hushed and the man lay still and rigid as death. More shocks then passed over him, and then the limbs and body commenced to writhe, and it was in a way that not even a professional contortionist could imitate. For one hour and thirty-three minutes he lay writhing on his robe, never in the same position for five consecutive seconds. During all this fearful spell his shrieks of agony rent the air and appalled the spectators.

It is estimated that over 5,000 trees were destroyed on the Luss estates during the recent storm. A number of plantations on the shores of the Gareloch have been much thinned.

Chilblains.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

1—Farmers and Mechanics.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

Great Gain in Weight and Prolificness.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

A Good Filter.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

Shrewdness and Ability.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

MACK'S MAGNETIC MEDICINE.

Is a Sure, Prompt and Effectual Remedy for *Nervousness in ALL its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Spermatorrhœa, Seminal Weakness, and General Loss of Power.* It repairs *Nervous Waste, Rejuvenates the Jaded Intellect, Strengthens the Enfeebled Brain and Restores Surprising Tone and Vigor to the Exhausted Generative Organs.* The experience of thousands proves it an Invaluable Remedy. The Best Field FOR EMIGRANTS.

An IMMENSE AREA of RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

NONE of our departments more attractive than our DRESS GOODS. Look at the same.

PARTICULARLY we mention our MILLINERY and MANTLE showrooms, which are neatly and conveniently arranged, and stocked with full lines of Spring Goods entirely new.

A CHANGE.

On and after to-night, in conjunction with the leading merchants of the town, we will keep our place of business open until 8 p. m.

MUNRO & ALEXANDER.

Daily Evening Review

MONDAY, MARCH 13, 1882.

LOCAL AND MUNICIPAL.

Missionary Meeting.

A missionary meeting will take place to-night in the George Street Methodist Church, when addresses will be delivered by Rev. Mr. Crosby, and Dr. Jeffers, of Belleville.

Another One.

In the list of bills assented to by the lieutenant governor we omitted this one:—"An Act to establish and confirm certain astronomical bearings as the true courses of side lines in the township of Harvey."

Shipped.

Messrs. Carson & Mills, of Winnipeg, have shipped from here, seventeen head of cattle and three horses. Two more buyers are still here purchasing oxen. They are meeting with good success, although they have to go to the rear portion of the county to secure the stock.

A Curiosity.

Mr. E. B. Edwards this morning received a lettes addressed to "Mdward, tacksis collecteur toun, Peterboro'," and the contents of which reads as follows:—

"Charge Noah Laplant taxes for 2 dogs, is got 2,

A TRU FRIND.

Watch Lost.

Mr. Wm. Bellighem was at the Charlotte Street Methodist Church on Sunday evening, and on his return home he discovered that he had lost his watch. He does not know whether his pocket was picked or whether he dropt it the church or on his way home. He believes he was robbed.

Recently in Toronto.

Over 1,000 physicians and sufferers visited Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the the French army, he will be at the Huffman House, Peterborough, on the 17th of March, for five days and will have with him a supply of Spirometers for the cure of Catarrh, Bronchitis, Asthma and Lung diseases. Physicians and sufferers can try it free.

Lost and Found.

On Saturday Morning a farmer named Mann, who resides in the township of Smith, found on the Market Square a purse containing $14.27. He at once handed it to P. C. McGhee. During the afternoon a Mrs. Crowley, of Water street, informed the police that she had lost a purse containing the same amount of money as was contained in the one found, and everything being satisfactory her property was restored to her.

The Weather.

The weather continues fine and the snow is rapidly fading away. Last night was rather sharp, but to-day is fine. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes—Moderate to fresh, north-westerly to south-westerly winds Fair, slightly cooler weather to-day, with flurries of snow in some localities, followed by fine, mild weather to-morrow.

On Fire.

During the morning service at the Charlotte street Methodist church on Sunday, an incident occurred which at first created considerable alarm. The stoves on each side of the building near the entrance are surrounded by a wooden box. The stove becoming over-heated, one of the boxes took fire, and the edifice was soon filled with smoke. The Rev. Dr. Jeffers had just commenced his sermon, and notwithstanding the uneasiness of some of those present, he did not stop. Several gentlemen procured pails of water and soon extinguished the flames.

Can he be Guilty.

The Orangeville *Gazette* reproduces the letter from "Lex" which we published lately on the subject of the asserted murder of his uncle by the boy Smith. Appended is the following editorial note:—

"The above letter is clipped from the Peterborough REVIEW of Feb. 18th. It has since transpired that young Smith is not the boy who purchased the revolver, as the boy who is said to have been in the store with him at the time says: "He does not think him to be the same party who was in the store." There are several other facts come to light also, that would put even a more favourable face upon the boy's case than when this letter was written by "Lex."

Carworks.

All property owners favourable to the passage of the by-law now before the ratepayers, granting assistance to the proposed car works, are requested to attend a meeting to be held in the office of Messrs. Moore & Sawers, on Monday evening the 13th inst., at 7.30 o'clock.

A Rumpus.

Early on Saturday night some youths got into a row on George street. A large crowd soon gathered, but the early arrival of a couple of police officers soon dispersed them. A couple of black eyes are all the casualities reported up to date.

Ministerial.

The Rev. Dr. Jeffers, of Belleville, conducted services in the Charlotte and George street Methodist churches, in the morning and evening respectively. Large audiences were present on each occasion to hear this gifted and eloquent minister. The Rev. Mr. Crosby, of British Columbia, alternated with the above named gentleman.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

The Boston Opera Company.

Our readers should not neglect the opportunity again open to them through the public spirited enterprise of Mr. W. H. Cluxton, of hearing good music performed by competent artists. Of the Boston Opera Company, which is to play the comic opera "Betsy Baker" in Bradburn's Hall on Thursday evening, March 16th, the Hamilton *Spectator* says:—

"The company included Miss May Alice Vars, soprano; Miss Julia F. May, contralto; Mr. H. G. Snow, tenor, and Mr. Frederic Peakes, baritone. Miss Vars is a good singer, and gave the Sob song, from Olivette, and the serio-comic song Katie, in excellent style. Her imitation of a cornet in the Young America polka was very good. The other members of the company sang well. Miss Vars and Mr. Snow were recalled at the conclusion of the second act after singing the duet, Poor Wandering One, from the Pirates of Penzance. The song and chorus, The Torpedo and the Whale, from Olivette, was also encored. The March, from Fatinitza, with which the performance closed, was really well sung."

Railway Notes

The *Globe* says that at Toronto a meeting of the Council of the Board of Trade was held on Saturday. It was hastily called to consider some proposed amendments to Clause 19 of the charter of the Ontario and Quebec Railway, which the Dominion Parliament is about to be asked to ratify, and which will be considered by the House of Commons Railway Committee on Wednesday next. Below is given the clause in question, with the proposed amendments inserted in brackets:—

"The Company is also authorized and empowered to make the necessary arrangements, and to contract and agree with the Credit Valley Railway Company, the Great Western Railway Company, the Quebec, Montreal, and Occidental Railway, [the Toronto, Grey, and Bruce Railway Company, or with such other railway company or companies the line of which the Ontario and Quebec Railway, when constructed, may connect with, intersect, or cross, or which may be a feeder or easterly or westerly continuation of the Ontario and Quebec Railway], for amalgamation with the said Companies, or any of them, or for [the acquisition [of the charter of] or leasing of the lines thereof, or such parts of the Canada Central Railway as may, in the opinion of the Directors of the Company hereby incoporated, be made available to establish early and advantageous through connection between Toronto and Ottawa, and may also make traffic or running arrangements with any of the said Companies, and (also for a period not exceeding four years from the] date of the passing of this Act) with the Grand Junction Railway Company: provided that the terms of such amalgamation, acquisition, or lease are approved of by two-thirds of the shareholders present in person, or represented by proxy, at a special general meeting to be held for that purpose, in accordance with this Act."

At a subsequent period the following resolution was carried unanimously:—

Moved by Mr. Darling, Seconded by Mr. Worts,

"That the Council of the Board of Trade of Toronto, having had under consideration the amendment proposed to be made to clause 19 of the Ontario and Quebec Railway charter, are of the opinion that it would not be in the interests of the city of Toronto or the Province of Ontario that powers of the character now asked for in this amendment should be granted to this or any other railway company, and that a memorial setting forth these views be presented to both Houses of Parliament."

Railway surveying parties are now so thick in this vicinity that it is difficult to keep track of them. The latest move made by the Ontario and Quebec men is to survey a line about four miles south of the town. Is it a game of bluff?

POLICE COURT.

"THE ONLY ONE THAT'S LEFT."

MONDAY, March 13.—Mr. Thos. Bradburn appeared to answer a charge of "continuing the Golden Lion sign," contrary to law.

The case was enlarged for a week.

The same person was also charged with "continuing a wooden awning" in rear of Mr. J. Garvey's store.

Mr. Bradburn claimed that the awning was put up under an agreement made between the town and the late Mr. Scott.

This case was also enlarged for a week.

RESTORED TO COMPLETE HEALTH.—From Chas. E. Pearcy, of Brooks, Me.—"From early youth I was in feeble health, troubled with humor in my blood, weakness and debility of the system generally: was unable to labor much, and only at some light business, and then only with great caution. Seven years ago, the past spring, I had a severe attack of Diphtheria, which left my limbs paralized and useless, so that I was unable to walk or even sit up. Noticing the advertisement of Peruvian Syrup, I gave it a trial, and to my great joy soon found my health improving. I continued the use of the Syrup until three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present health intirely to the use of Peruvian Syrup, and hold it in high estimation. I cannot speak too strongly in its praise. I have several times recommended it in cases very similar to my own with the same good results. Sold by all druggists.

FROM ALL OVER.

OSCAR WILDE told a Chicago reporter that we eat finely in this country—far better than they do in England. There are none so æsthetic that cannot get up appetite.

THEY have a way in the South—where considerable about good eating is known—of eating fried hominy with canvas-back buck. It is an experiment epicures should all try.

SOUTHERN vegetables become more and more abundant, and correspondingly cheaper. The asparagus is particularly good; likewise the peas, which taste as fine as they look.

DINERS out who are very much opposed to wines often upset things on the table trying to be helped a second time to brandied fruits. The fact is inconsistent, but nevertheless true.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

AT the farmers' dinner, held at the Union League the other evening, they had new shad, Southdown mutton, Jersey woodcock, readhead duck and other things very seldom on a farmer's table.

A SUPERFLUITY of courses is the trouble of many modern dinner parties given by a class of suddenly made rich and anxious to be fashionable people, who have yet much to learn about the art of dining.

ABOUT 10,000 persons headed by no less than five instrumental bands, marched through Cartsherrie estate, recently, to demonstrate their right to a way past Cartsherrie House to Gartgell.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

AT the recent ball of the French cooks in this city, the French Consul, in response to a toast, made a speech in which he stated that the most powerful nations are the ones that pay most attention to gastronomy.

ON the menu card of a recent private dinner party in San Francisco were enumerated saddle of wild goat, salmi of gray goose, ham of black tail deer, and jugged hare—surely enough game for one dinner!

"OH, yes," said old Mrs. Unsophistication, "it was a real splendid dinner party. We had real British Southdown mutton from Kentucky, Roman punch imported from Italy, and real French black coffee cafe!"

IT is about time that such worthless dishes as Queen fritters, macaroni with cream, and pancakes with jelly were abolished from hotel bills of fare, under the head of entrees. In quality they are as as light as tissue paper.

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

SEVEN "Muldoons" were sent to prison for 60 days from the Easter Police Court for rioting in the Gallowgate and annoying peacably-disposed citizens. They had chalked a coffin and written "Death to Doak" under the window of a person bearing that name.

WHEN a man has to neglect his work because of rheumatism, and fails to apply the Great German Remedy, we have very little patience with him; useless of course mitigating circumstances should present themselves: For years David Ainsworth suffered with rheumatism, and notwithstanding the best medical attendance, could not find relief. He came to the Sciota County Poorhouse, and had to be carried into and out of bed on account of his helpless condition. After the failure of all the remedies which had been applied, the directors of the Poorhouse resolved to use the Great German Remedy, St. Jacobs Oil, and this was a fortunate resolution; for with the trial of one bottle the patient was already better, and when four bottles had been used upon him he could again walk about without the use of a cane. The facts, as above stated, will be verified by the editor of the Portsmouth (O.) *Cor.*

ST. JACOBS OIL

TRADE MARK.

THE GREAT GERMAN REMEDY.

FOR

RHEUMATISM,

Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,

Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

POINTS TO PONDER!

It is an enviable point in the career of a business firm when they are able to make prices below other dealers, and to make them too from a good, sound business basis.

The point is reached when a firm is no longer compelled to make a large profit on a small amount of business, but a small profit on a large amount of trade.

That is the happy position in which we stand today, It is the gross aggregate of our trade that tells the tale, and shows a mighty balance on the credit side of the ledger.

In commodious quarters, with increased facilities for serving the great mass of plain and well-to-do people, we are making a dash for the the best trade of town—that of people who value and want the best of goods.

Our terms to Millionaires and Mechanics are alike, and there is just one plainly marked price for every article.

While we propose to give a dollar's value for one dollar, we shall be pleased to deal most liberally with large buyers. Large buyers know this, and are increasing their orders every day.

We submit the above definitions of our position.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "Kendall's Spavin Cure has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

New Zealand, *via* San Francisco:—Letters, 15 cents papers, 4 cents. H. C. ROGERS, Postmaster.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1½ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

TUESDAY, MARCH 14, 1882.

A RED HOT BOOM.

Winnipeg Indulges in a $100,000 Blaze—The Full Particulars.

Special to the Review.

WINNIPEG, March 14.—The city was visited at an early hour yesterday morning by a disastrous conflagration, which threatened at one time to destroy the greater portion of the place. The fire originated in McEnuery & Curran's grocery on Main street, a building which was put up in 1871 and was then the only building between Portage-avenue and the fort. The fire might have been extinguished in a few minutes, but owing to the slowness of the firemen and a frozen tank the flames soon spread rapidly.

THE SPREAD.

Soon the flames burst forth in Halle & Co's confectionery shop, and from there rapidly spread until the walls of the Montreal Bank were reached, having swept down no less than ten stores in their wild career. On seeing it was impossible to save the block all hands at once started to

EMPTY THE STORES

of their contents. Commencing at the end nearest the fire the goods were placed in the centre of the road, but as the heat grew more intense had to be moved further away. Salvage corps and assistants emptied store after store, but their efforts were kept pace with by the flames, which burst round the corner of the bank and over the roof, and it was the stability of the walls, and nothing else, which put an end to the devastating element's terrific work. The wind was not blowing very hard at the time, which was very fortunate, as otherwise there is no doubt that a number of rookeries at the rear of the burnt stores would have added fuel to the flames.

THE SUBDUING OF THE FIRE.

The fire was stayed on the north side by the brick building of the Bank of Montreal, and on the south by a gap created by the removal of frame houses; otherwise the Ottawa Hotel and *Sun* office would have succumbed and the gap have extended to the Ontario Bank.

DEFECTIVE WATER SUPPLY.

The supply of water gave out twice. The fire appliances and water supply are so defective that the whole city may be swept away should a fire start in a high gale.

THE BURNED BUILDINGS.

The buildings destroyed were all frame, mostly of two storeys, a couple being veneered with brick. The only buildings on that front of the block built of a more substantial material were the bank of Montreal, of brick, three storeys in height; the Ontario bank, brick, three storeys; and a portion of Bishop & Shelton's furniture factory, also of brick and three storeys in heighth.

THE FIGHTING APPLIANCES.

The fire protection of the city embraces two steam fire engines, twelve tanks, with a capacity of 28,000 gallons each, and one tank of 40,000 gallons, with 4,000 feet of hose. If, as is thought, the tanks were frozen up by the recent severe cold snap, the locality of the fire is not more than 1,200 feet from the Red River, which should have given an ample supply of water.

THE CAUSE OF THE FIRE

was a defective flue in the grocery store where it started. Two of Taylor's fireproof safes containing a number of valuable books and papers and about $150,000 were taken out of the ruins, and the contents found to be thoroughly preserved and intact.

THE LOSSES.

will foot up to about $100,000, with following insurance:—N. B. Zinkan & Co. (boots and shoes) had $2,500 in the British American Company and $2,500 in the Hartford. McLenahan had $1,000 on building. D. McArthur, as trustee of building known as Caldwill's old drug store, had $800 in the Phœnix. G. J. Hargreave (grocer) had $10,000 in the Phœnix on building. J. A. Brooks, $2,000 in the Western. Hunter (grocer), $1,000 on stock in the Western. A. S. Empey (gents' furnishings), $1,000 in the Queen's. J. Adams, $2,000 in the same company. E. H. Taafe (dry goods), $1,000 in the Phœnix, of Brooklyn, N. Y.

Other sufferers are:—McEnuary & Curran, grocers, whose loss is very heavy: Laurie (printing office), M. H. Halle (confectionery), Nixon & Best (photographers), W. McFarlane (shoemaker), Mrs. Wolf (milliner), and Mr. Whiteman.

MIDNIGHT TELEGRAMS

CABLE.

A SOLEMN ANNIVERSARY.

ST. PETERSBURG, March 13.—An enormous crowd gathered in the neighborhood of the memorial chapel during the service to-day in memory of the late assassinated Emperor. The Emperor and Empress arrived to-day from Gatschina. They drove to and from the chapel alone and without escort. They were received by the people with every sign of respect and reverence.

AUSTRIA AND BOSNIA.

VIENNA, 13.—The Austrian Government is about to convoke a special session to demand further credit for expenses to carry on the war in Bosnia.

THE CLOTURE.

LONDON, March 13.—Mr. Gladstone has refused the request of a section of the Liberal party to modify his cloture proposals.

GEN. SKOBELEFF'S ARREST.

LONDON, March 13.—The reports from Berlin that Gen. Skobeleff has been arrested by order of the Czar for his recent speeches, and confined in the fortress of Wilna, are considered doubtful here.

OUR QUEEN.

LONDON, March 13.—The *Gazette* says that the Queen has written to the Secretary of State for the Home department that she wishes, before she leaves England, to express from her heart, how very deeply she is touched by the outburst of enthusiastic loyalty, affection, and devotion which the painful event of the 2nd inst. called forth from all classes and from all parts of her vast empire, as well as by the universal sympathy evinced by the sovereigns and people of other nations. The Queen cannot sufficiently express how deeply she is gratified by these demonstrations. She wishes to convey to all, from the highest to the humblest, her warmest and her most heartfelt thanks. The Queen says it has ever been her greatest object to do all she can for her subjects, to uphold the honor and glory of her dear county, as well as to promote the prosperity and happiness of thore over whom she has reigned so long. These efforts will be continued unceasingly to the last hour of her life. The Queen thanks God that He has spared her beoved child, who is her constant and devoted companion, and those who were with her in the moment of danger, as well as herself. She prays he will continue to protect her for her people's sake, as he hitherto has so visibly protected her.

MURDER APPROVED OF.

LONDON, March 14.—At a meeting of the Social Democratic Club of London, to commemorate what they designated the glorious execution of Czar Alexander the Second, resolutions were passed thanking those who accomplished the deed.

THE TRANSVAAL.

LONDON, March 13.—A despatch from Pietermaritzburg says the Boers have succeeded in quieting the disturbances on the frontier.

A PAPAL OBJECTION.

ROME, March 13.—The Pope has expressed his objections to the proposed visit of the Emperor of Austria to the King of Italy, if it is to take place at Rome.

LAMSON'S TRIAL.

LONDON, March 13.—Mr Montague Williams, the counsel for the defence in the trial of Dr. Lamson to-day, said he should put two proposition before the jury. First whether the deceased died from the effects of aconite; and second, whether the poison was wilfully administered by Dr. Lamson. He declared no proof existed that would enable the jury to decide either affirmatively.

IRISH INDEPENDENCE.

LONDON, March 13.—At a meeting of the Irish parliamentary party this evening, it was determined to follow Irish national Independence associations, and proclaim Ireland's inalienable right of self-government.

COAL MINE EXPLOSION.

MADRID, March 13.—Six persons were killed by the explosion of fire damp in the coal mines at Belmes.

NEW GREEK MINISTRY.

ATHENS, March 13.—Tricoupis has been entrusted with the formation of a new Ministry.

AMERICAN.

MATTERS MENDING.

KILLARNEY, March 13.—It is believed matters are rapidly mending in Ireland. Numbers of the tenants are coming forward to claim the advantages of the Land Act.

THE JEANNETTE SEARCH.

WASHINGTON, March 13.—James Gordon Bennett informed Harbor that Melville started from Jakutak on January 13th with three parties, headed by Ninderman, Bartlett, and himself, and that they would be on the ground by March. All that Harbor could do, therefore, was to conduct the supplementary search for Chipp in the steamer Lena after the river opens in May or June, by which time Melville will doubtless have found DeLong.

GUITEAU'S CASE.

WASHINGTON, March 13.—During the week days Guiteau is still overrun with visitors. He has done a thriving business selling his picture and autograph, and saved considerable money. He refused an offer of $100 for the suit he wore when he shot the President. He is of opinion that Mason has been served just right.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

1—FREE OF COST.—All persons wishing to test the merits of a great remedy—one that will positively cure Consumption, Coughs, Colds, Asthma, Bronchitis, or any affection of the Throat or Lungs—are requested to call at Taylor and Macdonald's Drug Store and get a trial bottle of Dr. King's New Discovery for Consumption, *free of cost*, which will show you what a regular dollar-size bottle will do.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

COLLIERY DISASTER.

DURHAM, March 14.—A shaft of the Lumley colliery has fallen in. A hundred and fifty miners are imprisoned. There are but faint hopes for their recovery.

VICTORIA GOES.

LONDON, March 14.—The Queen started for Mentone this morning.

EMPEROR AND ADVISER.

BERLIN, March 14.—The Emperor spoke for a long time with Bismarck on Sunday.

SHIP ASHORE.

LONDON, March 14.—Flores advices state that the Italian barque Severs, from Aberdeen for Pensacola, went ashore and is a total loss. Six of the crew were drowned, including Capt. Profum.

FEARS OF A FLOOD.

CAIRO, March 14.—Recently the water here rose 51 feet 10½ inches. To avert an inundation and the distruction of the city, 3,000 men worked 24 hours and built a bulk head of earth and planks two feet high on the top of the levee. Five hundred men are now employed day and night to guard and strengthen the levees at an expense of $35,000.

NEARING THE END.

LONDON, March 14.—The argument in the defence of Dr. Lamson is concluded, and Justice Hawkins is now summing up.

FOR OARSMEN.

LONDON, March 14.—The *Sportman* has offered a new Championship cup with a hundred pounds added to the winner of the sweep stakes race on the Thames, on June 19th or 20th.

TROUBLED ERIN.

DUBLIN, March 14.—A man named Warner was dragged from his house in the northern part of the county of Kerry, and dangerously shot.

AMERICAN.

EVERY BODY'S "UNCLES."

NEW YORK, March, 14.—Two pawnbrokers assigned here yesterday.

HE DOUBTS IT.

NEW YORK, MARCH 14.—The Consul of Guatemala doubts the accuracy of the report of the earthquake at Costa Rica.

BURNED TO DEATH.

NORWAY, Me., March 14.—W. Ward's house was burned at midnight. Nellie Pingre, aged 91, perished in the flames.

JAY'S "PILE."

NEW YORK, March 14.—It is stated that Jay Gould displayed to some friends yesterday $23,000,000 of Western Union, $12,000,000 of Missouri Pacific, and $18,000,000 of Wabash and Elevated Railway stocks, of all of which he is the owner.

AT LAST.

NEW YORK, March 14.—It is stated that Blatchford will accept the appointment to the U. S. Supreme Court.

NO PEACHES.

KINGSTON, N.Y., March 14.—It is stated that there has not yet been a single live peach blossom bud found near here. The same condition exists all along the river. In the southern river towns the prospect is the same. The estimated number of trees now growing in the southern Ulster section alone is ten millions.

DEAR DOLLARS.

NEW YORK, March 14.—A silver half dollar, issued from the mint of the Confederate States, at New Orleans in 1861, was sold here yesterday for $870. It is said to be one of four. It is stated that Jeff. Davis had one of them at the time of his capture.

GARFIELD'S MONUMENT.

NEW YORK, March 14.—The Committee of the Garfield monument fund have received from Henry G. Burleigh the full quota of Washington County, and from Wm. H. Robertson $419 towards the $1,000 assessed to West Chester County.

THE RIOTS.

OMAHA, Neb., March 14.—Yesterday an excited crowd pressed the militia. The soldiers used their clubbed muskets freely with effect. The meeting was sullen and angry. The troops were firm and resolute, more than once levelling their pieces, which drove the crowd back. The officers were very careful of life, and were cool and steady. The workingmen's committee have been taking means to prevent starvation in consequence of the week's idleness.

TRAIN WRECKERS AT WORK.

FORT WORTH, Texas, March 14.—A band of train wreckers are operating in this state. A rail was moved from the Colorado and Santa Fe track, 50 miles south, on a high bank. An express train going 25 miles an hour passed over the ties all right, striking the front of the removed rail. The wreckers also attempted to wreck a train on the Texas Central, near Bulmer. Efforts are being made to detect them.

A THREATENED FLOOD.

CAIRO, Ill. March. 14.—The water inside of the cove is within four inches of overflowing every street and side walk in the City. It has stopped the business activity of the place almost completely. The levees here which are seven miles in length were built with a stand and rise of 51 feet 4 inches.

PREVENTING POLYGAMY.

NEW YORK, March 14.—The *Herald's* special says that Congressman Carlisle, says that the Democrats wish to amend the anti-polygamy bill so as to provide that any person convicted of polygamy, bigamy or other offences created by the act shall be disqualified from voting or holding office. With such power conferred on an election board as provided for by this act the board would be despotic. The bill breaks up county and precinct organization in many parts of the territory by vacating the office of probate Judge, Recorder, clerk, etc, in every case where such officers are even charged with polygamy or bigamy. The bill provides for no method of ascertaining whether the officer is a polygamist or bigamist, and no provision is made for filling any of the county or precinct offices made vacant by the bill. The result will necessarily be the greatest confusion throughout the territory. We intend to oppose the passing of the bill in its present shape and will continue our opposition until we have an opportunity to discuss, it and have our amendments read.

Daily Evening Review

TUESDAY, MARCH 14, 1882.

ONTARIO LEGISLATURE.

THE laborers of the Provincial Legislature for the last eight weeks were brought to an end on Friday by the Lieutenant-Governor proroguing the assembly after the royal assent had been given to the measures passed.

The session has been a busy and not unimportant one, but the House was occupied not so much in legislation as in attacks upon the Dominion Government by Mr. Mowat and his colleagues, with a view of aiding their friends at Ottawa in the event of a general election.

The speech placed in the mouth of the Lieutenant-Governor was itself a piece of special pleading in their behalf. Mr. Hay, in his semi-official position as mover of the address, struck the same key note in his attack on the National Policy. This, however, proved an unfortunate attempt for the "party," as it enabled many of the members to speak conclusively of the benefit that thecountry had derived, none being stronger in his praises than Mr. Neelon, who thought a staunch Reformer could not go with his friends in preferring party to country.

On the boundary question an even worse animus was displayed. Mr. Mowat did much to forfeit the respect of the House, first by denying that the Dominion authorities were willing to make arrangement for the provisional management of the district in dispute, though he afterwards had to admit his incorrectness, and secondly by his suppressing an important despatch from Ottawa, while pretending to bring down the whole correspondence. He and his colleagues then tried to inflame the passions of the assembly thus wilfully left in ignorance, even to the extent of uttering scarcely veiled threats of civil war. This policy was embodied in a series of resolutions which were passed by a subservient majority, though Mr. Meredith placed on record other resolutions showing that the Conservatives now, as at any time since 1872, were anxious to have a definitive settlement of the question by a competent court, while the Reformers had either neglected to take the proper steps, or had even placed obstacles in the way of a settlement.

Another point of attack was as to the power of disallowance, though it had been so carefully retained by the Reform leaders in unison with the Conservatives at the time of establishing the confederation, and they had since made use of it, when they judged fit. The Rivers and Streams Bill, to tranfer private property, now in legislation, to a supporter of Mr. Mowat, was accordingly re-enacted.

The establishment of a Bureau of Industry may be found useful if Mr. Hardy is not allowed access to the reports with his scissors to mutitate them as he did the report of one of his own officers for supplying the information now sought.

The acts to provide for free libraries and to establish a Provincial Board of Health are calculated to be of service.

Apparently wishing to please all their supporters, the Government has tinkered at the Market Fees Bill, till, as we have already shown, it will be of iittle service to the farmers, while tending to a fruitful cup of disputes.

The act as to the crossing of railways by streets, &c., is unfair to the municipalities in the interests of the railway friends of the administration.

The act relating to the Agricultural and Arts Association has also been amended in accordance with the request of the association, and henceforth the board for the management of its affairs will be limited to the members elected by the agricultural societies. They have also been authorized to dispense with the holding of annual exhibitions whenever they may deem it expedient so to do.

The other public arts consist of comparatively unimportant amendments or extensions of previous legislation.

There was fully the usual quantity of private acts, but we have already noticed those of special local interest.

It will thus be seen that the actual legislation is not very startling in its probable effects, and that the principal object of the House, under Mr. Mowat's lead, seems to have been to act as a great election committee in behalf of the Dominion opposition. In this regard we believe they have done more harm than good to the cause of their friends, by their ill-judged, shifty and violent language and actions.

The Women's Address to the Queen.

A year or so ago an address the Queen "from the women of Canada," was circulated in the principal cities and towns of the Dominion, and the signatures of many of the prominent ladies were obtained. It has often been asked since, what has become of the address? The following extract from the Montreal *Star* of the 8th inst, will explain:—"The address which the women of Canada are to present to Her Majesty the Queen, is at last complete, and was yesterday placed on exhibition at Dawson's bookstore. The address is in a book handsomely bound in red morrocco leather, and with gilt edges, The book is 19¾ inches long, by 14 inches wide and 4¼ inches deep. The title page of the volume and the address itself are beautifully illuminated. It is the work of Mr. J. Hawkesley. On the title page the title is surrounded by an oval wreath of flowers, resting on which are the coats of arms of the eight Provinces of the Dominion. The border around the address is a handsome piece of well executed floral illumination, conspicuous in it being the maple leaf and the rose. The papers on which the signatures were collected in four colums are pasted on the card-board pages of the book. Some 50,000 signatures were collected, and every province is represented. Among the signatures are those of the wives of Lieutenant-Governors, Premiers, Senators, etc. There are also signatures of the elder girls of the blind institutions of Quebec and Ontario, and of the Indian women of Caughnawaga, Oka and Lorette."

THE car wheel foundry at the corner of Cherry and Front streets, Toronto, after being shut up for several years, is again in full operation.

AGRICULTURAL INTERESTS.

Dr. Orton's Committee in Session—The Twenty Questions to be Asked.

OTTAWA, March. 11.—Dr. Orton's select committee appointed to inquire into the effect of the tariff on our agricultural interests met to-day and agreed upon a set of twenty questions to be forwarded to six leading men interested in agriculture in each constituency. Six copies are to be given to each members to forward. The following are the questions:

Would it be in the interest of agricultural interests in Canada to admit American produce free of duty?

What would have been the effect of the imposition of a duty on Indian corn and other coarse grains upon the price of coarse grains in your section of the country?

Specify as to oats, rye, corn, barley and peas separately.

What has been the effect upon the price of wheat and flour produced by the duties imposed upon these articles coming from the United States?

Specify the effect upon the different classes of spring and fall wheat.

In case of a short crop in Canada, and an abundant one in the United States, will the effect of the duty imposed upon foreign grain be to increase the price in the Canadian market?

What has been the effect of the increased duties on hogs, dried hams, bacon and lard upon the average price of these articles in the Canadian market?

Have the increased duties imposed upon horses and other live stock improved the market price by giving the Canadian the home market, especially Manitoba and the Northwest?

Can the Canadian farmer raise profitably all the grain required to fatten his stock, or will it pay better to import American corn?

Is the market for vegetables, poultry, eggs and butter, improved through the effect of the National Policy?

Would Canadian farmers be benefitted by a reciprocity treaty with the United States? If so are we in a better position to negociate such a tariff with the present tariff or when American farm products were admitted duty free?

What is the effect of the tariff on the price of wool?

What effect, if any, has the tariff upon the cultivation of flax, tobacco and sugar beets?

Is the cost of farm implements increased or decreased under the present tariff, and is the quality as good? Specify articles.

Are woollens, cottons and hardware in common use among farmers increased in price by the tariff? If so, specify article or articles.

Has the home market for farm produce been on the whole increased and improved by the operation of the tariff?

Has the National Policy, by giving diversity of employment and other encouragement to our various industries, restricted emigration to the United States?

Is the general condition of the laboring classes improved under the operation of the tariff?

Has the operation of the tariff increased the rate of interest on farm securities?

Is there an increased tendency for the investment of capital in farm property under the present tariff?

Is the general condition of the farming class improved since 1878?

What changes, if any in legislation are required to make agriculture a more desirable and profitable occupation?

A BOLD BIGAMIST.

He Acknowledges Both English and Canadian Wives.

CHICAGO, March 10.—Among the prisoners at the Armory last night was a young Englishman named Charles E. Robinson, who was arrested while at work yesterday afternoon in Phelps, Dodge & Palmer's boot and shoe factory on Madison street. He was known to his employers as Charles E. Linden, but his wife, Mary Ann Robinson, whom he deserted, says that it is an assumed name, and that he is guilty of bigamy. Mrs. Robinson says he married her five years ago in Birmingham, England, and fourteen months ago ran away. From letters which her renegade husband wrote to his brother she got an inkling of his whereabouts, and followed him here to find that he had married again, and was living at No. 78 Lytle st., with another wife. Mrs. Robinson consulted with her friends, with whom she is stopping at No. 390 Ogden avenue, and the result was a conference with the truant Charles. He refused to abandon his present wife, admitting his marriage with her, and the result was his arrest. Robinson admits that Linden is not his right name, and that he adopted it with a view of eluding pursuit of his original wife, who had made it too hot for him in the four years of his married life with her. He came to this city a year ago, secured work in Phelps, Dodge & Palmer's factory, and there formed the acquaintance of a Canadian woman of 21 years, named Martinbold. The acquaintance led to a marriage, which was consummated in October. He says he will go to the penitentiary rather than go back to his English wife, who, he claims, made his life miserable in the few years he did live with her.

CANADIAN TWEEDS.

THE last issue of the *Monetary Times* contains the following pleasing remarks with regard to what is being accomplished by our mills, in this line:—

"The improved quality and finish of Canadian tweeds and other dress woollens is a matter of congratulation. In pattern, and in quality of material used, our tweeds have long been creditable, but defects lurked in the scouring, the shearing and sometimes in the color; to-day these are largely remedied. The progress made has been perceptible year by year at the Exhibitions, until bright clear colors have now been secured, cleanness and softness of finish attained, so that it is difficult for even an expert to tell Canadian tweeds from Scotch. It has been recognized, besides, by our prominent makers that art, as well as science, had to do with the production of perfect materials; that a designer of patterns must not only have skill with the pencil or brush in the grouping of mathematical forms, but that he must have an artist's taste in the harmonizing of tints; furthermore, that the dyer in a woollen-mill must be an expert chemist to perceive the effect of substances upon each other, and so combine permanency of color with durability and purity of cloth. Therefore our manufacturers have begun to provide themselves with first class designers and with thorough chemists in the dyeing department, with the result we have stated. A good deal of color characterizes tweeds, this spring's styles. Patterns are small, checks and close mixtures mostly, but as if to correspond with the mode of ladies' dress goods, the small checks abound in color. A circumstance which illustrates an improved condition of affairs among the masses is the general demand for a better quality of clothing stuffs. Where in 1877 or 1878 the prevailing orders were for home made tweeds at 45c to $1.25, the cheap tweeds are this season neglected while the bulk of orders in this line run from $1.00 for domestic, to as high as $1.90 for fine British goods.

BELLEVILLE.

SENSATIONAL RUMOR.—The *Intelligencer* says that not a little excitement was caused in town by the report that a woman recently buried at the Cemetery had suddenly come to life and burst the barriers of the tomb. By being many times repeated, the details of the story became amazing in their character, and the incident almost assumed the importance of a miraculous resurrection from the grave. One grave and reverend signor was overheard this morning on the street excitedly relating to two open-mouthed and saucer-eyed companions how the woman in question had been buried alive and had suddenly "come to" in the grave, and, by one tremendous effort, had burst the lid of the coffin, forced upwards the mass of incumbent earth, and issued once more into the outer world. As is usual in such cases, there is some ground for these exaggerated rumors. On Monday last, Mrs. Brown, wife of Mr. Harvey Brown, a G. T. R. employee, died from pleuro-pneumonia, which had been aggravated by her recent confinement. Her funeral took place on Wednesday, and the body was placed in the vault. A neighbor, Mr. Lucas, thought, from the appearance of the face, that Mrs. Brown might not be dead, and on the day following the funeral went to the cemetery, entered the vault, and looked at the corpse. The face was still flushed, and he says that he could distinctly see the color come and go. He did not, however, think it advisable to say anything about the matter. Last evening Mr. Burton, caretaker at the cemetery, entered the vault and looked through the glass top of the coffin which contained the body of Mrs. Brown, he saw, or fancied he saw, the same phenomenon which had startled Mr. Lucas. He at once despatch-messengers to Dr. Wilson, (who had attended Mrs. Brown during her last illness), to Mr. Fox, the father of the deceased, and to the police station. Dr. Wilson went up to the cemetery immediately, arriving there shortly before Sergt. McCrudder and Mr. Fox. An examination was made of the corpse, and various tests were tried by the doctor, but he found no life in the body. The "flushing" which had been noticed in the face of the deceased was nothing more than natural discoloration after death, which, in rare instances, comes and goes like a natural flush in a living person. It will be remembered that a similar phenomenon occurred here two or three years ago in the case of Miss Mary Merrill, and caused a great deal of excitement in the city and not a little squabbling among the physicians. Dr. Wilson informed an *Intelligencer* reporter this morning that there could be no doubt as to Mrs. Brown's death before the body was placed in the vault, because discoloration had already set in in the back.

NORTH MONAGHAN.

From our own Correspondent.

HONOR ROLL.—The following is the honor roll of School Section No. 1, North Monaghan, for the month of February, J. H. Stevenson, teacher:—

FOURTH CLASS.—1st Lizzie Huston, 2nd Edie Huston, 3rd Maddie Davidson.

THIRD CLASS.—1st George Payne, 2nd Albert Barnard, 3rd Richard Payne.

SECOND CLASS.—1st Priscilla Payne, 2nd Minnie Huston, 3rd Kitty Fowler, 4th Bella Lillico.

FIRST CLASS, sr.—1st Geraldine Davidson, 2nd Christena Douglas.

FIRST CLASS, jr.—1st Minnie Lillico, 2nd Bruce Fowler, 3rd Albert Walton, 4th Ellie Patten.

COBOURG.

THE LATE ACCIDENT.—Miss Katie Connolly, who received a broken leg while alighting from a buggy at Grafton some time ago, lies at present in a precarious condition at the residence of Mr. Patrick McKenney in that village.

HANDY.—An old farmer was in town on Saturday, and on noticing the telephone wires on the top of some of the houses inquired what they were. On being told what purpose they served, he said how handy it would be if he could have one running from his house to the field to inform the men when to come to their meals.

MACK'S MAGNETIC MEDICINE is a positive remedy for nervous exhaustion and all weakness of the generative organs in both sexes. See advertisement in another column.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

If your horse has a spavin, use Kendall's Spavin Cure. See advertisement.

Attention! every one. Have you heard of Kendall's Spavin Cure? See advertisement.

Have you a lame horse? Call for Kendall's Spavin Cure. Read advertisement.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

New Advertisements.

Cow Strayed

FROM the premises of the undersigned about the beginning of February last, A Small Four Year Old Cow, red colour, mixed with grey and white, will calve this month. Any information respecting her whereabouts will be thankfully received, and any person bringing her to the undersigned will be suitably rewarded.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

The Best Field FOR EMIGRANTS.

An IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, i now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co, in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

HENRY, JOHNSONS & LORD, PROPS., MONTREAL.

LINES TO MR. KENNEDY

ON HIS FAREWELL NIGHT IN PETERBOROUGH.

Where'er the name of Kennedy on placard large appear,
"Weel, are ye gaun to hear him, man?" ilk ane I meet does spier.
I ne'er hae missed to hear him yet, an' gie weel pleased I was,
His guid braid Scottish stories gared me rak ma vera jaws.

An' O the songs he sings, man; losh, they set me fidgen fain,
For they mind me o' the time when I began to gang ma lane,
Ah' the way that he explains them—its sae lauchable and droll,
An' he sings them wi' sic touchen strain, true pathos of his soul.

When he sings them in fare Lunnen toon, how the Cockneys laugh wi' glee
When he sings them in Auld Scotia, muckle pleasure they weel gie;
But when he comes to Canada to sing the Auld Scotch sangs,
Why man the Scotch gangs fairla daft, an' crowds the house in thrangs.

It' no just the auld songs theirsels that gars the Scotch gang ghyte,
It's your true natural music power, with Doric accents right;
I maunna gie you a' the praise, ilk ane deserves their farens,
The sangs of Scotia, love an' war, is sung weel by your bairns.

Upon your bills a word I see, guid save us, is it true?
"Fareweel," ye say to Canada, to brither Scots adieu,
An' are ye gaun to leave us, man, back to your hame sae fair;
It grieves us sair to think that we weel hear you sing nae mair.

If you do safely cross the sea, an' land on Scotia's shore,
Cast back your thoughts to Canada, where Scots your name adore;
The auld Scotch songs that you have sung while you were with us here
Leave a fresh impress on each heart that loves Auld Scotia dear.

An' when auld Keekie's streets you pace, I hope you won't forget
The sympathetic Scots which you in Peterborough met;
Though now you bid us all adieu, an' cross the raging main,
The name, the fame of Kennedy, unrivalled here remain.

I ken we canna keep you here, it's needless us to try,
With love deep mingled with regret, we kindly say "Good bye;"
We say it to your wife and bairds, no passing by yersel,
Wishing you safe on Scotia's shore, dear brither Scot, Farewell.

WM. TELFORD.

Smith, March 13th, 1882.

O'GRADY TO THE REVIEW.

DEAR REVIEW,—I have not sint you anything lately, so I jist thought I would sit me down to-night and give ye a line, but plase excuse a short letter this time, as I am in a hurry.

In the first place His Royal Highness is, I belave, getting more obnoxious every day, but he still claims to be closely related to the Governor-General. He is making spiculations through the countrie at present on floating papers—you know what I mane,—and begorra he is doing a big business at the same thing, because when you ask him to collect anything for ye he is sure to get it and kape it safe for ye too, for fear ye might be timpted to spind it ye know. He came down the other day, and what do ye think, he darkened up the village so bad with his black visage that our Vennor prophesied a snow storm, but when he found out the rason of course he said he was fooled intirely, it must be some collusion of the planets.

We had Coort here the other day, and faith some of the boys got coorted too. I feel to-night in a pretty good timper, and I think I will give it ye in verse. Ye must know I am a bit of a poet when it strikes me bad. Well:—

There was Hannah and Daniel for Cedar you know,
And Dan has to pay fifty for his little show,
But Hannah won't git it till Dan goes below.
Michael and Patsy, they too had a row—
But theirs was aboot an old brindled cow;
So Mic's to pay forty for his share of bafe,
And it serves him well right the nasty old thafe.
Poor Patsy stood up as pale as a ghost
At thinking he'd not got the bafe for to roast.
If a certin man comes up and sues for his grey,
Mr. Patsy will surely fall short of his pay,
As Tom has got hold of the whole of his hay,
And Paddy is drawing it ivery day.
There was Thomas and James had a case on for traes,
James he was perfectly quiet and at ase,
For Thomas of course had to pay up the faes,
And shure he stood there as calm as ye plase.
The viry next case that came on the roll
Was twixt Bill and the Miller that takes in the toll.
'Twas very soon settled when Jimmy did spake,
As Billy did not put the logs on the crake.
Jack and the Prince was the next case on hand,
And Jack was the man to have cash on demand;
But some men in the Coort as black as the night,
Can pick up all notes and swear they are right.
This was the very last case on the docket,
As the Prince put his hand in another boy's pocket.
He pockets these monies and ne'er pays what he owes,
And this is his fashion wherever he goes,
So now dear REVIEW, I'll go on with the prose.

Billy got so lonesome after his girl that he wint down to see her, and he didn't bring her back wid him either, but I suppose now 'tis out of sight out of mind wid both of 'em. Tommy don't look a bit mad now at all.

Game Leg is gitting around as fast as his leg will carry him, though he near got busted the other day. Some of the boys came down and had a bit of a spree, and paid their way in the shape of doors. They intend to take the same home wid them some night by way of consolation.

We have a nice, charming little crature here now from town. She can do most anything from playing on the piano to coorting the boys. Wal, is the best favored one at prisint.

Arthur is coddling around as usual, and the big feller is still nursing the baby. Noah's ark niver recovered from the collision with the ram. Jim was on the rampage and was going around like a big Tom cat, when he had a suspicion there was a doorg around with his back up, but he is very mild now, as he kapes the kay.

I am sorry indade to have troubled ye wid so much rubbish, my dear REVIEW, but I hope to write to ye again soon, whin I don't feel so sleepy, and then I will give ye full particulars of iverything short and to the pint, but don't forget, I will always be your own

YOUNG DAN. O'GRADY.

Apsley, March 6th, 1882.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

FROM ALL OVER.

JAMES GORDON BENNET is probably the heaviest taxpaying editor in America, being set down in the tax list for $1,200,000. Robert Bonner follows with $900,000.

Boy, what ails the horse? It needs Kendall's Spavin Cure. See their advertisement.

A GOVERNMENT investigation reveals the fact that the locomotives used on the Russian frontier are constructed with a secret compartment for the storage of smuggled goods.

THE Lewiston, Me., Journal says it is authorized to announce that Annie Louise Cary will be married in the early autumn, and that she will not thereafter sing in public.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

THE coffin in which David Navare "the fat boy," was buried at Pittsburg on Tuesday, was 6 feet 8 inches long, 3 feet wide, and 2 feet 2 inches deep. His weight was about 700 pounds.

THE New York *Sun* says that during last year that city expended about $4,000,000 for the education of children and about $60,000,000 for drinks. There were 9,215 places in the city where liquor was sold.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

THE Princess of Wales is very fond of making up her own bonnets. She will purchase half a dozen bonnets from as many different modistes and remodel every one of them before she will consent to wear them.

GLADSTONE'S father used to say his son William would "ruin his country and die in a madhouse." The old baronet left him a handsome fortune of $500,000, most of which has been lost in disastrous mining investments.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

THE committee having in charge the fund for a monument to the late Earl of Beaconsfield report a surplus of $10,000 and are in doubt what to do with it. The case is unprecedented in the history of monument building.

SPUYTEN DUYVIL, the scene of the late railroad disaster on the Hudson, means "in spite of the devil," and according to the rules of the Dutch language to which the words belong they should be pronounced Spoyten Doyvil.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

THE new "Encyclopædia Britannica" makes the remarkable statement that "the belief in the appearance of ghosts is now more widely spread and more firmly held among the educated classes than it has been for centuries."

THE manuscript of Dickens' "Christmas Carol" is now in the hands of a Birmingham bookseller, who offers it for sale. All Dickens's other manuscripts are at South Kensington, except that of "Our mutual friend," which is in the United States.

1—FARMERS AND MECHANICS.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

PROFS. CHURCH, Emerson, and Woodberry have been dismissed from the faculty of the Nebraska state university because of a row over the question of introducing the dicipline and methods of Harvard, where they were educated, They say that Chancellor Fairfield is an old fogy.

THE death is announced, at the age of 88, of the Dowager Countess of Essex, who sixty or seventy years ago, as Miss Stephens, was one of the most popular singers and actresses on the London stage, She was the favorite heroine of Bishop's opera, and in "Clari; or, the maid of Milan," she sang for the first time in England, Payne's "Home sweet home."

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

INDICTMENTS have been found against eight persons charged with having contributed by their negligence to the catastrophe at the Ring theatre. The number of witnesses summoned is 226. The trial will begin on May 2, and will probably last three weeks. Among the accused are Herr Newald, the ex-burgomaster of Vienna; Herr Janner, the manager of the theatre; and Herr Landsteiner, the chief commissary of police, who was on duty at the theatre on the night of the fire.

Mr. C. L. Divine, Superintendent of the composing and printing department of the Indianapolis, Ind., *Journal* values the great remedy beyond all curative agents. He has been subject to rheumatism of a very painful character, and has passed many sleepless nights while enduring the agony of it. Physicians have prescribed for him, and he has employed remedies which were advertised as specifics for the disease, but none with satisfactory results. When he bought a bottle of St. Jacobs Oil, however, and began its use, he speedily realized that he had at last found the remedy he had been looking for. It relieved him with remarkable quickness and gave him great comfort. He now feels great satisfaction in the knowledge that he has a remedy which will control all rheumatic pain, from which he has no future guarantee of immunity. Believing, as he does, that the St. Jacobs Oil will cure all forms of pain, he freely recommends it to his friends and advises it use.

LORD JUSTICE COTTON, an English judge held in high respect, has lately pointed out that the commiting of mere boys for trial at the assizes with all the paraphernalia of grand jury, judge, jury, &c., is an absurdity, and that they ought to receive instead a sound birching by magistrates' order (as all boys of the higher class do at public schools), and then be discharged. The home secretary is to introduce a bill to facilitate this mode of punishment. It is contended that a boy who has once been in jail carries the stigma through life and too often becomes a hardened miscreant, while a fine is useless, as he cannot pay one.

ST. JACOBS OIL
TRADE MARK.

THE GREAT
GERMAN REMEDY.
FOR
RHEUMATISM,
Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,
Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

SIMCOE STREET.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.
DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.
Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "**Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.
DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as or beast.
Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE
LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

PUZZLED PEOPLE

Who want to buy Best, should

READ!

NO mere handful of Goods, but a Store 80 feet in length, packed from one end to the other.

CHOSEN with a special eye to the wants of our growing trade.

PURCHASED at the closest of prices, it abounds throughout with the freshest and most desirable the market affords.

CONTAINS in many cases special lines of Goods at prices quoted only by ourselves.

NONE of our departments more attractive than our DRESS GOODS. Look at the same.

PARTICULARLY we mention our MILLINERY and MANTLE showrooms, which are neatly and conveniently arranged, and stocked with full lines of Spring Goods entirely new.

A CHANGE.

On and after to-night, in conjunction with the leading merchants of the town, we will keep our place of business open until 8 p. m.

MUNRO & ALEXANDER.

Daily Evening Review

TUESDAY, MARCH 14, 1882.

LOCAL AND MUNICIPAL.

More of it.

Plate glass has been put in the hotel occupied by Mr. M. Halpin and in Rubidge's Cigar Store. More is to follow.

In Town.

A large number of lumbermen are in town at present and they are remarkably quiet and well-behaved.

Town Council Meeting.

A special meeting of the Town Council has been called for this evening at 7.30 o'clock. We understand that the by-law granting exemption from taxation to the woollen factory proposed to be established here by Mr. Robert Brodie, will be passed.

On Their Muscle.

Two young men had a pummelling match on George street near the Bank of Commerce on Monday night, or rather this morning. A number of blows were exchanged and some blood spilt. We understand that there was "a woman in the case."

That Monaghan Fence.

A meeting of the ratepayers of North Monaghan has been called for Monday next at two p.m., at the Town Hall, to discuss the advisability of proceeding further against Mr. John Dobbin to compel him to remove his fence from the public road.

Broke Jail.

The Chief of Police on Monday received a telegram from Haliburton requesting him to arrest a man named Alick Austin, who broke jail Saturday night. He is five feet seven or eight inches high; about twenty-two years old; very fair with light hair, ears pierced with ear-rings; smooth face; small light moustache; regular features; large ears; walks with a swaggering gait.

The Weather.

The weather continues about the same, cold in the mornings and evenings, and quite warm during the middle of the day. The snow is rapidly disappearing, and sleighing is about done. The weather probabilities for this district for the following twenty-four hours, as reported from Toronto at ten o'clock a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes,—Light to moderate winds. Fine weather to-day, followed to-morrow by increasing easterly winds and increasing cloudiness, with snow or rain.

Winnipeg's Burn.

There was probably no town in the province where the news of the big fire in the "city of Syndicates," caused as much excitement as it did here. The brief despatch in our Monday evening edition was the first information that the masses got regarding the blaze, and from that time until late in the evening we were besieged by anxious crowds wanting the latest and most authentic information. Ours were the only reliable despatches received and they were eagerly scanned. It was not until 12 o'clock that all were satisfied. One would almost think that Winnipeg was one of our suburbs, our citizens were so interested. Some of the men "who have been there," received the news with nonchalance and simply remarked "We told you so. They had too many wooden buildings and the fire will benefit the city."

Baking Made Easy.

The celebrated compressed yeast of Gaff, Fleischmann & Co., is being introduced in Peterborough by Mr. George C. Rogers, of the Otonabee Flour and Oatmeal Mills. The superiority of this yeast has long been known, having been extensively used first in the old world, and more recently in the United States and Canada, where it has come almost altogether into general use in the principal cities. It is claimed that it is much simpler, quicker, more reliable, and makes a sweeter loaf than other yeasts. It produces the best effects when used with highly ground flour, such as that now made by the new process at the Otonabee Mills. By its peculiar chemical action the flour is wholly leavened and evenly mixed, so that better results are produced. Mr. Rogers has placed a quantity of it in the hands of several ladies in town and Ashburnham for trial, who report satisfactorily. He has been receiving fresh supplies weekly by express, and it will shortly be put on sale at the grocery stores and elsewhere.

Ministerial.

The *Intelligencer* says that the Rev. Mr. Workman, of Peterborough, occupied the pulpit of Bridge street Methodist Church at both services on Sunday, in the absence of the pastor in Peterborough.

Recently in Toronto.

Over 1,000 physicians and sufferers visited Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the the French army, he will be at the Huffman House, Peterborough, on the 17th of March, for five days and will have with him a supply of Spirometers for the cure of Catarrh, Bronchitis, Asthma and Lung diseases. Physicians and sufferers can try it free.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

Missionary Meeting.

Rev. Dr. Jeffers and Rev. Mr. Crosby, of British Columbia, addressed a very large audience, at the George Street Methodist Church, in connection with the British Columbian missions. Mr. Crosby donned the dress of an Indian Chief and looked quite warlike. His address was very interesting and he handled his subject admirably. The same gentlemen will address anothe meeting to-night at the Charlotte Street Methodist Church on behalf of the same object.

Presentation.

Through an oversight the following was mislaid at the time the presentation took place, but believing that it is better late than never we now make room for it. Railway men are notably clannish and rejoice to see any of their number raised a peg, and on this occasion they felt in duty bound to do something handsome, and they did it. This affair took place about a week ago on the occasion of the departure of Mr. Geo. R. Stephens for Port Hope to assume the duties of train despatcher. The presentation took place at the Grand Junction Railway office, at the Grand Trunk Junction at Belleville, the address being read by Mr. J. J. Ross, the Superintendent of the division. The following is the address:—

BELLEVILLE STATION, March 3rd, 1882.

To Geo. R. Stephens Esq., of the Midland Railway of Canada.

DEAR SIR,—It is with feelings of regret that we learn of your removal from the Grand Junction division of this railway. While we are sorry that you are leaving us, we congratulate you upon your promotion to a more responsible and lucrative position upon another division of the line. You carry with you our best wishes for your prosperity and success in your new field of labor and we ask you to accept this chain and locket as a slight token of the esteem and respect in which you are held by the train and station staff whose names are hearunto subscribed.

Signed by the Employees.

Mr. Stephens returned thanks in a few well chosen remarks.

The gifts were very handsome, of fine gold and cost considerable money. The locket bore the following inscription on one side:—

"Presented to Geo. R. Stephens by train and station staff of the G. J. Ry," and on the other side were his initials wrought in a monogram.

Mr. Stephens by his genial manner and universal courtesy won the respect of all, and well merits his promotion, and we have not the slightest doubt but that he will give perfect satisfaction in his new position as chief train despatcher of the Midland Railway of Canada.

Peterborough Tract and Book Society.

The annual meeting of this society was held in the lecture room of St. Paul's Presbyterian Church, on Tuesday evening 7th March, 1882. The Rev. Ashton Fletcher, the retiring President of the society, occupying the chair. The meeting having been opened with religious exercises, and the Secretary and Treasurer's reports having been read, the Rev. Thos. Bone of the Welland Canal Mission, and agent of the Tract Society, addressed the meeting. In his opening remarks he said that it was most encouraging to him, and must be so to the friends of the society, to see so large an attendance, when it was considered what other attractions there were that evening in the town. It certaintly evinced a deep interest taken in the work of the society. He the proceeded in a very interesting and edifying address to set forth somewhat of the work done by the society, and the good accomplished by it among the sailors in the hospitals, prisons, and elsewhere, giving a number of incidents that had come under his own observation, where tracts had been a blessing in the conversion of many souls, and proving many cases where bread cast upon the water returned, if even after many days. He bore evidence to the fact that of all the instruments used by God for diffusing good, none were doing so great a work as was the press, whether taken in the form of the plain tract, the beautifully illustrated magazine and card, or the Holy scriptures, and again in exposing the fallacies of scepticism and infidelity, it was mighty in pulling down the stronghold of Satan. The Parent Society was reported to be now turning its attention to the lumber shanties, and settled districts of the northern townships of our country, as a new field of labour, they have now quite a number of colporteurs engaged in this work, and are receiving much encouragement in this field and are only wanting the funds to engage more labourers in this great harvest.

The collection taken up during the evening was $6.75 and the subscriptions received amounted to $58.35, total $65.10.

The following are the officers of the society for the current year.

PRESIDENT.—Col. Haultain.

SECRETARY.—Mr. Henry Grundy.

TREASURER.—Mr. W. C. Nicholls.

COMMITTEE.—Messrs. John Carnegie, Wm. Yelland, Robt. Kingan, Jos. Ford, Wm. Aldrige, and Wm. Wand.

The depository for the tract destributors is at the Protestant Home.

The Kennedys.

We beg to remind our readers that those celebrated Scottish vocalists, give a farewell entertainment to-night at Bradburn's Hall. Their reputation as artists of the first rank is too well known to require any puffing from us. Go and hear them. Tickets are for sale at the usual places and at the door.

Says a prominent horseman, in giving his opinion of Vanderbilt's mare, Maud S., whose great feat at Chicago put her at the head (and dubbed her "Queen of the Turf,") "In my opinion the time is not far distant when a two minute gait be recorded." It will certainly be the case if horsemen continue to use Kendall's Spavin Cure, as it limbers up the joints, removes all blemishes, and in fact has made a complete revolution in the horse business.

RESTORED TO COMPLETE HEALTH.—From Chas. E. Pearcy, of Brooks, Me.—"From early youth I was in feeble health, troubled with humor in my blood, weakness and debility of the system generally: was unable to labor much, and only at some light business, and then only with great caution. Seven years ago, the past spring, I had a severe attack of Diphtheria, which left my limbs paralized and useless, so that I was unable to walk or even sit up. Noticing the advertisement of Peruvian Syrup, I gave it a trial, and to my great joy soon found my health improving. I continued the use of the Syrup until three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present health intirely to the use of Peruvian Syrup, and hold it in high estimation. I cannot speak too strongly in its praise. I have several times recommended it in cases very similar to my own with the same good results. Sold by all druggists.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

Bucklen's Arnica Salve.

The BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all skin eruptions, and positively cures piles. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by TAYLOR & MACDONALD. d5w27

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

POINTS TO PONDER!

It is an enviable point in the career of a business firm when they are able to make prices below other dealers, and to make them too from a good, sound business basis.

The point is reached when a firm is no longer compelled to make a large profit on a small amount of business, but a small profit on a large amount of trade.

That is the happy position in which we stand to-day. It is the gross aggregate of our trade that tells the tale, and shows a mighty balance on the credit side of the ledger.

In commodious quarters, with increased facilities for serving the great mass of plain and well-to-do people, we are making a dash for the the best trade of town—that of people who value and want the best of goods.

Our terms to Millionaires and Mechanics are alike, and there is just one plainly marked price for every article

While we propose to give a dollar's value for one dollar, we shall be pleased to deal most liberally with large buyers. Large buyers know this, and are increasing their orders every day.

We submit the above definitions of our position.

An Inspection and Comparison of Goods and Prices cordially invited.

THOMAS KELLY.

LINES TO MR. KENNEDY

ON HIS FAREWELL NIGHT IN PETERBOROUGH.

Where'er the name of Kennedy on placard large appear,
"Weel, are ye gaun to hear him, man?" ilk ane I meet does spier.
I ne'er hae missed to hear him yet, an' gie weel pleased I was,
His guid braid Scottish stories gared me rak ma vera jaws.
An' O the songs he sings, man; losh, they set me fidgen fain,
For they mind me o' the time when I began to gang ma lane,
Ah' the way that he explains them—its sae lauchable and droll,
An' he sings them wi' sic touchen strain, true pathos of his soul.

When he sings them in fare Lunnen toon, how the Cockneys laugh wi' glee
When he sings them in Auld Scotia, muckle pleasure they weel gie;
But when he comes to Canada to sing the Auld Scotch sangs,
Why man the Scotch gangs fairla daft, an' crowds the house in throngs.

It' no just the auld songs theirsels that gars the Scotch gang ghyte,
It's your true natural music power, with Doric accents right;
I maunna gie you a' the praise, ilk ane deserves their farens,
The sangs of Scotia, love an' war, is sung weel by your bairns.

Upon your bills a word I see, guid save us, is it true?
"Fareweel," ye say to Canada, to brither Scots adieu,
An' are ye gaun to leave us, man, back to your hame sae fair;
It grieves us sair to think that we weel hear you sing nae mair.

If you do safely cross the sea, an' land on Scotia's shore,
Cast back your thoughts to Canada, where Scots your name adore;
The auld Scotch songs that you have sung while you were with us here
Leave a fresh impress on each heart that loves Auld Scotia dear.

An' when auld Keekie's streets you pace, I hope you won't forget
The sympathetic Scots which you in Peterborough met;
Though now you bid us all adieu, an' cross the raging main,
The name, the fame of Kennedy, unrivalled here remain.

I ken we canna keep you here, it's needless us to try,
With love deep mingled with regret, we kindly say "Good bye;"
We say it to your wife and bairds, no passing by yersel,
Wishing you safe on Scotia's shore, dear brither Scot, Farewell.

WM. TELFORD.

Smith, March 13th, 1882.

O'GRADY TO THE REVIEW.

DEAR REVIEW,—I have not sint you anything lately, so I jist thought I would sit me down to-night and give ye a line, but plase excuse a short letter this time, as I am in a hurry.

In the first place His Royal Highness is, I belave, getting more obnoxious every day, but he still claims to be closely related to the Gov-ernor-General. He is making spiculations through the countrie at present on floating papers—you know what I mane,—and begorra he is doing a big business at the same thing, because when you ask him to collect anything for ye he is sure to get it and kape it safe for ye too, for fear ye might be timpted to spind it ye know. He came down the other day, and what do ye think, he darkened up the village so bad with his black visage that our Vennor prophesied a snow storm, but when he found out the rason of course he said he was fooled intirely, it must be some collusion of the planets.

We had Coort here the other day, and faith some of the boys got coorted too. I feel to-night in a pretty good timper, and I think I will give it ye in verse. Ye must know I am a bit of a poet when it strikes me bad. Well:—

There was Hannah and Daniel for Cedar you know,
And Dan has to pay fifty for his little show,
But Hannah won't git it till Dan goes below.
Michael and Patsy, they too had a row—
But theirs was aboot an old brindled cow;
So Mic's to pay forty for his share of bafe,
And it serves him well right the nasty old thafe.
Poor Patsy stood up as pale as a ghost
At thinking he'd not got the bafe for to roast.
If a certin man comes up and sues for his grey,
Mr. Patsy will surely fall short of his pay,
As Tom has got hold of the whole of his hay,
And Paddy is drawing it ivery day.
There was Thomas and James had a case on for traes,
James he was perfectly quiet and at ase,
For Thomas of course had to pay up the faes,
And shure he stood there as calm as ye plase.
The viry next case that came on the roll
Was twixt Bill and the Miller that takes in the toll.
'Twas very soon settled when Jimmy did spake,
As Billy did not put the logs on the crake.
Jack and the Prince was the next case on hand,
And Jack was the man to have cash on demand;
But some men in the Coort as black as the night,
Can pick up all notes and swear they are right.
This was the very last case on the docket,
As the Prince put his hand in another boy's pocket.
He pockets these monies and ne'er pays what he owes,
And this is his fashion wherever he goes,
So now dear REVIEW, I'll go on with the prose.

Billy got so lonesome after his girl that he wint down to see her, and he didn't bring her back wid him either, but I suppose now 'tis out of sight out of mind wid both of 'em. Tommy don't look a bit mad now at all.

Game Leg is gitting around as fast as his leg will carry him, though he near got busted the other day. Some of the boys came down and had a bit of a spree, and paid their way in the shape of doors. They intend to take the same home wid them some night by way of consolation.

We have a nice, charming little crature here now from town. She can do most anything from playing on the piano to coorting the boys. Wal, is the best favored one at prisint.

Arthur is coddling around as usual, and the big feller is still nursing the baby. Noah's ark niver recovered from the collision with the ram. Jim was on the rampage and was going around like a big Tom cat, when he had a suspicion there was a doorg around with his back up, but he is very mild now, as he kapes the kay.

I am sorry indade to have troubled ye wid so much rubbish, my dear REVIEW, but I hope to write to ye again soon, whin I don't feel so sleepy, and then I will give ye full particulars of iverything short and to the pint, but don't forget, I will always be your own

YOUNG DAN. O'GRADY.

Apsley, March 6th, 1882.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

FROM ALL OVER.

JAMES GORDON BENNET is probably the heaviest taxpaying editor in America, being set down in the tax list for $1,200,000. Robert Bonner follows with $900,000.

Boy, what ails the horse? It needs Kendall's Spavin Cure. See their advertisement.

A GOVERNMENT investigation reveals the fact that the locomotives used on the Russian frontier are constructed with a secret compartment for the storage of smuggled goods.

THE Lewiston, Me., Journal says it is authorized to announce that Annie Louise Cary will be married in the early autumn, and that she will not thereafter sing in public.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

THE coffin in which David Navare "the fat boy," was buried at Pittsburg on Tuesday, was 6 feet 8 inches long, 3 feet wide, and 2 feet 2 inches deep. His weight was about 700 pounds.

THE New York *Sun* says that during last year that city expended about $4,000,000 for the education of children and about $60,000,000 for drinks. There were 9,215 places in the city where liquor was sold.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

THE Princess of Wales is very fond of making up her own bonnets. She will purchase half a dozen bonnets from as many different modistes and remodel every one of them before she will consent to wear them.

GLADSTONE'S father used to say his son William would "ruin his country and die in a madhouse." The old baronet left him a handsome fortune of $500,000, most of which has been lost in disastrous mining investments.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle*

THE committee having in charge the fund for a monument to the late Earl of Beaconsfield report a surplus of $10,000 and are in doubt what to do with it. The case is unprecedented in the history of monument building.

SPUYTEN DUYVIL, the scene of the late railroad disaster on the Hudson, means "in spite of the devil," and according to the rules of the Dutch language to which the words belong they should be pronouned Spoyten Doyvil.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

THE new "Encyclopædia Britannica" makes the remarkable statement that "the belief in the appearance of ghosts is now more widely spread and more firmly held among the educated classes than it has been for centuries."

THE manuscript of Dickens' "Christmas Carol" is now in the hands of a Birmingham bookseller, who offers it for sale. All Dickens's other manuscripts are at South Kensington, except that of "Our mutual friend," which is in the United States.

1—FARMERS AND MECHANICS.—If you wish to avoid great danger and trouble, besides no small bill of expense, at this season of the year, you should take prompt steps to keep disease from your household. The system should be cleansed, blood purified, stomach and bowels regulated, and prevent and cure diseases arising from spring malaria. We know of nothing that will so perfectly and surely do this as Electric Bitters, and at the trifling cost of fifty cents a bottle.—*Exch.* Sold by Taylor & Macdonald.

PROFS. CHURCH, Emerson, and Woodberry have been dismissed from the faculty of the Nebraska state university because of a row over the question of introducing the dicipline and methods of Harvard, where they were educated. They say that Chancellor Fairfield is an old fogy.

THE death is announced, at the age of 88, of the Dowager Countess of Essex, who sixty or seventy years ago, as Miss Stephens, was one of the most popular singers and actresses on the London stage. She was the favorite heroine of Bishop's opera, and in "Clari; or, the maid of Milan," she sang for the first time in England, Payne's "Home sweet home."

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

INDICTMENTS have been found against eight persons charged with having contributed by their negligence to the catastrophe at the Ring theatre. The number of witnesses summoned is 226. The trial will begin on May 2, and will probably last three weeks. Among the accused are Herr Newald, the ex-burgomaster of Vienna; Herr Janner, the manager of the theatre; and Herr Landsteiner, the chief commissary of police, who was on duty at the theatre on the night of the fire.

Mr. C. L. Divine, Superintendent of the composing and printing department of the Indianapolis, Ind., *Journal* values the great remedy beyond all curative agents. He has been subject to rheumatism of a very painful character, and has passed many sleepless nights while enduring the agony of it. Physicians have prescribed for him, and he has employed remedies which were advertised as specifics for the disease, but none with satisfactory results. When he bought a bottle of St. Jacobs Oil, however, and began its use, he speedily realized that he had at last found the remedy he had been looking for. It relieved him with remarkable quickness and gave him great comfort. He now feels great satisfaction in the knowledge that he has a remedy which will control all rheumatic pain, from which he has no future guarantee of immunity. Believing, as he does, that the St. Jacobs Oil will cure all forms of pain, he freely recommends it to his friends and advises it use.

LORD JUSTICE COTTON, an English judge held in high respect, has lately pointed out that the commiting of mere boys for trial at the assizes with all the paraphernalia of grand jury, judge, jury, &c., is an absurdity, and that they ought to receive instead a sound birching by magistrates' order (as all boys of the higher class do at public schools), and then be discharged. The home secretary is to introduce a bill to facilitate this mode of punishment. It is contended that a boy who has once been in jail carries the stigma through life and too often becomes a hardened miscreant, while a fine is useless, as he cannot pay one.

THE GREAT
GERMAN REMEDY.
FOR
RHEUMATISM,
Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,
Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

SOLD BY ALL DRUGGISTS AND DEALERS IN MEDICINE.

A. VOGELER & CO.,
Baltimore, Md., U. S. A.

Bear in Mind

THERE IS NO LONGER ANY SUCH FIRM AS MUNCASTER & SANDERSON DOING BUSINESS IN PETERBORO', THE PARTNERSHIP HAVING BEEN DISSOLVED IN AUGUST LAST.

MUNCASTER'S
JEWELLERY STORE
Is Removed from the old Stand

AND IS NOW IN CLUXTON'S NEW BLOCK, WHERE HE HAS A FULL AND COMPLETE NEW STOCK OF WATCHES, CLOCKS, SILVER-PLATED WARE, JEWELRY, VIOLINS, &c.

WATCH REPAIRING

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.

☞ **Don't Forget the Place.**— Cluxton's New Block, opposite McKee & Davidson's, George Street.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that **"Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure. I have since then been well and free from lameness. It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

☞ Sold by all druggists.

New Zealand, *via* San Francisco:—Letters, 15 cents papers, 4 cents. H. C. ROGERS, Postmaster.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin-disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and miluest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Daily Evening Review

WEDNESDAY, MARCH 15, 1882.

THE BOUNDARY AWARD.

By the aid of his allpowerful and subservient majority, Mr. Mowat was enabled to submit and pass through the Legislature, during the dying hours of the sesion, and upon the shortest possible notice, a string of resolutions anent the boundary award, which are so contrary to facts as to render them a disgrace to any deliberative body. Happily Mr. Meredith and his little band of followers were equal to the occasion, and, although hopelessly outnumbered by those upon whom argument, reason and fact, alike fell like water upon a duck's back, were wide-awake enough to place on record, beside Mr. Mowat's tissue of misrepresentation, the facts as they really exist and the point at issue in the war inaugurated by Col. Mowat under orders from Gen. Blake.

Notwithstanding Col. Mowat's endeavour to obscure the simple question at issue between him and the Dominion, in a multiplicity of words, the whole matter is contained within a nut shell, and is of a nature, when stripped of the verbage with which it is sought to be surrounded, which should make the people of this Province blush for the course which the Mowat Government has thought fit to adopt for purely political purposes.

In the first place we have it upon the authority of Mr. Mackenzie himself that the question referred to the arbitrators was; "what are the *true* boundaries of Ontario," and in the next place we have it upon the authority of Colonel Mowat as set forth by himself in a statute, that the award is *not* in accordance with the true boundary—that the true boundaries of Ontario extend further west than the arbitrators have awarded us. Why then in the name of common sense all this fuss about the non-ratification of an award which does not do Ontario full justice; and why the persistent repetition of the misstatement that the Dominion is trying to deprive this Province of her just rights by refusing to ratify an award which does not give us those rights? Such a course we do not think it is too much to say has been adopted for purely party reasons, and in the hope that it will serve the same purpose at the next election, as the Scott Murder and Railway Aid Resolutions did in 1871. We are looking forward withsome curiosity to seen whether Gen. Blake will at Ottawa nail the same colours to the mast, as his obedient Lieutenant at Toronto has done, and make himself respon sible for such an issue in the Dominion campaign and thus assure us that if he succeeds to power he will ratify the award as it stands. By throwing it into the political arena this is what Mr. Mowat demands, and we ought to be informed not only whether the Ontario members of the Dominion opposition are prepared to endorse such a policy, but also whether their friends from the other Provinces are prepared to carry it out if the party should succeed to power after the next election. Unless they do this by placing such an intention upon the records of the Dominion Parliament during its present session, we shall, and we fancy a large majority of the electors of Ontario will conclude that the policy of these gentlemen for Ontario and for the Dominion in this matter are widely apart, and that they are determined to keep the ratification of the award just as much an open one as Mr. Mackenzie did when he was in a position to ratify it.

Although Mr. Mowat and Mr. Mackenzie found no difficulty in agreeing upon a conventional line as a temporary boundary in 1874, and that the Dominion should manage the territory west and north of this line, and Ontario that east and south of it, until the true boundary was ascertained, each agreeing to account to the other for its management, as they might prove to have been in possession of that which did not belong to them, and although the present Dominion Government fully recognize and are to-day acting upon this arrangement, yet Mr. Mowat declares in his precious resolutions that he will only consent to "an immediate reference to the Privy Council, on the condition that, pending the reference, the territory, its population and lands shall, by the legislative consent of all parties be subject in all respects to the laws of this province, including the jurisdiction of its Legislature and Government." Now what we should like to know is: How an arrangement which was perfectly satisfactory to this province (in the opinion of Mr. Mowat) while Mr. Mackenzie was in power, becomes so very unsatisfactory the moment the people kicked him out of power? Then, when they had the Dominion Parliament and the Ontario Legislature at their back, they did not settle it, although it had been urged previously on both sides that a speedy settlement was desirable. Arbitrators, it is true, were appointed in reasonable time, but then some of them were allowed to die without having accomplished their mission. Indeed one can come to no other conclusion than that Mr. Mowat and his friends were perfectly content to allow things to remain as they were so long as the management of the territory was in the hands of the party and could be used for party purposes. Now, however, when that west of the conventional line can no longer be used to forward their own party interests unless it is handed over to them forthwith, not only shall no reference to the Privy Council take place, but "the stipendiary magistrate and the other officers of this province should be instructed to see that as far as possible our laws ore enforced and that trespassers are not allowed to destroy the property of the province," even unto the forceable resistence of the Federal authority. That is the policy of the Mowat Government, we venture to assert in the interest of "patronage" and not in the interest of the country.

On the other hand, Mr. Meredith and his associates in the House have declared it to be their opinion that "it is the duty of the Government of Ontario * * to take steps for the immediate submission of the matters in dispute between the two governments by * * a reference to the judicial committee of Her Majesty's Privy Council, and which was proposed by the Government of Canada, led by Sir John Macdonald as early as 1872, and which the Government is still willing to agree to," and that "until the final adjustment of the true boundaries of the province" the territory in dispute should be managed in accordance with the arrangement entered into with the Mackenzie Government—"which arrangement handed over to the management of Ontario—two-thirds of the whole territory in dispute."

We leave it to our readers, not only to say which of these two proposals is the most reasonable, but also if Mr. Mowat's proposition is not very much like that of a man "spoiling for a fight." Sould it turn out that he has been spoiling for a good beating, it will not be the first instance on record when such a thing has happened.

OUR GREAT NORTH-WEST.

The Great Importance of its Progress to Imperial Interests.

The English Press has as yet received only a rather meagre synopsis of Lord Lorne's speech upon the opening of the Canadian Parliament at Ottawa, but there is enough before us to show that the prospects of the new Canadian North-West are no mere Utopian dream. The Governor-General having recently made a progress through the territory, would not lend himself to any exaggerated view of its fertility or adaptability for settlement, even were his Ministers inclined to put such words into his mouth. Lord Lorne, in the speech which he made at the Winnipeg Club eulogising the capabilities of the great fertile belt, only followed in the rhetorical footsteps of Lord Dufferin. Both Governors have in speeches of their own, based upon evidence submitted to their own eyes, endorsed the enconiums alike of railway projectors and of land speculators. The latter might well be accused of interested motives; and speeches made from the colonial throne might be held almost equally open to suspicion. But we are bound to believe anything which either Lord Dufferin or Lord Lorne may say on their own personal responsibility. There are three aspects in which the success of this new country and the truth regarding it are of interest to us Englishmen. First, from an imperial point of view, it is of great importance that the political future of British North America shall be assured, and there is no more certain method of effecting this than by settling the immense tract of country between Fort Garry and the Rocky mountains, and building a transcontinental highway through British soil. The next phase of the matter presented to us is the Great North-West, which appears as an inexhaustible wheat granary for our own countless consumers on this side of the Atlantic. The last, but not the least, ground for congratulation, if all that is said of it be true, is the conviction that within a little more than a fortnight of London there is an unlimited field for the employment of British capital and of British thews and sinews. The Monroe doctrine fades into mist before the fact that the acreage of British America is greater than the area of the United States. Even the mist vanishes as the boundless undulating prairies of the North-West, embracing between two and three millions of square miles, furnish employment to countless ploughs and reaping machines, or become the home of vast herds of cattle, claiming for their progenitors high-priced sires from Hereford or Kirklevington. There seems to be abundant testimony to the quality of the cereals produced in Manitoba and the valley of the Saskathcewan. Scotch and English farmers have been there, and have returned much impressed with what they saw. Thirty bushels an acre, with no need for manuring for many years to come, seems to be a pretty general average. As regards emigration, it cannot be doubted that if the right sort of man goes there he will make his way, whether as owner or workman, in a manner at present denied to agriculturists in these islands. He will be under the British flag, in a country where his own native tongue is spoken, and where his sons may come to be legislators for the benefit of a generation which shall see a mighty British-American empire established between the old Maratime Provinces and Vancouver Island, a chief factor in this magnificent result being the Canadian Pacific Railway. Meantime that Lord Lorne's Government should find it incumbent on them to carve new provinces west of Manitoba out of the territory dubbed by Lord Dufferin "The Great Lone Land" is material evidence of its settlement, actual and prospective.—*London Morning Post.*

MYSTERIOUS DISAPPEARANCE.

A London Township Farmer Supposed to Have Been Murdered—Man Arrested.

LONDON, March 13.—The interest caused by the disappearance of James Watson, the London Township farmer, was increased to excitement to-day when John Roddy, a farm labourer in the employ of the missing man, and who is known to have been with him the day of his disappearance, was arrested upon a charge of murder.

The grounds upon which the arrest was made appear in the fact that it is alleged that Roddy was seen in company with Watson on Thursday night about 12 o'clock near the top of the steps leading down from the street above to Blackfriars' Bridge. Some statements made by him since are also considered suspicious.

Enquiries as to the missing man's movements on the day of his disappearance have resulted in the discovery that he, in company with Roddy and a man named Hay, were drinking together on Thursday evening in the city. Roddy and Watson left a saloon together and the next heard of the latter is when the two men enquired from a lamplighter the road to Blackfriar's Bridge about midnight. The man Hay, who was drinking with the men in the afternoon, states that he left them because they were quarreling and he was afraid they would be arrested. About 12:20 Roddy appeared at Watson's house looking as usual, he went to bed, telling Watson's wife that he did not know where her husband was and that he had not seen him since early in the evening. As Watson never returned to his home, search was made but no trace of him could be discovered. The enquiries made resulted as above-mentioned, in the prisoner's arrest.

THE PRISONER'S STORY.

In an interview with him in his cell, prisoner related the following narrative:—I am a native of Springfield County, in the State of Michigan, and came over to Canada about three or four months ago. I went down to Georgetown to my brother's, where I left my little girl (having separated from my wife) until I could settle down somewhere. I left Georgetown, and went as far as Port Huron, returning per G.W.R. to Komoka. I started to walk from that place to London, and on the road I met a man named Smith, who was in partnership with Watson in wood chopping. He gave me a job, and I went to work in the woods near Hyde Park. I have been in Watson's employ ever since. During the time I have worked for him we never had a cross word. I sold him forty acres of wild land for $125, and received $55 on account; I never asked Watson for a cent; he gave me money just as he plessed. It was through his influence that I brought my little girl from Georgetown to live with me, and she is still there. On Thursday we left home together and came into the city. The first place we stopped at was Mortimer's store on Dundas street, where two bottles of whiskey were drunk by Watson, myself, and several others. We then went to Peter McCann's on the Market Square, and the last thing I remember about Watson was in there. We were taking a glass of beer together, and he took hold of my hand and said:—"Jack, as long as I have a house you and your little girl can have a home." I must have wandered about the streets for a good many hours and sobered up considerably, for when the man who turns out the gas lights came along I asked him to direct me to Petersville. He accompanied me to some steps leading to Blackfriar's Bridge, and told me that was the way. I then went straight to Watson's house arriving there at about 12.20 a.m. I asked Mrs. Watson if her husband had arrived yet, and she stated that he had not. Next morning I came to the city and notified the authorities of the mysterious disappearance. That is all I know of the affair.

The prisoner was taken before Squire Peters and remanded for eight days. In the meantime the search for the body will be continued in the river, where it is thought Watson was thrown when crossing over the bridge.

BARNUM'S BIG ELEPHANT JUMBO.

An American Prize From the London Zoological Gardens—"Jumbo" and His Traits.

LONDON, Feb. 20.—In a previous letter relating to the curiosities of the London Zoological Gardens I have alluded to the big African elephant "Jumbo" and his reported sale to Barnum. It seems that the managers of the gardens offered the animal to the showman for ten thousand dollars. The price was three or four times that usually commanded by a sharply and well-grown elephant. But Barnum promptly paid it, and ere long the "Zoo" will lose its chiefest attraction, and apparently for mercenary reasons not at all creditable to its managers or hitherto characteristic of their policy. From the showman's point of view Jumbo is an undoubted prize. He is but little over twenty years old, and with proper care is good for fifty years more of life. Zoologists here in London declare him the largest captive elephant in the world. His weight of five tons, which is not uncommon for an elephant, gives no idea of his real size, for he is not so rotund as his Asiatic fellows, and in truth is slab-sided, gaunt, big-boned, and tuskless. But his huge proportions offset all defects of figure, and his very unsightliness adds to the impression which he makes on the beholder. Measured at the shoulder Jumbo stands eleven feet high, while the largest elephant in the United States, it is said, measures only an inch more than nine feet. With his trunk Jumbo can take down a biscuit from a height of twenty or twenty-five feet. His colossal legs remind one of the butt of a great mast, and his trunk half way down seems as large as the human body of a stout adult. Among the other elephants at the "Zoo—" and large ones some of them are—Jumbo looms up like Goliath among the Philistines.

To sell this bulky creature and deliver the goods were two propositions which the "Zoo" managers wisely kept apart. They took his money, but threw on Barnum the onus and risk of transfer. Jumbo's peculiar disposition had made the problem of removal an unusually difficult one; and the keepers at the "Zoo," who hate to lose their pet, were loud to-day in their hopes that it would be insoluble. The animal when out of doors and on his walk loaded up with a bevy of rosy children has always been docile and tractable. But in confinement particularly at night, he has shown some ugly traits, though never beyond the restraining hand of Mr. Scott, his keeper. Obstinacy and fear have always been Jumbo's paramount weakness. He hates novelty like an old-fashioned English Tory. He has, moreover, become thoroughly rooted in his habits at the "Zoo," and any attempt to make him cross a new bridge or step upon a fresh piece of flooring, or to surround him with unfamiliar objects has always excited him to spasms of fear.

Last Saturday night the first attempt was made to get the leviathan to the Persian Monarch, the steamship selected for the transfer of Jumbo to the "great moral show" of America. Two or three of Barnum's agents, well versed in the care and management of elephants, aided Mr. Scott in the enterprise. At first it was thought necessary to impress on Jumbo the notion of restraint and subjection. At the outset a strong chain was strapped around one of his forelegs, and made firm to the walls of the stall. Jumbo viewed this first innovation with evident concern, but without resentment. A second chain passed around the other foreleg excited his ire considerably, and when a third chain passed around his head and backward between the forelegs he broke into open revolt. Trumpeting his rage, he lashed about him with his trunk, strove to break his bonds and to dash at his tormentors. Jumbo's comrades in the elephant house joined their outcries to his, and the uproar continued until the mighty captive was exhausted and became comparatively quiet. Then he was led to the door of the elephant house. Near it there had been dug a slanting excavation. In the hole had been placed a great box on wheels and up to the entrance behind slanted a set of stout gang-planks. Up these Jumbo was led. He knew well enough what was wanted of him, but persuasion and force alike failed to induce him to enter. Several times the vast creature went up the ascent, but recoiled at the entrance. At last the big fellow's obstinacy triumphed for the time over human persistency, and Jumbo was led back to his stall.

RESTORED TO COMPLETE HEALTH.—From Chas. E. Pearcy, of Brooks, Me.—"From early youth I was in feeble health, troubled with humor in my blood, weakness and debility of the system generally: was unable to labor much, and only at some light business, and then only with great caution. Seven years ago, the past spring, I had a severe attack of Diphtheria, which left my limbs paralized and useless, so that I was unable to walk or even sit up. Noticing the advertisement of Peruvian Syrup, I gave it a trial, and to my great joy soon found my health improving. I continued the use of the Syrup until three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present health intirely to the use of Peruvian Syrup, and hold it in high estimation. I cannot speak too strongly in its praise. I have several times recommended it in cases very similar to my own with the same good results. Sold by all druggists.

SICK and bilious headache, and all derangements of stomach and bowels, cured by Dr. Pierce's "Pellets"—or antibilious granules. 25 cents a vial. No cheap boxes to allow waste of virtues. By druggists.

I Have in Stock a Quantity of

"CRACKLINGS"

J. W. FLAVELLE

SIMCOE STREET.

A Minister's Peculiar Mistake.

The late Rev. Dr. Halley was distinguished for the facility of his public utterances, but was not proof against embarrassment, as is shown by an anecdote which he himself related with gusto. Soon after the doctor came to this country from Scotland he was called to officiate at a funeral. Now funeral customs among the Presbyterians of Scotland do not include a ceremony at the grave, and when Dr. Halley arrived at the cemetery he supposed his duties ended. The coffin was lowered, but the relatives and friends of the deceased man did not disperse, but cast expectant glances toward Dr. Halley. The good doctor could not grasp the situation, and when the undertaker addressed to him an obsequious bow and smile the clergyman became decidedly nervous as he returned the bow. Finally it dawned upon him that he was expected to do something, and in a whisper he asked the undertaker what that something might be. "Say that the friends of the deceased wish you to return thanks to those who have visited the funeral," said the master of ceremonies. "The deceased wishes me to return thanks to the friends who are present, sang out the Scotch accents of the minister, and it was some time before he understood why the mourners smiled.—*Troy Times.*

The London Firemen.

Though the London Fire Brigade is famed the world over for its superior skill and effectiveness, it is very small, of but limited importance, and perhaps overrated. It is a very hard working body, and is admirably managed, in which fact lies much of its strength. But it is notoriously inadequate to protect the city from conflagrations. Last year there were 11,991 fires, or 120 more than in 1880. In twenty-nine of them lives were lost and in 167 damage was done to property. The brigade now consists of 436 officers and men all told. They operate 38 steam fire-engines, 115 hand engines, 137 "fire escapes" and three floating steam engines. The fire alarm telegraph system is just beginning to gain a universal introduction. It has till recently made very slow progress. There is another curious thing about the London fire service, which illustrates the reluctance of British conservatism to adopt innovations however valuable they promise to be. The waterworks are under the control of water companies exclusively If a fire breaks out the firemen have to call on an employee of the waterworks, and perhaps wait for him to come from a distance to turn on the water. This leads a London journal to remark with great naivete: "Surely the water companies ought not to object to the firemen being furnished with keys to turn on water at the hydrants.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis. Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

All Satisfied.

NEW YORK, March 14.—The *Tribune's* Washington special says that Edmund's determination to remain in the Senate is received with unmixed satisfaction by the Republican Senators. The nomination of Blatchford is praised on all sides.

To give all classes an opportunity of purchasing at the GREAT SALE, the Store will be open every morning at 7 o'clock, and will not close until 8 o'clock at night. Terms Strictly Cash!

The Ultra Style of Hotel Clerk.

The hotel clerk is a young man who was originally created to fill an Emperor's throne or adorn a Dukedom, but when he grew up, there being fewer thrones and doms then were Emperors and Dukes, he was temporarily forced to take a position behind a hotel register. His chief characteristics are dignity of bearing, radiant gorgeousness of appearance, haughtiness of manner, and jewellery. His principal duties consists in hammering on the call bell, in handing guests their wrong keys to their rooms, and in keeping a supply of toothpicks on the end of the desk. When all his time is not taken up in the performance of these arduous duties, he will condescend to explain to a guest that he does not know whether the north-bound train leaves a 3 p. m. or not, and if the guest insists on enticing farther information out of him, he will probably hand him a last year's official railroad time-table.

When a stranger comes in on a late train, jams his valise down on the counter, and approaches the register, the hotel clerk, in a preoccupied and austere manner, turns the register and hands out the stranger a pen—a pen that has an impediment in its legs, catches in the paper, and splutters fragments of the guest's name all over yesterday's "arrivals." The clerk, after turning round the register and examining the signature to see if it is genuine, expresses some doubt as to there being a vacant room in the house. The stranger says he is bound to have a room. The clerk retires back to the desk, and after consulting pigeon-holes, concludes that the gentleman may have No. 1192. He writes some hieroglyphics on the register, and then he talks for half an hour with the porter and the baggage man about the trunks of the gentleman in No. 46, having got mixed up with the baggage belonging to the gentleman in No. 64. When he gets that matter arranged he sits down to polish and admire the long nail he is cultivating on his little finger, and forgets the gentleman who has rented No. 1162 until he is made aware of his existence by an impatient tap on the counter. With the air of a martyr, and a sigh, he says: "Ah! would you like to go to your room?

Then John shows the gentleman to No. 1192. No matter how crowded a hotel is, the hotel clerk always finds one room left for the late arrival. When the latter kicks about it, when he is leaving next day, because it was on the fifth floor, and was furnished with nothing but a bed, a bar of soap, and a crack in the ceiling, the clerk tells him that if he had only been staying another day, he could have had an excellent room, in fact the best in the house, which would be vacated after breakfast, by a gentleman who was leaving on the noon train. To our certain knowledge, the gentleman has been leaving that excellent—that "best room in the house," every to-morrow for twenty years.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

FROM ALL OVER.

AN international exhibition of furniture is to be held in Paris this year from August 1 to November 15.

THE use of the telephone is making rapid progress in Germany. Berlin alone has now nearly 1,000 miles of telephone wires.

MACK'S MAGNETIC MEDICINE is a positive remedy for nervous exhaustion and all weakness of the generative organs in both sexes. See advertisement in another column.

LARGE iron ore deposits of great richness and value have lately been surveyed in Lapland by practical mining engineers. The district is near the village of Inkkasjarvi, in Swedish Lapland.

A SCIENTIFIC expedition, consisting of members of the Russian Geographical Society, the Imperial Academy of Sciences, and other bodies is nearly ready to make historical and ethnographical researches in Bulgaria, and Roumelia.

A Philadelphia colored man has been making scrap-books for twenty years. He has 100 large volumes of classified matter, containing a great mass of historical and scientific information.

THE late Lady Essex had drawn a jointure from the Essex estate for forty-three years. Dowers are a terrible draught on many English land owners incomes. Many have to pay two, some three, and there have been instances of even four.

THE Congregational church in Auburndale, Mass., received a native Zulu to membership last Sunday. His name is John Nembula. His father is one of the native Zulu pastors and his grandmother was the first convert in the mission.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

IT is proposed to celebrate this year at Buda-Pesth the fiftieth anniversary of Kossuth's career as a journalist and a patriot, by presenting him with an album containing the signatures of his admirers. Kossuth is now in his seventy-seventh year.

YOUNG MEN, and middle aged ones, suffering from nervous debility and kindred weaknesses, send three stamps for part VII of Dima Series Books. Address World's Dispensary Medical Association, Buffalo, N. Y.

THOSE who feel aggrieved at Lenton fastings may solace themselves with Sydney Smith's reflection: "According to my computation, I have eaten and drunk between my tenth and seventieth year forty four-horse wagon loads more than was good for me."

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

PROF. James GEIKIE holds that the construction of the Panama Canal will have as much effect upon the Gulf stream and the climate of North-western Europe as the emptying of a teapotful of boiling water into the Arctic Ocean would have in raising the annual temperature of Greenland." The Isthmus of Panama would have to be submerged not less than 800 to 1,000 feet before the waters of the Gulf stream could find their way into the Pacific Ocean.

A GOOD FILTER.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

"BECAME SOUND AND WELL."—Hatcher's Station, Ga., March 27, 1876.—R. V. Pierce, M. D.: Dear Sir—My wife, who had been ill for over two years, and had tried many other medicines, became sound and well by using your "Favorite Prescription." My niece was also cured by its use, after several physicians had failed to do her any good. Your truly, THOMAS J. METHNIN.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

MARY EMMA BORTON ran a pin into her finger two months ago, and from the slight wound has since suffered very much from a nervous disorder resembling lock-jaw. The late Rhoda Lamb, who made her home during the latter years of of her life at Samuel Borton's, in this place, years ago ran a pin into her finger, and the member became swollen painfully. An operation had to be performed to give relief, and the hand remained almost shapeless. The widow of Capt. Cornelius Hulick died a year ago from the effects of a spider bite on the arm. The arm turned purple in a few hours, then was swollen dreadfully, and the death of this estimable lady followed four days later.

GENERAL TAYLOR was made ridiculous for a time by the sentence which occured near the beginning of his message to the Thirty-first Congress, December, 1848, as follows: "We are at peace with all the world, and seek to maintain our cherished relations of amity with the rest of mankind." But Mr. Buchanan almost matched it in a speech which he made at the South; in which he said: "I do believe gentlemen, that mankind, as well as the people of the United States, are interested in the preservation of this Union;" and John C. Calhoun, in commenting upon the clause in the Declaration of Independence to the effect that all men are created equal, remarked that only "two men were created, and one of these was a woman."

OF all the theatres in the country, says the New York *Dramatic News*, the People's Theatre, now building in St. Louis, Mo., will have one of the best appointed stages; in fact, none will surpass it in finish and completeness. This is being conducted by Mr. H. C. Raymond, at present in St. Louis, and his interest in the work has been demonstrated by his devoting labor to night and day in order to insure its completion in time for the opening. Mr. Raymond was much exposed to night damp, naturally incidental in the erection of an enormous new building, such as the People's, and the result was the contraction of a severe case of rheumatism in the left leg. A single application of St. Jacobs Oil brought relief, and in a very short time the pain disappeared entirely. Mr. Raymond keeps a supply convenient in case of a recurrence of a similar trouble.

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

Daily Evening Review

WEDNESDAY, MARCH 15, 1882.

LOCAL AND MUNICIPAL.

Railway Notes

Four navvys, who stated that they belonged to Toronto and were going to work on the "Missing Link," passed the night in the cells on Tuesday, and two more of the same class slept in the same place on the previous night.

The new time table will not come into force until the 1st of April, after all.

Some thirty-five men are now at work on the "Missing Link," at one of the big cuts. One shanty, four or five miles from town, has been completed, and another one nine miles from here is in course of construction.

There are half a dozen railway magnates and contractors in town on business connected with our different lines.

The Ontario and Quebec surveying party are making good progress eastward.

The trainmen here are anxiously waiting for the shunting engine which is to be placed in the yard here. There will be lots of work for it to do between the yard at the station, Hazlitt's, Hilliard's, Rogers' and Auburn.

The Kennedys.

Mr. Kennedy and his gifted family gave a farewell entertainment, entitled "A Night wi' the Jacobites," on Tuesday evening in Bradburn's Hall. They are such old favourites in Peterborough, and are so well known and appreciated that it is hardly necessary to give any detailed account of their performance. It is sufficient to say that the warlike spirit of some of the songs and the pathos of others were alike adequately rendered. Mr. Kennedy in the comic portion displayed his accustomed humor, and as usual seemed to enter heart and soul into the spirit of his theme. The running narrative with which he connected the illustrative songs was brief and to the point, being delivered with an animation which prevented it from being in the least tedious. He concluded with the gratifying intelligence that he would pay us a visit again in a few years, and then called for "Auld Lang Syne," which was given with enthusiasm.

Ontario and Quebec Railway.

The following gives in detail the proposed amendment to the charter of the above railway:—

The nineteenth section of the Act of incorporation of the said Ontario and Quebec Railway Company, forty-fourth Victoria, chapter forty-four, is hereby amended by inserting the words: "The Toronto, Grey and Bruce Railway Company, or with such other railway company or companies the line of which the Ontario and Quebec Railway, when constructed, may connect with, intersect or cross, or which may be a feeder or easterly or westerly continuation of the Ontario and Quebec Railway," in the sixth line of the said section, after the words "Occidental Railway," and before the words "or any of them;" and also by inserting the words "of the charter of" in the seventh line of the said section, after the word "acquisition;" and before the words "or leasing."

The Weather.

There has been no change in the temperature worth recording during the last 24 hours. Everything remains just about the same. Weather probabilities for this district for the following twenty-four hours, as reported from Toronto at ten o'clock a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes,—Fresh to strong. N. E. to S. E. winds, Cloudy weather, with snow or rain. Higher temperature, followed by westerly to north-westerly winds to-morrow.

St. Patrick's Day.

Our readers are reminded of the Grand Entertainment on Friday (St. Patrick's) night, under the auspices of the Emerald Dramatic Association, at Bradburn's Hall. They have secured the services of Mr. and Mrs. R. A. Brennan and a select company. Hold yourself disengaged for the occasion, you will be sure to be delighted.

Lecture on Burns.

We understand that efforts are being made to induce the Rev. Mr. Stobo to deliver a lecture on Burns. We hope that he will comply, as we have no doubt that he would do the subject justice.

Obit.

Mr. E. Burrell of Belleville, axe manufacturer, at one time a resident of this town, died on Tuesday, after a long illness.

AIDING NEW INDUSTRY

OUR TOWN FATHERS ASSEMBLED IN SESSION ENCOURAGE FACTORIES.

By Granting Exemption from Taxes for Ten Years to a Proposed Woollen Mill to be Erected here by Mr. A. W. Brodie—A Disorderly Meeting—The O. & Q. Railway.

A special meeting of the Town Council was held at the Council Chamber on Tuesday evening.

Present—Councillors Cahill, Alford, McNaughton, Kelly, Paterson, Poussette, Rutherford, Wilson, Douglas, Menzies and Denne.

On motion Councillor Menzies took the chair.

The reading of the minutes of the last meet was dispensed with.

ACCOUNTS.

Times printing, etc.....$36.20

—To be paid when certified.

COMMUNICATIONS.

From the Clerk of the House of Commons, Special Railway Committee, asking for answers to a series of questions regarding discriminating rates on railways.—Received and referred to a Committee consisting of Councillors Denne and Menzies, with power to add to their number, to prepare the necessary answers and forward them to Ottawa.

EXEMPTION FROM TAXATION.

The Council then went into Committee of the whole on the second reading of the by-law granting exemption from taxes to a woollen factory, to be established here by Mr. A. W. Brodie, Councillor Poussette in the chair.

The by-law was read a second time without amendment.

It provides for exempting the factory and lots 9 and 10 on the raceway for a period of ten years, provided that the mill is run as a one set mill the first year, a two set mill the second year and a three set mill the third year, not less than 30 hands to be employed the first year for a period of 206 days per year, the promoter of the factory not to engage in a custom or local trade, or any other than a wholesale business.

The by-law was finally read a third time, signed and sealed.

LIGHT THE GAS LAMPS.

Councillor RUTHERFORD said that there was considerable talk at present regarding lighting the gas lamps on nights that called for it, according to the by-law, and he thought that the Council should take some steps in the matter.

Councillor MCNAUGHTON "pitched into" the Gas Company and said that it was through their negligence that the lamps were not lit. He knew of eight lamps in town that were broken, and because the Company had to foot the bill the necessary repairs were not made.

Councillor CAHILL thought that Peterborough was well served regarding gas.

Moved by Councillor RUTHERFORD, seconded by Councillor DOUGLAS,—That the Clerk offer a reward of $10 for information that will lead to the conviction of any person or persons who injure or extinguish any of the street gas lamps.—Carried.

CARWORKS.

Moved by Councillor CAHILL, seconded by Councillor PATERSON,—That the Mayor be requested to call a public meeting on Monday evening next to discuss the question of granting a bonus to the proposed carworks company.—Carried.

LUMBER.

Councillor CAHILL reported verbally that the Street and Bridge Committee had awarded the contract for supplying lumber for sidewalks, etc., to the Dickson Estate for $8.90 per. m. He alsosaid that no tenders for cedars had been received.

A RAILWAY DODGE.

Councillor POUSSETTE introduced the matter of the legislation now sought for by the Ontario and Quebec Railway Company, to enable that company to buy, lease or sell to any railway that the line crosses. He thought that the town should oppose such a thing as the Ontario and Quebec Company could sell out to the Midland, Grand Trunk or any other road and thus deprive us of the expected competing line.

Moved by Councillor POUSSETTE seconded by Councillor PATERSON that in view of the legislation being sought by the Ontario and Quebec Railway having a tendency to destroy the independence of the road, a memorial be passed by the council, signed by the acting mayor and clerk and sealed with the corporate seal, and forwarded to the Government, praying that such legislation be not granted.—Carried.

Councillor POUSSETTE will represent the town's interest before the Railway Committee on Friday.

A TAX MATTER.

Councillor PATERSON said that Dr. Taylor was charged with some back taxes, which he did not owe.

The matter was referred to the finance committee.

RAILWAY MATTERS.

Councillor PATERSON said that Mr. R. Kingan complained of the route to be to taken by the "Missing Link" and wanted the council to take action to protect property owners in rests.

Councillor POUSSETTE said that the company had not yet asked for permission to construct a switch and it was time enough to take action when the request was made.

HE HAS NO "PURP."

Mr. Thomas Coe said he had no dog although he was assessed for one and asked for the remission of $1 taxes.

To be struck off when he takes the statutory declaration.

REMITTING TAXES.

Moved by Councillor CAHILL seconded by Councillor ALFORD that the arrears of taxes charged against Wm. Course and W. J. Riordan be remitted as they were improperly charged. Referred to Court of Revision.

GASEOUS.

Councillor MCNAUGHTON attacked Councillor RUTHERFORD and said it was the latter's duty to see that the gas lamps were put in proper shape.

At this stage, the disorderly discussion which had prevailed all evening concluded by an abrupt adjournment.

Recently in Toronto.

Over 1,000 physicians and sufferers visited Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the the French army, he will be at the Huffman House, Peterborough, on the 17th of March, for five days and will have with him a supply of Spirometers for the cure of Catarrh, Bronchitis, Asthma and Lung diseases. Physicians and sufferers can try it free.

Legal.

Mr. H. H. Smith has taken Mr. E. A. Peck into partnership. We wish success to the new firm.

THEIR FIRST DEFEAT.

Cobourg Defeats Peterborough in a Friendly Curling Match by Three Shots.

The Peterborough curling club has been remarkably lucky this year, previous to Tuesday evening winning every match they played. However, on the evening in question they met foemen worthy of their steel and had to succumb to the powers of the men from the 'Varsity town. The visitors arrived here on the 6.15 train and were quartered at the Oriental. The game commenced about 7.30, twenty-one 'ends' being played. The ice was in magnificent condition and some good play was the result. The game was well contested throughout and the teams were very evenly matched. At first Peterborough led, but towards the end Cobourg drew up and finally won by three shots. The attendance of spectators was very meagre, no previous notice of the game having been given. The following is the score:—

Rink No. 1.

COBOURG.	PETERBOROUGH.
Morrow,	Budden,
Titford,	Ferguson,
Henderson,	Attrill,
Greenwood, Skip. 16	McDougall, Skip. 18

Rink No. 2.

Lightburn,	Hilliard,
Jeffrey,	McGill,
W. Sailsbury,	Boucher,
J. Sailsbury, Skip. 21	Brown, Skip. 16
Total.....37	Total.....34

Majority for Cobourg 3 shots.

POLICE COURT.

6 MOS. IN C. P. FOR A. D. AND D.

TUESDAY, March 14.—An afternoon session of the court was held to-day to try one James Hooey, of North Monaghan, who appeared to answer a charge of being drunk and disorderly on the public streets, and also for using blasphemous language.

Chief JOHNSTON said that the prisoner had come to him and requested to be sent to gaol. He told him to go down to the police court, but he did not comply. Later in the day he found him on Water street in an intoxicated condition, using very filthy language, Col. Haultain on the previous night had given the prisoner some money wherewith to procure food and a bed.

The prisoner, who is aged 61 years, is a regular vagabond, and has the reputation of being "born tired." He was never known to work when he could live without it. A farmer who resides in North Monaghan, who comes from the same part of the old country, offered prisoner a home if he would do the chores around the house, but he was too lazy and would rather lay in gaol.

The magistrate gave him a severe reprimand and sentenced him to six months in the central prison at hard labor.

A WARRANT ISSUED.

The case of P. C. McGhee against a youth ngmed Corby, was called, but defendant failed to appear, and a warrant for his arrest was asked for and issued. The charge was d. and.

The Boston Opera Company.

The following private telegram has been received from Lindsay in regard to the performance in that town of the Boston Opera Company, who are to play the favorite comic opera, "Betsy Baker" in Bradburn's Hall on Thursday evening:—

"The Boston Opera Company is well worthy of patronage. It is far ahead of most musical organizations, and is certainly the best that has performed here."

Watch For It.

Vennor warns us to put our house in order for a big storm on the 18th and 19th instant. He predicts wind, rain and snow.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

For all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

POINTS TO PONDER!

It is an enviable point in the career of a business firm when they are able to make prices below other dealers, and to make them too from a good, sound business basis.

The point is reached when a firm is no longer compelled to make a large profit on a small amount of business, but a small profit on a large amount of trade.

That is the happy position in which we stand to-day. It is the gross aggregate of our trade that tells the tale, and shows a mighty balance on the credit side of the ledger.

In commodious quarters, with increased facilities for serving the great mass of plain and well-to-do people, we are making a dash for the the best trade of town—that of people who value and want the best of goods.

Our terms to Millionaires and Mechanics are alike, and there is just one plainly marked price for every article

While we propose to give a dollar's value for one dollar, we shall be pleased to deal most liberally with large buyers. Large buyers know this, and are increasing their orders every day.

We submit the above definitions of our position.

THURSDAY, MARCH 16, 1882.

IMPORTANT TO MORTGAGORS.

A Decision in Chancery in their Favor—Interesting to Borrowers.

At Osgoode Hall on Saturday, the Judges of the Chancery Division gave a unanimous decision in the mortgage suit of Cruso vs. Bond, by which a very important alteration has been made in the relations which hitherto existed between those well known elements in Chancery litigation—the "mortgagor," and the "mortgagee." The above-named suit was brought for foreclosure, and after the bill was filed, the defendant tendered the full amount of principal and interest, and claimed a reconveyance and discharge of the mortgage. The plaintiff, however, refused to accept more than the overdue interest, and the defendant then moved some three months ago, before Mr. Dalton, Q. C., Master, for an order to compell the plaintiff to accept the full sum and discharge the mortgage. The learned Master, after reserving his decision, granted the application. The matter was then appealed to the Chancellor, who held the case was governed by the decision of Esten, Q. C., in Drummond vs. Guichard, not reported, and reversed the order, at the same time intimating that if the matter had been *res integra*, he would have been of the same opinion as the Master. In view of this expression of opinion, it was decided to appeal the case, and the argument was heard accordingly, before the full court, Chancery division. Judgment was given by the Chancellor on Saturday, in which the other members of the court concurred, reversing his own order, and reinstating that of the Master. This decision is one of the utmost importance to mortgagors, who can now enforse a discharge of the mortgage, by offering the full amount of principal and interest, on a suit being brought for foreclosure for non-payment of an instalment of interest. In the above case it is said the rate of interest was 10 per cent., so the object of the mortgagee in refusing to give a discharge was a very palpable one.

Wanderings of the Jeannette Sufferers.

Mr. W. W. Danenhower, of Washington, on Monday received two letters from his son, Lieutenant John Danenhower, of the Jeannette. The first is dated at Beelun, mouth of the Lena, November 9, 1881. There is added a postcript, dated at Iakutsk, December 17. The trip up the river from Beelun to Iakutsk occupied thirty-six days, and was made on sledges with dogs, reindeer, and horses. Lieutenant Danenhower describes the journey as one full of hardships. There were stations at intervals on the way constructed of logs. He describes the last one of these, seventeen miles from Iakutsk, the best one of the lot, as a small log building with a small shed attached. It was composed of one room, in which were twenty people when his party arrived. In the centre was the body of a horse that had been killed for food and brought into the room to thaw out. During the night that the party stopped in this hut, Jack Cole, the boatswain, while laboring under aberration of mind, got up and started to walk to New York to see his wife. The thermometer was sixty degrees below zero. It required all of Lieutenant Danenhower's persuasive powers to induce him to go back into the hut. At Iakutsk Lieutenant Danenhower says he found a man who understood French, and was taken to the Governor, who treated him with great kindness and consideration. He detailed a Lieutenant with instructions to give the wants of the party special attention. Lieutenant Danenhower speaks of his sojourn in Iakutsk as having been exceedingly pleasant and comfortable under the circumstances. In speaking of the terrible journey of the party, Lieutenant Danenhower says they had to travel 700 miles over the ice from the ship to the mouth of the Lena. They landed in shoal water, and were compelled to wade two miles to land. They were forced to travel 100 miles further before they reached shelter, and he says he was up five days and four nights without sleep or rest. He mentions the fact that out of the thirty-three men comprising the crew and officers of the Jeannette, only thirteen are known to be living and one is known to be dead.

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

MIDNIGHT TELEGRAMS

CABLE.

THANKSGIVING.

LONDON, March 15.—Tennyson, the poet, publishes a song of thanksgiving for the Queen's escape at the hands of McLean, which will be sung in London to-night and throughout the Colonies on the anniversary of Her Majesty's birthday.

THE TUNISIAN EXPEDITION.

PARIS, March 15.—The Minister of Finance has submitted to the Chambers a demand for a grant of 8,000,000 francs to defray the expenses of the expedition to Tunis for the first quarter of 1882.

REPORT DENIED.

LONDON, March 15.—The Berlin correspondent of the *Times* denies the report that a Prussian spy has been arrested at the railway station of Brotteaux, a suburb of Lyons.

HOUSE OF COMMONS.

LONDON, March 15.—In the Imperial House of Commons to-day the debate on the second reading of Findlater's bill to ease the block of business in the Land Courts by instituting a system of arbitration by valuators was adjourned by a vote of 131 to 86 on the suggestion of Gladstone and Forster, who considered that the matter would not be urgent for a few months, as the present rate of progress is somewhat more encouraging.

FEARS OF A RISING.

CORK, March 15.—The authorities are apprehensive of something in the nature of a rising on St. Patrick's day. An extraordinary number of cipher telegrams recently passed through the Cork post-office. The police have torn down placards bearing the words, "Be ready on St. Patrick's day."

THE LAMSON MURDER.

LONDON March, 15.—Dr. Lamson will be executed on April 4th. It is stated that the Treasury authorities have received information leading them strongly to suspect that Lamson is guilty of other serious crimes.

A NEW GREEK MINISTRY.

ATHENS March 15.—M. Tricoupis has formed a Greek Ministry which is strongly in favour of war with Turkey. It is as follows:—M. Calligas, Minister of Finance; M. Ronfos, Minister of Marine; Mr Ralli, Minister of Justice; M. Karaiskais, Minister of War; M. Tricoupis, Premier aud Minister of Foreign Affairs.

SOLITARY CONFINEMENT.

LONDON, March 15.—The *Times* publishes a communication on the question, notice of which has been given in the House of Commons by A. J. Otway, (Liberal), member for Rochester, as to whether Forster, Chief Secretary for Ireland, intends to shorten the time in solitary confinement daily by the imprisoned suspects. The writer says this question represents the feeling on the subject of many Liberal members and some Conservatives. Should the Government's answer be unsatisfactory, there will be a meeting of Liberal members for the purpose of considering the matter.

RUSSIA AND GERMANY.

BERLIN, March 15.—The *Cross-Gazette* says the interview between the Emperor and Prince Bismarck on Sunday was for the purpose of discussing the Russian question. The Skobeleff affair, it says, is regarded as settled, but great watchfulness is required. Prince Bismarck long since arranged European combinations for every eventuality. It is said that the Russian representatives at German courts have been instructed to assure the governments to which they are accredited that the Czar has firmly resolved to maintain amicable relations with Germany.

THE ANGLO-FRENCH TREATY.

PARIS, March 15.—The conference between the French Premier, M. de Freycinet, and Lord Lyons resulted in an agreement for the resumption of the Anglo-French commercial treaty negotiations, and commissioners will be at once appointed by both countries for that purpose.

THE QUEEN'S JOURNEY.

PARIS, March 15.—The Queen, who is on her way to Mentone, arrived in Paris to-day. Special precautions against any danger have been taken all along the route.

AMERICAN PORK.

PARIS, March 15.—A committee of the French Chamber of Deputies has adopted a report in favour of re-establishing a system for the inspection of American pork upon its importation.

AMERICAN.

POLYGAMY.

WASHINGTON, March 15.—There is great diversity of opinion among the lawyers in Congress as to the practical value of Senator Edmunds' anti-polygamy bill. It is feared the Mormons will evade the object of the measure by electing a legislature of polygamist sympathisers, even if actual polygamists are kept out. It is stated that Mr. Edmunds intends to introduce other bills correcting the alleged defects of this bill.

OF NO USE.

SALT LAKE, March 15.—The Deseret *News* says:—The working of the anti-polygamy law will evolve troubles that politicians have not counted upon. There is a power at work in 'Mormonism' which they always leave out of their calculations."

FREE CANALS.

ALBANY, March 15.—The Assembly Canal Committee has agreed to report favourably, by eight to three, a constitutional amendment introduced by Brodsky abolishing tolls on canals, and providing for the maintenance of the same by taxation.

AMERICA'S SHAME.

NEW YORK, March 15.—The *Tribune's* Washington despatch says there is no doubt that the president will approve of the anti-polygamy bill. The first practical effort now of the law will be to destroy any chance Cannon has had to secure a seat in congress. Judge McBride, Cannon's attorney, said yesterday that he thought the law could be executed, but he did not think its execution would take the territory from the hands of the Mormons and put it into the hands of the Gentiles. A commissioner said that it would doubtless admit of the competency of many Mormons, not polygamists, to vote and hold offices. The most that can be effected will be to secure a legislature of Gentiles or perhaps one-third Mormons, who, even when they are not polygamists, are all under the control of the church, and the Gentiles will not make territorial laws.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

KILLED WITHOUT WARNING.

PITTSBURG, Pa., March 16.—At the Rostrover coal works, coal is brought in cars down a steep incline to empty at the river's edge. Yesterday several men were standing on the tipple when a loaded car broke loose at the head of the incline and came down at a fearful speed, and crushed into the tipple, killing Ira Smith. Wm. Houseman and Arthur Jones.

AN INHUMAN FATHER.

ELKRIDGE, Md., March 16.—Spencer Lee, (colored) stripped his daughter Mary, aged 12, tied a rope to her ankle, and hung her from a rafter in his house, and whipped her severely on the bare flesh. Lee then left the house, and did not return until Monday. The girl's mother was also absent. The only one in the house was her sister, aged 9. Mary was hanging with her head down until Monday. Her sister was afraid to cut Mary down, lest her father would come back and punish her. Finally she cut the cords, and Mary fell heavily upon the bed, where she lay for several hours, suffering intensely. Afterwards she dragged herself to where her mother was working. Her mother caused Lee's arrest. Lee accuses his daughter of stealing.

PAUPER EMIGRANTS.

NEW YORK, March 16.—Francis Keeler, wife and two children, destitute immigrants, whose passages were paid by the Government of the Canton of Switzerland, have been sent back. Two inspectors will in future board all steamships at quarantine and prevent the landing of paupers, lunatics, or other improper emigrants.

THEY ARE CORRECT.

NEW YORK, March 16.—The *Tribune's* Washington special says that Sheppard informed the House Committee that he had examined the printed copy of the abstracts of the missing letters, and according to his recollection of the contents of the letters, the abstracts are correct.

DROWNING ACCIDENTS.

MEMPHIS, Tenn., March 16.—Three coloured men were drowned at Ten Mile Bay, by the upsetting of a dug-out. At Rosedale a prominent colored minister and elder Williams were drowned while attempting the rescue of two coloured girls.

THE TARIFF BILL.

WASHINGTON, March 16.—The Republican caucus last night agreed without a formal resolution that a majority of the House should proceed under the present rules and attempt to secure consideration of the tariff bill and if after two or three days it be found impractable to reach the bill under the present rules, then the Republicans should at once take up the amendments as a party, and press their consideration to the last.

SMALLPOX.

SOUTHAMPTON, Pa., March 16.—The cases of smallpox now number 200. There have been six deaths.

A FEMALE TANNER.

CHARLESTOWN, Ind., March 16.—Ann Herman, in the asylum for the insane, died yesterday after refusing food for 63 days. She drank water freely.

A TUG WRECKED.

MEWAUKEE, March 16.—The tug Patterson, lumber laden, yesterday was wrecked at Two Rivers Point. The crew were saved. The loss is $25,000.

CHINESE TROUBLES.

SAN FRANCISCO, March 16.—Hong Kong advices State that the revolutionary movement in Hunna has been suppressed and the leaders executed. The Conservative party are seeking to overthrow the Government for admitting foreign traders the privileges.

TIME CHANGES THINGS.

NEW YORK, March 16.—Vanderbuilt says that "five years ago we could have said it was impossible to carry freight at the rates railroads are now getting. Perhaps in five years more we may look back to the present rates think they were high. As for the labour question I do not know what is to be done to help it."

LIBEL SUITS.

SCRANTON, Pa., March 16.—A sensation has been caused here by a verdict of $450 for plaintiff in the libel case of Jermiah Hawker against Morris Goldsmith. Goldsmith signed a petition to the State Department of Public Instruction, asserting Hawker's unfitness for the position of city inspector of schools. Hawker sued 14 others but was *non* suited. Hawker now threatens to prosecute others to the number of 30, whose names are attached to the alleged libelous documents. Hawker was recently convicted himself of libelling.

ANOTHER BATCH.

NEW YORK, March 16.—130 doctors graduated from Bellevue Hospital Medical College yesterday.

MASON'S CASE.

NEW YORK, March 16.—General Hancock offered to surrender Mason to the civil authorities at Washington and the court martial was only ordered when the civil authorities refused to try him.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

Mothers!! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

KISS ME.—"TRABNEY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

Daily Evening Review

THURSDAY, MARCH 16, 1882.

ORGANIZING.

FOLLOWING the example of other constituencies a meeting of those who usually act with the Liberal Conservative party in the West Riding of the County of Peterborough, has been called for the purpose of organization for Wednesday the 22nd instant at 2.30 p.m., and it is to be hoped that every one who desires to see the principles upon which the National Policy is framed, maintained, will make it a point to attend.

As announced in the advertisement and notices calling the meeting, it is proposed to elect thereat the officers of the Liberal Conservative Association for the Riding—that is President, Secretary, Treasurer and a Vice-President for each polling division in the constituency, the last named of whom will be expected to take steps for holding meetings in their respective divisions for the appointment of delegates to attend a meeting to be held at an early day for the purpose of selecting their standard bearer in the next contest for the House of Commons and possibly also for the Local Legislature.

The meeting will therefore be a most important one from a party stand point, and it is to be earnestly hoped that all interested will make it a point to be present in order that their feelings and wishes may be duly considered at the proper time. It is becoming too much the practice for people now-a-days to stay away from such meetings and then to find fault with what has been done. As ample notice is being given of the coming meeting, and a cordial invitation extended to all who sympathize with the party, it will be their our fault if there are any grumblers at what has been done in their absence.

DOMINION PARLIAMENT.

MR. CHARLTON, resumed the debate on the budget and showed both his ability and versatility by combatting his own previous speeches.

Mr. Wallace followed, completely showing up the inconsistency of the last speaker, and ably defending the ministerial policy.

Mr. Irving, a new member from New Brunswick, made a rambling speech containing very strong personal abuse.

Mr. Gigault forcibly showed how entirely the Quebec Liberals were opposed to the policy of their old leaders, Baldwin and Lafontaine, and how absurd it was for them to pretend to be their successors. He humourously pointed out the conflicting nature of the arguments against the tariff advanced by different members of the opposition.

Mr. McLelan took up, point after point, the contentions of the principal speakers on the opposition side, and ably rebutted them. He completely turned the tables by exposing the extravagance and incompetency of the late administration.

The debate was continued by Messrs. Flynn and Gillmour in opposition to the Government, and by Messrs. McDonald, Kranz and Longley in their support.

Mr. Kirkpatrick's bill to prevent "ticket scalping," was read a second time and referred to the committee on Railways.

Mr. Thompson's bill making railway passenger tickets available to the holder, also passed its second reading.

Mr. Girouard's deceased wife's sister's bill passed through committee with much discussion and important amendments.

Mr. Charlton's bill making seduction a criminal offence, passed its second reading by a vote of 107 to 16.

Sir John Macdonald introduced a bill to increase the North-West mounted police.

Seven bills which had passed the Senate were read a first time in the Commons on Wednesday. Among them was one to amend and continue in force the Act respecting the administration of criminal justice in the territory in dispute between Ontario and Manitoba.

A LIBERAL COMPANY.

A prominent Montreal miller has just returned from Manitoba and the North-West, whither he went to arrange for the purchase of wheat. He gives a glowing account of the country, and speaks highly of the quality of the wheat produced. Having been asked if the freights on the existing lines were "out of the way," he replied:—

"No, they are very favorable. The Canadian Pacific Railway is giving us as low rates of freight as we can get from the Grand Trunk Railway or any railway in Canada. While speaking of the Canadian Pacific I must say that the land regulations of the Company are of the most liberal kind. They are selling their lands at $2,50 an acre, with a rebate of $1,25 per acre for what is under cultivation within four years. In pushing on the work of construction they are displaying more energy than ever. They have just issued a contract to one firm for 500 miles, and are negotiating the sale of 200 miles more. The fulfilment of these contracts will enable trains to reach Fort Calgarry, at the foot of the Rocky Mountains, next fall."

This will prove unpleasant reading to the "monopoly" howlers.—*Ottawa Citizens.*

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

YOUNG'S POINT.

From Our Own Correspondent.

FINE OXEN.—Mr. George Chalmers sold a fine yoke of oxen lately to Mr. McKnight, of Township of Cavan, for $150. They were in splendid condition. A son of Mr. McKnight is going to Manitoba and intends to use them to turn up the soil in the Prairie Province. He also purchased a yoke from Mr. James Northy, jun., for $100—destined also for the same place.

CATTLE FOR MANITOBA.—Mr. Wainwright passed through here one day last week with ten yoke of oxen he purchased in the back Town ships—all to be shipped to the Prairie Province for work. Quite a trade in cattle is being done with our back Township settlers.

BUILDING LOT.—Mr. John Young, sen., has recently purchased the one-acre Horan lot opposite the Roman Catholic Church and adjoining Ebenezer Bible Christian Church. He intends building a cottage on it this coming summer. It stands on a beautiful piece of rising ground, with a fine view of the lake. Mr. Young's motto is "Go ahead," he having resided for a good many years in the United States.

THE DAM.—I see by the newspapers that some of the good folks of Lakefield, led off by a few notables (or grumblers, properly speaking), are making a great fuss about a new dam to be built there for their edification. I will say that the dam about to be erected this summer should have been built long ago instead of throwing away good money every year trying to repair it. How would the good folks of Lakefield like it to be washed away down the river and flood them out this spring, and no navigation beyond the Point? If those that are all the time grumbling about their state of affairs *re* the Lakefield dam, would just leave the place and come and reside in this healthy spot, (called the Point,) we will make them welcome if they only settle down quietly. Lakefield should try all in their power to further our interests here and we will reciprocate.

REMOVAL.—Mr. John Young, son of Mr. William Young, residing near this place, has rented his fine farm in the township of Douro, and is going to reside on his father's farm, which consists of 200 acres. Mr. Young is a good farmer, and we welcome him amongst us as a neighbour.

ACCIDENT.—Mr. McGregor one day last week went below the mill to examine some repairs that were being made, and his head came in contact with a cog wheel, which cut his head pretty severely—it knocked his hat off and it has not been seen since. He attended to his duties as usual after getting the wound dressed. There is a good deal of Scotch grit about Mac.

CORDWOOD.—Your correspondent accompanied Mr. W. H. Casement, of Lakefield, joint proprietor of the steamer Cruiser, on a trip as far as Sandy Point one day last week, where Mr. Dugan, foreman for Mr. George Chalmers, is cutting and piling the stove wood. There are about one thousand double cords cut already and piled along the shore. As the proprietors of the Cruiser have taken the contract of delivering the wood to Lakefield, Mr. Casement was having an eye to business. He talks of taking the wood down on cedar rafts, and load and unload by machinery—a very good idea, doing away with those leaky scows.

HASTINGS.

A MYSTERY.—The *Star* says during the past year we have received a number of subscriptions from wholesale houses in Toronto and Montreal, the subscribers requesting us to acknowledge receipt by letter. Although we pocketed the dollars and were thankful, yet the matter was a mystery to us, for we were not vain enough to suppose that the able articles which have appeared from time to time in the *Star*, induced those gentlemen and they utter strangers to us, to become subscribers. The following which we clip from the New York *Times* of a recent date throws some light on the matter, and is worthy of serious consideration by all business men. "A wholesale grocer in this city who has become rich at his business says that his rule is that when he sells a bill of goods on credit, to immediately subscribe for a local newspaper of his debtor. So long as his customer advertised liberally and vigorously he rested, but as soon as he began to contract his advertisement space he took the fact as an evidence that there was trouble ahead, and invariably went for his debtor." Said he: "The man who is too poor to make his business known is too poor to do business. The withdrawal of an advertisement is evidence of weakness which business men are not slow to act upon. A newspaper is now recognized by all business men having faith in their wares as the most effective way of securing for their goods a wide recognition of their merits, and the business man who does not advertise, very plainly says he has no faith in his town, or his neighbors, his business or his paper. If the shoe pinches, etc."

TRAIN MAIL SERVICE.—The ink was scarcely dry on our last issue before the change we anticipated in the article under the above heading had taken place, much to the gratification of all business men. Our eastern mail now reaches here at 9:40 a.m., and the western at 4:30 p.m. The days of that "dear old stage" appear to be numbered, as we understand that arrangements are being made to carry the Norwood mail, which now comes here by train, to that village by special conveyance.

LARCENY.—A candidate for the penitentiary broke into the grist mill last Wednesday night and purloined some flour (quantity unknown), and carried off the contents of the cash box. Fortunately, there was very little to reward the burglar or burglars.

SMITTEN.—Elder Hawkins' dusky demoiselles have played sad havoc with the hearts of a number of our susceptible young men, several of whom signified their intention of renouncing the hum-drum life of Hastings, for the stage. There is no accounting for tastes.

ACCIDENT.—Mr. Henry Montgomery, an employee of John Coughlin, of this village, while stowing away a load of hay, fell through the stable loft and dislocated his hip.

NORTH MONAGHAN.

From Our Own Correspondent.

COUNCIL MEETING.—Pursuant to adjournment the Council of the Corporation of North Monaghan met at the Town Hall on Thursday, the 3rd day of March. Present—Henry Collins, Esq., Reeve, in the chair; Messrs. Brealy, Brownscombe, Foster and Dobbin. The minutes of the previous meeting were read and on motion confirmed. Communications were read from Mr. Diamond, Principal of the Ontario Institute for the Education of the Blind, Brantford, acknowledging the receipt of $20, contributed by North Monaghan Council towards clothing for George Doig, who is now a pupil of said Institution; from Mr. Southeran, Clerk of Cavan, stating that a deputation of Cavan Council would meet a deputation of Monaghan Council to examine the bridge at Douglas' Creek, on the boundary line between Monaghan and Cavan. The Reeve presented the auditors' report and statement of the Township accounts for the year 1881, which, on motion of Mr. Foster, seconded by Mr. Brownscombe, was received and adopted and the Clerk instructed to have abstract published according to law and 200 copies of the detailed statements printed in sheet form for distribution among the ratepayers. Mr. Thos. Harmer addressed the Council respecting the sale of a part of his park lot for arrears of taxes for the year 1877, and showed a receipt for all taxes demanded of him that year.—No action taken. By-law No. 297, appointing pound-keepers, fence-viewers and overseers of highways, received its second and third readings and was passed. By-law No. 298, to amend By-law No. 274, imposing penalties on certain animals running at large, was introduced by Mr. Brealy, put through its various stages, signed and sealed. On motion of Mr. Foster, seconded by Mr. Dobbin, the following accounts were ordered to be paid:—George Hovey, amount paid Wm. Bidgood, for repairing scraper, $2.15; amount paid as charity to purchase flour for Mr. Timlin, $3.000; Clerk, for postage, stationary, &c., $3.25. On motion of Mr. Brownscombe, seconded by Mr. Brealy, the Clerk was instructed to notify Jas. Brown, Wm. Brickley, John Hays and J. W. Fitzgerald to have their fences moved off the roadway across township lot No. 12, in the 12th concession of North Monaghan, as said roadway is about to be opened up as a public highway. Moved by Mr. Foster, seconded by Mr. Brownscombe, that this Council do now adjourn to the call of the Reeve.—Carried.

KEENE.

From Our Own Correspondent.

MINISTERIAL.—The communion services in the Presbyterian churches on last Sunday were largely attended. The Rev. Mr. Andrews in his sermon, especially in that part to those who for the first time had taken part in the sacrament of the Lord's Supper, was excellent.

THE FIRST TIME.—Rev. Cecil Harper conducted the services on his circuit here on Sunday for the first time since his bereavement.

S. S. INSTITUTE.—On Monday the 6th inst. there was a Sunday school institute meeting held at Bethel church which was a complete success. The next will be held at Keene in June.

NO DEBT LEFT.—The debt on the Methodist church has, during the last week, died quietly without a struggle, and its remains were quietly interred in the capacious maw of the past.

ELDER HAWKINS.—The Hawkins company (colored) gave a concert here on Thursday evening last to a full house, notwithstanding the moist condition of the night.

PERSONAL.—Mrs. Alex. Campbell, sr., is lying in a critical condition at present.

HOME AGAIN.—Mrs. Harrison, last Sunday, after an absence of a few weeks spent in Toronto, again presided at the organ in the Methodist church.

CARNIVAL.—The carnival last week at the rink was a success and a credit to the local talent. The music by the string band was good.

A STATION AT LAST.—On Monday the G. J. R. Co. commenced operations on the Keene station. We, who have been for so long a time sufferers at the sixth line crossing, devoutly wish them every success in their undertaking, and that their labors may be quickly crowned with success.

NEEDED.—Mr. Lang, the reeve, intends to open up the road to the station as soon as possible.

FISHING.—This winter several maskinonge have been caught on the lake through the ice.

GRAIN.—For the want of railway accommodation there is still a good deal of grain stored at Keene ware-houses.

GENTLE SPRING.—We have seen a few early spring birds already.

MOVED.—John Nelson, from east of the river, this week left for his new home in the western part of Ontario.

BUTCHER.—There is an opening in Keene for a good butcher.

PORT HOPE.

TELEPHONE EXCHANGE.—The *Guide* says that there is a telephone exchange established in town. At Mr. T. Long's office there are six instruments now in connection and in good working order to-day; there will be twenty, when all the connections are made, which are being done rapidly.

HE WINS THE GOLD MEDAL.—The *Guide* says that at the annual examination for certificates of license and practice of dentistry, held in Toronto last week, we are pleased to notice that the highest on the list is our young friend, Mr. Fred Judson Brown. The graduating class this year was the largest that has yet attended the college. Twenty-five wrote for honors, but only four out of that number were successful. The student obtaining the highest number of marks wins also the Faculty Gold Medal. This is the highest possible honor to be attained, and this has been taken by Mr. Brown. We again congratulate him on his success, and also Dr. Purslow, who must be equally gratified that another of the pupils of the Port Hope High School has brought such honor to the institution over which the Dr. so ably presides.

DUMMER.

CONTRIBUTION QUILT.—A subscriber writes us that the ladies connected with the South Dummer Presbyterian church have been most successful in raising funds to pay off a debt which stood against the congregations of Warsaw and Dummer, by means of a contribution quilt and social. A contribution quilt, we may state for the information of the uninformed, is a quilt having the name of each contributor upon one of its pieces. On the present occasion the quilt and social, through the kindness of a number of friends, realized the handsome sum of $116, which proved sufficient not only to pay off the debt, but to get a pump for the well at the manse, and leave a balance on hand of $25. At the close of the social the quilt was presented to Mrs. Fleming, the wife of the present popular pastor of the these congregations, and was suitably acknowledged by him.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

SIMCOE STREET.

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

Written for the REVIEW.

IF.

If our path were strewn with roses
That concealed no stinging thorn;
If the hour when one joy closes
Saw another newly born—
If our dreams were full of beauty,
And our waking, hours of peace,
Would we feel for those whose duty
Never gives their hearts release?

If our dwellings were a palace,
Where we knew no pang or pain,
Where the red wine in life's chalice
Bore no bitterness, no bane—
Would our sympathies awaken,
Would our velvet hands be spread
For the outcast, the forsaken,
Who has neither home nor bread?

If the world were juster, truer,
In its censure and its praise;
If our doubts and fears were fewer,
Fewer weary nights and days—
If there were no graves behind us
Where the lov'd and lost ones sleep,
No sweet memories to bind us—
Could we weep with those who weep?

If our hopes were never blasted,
If our loves grew never cold;
If our strength and beauty lasted
Till a hundred years were told—
Would our hearts be humbly given
To the Giver of such bliss?
Would we ever long for Heaven,
After such a life as this?

—F. WELLESLEY PORTER,
Peterborough, March 16th, 1882.

HOW MR. BRADLAUGH TOOK THE OATH.

Additional details are published concerning the late Bradlaugh incident in the House of Commons. While the result of the division on Mr. Labouchere's motion was being made known Mr. Bradlaugh rose from the seat which he occupied on the cross bench below the bar and advanced rapidly to the table. In a moment all eyes were turned upon him. The House, taken completely by surprise, expected that he would address them. Instead he dipped his right hand suddenly into the left breast pocket of his frock coat, pulled out a small, dark, shiny octavo volume, with red edges, which he transferred to his disengaged hand, made a second dive and brought forth a piece of paper, made a third dive and drew from his waistcoat pocket a stump of pencil, and amid exclamations of astonishment, not unmingled with groans of derision, "gabbled" through a form of words, inaudible above the din of dissent, kissed the little book, tossed it behind the crown of the mace and held up the piece of paper in the direction of the chair, at the same time calling out in an excited though triumphent voice, "I tender that as the oath, which I have taken according to law," and just as the clerk reached the corner where he stood deposited it beside the book. There were some manifestations of contempt and aversion, but the prevalent sentiment seemed to be one of unbridled mirth. The very daring of the act evoked peal upon peal of laughter. Then the Speaker rose in his place and called upon Mr. Bradlaugh to withdraw below the bar. Nothing loth that person only stayed to remark that he would obey, but that, having taken the oath he would now take his seat. Thereupon he backed toward the door, bowed low to the chair, and presently, facing about, ran up the steps of the gangway which divides that part of the chamber from the cross benches, and dropped into a vacant seat within the body of the House. Cries of "order! order!" rose from the Opposition, but the Government and their supporters remained imperturbable. Mr. Speaker however, was not to be trifled with. "The honorable member," said Sir Henry Brand in accents of offended authority, "has not carried out my instructions, which were that he should withdraw below the bar."

A TILT WITH THE SPEAKER.

Mr. Bradlaugh, no longer disconcerted, replied, as it seemed somewhat rudely. "I did obey your instructions and went below the bar, and have now taken my seat in pursuance of law, having now taken the oath perscribed by law." Supported by shouts of "Shame!" "Shame!" the Speaker as instantly resented the unaccustomed rudeness, and insisted that Mr. Bradlaugh should go below the bar and remain there, which he accordingly did. On a question of privilege Lord Randolph Churchill asked the house to affirm that the seat for Northampton was vacant, as if Mr. Bradlaugh "were dead." Sir Henry James, on the other hand, suggested a more cautious procedure. As the case now stood it should, he thought, be settled in a court of law, an opinion in which Mr. Labouchere fully concurred. Not so Lord Randolph Churchill. How, he inquired, were they to know that Mr. Bradlaugh's book was a New Testiment and net a copy of the "Fruits of Philosophy?" It was insanity on his part to suppose that such a pretence of complying with a most sacred and solemn form would be accepted in that place. It was a deliberate insult to the House. Matters had by this time come to such a pass that Mr. Gladstone found it advisable to interpose. He suggested that the question was one for calm deliberation and unimpassioned discussion, and proposed the adjournment of the debate. Dr. Lyons reiterated the charge of scandal and outrage, and proposed as an amendment to the Premier's motion: "That Charles Bradlaugh, in tendering himself to take an oath which he declared to have no binding effect upon his conscience, is guilty of profanation, that he hereby is declared incapable of sitting in this Parlirment, and that he be forthwith discharged from further attendance." Between the making of Dr. Lyon's motion and the temperate speech of Sir Stafford Northcote, councilling moderation and calling on the Government to take some step to vindicate the "outrage indicted on the dignity of the House." Lord Randolph Churchill walked up to the table, whence he removed the piece of paper from which Mr. Bradlaugh had read the words of the oath. Returning to his place he examined the document, and afterwards it was passed on from hand to hand for inspection until it reached Mr. James Lowther, who flung it back upon the table. Meanwhile Mr. Gladstone took possession of Mr. Bradlaugh's little book, which proved to be not what the member for Woodstock had suggested, but a copy of the "Revised Version." In spite of Mr. O'Donnell's counsel that neither "the book" nor "the piece of paper" should be taken possession of by the responsible officers of ihe House, lest some further legal quibble should arise, Mr. Bradlaugh's "Revised Version" did, as a matter of fact, mysteriously disappear from its conspicuous position near the mace. The motion for the adjournment of the debate was agreed to and the incident terminated.

DURING the carnival at Rome the horses got away in the race a little too soon, and two people were killed and others injured. The king and queen witnessed the catastrophe from opposite balconies.

FROM ALL OVER.

J. R. GREEN, the English historian, is dangerously ill.

THE debt of New York on February 28 was $96,685,796.39.

BARTLEY CAMPBELL won $7000 in the recent walking match, betting on Hazael.

CAMPANINI is the owner of the blacksmith shop in which he was once a laborer.

MONSIGNOR Thomas J. Capel, the distinguished Roman Catholic theologian of England, is soon to visit this country.

THE fact that projectiles weighing 340 kilogrammes (720 pounds) left the Schneider shields at Spezia undamaged is held to prove its superiority over the English shields.

MACK'S MAGNETIC MEDICINE is a positive remedy for nervous exhaustion and all weakness of the generative organs in both sexes. See advertisement in another column.

THE death is announced, at the age of 95, of Admiral Loney, the "father" of the British navy, who for the long period of eighty-four or eighty-five years had been connected with the naval service.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

THE Japanese government has decided that all criminals condemned to death during the latter days of 1881, shall be respited, in order that their trials may be reviewed by the judges, in accordance with the new penal code which came into force on Jan. 1.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—In the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

ACCOUNTS from Florence tell of carnival scenes there even worse than those at Naples. The papers head the report, "Carnival of cannibals." The lawless savage violence of the roughs rendered the corso impassible, and the citizens fled to their homes. The feeling is becoming general that what is now called the carnival must cease.

SARAH BERNHARDT was photographed reclining in an ebony coffin padded with white satin, promising at the time to die within a year if the photographer would agree to keep back the picture that length of time. Sarah having failed to keep her part of the bargain the photographer is now before the courts to be allowed to sell the pictures.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

EASTER day fell on April 9 in 1871. It will not, however, fall on this day again after the present year till 1944; then again in 1950, 2023, 2034, 2045, &c. In 1886 it will fall on April 25, its latest possible date. This will be the first time it has occurred since the introduction of the new style in 1752. It will then not occur again on April 25 until after an interval of fifty-seven years, or in 1943; then not again for one hundred and sixty-three years.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

THE emperor of Brazil has been systematically visiting and examining the factories and workshops of Rio and its vicinity, with the object of judging, by personal investigation, and by hearing the views of the proprietors and of experts, or the claims put forward by manufacturers for the higher protective taxation of foreign products of a similar kind and a great reduction of the import taxes on substances employed in the Brazilian manufactures.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

THE London Shipping *Gazette*, in a recent leading article, cites the evidence of the captain at an inquiry concerning the loss of the Loch Awe as powerful testimony of the value of oil in quieting the sea, and refers to the similar experience of the Montrose lifeboat crew, who made two careful experiments. The *Gazette* says; "In the case of the fishing boats attached to nets on the setting in the stormy weather, a gallon or two of oil might prove the means of saving boats, gear and crews."

WHEN men, women and children receive extensive benefit from any special means or source, we do not wonder that it stands foremost in their opinion as an ever present subject for unstinted praise. W. H. Woodward, a well-known and respected citizen of New Haven, Conn., residing at No. 23 Audubon street, testifies to the healing power of the St. Jacobs Oil. Mr. Woodward says he took cold some time ago. It settled in his left shoulder and neck in the form of a very severe attack of muscular rheumatism. He suffered a great deal from it, and is not particularly desirous of receiving another such visit. Having heard much about the Great German Remedy, he bought a bottle and gave his neck and shoulder a good rubbing with it. The night he made the application he could scarcely move his head, because of the extreme pain and soreness. The next day all the trouble had disappeared.

Why some People Fail to Succeed.

They neglect details.
They fail to push business.
They talk politics too much.
They have no eye to business.
They imitate their neighbours.
They know not the power of method.
They become rusty and lose ambition.
They let their help waste and destroy.
They have too much outside business.
They fail to invent or have new ideas.
They are not liberal to home enterprises.
They are penny wise and pound foolish.
They are not polite or accommodating.
They hope for fortune to drop in their laps.
They think most things take too much trouble.
They attend to every thing but their own business.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

ST. JACOBS OIL
TRADE MARK.

THE GREAT
GERMAN REMEDY.
FOR
RHEUMATISM,
Neuralgia, Sciatica, Lumbago, Backache, Soreness of the Chest, Gout, Quinsy, Sore Throat, Swellings and Sprains, Burns and Scalds, General Bodily Pains,
Tooth, Ear and Headache, Frosted Feet and Ears, and all other Pains and Aches.

No Preparation on earth equals ST. JACOBS OIL as a *safe, sure, simple* and *cheap* External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.

Directions in Eleven Languages.

A. VOGELER & CO.,
Baltimore, Md., U. S. A.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.
DR. B. J. KENDALL & CO., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

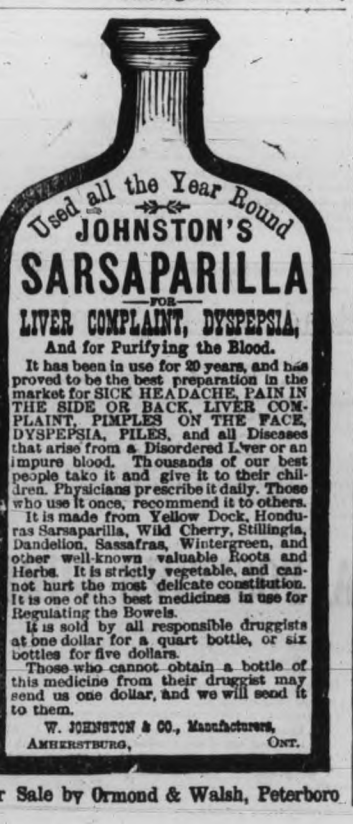
Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "**Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.
DR. B. J. KENDALL & CO., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness. It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.



Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1wly

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

PUZZLED PEOPLE

Who want to buy Best, should

READ!

NO mere handful of Goods, but a Store 80 feet in length, packed from one end to the other.

CHOSEN with a special eye to the wants of our growing trade.

PURCHASED at the closest of prices, it abounds throughout with the freshest and most desirable the market affords.

CONTAINS in many cases special lines of Goods at prices quoted only by ourselves.

NONE of our departments more attractive than our DRESS GOODS. Look at the same.

PARTICULARLY we mention our MILLINERY and MANTLE showrooms, which are neatly and conveniently arranged, and stocked with full lines of Spring Goods entirely new.

A CHANGE.

On and after to-night, in conjunction with the leading merchants of the town, we will keep our place of business open until 8 p. m.

MUNRO & ALEXANDER.

Daily Evening Review

THURSDAY, MARCH 16, 1882.

LOCAL AND MUNICIPAL.

Change of Premises.

Mr. John Garvey, as will be seen by his advertisement in another column, has removed from his late stand to a handsome store in the block, with which he and Mr. Dolan have lately improved this part of the town. It is not only a convenient store, but an excellent situation, being directly opposite the market and the town hall, and between the new City Hotel and the Caisse House. Mr. Garvey has done well for the past twelve years, at his old stand in the Market block, having secured a good trade by his close attention to business, and by the satisfaction he has given his customers through the genuine quality of his goods. In a more convenient store and a superior situation it is probable that he will have even greater success. A reference to his advertisement will show that he has determined to meet the wants of the public which his increased facilities and lessened expenses will better enable him to do.

Why Don't they Organize?

We notice by our exchanges that the lacrosse, cricket, football, baseball, and other athletic clubs are organizing for the approaching season, which promises to be one of the busiest in that line for years. In the meantime our clubs are quietly resting on their oars. All should organize at once, and be ready at the earliest moment to play matches with their neighbors. The Lacrosse Clubs of other towns will be considerably stronger this year than they were last, while if anything ours will be weaker, as some of the players have left for "El Dorado," and if they wish to retain that coveted cup, they want all the practice they can possibly obtain, and they should be in the field early. Organize at once, boys, and don't let the grass grow under your feet.

Speaks Well.

Mr. James Haw, of Port Hope, on Thursday night last shipped from that town to Montreal eighteen horses, which he had purchased in Peterborough and vicinity. On Saturday he disposed of the animals without any difficulty, and returned home on Sunday morning, losing only two days and making a nice little "pot" of money. The above fact certainly speaks well for the class of horses bred in this locality. So pleased was Mr. Haw with his venture that he has returned to town, and is now purchasing another car load or two.

The Best Yet.

The entertainments given annually on St. Patrick's night, under the auspices of the Emerald Dramatic Club, are always among the best of the season, and a packed house is an assured fact. This year the members have secured the services of Mr. and Mrs. R. A. Brennan, Peterborough's old favorites, Captain Geo. Liable, the miniature comedian, and a select company. Remember Bradburn's Hall, Friday evening. Be on hand early to secure a seat.

Personals.

The Rev. Mr. Willoughby, formerly stationed here, was in town on Tuesday.

Mr. R. Perrin left for Winnipeg this morning.

Messrs. Geo. H. Johnston and R. Cook leave for the North-West on Tuesday.

Messrs. F. T. Winch, R. H. Fortye, and G. Brown, late of the Midland Railway, leave on Monday to help the "boom" along.

Vital Statistics.

The Registrar General's report for 1880 shows that the Town of Peterborough returned a larger ratio than the average of births, standing near the top of the list, according to population. Our marriages were also above the average, and our deaths far below, showing that this is one of the healthiest towns in the Province.

"The Land of Promise."

Messrs. W. J. Rombough and Hugh Robinson left on Wednesday night for the Canadian land of promise. We understand it is not their intention to remain in Winnipeg, but to push on towards the "unknown city," in the Qu'Appelle district.

Trent Valley Canal.

Mr. Thos. Rubidge, C. E., of the Department of Railways and Canals, is now in town in connection with the construction of the Trent Valley Canal.

Will Oppose the N. P.

Mr. H. Calcutt, who has always been a strong supporter of the N. P., announces his intention of voting against it at the next election. He declares that it is a regular imposition, and says that it is almost impossible to get work of any kind done for love or money. He gives as an instance that he sent a boiler up to Mr. W. Hamilton's foundry to have it repaired, and although it has been there for some months it has not yet been touched. Customers have now to wait for their turns, like in a barber shop, before they can have their work done. He further says that the N. P. causes so much work to be done in Canada that our manufacturers have to employ large numbers of extra men, and work overtime, which he thinks is a shame. Things were widely different under the Mackenzie mal-administration.

Nearly Run Over.

Yesterday afternoon as the Oriental 'bus, on the way to the Union Station, was crossing Hunter street, a young child ran directly in front of the horses, and would undoubtedly have been killed but for the presence of mind of the driver, who adroitly turned his horses, passing within a few inches of the youngster, who ran on, seemingly unconscious of the great danger he had recently passed safely through. Nurses should be more careful of their charges, and should keep an eye on the children, especially when near crossings, or some fatal accidents may occur where so many horses and carriages are continually crossing and re-crossing.

Railway Notes

The Midland management has commenced the erection of a station at Keene on the Grand Junction division. As quite a trade is done with that enterprising village, the new erection will be a boon to the villagers, who, heretofore, have been compelled to stand on the side of the road without shelter or protection of any kind.

Offices and waiting rooms are now being fitted up at the Union station, Toronto, for the Midland. The motto of the Midland railway is anything for the comfort and convenience of its patrons.

Personal.

The Belleville *Ontario* says that we exceedingly regret to learn that Mr. Luttrell, late manager of the Grand Junction Railway, has had the misfortune to lose his wife. Mrs. Luttrell died at Hamilton last Thusday of consumption, and on Saturday the remains were taken to Montreal for interment. The deceased lady was well known to a large circle of friends in this city, by whom she was much respected. Mr. Luttrell will have the sympathy of many in his severe bereavement.

The Weather.

The weather remains unchangable. The days are pleasant and the nights quite cool. The weather probabilities for this district for the following twenty-four hours, as reported from Toronto at ten o'clock a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes,—Moderate to fresh winds. Fair weather. Stationary or higher temperatures.

Recently in Toronto.

Over 1,000 physicians and sufferers visited Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the the French army, he will be at the Huffman House, Peterborough, on the 17th of March, for five days and will have with him a supply of Spirometers for the cure of Catarrh, Bronchitis, Asthma and Lung diseases. Physicians and sufferers can try it free.

A Carnival.

The ice at the skating rink is now in splendid condition, and we would suggest to the management the advisability of holding another carnival. We have only had one in two years, and the last was such an unqualified success that it is a wonder to us why another is not held.

Ministerial.

We understand that the Rev. Mr. Walker, of McMaster Hall, Toronto, has received a call from the Aylmer street Baptist church, Peterborough, to assume the pastorate left vacant by the resignation of the Rev. Mr. Stobo.

The Boston Opera Company

Do not forget the performance this evening of the comic opera "Betsy Baker," by the Boston Opera Company, of whom the press and musical judges speak in the highest terms.

Testing Metres.

Messrs. Cahill and Drury are now busily engaged in testing the gas metres in use throughout the town. We understand that everything has been found very satisfactory so far.

Town Council.

A special meeting of the Town Council is in progress as we go to press. The question under consideration is the matter of the legislation asked for by the Ontario and Quebec Railway.

At Warkworth.

Mr. E. J. Hartley skates for a silver medal at Warkworth on Friday night. He is now wanted to give exhibitions all over the country.

The Rink.

The Fire Brigade Band will play at the Skating Rink on Friday night.

RESTORED TO COMPLETE HEALTH.—From Chas. E. Pearcy, of Brooks, Me.—"From early youth I was in feeble health, troubled with humor in my blood, weakness and debility of the system generally: was unable to labor much, and only at some light business, and then only with great caution. Seven years ago, the past spring, I had a severe attack of Diphtheria, which left my limbs paralized and useless, so that I was unable to walk or even sit up. Noticing the advertisement of Peruvian Syrup, I gave it a trial, and to my great joy soon found my health improving. I continued the use of the Syrup until three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present health intirely to the use of Peruvian Syrup, and hold it in high estimation. I cannot speak too strongly in its praise. I have several times recommended it in cases very similar to my own with the same good results. Sold by all druggists.

SEPARATE SCHOOL BOARD.

Special Meeting—Communications and Accounts—Appointment of a new Principal.

A special general meeting of the Separate School Board was held on Wednesday evening, the 15th inst., T. Cahill, Esq., being in the chair. All the Trustees were present. The minutes of last meeting were read and confirmed.

ATTENDANCE.

The following reports of attendance at the schools for February were read:—

	On Roll	*Av. Attendance*
Central School	145	105
Convent	160	138
Lake St. School	76	62
	381	308

ACCOUNTS.

A. L. Davis & Co., stationery	$4 00
Toker & Co., do.	2 82
W. H. Cluxton, Insurance	7 59
T. E. Fitzgerald, wood	4 40
M. McFadden, repairs	6 00

All were ordered to be paid except that of M. McFadden, which was laid over.

COMMUNICATIONS.

From the Educational Department, asking for information regarding Teachers' certiffcates and School attendance.—Furnished.

From the Provincial Treasurer, enclosing cheque for $135,—the apportionment to the School for the half year ending December 31st, ult.—Received.

From the Township Clerk of Douro re assessment of Patrick Walsh.—Received.

FILLING A VACANCY.

Moved by Dr. HOURIGAN, seconded by Mr. MUNCASTER,—That the vacancy created by the resignation of Mr. Lynch, head master, be filled by the appointment of Mr. M. O'Brien for the balance of the current year, at same salary as present teacher, duties to commence on the 10th of April next.—Carried.

WOOD SUPPLY.

Mr. GRIFFIN for the Committee appointed at last meeting to procure wood for the schools, reported verbally, having purchased the necessary supply.—Received.

The Board then adjourned.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal. All letters must contain stamp for reply. d64-w11

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

POINTS TO PONDER!

It is an enviable point in the career of a business firm when they are able to make prices below other dealers, and to make them too from a good, sound business basis.

The point is reached when a firm is no longer compelled to make a large profit on a small amount of business, but a small profit on a large amount of trade.

That is the happy position in which we stand today. It is the gross aggregate of our trade that tells the tale, and shows a mighty balance on the credit side of the ledger.

In commodious quarters, with increased facilities for serving the great mass of plain and well-to-do people, we are making a dash for the the best trade of town—that of people who value and want the best of goods.

Our terms to Millionaires and Mechanics are alike, and there is just one plainly marked price for every article

While we propose to give a dollar's value for one dollar, we shall be pleased to deal most liberally with large buyers. Large buyers know this, and are increasing their orders every day.

We submit the above definitions of our position.

T. DOLAN & Co

Nos. 1 and 2, Cluxton's Block, Corner of George and Hunter Streets.

Tenders for Hay, Straw, &c.

TENDERS will be received by the undersigned at their office, Peterborough, until noon of Friday, the 22nd instant, for the following to close account:—

J. C. ALLAN CO., 83 John street, New York. d62

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

The Best Field

FOR

EMIGRANTS.

An IMMENSE AREA of RAILROAD and GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

New Zealand, *via* San Francisco:—Letters, 15 cents papers, 4 cents.

H. C. ROGERS, Postmaster.

English Advertisements.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

PATENTS!

We continue to act as Solicitors for Patents, Caveats, Trade Marks, Copyrights, etc., for the United States, Canada, Cuba, England, France, Germany, etc. We have had **thirty-five years experience.**

Patents obtained through us are noticed in the SCIENTIFIC AMERICAN. This large and splendid illustrated weekly paper, $3 20 a year, shows the progress of Science, is very interesting, and has an enormous circulation. FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 50 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

FRIDAY, MARCH 17, 1882.

A TERRIBLE FATE.

Three Helpless Children Burned to Death in the Absence of their Parents.

Our Apsley correspondent informs us that intelligence has reached that village of the death by burning of the three small children of Alfred Willis, of the township of Cardiff, aged respectively seven years, three years, and seven months. The sad affair occurred on Monday, the 13th of March. From the meagre particulars to hand it is learned that the fire occurred between six and seven o'clock in the evening, while Mr. Willis and his wife were in the barn, situated not fifty yards from the house, loading hay. When they first discovered the fire the upper part of the house was completely enveloped in flames, and the lower part so full of smoke and so hot that the children, who had no doubt already been suffocated, could not be found and rescued. After the fire nothing except two or three bones could be found to show that the children had ever existed. The rapidity with which the fire must have spread is indicated by the fact that Mr. Willis left the house and everything apparently all right for the barn at ten minutes past six o'clock, and the events we have narrated all took place between that time and seven o'clock.

Since the above was in type Mr. Willis himself called on us, and says the facts as given are correct in every particular.

Railway Notes.

We understand that Mr. Wm. Gooderham, President of the Toronto and Nipissing Railway, having accepted the position of Vice-President and General Superintendent of Construction on the new work of the consolidated Midland Railway of Canada, on and after the first day of April, Mr. Geo. A. Cox, the President and General Manager, will assume the general management of the Toronto and Nipissing Railway, as well as the other lines forming the Consolidated Company.

It is announced that the Chief Engineer of the Ontario and Quebec Railroad has purchased the right of way in the vicinity of Sharbot Lake. The line crosses the Kingston and Pembroke Railway, about half a mile south of the village.

St. Patrick's Day.

To-day is St. Patrick's Day, but as far as Peterborough is concerned, it does not differ from any other. A few were seen on the streets wearing green favors, but the bustle of years ago was not at all noticeable. The Emerald Dramatic Association have taken a very sensible manner of celebrating the anniversary, by engaging the Brennan combination to give an entertainment in Bradburn's hall to-night.

The Weather.

The weather probabilities for this district for the following twenty-four hours, as reported from Toronto at ten o'clock a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes,—Northerly to south-easterly winds, increasing to a gale. Fine weather to-day, followed by increasing cloudiness, and rain or snow to-morrow. Stationary or higher temperatures.

The Brennans.

Mr. and Mrs. R. A. Brennan and their select company, including Mr. J. Ryan, the accomplished clog and jig dancer arrived on the noon Midland train and are quartered at the Caisse House. They play this evening.

Beatty's Organ Factory.

It is said that Beatty's large organ factory, at Washington, N.J., is turning out over 50 organs a day, and that the demand for the Beatty instrument is on the increase. The factory is running night and day to fill orders promptly.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

STRAWS SHOW, ETC.

LONDON, March 17.—A boat race took place to-day between Lewis Gibson and Goodwin, Hanlan's pilot, from Putney to Mortlake for £200. Goodwin won by five lengths.

AMERICAN.

A QUESTIONABLE ACTION.

CHICAGO, March 17.—Last night the city council voted to close all the city offices on St. Patrick's Day. This action has created considerable comment.

THE BIG FRAUD'S SON.

NEW YORK, March 17.—John W. a son of Brigham Young, said yesterday that he never heard until the other day that his father was not really dead and that a spurious resurrection was contemplated. His father never predicted "that he would re-appear on the earth." The Mormons are not superstitious enough to believe in such a re-appearance, nor are we in need of any tricks or devices to keep them in our fold.

COSTLY "COCKTAILS."

NEW YORK, March 17.—The *Herald's* Washington despatch says the bills presented by members of the House alone to the committee for expenses of the Garfield funeral, amount to $7,000. It is understood that bills have been presented by members whether officially in the funeral cortege or not. It is stated that one item consists of $1,700 paid for champagne, brandy, whiskey, cigars and lunch. Three hundred dollars are charged for "cocktails." There are said to be other bills nearly as bad as this, though less in amount.

DOWN GOES WHISKEY.

NEW YORK, March 17.—Edward Owen & Co., wholesale liquor dealers, here, assigned with liabilities of $80,000. The failure is due to the extreme dullness in the whiskey market caused by the discussion of the reduction of the tax on whiskey.

WILD WESTERN FUN.

DENVER, March 17.—At Gopher station on the Kansas Pacific railway yesterday, a section foreman named Thomas Pitman, his brother, and John Ebberts were shot, in consequence of a difficulty on Wednesday, by Thomas Motten and James McCallum, emigrants. Motten was wounded by one of the Pitmans. The emigrants robbed the wounded section men and escaped. It is not known whether the wounds are fatal.

A BUBBLE BURST.

WASHINGTON, March 17.—Our consul at Bremen reports that the petroleum furore in Germany has subsided. The German oil when refined does not burn as well as the American oil.

ARCTIC SEARCH.

WASHINGTON, March 17.—Danenhower, writing from Yakutsk on Dec. 31st, states that the search for the missing members of the Jeannette's crew is limited to a very narrow strip of country to which the party has been traced.

HOLDING OUT.

FROSTBURG, Md., March 17.—The strike of the Cumberland coal miners promises to be be longer than at first expected. It is said the Knights of Labour for five or six months made heavy assessments upon the members, and have $40,000 in the treasury. Besides this the men individually are well supplied with funds.

BLOCKED BY SNOW.

SAN FRANCISCO, March 17.—Several Central Pacific trains are lying in the Blue Canyon road blocked by snow. Near Immigrant Gap a snow slide carried away the snow sheds. Another slide occurred at Tamarack.

GUTTED BY FIRE.

NIAGARA FALLS, N. Y., March 17.—One of the buildings of the Oneida Community was, this morning completely gutted by fire, loss $10,000.

INDICTING STRIKERS.

OMAHA, March 17.—It is stated that the Grand Jury presented 25 indictments against twenty leaders of the strikers, some having two indictments against them.

FINE PAINTINGS.

BOSTON, March 17.—The collection of paintings of the late Alvin Adams, founder of the Adam's Express Co., is being sold here. The collection cost $200,000, but it is thought only $70,000 will be realized.

NEW YORK'S COLLECTOR.

NEW YORK, March 17.—The *Times'* Washington despatch says collector Robertson, now here, had a pleasent interview with the President yesterday. There is no foundation whatever as far as Robertson knows for the story that he will be superseded.

DEATH IN A CAVE.

ST. JOSEPH, Mo., March 17.—John Montgomery, Randall Montgomery, Nicholas Kell, Allen Rhodes and Michael Garrish, all boys, dug a cave in a hill side near here yesterday ann went into it to play. The bank caved in crushing all to death.

A DOUBTFUL YARN.

SHELDON, ILL., March 17.—It is rumored that G. W. Johnson, editor of the *Gazette*, a prominent Republican politician and an applicant for the Swedish Consulship, forged a commercial paper to the extent of several thousand dollars, and left the country.

FEARFUL FATAL FLOODS.

MEMPHIS, March 17.—In Phillips County, Arkansas, an old negro, his wife and six children were fleeing from home in a skiff, when the craft capsized, and the entire family were drowned, on Buffalo Island, at Francis Lake, where there is a population of a thousand, and entirely cut off from communication. They have not been heard from since the floods began. The havoc that may have been wrought there may prove one of the worst chapters in the whole history of the floods.

MYSTERIOUS MOUNDS.

VICKSBURG, March 17.—The curious theory has developed here that the ancient mound-builders built the mounds for the purpose of entrapping game during the overflows. The fact that the mounds extend up into the prairie lands of Ohio and Illinois, remote from the low lands of the Mississippi is against this theory. The mounds, which are plentiful throughout the overflowed district, are serving a beneficial purpase in preserving life and property.

THE INSANITY DODGE.

UTICA, N.Y., March 17.—Remshaw, who shot Dr. Gray, was brought before Recorder Bulger this morning, and committed to await the action of the grand jury, which meets on Monday. Remshaw is judged insane by those who conversed with him last night and this morning. Dr. Gray is in bed but comfortable. A slight rise in temperature is reported, but it is not thought that the wound will much disfigure his face. There will be a small scar under his left eye where the ball entered, but the place whence it issued will be hidden by his beard.

MASON AT SING SING.

ALBANY, March 16.—Sergeant Mason arrived this morning. When he read in the paper about his plea for protection for his wife and child he cried.

SENTENCE COMMUTED.

ALBANY, March 16.—The Governor has decided to commute the sentence of Staingar, the Buffalo murderer, to confinement in Auburn prison for life.

IRELAND'S PATRON SAINT.

WASHINGTON, March 17.—St. Patrick's Day was celebrated here by a parade of the various societies.

MALFEASANCE IN OFFICE.

ALBANY, March 17.—The Governor has received charges of malfeasance against District Attorney Downing, of Queen's County.

INCENDIARY FIRES.

NEW HAVEN, March 17.—Konold's gin distillery was burned this morning, causing a loss of $30,000. The Calvary Baptist Church was also gutted at five this morning. The damage is $75,000. Both fires are supposed to be incendiary.

MIDNIGHT TELEGRAMS

CABLE.

A FRENCH ASSASSIN.

PARIS, March 16.—A miscreant shot, wounded and robbed Savignol, the Inspector of Insurance Companies, in a railway carriage on the Lyons R.R. The assassin escaped.

MASON'S CASE.

WASHINGTON, March 17.—Counsel for Mason say that they are determined to investigate by what authority Mason was so hurriedly sent to Albany, while a motion for a writ of *habeas corpus* was pending. He intends to call the attention of the Adjutant-General of the Army to the matter.

ANNEXATION TO AUSTRIA.

BERLIN, March 16.—Austria is determined to annex Bosnia and the Herzegovina for good and all, and that Prince Bismarck favours such annexation and is using pressure to induce the Porte to acquiesce.

ST. PATRICK'S DAY.

DUBLIN, March 16.—There will be the usual official ceremonies here to-morrow. No trouble is expected.

IRISH J. P. FIRED AT.

DUBLIN, March 16.—At Belmullet, Ireland, Mr. Carter, a justice of the peace and an extensive landlord, has been fired at and seriously wounded in the leg.

AMERICAN.

GUITEAU'S ASSAILANT.

WASHINGTON, March 16.—Sergeant Mason's counsel has prepared a petition for a writ of *habeas corpus*, on the ground that the court martial has no jurisdiction in time of peace, and that even if the court has jurisdiction the sentence exceeds any punishment authorized by law. The petition recites that the statute authorizes imprisonment alone.—Judge Wylie this afternoon denied the prayer of Mason's *habeas corpus* petition, but reconsidered his judgment, and allowed counsel to withdraw papers, the latter wishing to present them to the court *in banc* to-morrow. Meantime Mason has been sent in irons to Albany penitentiary under a guard of four soldiers. Mason published a card to-day, saying:—"I do not want to be pardoned by no Guiteau President. All I ask is for my darling wife and baby to be placed beyond want."

BANK BILL FRAUDS.

TROY, March 16.—Bank bills ranging in denomination from two to twenty dollars have been accepted at the banks in this city which it is discovered are an inch short of the regular size. The person engaged in the fraud are unknown, and have reaped a rich harvest. The device consists in cutting two-thirds from a bill; then one-eight is cut from another bill of the same denomination, and then eight and two-thirds are pasted together, making, apparently, a genuine bank note. Five two-dollar bills in this way are made to yield twelve dollars, and five ten dollar notes make sixty dollars.

BURNED.

NEW YORK, March 16.—Three buildings on Warren street occupied by *Puck* newspaper and several other business establishments were damaged by fire this morning. $33,000 is the loss.

REPAIRING A TUNNEL.

SYRACUSE, March 16.—The Central Railway Company this morning commenced to repair the tunnel under the 69 mile level on the Erie canal. The south arch has been leaking for two years, and the company were fearful of serious trouble in case it gave way. The work will not interfere with travel.

THE FIRE FIEND.

CONCORD, N. H., March 16.—Clough's furniture manufactory and a house occupied by a dozen families, were burned this morning. The loss is $25,000.

TRAGEDY AT GRAVENHURST.

A Shantyman Severely Beaten by Roughs—His Injuries Prove Fatal.

GRAVENHURST, March 16.—An affray, involving the death of a shantyman named McMullen, occurred at this place on Thursday last. At the spring of the year shantymen resort to this village, and rows of more or less violence are of frequent occurrence. This time, it appears, McMullen got into a fight, but the trouble was quieted for the time being. Subsequently he was followed by several men, who beat him so severely that he died from his injuries the following day. A man named Gilfraser, a member of the gang, whose names are said to be known, was arrested, but made his escape from the constables. The village is the scene of great excitement, and every effort is being made to bring the perpetrators of the brutal outrage to justice.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

Daily Evening Review

FRIDAY, MARCH 17, 1882.

CANADIAN INDUSTRIES.

NEW FACTORIES STARTED UNDER THE NATIONAL POLICY.

Increased Wages Paid—Decrease of Price of Goods—New Works Opened and Extra Men Employed.

OTTAWA, March 14.—The following important paper was to-day laid on the table of the House :—

To the Hon. the Minister of Finance:—

In accordance with your letter of instruction, we have the honour to submit for your information the following supplementary report, containing the figures with reference to the state of wages, prices of goods, new factories, and increased number of hands in the old established factories since the fall of 1878. It will be observed by the figures that there has been a general increase in the number of hands employed in all branches of the manufacturing industries, but that the glass, cotton, woollen, and organ and piano works show the largest proportionate increase. It must, of course, be understood that the list of new factories mentioned on page 4 does not represent the whole of the factories which have been started in the Dominion during the past three years. The ninety-six alluded to are simply those which have come under our observation during the course of the investigation. There are others located at places which we did not visit, and we have reason to believe that there are some others in places which were visited. In various places we found many buildings in course of construction to be used as factories, amongst others we may mention that cotton factories are being erected in each of the provinces. The full statistics and reference to this industry will be found on page 14. A large factory was nearly completed at Coaticook, to be used as a beet-sugar factory a portion of the year, and in refining cane-sugar when the crop of beets had been worked up. A very fine brick building was just completed at Campbellford, and is now in full running order, giving employment to 125 hands in the manufacture of woollen goods. We found in Nova Scotia that the coal mines were doing a satisfactory business, the managers and miners feeling satisfied that their interests were being carefully considered by the Government. In connection with this we may say that Nova Scotia coal is being used by manufacturers along the line of the Grand Trunk railway as far as Cobourg and Guelph. The coal is said by those who use it to be a more economical fuel than any which they had previously used. Some conversation was had with the proprietor of a foundry at Charlottetown, who was greatly enlarging his premises, and he reported that orders for machinery to be used in the manufacturing industries were coming in faster than he was able to supply the demands. The new factories are scattered over the whole section covered by our tour, each province participating in the general revival of trade. The number of new factories is as nearly as possible one-fifth of the whole, so that twenty per cent. of the works visited were started since September, 1878. We were unable to get the increased number of hands in all the older factories visited, but we have ascertained the increase in a sufficient number of cases to give a basis. The table on page 6 will be found approximately correct.

We have the honour to be, your obedient servants,

WILLIAM LUCAS,
A. H. BLACKETT.

NEW FACTORIES.

The number and kind of new factories started since September, 1878 :—

Knitting	7	Lamp goods	1
Nut and bolt	2	Hats	1
Knitting needle	1	Blankets	3
Tobacco	2	Cork	1
Barb wire	1	Envelope	1
Foundries	3	Shirts	2
Furniture	3	Cotton	4
Woollen	7	Clocks	1
Paper boxes	2	Metal plated-ware	2
Boots and shoes	3	Iron bridges	1
Clothing	1	Glass	3
Buttons	3	Emery wheels	1
Organs	3	Sugar	5
Paper mills	3	Files	1
Boilers	1	Canning	2
Cigar boxes	1	Silk	2
Child's carriages	1	Pianos	4
Paint	1	Corsets	1
Salt drying	1	Picture frames	4
Window shades	1	Potteries	2
Locks	1	Brush	1
Cap	1	Slippers	1
Gloves	1		
Mill furnishings	1	Total	96
Planing mill	1		

HANDS EMPLOYED.

The number of hands employed at these new factories is 7,242, divided as follows :—

Foundries	358	Sugar refineries	918
Furniture factories	78	Glass and potteries	833
Woollen and knitting factories	1,045	Miscellaneous manufactures of wood	179
Boot and shoe	596	General miscellaneous	993
Clothing, articles of	612		
Cotton mills	709		
Manufactures of paper	175		7,242
Organ and piano	207		
Tobacco	109		

ADDITIONAL HANDS IN OLD FACTORIES.

The percentage of increase in the number of hands employed in factories which were in existence prior to September, 1878 :—

	Per cent.		Per cent.
In foundries	14	In cotton factories	20
In furniture factories	20	In rope, flax, and bush factories	11
In boot and shoe factories	11	In manufactures of paper	10
In glass and pottery works	25	In miscellaneous manufactures of wood	10
In organ and piano works	28	In miscellaneous manufactures of iron	16
In wool and knitting factories	19	In general miscellaneous manufactures	21
In tobacco and cigar factories	7		
In clothing factories	14		

We give in detail further on, the state of nearly all the factories in one or two towns and two villages, which were gone through more thoroughly than most of the other places visited.

COMPARISON OF PRICES.

Comparison of the prices of manufactured goods between January, 1879, and the date of our visit in 1881 :—

Number of factories which have made no change in prices of goods		322
Factories which have increased by	p.c. 25	2
" " "	20	4
" " "	15	1
" " "	12	1
" " "	10	18
" " "	7½	1
" " "	5	18
" " decreased by	25	3
" " "	20	3
" " "	15	5
" " "	10	11
" " "	5	25
Number of factories from which we got no information		11

The increase in most of the factories was stated to be on account of an advance in the price of their raw material.

COMPARISON OF WAGES.

Comparison of the state of wages between January, 1879, and the date of our visit in 1881 :—

Totals	2,150	4,060	8,610

In all an increase of 6,460 in 1882 over 1878. In addition there are factories projected at Sherbrooke, Three Rivers, and Lachute.

THE INLAND FISHERIES.

A Memorial to Congress from United States Fishermen—Amendments Desired.

WASHINGTON, March 15.—The fishery industries of Lakes Huron, Erie, and Michigan, and the rivers of the United States connected therewith, have again presented a memorial to Congress, beginning with the proposition that the present revenue laws between the United States and Canada are inequitable and unjust. They ask that the same be so amended that a duty of one and one-half cents per pound be imposed upon all fresh water fish called hard fish and a duty of one-half cent per pound on all fresh water fish called soft fish imported into the United States that may be caught in Canadian waters, for the following reasons : That large sums of money are invested in said industry by citizens of the United States in boats, scows, tugs, and their equipments, tackle, nets, grounds, warehouses, and their equipments, giving employment to about 1,500 men. The memorialists say that the capital thus invested is about $3,150,000, of which sum over half a million dollars is in nets of foreign manufacture on which a duty of 45 per cent. is paid, and that the amount paid in wages is nearly $6,000,000 annually. That by means of the use of steam tugs in said business the Americans cannot compete with Canadian importers. That under the present revenue laws fresh water fish caught in Canadian waters by citizens of Canada are admitted into the United States free of duty, while those of the same kind caught in the waters of the United States and exported to Canada are subject to a duty charge of 1c. per lb. That while no restrictions are imposed on Canadians, Americans are prohibited from fishing in Canadian waters unless they become citizens of Great Britain, and that, further, the relative cost and expense of placing upon the markets of the United States fresh fish caught in Canadian waters and the importation thereof is from 1½c. to 2c. per pound for hard fish and from 15c. to 20c. per 100 lbs. for soft fish, whereas the cost and expenses of placing upon the same market fresh fish caught by citizens of the United States from the waters thereof is for hard fish from 3c. to 3½c. per lb. and soft fish from 50c. to 60c. per 100 lbs.

MR. F. W. FISK, money clerk at the American Express office, Kansas City, Mo., was interviewed by the reporter. Mr. Fisk said the St. Jabobs Oil is known to about every express messenger and employee of the company, and is used by them for a variety of ills, such as rheumatism, neuralgia sprains, etc. Mr. Fisk stated that he had been using it a long time for sprains and bruises, and always found relief. Upon one occasion, while getting off a train, he slipped and hurt his knee very badly. The hurt was so severe that it laid him up. He applied St. Jacobs Oil and was restored very soon. Mr. Fisk says the Oil is the best thing he knows for taking soreness out of one's limbs after violent exercise. When in college he used to be a boating man. All the college crew used St. Jacobs Oil for the above-mentioned purpose. It seems to be understood generally as the quickest and surest remedy for all soreness of the flesh, and pain arising from sprain or muscular contractions. He also recommends it to all sufferers of rheumatism.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

RESTORED TO COMPLETE HEALTH.—From Chas. E. Pearcy, of Brooks, Me.—"From early youth I was in feeble health, troubled with humor in my blood, weakness and debility of the system generally: was unable to labor much, and only at some light business, and then only with great caution. Seven years ago, the past spring, I had a severe attack of Diphtheria, which left my limbs paralized and useless, so that I was unable to walk or even sit up. Noticing the advertisement of Peruvian Syrup, I gave it a trial, and to my great joy soon found my health improving. I continued the use of the Syrup until three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present health intirely to the use of Peruvian Syrup, and hold it in high estimation. I cannot speak too strongly in its praise. I have several times recommended it in cases very similar to my own with the same good results. Sold by all druggists.

New Advertisements.

A BARGAIN.

$125 CASH will buy a horse, harness, two cutters and a buggy. Apply at once to S. SHELDRAKE, Lakefield. 2d65-2w11

An Inspection and Comparison of Goods and Prices cordially invited.

THOMAS KELLY.

PORT HOPE.

STUCK.—The *Times* says that Mr. Elias Thompson, of Peterborough, is engaged drawing timbers for spars, to Port Hope harbor. On Monday at noon, he gave occasion for some considerable excitement at the east end of Walton street. Six teams were hitched to a pine spar, between 60 and 70 feet long, and from two to three feet across. One end of the timber was resting on a single bob, while the rest trailed on the ground. We are informed that the piece in question came from the woods four miles to the north of us, and will be used for the schooner Aurora. As to its vicissitudes before reaching the corner of Mill and Walton streets, we know nothing, but at that particular place, a turning point in its career was necessary, and to turn a straight piece of timber sixty-five feet long in a street not nearly so wide, required some engineering. However, after the six teams of horses had been hitched on each end alternately, for several times, and one of the men had been caught in the side and sent headlong and face foremost into the mud, the timber was finally squared around into the middle of the street, in readiness for a long pull and a strong pull to the next turn-down corner. By this time a crowd had assembled, and were discussing the situation as gravely as though it was one of political importance, no doubt the horses felt it to be a heavy drag on the constitution. By dint of heavy pulling the load was started again, and the rear end as it slid along the north sidewalk scattered the spectators right and left. All went well untill a turn was to be made down Queen street, when the same was too soon, bringing the front end around with great force against the Mountain Ash tree just in front of the Bank of Toronto, almost uprooting it. Had it not been for it the door of the Bank of Toronto would have been crushed in. At this point was a dead stand still. Four of the teams were unhitched and fastened to the rear end to pull the timber around, but they were unable to move it, even with a "rolling hitch." The other two teams took their place and by a plucky effort drew it the first time, but as mishap would have it the end struck the sidewalk, the shock making the whole block shake perceptibly. By the latter move the timber was upset off the bob, and had to be drawn on again. The spectators were numerous by this time, and were each asserting how easily "he could do it" and "what jackasses the drivers" were. Constable Gamble too appeared and gave them a lecture about injuring the tree by their reckless driving. Finally by a zigzag movement they got their load fairly on the way again, and did not stop until they had safely lodged the spar at its destination.

NAVIGATION OPENED.—Business is beginning to move again at the harbor, in view of the anticipated early opening of the navigation. The schooners Agnes and Lewis Ross are being loaded with railroad ties for Charlotte. It is expected that the whole fleet will be out by the 1st of April, about one month earlier than last year.

CAMPBELLFORD.

YOUNG MEN'S LIBERAL CONSERVATIVE CLUB.—The *Herald* says that the young men of East Northumberland intend to work in the interests of the Conservative party, and following in the footsteps of older politicians they have formed themselves into an association. The meeting for organization took place at Warkworth, two weeks ago, yesterday, and the following officers were elected:—President, Samuel Nesbitt; Secretary, F. S. Gould; Treasurer, W. Cochrane; Vice-Presidents, R. R. Philip, Cramahe; F. Cydermaman, Percy; E. Denmark, Seymour; Dr. Boyce, Murray; J. H. Morrow, Brighton; W. Raird, Brighton Village; Dr. Willoughby, Colborne; and George Waters, Campbellford.

A SMALL AUDIENCE.—There was quite a contrast between the audience which greeted the celebrated Kennedy family a few weeks ago, and that which assembled at the Music Hall, on Monday evening last. On the first of the two occasions now under review, it was difficult to obtain standing room, but their present visit was so thinly attended that Mr. Kennedy refused to appear on the platform. The money taken at the door was refunded, and the disappointed people left the hall.

ANOTHER INDUSTRIAL SOUND.— There was put into order at the Trent Valley woolen mills last week, the whistle which summons the employees to their work. When complete it will be a combination of three sounds. It makes itself heard six times a day—six, half-past six, and a quarter to seven in the morning, noon, a quarter to one, and six o'clock p. m.

THE TRAIN SERVICE for postal matter is a convenience to business men, and will be just the thing when arrangements are completed for four mails daily. The stage contract between Brighton and Campbellford expires early in April.

SO LARGE was the attendance at the C. M. Church, last Sunday, that it was necesary to secure benches and place them in the aisles to give sitting accommodation to all who were present.

A ROMANCE.

This is a romance but true, truer than most newspaper stories. It might be that and still give the truth "points" and beat it. But this is the story, which we vouch for: Five years ago a young Dublin man loved and won a beautiful lass, and as both were poor determined to carve for the twain a fortune in the great Northwest of Canada, which at that time had just commenced to make a stir in the world. They parted with many tears, swearing fidelity to each other, and for five long years corresponded every two weeks, letter crossing letter mid way on the ocean. Each was faithful. He adored his absent idol, and she worshipped her ideal Northwastern farmer. The time came when he was prosperous and well to do, and he sent the glad tidings to her, across the great waters, by those who go down to the sea in ships. She was overjoyed, and to save expense she crossed the wild ocean alone, instead of compelling him to visit the green isle, an bring her out. He came down from Beaconsd field, Manitoba, and met her in Toroto. This is where the trouble commenced. She looked upon him and decided that he was not her ideal. He gazed upon her, and all the love that had fed upon her letters and the memory of her beautiful face for five years intensified. He tried to clasp her in his arms in the most approved fashion, but she burst into tears and repulsed him. And yet he is worth $35,000, the approved N. W. amount. She told him brokenly that she could not marry him, and he, keeping up his courage, stalked majestically from her presence. He declared that he would return to Winnipeg that night. She dissolved and melted into tears. He filled up the aching void with nature's sweet consoler. After three days she relented and yearned for him, even if he did not come up to her ideal, and he—well, he having got as far as Hamilton, decided to come back and gaze once more upon his faithless love. That settled it. They were married yesterday morning, and are now on the road to Winnipeg.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

FROM ALL OVER.

NEW SOUTH WALES does not desire a treaty of reciprocity with the United States but it does want the latter government to lower or equal its duty on Australian wool, a good deal of which New South Wales has to toil.

MACK'S MAGNETIC MEDICINE is a positive remedy for nervous exhaustion and all weakness of the generative organs in both sexes. See advertisement in another column.

JOHN B. GOUGH'S last engagement for the present season will be filled in Baltimore about the 1st of next month. and he will then, it is reported, retire permanently from the lecture field, in which he has been so prominent a figure for forty years.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

THE ex-Empress Eugenie shows the ravages of time and grief a thousandfold more than Queen Victoria. A warm friendship exists between them, and they exchange condolences with a sort of melancholy pleasure on the anniversaries of their days of misfortune.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

THE Rev. E. D. Towle, in his farewell sermon to a Methodist congregation in New Bedford, made an assault on orthodoxy. One of his points was that, according to sound Methodist belief, Garfield had gone to hell because he did not believe in the Trinity, while Guiteau would go to heaven if he repented of his crime.

Two factory girls had been sentenced to four months' imprisonment for drunkenness in Lowell, Mass. They were young and their case excited sympathy in court. As they were being taken out the officers saw their mothers slip a bottle of whiskey into the pocket of each. There was no longer any astonishment that they had become drunkards so young.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

SHAKESPEARE'S Irish characters—"Which of Shakespeare's plays do you like best Mr. O'Flanigan?" "Well, I like the Irish ones the best." "And which may those be Mr. O'Flannigan?" "Are you so ignorant as that, my son? Sure your education's been badly neglected. Why, O'Thello, Corry O'Lanus, Mike Beth, and Katharine and Pat Ruchid."

A GOOD FILTER.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

MR. GUILFORD ONSLOW and other friends of the Tichborne claimant visited him at the Portsea prison a few days ago. The convict is reported to be in good health, and although depressed as to his prospects of release, rallied considerable when informed that efforts were intended to be made on his behalf in parliament by one or two members who had hitherto taken no active interest in his cause.

IT having been decided that the Tuileries ruins are to be cleared away, a committee has been appointed to examine what portions of the same it is practicable to preserve as historical memorials in the national museums or parks. Most of the exposed portions of the stones having been calcined by the fires of the commune, and having since endured the destructive effects of weather, will crumble to pieces at the slightest touch.

IT is an old German custom to have the Emperor stand as god-father to the seventh son of any royal subject. Mr. Henry A. Esch, of Vincennes, Ind., thought of this upon the birth of his seventh son a few days ago, and in lieu of an Emperor wrote to President Arthur, asking him to become a god-father. His Excellency replied, deputing postmaster W. D. Lewis, as the Government representative there, to act in his stead, and the old custom was observed as in the fatherland.

Soul Burying.

Whenever an Abchasian is drowned his friends search carefully for the body, but if this is not found, they proceed to capture the soul of the deceased, a measure which then has become a matter of importance.

A goatskin bag is sprinkled with water and placed with its mouth, which is stretched open over a hoop, toward the river, near the place where the man is supposed to have been drowned. Two cords are stretched from the spot across the river as a bridge on which the soul can come over. Vessels containing food and drink are set around the skin, and the friends of the deceased come and eat quietly, while a song is sung with instrumental accompaniments.

The soul, it is believed, is attracted by the ceremonies, comes over the bridge that is made for it, and goes into the trap. As soon as it has entered—that is, when the bag is inflated by the breeze—the opening is quietly closed, and the bag is taken up to the burial place, where a grave has already been prepared. The bag is held with the opening to the grave, and the strings are untied, and the bag is squeezed into the grave, and the burial is afterwards completed.

The rite is considered of equivalent value with the burial of the body, and the grave is treated with the same honor as if the body were really within it.—*Popular Science Monthly.*

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis. Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "Kendall's Spavin Cure has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frost bites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure. I have since then been well and free from lameness It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

MUNRO & ALEXANDER.

Daily Evening Review

FRIDAY, MARCH 17, 1882.

LOCAL AND MUNICIPAL.

Boston Opera Company.

Bradburn's Hall was packed full on Thursday night, being more crowded than we have seen it at any previous entertainment, with the audience assembled to enjoy the performance of the Boston Opera Company. We were glad to see such a good house, as Mr. W. H. Cluxton has several times been a sufferer through his public spirit in bringing good music to this town. Those who were present could not have regretted it, as the musical version of "Betsy Baker" was excellent. Some of the choicest airs of the most popular operettas were introduced, and were adequately rendered by the performers, who are all efficient artists. Both for her singing and acting, Miss May Alice Vars in the title role must be awarded the palm, and we may add that her cornet imitations without any instrument were both pleasing and novel. Mr. H. G. Snow as Mr. Mouser, with his æsthetic attitudes and graces, was very comic, and he as well as the other members of the company have good voices, and did full justice to the music.

Lost and Found.

On Thursday the following telegram was received here:—

BLAIRTON, March 16, 1882.

To Peterborough Chief of Police:—Look out for stolen mare, color, clear bay, sixteen hands high, three years, white star on face, wort on front of breast, also on one side left hind leg, likely going east.

WM. STEVENS.

In the afternoon the following was received:—

BLAIRTON, March 16, 1882.

To Peterborough Chief of Police:—Horse found, give up search.

WM. STEVENS.

In this connection we are requested to state by the officers that this is the first case in their recollection that the person who sent the telegram has had the courtesy to inform them when the man, horse, or article, as the case might be, was found, and in consequence the officers have been on the *qui vive* for weeks after everything was all right. Perhaps the heads of the police force in different places will take the hint.

A Rare Treat.

Now is the chance for our town, if they wish the finest entertainment that ever visited Peterborough. Mr. Singleton, of Port Hope, organist of the Methodist Church, has succeeded after a great deal of trouble and expense in securing the Royal Hand Bell Ringers and Gleemen from London England, for two entertainments, and will give one night here if we guarantee a full house. Mr. S. has a guarantee list open at Davidson's book store for signature. Call and see it. All names on this list will have first choice of seats. Date, April 19th.

Railway Notes

The Norwood *Register* says that work on the survey of the Ontario and Quebec Railway between Peterborough and Norwood is being pushed forward with all possible speed. The surveyors are now at work between Indian River and this place and make their head-quarters at Mr. Smith's Hotel. Another party of surveyors are reported to have commenced operations in the vicinity of Prenevau's Hotel. They will work west and meet the party going east from the Indian River.

At The Huffman House.

To-day the parlors of Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the French army, were crowded with physicians and sufferers, using his wonderful instrument, the Spirameter, for the cure of Catarrh, Bronchitis, Asthma and Lung Diseases. He will be here until Wednesday next. Physicians and sufferers can try it free.

Midland Railway of Canada.

The traffic of the above railway for the week ending March 15th, 1882, was as follows:—Passengers and Mails, $6,850.83; Freight, $11,175.49; Total, $18,026.32, as compared with $11,003,35 for the corresponding week of 1881, being an increase of $7,022.97; and the aggregate traffic to date is $135,038.97, being an increase of $50,939.30 over 1881.

Temperance.

We understand that the Rev. W. B. Affleck, the celebrated temperance lecturer, who visited Peterborough some years ago, is again to visit us. At present he is in Toronto.

The Rink.

The Fire Brigade Band will play at the Skating Rink on Friday night.

TOWN COUNCIL MEETING

THE PROPOSED ONTARIO AND QUEBEC RAILWAY LEGISLATION TAKEN UP.

The Former Resolution Considerably Whittled Down and Another one of a Milder Tone Passed and the Corporate Seal Attached Thereto—Other Minor Business.

A special meeting of the Town Council was held at the Chamber on Thursday at 4 o'clock p.m.

Present—Councillors Cahill, Kelly, Paterson, Poussette, Rutherford, Menzies and Denne, and Messrs. R. A. Morrow, G. Stethem, J. Carnegie, R. Rowe, J. Stevenson, T. G. Hazlitt, Jno. McClelland and W. Mills.

OBJECT OF THE MEETING.

Councillor MENZIES on motion took the chair and explained that the meeting was called for the purpose of considering the question of opposing the legislation now asked for by the Ontario and Quebec Railway Company, asking to be allowed to amalgamate with any road the line may cross, etc.

Councillor POUSSETTE then read from the REVIEW the original clause and amendment as proposed. He said that the only railway concerned was the Midland Railway Company, as they had powers to amalgamate with all the others in this district except it. If the bill was not designed to sell the road to the Midland, it had no meaning at all. He was afraid that if the legislation sought was granted that the Midland would swallow up the T. & O. Ry., or *vice versa*. Peterborough wanted a competing line and if the legislation was granted, we would be no better off than we are now. He then read the following memorial which had been forwarded to the Government:—

To the Honorable the House of Commons for the Dominion of Canada in Parliament assembled.

The petition of the Municipal Corporation of the Town of Peterborough, in the Province of Ontario by the Council thereof, humbly sheweth as follows:—

1. Your petitioners view with alarm the amendment to their charter now being asked from your Honorable House by the Ontario & Quebec Railway Company.

2. The said Company obtained their charter upon the representation and understanding that their line of railroad would be absolutely independent of aid, would compete with the Toronto and Ottawa Railway Company, which now forms part of and is amalgamated with the Midland Railway of Canada.

3. The proposed amendment to its charter although not in express terms so framed as to enable it "to make the necessary arrangements for amalgamation with, or for the acquisition of the charter of, or leasing of the lines" of the Midland Railway of Canada yet by the words, "or with such other Railway Company or Companies the line of which the Ontario and Quebec Railway when constructed may connect with, intersect or cross" that object will be effected.

4. Your petitioners humbly submit that in view of the fact that the charter was granted to the Ontario and Quebec Railway with the avowed intention of creating competition with the Toronto and Ottawa Railway Company, powers should not be granted to the Ontario and Quebec Railway Company, which would have the effect of enabling it at any future time to absorb or become absorbed with other competing companies.

Your petitioners therefore pray that the amendments to its charter now asked by the Ontario and Quebec Railway, be not granted by your Honorable House. And your petitioners as in duty bound will ever pray, &c.

Sealed with the Corporate Seal, and signed on behalf of the Corporation, in pursuance of a resolution of the Council thereof, this fifteenth day of March, A.D., 1882.

WHAT WAS SAID.

Mr. HAZLITT had nothing to say.

Mr. J. CARNEGIE knew nothing about the meeting until this morning. The resolution and the memorial in his opinion went a little too far. He was in favor of amalgamating with as many roads as possible west of us. He would like to see the bill passed so that the railway could not amalgamate with any roads between Toronto and Perth. We want the road and he would like to see it built. He would limit the amalgamation to the roads specified in the bill.

Mr. STEVENSON agreed with the last speaker. He wanted the road and would not throw a straw in its way.

Mr. CARNEGIE said that we were now acting alongside of the Grand Trunk.

Councillor POUSSETTE, apparently, only.

Mr. R. A. MORROW also agreed with Mr. Carnegie. He would allow the O. & Q. to amalgamate with roads at Toronto and Ottawa.

Councillor POUSSETTE said the powers asked for were too unlimited and too indefinite. If any particular roads were mentioned he could see his way better.

Mr. CARNEGIE said that the Grand Trunk and the Great Western were now fighting for the Toronto, Grey and Bruce.

Councillor POUSSETTE said the memorial showed in plain terms the position of the town of Peterborough. He thought the only danger was that the O. & Q. would sell out to the Midland. Some railway men were unscrupulous, for instance, Mr. Gooderham, of Toronto, and the T. & O. charter. He firmly believed that if the O. & Q. could make a little money by selling out their charter that they would do so.

Councillor CAHILL thought anything the town would do would have but little affect. Our members would have the matter discussed fully, and he was in favor of leaving the matter to them to act as the saw fit. He thought they would guard our interests.

Moved by Councillor CAHILL, seconded by Councillor RUTHERFORD,—That upon further consideration of the matter of the memorial ordered to be forwarded to Ottawa on the 14th inst, with reference to the proposed amendment to the charter of the Ontario and Quebec Railway, this council, while opposed to the general powers of amalgamation sought for, are of the opinion that the said Ontario and Quebec Railway, should be granted the power of amalgamation with the Toronto, Grey and Bruce Railway, as asked for; and that a certified copy of this resolution be forwarded to our representatives at Ottawa and that the corporate seal be attached to this resolution.—Carried.

Mr. HAZLITT said a memorial had been sent to Ottawa, asking that the O. & Q. Railway be not allowed to amalgamate with any road. If that was tabled, and our members pressed for anything different, they would be placed in the position of being opposed to the views of the council. He objected to the powers asked for. There is a contest now going on for the possession of T. G. & B. Railway and acting as we are doing, we are helping the G. T. Railway and hindering the constuction of the O. & Q. We want the O. & Q. to give as competition. At present the Grand Trunk and Midland interests are identical, and he did not think there was any danger of the Midland buying up the Syndicate. If the Syndicate constructed the O. & Q. we would have competition from the Northwest to the Seaboard. He would support the O. & Q. by any means except a bonus. He would confine the legislation asked for, to roads east and west of us and not allow the O. & Q. to amalgamate with the Midland.

Councillor RUTHERFORD thought the Midland would never get the O. & Q., as the former was now controlled by the Grand Trunk. He was in favor of withdrawing the memorial.

Councillor POUSSETTE said the memorial was already presented to the House of Commons. He understood that our members had opposed the bill.

Mr. Carnegie was afraid the opponents of the bill would make use of the resolution of the Council and give that as a reason why the bill should be thrown out. He favored a resolution distinctly stating the position of the Council in the matter under consideration.

Councillor POUSSETTE said that if Councillor Cahill's motion passed it would be a vote of censure on the speaker.

Councillor CAHILL said that such was not at all intended.

Councillor PATERSON thought that it was the duty of our members to look after our interests. He was in favor of adding another clause to the memorial and heading it "And your honorable body are further memorialized."

Mr. W. MILLS, J. P., was in favor of amalgamating with the Great Western and other western roads, but opposed joining the Midland.

The motion was then put and carried.

A STREET AND BRIDGE MATTER.

Moved by Councillor CAHILL, seconded by Councillor PATERSON, That the Street and Bridge Inspector be instructed to ascertain the number of miles of streets and sidewalks in the town.—Lost.

Councillor POUSSETTE would support the motion if it was added to it that he ascertain the sidewalks that are in want of repair.

Councillor CAHILL thought that would be impossible.

Councillor RUTHERFORD wanted to know the different widths of sidewalks and the amount of lumber in them.

Councillor CAHILL thought he could easily approximate the information asked for by the last speaker.

The meeting then broke up.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. "But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal. All letters must contain stamp for reply. d64-w11

POINTS TO PONDER!

It is an enviable point in the career of a business firm when they are able to make prices below other dealers, and to make them too from a good, sound business basis.

The point is reached when a firm is no longer compelled to make a large profit on a small amount of business, but a small profit on a large amount of trade.

That is the happy position in which we stand today. It is the gross aggregate of our trade that tells the tale, and shows a mighty balance on the credit side of the ledger.

In commodious quarters, with increased facilities for serving the great mass of plain and well-to-do people, we are making a dash for the the best trade of town—that of people who value and want the best of goods.

Our terms to Millionaires and Mechanics are alike, and there is just one plainly marked price for every article. While we propose to give a dollar's value for one dollar, we shall be pleased to deal most liberally with large buyers. Large buyers know this, and are increasing their orders every day.

We submit the above definitions of our position.

English Advertisements.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Mack's Magnetic Medicine is sold by Druggists at 50 cts. per box, or 12 for $5, or will be mailed free of postage, on receipt of the money, by addressing MACK'S MAGNETIC MEDICINE CO., Windsor, Ont., Canada. Sold in Peterborough by ORMOND & WALSH, and by all druggists everywhere. d138 w49 123

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

SATURDAY, MARCH 18, 1882.

LINDSAY.

A DANGEROUS TOY.—The *Warder* says that a small boy named Mills, a pupil of the East Ward school, on Monday last conceived the unhappy idea that twenty-four dynamite cartridges contained a large amount of fun, and not being a selfish boy he distributed the above number among his little schoolmates. Five of the cartridges, we are told, were placed on the stove, but were knocked off by a scholar. They were the kind commonly used in blasting rocks and are a portion of a stock supplied for that purpose. Before the commencement of school work Willie Baldwin and several others stood at the stove warming themselves. It is supposed that Willie held a cartridge in his left hand and a pen in his right and was industriously picking at the dynamite when the explosion took place. The thumb and two fingers were blown of his left hand which was otherwise shattered, and the nails were blown off the thumb and first finger of the right hand. Doctors DeGrassi and Rodgers arrived almost immediately, and amputated portions of the shattered fingers and dressed the little sufferer's wounds without giving him an anæsthetic. A piece of copper from the cartridge entered just above the little fellow's eye which was easily extracted. Another boy named Cunningham was slightly injured. It is a wonder that a number of the children were not killed instantly and the building blown into pieces. Had they thrown any of the cartridges into the stove we might have had to record a terrible slaughter of innocents. Whoever left the dynamite within the reach of the child cannot be held blameless, and it is to be hoped that Monday's occurrence will prove a lasting lesson to careless people. At the time of the explosion it is said that the teacher had commenced to pick with a pin at one of the cartridges in order to prepare it for the top of a pencil for one of her pupils. If such is the case, she had a very close call, and one that she is not likely to soon forget. The unfortunate child is 10 years of age and a son of Mr Clove Baldwin. The little fellow is the favorite of the whole school.

ORGANIZING.—A meeting of the Liberal Conservatives of the South Riding of Victoria was held in the Opera House, Lindsay, on Thursday afternoon, for the purpose of organization and electing officers. Representatives were present from the various townships of the Riding. The following officers were unanimously elected for the ensuing year:—

PRESIDENT—John Dobson, Lindsay.

VICE-PRESIDENT—Dr. Norris, Omemee.

SECRETARY—F. D. Moore, Lindsay.

TREASURER—Edward Flood, Lindsay.

EXECUTIVE COMMITTEE.—Mariposa—Alex. Smith, J. S. Cruess, Thos. Kenny, and Thos. Dodds. Ops—Patrick Duck, D. J. Curran and Alex. McKay. Emily—Thos. Stephenson, Wm. Lehane and J. J. Mitchell. Verulam—C. Fairbairn. Bobcaygeon—Capt. Bottum. Omemee—Isaac McNeely. Lindsay—Alex. Wray.

After passing resolutions approving of the course pursued by the Dominion Government, and the Ontario Opposition, the meeting adjourned.

THE PAPER MILL.—On Wednesday morning a force of workmen commenced the task of over hauling the machinery and fitting up the Maine Tannin Co's building for the manufacture of straw board and wrapping paper. It will take about two months to make the necessary improvements, at the end of which time Lindsay will possess an industry which is destined to extend. In addition to the present machinery there will be added a new 25 horse power engine and boiler, and a modern improved paper machine worth $10,000. This machine will be suitable for the manufacture of all kinds of paper, so that when the demand for wrapping paper is short they will be able to change stock and turn out print and other fine lines, both plain and coloured. Mr. McKay is a practical paper maker, and understands thoroughly every detail in connection with its manufacture, having learned the business in Scotland. Previous to assuming the management of the Lindsay mill he was engaged in turning out fine writing paper at Newburg, N.Y. At the commencement the mill will give employment to over 20 persons, and as the business increases the working staff will also be increased.

Dr. Pierce's "Favorite Prescription," for all those weaknesses peculiar to women, is an unequalled remedy. Distressing backache and "bearing-down" sensations yield to its strength-giving properties. By druggists.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

MIDNIGHT TELEGRAMS

CABLE.

HE DIDN'T KNOW.

VIENNA, March 17.—A letter from St. Petersburg states that Gen. Skobeloff, in replying to the Czar's serious reprimand regarding his speech, pleaded that he did not know himself what he said.

THE IRREPRESSIBLE.

LONDON, March 17.—A meeting of the electors of Northampton has approved of Mr. Bradlaugh's conduct in the House of Commons, and passed resolutions authorizing the executive of the Liberal and Radical Union to sign a petition to the House, praying to be heard at the bar in support of its claim of the right to be represented in the House.

FREE-THINKERS' CONGRESS.

ROME, March 17.—Mr. Bradlaugh has been earnestly pressed by a committee of the Free-thinkers' League to accept the presidency of the international congress to be held in Rome next autumn.

GEN. SKOBELEFF'S SPEECH.

LONDON, March 17.—The *Times'* to-day publishes a despatch from Berlin, which is in substance a repetition and confirmation of the intelligence sent in their despatches yesterday. The *Times'* despatch says:—"Nothing has hitherto been received from St. Petersburg to show that the Czar did not welcome General Skobeleffi on his return from Paris with the same favour that he showed him when he returned from the Turcoman campaign. The evidences of this favour may have been less open, but if they were to some extent secret, they were none the less expressive." The *Times'* despatch goes on to say what was said in these despatches yesterday, that is, that the latest account of Gen. Skobeleff's interview with the Czar is from the general himself, who at a military club at St. Petersburg explained to his brother officers that he never spoke unreflectingly, and that the Czar fully shared his opinions, but did not venaure to openly espouse them, fearing to offend powerful Germany.

ST. PATRICK'S DAY RIOT.

CORK, Mar. 17.—While a band was parading the streets at Dunmanway, county Cork, to-day, the police interfered and cleared the street with loaded rifles. Several persons were arrested. The day passed quietly in Belfast and Dublin.

HOME RULE LEAGUE.

DUBLIN, Mar. 17.—A meeting was convened here to-day for the purpose of considering a resolution for dissolving the Home Rule League.

A CUBAN AFFAIR.

MADRD, Mar. 17.—It is reported that Gen. Prendergast has resigned the captain-generalship of Cuba on account of the dissensions between the Liberals and Conservatives on that Island.

THE BALTIC OPEN.

ST. PETERSBURG, Mar. 17.—The Baltic is re-open to navigation, and active preparations are going on at its different ports for the resumption of business in connection with its carrying traffic.

SLAVERY IN BORNEO.

LONDON, Mar. 17—In the House of Commons the motion of Mr. Gorst (Conservative) that the Queen revoke so much of the charter of the British North Borneo Association as gives implied sanction to slavery was rejected by 125 to 62. Mr. Gladstone stated that he assumed the responsibility of granting a charter to the company. If the company failed to abolish slavery the Government could revoke its charter. Sir Charles Dilke said the Government's powers enable them to go any length to extinguish slavery.

AMERICAN.

THE SMALLPOX SCARE.

ERIE, Pa., March 17.—A young man named Forman, boarding with a family named Stark, of Blue Valley, was taken ill of alleged measles a few days ago, and the whole family of five became affected with the same disease. This afternoon the Board of Health visited a family, and found them all stricken with the virulent form of smallpox.

SPINNERS ON STRIKE.

LAWRENCE, Mass., March 17.—The entire cotton spinning help at the Central Pacific mill have struck, stopping 3,300 spindles. A meeting of strikers is now being held, and great excitement prevails. It is not believed that an amicable arrangement is possible, and the mills may be forced to shut down. This would throw 6,000 operatives out of employment.

LATER.—The meeting voted to continue the strike, and hold a mass meeting to-morrow to which all operatives in the city are invited. The mill superintendent refuses to receive a committee of strikers. There are now 450 active strikers, and 200 carders, spoolers and warpers have been compelled to suspend work.

A MONSTER WHALE.

NEW YORK, March 17.—Capt. J. B. Edwards, of the steamer Fanny Sprague, of Montauk, captured a whale while cruising on Wednesday near East Hampton, L.I. It is the largest ever taken off that coast, and is about 80 feet long. It is thought to be good for 100 barrels of oil and about 1,000 pounds of whalebone. The monster was attached to the steamer, which started with it in tow for this port.

RATIONS ISSUED.

WASHINGTON, March 17.—The Secretary of War has ordered twenty-five thousand additional rations to be issued for the sufferers in Mississippi.

THE GREAT FLOODS.

WASHINGTON, March 17.—In the House to-day a communication from the Secretary of War was received relative to the South-West. It estimates the number of persons rendered destitute as 85,000. In Missouri 2,200, Illinois 2,000, Kentucky 800, Tennessee 5,000, Mississippi 30,000, Arkansas 20,000, Louisiana 25,000. Seven hundred and thirteen thousand rations have been distributed. The appropriation already made is sufficient to purchase 800,000 rations, and the supply will be exhausted in Arkansas, Mississippi, and Louisiana about the 21st. No estimate can be made for the time during which the necessity for congressional aid will continue. No further demands are expected from Illinois and Kentucky, but from Missouri, Tennessee, Arkansas, and Mississippi, the department has information that the necessity for assistance will continue from thirty to sixty days. The department has no information from Louisiana, but it is thought it may be placed in the same category as Mississippi.

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

ANOTHER THEATRE FIRE.

MARSEILLES, March 18.—The State Place Theatre has been burned. Loss, 10,000,000 francs. The actors escaped with great difficulty.

THAT SHOOTING MATCH.

LONDON, March 18.—The committee arranging the international shooting match appeal for subscriptions to aid in the formation of the best team the country can produce.

BEAR AND EAGLE.

LONDON, March 18.—A Paris correspondent has received information that Bismarck thinks seriously of letting the relations between Germany and Russia take their course. There is no confidence in Berlin in the alleged rumour that the Czar wished to remain friendly with Germany.

AMERICAN.

SHIPPING.

NEW YORK, March 18.—Arrived, the Divonia from Glasgow.

AIDING MASON.

NEW YORK, March 18.—The Garfield Club propose to distribute for signature petitions to the President for the pardon of Mason.

A SEA OF ICE.

NEW YORK, March 18.—The steamship Sheldon from Scotland passed through 150 miles of ice, on the banks of New Foundland.

A CONVICT'S DOOM.

COLUMBIA, S. C. March 18.—Brooks Holcombe an escaped colored convict was found with his head cut of and otherwise mutilated, on a Railway near Fort Motte. His shackles were still on.

ARRIVED IN.

NEW YORK, March 18.—Arrived, the Erin, from London.

NOT SHARP ENOUGH.

CHIAAGO, March 18.—Alphonse Marquette, who swindled Montreal dealers out of $200,000 worth of dry goods and jewelry, and escaped, recently started business here. Yesterday a Montreal lawyer caused the seizure of Marquette's store, residence and diamonds, valued at $10,000. Marquette is thought to be in Missouri. It is expected that he will be arrested.

SPREADING RAILS.

WESLEY, Ohio, March 18.—On the Cleveland and Mariotta Railway on Thursday night, as a passenger train approached the bridge near here, a coach containing thirteen persons was thrown from the track by the spreading of the rails, and hurled down a steep embankment. Conductor Lagrange, Mrs. Robertson, and Mrs. Williams, colored, the last two residing at Harmar, Ohio, were terribly hurt, and since died. Another lady passenger was horribly burned by coals from the stove. All the other passengers were injured, some seriously. It is said that the road in many places is in a bad condition, and was recently condemned by the Railway Commission. For a time no passenger trains were allowed to run, but lately trains have been running at a speed of 12 miles an hour.

BLATCHFORD'S CASE.

NEW YORK, March 18.—The *World's* Washington special says surprise was manifested at the Senate's delay in acting upon the nomination of Blatchford. It is said that anonymous letters have been sent to the Committee, giving reasons why Blatchford should not be allowed to go up on the Supreme Court bench.

TRESCOTT'S CASE.

WASHINGTON, March 18.—Ample time has elapsed for advices by mail of Trescott's doings. Inquiry discloses that the State Department has not yet received a copy of the protocol which Trescott is to submit to the Peruvian Government as a basis of peace negotiations between Peru and Chili, nor indeed any advices from Trescott for a long time.

LOTS OF THEM ON HAND.

ST. PETERSBURG, March 18.—It is reported that Skobleoff has received 43 challenges from Germany to fight duels.

INDICATIONS.

WASHINGTON, March 18.—Lakes—rain or snow, clearing in western portion, winds shifting to south-west and north-west by Sunday morning, in western higher barometer.

KILLED FOR SPITE.

NEW YORK, March 18.—Thos. Edmundson an old and respected citizen, was shot and killed by a young man named Gyke, the supposed cause being an old spite.

A BLAZE.

FAIRHAVEN, March 18.—The Baron House and three other buildings were burned. The loss is $30,000.

OTTAWA.

Special to the Review, March 18.

THE ANNUAL PRESS DINNER which was to have taken place on Saturday, has been posponed until Saturday the 1st of April.

WM. HOUSTON, chief of the *Globe* Parliamentary staff, has left for Toronto and will not return during the present session.

THE REPORT OF THE GEOLOGICAL survey of 1881 is now printed, and will be distributed in a few days.

ABOUT ONE HUNDRED AND FIFTY MEMBERS of Parliament and a number of the members of the press gallery have gone on an excursion to Kingston, leaving the House almost deserted. They will return again this evening.

COBOURG.

ANOTHER OLD SETTLER GONE.—It is with deep regret that we announce the death of Mrs. Anna Miller, relict of the late Peter Miller, who passed away one day last week, at the good old age of 98 years. The deceased was a resident of the Township of Hamilton for over 61 years, and lived about a mile from Baltimore. She was one of the first to settle in this neighborhood, and was respected by all who knew her.

A GOOD PURCHASE.—Mr. S. Clarke has bought the Phillip property, between Burnham and Sinclair streets, about forty acres, for sixteen hundred dollars. He always makes a good hit. He was offered a hundred dollars an acre for five or six acres shortly after the purchase was made.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

THE INDIANS OF ALNWICK.

An Interview With the Chief of the Mississaga Tribe—All Satisfied.

Mr. Chubb, chief of the Mississaga tribe of Indians, who occupy a reserve at Alnwick, was in Toronto recently, when he was interviewed by a representative of the *Mail*. In response to a number of questions, he gave answers which may be reduced to the following interesting account of the community over which he presides:—

The Alnwick reserve is situated in the neighbourhood of Rice Lake, upon the highlands of Northumberland county, and contains 3,600 acres. The reserve is small, but is splendid farming land. It is not generally known that in the year 1836 the Alnwick band of Indians were settled on the shores of the Bay of Quinte and the adjacent islands, which lands and islands were

CEDED BY TREATY TO THE GOVERNMENT,

the government providing the present reserve. There were two bands on the old reserve, but when the removal took place the two united and became one. By this treaty the Government reserved the right of sale of the old lands, and the proceeds of the sale serve to make up the "Indian Fund," which fund is held in trust by the Government for the Indians, who draw semi-annually the interest thereupon at the rate of four per cent. per annum. The fund amounts to about $100,000. Last year every Indian in the reserve received the sum of $18.32. The sum *per capita*, of course, depends upon the amount of improvements the Indian may make during the year. For instance, last year, they went to the expense of building a new and handsome hall, which is used for the double purpose of school-house and council hall. The building, although comparatively plain, is very substantial, large, and commodious, containing, beside the aforementioned rooms, other apartments for the commissioners. The building is of brick, with high gable ends, and was erected by Mr. D. S. Peckeckworth, of Warkworth, the neighboring village. It was erected under the superintendence of Messrs. Paull & Son, architects, of this city. The expense or building, of course, reduces the amount of principal, and consequently the amount *per capita*. However, the Indians appear to be thoroughly well satisfied, and, indeed, Mr. Chubb frequently expressed approbation of the manner in which the Government has treated the Indians generally. He wished publicly to acknowledge for himself and his tribe their thanks and gratitude for the careful consideration the Government has at all times shown regarding Indian affairs, and in a special manner he desired to acknowledge the warmth of the attachment existing between the Indians and Mr. Wm. Plummer, the Indian agent at Toronto.

It appears there are but 200 Indians all told and of this number fully one-third are half-breeds. There are four counsellors, who are elected annually in May; the superintendent, Mr. Plummer, holds the poll. The chief is elected every three years. The following is the order of the present arrangement:—Chief, Mitchell Chubb; Councillors, James Marsden, Robert Marsden, Hiram Beaver; Secretary, William Lukes. All these men have salaries paid them out of their own fund. During the past year there was one councillor

DISMISSED FOR INTEMPERANCE.

The difficulty in the case is that at Roseneath, which is only half a mile distant, there is a large tavern, and it is the source of a certain amount of intemperance amongst the Indians which is apparently inexplicable except to the initiated. The Rev. Mr. Jackes, the Methodis t missionary stationed at Alnwick, finds frequent cause for complaint and sorrow at the prevailing state of things.

Mr. Chubb always opens his Council meeting with prayer, and these meetings are opened the 1st Monday in each month. There are two well-attended services each Sabbath, and an orderly Sunday school. There is also week-night service every Wednesday. These services are conducted in English, but as a rule the Indians generally speak in their own dialect.

The Indians are orderly, well-conducted, and sober. They attend to their business and are seldom seen idle. They appear to manage their farms well, and at any rate they are well under cultivation, and compare very favourably with the farms of the neighbourhood. The Indians, in fact, act little differently from the white men.

Mr. Chubb remarked the accommodation for the disposal of their produce was extremely good, there being several markets in the neighbourhood, Cobourg being eighteen miles distant, Hastings twelve, Warkworth ten miles. The produce consists chiefly of wheat, oats, rye and live stock.

From the foregoing it will be seen that the Indians are prosperous and happy, and the management of their affair by the Government stand out in relief as compared with the way the United States Government treat their redmen.—*Mail.*

WINNIPEG EXPERIENCES.

Hotel Accommodations in the Gateway City—Two Dollars for a Soft Board.

A letter has arrived from a young man who left this city on the first inst. to take a position on the Canadian Pacific at Winnipeg. When within a day's journey of his destination a blizzard was encountered which detained the train for twenty-four hours. The cold was intense and matters were not improved by the fuel giving out. The writer states that on awakening in the car from a troubled sleep he discovered that his ears were frozen, and a drift of snow had done duty as a counterpane. After struggling through the snow for some distance and hearing they were within a mile of the city, he left the train and attempted to tramp it, but would assuredly have been lost only that he met with some railway hands who assisted him. He eventually arrived at an hotel, and asking for accommodation was shown to a large bare room on the floor of which the hospitable landlord with a piece of chalk, marked out a space six feet by three, and told his weary guest that that was his resting place. No bed clothes nor even a pillow accompanied it, and he was fain to accept. In the morning the demand for this accommodation was two dollars which he was forced to pay, but discovering friends subsequently he was not compelled to repeat the experiment.—*Telegram.*

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

Daily Evening Review

FRIDAY, MARCH 17, 1882.

TO OUR READERS.

TO-DAY the DAILY EVENING REVIEW appears in an enlarged form, having four additional columns. It is not our intention, for the present at least, to make this increase of dimensions permanent, but we will adopt the larger size whenever a press of advertisements would otherwise unduly curtail our space.

As both the demands upon our space for desirable reading matter, and for our advertising patrons varies from day to day, and from week to week, our future ability to issue the DAILY REVIEW as either a twenty or twenty-four column, or an eight page paper, will enable us at all times to meet the reasonable requirements of both our readers and advertising patrons without doing injustice to either. Our feeling is that instead of decreasing reading matter to make room for advertisements, the former should rather increase with the latter. To curtail systematically the reading matter of a paper in order to make room for advertisements is to decrease its value to the advertiser as well as to the reader, and it is to prevent such a result and render the DAILY REVIEW increasingly valuable to both reader and advertiser that the present arrangements have been adopted.

When starting the daily edition we were warned that we were taking a a premature step, and that we would soon have to discontinue it. It is very satisfactory therefore to us to find that we have obtained steadily increasing support, that has not only warranted us in continuing the publication, but now even in increasing our space.

THE O. AND Q. RAILWAY BILL.

OWING chiefly to a misapprehension as to the reasons which actuated the town council in deciding to forward a petition against the legislation now being asked for by the Ontario and Quebec railway company from the Dominion Parliament, but not altogether without reason, quite a little tempest in a tea-pot was raised over the matter and as a result a special meeting of the council was called on Thursday afternoon to consider the same.

While the council were unquestionably right in deciding to petition against the general powers of amalgamation asked for in this bill, it is equally obvious that it is not to the interest of Peterborough, or any part of the country lying between Toronto and Ottawa, that this company should be refused permission to amalgamate with the Toronto, Grey and Bruce railway, while the petition, although not intentionally, was so framed as to give comfort to those who are opposing this part of the Ontario and Quebec's scheme.

It must be obvious to every one that if the Ontario and Quebec railway or any other road covering the same ground, be built as a rival to and competitor with the Grand Trunk and Midland roads without very large municipal assistance, it must be built as the missing link in a through line from the west to the sea-board. That being the case, it is of the greatest importance to the promoters of this undertaking that they should, in anticipation of its construction, be enabled to perfect such arrangements as will ensure to them a reasonable through traffic as soon as the road is completed, and it is to this end that powers have already been granted to this company enabling them to amalgamate with the Great Western and Credit Valley railways, and that they now ask, and in our opinion should be granted, similar powers with regard to the Toronto, Grey and Bruce railway. But, while we desire to see this particular power granted, we are equally of the opinion that the general and sweeping power of amalgamating with any and all roads which the Ontario and Quebec may "intersect or cross," should not be granted. As the petition forwarded by the council very truly and properly states, the charter to the Ontario and Quebec was granted, and, in fact, would not have been granted on any other ground than that it was to be built as a competing line to the Grand Trunk and Toronto and Ottawa roads, and to give it the general powers now asked for, would be to give it the power of selling out to the Grand Trunk or Midland, neither of which is in the interest of the country as a whole, and still less of that portion of it lying between Toronto and Ottawa.

As usual the *Globe* is opposed to this bill because it is not in the interests of Toronto, although it is crafty enough to put its opposition on other grounds. To read its article one would suppose that the Ontario and Quebec had not the power of amalgamating with either the Great Western, Credit Valley or Occidental railways, whereas the power to do so was incorporated in the original charter. The truth of the matter is that no legislation which does not cause all traffic passing through Toronto in some way to pay toll or contribute to the trade of that selfish city, is or will be satisfactory to the *Globe*, and as the amalgamation of the Toronto, Grey and Bruce with the Ontario and Quebec would make it a through line to the sea-board for the producers and consumers along its route, and thus do away with the necessity which now exists for a break in transportation at Toronto, such an amalgamation is not in the interests of the city of Toronto, and must therefore be opposed. Of course it would not do for the *Globe* to put its opposition upon these grounds. Hence it waxes eloquent over "Monopolies" and "Provincial rights," and it is sadly alarmed at the possibility of this road and its connections falling into the hands of the Pacific Syndicate, just the thing we desire, as the Province will then be served by another strong and entirely independent company—and we are threatened "with another conflict of authority" between the Federal and Provincial Governments should such a bill be passed. We must confess that we are at a loss to see where the conflict comes in. It was the Dominion authorities that granted the Ontario and Quebec charter, and they are as a consequence the only competant authority to empower that company to "amalgamate" with any other company, but we do not understand that the granting of such an authority to them authorizes the Toronto Grey and Bruce Company to amalgamate with them, any more than the power of receiving municipal bonuses contained in a Dominion charter, authorizes the municipalities to grant such bonuses contrary to Provincial Legislation. As we understand the matter before Dominion Legislation, can in any way affect the T. G. & B. railway or take it from under the control of the Local Legislation, the Dominion Parliament must declare it to be a road for "the general advantage of Canada or for the advantage of two or more of the Provinces" which is in no way referred to in the Bill before the House, and renders the *Globe's* "high-falutin" about the impending "conflict" simply ludicrous.

MR. MOWAT'S SACRIFICE.

IN an article on "The Boundary Dispute," the *Examiner* says:—"Compared with the importance of the question to the people of Ontario, that of the fiscal policy of the Dominion sinks into insignificence." We have no doubt that our contemporary and the Reform party generally would gladly see the "fiscal policy" question overshadowed by some other at the next general election, for they know well that the country is with the Government and opposed to the opposition on the subject of protection to native industries. Thus they are anxious for a new election cry, and it is obvious that it is only for this reason that Mr. Mowat is adopting a course by which he hopes to excite a feeling in this Province in favour of his party, while he is for this purpose surrendering the claims of this Province.

Now we have no wish to give up any of our rights, in order to enable Mr. Mowat to make political capital for his dispairing friends at Ottawa. We would like to see the whole matter referred to the Privy Council, both because we could thus secure a speedy and authoritative decision, and also because we believe that their award could not give us less territory than the arbitrators have done, while there seems to be a strong probability that it would be found that we are entitled to and would obtain a still further extension of our boundaries.

It has been and is maintained that Ontario can claim a far larger territory than that given us by the award, and this is the contention of no mean authorities. As instances we may mention out of many, Sir Geo. Cartier, Mr. W. Macdougall and even Mr. Mowat himself. But one of the arbitrators has "written a book," and in it he most completely destroys the weight of the award. Sir Francis Hincks says:—

"The only questions of doubt were decided *in favour of the Dominion*. Both on the west and north, the doubts were whether Ontario should not have had more territory."

Now we do not wish to have our case determined by a tribunal, which in plain defiance of their duty, gave all doubtful points against us. Again he says speaking of the Proclamation of 1791:—

"The fact is that the language would have justified the arbitrators in extending the boundaries of Ontario very considerably. They were strongly urged by Col. Dennis, one of the permanent staff of the Department of the Interior, after their decision as to the south-westerly and north-westerly boundaries became known, to connect the two points with a natural boundary, and, being aware of the fact that the Albany River had been formerly suggested by the Hudson Bay Company as a satisfactory southern boundary, they adopted it."

Why, we ask again, should we be contented with a boundary, which the arbitrators (by the confession of one of them) would have been justified in extending very considerably, even though they adopt a natural, instead of the legal boundary, in accordance with the suggestion of the Hudson Bay Company, or the urgency of a Government official? Are these considerations with which we should be satisfied in lieu of our rights?

We think that it was fortunate that Mr. Mackenzie "with his usual caution" refused Mr. Mowat's request to him to give by legislation the power to the arbitrators of making a final award. We have thus the prospect of obtaining a final and authorative settlement of the question by a tribunal, which will give us our rights without consulting the convenience of anyone, or deciding every doubtful point against us.

We want every acre to which the Province of Ontario is entitled, and we are not willing to sacrifice one tittle of our just dues in order to give Mr. Mowat or even Mr. Blake an election cry, or to enable them, as they hope, to embarrass Sir John Macdonald. These may be important objects in their eyes, but we may be excused for preferring the maintenance of our territorial rights.

Working "Splendidly"

The editor of the *Canadian Spectator* says:—Talking the other day with an intelligent mechanic employed in the workshop at Point St. Charles, I asked how the N. P. affected them? He answered "splendidly." "Why?" I queried. He said: 'We have got not only full work but we work overtime to build locomotives which, but for the N. P., would be built in the United States. It may cost us a little more for housekeeping, but we don't mind that, for we make a great deal more than the difference." Of course the Montreal *Witness* and the Toronto *Globe* will say that my friend is a fool, and has no understanding of the great doctrines of Free Trade—but none the less will my friend, the mechanic, and many more working men with him, go on believing that the N. P. works "splendidly."

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

BURNING OF THE CAROLINE.

Mr. R. D. Rogers Tells the Cobourg "Sentinel Star" Man "How they Did It."

The last issue of the Cobourg *Sentinel-Star* contains the following narrative, which we are sure will be read with interest. The story is old but it is good and will bear repetition in our columns:—

"Again and again the story of the burning of the rebel supply steamer Caroline, and sending her over the Falls of Niagara has been told, and listened to with interest, but loyal Canadians never tire of the details. We had the pleasure yesterday of meeting and conversing with an old settler of this district, but now of Peterborough, who was one of the last three to leave the deck of the rebel vessel after she had been fired and set adrift. This was Mr. Robert D. Rogers, formerly of Grafton, and uncle of our well known citizen Mr. R. Z. Rogers. Mr Robert Rogers was a member of one of the companies organized in this section, and was stationed at Chippewa, when the call was made for volunteers for the memorable expedition to capture the rebel supply steamer. He, together wite Captain Warren, and three others from this section, namely, Messrs. R. Armour, McGarry, and C. S. Finlayson, were among the first to volunteer. The circumstances of that night all well know. The little expedition, under command of Captain Drew, with Capt. Warren acting as second officer set out from Chippewa in the darkness, and moved over to where the Caroline was moored. There were three boats containining eight or ten men in each, and Mr. Rogers and R. Armour pulled one oar. When the sentry on board the boat discovered the attacking party he fired, the ball passing through captain Warren's trowsers, and scratching him slightly on the hip. After the shot of the sentry the men pulled stiff on their oars, and soon boarded the vessel which they found had been hurriedly evacuated, the fires being still burning. They immediately set about unloosing her. She was fastened with a chain cable passing out of the bow of the boat, around two snubbing posts and into the stern. The boarders found some difficulty in unloosing her, in which occupation Mr. Rogers was of material assistance. He had procured a large iron nut, into which he inserted a piece of candle, and with this feeble light discovered the mode in which she was fastened, and with the assistance of two or three companions, set her adrift. The only thing in connection with the expedition wich Mr. Rogers regrets is that he did not keep the nut and candle as a memento of that night's work, instead of hastily throwing them away. After casting the chain off, they found it was so heavy as to keep the vessel anchored. They had therefore to draw it on board, —no light task. The vessel was then set on fire and the boats hurriedly left her side, but in doing so they left Capts. Drew and Warren, and Mr. Rogers on board. They, however, attracted the attention of the receding boats, and one of them came back and took them off. The Caroline then floated out into the stream, and strange to say, instead of going over the American falls, drifted over to the Canadian side and went over there. Before she reached the falls, the expedition was safely back to Chippawa. There are a great many different stories told of this memorable circumstance, and numbers of them without foundation. One is that one of the boat's crew was on board when she went over. Mr. Rogers says when he boarded the vessel she was entirely deserted, and he was one of the last to leave her. The story probably originated from the fact of the boats having left these three on board. Another is the glowing accounts that were given of the beautiful sight the Caroline presented as her burning hulk went over the falls. Mr. Rogers is sorry to dissipate this illusion, but he says that, although the burning steamer did present a beautiful sight that dark night before she reached the rapids, yet shortly after she got into these the fire was extinguished, and she was probably broken up, and went over the falls in little pieces.

GET THE ORIGINAL.—Dr. Pierce's "Pellets"—the original "Little Liver Pills" (sugar-coated)—cure sick and bilious headache, sour stomach, and bilious attack. By druggists.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

New Advertisements.

Tenders for Hay, Straw, &c.

TENDERS will be received by the undersigned at their office, Peterborough, until noon of Thursday, the 23rd instant, for the following to close account:—
125 tons Pressed Hay at Kinmount, Victoria Railway.
12 tons Pressed Rye Straw at Peterborough.
Two Upright Hay Presses with steelyards and all fittings for pressed hay, and about 2,000 wires for binding bales when pressed. Articles may be tendered for separately. Terms cash. Further particulars on application.

MY AIM

Will be at ALL times to Sell only such Goods as will give satisfaction both in QUALITY and in PRICE.

I PROMISE

That the Display of FASHIONABLE GOODS will INTEREST you, and that the PRICES will be PROFITABLE to you. All Goods will be marked in Plain Figures and only One Price. No Discount will be allowed, for to be candid, the profits will NOT ALLOW it.

An Inspection and Comparison of Goods and Prices cordially invited.

THOMAS KELLY.

LAKEFIELD NEWS.

From Our Own Correspondent.

COUNCIL MEETING.

The regular meeting of Lakefield Council was held in the Council Room, Lakefield, on March 13th instant. Members present: Mr. R. C. Strickland, Reeve, and Messrs. Wm. Cox, R. Hull, John H. McWilliams and John Hull, Councillors. The Reeve in the chair. The minutes of former meeting were read and confirmed. Mr. Sanders, the Village Clerk, announced that in accordance with a mandamus in that behalf an election was held on the 6th inst., and that Mr. Hull was duly elected, and that having taken and subscribed to the necessary declaration of office and qualifications, he was entitled to take his seat at the Council Board.

Messrs. Sherin and Graham, members of a deputation appointed at a public meeting for the purpose of waiting upon the Ontario Government to urge the advisability of the Province assuming the Lakefield dam, addressed the Council, giving an account of their interview with the Commissioner of Public Works. They said that the Hon. Mr. Fraser had told the deputation that Mr. Belcher's official report stated that the present dam at Lakefield could be lowered to its original height without interfering with navigation between Lakefield and Young's Point. The Reeve produced Mr. Belcher's report, which showed the contrary to be the case.

Moved by Mr. HULL, seconded by Mr. McWILLIAMS, that the expenses (eight dollars each) of Messrs. Sherin, Graham and Caldwell, going to Toronto as a deputation to wait on the Government anent the Lakefield dam, be paid, and that the Reeve's order for the amount, viz.: $24, do issue.—Carried.

Moved by Mr. COX, seconded by Mr. McWILLIAM, that this Council do now adjourn to meet at the call of the Reeve.—Carried.

FISHING.

A couple of citizens went to Gull and Gold Lakes last week for the purpose of trout fishing. Minnows were tried without success, then artificial bait, brass, copper, etc., without getting even a bite. Silver baits were tried as a last result, and abundant success was soon obtained. Our friends came home with a good supply of fine trout, and they seemed to take a commendable pride in speaking of their large catch of fish and the good sport they enjoyed.

CIVILITY.

Your correspondent has received the following letter from Mr. Sheldrake, drawing the attention of the authorities of Lakefield and the public generally, to a subject of great importance. There seems to be a very great laxity to say the least in regard to the behaviour of our boys on the public streets—not only there, indeed—but everywhere. Thirteen years ago the children of this village were noted for good manners and orderly conduct on the streets, but a gradual decay has taken place in this respect, until now we have to acknowledge an absolute rudeness.

It is to be hoped the Lakefield School Board will not neglect this matter any longer, but that some attention will be paid to the development of civility and good behaviour on the part of the rising generation. Attend to the young. Let the old pass. I am of opinion that however rude some of the boys of Lakefield may be, that none can be charged with rowdyism. It will be found that the boys from a distance are the ones giving so much trouble lately.

Our constables, and we have half a dozen of them, should haul some of these long-tongued gentry before one of our J. P.s. An effectual stop should be put to the disgraceful conduct referred to by Mr. Sheldrake:—

DISGRACEFUL ROWDYISM.

To the Lakefield Correspondent of the Review:

SIR,—Permit me to call the attention of the peace-loving portion of the inhabitants of Lakefield to the disgraceful conduct of a certain set of ruffians who patrol the sidewalk between the English Church and Ross & Co's. stables on Sunday evenings, apparently for the express purpose of insulting and annoying those members of the English Church congregation who have to pass that way on their return from public worship.

I, in particular, have special cause for complaint. To preserve order, the boys of my school walk to and from church in line, two or three abreast. They neither speak to, nor do they in any way annoy those they meet; and they are always careful to give up the *proper* half of the sidewalk to other foot-passengers. These roughs make a point of breaking the line, jostling and calling the boys names, and pushing them off the sidewalk into the mud. This occurs nearly every Sunday evening after Divine service, and as my boys do no harm to anybody, but on the contrary are the means of bringing a little money into the village, I think they are at least entitled to the protection of the authorities.

Last night just as I left the church, a man walking with two females, and taking up the whole sidewalk, endeavored to push me into the road, after having succeed in breaking the line of the school and pushing several of the boys off the path. I followed him for some distance, hoping to meet the village constable, into whose charge I should have given him, but unfortunately I did not succeed.

The Sunday before last a lady residing in my house who had occasion to call at Dr. Caldwell's after the evening service, was rudely jostled by some o these young men as she was on her way home. They were shouting and calling out "No woman's life is safe with us." About half an hour before this occurred I had encountered this same band, and could not help feeling disgusted at their outrageous conduct, and wondering at its being for *one moment tolerated in a civilized community*. For the credit of Lakefield, I am happy to say that a number of these youths are not village boys, but reside some a little north of my house, and some in the opposite direction.

Several persons to whom I have mentioned this subject have advised me to have the offenders arrested—a course which I shall most gladly pursue, when I succeed in identifying any of them, but as I am not personally acquainted with any of the members of this *most disgraceful element* in our otherwise peaceful society, I shall have some difficulty without the proper assistance in doing so. In the meantime I will cheerfully reward any person who will give me such information as will lead to the punishment of those who are in the habit of offending in this manner. I am not vindictive, but I believe in making use of the law on certain offenders.

I am not the only one who has great cause to complain of this nuisance, and if others—who have female relatives or friends to be insulted, or who have the interest of the village at heart—would rigidly enforce the law and make a public example of the offenders, it would soon be stopped.

Believe me, yours, etc.,
SPARHAM SHELDRAKE.

"The Grove," March 13th, 1882.

NO MEETING.

There was no School Board meeting on Tuesday evening last. No quorum was the cause.

WOOD.

The late flurry of snow, though making only very indifferent sleighing, has made quite a stir in wood. Firewood of all kinds has been dearer this season than ever before. Mr. Thomas Whatley has delivered about 300 cords of wood at the Midland track here in the last week.

ST. JOHN'S CHURCH.

On Sunday morning last the Rev. E. T. Beatty of the parish of Tavistock, Devon, England, preached in the above church. The Rev. gentleman, who is a son of Mr. Edward Beatty, an old inhabitant of this village, is at present on a visit to his relatives in Lakefield. We understand Mr. Beatty will preach again on Sunday evening next.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

IMPORTANT NOTICE!

One of the Largest Dry Goods Stocks in Peterborough!

FAIRWEATHER & Co.

Will Commence on FRIDAY, MARCH 10, to make a CLEAN SWEEP of their whole Stock, amounting to nearly $30,000.

Department Tweeds and Cloths	4,200
Department Ready Made Clothing	3,900
Department Boots and Shoes	600
Department Gents Furnishings	750
Department Millinery and Mantles	2,600
Department Feathers and Flowers	750
Department Carpets, Damasks, Etc	1,300
	$28,800

☞**The above Stock, as will be seen, is very Large and Varied, and best Quality of Goods in the Trade.**

The Firm have Resolved to clear the Whole Stock off Regardless of Cost, so that it will be to the INTEREST of everyone to embrace this opportunity of obtaining New and Beautiful Goods at less than Wholesale Prices.

To give all classes an opportunity of purchasing at the GREAT SALE, the Store will be open every morning at 7 o'clock, and will not close until 8 o'clock at night. Terms Strictly Cash!

FROM ALL OVER.

A CHICAGO petition for the pardon of Sergeant Mason, said to be signed by seventy-five thousand people, will be sent to Washington today.

MR. J. J. HAWKINS, of Brantford, has received the unanimous nomination of the Liberal-Conservatives of Brothwell for the House of Commons

THE Grand Trunk management has invited the Board of Trade of Toronto, Montreal, and Quebec to a complimentary excursion to Chicago on the 24th inst.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

THERE are living in Canada 104 persons who are over 70 years of age, 70 betwen 70 and 80 years, 31 between 80 and 90 years, and 3 over 90 years. One has arrived at the age of 100 years.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

A DETROIT jury has estimated the value of a husband at $11,875. They awarded this to Mrs. Elizabeth Moran, whose husband was crushed between two cars of the Lake Shore and Michigan Southern railroad.

CIRCUMSTANTIAL evidence suffices to send a man to the gallows in England. Dr. Lamson has been found guilty of murder and sentenced to death in England. Juries do things quicker and better in London than they do in New York.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

THE international monetary conference, which last year was unable to arrive at any practical result, is to reassemble at Paris on April 12th next. The Parisian predicts that the council will be of little avail, although the diplomatists have done all they can to facilitate its labors.

MR. JOHN WOOD, with the America Pottery Co., Trenton, was cured by St. Jacobs Oil of an attack of rheumatism, which had confined him to his bed for seventeen weeks, and his case was thought worthy of mention by the Trenton (N. J.) *Gazette*. He praises it unstintedly everywhere he goes.

GENERAL IGNATIEFF, when recently interviewed by an English nobleman with regard to the condition of the Jews in Russia, talked about the condition of Ireland, and offered to take three Irish families into Russia for every Jewish family there which should go to Great Britain.

A GOOD FILTER.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

IN Edinburgh the power of Moody's preaching has been felt by a gentleman who has a large and well-filled wine cellar. This gentleman proposes to sell the stimulents in the cellar to a medical mission and hand the proceeds to Mr. Moody toward a $50,000 fund, which Moody is raising for the charities and reformatories of Edinburgh.

YOU will not be sorry for hearing before judging, for thinking before speaking, for being kind to the distressed, for being patient towards everybody, for doing good to all men, for being courteous to all, nor for using Esterbrook's Steel Pens, which are adapted for all writers.

AS A result of the first year of the new French system of paying bounties on ocean shipping, it is ascertained that the gross entries and clearances of French colonies and countries out of Europe increased 135,000 tons. The purpose was to give Frenchmen a larger share of whatever trade there might be, and this it has done.

WARRANTS were issued on Thursday against the managing director and editor of the Montreal *Post* for criminal libel at the suit of Mr. F. B. McNamee, in connection with the recent allegations of that journal on the Feniau informer question. A civil action is also on the *tapis*, the damage being laid at $50,000.

THE AGE OF MIRACLES is past, and Dr. Pierce's "Golden Medical Discovery" will not raise the dead, will not cure you if your lungs are almost wasted by consumption. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe disease of the throat and lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, cures pimples, blotches, and eruptions, and causes even great eating ulcers to heal.

THE report of the United States Senate committee investigating the Treasury contingent fund scandal goes to show that the charges against the ring are more than sustained, and that Secretary Sherman's administration of the department has been characterized by great laxity, if not by actual corruption. This disposes of Mr. Sherman so far as the next presidential election is concerned.

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

THE VITAL FORCES are speedily renewed by Mack's Magnetic Medicine, the great brain and nerve food, it is the best and cheapest medicine ever discovered. See advertisement in another column.

CONSUMPTION CURED.—From Andrew Archer, of Fairfield, Me.—"Seeing numerous certificates in the *Maine Farmer*, endorsing the Great Lung Remedy, Wistar's Balsam of Wild Cherry, I take great pleasure in giving publicity to the great cure it accomplished in my family in the year 1856. During the summer of that year my son, Henry A. Archer, now postmaster of this place, was attacked with spitting of blood, cough, weakness of lungs, and general debility, so much so that our family physician declared him to have a 'seated consumption.' He was under medical treatment for a number of months, but received no benefit. At length, from the solicitation of himself and others, I was induced to purchase one bottle of Wistar's Balsam of Wild Cherry, which benefitted him so much I obtained another, which in a short time restored him to his usual state of health. I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—The great lung remedy for the times! The above statement, gentleman, is my voluntary offering to you in favor of your Balsam, and it is at your disposal." 50 cents and $1 a bottle. Sold by dealers generally.

WHY should a circus manager offer a $20,000 prize for the handsomest woman in the world and only $10,000 for the handsomest man? Is it because handsome women are scarce?

ZOPESA.
(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN

Kendall's Spavin Cure
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "**Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary, liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

LAKEFIELD NEWS.

From Our Own Correspondent.

COUNCIL MEETING.

The regular meeting of Lakefield Council was held in the Council Room, Lakefield, on March 13th instant. Members present: Mr. R. C. Strickland, Reeve, and Messrs. Wm. Cox, R. Hull, John H. McWilliams and John Hull, Councillors. The Reeve in the chair. The minutes of former meeting were read and confirmed. Mr. Sanders, the Village Clerk, announced that in accordance with a mandamus in that behalf an election was held on the 6th inst., and that Mr. Hull was duly elected, and that having taken and subscribed to the necessary declaration of office and qualifications, he was entitled to take his seat at the Council Board.

Messrs. Sherin and Graham, members of a deputation appointed at a public meeting for the purpose of waiting upon the Ontario Government to urge the advisability of the Province assuming the Lakefield dam, addressed the Council, giving an account of their interview with the Commissioner of Public Works. They said that the Hon. Mr. Fraser had told the deputation that Mr. Belcher's official report stated that the present dam at Lakefield could be lowered to its original height without interfering with navigation between Lakefield and Young's Point. The Reeve produced Mr. Belcher's report, which showed the contrary to be the case.

Moved by Mr. HULL, seconded by Mr. McWILLIAMS, that the expenses (eight dollars each) of Messrs. Sherin, Graham and Caldwell, going to Toronto as a deputation to wait on the Government anent the Lakefield dam, be paid, and that the Reeve's order for the amount, viz.: $24, do issue.—Carried.

Moved by Mr. COX, seconded by Mr. McWILLIAM, that this Council do now adjourn to meet at the call of the Reeve.—Carried.

FISHING.

A couple of citizens went to Gull and Gold Lakes last week for the purpose of trout fishing. Minnows were tried without success, then artificial bait, brass, copper, etc., without getting even a bite. Silver baits were tried as a last result, and abundant success was soon obtained. Our friends came home with a good supply of fine trout, and they seemed to take a commendable pride in speaking of their large catch of fish and the good sport they enjoyed.

CIVILITY.

Your correspondent has received the following letter from Mr. Sheldrake, drawing the attention of the authorities of Lakefield and the public generally, to a subject of great importance. There seems to be a very great laxity to say the least in regard to the behaviour of our boys on the public streets—not only there, indeed—but everywhere. Thirteen years ago the children of this village were noted for good manners and orderly conduct on the streets, but a gradual decay has taken place in this respect, until now we have to acknowledge an absolute rudeness.

It is to be hoped the Lakefield School Board will not neglect this matter any longer, but that some attention will be paid to the development of civility and good behaviour on the part of the rising generation. Attend to the young. Let the old pass. I am of opinion that however rude some of the boys of Lakefield may be, that none can be charged with rowdyism. It will be found that the boys from a distance are the ones giving so much trouble lately.

Our constables, and we have half a dozen of them, should haul some of these long-tongued gentry before one of our J. P.s. An effectual stop should be put to the disgraceful conduct referred to by Mr. Sheldrake:—

DISGRACEFUL ROWDYISM.

To the Lakefield Correspondent of the Review:

SIR,—Permit me to call the attention of the peace-loving portion of the inhabitants of Lakefield to the disgraceful conduct of a certain set of ruffians who patrol the sidewalk between the English Church and Ross & Co's. stables on Sunday evenings, apparently for the express purpose of insulting and annoying those members of the English Church congregation who have to pass that way on their return from public worship.

I, in particular, have special cause for complaint. To preserve order, the boys of my school walk to and from church in line, two or three abreast. They neither speak to, nor do they in any way annoy those they meet; and they are always careful to give up the *proper* half of the sidewalk to other foot-passengers. These roughs make a point of breaking the line, jostling and calling the boys names, and pushing them off the sidewalk into the mud. This occurs nearly every Sunday evening after Divine service, and as my boys do no harm to anybody, but on the contrary are the means of bringing a little money into the village, I think they are at least entitled to the protection of the authorities.

Last night just as I left the church, a man walking with two females, and taking up the whole sidewalk, endeavored to push me into the road, after having succeed in breaking the line of the school and pushing several of the boys off the path. I followed him for some distance, hoping to meet the village constable, into whose charge I should have given him, but unfortunately I did not succeed.

The Sunday before last a lady residing in my house who had occasion to call at Dr. Caldwell's after the evening service, was rudely jostled by some of these young men as she was on her way home. They were shouting and calling out "No woman's life is safe with us." About half an hour before this occurred I had encountered this same band, and could not help feeling disgusted at their outrageous conduct, and wondering at its being for *one moment tolerated in a civilized community*. For the credit of Lakefield, I am happy to say that a number of these youths are not village boys, but reside some a little north of my house, and some in the opposite direction.

Several persons to whom I have mentioned this subject have advised me to have the offenders arrested—a course which I shall most gladly pursue, when I succeed in identifying any of them, but as I am not personally acquainted with any of the members of thir *most disgraceful element* in our otherwise peaceful society, I shall have some difficulty without the proper assistance in doing so. In the meantime I will cheerfully reward any person who will give me such information as will lead to the punishment of those who are in the habit of offending in this manner. I am not vindictive, but I believe in making use of the law on certain offenders.

I am not the only one who has great cause to complain of this nuisance, and if others—who have female relatives or friends to be insulted, or who have the interest of the village at heart—would rigidly enforce the law and make a public example of the offenders, it would soon be stopped.

Believe me, yours, etc.,
SPARHAM SHELDRAKE.

"The Grove," March 13th, 1882.

NO MEETING.

There was no School Board meeting on Tuesday evening last. No quorum was the cause.

WOOD.

The late flurry of snow, though making only very indifferent sleighing, has made quite a stir in wood. Firewood of all kinds has been dearer this season than ever before. Mr. Thomas Whatley has delivered about 300 cords of wood at the Midland track here in the last week.

ST. JOHN'S CHURCH.

On Sunday morning last the Rev. E. T. Beatty of the parish of Tavistock, Devon, England, preached in the above church. The Rev. gentleman, who is a son of Mr. Edward Beatty, an old inhabitant of this village, is at present on a visit to his relatives in Lakefield. We understand Mr. Beatty will preach again on Sunday evening next,

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

Bear in Mind

THERE IS NO LONGER ANY SUCH FIRM AS MUNCASTER & SANDERSON DOING BUSINESS IN PETERBORO', THE PARTNERSHIP HAVING BEEN DISSOLVED IN AUGUST LAST.

MUNCASTER'S

JEWELLERY STORE

Is Removed from the old Stand

AND IS NOW IN CLUXTON'S NEW BLOCK, WHERE HE HAS A FULL AND COMPLETE NEW STOCK OF WATCHES, CLOCKS, SILVER-PLATED WARE, JEWELRY, VIOLINS, &c.

WATCH REPAIRING

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.

☞Don't Forget the Place.—Cluxton's New Block, opposite McKee & Davidson's, George Street.

R. W. MUNCASTER.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

PUZZLED PEOPLE

Who want to buy Best, should

READ!

NO mere handful of Goods, but a Store 80 feet in length, packed from one end to the other.

CHOSEN with a special eye to the wants of our growing trade.

PURCHASED at the closest of prices, it abounds throughout with the freshest and most desirable the market affords.

CONTAINS in many cases special lines of Goods at prices quoted only by ourselves.

NONE of our departments more attractive than our DRESS GOODS. Look at the same.

PARTICULARLY we mention our MILLINERY and MANTLE showrooms, which are neatly and conveniently arranged, and stocked with full lines of Spring Goods entirely new.

A CHANGE.

On and after to-night, in conjunction with the leading merchants of the town, we will keep our place of business open until 8 p. m.

MUNRO & ALEXANDER.

Daily Evening Review

SATURDAY, MARCH 18, 1882.

LOCAL AND MUNICIPAL.

An Old Dodge.

We have on previous occasions referred to the custom of the township municipalities sending their vagrants to the town, for the purpose of having them committed to gaol and maintained there at the expense of the town. This dodge has been practised for years, ard it is just about time that a stop was put to it. In fact, every nine out of ten vagrants committed to gaol from our Police Court belong to the county, but we have to pay to keep them in idleness in gaol. The latest case in point is that of one George Parsons, of the Township of Smith, who upon being interrogated as to why he did not apply to the Reeve of Smith or some other magistrate in that township, said that he did, but the Reeve said he could do nothing for him. Another person advised him to come to town and lay around, so that the police officers could see him, and they would soon 'rope him in' and he would then be sent to gaol. The old man took the advice so kindly given, came to town, laid around, was roped in, and committed to gaol, but the warrant of commitment credits him to the Township of Smith, all the same, and that township will be charged with him on the occasion of the next arbitration. Such we understand is the practice to be pursued henceforth, so that the vagrants may just as well be sent from their own township as not.

Have You Never Heard of It?

Doubtless our readers have often been taken in by reading interesting and well-worded stories and just in the middle of them, the most exciting part, they find that some patent medicine man has taken that plan of inducing people to read concerning his cure-all. Sometimes people get angry, and throw down the paper, but when by other means the same medicine is brought before them, perhaps in a more prominent manner, they rather enjoy it. As a case in point, we may mention that during a performance in the Opera House on Frinay night by Mr. R. A. Brennan and company, one of the performers, a lady, was singinga song, and during a "speaking part" between the verses, she remarked that she was suffering terribly from "rheumatism," and on that account was obliged to sell apples and pears. Hardly had she spoken the word "rheumatism," when one of the gallery gods cried out "Have you never heard of St. Jacobs Oil?" As may be imagined, this brought down the house, and caused a regular uproar, the performer herself joining heartily in it.

The Weather.

There has been a considerable change in the temperature, and instead of the warm and sunny weather of the last week, we are now having it cold and windy. The thermometer ranges in the neighborhood of zero in the morning, and during the day it is not so much above that point. Probabilities has been just a little out in his reckoning during the last week or so, as the promised snow has failed to show up as far as this locality is concerned. The weather probabilities for this district for the following twenty-four hours, as reported from Toronto at ten o'clock a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes,—High winds to gales from the east and south, cloudy to rainy, mild weather followed to-morrow by high westerly to northerly winds. Colder weather.

Wood Contract.

The Lindsay *Post* says that Messrs. Robinson & Elliott, of Peterborough, are getting out 5,000 cords of hardwoyd for the Midland Railway. The wood is delivered to them along the lake and river, and will be brought to Lindsay for delivery to the railway. The Peterborogh firm bought the steamer "Victoria" and thirteen scows and these will be employed during the summer in filling the contract. The handling of the wood at Lindsay will give employment to a number of men.

Personal.

We learn from a paragraph in the Hamilton *Times* that Mr. J. H. McFaul, of Ingersoll, formerly a teacher in the Peterborough Collegiate Institute, has been appointed Inspector of the schools of St. Catharines at a salary of $1,000 a year. Mr. McFaul's friends in this town and county will be pleased to hear of his promotion.

Mr C. Sheehy, Detroit, Mich., Northern Passenger Agent of the Wabash, St. Louis & Pacific Railway, is in town.

Railway Notes.

Two new locomotives, both coal burners, have arrived at Port Hope for the Midland railway.

The Port Hope *News* says that Mr. C. H. Crofts, Midland railway storekeeper, has removed to Peterborough. Mr. Crofts is the kind of a citizen that Port Hope can ill afford to lose. In every respect he is a credit to the town, and worthy of the confidence the manager of the road places in him.

Mr. Geo. A. Cox is in Ottawa on business in connection with the bill regarding the Midland railway, which will soon come before the committee.

The Midland Rolling stock company have elected the following directors:—Messrs. A. P. Poussette, Peterborough; Geo. A. Cox, Peterborough; J. R. Dundas, Lindsay; Lewis Ross, Port Hope; W. B. Ferguson, Peterborough; Mr. Poussette was elected president.

The *Intelligencer* says that Mr. Cox and a number of engineers of the Midland Railway were in Belleville on Tuesday for the purpose of locating the site of the elevator which it is intended to erect here. We learn that the elevator will cost abont $60,000, and will have a capacity of 150,000 bushels. It will be completed in time for the grain trade in the fall. The site has not yet been definitely selected, but the elevator will probably be erected at the G. J. R. dock. It is, we believe, the intention of the Midland Railway authorities to petition the City Council for an exemption from taxation on the building.

No Cause for Complaint.

The Belleville *Intelligencer* says:—

"The skating carnival at Hastings, which took place on Thursday night, was a delusion and a snare. An accomplished skater from Belleville went up to participate in the competition for the silver medal, but was not allowed to compete. A man named Patton, a resident of Hastings, was the only competitor, and, as a matter of course, carried off all the prizes.

The bills announcing the carnival, one of which we have before us, distinctly states that "the contest for the silver medal will be open to skaters from Keene, Westwood, Norwood, Warkworth and Hastings, who have never won a prize." If "the accomplished skater from Belleville" will make a note of that fact, we cannot see how he can find any cause for complaint.

The Watering Cart.

If we understand the agreement entered into between the town and the driver of the watering cart, and we think we do, that individual is required to water the streets, whenever occasion demands it, for the term of one year. The year is not up yet, but nevertheless pedestrians have been nearly blinded all day by the dust flying upon the front street. The general remark heard on the streets to-day has been "where is the watering cart and why is it not out?" Perhaps the Mayor or the chairman of the Fire, Water and Gas Committee will explain the reason why to the afflicted public.

A Rare Treat.

Now is the chance for our town, if they wish the finest entertainment that ever visited Peterborough. Mr. Singleton, of Port Hope, organist of the Methodist Church, has succeeded after a great deal of trouble and expense in securing the Royal Hand Bell Ringers and Gleemen from London England, for two entertainments, and will give one night here, if we guarantee a full house. Mr. S. has a guarantee list open at Davidson's book store for signature. Call and see it. All names on this list will have first choice of seats. Date, April 19th.

Time.

As the Midland Railway Company is about to issue a new time table, wonld it not be a move in the right direction to adopt Toronto time, both for the railway and the regulation of our Town Clock? The observatory at Toronto furnishes the time accurately, and it could easily be telegraphed here every day. We would thus have our standard time, instead of half a dozen different times, none of which can be relied on.

West Riding Agricultural Society.

At a meeting of the Directors of the West Riding of Peterborough Agricultural Society, held last Saturday, it was decided to dispense with the usual spring show. It was also decided to accept the offer of the Thorley Horse and Cattle Food Co., of Hamilton, offering a prize for the best span of farm horses fed on their food for the fall exhibition.

At The Huffman House.

To-day the parlors of Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the French army, were crowded with physicians and sufferers, using his wonderful instrument, the Spirameter, for the cure of Catarrh, Bronchitis, Asthma and Lung Diseases. He will be here until Wednesday next. Physicians and sufferers can try it free.

Horse Shipment.

This morning Messrs. Stapleton and Walsh shipped from their Stock Repository sixteen fine animals. They are destined for the Boston market. This well known firm are doing an amazing business in shipping horses, and their stables are now recognized by all the horsemen as "headquarters."

Arrested.

"Jim" Murphy, of Ennismore, was drunk and disorderly to-day, and was placed in the cells by P. C. McGhee just as we go to press. A rescue was attempted, but the "towneys" were too much for the roughs.

The Car Works.

A public meeting to discuss the question of the proposed aid to the carworks company, will take place on Monday evening in Bradburn's Hall. All freeholders and holders of 21 years leases should be present.

Idyl Wild.

The Cobourg *Sentinel Star* says that it understands that Idyl Wild has changed hands, Mr. John McGivern having come into possession.

"Nor-West Ale."

Just received, two brewings of the above celebrated ale at Davy Wheeler's.

PLEASING PRESENTATION.

Mr. G. H. Johnston Receives Tokens of Esteem Prior to his Departure for Manitoba.

Mr. G. H. Johnston, who for many years has been in the employment of Messrs. Hall, Innes & Co., in the dry goods' department, having decided to take Horace Greeley's advice and "go West," has determined to settle in Manitoba, where he intends to go into business with his brother Alfred, who has been a resident of the Prairie city for some years. For many years Mr. Johnston has been a member of St. Paul's Presbyterian Church choir, and the members thereof determined to present him with some mark of esteem prior to his leaving town.

The residence of Mrs. J. H. Dixon was selected as the place, and Friday night as the occasion for the event, and accordingly at an early hour the members of the choir and some invited guests, to the number of about 60 altogether, assembled at the residence of the kind hostess. Several hours were very pleasantly spent in conversation, etc., after which refreshments were passed around and freely partaken of.

At this stage of the proceedings Mr. J. B. McWilliams was voted to the chair, and after stating the object of the meeting, called on Mr D. D. Galletly to read an address, which he did as follows:—

PETERBOROUGH, Ont., March 7th, 1882.

DEAR FRIEND,—Having heard that you were about to leave us and push your fortune in the "Great Lone Land" we, the members of St. Paul's Church choir considered we would not be doing our duty, if we allowed you to depart without presenting you with some tangible proof of our esteem and regard for you as a member of the choir. Your services to St. Paul's Church as Chorister, Librarian, and praise leader at the Young Men's Sabbath Morning Prayer Meeting, have all been given by you, we know, as labours of love for the Master's sake, and as such cannot be repaid by us. But to show that we appreciate your services we now entreat you to accept of this.

We are sorry that our time to call upon the members of the church was so limited, as we feel assured from the hearty response made by the few, that our souvenirs would have been intrinsically more valuable. However, we know that it is the spirit which prompts the act more than the gift which you will most appreciate. We trust, dear friend, when you will be at distant from us, these tokens of our regard and esteem will remind you of the many well wishing friends you have in Peterborough. Also these tokens will doubtless remind you of the many happy Sabbath days in which your voice has accorded with ours in the Sweet Songs of Zion. Should it never again be our lot to sing together these songs on earth, we hope we will meet in Heaven, there to join in singing with the "White Robed Choir" of the Redeemed, the ever new song, "Worthy is the Lamb." And now in parting, dear friend, we wish you God speed in the far West. That you may be prosperous and happy wherever you may go, is the earnest wish of us all.

DAVID D. GALLETLY, Precentor.

HATTIE DOUGLAS,	H. JOHNSTON,
ELIZA J. JOHNSTON,	E. MONTGOMERY,
JESSIE LOGAN,	A. STEWART,
MATTIE MOSCRIP,	R. LOGAN,
M. CAMERON,	D. H. MOORE,
A. GALLETLY,	W. MCLEAN.

At the proper period Misses. Galletly and Logan presented respectively a handsome and costly gold ring and a beautiful photograph album.

Mr. Johnston returned thanks in a few well chosen remarks.

The gathering broke up at a seasonable hour, all present joining in wishing Mr. Johnston success, and all loud in praise of the hospitable manner in which they had been entertained.

We have known Mr. Johnston personally for many years, and know him to be an energetic and enterprising young man, made of the right material to succeed in a new country. We join with his many friends in wishing him unbounded success in his adopted home.

The Brennans.

As we fully anticipated, the entertainment given on Friday night by the Brennan combination under the auspices of the Emerald Dramatic Club, was, as regards attendance, the most successful of the season. The capacious hall was jammed, gallery, aisles and all, and many, unable to see the stage, left the building. Of the performance, we may say that it kept the audience inroars of laughter from the commencement to the wind up. It was in the main, the same as that given here by Healy's Hibernian Minstrels some weeks ago, but some new features were introduced that had a good effect. Of course Mr. and Mrs. R. A. Brennan carried off the honors, but the diminutive, if not juvenile Captain Laible, in his comical songs and sayings fairly divided the honors with the leaders. The dancing of Mr. J. R. Ryan was excellent, and is such as is not seen every day. He was called out three or four times. Miss Burton sang and gave a recitation in a pleasing manner. The north of Ireland sketches of Ryan and McAuliff were exceedingly funny. The whole performance concluded with the farce, "Forepaugh's Baby Elephant," which for fully half an hour fairly convulsed the audience with laughter. Taken altogether the affair was a success, but at the same time we would advise the management to place a little more restraint on the end men, as their jokes some times sounded rather "broad." We only hope that the next entertainment under their auspices will be as well attended.

Broke his Leg.

On Thursday afternoon a man named Crough employed in Mr. T. Fitzgerald's shanty, at Clear lake, in getting out hardware timber met with a rather serious accident, which will lay him up for some time. From what we learn, it appears that Crough, who is a teamster was drawing a very heavy log, and while doing so he was standing near the front of load, endeavouring to make the horses pull the load. Suddenly one of the trace chains, unable to stand the heavy strain, broke, and allowed the whiffle tree to fly bark and strike Crough on the right leg just below the knee. Both bones were badly broken. The sufferer was at once conveyed to his home and at present is in care of a medical man.

A Fine Fish.

At Smith's fish store on Friday was exhibited for sale a handsome halibut. Pieces of this fine fish decorated the tables of many of our leading citizens.

POLICE COURT.

VAGRANCY.

SATURDAY, March 18.—George Parsons *alias* "Ropy," an old man, aged 75 years, who resides in the vicinity of Chemong Lake, and who has been wandering around the streets of the town, during the last three or four days, was charged with vagrancy by P. C. McGhee.

The DEFENDANT, who said his wife was in the Protestant Home, admitted the charge and said he had not a place to sleep or anything to eat, and could not work. Charitable people had cared for him since he came to Peterborough and he wanted to be sent to gaol, as he was sick. He had been told by a gentlemen in Smith to come here and he would be cared for in gaol and that was why he came here.

The magistrate committed him to gaol for two months.

D. & D.

W. J. Trinouth was charged by P.C. McGhee with being drunk and disorderly on the public streets on Friday.

Prisoner admitted the offence.

The MAGISTRATE in consideration of the fact that the prisoner had spent the night in the cells only imposed a fine of $2 without costs.

FOOLED ONCE MORE.

From the Markdale, Ont., Standard.

MR. EDITOR,—The most of people relish a good story, provided it be a truthful one. Tales of adventures, daring, heroism, dangers of the deep, battles, etc., all have their charms. Who amongst us could read the adventures of Robinson Crusoe half way through, and not have a desire to know the end of it. We confess being of this class. Now, the first thing we do when we receive our weekly newspaper is to hurriedly glance through it and pick out what we consider the most important items. These are generally distinguished by their headings; but you don't catch us trusting any longer to these glaring impositions. We could laugh at being fooled once or twice, but to get caught a third time is our reason for remonstrating. Two or three weeks since we got to reading what we thought was a very nice story in one of our Toronto weeklies, and towards the end it informed us about St. Jacobs Oil; we only laughed, and said humbug. The week following we noticed another heading, "How Mark Twain Entertained a Visitor." Well, thinking we might learn a little etiquette in case Mark should take a fancy to send us an invitation, we read it, but by St. Patrick, if they didn't finish by making Mark introduce St. Jacobs Oil. Well, confound it, we exclaimed, but they have got another dose of that St. Jacobs Oil on us again, determined not to be caught so simple next time; but now, sir, I admit the corn; along comes our Toronto *Mail* on Thursday, down we sat, and almost the first thing that caught our eye was the adventures of Capt. Paul Boynton; it appeared quite interesting; it told how he had bumped against sharks, etc. At this point we began to feel a little incredulous, because, from our knowledge of these gentry, they would relish the captain, alive or dead, all the same. However, determined to learn some more of his exploits, we read a little further, when—O, well, it don't matter what he said, you can't find it in any of the dictionaries. I'm—dashed if the captain wasn't oiling himself all over with St. Jacobs Oil, it may be, the more easily to evade the sharks, for we made no further search, our curiosity was satisfied. Now, Mr. Editor, in order to fool us again, it will require to be printed wrong end up. We have made up our mind to look out for anything and everything in the shape of St. or Saint attached to their name.

We are sorry for the readers of any journal to be thus "taken in," so to phrase it, but what can they expect when we editors are caught in the same storm without any protection. Whilst sympathising with them, we can only admire the ability shown in any enterprise that can thus compel, as it were, the attention of the people. When it is considered that only a short time ago St. Jacobs Oil was scarcely known in Canada, and now has so commended itself to the favour of the people of the Dominion as to become the household remedy for rheumatism, neuralgia, pains, bruises, chilblains, etc., and all because of its surprising efficacy in these ailments, we think it will be regarded by everybody as a matter of congratulation that we possess, so easily obtainable, such a reliable means for the cure of disease. Such is our view of the matter, although we are "fooled" on an average about five times a week. If St. Jacob can stand it, we've made up our mind to "fight it out on that line, if it takes *all Winter*."

The Parrot Wondered.

Two sailors went with a tame parrot to a show in Tokio, where a Japanese was giving an exhibition of sleight-of-hand, interpersed with acrobatic feats.

At the end of each trick the sailors would say, "Now, isn't that clever. Wonder what he'll do next?"

With each act of the performance their astonishment increased, and they kept muttering. "Wonder what he'll do next?"

The parrot heard this exclamation so often that he picked it off hand, as it were.

Presently the Japanese undertook to keep in the air a number of bamboo sticks ignited at both ends, but having his attention distracted by a movement in the audience, he allowed one of the sticks to drop. Unfortunately it fell upon a heap of firecrackers, bombs, etc., which exploded, blew out the walls, blew off the roof, scattered the audience in all directions, and sent the parrot, minus its tail, feathers and one eye, about 400 yards."

As the bird came down with a flop, it shrieked, "Wasn't that clever! Wonder what he'll do next?"

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

KISS ME.—"TEABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal. All letters must contain stamp for reply. d64-w11

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

DANIEL F. BEATTY, Washington, New Jersey.

The Best Field FOR EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co, in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

Very Nice Blooming Plants

ARRIVING EVERY WEEK.

Splendid Oranges, Lemons, and a Fine Lot Dessert Apples,

AT LONG BROS.

N. H. DOWNS' Vegetable Balsamic ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry—then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

MONDAY, MARCH 20, 1882.

CANADIAN TELEGRAMS.

ST. JOHN, N. B.

Special to the Review, March 20.

THE RESIDENCE of Geo. S. Grimmer, Esq., of Chaincook, four miles from St. Andrew's, was with all its contents destroyed by fire this morning.

DUNDALK.

Special to the Review, March 20.

THE FLOUR AND OATMEAL MILL in this village belonging to Thomas Cloughley was burned yesterday morning, about 3 o'clock. When first discovered the fire had gained so much headway that nothing could be saved. The loss is $9,500, insured for about of $6,000. It is supposed that the fire originated in the drying kiln.

TORONTO.

Special to the Review, March. 20.

ALICE COOK has run away from her parents at Collingwood three times in her short life of 18 years. At the police court this morning she was discharged on promising to return home and be a better girl.

THERE IS QUITE a boom in the tent business as intending settlers in Manitoba are supplying themselves.

THE REV. W. B. AFFLECK in his sermon at the Elm street church last night, said that it was a libel on justice that Sergeant Mason should be degraded and sent to prison for having discharged his rifle at that grinning assassin Guiteau. His remarks were "applauded."

OTTAWA.

Special to the Review, March 20.

OSCAR OWENS preached in the Dominion Methodist Church last night.

THE LOBBYING in connection with the Temporalities Funds is being continued with great zeal by both sides.

THE DINNER Committee of the Press gallery met to-day and made final arrangements for the annual dinner, which was fixed for Sautrday evening, the first of April.

MISS ROMAINE, the lady who had such a narrow escape from being married, does not evidently intend to allow her good name to be attacked wish impunity. She has entered an action against Messrs. Viglow & McKibbon for vending newspapers containing articles reflecting on her character. Miss Romaine is the young lady who entered the breach of promise suit against Mr. McLean, barrister. It is said an attempt was made to get rid of her before the asaizes came on. She says a tempting offer was made to her to go to Manitoba, with a very heavy salary, as governess, but with the understanding that she was to leave on the first of April. The offer was rejected.

THE CITY COUNCIL will endeavor to settle right of way in connection with the Canada and Atlantic Railway.

THE SELECT COMMITTEE having in charge Mr. Charlton's seduction bill, met this morning and passed the same with some amendments.

THE MINISTER OF JUSTICE will shortly resign his position and enter the law firm of ex-Vice-Chancellor Blake.

THE NAMES of J. M. Currier, M.P., and J. B. Taylor, at one time proprietor of the *Citizen*, are mentioned in connection with the vacant postmastership here.

IT IS RUMORED that the Government will shortly fill the vacant seats in the Senate, and in this connection the names of Dr. Grake, of Ottawa, and Col. Gravely, of Cobourg, are mentioned.

TO-DAY BEING A PRIVATE MEMBERS' DAY, nothing of special interest is expected to come up

AN EFFORT will be made to close the budget debate at to-morrow's sitting.

MIDNIGHT TELEGRAMS

CABLE.

LEOPOLD'S MARRIAGE.

LONDON, March 18.—The *Pall Mall Gazette* says that the date of Prince Leopold's marriage will not be formally announced until after an additional allowance has been granted him by Parliament. It adds private intimation has been given to the officials concerned that the ceremony will take place on April 27th, in St. George's chapel, Windsor. The Crown Prince and Princess of Prussia will not attend, as about that time a joyful event is expected in the royal family. It is believed that about a hundred Radicals will go into the lobby against the proposed addition to Prince Leopold's allowance.

AFRICAN TROUBLE.

DURBAN, March 18.—Serious disturbances have broken out on the south-western border of the Transvaal. It is reported that the trouble is spreading.

OATH V. AFFIRMATION.

The French Government this afternoon introduced a bill in the Chamber of Deputies giving witnesses in courts of law the option of taking an oath or making affirmation.

THE QUEEN AT MENTONE.

MENTONE, March 18.—The Queen of England arrived on Thursday, and drove throngh the town in an open carriage. There were an immense number of visitors at the place, and much enthusiasm prevailed.

MINISTERIAL CRISIS.

VIENNA. MARCH 18.—M. Ristics with fifty-one members of the Servian Parliament, has resigned, on the ground of the alleged dishonest relations of the Government with the French collapsed Union Generale. The resignations involve the complete suspension of the constitution. The King will issue a writ for the election of a new Parliament.

FENIAN INCENDIARISM.

LONDON, March 18.—A shed at the Royal Albert Docks was burned on Saturday morning. It is supposed the fire was the result of a Fenian plot to fire the docks and make a raid for arms belonging to the dock volunteers.

THEATRE BURNT.

ST. PETERSBURG, March 19.—The following are the details of the fire at the Theatre Demidoff:—The fire lasted till four in the morning. Although the theatre stands isolated in a garden, the wind blew the flames in the direction of some neighbouring houses, doing only slight damage to them, however. The whole theatre was utterly consumed. It was a wooden building, and this morning not a trace of it is visible. There must have been about eight hundred persons in the theatre when the fire broke out, but thanks to the energy and presence of mind of the commissioner of police, all were saved. Seeing the smoke, he at once rose and called out to the audiencce, "Don't stir! Let one row of stalls only be emptied at a time, and in five minutes the house can be cleared." His suggestion was followed. Meanwhile the police opened the doors, which were constructed after the panic caused by the destruction of the Ring theatre at Vienna, and in five minutes, as he had told the people, the theatre was emptied. The fire originated in one of the actresses' boxes. It is supposed that a dress or petticoat first caught fire. The flames then communicated to the building. There were only two tiers in the theatre, one above the stalls. The building was insured for $12,000.

AN ACCIDENT.

BERLIN, March 18.—The Emperor William yesterday slipped on a stairway and fell. His elbow and knee were contused, and he is confined to his room.

M. ROUSTAM'S MISSION.

PARIS, March 18.—It is possible that M. Roustan will never go to Washington. He does not desire to cross the Atlantic, and the Government in nominating him for Washington were chiefly desirous of proving that by recalling him from Tunis they were not inflicting disgrace upon him by recalling him from Tunis.

UNPOPULAR APPOINTMENT.

LONDON,, March 18.—The *Standard's* Berlin correspondent says:—"The press here severely criticize the appointment of Mr. Sargeant as United States Minister to Germany. The *Tagblatt* sharply reproves Mr. Everett, Secretary of the Legation in Berlin, for neglecting to point out to his Government the impropriety of appointing such a successor to men like George Bancroft, Bayard Taylor, and Andrew D. White."

THE CLOTURE.

LONDON, March 18.—Next week it is expected that Parliament will finally get at the *cloture* question. Strong hopes are entertained by some of the discomfiture of the Government. *Vanity Fair* brings Zophar the Naamathite thus oppositely as a witness against the measure:—"Observe how he says, when he discusses the *cloture* in the course of a friendly rally with Job, should not the multitude of words be answered and should a man full of talk be justified? Should he by lies make men hold their peace?"

Gen. Skobeleff's Speech.

LONDON. March 17.—The *Times* to-day publishes a despatch from Berlin, which is in substance a repetition and confirmation of the intelligence sent in their despatches yesterday. The *Times'* despatch says:—"Nothing has hitherto been received from St. Petersburg to show that the Czar did not welcome General Skobeleff on his return from Paris with the same favour that he showed him when he returned from the Turcoman campaign. The evidences of this favour may have been less open, but if they were to some extent secret, they were none the less expressive." The *Times'* despatch goes on to say what was said in these despatches yesterday, that is, that the latest account of Gen. Skobeleff's interview with the Czar is from the general himself, who at a military club at St. Petersburg explained to his brother officers that he never spoke unreflectingly, and that the Czar fully shared his opinions, but did not venture to openly espouse them, fearing to offend powerful Germany.

Obituary.

Hans Busk, known as the founder of England's volunteer army, is dead. He was born in Radnorshire in 1815. While an undergraduate at Cambridge he urged upon the Government the importance of sanctioning the formation of rifle clubs, and formed a club at the university. He continued to advocate the establishment of a volunteer system, and visited France to report upon her armaments. In 1869 a public subscription was raised for him in recognition of these services, but he declined to accept any personal gratuity. He founded, and for several years edited the *New Quarterly Review*, and wrote a number of treatises upon rifle shooting.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

ESCAPED FROM SIBERIA.

ST. PETERSBURG, March 20.—Several Nihilists have escaped from Siberia.

WARLIKE RUMORS.

ROME, March 20.—The Rome *Mirra Autoligia* publishes some remarkable statements by a member of the general staff, urging a prompt completion of the military organization. An alliance of Italty with Germany and Austria, is probable against the Franco Russian alliance.

BOLD BANDITS.

GENEVA, March 20.—A child belonging to one of the highest families has been kidnapped from college. A ransom of fifty francs was demanded for the return of the child on pain of its death.

REGICIDAL ATTEMPTS.

Apropos of McLean's crime it is worthy of note that in Sir Theodore Martin's "Life of the Queen" is a letter written by Her Majesty relative to earlier attempts on her life, where she says that these outrages will continue to be perpetrated so long as the criminals are indicted for high treason. The importance thus given to them insures a repetition of the offence.

AMERICAN.

GONE SOUTH.

WASHINGTON, March 20.—Ex-Senator Dorsey has gone to New Mexico. All accounts agree that the Star Route prosecutions have weighed upon him more heavily than upon any of the others involved.

PORTER'S CASE.

PHILADELPHIA, March 20.—Fitzjohn Porter is reported as saying that he received no assurances of the result of his appeal to the President for his restoration in the army.

SIX FEET OF ROPE.

RAWLINS, N.Y., March 20.—A number of masked citizens took from gaol Jay Lacey, R. Reddick, and Wm. Carter, members of a gang of safe robbers, and lynched Lacey and Reddick. Carter escaped. The gang's operations extended throughout the territories.

A ROTTEN SYSTEM.

WASHINGTON, March 20.—Rev. D. J. McMillan, Superintendent of Presbyterian missions in Utah, Idaho and Montana, writing to the representatives says while it is alleged that the school laws of Utah expressly forbid the use of public school funds for the support of sectional schools, the school book and text books are of a Mormon character, and children have been expelled for refusal to study from these books. No teachers can obtain employment in those schools except they are members of the Mormon church. The Mormon teachers in two counties received all the public school funds, though they do not hold the certificates required by law, while non-Marmon. Teachers do not receive anything. The Bishops compel parents under severe penalties to patronize inferior Marmon teachers. John Taylor, President of the Marmon Church, is anperintendent of public instruction for the territory.

WEAVERS ON STRIKE.

LAWRENCE, Mass., March 20.—Two hundred and fifty worsted weavers joined the strike at the Pacific Mills this morning. The mills are running with one sixth of the full compliment of hands. The strikers are orderly, and only a few are seen on the streets.

HIS OWN PETARD.

BOSTON, March 20.—Frank Hayes, agent for an improved gas stove, while experimenting with a stove at a hotel fell asleep. The tube connecting the stove with a burner became disarranged, and the room filled with gas, suffocating Hayes.

ARRIVED.

NEW YORK, March 20.—Arrived, the Celtic, from Liverpool.

NO OUTBREAK.

SANTA FEE, Col., March 20.—The report of an outbreak of Indian scouts on the Angula river is untrue.

EXCITING EPISODE.

HOBKEN, N. J., March 20.—Dr. Strong, pastor of the first Presbyterian Church, while preacing yesterday, fell to the floor unconscious. There was great excitement, and the women screamed with terror. Strong was taken home, and recovered in a few hours.

SOUTHERN SCHOOLS.

WASHINGTON, March 20.—Rev. Dr. Hunt editor of the *South-Western Christian Advocate* states that the public school system of the South is improving yearly. The north is now expending in the south from $80,000 to $100,000 yearly in churches and schools principally for teachers, the principal denominations of the north has expended $1,300,000 in the south for school and church purposes during the last 15 years. He thinks the Government should appropriate 15 to 20 millions for the benefit of the schools in the south.

THROUGH JEALOUSY.

CHERRYFIELD, Me., March 20.—Last evening while coming from church a widow named Hattie Sprague was killed by Chester Cunningham, who cut her throat. Jealousy was the cause. The murderer has been arrested.

SHIPPING.

NEW YORK, March 20.—Arrived, the City of New York, from Liverpool.

DEATH ON THE RAIL.

LANCASTER, Pa., March 20.—A car on a west bound freight train jumped the track near Dawenington last evening, and was run into by the express, hurling three cars over an embankment 33 feet high, and seven other cars filled with merchandise were wrecked. Wm. Tilley, on the east bound freight, was fatally injured, and Clem. Keeser, fireman, was killed.

WEALTH AND POVERTY.

LANCASTER, Pa., March 20.—H. G. Rogers, aged 80 years, Minister to Sardinia under Vanburen, died last night in the Alms House, where he had been for several weeks.

THE FOURTH TO-DAY.

ALGIERS, March 20.—The theatre National was burned this morning. There was no loss of life.

SETTLED AT LAST.

WASHINGTON, March 20.—The Senate Judiciacy Committee has unanimously agreed to report Blatchford's nomination favourably.

THE FLOODS.

GRENVILLE, Miss., March 20.—The Government relief steamer is making all haste up the river. There is great distress throughout the Yazoo Delta. Seven persons were drowned.

DISTRICT INTELLIGENCE

OMEMEE.

A BIG PIG.—The *Herald* says that the following was handed to it this week, but as we have not had the pleasure of seeing his pigship, we cannot vouch for the correctness of the assertion:—"Challenge anything in the county—a Chester white boar, aged about nine months, stands 5 feet high, is 9 feet 2 inches in length, girth, 3 feet 6 inches. This can be proved by the owner, and also by whom it was purchased. It can be seen at the Windsor House, in Omemee."

ACCIDENT.—As Mr. S. H. Sandy was engaged sewing a horse collar on Wednesday last, the needle, a large flat curved one, slipped and struck him with such force on the forehead as to sever a vein, from which the blood flowed so profusely that it was difficult to stop it.

LACROSSE.—Some of the young men are trying to organize a lacrosse club for this village. As there is quite a number of persons desirous of starting a club, we have no doubt but that a good team could be worked up here.

COBOURG.

PERFORMING BEARS ON THE STREETS.—AN ACCIDENT.—The *Sentinel-Star* says that on Friday morning last a couple of itinerant vagabonds, having two performing bears, a large brown and a smaller black one, were showing the manœuvres of the animals on King-street, at least one was, while the other engaged in the more intellectual occupation of passing around the hat. Quite a crowd gathered to witness the performance, composed principally of children who were just coming from school. As the bears passed two or three horses on the street the owners of these had great difficulty to keep them from running away. Mr. Beard, carter, was not so fortunate in retaining his. He had just delivered a load, and was driving home, when the horse passed the bear, and as he saw the animal, he gave a couple of bounds, and was off like a flash. People who have seen the horse meandering in his usual quiet manner for months past, thought he had not spunk enough in him to run away for anything, and his owner was of the same opinion. He was deceived, however. The horse rushed up the street at a great rate, and as the front board of the waggon jumped out, the occupant had no rest for his feet, and, consequently, no power over jhe horse. When opposite George street, the waggon broke up, and the old man was thrown out upon the shafts and from thence to the ground with great violence. People thought he was killed. On picking him up, however, he was able to walk. He was taken to the Horton House, and Dr. Craig examined his wounds. He had a deep cut on the scalp, and another under the chin, both of which required a stitch, two of his teeth were knocked out, and his jaw slightly fractured. He was not so badly hurt as people thought he was, but being old feels the injuries severely. He is doing well. Those able-bodied beats who go about the country, should, when they come to a town if they persist in occupying the streets for their show, be arrested as vagrants, and we would soon have less of them.

NORWOOD.

SHOOTING AFFAIR.—The *Register* says that the other week as Messrs. McCarthy, McCann and Mahoney were returning from Peterboro', some person or persons concealed behind a fence on Rubidge's Hill about three miles out of town, fired several shots at them, three of which passed through Mr. McCann's hat, one of them coming so close to his head as to ruffle his hair considerably, but, luckily, penetrating no deeper. Somehow or other they forgot to stop to investigate until they had gone a considerable distance past the place where the shooting occured, and consequently could give no description of the party. They can assign no cause for the shooting. Messrs. McCarthy and McCann reside in the vicinity of the Indian River. Mahoney is a resident of the township of Asphodel. The road between Peterborough and the Indian River is rapidly becoming notorious, this being the second shooting affair occurring on it within a couple of months. If this sort of work is allowed to pass unnoticed, our country will soon be able to boast of having a road, so far as the safety of those travelling upon it is concerned, unsurpassed by any in the "No rent" districts of Ireland.

SUDDEN DEATH.—The wife of Mr. J. W. Pearce, Marmora, died very suddenly on the 2nd Inst. The Belleville *Intelligencer* says:—"The funeral of the late Mrs. J. W. Pearce took place on the 4th Inst., and was well attended, as she was a lady much respected by all who knew her. The occasion was improved by an impressive sermon by the Rev. S. MacCauly, from John x, 28.

NEW FIRM.—We learn that S. J. Griffin, Esq., merchant, of this village, has sold his business to R. Waters & Co. The store has been closed this week for the purpose of taking stock, and the New Firm will be prepared to receive customers on Saturday next. Look out for their advertisement next week. The stock having been bought cheap, great bargains may be expected.

Visit to Kingston.

On Saturday Mr. Caron, Minister of Militia, and Messrs. Gunn and Kirkpatrick, M. P.'s organized a special excursion at their own expense from Ottawa to Kingston with a view to enabling members of Parliament to see for themselves how the Military College is worked. The trip was a highly enjoyable one.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

CHILBLAINS.—These troublesome complaints may be speedily cured by Hagyard's Yellow Oil, the great Rheumatic remedy, which, as an external application and an internal remedy has a wider range of usefulness than any similar preparation in the world. All druggists sell it. Price 25c.

A CURE FOR HEADACHE.—What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health-giving principles of this remedy are unequalled by any similar preparation in the world.

Daily Evening Review

MONDAY, MARCH 20, 1882.

UNWILLING WITNESSES.

THE *Globe* commissioner to find or invent facts against the N.P. is still interviewing those who he thinks will help him to what he requires. One of his latest visits has been to London and Ingersoll, and he reports his conversations with three firms.

Mr. J. Leonard, of E. Leonard & Son, engine and boiler makers, though he could not see any benefit in the N.P., in the course of his remarks made some very important admissions as follows :—

"We have not, owing to home competition, been able to raise our prices."

"The price, duty and all, fell below the price which obtained before the duty had been raised, consequently the ill-effect of the tariff was not perceived."

"Notwithstanding the increased cost of production, we are enabled to do very well."

"We still have losses from bad debts, though not so many as during the dull times."

"A large firm in London," name not given, approved of protection, and said :

"The Manitoba market they thought is preserved for Canadian manufacturers by the N. P., as well as markets nearer home."

Mr. Nixon, of Ingersoll, could not see that the tariff had benefitted his extensive agricultural implement business. He talked of the extra duties he had to pay, and said :

"I do not say that we lose the extra duty we pay on imported material, and the extra price generally equivalent to the duty we pay on home manufactured material. We did pay much of it for a time, but gradually have shifted the whole or almost the whole burden upon the farmers, who we intend shall recompense us for the taxation we pay."

Now this is the first agricultural implement manufacturer, who has declared his intention of raising prices on the farmer. From our own enquiries of local manufacturers, from the letters of others at a distance, from the complaints of Messrs. Paterson and Charlton in the House, and from the official returns, we learn that without any previous exception the manufacturers say that they have reduced instead of raising the prices of agricultural implements. Farmers therefore would do well to take the hint and make their purchases from firms that will not fleece them but, will on the contrary give them better bargains than in the old days.

INK WASTED.

Grip has a very telling cartoon entitled "An appeal to the Opposition" depicting Mr. Gordon Brown of the *Globe* pouring his ink bottle over Sir Charles Tupper, and asking "is all this good ink to be wasted !" The leaders of the opposition know too well the slanderous nature of the *Globe*] charges to care to father them in the House of Commons. But we will let *Grip* speak for itself :—

"For many months the *Globe* has devoted itself to the demolition of "Tupper," a consumation devotedly to be wished, if that Minister is really the sort of a man the Editor paints him—namely a man who systematically robs the public till. This charge has been specifically made again and again in the columns of the opposition organ, and Mr. Brown, as managing director of a business company, has a right to ask if so much good ink is to be absolutely wasted. This question is of course addressed to the Opposition leaders in Parliament, for undoubtedly *they* are the persons to formulate the charges preferred, and bring them to an issue. Of course, it would be unreasonable to expect any Minister of the Crown to come forward with a libel suit against a newspaper ; the result would not be very satisfactory to the public, even if he did so. Parliament is the proper place for an investigation into the conduct of public servants, and before that tribunal these charges against the Minister of Railways ought to be inquired into. Sir Charles Tupper has more than once challenged such investigation, and if the session is allowed to go by without any action on the part of the opposition, the public must conclude that Messrs. Blake, Mackenzie, *et al.*, do not believe the *Globe's* charges to be well founded, which, to say the least of it, is an unenviable position for an "organ" to occupy."

PRODUCE SPECULATION INJURING THE COUNTRY.

We take the following from the editorial columns of the April number of the *American Agriculturist*, and would commend it to the particular attention of our readers at the present time, inasmuch as it affords proof positive of the utter inapplicability of the comparisons, in which our Grit friends are so fond of indulging, just now, as to the relative values of grain in the Canadian and American markets. We have frequently pointed out that owing to the gambling in produce that prevails in Chicago its quotations are no guide to the value of any commodity for exportation to foreign markets, and that such comparisons, to be of any value, must be made between the markets of Canada and those of Liverpool or some similarly situated one. As the article we are quoting was written in the interest of the American farmer, its statements may be accepted with confidence, and it shows a state of affairs under which Chicago quotations might reach a figure at which we could ship wheat to Chicago (which would be pretty much the same thing as "shipping coals to Newcastle") without its causing us any surprise. And in the second place it proves that during the next few months our farmers might expect the Canadian market to be flooded with America wheat were it not for our present tariff. When the break anticipated by the *Agriculturist* does come, as it must come except some very unlooked-for circumstance arise, were it not for our "iniquitous" tariff a similar break in the Canadian markets would follow as a matter of course. As it is, the present position of Canadian holders is not an enviable one, but with the duty removed it be ten times worse. The following is the article in question :—

"If left to their natural course, prices are fixed mainly by the relative supply and demand. But wealthy speculators, aided by a multitude of those whom they induced to follow their lead undertook early last autumn to buy up and control the available supplies of grain, pork, bacon and lard, and hold them at very high prices, prices quite above those prevailing abroad. They argued (to others) that there was a short supply in the world, and that before another harvest consumers would have to take their stock at any price they chose to ask. Some of them possibly believed this ; others of these shrewd manipulators calculated that, however the markets might eventually turn out, *they* would themselves unload in time to make large profits, and leave the mass of their followers, the 'lambs,' to bear whatever losses might occur. And fortunately they found plenty of these, many thousands of them in all ranks of society, who bit at the bait, and invested their five, ten, twenty, and up to hundreds or thousands of dollars in 'margins.'—What is the result? European countries which would have taken all our surplus, at paying figures, though below what speculators have held them at, have scoured the world, and drawn out from the remotest points far larger supplies than were ever before obtained, or would have been thought of but for the course of the speculators here. Take Great Britain for example. During five months ending Feb. 1, that country received the following supplies from three other countries alone, aside from that obtained from Australia, Egypt, Turkey, France, Chili, Canada, etc. (The flour is reduced to its equivalent of wheat.)

BUSHELS OF WHEAT.

From	1880.	1881.	1882.
British India	1,509,917	3,534,634	9,025,712
Russia	5,635,618	1,162,804	5,855,555
Germany	3,786,997	2,001,258	4,513,098
Total	10,923,532	6,697,696	19,394,365
United States	42,193,111	38,844,973	31,895,423

"These figures show that Great Britain gathered nearly Thirteen Million bushels more of wheat from German, Russia and India, than during the same period the previous year, and of this excess five and a half million bushels were brought from distant India. These Thirteen Million bushels have laid all the while in our store-houses and elevators, and would have been taken from us at good paying prices, and the cash returned, had gambling speculators not prevented it. And what is worse, not only have new sources of supply been opened, and larger production stimulated to compete with us in the future, but Great Britain has practically secured and within sight so large a stock that we are likely to lose this season the sale of much we have to spare. In proof of this, note that for the last five months, ending Feb. 1st, there have been thrown into the British market of home-grown and foreign wheat, the following amounts in pounds of wheat and flour, not including a small amount exported : In 1882, 4,937,219,168 ; in 1881, 4, 909,515,632 ; in 1880, 4,576,716,368 ; in 1879, 4,772,770,586.

"These figures show that up to February 1st, Great Britain had already secured of wheat and flour for consumption, 27,703,536 lbs. more than at the same date last year; 360,502,800 lbs. more than in 1880 ; and 164,448,592 lbs. more than in 1879. Yet with this fact before us, with relatively larger stocks on hand here than at same date last year, the speculators would delude the public into believing that the present or higher prices will prevail; and they will keep this up untill they inveigle enough "lambs" to take off their hands their enormous speculative holdings and contracts. What is said above of wheat and corn applies largely to other staples, and to hog products—lard, pork, and bacon.

"The following figures show the injury to our country by the speculation which has kept prices of hog products unnaturally high, or always above what foreigners would freely pay for them, and thus overstocking our own markets, led to the export of gold instead of these products, and stopped the receipts of gold that would have come to us. Note these figures for seven Atlantic seaboard ports :—

Exports from Nov. 1, 1882, to Feb. 25, 1882.

	1880-1	1881-2	Decrease.
Pork..	24,721,800 lb.	21,198,200 lb.	3,523,600 lb.
Bacon	328,356,470 lb.	191,212,900 lb.	137,143,570 lb.
Lard.	144,844,571 lb.	104,391,189 lb.	40,453,382 lb.
Total	497,922,841 lb.	316,802,289 lb.	181,126,552 lb.

"As against the evil efforts of developing other competitors for the future, and the disturbance of the country by the locking up of such vast sums in speculative stocks and margins, which ought to have been circulating in regular channels of business, and the fact that to this date twelve million dollars of gold have gone abroad instead of the produce that should have gone, there is only one satisfaction, to wit: All producers who have been able to get their grain and pork to market, have realized a little higher rates than they would have done had prices been left to take their natural course—though this single present gain is quite likely to be offset in the future by the great stimulus given to wheat culture in India, Australia, south-eastern Europe, northern Africa, and else-where, which will compete with us hereafter in the European markets ; and our farmers are thus likely to lose in the end far more than they have gained by the great grain speculation of 1881-2."

AN UNPRINCIPLED GUARDIAN.

An Innocent Young Girl Saved from Destruction.—Arrest and Acquittal.

LONDON, March 17.—The local papers on Tuesday last published the details of an alleged abduction from Ailsa Craig of Miss Annie Howie, a young woman of 15, by Frank Brooks, a telegraph operator. Brooks was taken into custody at the instance of Alexander Brownley, a jeweller of Ailsa Craig, who claimed that Miss Howie was his adopted daughter, having lived with him for seven years. When the matter came to be investigated Brooks showed his entire innocence and Brown quickly withdrew the charge and paid the costs. It appears now that Miss Howie, who is an orphan, bears an excellent character. Instead of running away with the operator she came quietly to this city, and for good reasons. Mr. Brownley's overweening anxiety to secure Miss Howie's return to Ailsa Craig among other things excited the suspicions of Detective H. R. Schram, who persuaded Brownley to leave her case in his hands. On visiting Ailsa Craig the detective learned that Brownley had always been very jealous and watchful of Miss Howie's movements. Following the clue thus obtained, he learned from the girl's half sister that Annie Howie had letters in her possession from Brownley of a scandalous character. Annie was found at the house of her brother, Mr. Wm. Howie, in London East, and on learning that Brownley was coming to the city, she surrendered these letters to the detective. The vile contents of these letters were the secret of her sudden departure from Ailsa Craig. She claims the three letters which were signed with Brownley's initials can be identified as in his own handwriting. They contain proposals of the most scandalous and indecent character. An information was made out at once, containing sworn copies of the letters. Brownley was telegraphed to come here, which he did, expecting to meet Miss Howie. Upon learning that his true character was known, Brownley endeavored to gain time to effect a settlement, but in vain. Failing this, he burst into tears, exclaiming, "Then I am a ruined man." He was at once lodged in gaol. Brownley has long been a prominent man in Ailsa Craig.

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

COAL V. WOOD AS FUEL.

In many sections of the country where wood was almost the only fuel used by manufacturers, it has recently become so scarce and so dear that many are using coal instead, and it is an interesting question to determine at what relative prices coal and wood are of equal value as fuel.

A boiler furnace, arranged for wood burning is not adapted for the proper combustion of coal, and any attempts to use coal, without the necessary changes in the furnace, would only lead to unsatisfactory and disappointing results.

The object aimed at in the consumption of the fuel is, of course, the conversion of the water inside the boiler into steam. * * *

The composition of the different kinds of wood used as fuel is so nearly the same that, when when equally dry, the same weight of pine, tamarack or maple will yield the same quantity of heat, and produce the same quantity of steam. Wood, when newly cut and green, contains about 45 per cent. of moisture, and in the ordinary air-dried condition of fire-wood, still retains at least 25 per cent. of moisture. Whatever moisture is contained in firewood has to be evaporated in the furnace, and absorbs just as much heat as if the water had been inside the boiler, but no good result comes from it. Wherever wood is used as fuel it should be kept under cover, in order to keep it dry as possible, especially in the winter, when snow and ice are so apt to accumulate on it. Wood is sometimes thrown into boiler furnaces with so much of snow and ice adhering to it that all the heat from the stick is used in evaporating its load of ice and snow, and there is none left for the boiler.

The evaporate power of good coal in a suitable furnace may be taken, at a fair average, to be 10 pounds of water evaporated from and at 212° per pound of coal. In many trials this has been far exceeded, but much depends upon the condition and proportions of the boiler, rapidity of combustion, and the skill of the fireman.

The evaporate power of air-dried firewood in sound condition cannot be taken as higher than 3½ pounds of water evaporated from and at 212° per pound of wood. A cord of sound, dry pine would weigh about 2,400 pounds, and would be equal to about 840 pounds of good coal. Hardwood as usually supplied for consumption under factory boilers may be taken as equal to about 2,800 pounds of dry wood per cord, and therefore equal to about 980 pounds of good coal ; so that one ton of coal would be equal to 2 4-10 cords of pine, or about 2 cords of maple. To put it in another way : Coal at $6.50 per net ton, would be equal to sound pine at $2.70 per cord ; or to maple at $3.20 per cord.—*Canadian Manufacturer.*

The Lord Mayor of London on Emigration to Canada.

A deputation of unemployed men, representing thousands of every trade, lately waited on the Lord Mayor of London, at the Mansion House, to petition His Lordship to take steps towards alleviating the existing distress by giving facilities for free emigration to Canada and other British colonies on such conditions as would enable the emigrants to repay their outfits.

The Lord Mayor, in reply, remarked that he had listened with painful interest and much sympathy to the statements which had been made to him. He thought the deputation should, as they had themselves proposed, see Sir Alexander Galt, the High Commissioner for Canada, in this country, and if he could define a scheme to promote the emigration of the unemployed he would gladly assist him in raising the necessary funds. The idea of emigration was a most reasonable and proper one, and he was sure that if their friends in Ireland were to make as good and practical a suggestion they would all be a deal happier and more comfortable. They would be giving a greater advantage to Canada in sending out men who would work the resources of the Dominion, and who would in time send back the results of their labor to this country. He could quite understand that at certain periods it was necessary to assist emigration, and to lend them a helping hand when they arrived, and it was especially desirable that they should proceed under the auspices of the Government of the country to which they emigrated. He recommended them to see Sir A. T. Galt, who was able and willing to advise them, and he would be glad to see them again, if need be.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

DREAMS.

Is there some fairy land, above, around us,
Whither the Spirit roams when sleep has bound us;
Or, are those phantom forms which haunt our slumber
Those ever-changing scenes through which we wander,
But mirrored on that mystery the brain,
Yet thrilling every nerve with joy or pain?
A dream came o'er me once so fraught with agony
It haunted me for years with its dread fantasy,
Is needs no molten lake, no fiery tongues of flame,
To make a hell for man; he finds it in a dream.
And in a dream the lonely captive finds a heaven;
Back to his aching heart the joys of earth are given.
In that strange land of dreams, long parted friends may meet;
The living with the dead there hold communion sweet.
In dreams our precious Lord communed with men,
And as in days of old, in dreams may speak again.
What if that last long steep, when man yields up his breath,
Should prove no calm oblivion, no nothingness in death;
But one unending dream with earthly memories fraught;
Daguerreotyped each deed and every evil thought,
The murderer through that troubled sleep may ever trace
On memory's truthful page, his murdered victim's face.
Remorse, God's stern avenger, sleeps not in the grave;
Save us from dire remorse, Thou who alone can'st save.
Delirium tremens, dread and frenzied terror,
May haunt the poor inebriate's dark forever,
And those who lured him on to taste the "one glass more."
Made traffic of his weakness to increase their store;
Will they presume to plead before the great White Throne:
"Am I my brother's keeper?" like Cain their sin disown?
The heartless libertine who glories in his shame,
Worships no God but self, pleasure his only aim;
What may his future be, could he find rest
Where holy angels and the just are blest?
Heaven were no heaven to those all foul within,
For heaven is love, joy, peace; are these the fruits of sin?
Think not a dying prayer, a few repentant tears,
Can cleanse the soul, deep mired in sin for years,
'Tis written, "as ye sow so shall ye also reap,"
Then sow not tares for wheat, lest ye should mourn and weep.
Why make each for ourselves a hell, why court remorse?
The never-dying worm of earth and hell the curse,
And nursed by memory the fire that none can quench.

A. H. R.

ONE CHANCE IN A THOUSAND.

A San Francisco Teamster's Recovery From a Broken Neck.

About five months ago the daily press published a short item regarding a teamster named John Collery, who attempted to drive his team through a barn door, and in so doing had his head forced down on his breast until his neck was broken. Police Surgeon Stambaugh made an examination of the injured man, and found that the seventh cervical vertebra was fractured and that the spinal cord had been stretched nearly two inches. So serious was the injury that the reporters, after chronicling the incident under the head of fatal accidents, paid no further attention to the matters, and failed to inquire after Collery's condition, considering him dead and buried. A *Chronicle* reporter was therefore exceedingly surprised yesterday afternoon to meet the supposed corpse near the city prison looking remarkably well for a man with a broken neck. In a conversation which ensured, Mr. Collery stated to the reporter that he was almost as well as before the accident, a slight stiffness in his right side constituting his entire "unhealthiness." after his removal to his home Collery states that he was laid flat on his back with a sort a fence about his neck and head, which kept him immovable for over two months. Both the body of the vertebræ and the arching lumanæ were discovered to be broken, and the operation of pinching the spinal cord where it had sagged between the ragged edges is described as one of the most difficult ever performed. For a month the patient lay on his back, completely parallized in one-half of his body, and with but little feeling in the other. If he moved in the slightest degree during the first fortnight he conld plainly feel the jagged edges of the bone grate together, and for hours after such an attempt he was content to lie on his hard bed without attempting to move a muscle for fear that the spinal cord would be crushed and his existence en led in a twinkling. The straightest position attainable was required, and to this end Dr. Stambaugh was compelled to refuse him a mattrass, compelling him to lie on a wide plank. Collery states that before his eight weeks of enforced quietness were ended he thought that board was made of adamant. The most dangerous time he experienced he says, was one day when an attendant told him that a man whose neck could stand breaking as his had was not born to be hanged. His desire to laugh was irresistible, and the shaking up his merriment gave him caused his fastenings to burst, and the fracture came near being ruptured afresh. During the first five weeks he did not move hand or foot from his first posture. The paralysis has now almost entirely disappeared, and Dr. S. yesterday promised him that he would be able to go to work within six months. The average fatality in cases of clearly defined fracture of the spine is estimated at 999 in 1,000.—*San Francisco Chronicle.*

IN DISGUISE.

A Woman Passes Herself off as A Lad—Accidental Discovery of the Woman's Sex.

JANESVILLE, March 17.—Last October a person having the appearance and make up of a lad sixteen, presented himself at the office of the Brown manufacturing company, asking for employment, and showing a letter of recommendation from a Mr. Morgan, of Newark. Mr. Morgan's letter stated that the bearer was a poor orphan boy of 16, who had suffered from cruel treatment, and asked that the lad be provided with some light employment. The lad had a very pleasing countenance, and seemed very anxious to make a living, and consequently was given employment in the chair room, and was known as Scott Smith. Shortly after he was transferred to the shipping department, where he discharged his duties satisfactorily. A few days after Superintendent Brown visited the department, and for the first time Brown noticed the stranger, and suspected that Smith was a woman. He mentioned the suspicion to his office associates, but they ridiculed the idea, and the matter was forgotten. Smith secured a boarding-house and roomed alone for three months. As the cold weather approached a fellow-boarder, noticing that the orphan's room was without fire, invited Scott to share his bed. The stranger reluctantly accepted, but succeeded in preserving the secret of her sex until a night or two ago, when her room mate made the discovery which materially charged the current of events. The woman refused to give her name or any of her history, further than that she was 26 years old, and her only relatives are two brothers, one living in New York, and the other in Little Rock, Ark. The only reason given for her conduct was that she thought she might fight the battles of life more easily in the garb of a man. She used tobacco habitually, both chewing and smoking, and was very industrious. She left late last night for regions unknown.

BURNS AND SCALDS are promptly cured as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflamation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25c.

IMPORTANT NOTICE!

One of the Largest Dry Goods Stocks in Peterborough!

FAIRWEATHER & Co.

Will Commence on FRIDAY, MARCH 10, to make a CLEAN SWEEP of their whole Stock, amounting to nearly $30,000.

The Whole of which will be Sold at REDUCED Prices!

A Great Portion of which are New Spring Goods bought for this Season's trade, consisting of New Black and Colored Silks, New Black and Colored French Cashmeres, New Dress Goods of various kinds, New Spring Prints and Shirtings, New White and Grey Cottons, Tickings, Sheetings and Towellings, Bed and Table Linens, Piano Covers and Fine Embroidered Wool Table Covers, Cretonnes and Damask Window Curtains, New and Beautiful Lace Window Curtains, Rich Silk and Satin Parasols, a beautiful variety of New Real Thread and Silk Laces and Rich Embroideries.

Department Silks, Satins and Velvets	$3,800
Department Dress Goods	2,300
Department Hosiery and Gloves	550
Department Fancy Goods and Trimmings	1,700
Department Ribbons	750
Department Parasols and Umbrellas	300
Department Prints, Gingham and Shirtings	2,400
Department Household Furnishings	1,300
Department White and Grey Cottons	1,150
Department Flannels and Blankets	450
Department Tweeds and Cloths	4,200
Department Ready Made Clothing	3,900
Department Boots and Shoes	600
Department Gents Furnishings	750
Department Millinery and Mantles	2,600
Department Feathers and Flowers	750
Department Carpets, Damasks, Etc	1,300
	$28,800

☞**The above Stock, as will be seen, is very Large and Varied, and best Quality of Goods in the Trade.**

The Firm have Resolved to clear the Whole Stock off Regardless of Cost, so that it will be to the INTEREST of everyone to embrace this opportunity of obtaining New and Beautiful Goods at less than Wholesale Prices.

To give all classes an opportunity of purchasing at the GREAT SALE, the Store will be open every morning at 7 o'clock, and will not close until 8 o'clock at night. Terms Strictly Cash!

FROM ALL OVER.

SAYS the Saturday *Review*:—"The manner of writing which Lord Macaulay introduced has become all but universal in journalism."

DURING the twenty years ending with 1880 there were condemned to death in England and Wales 512 criminals, of whom only 279 were executed.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

OFFICERS of the Royal Marines are at last to be considered eligible for employment as aides-de-camp on the personal staff of general officers of the British army.

A CITY ordinance has just been passed in Cincinnati making it an offence punishable by fine and imprisonment for a person having scarlet fever, diphtheria, or smallpox in his family to send his children to the public schools.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

THE Marquis de Jocas, whose name is to be added to the list of Union Generale suicides, was involved to the extent of £24,000. He left his wife and children at Carpentras, and blew his brains out in the park of his chateau.

GERMANY is alive to the services which trained carrier-pigeons could render upon an emergency, and her Minister of Marine has approved of the erection at Kiel of an "establishment" for carrier-pigeons, at an estimated outlay of over a thousand pounds.

THE VITAL FORCES are speedily renewed by Mack's Magnetic Medicine, the great brain and nerve food, it is the best and cheapest medicine ever discovered. See advertisement in another column.

IT IS roughly estimated that the expenses of Mr. Rowlandson, the defeated tenant farmers' candidate in the recent election in the North Riding, will reach £8,000, but that those of the successful condidate, Mr. Guy Dawnay, will be about £15,000.

SIR WM. HARCOURT has now made up his mind to appoint Mr. Ray Lankester to the Chair of Natural History in the University of Edinburgh. The appointment is mainly owing to the great influence of Professor Huxley with the present Government.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

COUNT FAELLA, who was recently been tried at Bologna on the charge of murdering a priest, Virgilio Costa, for the purpose of obtaining 52,000 francs from his heirs on a forged note of hand, was found dead in his cell. He had poisoned himself, foreseeing conviction to be certain.

THE SECRET OF BEAUTY.—No Cosmetic in the world can impart beauty to a face that is disfigured by unsightly blotches arising from impure blood. Burdock Blood Bitters is the grand purifying medicine for all humors of the blood. It makes good blood and imparts the bloom of health to the most sallow complexion.

MR. JUSTICE DENMAN, an English judge, having to decide between a certain Mr. Wertheimer, who sold a vase as genuine old Sevres, and Mr. Goode, its purchaser, who found it to be of recent manufacture, deplored the existence of people who pay high prices "for Sevres vases and such like."

IT IS announced that Dr. Campello, ex-Canon of St. Peter's at Rome, will shortly assume the direction of a new paper entitled *Laboro*, for the publication of which capital has been supplied by Anglican dissenters in Italy. The policy of the paper will be the furtherance of Count Cavour's idea of a free Church in a free State.

A GOOD FILTER.—To have pure water in the house every family should have a filter, the health and comfort depends largely upon the use of properly filtered water. The liver is the true filter for the blood, and Burdock Blood Bitters keeps the liver and all the secretory organs in a healthy condition. It is the grand blood purifying, liver regulating tonic.

THE fact that at a recent ball in the Doria Palace in Rome the Borgheses, Rospigniosis, and Del Dragos deigned to dance with the Quirinal Corps Diplomatique and the Ministers of King Umberto for the first time since 1871, is regarded as a sign that the Italian Government is on more friendly terms with the Court of the Vatican than it has been for some time.

IN THE pockets of an English sergeant killed by a street car in Bombay, there was found the sum of $8,000; and it is known that not long ago he sent home $17,000. This was his share of loot in the Afghanistan campaign. It is reported that many of the officers who were poor as church mice three years ago have grown mysteriously rich.

TWELVE female doctors in Russia are now officially engaged in teaching medicine to woman. Thirty are in the service of the Zemstovs, and forty others serve the hospitals. Twenty-five female doctors who took part in the military operations of 1877 have been decorated, by order of the Emperor, with the order of St. Stanislaus of the third class. The number of female students is steadily increasing.

OUR correspondent was favoured with the following from C. H. Wood, Esq., of the C. & T. Ry., Port Huron, Mich. "After suffering for nearly a year with rheumatism, receiving treatment from the best physicians of Michigan and the West, I happened to try a bottle of St. Jacobs Oil. Upon the first application I used fully half a bottle, and its effect was almost instantaneous. I immediately dropped all other treatment, and confined myself to its use alone. After the use of three bottles, instead of being driven to my business, or moving about on crutches, I walked from one to three miles daily about business, and have been free from this horrible disease for over a year, not having the slightest twinge of it. Hence I say that all medicines known to me are useless when compared with the Old German Remedy. Use this statement when and where it suits.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

KISS ME.—"TRABERRY," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

To Ward Off Lung Diseases.

In conclusion we will remark that rowing, horseback, riding, and gymnastics, are three of the best forms of exercise for incipient consumption. We know one man who has kept the disease at bay by working at plastering houses. The exercise of the arms and chest, and the necessity of holding the shoulders back and the face up produces the necessary exercise. Whenever he quits his work for a few months symptoms of the disease appear. We know another case where this disease is kept at bay by rowing passengers across a river, a mile wide, in all weathers. He was so bad the physicians pronounced his case hopeless. We know another not cured entirely, but kept in tolerable health by going before the mast every summer for eight months, and working like a sailor. Almost every kind of exercise has some benefit. N. P. Willis thought chopping in the woods and riding horseback the best means of cure. It certainly prolonged his life many years. Begin moderately, according to the strength, and persevere. If, however, the latter stages of this disease have appeared, then there is, as a rule, little hope.—*Herald of Health.*

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

CONSUMPTION CURED.—From Andrew Archer, of Fairfield, Me.—"Seeing numerous certificates in the *Maine Farmer*, endorsing the Great Lung Remedy, Wistar's Balsam of Wild Cherry, I take great pleasure in giving publicity to the great cure it accomplished in my family in the year 1856. During the summer of that year my son, Henry A. Archer, now postmaster of this place, was attacked with spitting of blood, cough, weakness of lungs, and general debility, so much so that our family physician declared him to have a 'seated consumption.' He was under medical treatment for a number of months, but received no benefit. At length, from the solicitation of himself and others, I was induced to purchase one bottle of Wistar's Balsam of Wild Cherry, which benefitted him so much I obtained another, which in a short time restored him to his usual state of health. I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—The great lung remedy for the times! The above statement, gentleman, is my voluntary offering to you in favor of your Balsam, and it is at your disposal." 50 cents and $1 a bottle. Sold by dealers generally.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that **"Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

☞Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1wly

A POSITIVE CURE

Without Medicines.
ALLAN'S SOLUBLE MEDICATED BOUGIES,
Patented October 16, 1876. On Box

No. 1 will cure any case in four days or less.
No. 2 will cure the most obstinate cases, no matter of how long standing.
No nauseous doses or cubebs, copaiba or oil of sandalwood, that are certain to produce dyspepsia by destroying the coatings of the stomach.
Price $1.50. Sold by all druggists, or mailed on receipt of price. For further particulars send for circular. P. O. Box 1,533,
J. C. ALLAN CO., 33 John street, New York. d62

Bear in Mind

THERE IS NO LONGER ANY SUCH FIRM AS MUNCASTER & SANDERSON DOING BUSINESS IN PETERBORO', THE PARTNERSHIP HAVING BEEN DISSOLVED IN AUGUST LAST.

MUNCASTER'S

JEWELLERY STORE

Is Removed from the old Stand

AND IS NOW IN **CLUXTON'S NEW BLOCK**, WHERE HE HAS A FULL AND COMPLETE NEW STOCK OF WATCHES, CLOCKS, SILVER-PLATED WARE, JEWELRY, VIOLINS, &c.

WATCH REPAIRING

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.

☞**Don't Forget the Place.**—Cluxton's New Block, opposite McKee & Davidson's, George Street.

R. W. MUNCASTER.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

AMHERSTBURG, ONT.

For Sale by Ormond & Walsh, Peterboro

PUZZLED PEOPLE

Who want to buy Best, should

READ!

NO mere handful of Goods, but a Store 80 feet in length, packed from one end to the other.

CHOSEN with a special eye to the wants of our growing trade.

PURCHASED at the closest of prices, it abounds throughout with the freshest and most desirable the market affords.

CONTAINS in many cases special lines of Goods at prices quoted only by ourselves.

NONE of our departments more attractive than our DRESS GOODS. Look at the same.

PARTICULARLY we mention our MILLINERY and MANTLE showrooms, which are neatly and conveniently arranged, and stocked with full lines of Spring Goods entirely new.

A CHANGE.

On and after to-night, in conjunction with the leading merchants of the town, we will keep our place of business open until 8 p. m.

MUNRO & ALEXANDER.

Daily Evening Review

MONDAY, MARCH 20, 1882.

LOCAL AND MUNICIPAL.

"Jim Murphy's Arrest.

On Saturday afternoon just previous to going to press, an unusual crowd on George street betokened that something was up. The word soon flew that P. C. McGhee was endeavoring to arrest "Jim" Murphy, the notorious Ennismore man, and many were the predictions made that the officer would not succeed, but as the sequel shows, he duly landed his man in durance vile. It appears that Murphy, who is well known as a big fighting man, and general "terror," was acting in a disorderly manner when P. C. McGhee approached him, and requested him to keep quiet and start for home. The two stood talking for some time and at last Murphy consented to accompany the custodian of the peace to the American hotel, where the former was staying. Seeing that Murphy was in the grip of the law, several hot headed neighbors, all of whom were under the influence of liquor, grabbed the officer and took Murphy away. Then the row started in earnest, Murphy got excited and caught the officer by the throat while the drunken mob around attempted a rescue. Seeing that things were going too far, the policeman drew his baton and by striking Murphy on the arm repeatedly, made him loosen his hold. In the meantime the Ennismore roughs attempted another rescue, but a few resolute citizens came to the aid of the officer and Ennismore retired utterly discomfited and with a little more difficulty Murphy was landed in the cells. This is the first affair of the kind that occurred here for years, and it was the principal topic of conversation throughout the town ever since it occurred. Murphy is a quiet, respectable citizen when sober, but when drunk he acts like a demon, and cannot restrain himself at all. Everything would have gone all right on Saturday, but for the interference of some of the prisoner's friends (?) and the citizens one and all fully anticipate that these meddlers will be put in a place where they will not have a chance to interfere in anything of this character for at least six months. Is every drunken rough who sees fit to be allowed to obstruct and assault our police officer's while in the discharge of their duties? The people want to know, and the quicker they know it the better, as they will then be enabled to take measures to protect themselves. This is not Murphy's first offence of a similar character, but it is to be hoped that the judgment on this occasion will be of such a nature as to deter not only him but all of his class, from ever assaulting an officer again. P. C. McGhee deserves the greatest credit for the cool manner in which he acted, and many express the opinion that he should have made a more liberal use of his baton and struck at the head, instead of the arm.

Railway Notes.

The *Globe* says that a postoffice and smoking-car for the Midland Combination is being built at the Midland work-shops. It will be sixty-three feet long, and will be one of the finest coaches on any Canadian line.

Men are going out every day to the place where the "missing link" work is in progress, most of them are professional navvys, who have been working on Railway works for years. The first cut is about five miles from town.

Carworks.

Our readers are reminded of the meeting to be held this evening at the council chamber at 7.30 o'clock, for the purpose of discussing the matter of the proposed carworks company. All interested should be present, as the provisions of the by-law will be fully explained and for the first time, the citizens will have an opportunity of learning what the different clauses provide for.

Thanks.

We have to return our thanks to Mr. David Carlisle, at present visiting in the "Sunny South," for copies of late St. Louis and other Southern papers, containing graphic accounts of the devastating floods in that region.

New Post Office.

A new Post Office was established at Essonville, East Riding of Peterborough, on the 1st of March.

"Nor-West Ale."

Just received, two brewings of the above celebrated ale at Davy Wheeler's.

Our Indians.

From the report of the Department of Indian Affairs, we extract the following from the report of the Superintendent of the Central District:—

The Superintendent-General of Indian Affairs:

SIR,—I have the honor to submit the following Report on Indian Affairs in this Superintendency, for the year ended 30th June, 1881:—

The advance in the circumstances of Indians is so gradual that from year to year there is very little to report.

The crops for the year were generally very good and provisions seemed to be plentiful, but, as regards the Mississaguas particularly, the mortality among their children has been unusually great, measles having prevailed as an epidemic. The other bands have been generally healthy.

MISSISSAGUAS OF ALNWICK.

This band now numbers 211, being a decrease of 3. There have been 13 deaths, principally children.

The school is taught by the same unqualified female teacher as formerly. She has promised to make an effort to pass the County Board examination at an early date.

A very handsome brick building to be used as a school house and council hall has been erected on the reserve during the past summer.

MISSISSAGUAS OF RICE LAKE.

This band numbers 104, being a decrease of 7.

There is very little change in their condition or habits.

Some of these cultivate their farms in a very creditable manner, but the majority employ whites to work the land on shares, and have been doing so for many years; and as they (the whites) take no interest in the land except for present crops, the soil has become exhausted, and is rapidly becoming filled up with weeds and thistles.

The teacher formerly in charge of the school has been removed and a properly qualified person appointed, a change that will doubtless lead to better results.

MISSISSAGUAS OF MUD LAKE.

The children of this band were also attacked with measles, but having been better cared for, deaths were not so numerous as at Rice Lake and Alnwick. The total membership is now 155, the same as last year.

I am pleased to be able to report that they are now generally healthy, and are supporting themselves comfortably by hunting, fishing, and farming.

MISSISSAGUAS OF SCUGOG.

There has been an increase of 3 in this band, which now numbers 45.

With the exception of two families, they seem to make but little progress in industrial habits. They are still without a school.

"Procurers for Saloons."

The Montreal *Witness* says that Mr. Albert Hall, of Lindsay, Ont., (formerly of Peterboro') a practical confectioner of forty years' experience takes exception to the statements made in an article under the above heading, to the effect that some sweets were nothing more than sugar vessels filled with wine. He points out that the wine or brandy would melt the sugar. That a syrup flavoured with alcohol was used was true, but the quantity of liquor was infinitesimal. Mr. Hall referred us to some confectioners here, and our reporter accordingly called upon Mr. Charles Alexander and Mr. J. W. Tester, who stated that alcohol was used to crystallize rock candy, but only in the proportion of about half a pound of alcohol to seventy five pounds of sugar. In candy drops wine or spirits could be used in the proportion of one pint to twent-five pounds, but it was generally less than that proportion. They confirmed Mr. Hall's statement.

The Weather.

The weather has been somewhat changeable of late, first warm, then hot, then cold, after which came rain. Vennor's big storm took a very mild character when it reached here and instead of the blustry weather expected we had only a slight shower of rain, that quickly took away the small amount of snow that remained. All day Sunday the gutters were like small torrents, and the entrances to most of the sewers were pretty well choked up. By evening, however, the roads were dry and a hard frost soon stiffened them up. The weather probabilities for this district for the following twenty-four hours, as reported from Toronto at ten o'clock a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes,—Winds increasing to gale from the north-east and south-east, fair to cloudy mild weather, followed by rain to-night.

Horse Shipment.

Two carloads of horses were shipped to-day from the Peterborough Stock Repository, one for Montreal by the Grand Junction, Mr. Jacobs, and one for Winnipeg, by main line of Midland, F. T. Winch. The latter were a superior lot of horses, fine draughts and drivers. We learn that Messrs. Stapleton and Walsh have sold out their stables, Mr. Walsh having left to join his family in the North-West. The stables have been disposed of to Mr. Wm. Snowden, of the Phelan house, who in future will conduct them as hotel stables and stock dealer's head-quarters, the stable being well adapted for that purpose. In this connection, however, we may state that Mr. Stapleton still retains the right to use the stables and yard for purposes of sales during the balance of the lease.

Personal.

The Omemee *Herald* says that Miss Lillie Lamb, of that village, has accepted a position in the millinery department of one of the leading dry goods houses of Peterborough. Miss Lamb will be much missed here in the musical circles, as she was one of the best vocalists in our midst. On Friday evening last a member of the members of the Presbyterian Church waited upon this young lady and presented her with an address and some other useful articles as a token of their appreciation of her services as organist in the church.

A Rare Treat.

Now is the chance for our town, if they wish the finest entertainment that ever visited Peterborough. Mr. Singleton, of Port Hope, organist of the Methodist Church, has succeeded after a great deal of trouble and expense in securing the Royal Hand Bell Ringers and Gleemen from London England, for two entertainments, and will give one night here if we guarantee a full house. Mr. S. has a guarantee list open at Davidson's book store for signature. Call and see it. All names on this list will have first choice of seats. Date, April 19th.

POLICE COURT.

DRUNK AND DISORDERLY.

SATURDAY, March 18.—As stated by us in our evening addition, the notorious "Jim" Murphy, of Ennismore, was arrested during the afternoon and lodged in the cells by P. C McGhee on a charge of being drunk and disorderly on the public streets.

It was decided to remove him to gaol to allow him there to ruminate over his misdeeds, until Monday morning, but just before he was to be taken to the castle, a messenger arrived, and said that one of his children was very ill, so it was decided to release him on bail.

He was brought before the Police Magistrate about five o'clock, and liberated on bail until Tuesday morning at ten o'clock, himself in $400 and two sureties in the sum of $100 each.

THE "GOLDEN LION."

MONDAY, March 20.—Thomas Bradburn was charged by P. C. McGhee with continuing the "Golden Lion" sign on George street, the said sign exending over the sidewalk, after having been notified to remove the same, contrary to the provisions of by-law No. 395.

The case was enlarged until the 4th of April next.

CONTINUING AN AWNING.

Thomas Bradburn was charged by P. C. McGhee with continuing a wooden awning, extending over the sidewalk, in rear of the premises occupied by Mr. John Garvey, at the corner of George and Simcoe streets, after having been notified to remove the same, contrary to by-law No. 395.

The defendand pleaded not guilty,

P. C. McGhee sworn,—He handed in a copy of the notice served on the defendant. The awning referred to still exists, and is in a dangerous state. He had spoken to defendant several times regarding its removal, but he refuses to take it down, and says it does not extend over a street or sidewalk. He had been instructed to enforce all by-laws of the town. The continuing of the awning as it is, is an infraction of by-law No. 395.

Cross Examined.—He did not know who built the sidewalk or who put up the verandah. He did not know that the verandah was on private property. It is on a thoroughfare leading to the market.

The defendant said he kept the verandah where it is, because he has the legal title to the property the verandah is on.

Judgment,—Guilty. Fine $2, and costs $2.50.

The defendant announced his intention of appealing and the amount to be paid by defendant in lieu of a bond was fixed at $35.

For Boomland.

"Uncle Jim" Walsh, has left to join his family in the North-west.

F. T. Winch, R. H. Fortye and Geo. Brown, left this morning for "Boomland." They were accompanied to the station by two or three hundred of the leading young men of the town, who assembled to wish them *bon voyage*. They took with them a carload of fine horses and another carload of milch cows, which are just now at a premium in the Prairie Province. Messrs. Winch and Brown intend to remain in Winnipeg, but Mr. Fortye has not yet made up his mind. Thus, one by one our young men are leaving, but while sorry to lose them, we seek consolation in the fact that they intend to make a bold strike and doubtless in a few years they will return to us, each of them having three or four towns for sale. We wish them success.

Handsome and Curious.

There is now to be seen at the Croft house one of the handsomest curiosities we have ever seen. It is a present to Mr. Croft from his son William, now a resident of Winnipeg. It consists of an Indian saddle and saddle cloth made of buckskin, finely made and beautifully and artistically ornamented with bead work. It was purchased from a chief of the Blackfeet tribe, near the Rocky Mountains by a trader, who brought it to Winnipeg. The workmanship is really fine and shows that the copper colored braves and maidens have an eye for the artistic. The articles have been inspected by a large number of persons and may be seen at the place designated.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

Journalistic.

We have received the first number of the *Daily Sentinel* published at Prince Arthur's Landing. It is a four page sheet about one third the size of the DAILY EVENING REVIEW, but if it is small, its contents are unusually entertaining. In addition to a fair supply of editorial and local matter it contains the latest telegrams from all parts of the world. The paper is a credit to the village and we wish the enterprising proprietors a full measure of success.

At The Huffman House.

To-day the parlors of Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the French army, were crowded with physicians and sufferers, using his wonderful instrument, the Spirameter, for the cure of Catarrh, Bronchitis, Asthma and Lung Diseases. He will be here until Wednesday next. Physicians and sufferers can try it free.

Presbytery Meeting.

The Presbytery of Peterborough of Peterborough will meet to-morrow afternoon at 2 o'clock in St. Paul's Church, Water Street, for the transaction af business.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

IRELAND.

SMALL-POX is epidemic in Armagh. At an early Mass in the Cathedral on Sunday Feb. 19th, his Grace the Lord Primate expressed his deep sorrow with the loss, by small pox, of three of the congregation.

SIR J. N. McKenna, M. P., has informed his tenants in the counties of Cork and Waterford, that he is prepared to sell the farms at 22 years' purchase. The tenants consider that 22 years' purchase is too high, and it is not probable that any of them will take advantage of the offer made.

A LAND League hunt which was to have been held on February 21st at Coolecasken, on the property of Mr. William John Philpot, was prevented by the police, but the hunt, suddenly stopped, was subsequently successfully resumed at Ballygraddy, and several hares killed for the use of the political suspects.

ON FEB. 18th, Mr. John McSwiney, of Ballyvourneen, who was arrested under the Coercion Act, in October, on a charge of intimidation, was released on parole at the county Limerick Jail. Mr. McSwiney's child lies dangerously ill, and the parole was obtained from the Chief Secretary to enable him to visit it.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal. All letters must contain stamp for reply. d64-w11

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

The Best Field FOR EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co, in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

SMITH'S MARKET.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its wildly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

TUESDAY, MARCH 21, 1882.

CANADIAN TELEGRAMS.

HALIFAX.

Special to the Review, March 21.

THE SPANISH man-of-war Cruiser, from Havana, with her machinery out of order, arrived here at ten o'clock for repairs. She fired a salute, which was returned by the Citadel.

BUCKHORN.

Special to the Review, March 21.

GEO. C. STRIPP'S store and contents was totally destroyed by fire last night. There was no insurance. The family live over the store, and barely escaped with their lives. The cause of the fire is unknown.

OTTAWA.

Special to the Review, March 21.

AT A REGULAR MEETING of the city council held here last night, the right of way demanded by the Canadian Atlantic Railway was confirmed.

THE BILL incorporating the Canada Mutual Telegraph Company was under consideration. The clause giving power to amalgamate or lease their lines was struck out. The feeling of the committee was decidedly against the principal of the amalgamation clauses.

THE Temporalities Bill was again up for discussion in the private Bills Committee this morning. Several French members took part in the discussion with the anti-unionists. The preamble of the bill was carried on a vote of 39 to 6. Further consideration of the bill was postponed till Thursday in order that the Government might have time to consider its details.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal. All letters must contain stamp for reply. d64-w11

MIDNIGHT TELEGRAMS

CABLE.

RIOTS AT RAVENNA.

PARIS, March 20.—There have been serious disturbances at Ravenna, owing to the collection of a number of people to celebrate the anniversary of the Paris Commune. The people refused to obey the summons of the authorities to disperse, and a collision ensued in which a soldier was killed and another wounded. Many arrests have been made.

MEETING OF IRISH MEMBERS.

LONDON, March 20.—At a meeting of the Irish parliamentary party to-night it was decided to introduce a bill amending the Land Act, dealing with Mr. Healy's clause, in order to set aside the limitation recently imposed by the decision in the Adams-Dunseath case. The party decided to vote against the *cloture*.

THE EUROPEAN SITUATION.

BERLIN, March 20.—It is reported that a deputy of the Prussian Diet, privately speaking to Prince Bismarck on the question of the internal affairs of the Government, was told by the latter that all his time and strength were occupied in preserving the peace of Europe. Whether or not he would succeed the Prince did not say, but he intimated that the aspect of affairs was quiet serious.

OUTRAGES IN IRELAND.

DUBLIN, March 20.—Five suspects have been released from Limerick gaol. Crawford, a rate collector and agent, was dangerously shot while driving to church with his family near Clonmelton yesterday. Some of the members of his family were also injured. Police Sub-Inspector Doherty was fatally shot during a street disturbance at Tobercurry. Several arrests have been made. The wounded man found on Tighe street, Dublin, has died. His murderer has been arrested.

NIHILISTS REPRIEVED.

ST. PETERSBURG, March 20.—While Victor Hugo was entertaining the staff of the Paris *Rappel* this evening a telegram was received from St. Petersburg announcing that the Czar had spared the lives of five Nihilists in whose behalf M. Hugo had pleaded. M. Hugo drank a toast to the Czar.

TEA AND COFFEE.

LONDON, March 20.—In the British House of Commons, Sir Charles Dilke said the Government was waiting on the British Minister at Washington to see what bearing the bill before Congress for the abolition of differential duties on tea and coffee from the Netherlands possessions would have on the tea and coffee production of the British possessions.

SPANISH AFFAIRS.

MADRID, March 20.—The Cortes meets today. Several groups of the Opposition have held a meeting to decide their attitude in the coming session. The friends of Castelar will continue their support of Sagasta except in such reforms as those in which they will demand more democratic legislation, for instance the suffrage and religious questions. Martos and the advanced Republicans declare that their support also will depend upon the extent of the reforms in the Sagasta policy. Moret and the Dynastic Democrats offer their unconditional support to the Conservatives, and the Ultramontanes, in numerous assemblies at the political clubs, have decided upon an energetic campaign on the tariff, treaties of commerce, taxation, and maariage laws. The attitude of the Cuban deputies will be neutral until the Cabinet lays before the Cortes a complete financial tariff and its political plans. It is understood, however, that the state of the Cuban treasury and the agitation among colonial parties will not allow of either tariff reforms or political laws to satisfy the aspirations of the Creole Liberals. The Madrid Government is obliged to keep half way between them and the Conservatives.

THE COMMONS.

London, March 20.—In the House of Commons to-night the debate on the *cloture* proposal was resumed. The Marquis of Hartington declared that the proposal was nothing more than a modification of the existing restrictions on debates. The effect the resolution would have was greatly exaggerated. The Government were unable under the present system to carry on the business of the country with dignity and effect. If other persons thought they could do so the Ministry would with pleasure resign. Sir Charles Dilke said the Government was awaiting reports from the British Minister at Washington to see what bearing the bill before Congress for the abolition of the differential duties on tea and coffee from the Netherlands' possessions would have on the tea and coffee production of the British possessions.

AMERICAN.

ARCTIC SURVIVORS.

FALL, RIVER, Mass., March 20.—Noros, one of the men who last saw Lieut. DeLong alive, writes from Yakutsk stating that he and others in DeLong's boat had their feet frozen, and one man died after they got on shore. Noros says: "We travelled about two weeks short of food. Then the Captain decided to send Hindermann and myself on ahead to look out for assistance. We walked 120 miles without anything to eat. For six days we had not a mouthful of food. We were most starved when found by the natives. The Captain and ten men I fear died from starvation and cold."

MALIGNING THE DEAD.

BUFFALO, March 20.—The *Telegraph's* special from Washington says:—The very bitter and savage attack upon General Garfield in the Washington *Post* several days ago by a person singing himself "Justice" has attracted very general attention, especially in view of the fact that the *Post* said the writer was a delegate to the Chicago convention, a Stalwart, and voted thirty-six times against Gen. Garfield. Many Stalwart Republicans, including Chauncy J. Filly, have been accused of being the author of the letter, and the intimate friends of the late President have assumed that it was written by Grant-Conkling Republican. The matter is cleared up to-day by the *Post* printing another letter over the name of the writer of the first article, thus revealing his identity. He proves to be William Brown, a delegate from the seventh Kentucky district to Chicago. He writes at length in justification of his former article, and says he learned from Chief Justice Chase many secrets concerning General Garfield, showing that while the latter was professing friendship for General Rosecrans, he was trying to undermine and disgrace him. In regard to his action at Chicago, Brown says:—"It is true I am a Stalwart in my devotion to the Republican party, but I was not a Grant man, and it is my duty to those who were for him at Chicago to say I was not one of them. General Grant, General Rosecrans, Mr. Conkling, Mr. Blaine, and Mr. Filley had no more to with the letter than Mahammed. In justice, too, to General Grant, I say that in the Chicago convention I cast 36 votes for Blaine."

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

A MARQUIS IN LIMBO.

LONDON, March 21.—The Marquis of Huntly, charged with obtaining a large sum of money under false pretences, has surrendered himself

AMERICAN.

DISASTROUS FIRE.

ALBION, N. Y. March 21.—The Curtis Manufacturing Company's works, were burned this morning. The loss is estimated at $100,000, insured for $47,000. This is the greatest public loss Albion has ever had. About a hundred men were thrown out of employment.

AN EASY WAY OUT.

ELIZABETH, N.J., March 21.—It is stated that the city will compromise with its creditors at the rate of 60½ cents on the dollar. Four per cent. bonds will be issued to take up the old ones. The proposed settlement reduces the city's debt to $384,000. Real estate is already advancing.

BACK TO WORK.

LAWRENCE, Mass., March 21.—Forty weavers returned to work this morning. The meeting of weavers decided to continue the strike.

CABINET CHANGES.

WASHINGTON, March 21.—Rumors of Cabinet changes fill the air. Once more it is strongly asserted that Senator Tiller will be Secretary of the Interior.

COERCION.

FROSTBURG, Md., March 21.—It is stated the Knghts of Labor Committee has taken means to induce the new-comers to leave the region where the miners are on strike, as soon as they arrive, peaceably, if possible, but by force, if necessary. The feeling throughout the entire George's Creek Valley is one of great uneasiness.

BOILER EXPLOSION.

NEWBURG, March 21.—The body of Albert Kinnion, second engineer of of the tug boat H. P. Farrington, was found on the beach near Peekskill. The boat's boiler exploded at Havertown on Jany. 23rd, killing Hennion, the fireman and the steward. The bodies of the two latter are yet missing.

TARRIFF REFORM.

WASHINGTON, March 21.—The probability is that the tariff commission bill will pass the house by a majority of 50 or 60.

MONETARY MEETING.

WASHINGTON, March 21.—The opinion expressed at the state department is that the Monetary conference meeting at Paris on April 12th will not take any important action.

THE GREEN-EYED MONSTER.

WILLMINGTON, S.C. March 21.—In the valley on Sunday night Gracie Mills called Jane Jackson, who accepted the addresses of a man whom the former had rejected out of doors yesterday. Jane's body was found in a creek with the skull smashed. Her fingers clutched a handful of hair which was recognised as that of Gracie. Tracks showed that Gracie was assisted by a man. The murderers have escaped.

THROUGH A BRIDGE.

DESMOINES, Iowa. March 21.—While the first train was crossing the new Bridge on the Desmoines and Osceola Railway at Lothrop yesterday the entire span gave away, precipitating the engine and three cars and a caboose into the river. Six persons were injured and nine killed.

OBIT.

NEW YORK, March 21.—Rev. Dr. George W. Woodruff, Methodist, died last evening, at the age of 60.

MORE WAGES WANTED.

BROOKLYN, March 21.—The Carpenters' mass meeting last evening resolved to ask for an advance from $2.50 to $3 a day after April 1st.

FINISHING UP.

ALBANY, March 21.—Some of the older members think that the Legislature will have completed its labors and adjourned before the middle of May.

IRELAND.

ON Feb. 18th, 120 men gathered on the farm of Patrick Hernon, Arran, a suspect in Galway Jail, and dug his land.

ON February 18th twenty-five tons of potatoes and over 200 loads of turf were brought into Athlone from the districts of Tuberclare, Coosan, Golden Island, and Glasson, and stored on the premises of Mr. James O'Connor, hon. secretary of the Athlone Branch of the Land League, who was recently arrested under the Coercion Act.

ON February 22nd, about two hundred ploughs were out on the land of Mr. James Lynam, Ballincloughan, Rahan, who for the past five months has been an inmate of the Naas Jail under the Coercion Act. Twenty acres of land were ploughed. Mrs. Moore was present from the Central Branch of the Ladies' Land League. After the work was over she addressed a meeting in one of the fields, speaking from a cart. No police were present.

THE body of a cattle dealer named John Dillon has been found on a mountain side near Dungiven under circumstances suggesting the gravest suspicion. He was last seen in Dungiven Fair on February 14th, and left for home in company with several other men. A search was at length instituted, and the body was found as stated, with a frightful wound on the forehead and a severe laceration of the ear. Death had evidently taken place some days previously.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

KISS ME.—"TRABBERT," the new and exquisite little gem for the teeth and breath, has a beautifully plated metal screw top. Try a 5 cent sample.

BABY CARRIAGES.

Parties who have been looking at our CARRIAGES, had better come in and secure the one they want, as the majority of those in stock last week are now sold

Our Second Large Lot

will arrive next week.

This line of Carriages is the popular line, because of their Superior Looks, together with Reasonuble Prices.

A. L. DAVIS & CO.

Daily Evening Review

TUESDAY, MARCH 21, 1882.

THE POLICY OF SLANDER.

The Lindsay *Post* invited us to point out an instance of its "sacrificing truth and reason," in its attacks upon the N. P. We accordingly showed that in the very same issue it insinuated to the farmers that the tariff made them pay more for their agricultural machinery, though it well knew that the prices had been lowered instead of being raised. The *Post* unable to answer this charge of insinuating an untruth, leaves the point untouched and takes refuge in abuse. It sinks to a lower depth than before, for now it tells a deliberate falsehood, saying:—"It is not long ago that the REVIEW was ridiculing protection." This is simply and utterly false, as the *Post* is aware. It would be a small triumph for the *Post*, and its fellow-culprit in this system of misrepresentation, the Peterborough *Examiner*, if they had succeded in showing that the REVIEW, ten years ago, under different management, and while the country was differently circumstanced, held different views in some respects from those it now supports. But even this apparent inconsistency with the past they fail to substantiate. The *Examiner* simply garbled the REVIEW editorials of long ago, and quoted just so much as, without the context, seemed inconsistent. Though we do not feel bound, in the thirtieth year of the REVIEW'S existence, to support and adhere to every thing that has appeared within its columns under the various proprietors and editors, since its establishment, still we do think, on looking back to these editorials of many years ago, that they might well at the time have been considered to favor the judicious course for the country then, when the effect of the civil war among our neighbors had rendered our then existing tariff sufficiently protective. Then, as now, the REVIEW advocated, not theoretical free trade or protection, but in practical measures to suit the varying circumstances and requirements of the country—in short, a *national* policy, and not a "fly-in-the-wheel" apathy and inaction.

As the recollection of the *Post* is so "vivid," we challenge it to produce a single instance in which the *Examiner* or any other journal proved that we "sacrificed truth" in support of the N. P. We are speaking of matters of fact, not of opinion, and we defy it to name one case.

We would have followed our usual policy of treating with silent contempt personal abuse totally unsustained by evidence, but this system of falsifying facts in relation to the National Policy and abusing and slandering its supporters, is so prevalent with the Opposition that the country should take note of it. What can be thought of a cause which requires to be defended by such methods—which compels its advocates to stoop to such ignoble trickery? Can the farmers be persuaded that the present tariff is injurious to them by telling them that they pay more for their agricultural machinery, when they know they pay less? We do not profess to be infallible in our opinions, but at all events we found our arguments upon facts, and we wish we could say the same of our opponents.

PROVINCIAL v. DOMINION JURISDICTION.

IT is so seldom that the course pursued by Mr. Mowat commends itself to our judgment that we are disposed to overlook some matters of detail in order that we may have the pleasure of endorsing his course in calling public attention to the subject of Provincial versus Dominion jurisdiction over railways incorporated under Provincial charters, as he did during the recent session of the Ontario Legislature. No doubt as soon as some of the companies referred to come to find the control of the Provincial Legislature inconvenient, they will be tempted to endeavor to escape therefrom by trying to induce the Dominion Parliament to declare their roads "to be for the general advantage of Canada, or for the advantage of two or more of the provinces," even though such an escape may be getting themselves out of the frying-pan into the fire.

While we hold that provincial rights and interests must give way, when the necessity arises, to those of the Dominion, just as municipal rights and interests must give way, when the necessity arises, to those of the Province, yet the rights and interests of either should only be interfered with when such interference is absolutely necessary to the well-being of the larger body. That such cases of necessity, and consequent interference, will occasionally occur can hardly be doubted, and hence it was well that the Act of Confederation should confer upon the Dominion Parliament the power which it does in this respect, but although the power given is as wise as it is undoubted, it is equally certain that it should not be exercised but as a last resort to accomplish some necessary end—at least without the consent of the Legislature which incorporated the company being dealt with. In exercising such a power the greatest caution should be observed by the Dominion authorities, and the wisdom or unwisdom of each particular act of this kind must be determined by the special circumstances relating to it.

During the debate which took place on the resolutions to which we are referring, it was incidentally stated in introducing them that the Ontario Government had in their mind the Toronto, Grey and Bruce Railway. While we doubt very much if there is anywhere, outside of the excited cranium of the editor of the *Globe*, any intention to take the Toronto, Grey and Bruce Railway from under the control of the Ontario Legislature by declaring it to be a road "for the general advantage" of either the Dominion or two or more of its Provinces, yet it may not be out of place for us to say that if such an intention does or did exist, we fail to think of any good and sufficient reasons for such a course.

The T. G. & B. railway is not only wholly within the Province, but it can never that we can see, form part of a through line, although it can prove a most important feeder to a through line like the Grand Trunk, and such as we hope to see the Ontario and Quebec. Moreover it has been so largely aided by the Province and by the municipalities along its route, that it may almost be said to have been built by them, and hence it would, without urgent reasons therefor, be a case of peculiar hardshp were the Dominion to take its control out of the hands of this Province as a Province.

Unfortunately, however, while the Ontario Legislature, under Mr. Mowat's guidance, is (since 1878) very watchful of Ontario's interests whenever they can be made to appear to conflict with those of the Dominion, it is to be regreted that this same Legislature has been acting both with regard to municipal and private rights, upon the reverse of the principal that one should do as one wishes to be done by. While Mr. Mowat and his followers are ready to resent, even to the spilling of blood, the slightest interference with their rights—either real or imaginary—they are not equally careful of the rights of others. Indeed it would almost appear as if they thought neither the Dominion, nor municipalities, nor individuals had any rights save those permitted them by the autocrats at Toronto. The Dominion must not exercise the power of disallowance against them; the Dominion must not question the wisdom of an award, even though they themselves declare that award does not do the Province justice. As for the municipalities, they are like ninepins on a board to be set up and knocked down at their own sweet will; while the conditions attached by municipalities to their grants to railways can be varied at will and declared to mean anything but what was intended, by this same Legislature. As for private rights, we may think we know what they are to-day, but after the next session of this same Legislature we may discover that it has been declared "always to have" been something very different from what we supposed, and what the courts led us to understand.

TRADE NOTES.

THE Great Western railway car shops in London East are unusually active at present, and the men are working overtime every night. There are now employed in the works nearly 100 men more than were engaged a year since, and the increase is gratefully ascribed to the N. P. boom.

A WELL known gentleman in Hamilton has just completed the sale of twenty-four lots in the west end to a company composed of Toronto capitalists and a practical Hamilton manufacturer, on which a large foundry and machine shop are to be erected during the coming season.

THE Cambellford *Herald* states that there are now about 70 hands employed at the Trent Valley Woollen Mills, at that place. An excellent sample of flannel manufactured at these mills was shown a few days ago. The machinery throughout the buildings is in active daily operation. The number of hands will be increased as the necessity demands.

THE Winnipeg *Sun* announces that the Oshawa Cabinet Company's agent in that city has leased the Phœnix Skating Rink, to be used as a warehouse for the sale of furniture during the coming spring and summer. This company finds the demand for their furniture in Winnipeg so great that they require very much larger space necessary to hold the immense stock they intend placing in this.

ANOTHER new manufacturing industry is projected in Montreal, the "Canada Jute Bag Manufacturing Co.," being about to apply for letters patent, authorizing their incorporation with a capital of $50,000. Messrs. John McDougall and G. A. Drummond are among the first directors. The jute will be imported uncalendered, being on the free list, the finishing of the material and the making of the bags being done here.

TORONTO is to have a valuable new industry established in her midst in the shape of a silver plate manufacturing Company. Letters patent have been issued. The company intend to go to work at once. A large brick building will be erected at the corner of King and Portland streets at a cost of $20,000, and skilled workmen will be brought from the New England States to manufacture all kinds of silver plate and other plated ware.

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

FROM ALL OVER.

THE Duke of Albany's wedding will take place at St. George's chapel, Windsor, on the 27th April.

THE Conservatives of Lennox have nominated Sir John Macdonald as their candidate for the Commons.

ANOTHER comet was discovered at Albany on Saturday morning. It is situated in the constellation of Hercules.

AT A recent ballot for the Oxford and Cambridge Club Mr. Ashmead-Bartlett-Burdett-Coutts achieved the unprecedented distinction of receiving twenty black balls.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

MR. SHEPHERD, president of the Peruvian Company, whose presence is earnestly desired by the Chilian investigating committee, is "playing sick" to escape an awkward examination.

TWO edifying pictures from "the other side": Members of Congress guzzling at the funeral of a murdered President, and a crowd of sentimentalists petitioning for the pardon of an insubordinate soldier who attempted to assassinate the dead Psesident's murderer.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

THE VITAL FORCES are speedily renewed by Mack's Magnetic Medicine, the great brain and nerve food, it is the best and cheapest medicine ever discovered. See advertisement in another column.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

THE Prince and Princess of Wales recently gave a small juvenile party at Marlborough House to celebrate the fifteenth birthday of their eldest daughter, Princess Louise. The children invited came at five o'clock in the afternoon and left at eight o'clock.

THE Hon. Wyndham Stanhope, who is at present residing at Madeira for the benefit of his health, is the discoverer of a preparation from the Eucalyptus plant which is said to be marvellously effective in consumption and in peculiar phases of lung disease.

A NEW YORK State florist will introduce next summer the "Oscar Wilde sunflower." The plant is dwarfish and pyrimidal in form; the flowers are small, with jet black centre, surrounded by an overlapping row of broad, deep, golden-yellow petals.

A TENNESSEE woman obtained a divorce from her husband, married another man, and had a daughter. The first husband, enraged, sought revenge, and married the daughter. The neighbours are now trying to figure out the various kinds of relationship that he holds towards himself and the rest of the family.

THE Maryland negro who almost killed his little girl said he only tried to do his duty towards his children by correcting them when he thought it necessary. That is always the trouble with brutes, white or black. They say they "thought," when they probably have very little of anything to think with.

MR. WILLIAM W. GOODWIN, Ph. D., L. L. D., Eliot Professor of Greek Literature in Harvard University and author of the well-known "Greek Grammar" and "Greek Moods and Tenses," has accepted the invitation of the committee on the school at Athens of the Archæological Institute of America to assume the directorship of the school for the first year.

The Best Field

FOR

EMIGRANTS.

An IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, I now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R. R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

THE CITIZENS' MEETING

TO DISCUSS THE LOAN TO THE PROPOSED CARWORKS COMPANY.

Our Leading Men Express Their Views in Favor of, or Against it—A Thoroughly Representative Gathering—All the Speeches Temperate and Fair—A Synopsis of What Was Said and Done.

The meeting on Monday night to discuss the much vexed question of granting aid to or taking stock in the proposed carworks' company, was one of best ever held in the town of Peterborough. The speeches on both sides were patiently heard and it would be a difficult task indeed, to attempt to tell how a majority of those present regarded the project. Those present were thoroughly representative men, men who have the welfare of the town at heart, and men who have considerable at stake in the community, and we would go as far as to say that fully three quarters of the assessed value of the town was represented. From beginning to end the most perfect order was maintained, and although one or two of the speeches were interrupted slightly, still it was only in a good natured manner. The arguments on both sides were fairly put, and the various clauses of the by-law were fully discussed and explained, so that its provisions are now well known to the enlightened mass of the community. The manly straightforward utterences of Mr. Cox met with much favor, and evidently carried considerable weight with them, as did those of Messrs. Poussette, Hatton, Hilliard and others.

Among those present were the following persons: Messrs. G Hilliard, M.P., Geo. A. Cox, D. G. Hatton P. M., J. Stevenson, G. Edmison, W. Cummings, Councillor Poussette, G. M. Roger, T. G. Hazlitt, Councillor Douglas, J. Howden, Jos. Ford, E. Phelan, W. Lech, Jas. Kendry, Councillor Denne, I. Robinson, W. McBain, W. Cluxton, R. Kingan, Councillor Wilson, T. Beavis, E. Burnham, J. Garvey, Jos. Walton, Jas. Whyte, Wm. Hamilton, P. Hamilton, J. Bird, Councillor Rutherford, C. Cameron, E. B. Edwards, R. S. Davidson, R. B. McKee, Councillor Kelly, R. Innes, J. Kelly, R. Weir, F. J. Lewis, Councillor McNaughton, J. Sawers, Geo. Schneider, E. Green, T. Leonard, Councillor Cahill, E. C. Hill, Jas. T. Stenson, Councillor Richardson, E. Pearce and many others.

The MAYOR stated that the meeting was called for the purpose of considering the matter of aiding the proposed carworks company. He explained the steps that had already been taken regarding legislation to enable the town to take stock. The matter was an important one, and should be fully discussed. All had a common interest in promoting the welfare and prosperity of the town, and he hoped the matter would be discussed fairly and fully.

As the Council Chamber was filled, those present then adjourned to the Opera House.

OPENING THE BALL.

The MAYOR first called upon Mr. A. P. Poussette.

Mr. POUSSETTE said as one who had helped to draw up the by-law, he would give some explanations, reserving the right to reply at the end of the meeting to any objections that may be made against the proposed by-law. He then referred to the efforts that had been made to secure legislation, and gave explanations regarding the various clauses. In the first place, the town proposed to vote $20,000 to the Company upon condition that no portion of the sum was payable until $50,000 stock had been subscribed, and fifty per cent. of that amount paid up, and not less than $20,000 shall have been expended in acquiring within the Corporation of the town of Peterborough sufficient lands for the purposes of the Company, and the erection thereon of buildings, and the placing therein of machinery, and thereupon the said Company, upon producing sufficient evidence to the satisfaction of the Council of such Corporation that the said several matters have been accomplished, and upon the delivery of the mortgage thereinafter mentioned, shall be entitled to receive from the said Municipal Corporation the sum of ten thousand dollars. And when fifty per cent further of the subscribed capital stock of the said company shall have been paid in, and the further sum of twenty thousand dollars expended upon the equipment of the said works, and sufficient evidence thereof has been produced to the satisfaction of the Council of the said Corporation, the said Company shall be entitled to receive from the said municipal corporation the remaining sum of ten thousand dollars. He was opposed to bonuses, but as long as the present law remained in force, every small municipality would grant a bonus.

YOUNG, BUT IN EARNEST.

Mr. C. W. SAWERS said he had read and carefully considered the by-law, and thought it was framed in the interests of the town, and he could not find a single loop hole through which the promoters of the company could crawl. If at the end of two years the necessary legislation is procured the town will take $20,000 stock, and until then the town has a good and sufficient mortgage, and if stock could not be taken, the money would be repaid. He complimented the Council on the by-law. He said that Mr. Geo. A. Cox was taking $20,000 stock, and surely the town could better afford to take that amount than Mr. Cox. There were now many vacant acres, which would be built on by the workmen who would be brought here by manufactories. He thought Peterborough was not enterprizing, but if the monied men would only come to the front, we would soon rank among the largest cities of the Dominion. He advocated keeping our young men at home, and hoped that on the day the vote was taken such a handsome majority would be rolled up as would induce other manufacturers to locate here.

A FREE SITE AND NO TAXES.

Mr. W. LECH was in favour of establishing factories, but was apposed to bonuses. There were different ways proposed to build the carworks. One was by taking stock. With regard to that, he did not think that any Government would ever grant any municipality such legislation as had been asked for. He proposed to give the company a free site and to exempt the works from taxation for ten years, and if that did not keep the company up, he would take $5,000 stock himself.

SENSIBLE AND TO THE POINT.

Mr. GEO. A. COX wished to fully explain his position as his name had been brought rather prominently forward in connection with the proposed carworks. He believed that the present was a good time to commence the manufacture of cars to supply not only our own roads but those now building in the North-West. When the Company was first spoken of he offered to take one-tenth stock if the capital was $100,000 or $200,000, but not less than the first named amount, as he knew that a large capital was required. He had not been at any previous meeting, nor had he read the by-law. He was still willing to stick to his offer of taking 1-10 stock, but he understood that the town had been fully canvassed and only $60,000 stock had been subscribed, and if such was the case he would not like to risk his money, especially if the town had $20,000 of the stock. There was sufficient capital in town to take $100,000 stock easily, but there did not appear to be the necessary pluck and enterprise. He was glad to hear Mr. Lech make the offer to take $5,000 stock and thought that Messrs. Hazlitt, Cluxton, Hilliard and others should each take the same amount, and he would willingly join them. He wanted to see industries established here, and even if they did not prove remunerative for the first year or two, like the Auburn factory, they would after a time. It had been mooted that the Midland Railway wanted the works but such was not the case. If the works were established, he would like to see all the Midland cars built here, but they all must understand that the Railway Company would buy in the cheapest market, and if they could get cars $5 cheaper, at Cobourg or any other place, that's where they would purchase. At present his Company had over $300,000 worth of cars under contract. The present is the time and this a good place for such works, and as he said before he would take 1-10 of the stock on the conditions he had already named. If any ratepayer asked him as to how he should vote, he would give no advice. He was willing to risk his own money, and others could do the same or not, just as they saw fit. (Loud Applause.)

"X" SPEAKS.

Mr. W. CLUXTON had always taken an interest in the town and would continue to do so as long as he resided here. All wished to see factories established here but, differed as the manner of aiding them. He had written to the REVIEW a letter under the *nom de plume* of "X" in which he stated his grounds for opposing the by-law. The Editor of the paper had replied, and among other things said that "X" had not read the by-law. He now acknowledged that such was the case, and said that he had heard it read in the Council, but no person could see the true inwardness of a by-law until it got into a court of law. Our leading manufacturers had built up their business without bonuses, and others should do the same. He had been told by a gentleman who knew whereof he spoke that if Mr. W. Hamilton's foundry was three times its present size, and employed three times the number of hands, Mr. Hamilton could not keep up with his orders. (Cheers and cries of N.P.) He was opposed to taking stock and did not think the Government would give a municipality such a dangerous power. He favored a free site and exemption from taxes. He had favored bonuses years ago but now saw things in a totally different light. He wanted to see the works go ahead and thought a free site, etc., would accomplish such a thing.

ASHBURNHAM'S SAGE.

Mr. W. MILLS, J. P., spoke against bonuses, and by-laws of all kinds. He referred to the Toronto and Ottawa railway, and said that all he had foreshadowed in connection with that enterprise had been fully borne out. He said that the T. and O. charter had been sold and we did not know what the present Company might do. He claimed that the present Company was not yet incorporated as they had not complied with the provisions of the statute. He thought a good plan to pursue would be to purchase land and erect buildings to the value of $20,000 and give them to the Company. There were some dangerous clauses in the by-law and he advised the town not to have anything to do with the bonus.

"NOW'S THE TIME AND NOW'S THE HOUR."

Mr. COX was glad to see such a large representation of ratepayers, and there never was a better time to ascertain whether they could not raise $100,000 or not. If that amount was raised he would advocate that the town purchase the land and rent it at a nominal rent, and make the Company put up the buildings. Mr. Cluxton had said he would invest if he had the money to spare; as all knew Mr. Cluxton was enterprising and wealthy. If some of the largest property holders risked a few thousand dollars, even if they did not reap a benefit at once, they would afterwards. He wanted to see the stock subscribed to-night and have the by-law withdrawn. He was willing to go $5,000 more to carry the matter through. (Loud applause.)

A STRONG OPPONENT.

Mr. T. G. HAZLITT said he had always opposed bonuses of all kinds from principle. These joint stock carworks company were generally a failure, at least they had proved such in Toronto, Hamilton and Port Hope. The only place that it had succeeded was in Cobourg, but that was an exceptional case, as Mr. Crossen commenced with a wheelbarrow and ended with a palace car, pluck and enterprise and handling his own capital did it there. He would not oppose a free sete and exemption from taxes. He was afraid that the town would come out at the small end of the horn if they took a mortgage on the property as was proposed by the by-law, as the property would be out of the town, and the building, and machinery were fit for nothing but the manufacture of cars. The machinery of the Port Hope works sold for a small sum.

Mr. Cox, if the buildings were standing now they would soon be occupied, (hear, hear.)

Mr. HAZLITT that may be, but the machinery sold very cheap. He had read the by-law but could not fully understand it. He objected to several clauses, one of which was loaning $20,000 to the company for three years without interest. He had now requisitions for three large factories on his race, which would cost $15,000. If the town lent him $20,000 without intrest he would spend $25,000, but he did not want the money and did not ask for it. His factories would employ just as many hands as the carworks and be of just as much benefit to the town. He was going ahead with the work and the money had to come from somewhere, but he did not ask the town for it. The by-law provides that eight years may elapse from the time the first instalment is paid, before the money need be returned. If the company is a success they can keep our money and if it is not they can give us stock and we cannot help ourselves. He was glad to see the position that Mr. Cox took and if his money was not now invested he would willingly take stock. He did not think it equitable or just, that wealthy, men as those, composing the company, any one of whom could draw a cheque for the amount asked for. Such men should come down like Mr. Cox and put their own money into the enterprise.—(Applause.)

FROM OUR M. P.

GEO. HILLIARD, M.P. said he favoured bonuses and had always done so. He instanced the Auburn bonus and said that the additional taxes on his own property had more than re-paid the bonus granted. Campbellford had been built up by bonuses and would probably get a large cotton factory by giving a bonus. Mr. Hazlitt opposed bonuses, but the other day he did not oppose exempting certain property from taxation. He asked, was that a bonus or not? He had said a year ago that Peterborough had to start manufacturing or go down. The opening of the great North-west was going to make Ontario the richest Province or State on the continent and if factories were established here, we could do an enormous trade. He instanced Almonte as a town that factories had established as a place of considerable importance. He had water power to rent and if any person said he charged too much rent, he would let the town fix the rate (cheers), Peterborough has been very foolish regarding railways and if we had only acted in a fair manner we might have here the great timber interests centered in Lindsay and Fenelon Falls. He favoured bonuses and would continue to do so until Peterborough was a large city. Peterborough has the best water power on the continent, far ahead of Ottawa, and we have nine miles of land, every inch of which can be utilized for building factories on. He had read the by-law and thought its provisions were fair. He had taken stock and hoped the by-law would pass, as he felt that it would be an advantage to have factories here.—(Applause.)

PROMPTLY CHECKED.

Mr. A. RUTHERFORD said he had always opposed the by-law and still did so, as he did not consider it worthy of acceptance. He favored permanent factories, but not this one. He favored erecting buildings, a free site, or nominal rent. The Cobourg works had been spoken of as having being in a flourishing condition, while the fact was that on Saturday the men were paid off and the works closed. (Sensation and incredulous laughter.)

Mr. COX said that the Cobourg works were so busy that they could not do the work required. (Cheers.)

Mr. RUTHERFORD said that he had read the statement in the paper.

A voice—What paper? The *Times*? (Loud laugter.)

NOT MILLIONS IN IT.

Mr. J. STEVENSON defied any person to say that he had ever asked for, or received a bonus. He had only taken stock to help the enterprise along, and would pay $1,000 on his $5,000 and give the stock to any person. He favored bonuses, and did not know of any place in Canada except Toronto that was going ahead except where factories were located. He saw lots of gentlemen present who could and should take stock. The by-law gave many advantages to the town, and he would give up his stock at once. Mr. Hazlitt had read the by-law in a curious manner, but he could also read it in an entirely different manner if he saw fit. He wanted those present to come forward and subscribe at once. (Applause.)

THE J. P. SHOWN UP.

Mr. D. G. HATTON was glad that the matter had been so fully discussed from all the different standpoints. He was sorry to hear Mr. Mills throw so much obstruction in the way of the by-law, by stating that the company was not incorporated and could not be until February next. As all knew, that was absurd, and when Mr. Mills made such statements either he did it with the intention to mislead, or did not know what he was talking about. (Hear, hear.) The Toronto and Ottawa Railway $2,000 grant had been brought up, but he honestly believed that that money was well spent, as to-day we had the road at such a slight cost. The late lamented W. H. Scott had lost his life, indirectly, while trying to secure for us a through line. (Hear, hear.) He thought the carworks would benefit the town greatly. Mr. Rutherford said that the taxes would be increased by one mill, but he had made a calculation, and found that one half a mill would furnish an amount sufficient for both sinking fund and interest. The ordinary ratepayer who could vote on this question would have to pay 80 or 90 cents a year more. He was proud of the position taken by Mr. Cox, and said that any man in Mr. Cox's place would do the same as he did. The Port Hope works were a failure because the promoters had no capital, and Mr. Cox was trying to avoid such a thing here. He knew three or four gentlemen who were prepared to take stock as soon as they saw that the works would go ahead. He thought it would be a sad blow if manufacturers were driven away. He had seen the plans of the buildings, and said they would be an ornament to the town. The company desire to become general manufacturers, and if there was no demand for cars, other things could be made. (Cheers.)

THE CHIEF PROMOTER.

Mr. LAW said that many thought that the supply of cars would exceed the demand, but in his experience of 17 years, he had found the contrary to be the case. At present the factories could not supply the demand. There are 22 carworks in Pennsylvania, 18 in Ohio, 5 in Deleware, 4 in Maryland, 8 in Massachusetts, and in the United States about 100 altogether. The reason that carworks did not succeed here was because the Americans supplied cars to Canadian roads at cost price to shut up the Canadian factories. He knew that to be a fact, as he had been sent here for that purpose on three different occasions. There are now in Canada only three carworks, and their combined capacity was not sufficient to supply one line. The traffic and rolling stock are doubling. The life time of a car at present is not over five years. Wherever there are railways, cars are wanted. In Canada the competition is not as great as in the United States, and he felt that there was no better opening in America than in Canada. As some doubts had been expressed regarding the cost of the buildings, he gave some figures:—

The framing and erecting shop, a frame building, slate roof, 268 by 82 feet	$ 5,062
Machine shop, brick, slate roof, 100 by 53 feet	1,976
Foundry, casting room, and blacksmith's shop, brick, slate roof, 230 by 53 feet	4,990
Painting shop, frame, slate roof, 170 by 46	2,100
Offices and store-room, two storey, brick, slate roof, fire proof vaults, etc., 49 by 36 feet	1,200
Boiler house, 40 by 20, (without boiler, engines, etc)	600
Tracks in yard, switches, frogs, etc	2,000
	$18,822

Besides the cost given, they would have to have from eight to ten acres of land, costing from $3,000 to $5,000. Then the machinery would cost fully $30,000 delivered here, so that all could see the town would have ample security for the money advanced. Again, any of the buildings can be used for any other purpose. (Applause.)

CLOSING REMARKS.

Mr. POUSSETTE said the ground had been well gone over by both sides. It had been said that the necessary legislation could not be obtained. If such was the case, the town could lose nothing, as the money could be repaid within six years. As security, we had a mortgage on $50,000 worth of property. As to the questions of law, there was no use of going into them, as any right-minded man could see that the by-law afforded ample security. The by-law looks unfair, as the town will get back its $20,000 before the shareholders.

The MAYOR then announced that under the law recently passed, only two-fifths of the electors were required to vote for a by-law in order to carry it, instead of one-half as formerly.

The meeting then broke up, nothing having occurred during the evening to stop discussion in the least.

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

CONSUMPTION CURED.—From Andrew Archer, of Fairfield, Me.—"Seeing numerous certificates in the *Maine Farmer*, endorsing the Great Lung Remedy, Wistar's Balsam of Wild Cherry, I take great pleasure in giving publicity to the great cure it accomplished in my family in the year 1850. During the summer of that year my son, Henry A. Archer, now postmaster of this place, was attacked with spitting of blood, cough, weakness of lungs, and general debility, so much so that our family physician declared him to have a 'seated consumption.' He was under medical treatment for a number of months, but received no benefit. At length, from the solicitation of himself and others, I was induced to purchase one bottle of Wistar's Balsam of Wild Cherry, which benefitted him so much I obtained another, which in a short time restored him to his usual state of health. I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—The great lung remedy for the times! The above statement, gentleman, is my voluntary offering to you in favor of your Balsam, and it is at your disposal." 50 cents and $1 a bottle. Sold by dealers generally.

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

For all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample or a large bottle for 75 cents, and tell your neighbor about it.

Bear in Mind

THERE IS NO LONGER ANY SUCH FIRM AS MUNCASTER & SANDERSON DOING BUSINESS IN PETERBORO', THE PARTNERSHIP HAVING BEEN DISSOLVED IN AUGUST LAST.

MUNCASTER'S

JEWELLERY STORE

Is Removed from the old Stand

AND IS NOW IN **CLUXTON'S NEW BLOCK,** WHERE HE HAS A FULL AND COMPLETE NEW STOCK OF WATCHES, CLOCKS, SILVER-PLATED WARE, JEWELRY, VIOLINS, &c.

WATCH REPAIRING

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.

Don't Forget the Place.—Cluxton's New Block, opposite McKee & Davidson's, George Street.

R. W. MUNCASTER.

THOMAS B. McGRATH

Is prepared to attend to orders for all kinds of

Painting, Graining, Paper Hanging, Kalsomining, Glazing, etc.

With Punctuality and Carefulness. All work done under my own personal supervision, and guaranteed to be executed in an HONEST and satisfactory manner. No poor material used, and no disappointments. Customers furnishing their own material, can rely upon it being used and not exchanged for worthless stuff.

Competition defied both in workmanship and in prices. Estimates given for contracts. Orders left at Laplant's Carriage Shop, the Hardware Stores, or at the Shop on Alymer Street, will receive prompt attention. d63-w16

Kendall's Spavin Cure

For Horses and other Animals—It has no equal.—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN

Kendall's Spavin Cure

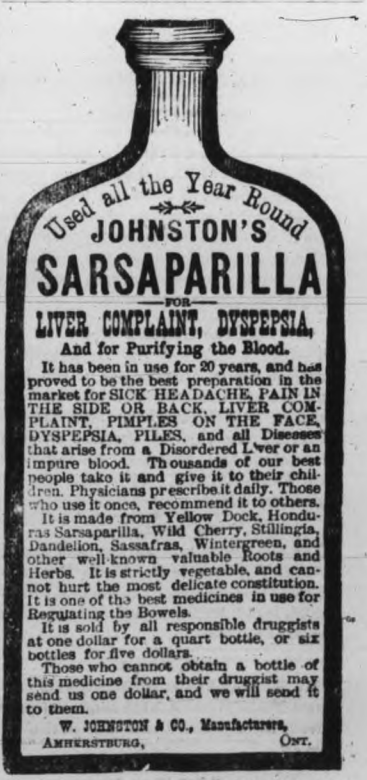
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved vond a doubt that **"Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frost-bites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure. I have since then been well and free from lameness. It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.



Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1d 1wly

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

W. JOHNSTON & CO., Manufacturers,
AMHERSTBURG, ONT.

For Sale by Ormond & Walsh, Peterboro

PUZZLED PEOPLE

Who want to buy Best, should

READ!

NOT mere handful of Goods, but a Store 80 feet in length, packed from one end to the other.

CHOSEN with a special eye to the wants of our growing trade.

PURCHASED at the closest of prices, it abounds throughout with the freshest and most desirable the market affords.

CONTAINS in many cases special lines of Goods at prices quoted only by ourselves.

NONE of our departments more attractive than our DRESS GOODS. Look at the same.

PARTICULARLY we mention our MILLINERY and MANTLE showrooms, which are neatly and conveniently arranged, and stocked with full lines of Spring Goods entirely new.

A CHANGE.

On and after to-night, in conjunction with the leading merchants of the town, we will keep our place of business open until 8 p. m.

MUNRO & ALEXANDER.

Daily Evening Review

TUESDAY, MARCH 21, 1882.

LOCAL AND MUNICIPAL.

POLICE COURT.

HE DID NOT APPEAR.

TUESDAY, March 21.—The court room was crowded this morning by persons representing all classes of the community, assembled to hear the trial of "Jim" Murphy, but notwithstanding the fact that they sat it out for fully an hour the redoubtable James did not appear, nor did the two men who went bail for him.

A Rare Treat.

Now is the chance for our town, if they wish the finest entertainment that ever visited Peterborough. Mr. Singleton, of Port Hope, organist of the Methodist Church, has succeeded after a great deal of trouble and expense in securing the Royal Hand Bell Ringers and Gleemen from London England, for two entertainments, and will give one night here if we guarantee a full house. Mr. S. has a guarantee list open at Davidson's book store for signature. Call and see it. All names on this list will have first choice of seats. Date, April 19th.

Personal.

The Rolla, Missouri, *Herald* of Thursday say that Mr. D. Carlisle, a prominent contractors of Peterboro', Ont., is in our city on a visit to his old friend B. K. Burke. He is delighted with our city and climate.

Mr. Allan Jones, the assistant Post Office Inspector, of the Kingston Division, in which the Grand Junction is included, in is town today on an official tour, and expressed himself well satisfied with the working of the new arrangement.

The Weather.

The weather probabilities for this district for the following twenty-four hours, as reported from Toronto at ten o'clock a.m. to-day, by the Great North-Western Telegraph Company, are as follows:—Lakes,—High winds and gradually shifting towards the west, cloudy to snowy weather in the northern and north-eastern portions. Snow and rain. Possibly partially clearing weather in the south and south-western portion.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

Another Presentation.

Last night a number of the members of Peterborough Lodge, I.O.O.F., proceeded to the residence of Mr. G. H. Johnston, who has been an active member of the lodge for years, and has ably ably filled all the offices, and also a place in the Grand Lodge, and presented him with an address and a handsome writing desk. Mr. Johnston duly acknowledged the gift. We will give the address to-morrow.

At The Huffman House.

To-day the parlors of Dr. M. Souvielle, of Montreal, and ex-Aide Surgeon of the French army, were crowded with physicians and sufferers, using his wonderful instrument, the Spirameter, for the cure of Catarrh, Bronchitis, Asthma and Lung Diseases. He will be here until Wednesday next. Physicians and sufferers can try it free.

The Presbytery.

The Peterborough Presbytery met this afternoon at 2 o'clock in St. Paul's Presbyterian Church, Water street. The business to be transacted, is not, we understand, of importance to the general public.

Departed.

Mr. G. H. Johnston left this morning for the Great North-West. A large number of personal friends accompanied him to the station to see him off.

"Nor-West Ale."

Just received, two brewings of the above celebrated ale at Davy Wheeler's.

WITH PARIS GREEN.

An Aged Farmer Ends His Career on This Mundane Sphere.

On Sunday last a farmer named Alexander Easson, aged about eighty years, who has resided for a long time in the township of Otonabee, near Westwood, on Sunday took a heavy dose of Paris Green. He lingered until Monday, when he died after considerable suffering. He was wealthy, and was highly respected. We have heard no cause assigned for the rash act. Deceased has quite a number of relatives in Peterborough.

A COWARDLY MURDER.

A Man Beaten to Death Almost at His Own Door—A St. Sauveur Outrage.

QUEBEC, March 19.—On of the most barbarous murders ever committed in Canada occurred in St. Sauveur, a suburb of Quebec, last midnight. A shoemaker named Etienne Genest, employed in Botterell's shoe factory, went out about eight o'clock last night in company with Jos. Laflamme, a neighbour, to be shaved. They walked into town and had a light drink at Brodrique's tavern, George-St. Thence they visited a barber's shop on St. Valier-St., where they spent some time and got shaved, subsequently starting for home. When at the corner of Ste. Colombe and St. Felix streets, St. Sauveur, about fifty paces from the residence of Gonest, on the latter street, five men standing at the street corner approached them, knocking them to the ground. Laflamme lay still, pretending to be dead, and thus escaped further injury. Genest got up again, but was immediately knocked down and beaten to to death. Genest was a foreman of the factory in which the others worked, and the murder is supposed to have been the outcome of a quarrel. For months past people have only passed this corner at night at the risk of their lives. The detectives have arrested four parties on suspicion of being the murderers, and great excitement prevails in consequence. They are all French Canadians. Their names are J. B. Laprise, Pierre Robert, Jos. Robert, and Jos. Bezeau. The inquest opens to-morrow, when a verdict of wilful murder will probably be returned against the murderers.

ANOTHER REPORT.

QUEBEC, March 19.—The whole city was started to-day by a report of a terrible murder committed about 11 o'clock last night in St. Sauveur, on the confines of the city. The murdered man is a shoemaker named Etienne, a married man, but without family. He had been into the city with a companion named Joseph Laflamme to be shaved, and as they were returning home and when on the corner of St. Colombe and St. Felix streets, the latter was struck down to the ground by a gang of street-corner ruffians, although no provocation of any kind was given, nor it is supposed that any of the parties were the worse of liquor. Laflamme was knocked senseless and left there. His companion was getting up again when he was once more struck down, apparently with the aid of some sharp instrument, as marks or achymoses are visible on the face and side of the head. He never arose again, but was picked up by neighbors attracted by the noise and by Laflamme, who had recovered consciousness, and carried into his house. He died on the threshold, before a priest or doctor could be called. The inquest will b held to-morrow, and a *post mortem* will be held. The authorities got to work on hearing of the murder and arrested four men on suspicion of being a portion of the gang who committed the deed. Their names are J. B. Laprise, Pierre Robert, Joseph Robert, and Joseph Bezeau, all young men between the ages of twenty-one and twenty-five, only Joseph Robert being married. The two first mentioned are shoemakers, and the two latter labourers. No apparent reason is given for the murder, which seems to be the outcome of sheer rowdyism. It is said that Laflamme can identify some of the prisoners. The latter are confined in two cells in the Central Police Station, and appear much agitated. The corner where the murder was committed is noted for rowdy loafers, &c. About the time of the murder a young man named Pleau, was badly assaulted, probably by the same crowd. The police hove secured four or five witnesses. They arrested the prisoners between three and six o'clock this morning at their homes in St. Sauveur, in one instance slight resistance being offered.

The Attack on the Queen.

The following from the Detroit *Free Press* is a fair sample of the general tenor of American newspaper thought on the subject of the recent attempt upon her Majesty's life: "There will be rejoicing throughout the civilized world that the Queen escaped unharmed. Her purity of life and her nobility of character, and her long reign, marked by much wise and progressive legislation, assent to which was not wrung from an unwilling monarch, jealous of her prerogative and blind to popular rights, but was cordially and cheerfully given as of course have won a warm place in the affections of the American people, and, however much they, as good republicans, are opposed to the monarchical institution, they have none but kindly feelings for the royal personage who figuratively represents the power and majesty of the United Kingdom. None more heartily than Americans will unite to-day with the people of England in lifting up their voices to the refrain of God Save the Queen."

Mr. P. D. Etue, Kansas City, Mo., one of the propritors of the *Commercal Indicator*, says he knows the St. Jacobs Oil to be a most valuable remedy for rheumatism. Last winter, Mr. Etue says he had this disease in his left shoulder. The pain was excessive at times, and so severe while attacks lasted as to cause a strong desire to have it speedily eradicated. After vainly resorting to several remedies for relief, without success, he at last hit upon the Great German Remedy. He experienced decided and immediate relief from its use, and was entirely cured with the fourth application. Since then he has entertained a very high respect for the curative powers of the Oil. This respect is not at all lessened by its happy action in the case of his wife, who subsequently suffered with inflammatory rheumatism. She contracted the disease while visiting in Colorado. Upon arriving home the St. Jacobs Oil was used in conjunction with prescriptions for internal administration, and materially aided in her restoration to health.

THE only person who has practically and profitably utilized the phonograph is a South Carolina negro. He has put one of these instruments into a rude figure of a devil, contrived to have it revolved by a spring, and started out as a fortune-teller among the up-country negros. Its tones fulfil their expectations as to those of an oracular voice, and they part with their money readily.

SAYS the London *Truth*:—The *finances* of Prince Leopold has made a very favourable impression on those who have seen her. I am told that "she is a fair height, with a beautiful figure, dark hair, fine forehead, good eyes and mouth, and a charming manner—simple and pretty;" indeed, my correspondent says that he is already in love with her himself.

LINES TO A FOSSIL

DISCOVERED IN THE GUELPH FORMATION AT DURHAM, ONT.

Behold this stone! Mysterious thing!
What thoughts to my creative fancy spring!
A shell—a very shell, of solid stone,
Formed in the dark days long agone,
While earth was in its yet chaotic state,
Long ere chronology itself had date;
Before old Father Noah his floating castle built,
(When earth was deluged by the flood, for guilt);
Ere Rome's proud empire had begun to hold the world in sway,
Or Goths and Vandals entered on Rome's retribution day;
Ere Charlemagne had donned his crown, or Hannibal began—
But these are modern things, aye, new-born things, compared with thy span;
Long ere old Adam delved with his proverbial spade,
Or our good mother, Eve, assumed the spinning trade:
Long ere creation, as we call it, had begun,
When all was darkness, and the day and night was one;
Thou mayst have been a breathing piscatora then—
I know not now the age, the whither or the when;
Nor what thy class of life, in its ever-varying stage—
Whether Ezoic, Cambrian, or Silurian age;
Whether Devonian, Carboniferous, or Permian,
Palæozoic, Mesozoic, or Post-Pliocenian;
Or contemporaneous with the giant Plesiosaurs,
Who moved his body by enormous paddle oars,
Some call you a Pentamerus, and others say you're not
But stick to it, and always will, a longer name you've got.
They tell me thou'rt an ancient thing, an antiquated shell;
How ancient? Ah! I asked them this; but this they cannot tell;
To what formation thou belongst, or what may be thy class,
Are quesions which I have not solved—may never solve, alas!
The history of the tailed ape, with the ugliest of noses,
Who nightly climbs his family tree, and on its top reposes;
Who scorns his human progeny, while gazing from its summit,
May suit men of the Darwin class, who trace their descent from it;
But thou, oh, fish of solid stone, with all thy mystery fraught,
Hast opened up, indeed, to me, a wider realm of thought!
And if it be, as well it may, I never learn thy story,
I'll keep thee still, old fossil rare, as a *momento mori*!

F. WELLESLEY PORTER.

Peterborough, March 18, 1882.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

N. H. DOWNS' ELIXIR

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props.

English Advertisements.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

WEDNESDAY, MARCH 22, 1882.

CANADIAN TELEGRAMS.

MONTREAL

Special to the Review, March 22.

THE PREMISES of Glover and Braiser, wholesale haberdashers on St. Paul street, were broken into yesterday morning, and about $2,000 worth of goods stolen.

THOMAS PAYNE, an Englishman who lived on an income derived from his family in the old country, died suddenly here from excess in drink.

PETITIONS HAVE been signed by the share holders, holding 35,000 shares in the Montreal Telegraph Company out of the total fifty thousand, in favor of the bill now before Parliament to ratify the agreement with the Great North Western Company.

OTTAWA.

Special to the Review, March 22.

WE ARE NOT in a position as yet to furnish the names of all who will compose the syndicate, but the following are certainly amongst the number:—Messrs. Jas. G. Ross, W. Whithall, Hon. Thos. McGreevy, P. Valin, G. Bresse, N. Turcotte, C. Samson and W. Carrier. Quebec will see that her interests have not been ignored when such of its citizens have been taken into the scheme, and the gentlemen of the Board of Trade will doubtless be ready to acknowledge that their action of yesterday which was thought to be well intended, was somewhat premature, if not altogether uncalled for.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

MIDNIGHT TELEGRAMS

CABLE.

FENIAN OUTRAGE.

DUBLIN, March 21.—Last evening a cannister of powder was dropped into a house on Nelson street, where several detectives live. Much damage was done by the explosion, but nobody was injured.

EARTHQUAKES AT CHIOS.

LONDON, March 21.—There have been renewed shocks of earthquake at Chios, and the pepole have taken refuge in tents.

RUSSIA'S "CASUS BELLI."

PARIS, March 21.—The *Intransigeant* professes to have received a telegram from St. Petersburg announcing that at a meeting of Russian generals, held under the presidency of the Minister of War, it was decided that Russia would regard any encroachment on the Montenegrin territory by Austria as *casus belli*. There is no confirmation of this from St. Petersburg.

LEOPOLD'S GRANT.

LONDON, March 21.—A message from the Queen regarding the nuptial grant from Parliament to Prince Loeopold in view of his approaching marriage with Princess Helena of Waldeck was read in both Houses this afternoon, and will be called up for consideration on Thursday next.

SULTAN AND CZAR.

ST. PETERSBURG, March 21.—The *Novoe Vremya*, which has excellent sources of intelligence, says that the Sultan will visit the Czar at St. Petersburg this spring. The political significance of this statement is great in view of the present condition of affairs between Russia and Austria.

THE ANTONELLI WILL CASE.

ROME, March 21.—There is a prospect of reopening the Antonelli will case. The Court of Cassation has decided that the Countess Lambertini, who alleges that Cardinal Antonelli was her father, has a right call evidence in regard to paternity and the fraud which she asserts exists in the register of her baptism.

A REBUFF.

BERLIN, March 21.—The Economical Council, which was formed specially by Prince Bismarck to carry the tobacco monopoly bill, this afternoon rejected it by a vote of 33 to 3. Prince Bismarck, who was expecting a unanimous decision in favor of the bill, feels his defeat keenly.

AMERICAN.

THE MASON CASE.

WASHINGTON, March 21.—The Judge Advocate General has made a report to the Secretary of War in the case of Mason, holding that the charge of assault with intent to kill cannot be sustained. A long line of precedents are cited. He recommends a modification of the sentence. Sergeant Mason's wife writes to a friend, appealing for aid for herself and family and for intervention with the President in her husband's behalf.

TERRIBLE RAILROAD DISASTER.

BISMARCK, D. T. March 21.—News reached here to-night of a terrible wreck at Sweet Briar, 40 miles west on the Northern Pacific. An engine came over from Mandon for physicians and assistance to attend the sufferers at the wreck. The wires are down between Bismarck and Mandon; but it is stated by the engineer Mandon that Black Jack's work-train, bound west, went through the bridge, and that a passenger train, but little behind, followed. Thirty persons are reported killed and many injured. All the physicians to be found in this city have started on a special engine for the wreck.

DROWNING ACCIDENT.

DETRIOT, March 21.—A sad drowning accident occurred on Sunday afternoon on the river near the American shore. A party of young men started for Sandwich on a pleasure trip. Ternes and Vogel owned one of the boats, the Dramatic, in which the party went; the second boat was a hired one. The river was crossed without anything happening, and some time was spent in Sandwich. Lingemann, Debold, and Weitzel left about an hour before the others, reaching this side about five o'clock. Vogel, Ternes, Stemmetz, and Diederich started from Sandwich about six o'clock. Ternes and Vogel had charge of the oars, which were uneven. When about two-thirds across the river Ternes caught a crab. He had the longer oar, and while pulling remarked to Vogel, "Let us spurt up." Vogel did as he was asked, and Ternes oar got canght, striking him in the breast, and the handle fastening itself in his pocket, he was knocked over in his seat, and simultaneously the boat capsized, throwing the occupants into the water. Ternes and Diederich were drowned. The former's body has not been recovered

IRISH AMERICAN SUSPECTS.

WASHINGTON, March 21.—The House Foreign Affairs Committee has received advices from the State Department, in response to the House resolutions calling for correspondence relating to the imprisonment in England of Irish American citizens, that by direction of the department Minister Lowell has transmitted everything in his possession bearing upon the subject and that it is now on the way here from England. The department promise to send it to the committee without delay upon its arrival. Mr. Cox, Mr. Belmont, Mr. Hewitt, Mr. Robinson, and the other members most active in the matter, have been privately informed of the nature of the message from the department, and have agreed to spare the committee annoyance in this connection until sufficient time shall have elapsed for the receipt and delivery of the correspondence by the department. The President to-day sent to the Senate the report of the Secretary of State regarding the case of David McSweeney, of California, who was imprisoned in Ireland. The report embraces a telegram from Minister Lowell, stating that the British authorities informed him that McSweeney was arrested in Ireland on June 2nd, 1881, on suspicion of "inciting persons to assemble unlawfully, and commit riot and assault," also, that "in no case could information be given beyond the statement of the warrant of arrest." Mr. Lowell was further informed that McSweeney could not be discharged from custody, his conduct having brought him under the British coercion statutes. Secretary Freylinghuysen upon receipt of this information directed Mr. Lowell to urge the British authorities to exercise the discretionary powers conferred by the existing coercive statutes, and order a prompt trial in all cases of imprisoned Americans. In response Mr. Lowell informs Secretary Freylinghuysen that the British authorities assured him that the matter would have immediate attention. The full correspondence between Mr. Lowell and the British authorities has been forwarded by mail.

M. TRAN-UGUYENEN-HAUH is a Chinese lawyer now practising in Paris. He is intelligent, and speaks French accurately. He wears his cue rolled on the top of his head.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

PROMPTLY CHECKED.

MONTGOMERY, Ala., March 22.—Two young men here, cousins, have been arrested on suspicion of murdering their aunt for her money. The prisoners were taken to the county jail. A mob threatened to lynch them, but troops have been ordered to prepare to go to the scene on a moment's notice.

FORWARD, OUR MOTTO.

CHICAGO, March 22.—The Lehigh Valley have purchased the dock facilities here, and will establish a coal depot.

A SWEEPING REDUCTION.

WASHINGTON, March 22.—The House Ways and Means Committee has prepared a bill for the reduction of the internal revenue tax. It is likely that it will be limited to the abolition of the taxes on bank's capital deposits, and other cheques, watches, perfumes and medicines not classed as alchoholic. This makes a reduction of about sixteen million dollars.

STOPPED BY SNOW.

ST. PAUL, March 22.—A heavy snow storm raged in the north-west yesterday. Several trains are reported as being snow bound on the Northern Pacific and Manitoba roads.

DOWN IT COMES.

CHICAGO, March 22.—Advices from several points in Wisconsin and North Michigan indicate a heavy fall of snow, some feet deep and still falling.

HOMICIDE.

SUMMER, Ill., March 22.—Thos. Davis, of Petty township, aged 65, died yesterday from a fracture of the skull produced by brick bats, thrown by Capt. E. C. Davis, a vetran of the war. The latter held 250 bats. Both are well known and respected. Capt. Davis married a niece of speaker Keifer.

IN HOT WATER AGAIN.

PROVIDENCE, March 22.—Ex-Senator Sprague was arrested yesterday on a writ of attachment issued by Judge Stines, for contempt of court. It is alleged that Sprague and Superintendent Carey were denied admission by the Farensworth Custodian, the guide of a New York mill, for the purpose of taking an inventory. Sprague threatened to throw Farnsworth into the river. Sprague after being detained some time was released on his own recogonisance.

MORE OF IT.

NEW YORK March 22.—J. Gould was yesterday elected president of the Wabash Railway.

IT DIDN'T WORK.

NEW YORK, March 22.—Wm. King, John Ryan and Pat Hines, charged with fatally stabbing Samuel Josephs, were discovered yesterday serving terms in the penitentiary for stealing. The thefts they committed being lesser crimes to avoid arrest for the greater.

LABOUR TROUBLES.

OMAHA, March 22.—As there were premonitions yesterday of a possible renewal of the labor excitement, the crowd renewed their insults against the militia.

UNDER WATER.

NASHVILLE, Tenn., March 22.—The levee gave way yesterday, and the wind forced the water over the levee for two and a half miles. It is running now, and Concord parish will be almost certainly submerged.

KILLING NO MURDER.

CLEVELAND, Ohio, March 22.—Some parties, supposed to be strikers, fired 20 shots last evening at two workmen leaving the stove works here. None of the shots took effect. The strikers then were severely pounded, and the workmen with threats of revolvers escaped.

The Flood.

WASHINGTON, March 17.—In the House today a communication from the Secretary of War was received relative to the South-West. It estimates the number of persons rendered destitute as 85,000. In Missouri 2,200, Illinois 2,000, Kentucky 800, Tennessee 5,000, Mississippi 30,000, Arkansas 20,000, Louisiana 25,000. Seven hundred and thirteen thousand rations have been distributed. The appropriation already made is sufficient to purchase 800,000 rations, and the supply will be exhausted in Arkansas, Mississippi, and Louisiana about the 21st. No estimate can be made for the time during which the necessity for congressional aid will continue. No further demands are expected from Illinois and Kentucky, but from Missouri, Tennessee, Arkansas, and Mississippi, the department has information that the necessity for assistance will continue from thirty to sixty days. The department has no information from Louisiana, but it is thought it may be placed in the same category as Mississippi.

THERE is much speculation as to what St. Jacobs Oil really is; it comes not from the promptings of curiosity alone, but because its virtues are such as to amaze all who use it. Mrs. Hamet, No. 1684 Third avenue, New York, gave her opinion of St. Jacobs Oil substantially as follows:—For a number of years I have been a great sufferer from inflammatory rheumatism. It was chiefly confined to my right shoulder, but would sometimes extend to the extremities. Often the attacks would be so severe and the pain so intense that I became completely prostrated and unable to use my arm, which, seemed to be paralized. I tried every remedy I could hear of as likely to afford relief, and more than one doctor, but nothing did me any good until some weeks ago, as a last resort—but an almost hopeless one—I was persuaded to use St. Jacobs Oil, and one bottle of it has effected a complete cure.

ZIONSVILLE, INDIANA, Nov. 3, 1880.—Dr. B. J. Kendall & Co.—Gents:—I have your valuable "Treatise on the Horse and his Diseases," and your Kendall's Spavin Cure. My horses had the epizootic, one of them could not swallow for two days, I applied the Spavin Cure twice to her throat, and it gave almost instant relief. I think I could sell 1,000 of your books. Please give prices to agents. Yours truly, PETER BOWEN.

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

MARY—Who had a little lamb
Had teeth as white as snow;
She always brushed them twice a day
With "TRADEMARK" you know.

BABY CARRIAGES.

Parties who have been looking at our CARRIAGES, had better come in and secure the one they want, as the majority of those in stock last week are now sold.

Our Second Large Lot

will arrive next week.

This line of Carriages is the popular line, because of their Superior Looks, together with Reasonuble Prices.

A. L. DAVIS & CO.

Daily Evening Review

WEDNESDAY, MARCH 22, 1882.

UNDOUBTED TESTIMONY.

THE *Globe* commissioner to procure evidence against the N.P. is still on his hunting excursion. At Woodstock and St. Thomas he has been interviewing those who could best serve his purpose and has dressed up the conversations in the light most favourable for his employers. Still these hostile witnesses, in spite of themselves, give here and there strong evidence in favour of the present tariff.

Messrs. Goodwin and Soper, furniture makers, said :—

"They had not paid much attention to the bearing of the N. P. on their business, but thought that it had diminished considerably the importation of American furniture."

"Prices generally had not risen since the N. P. was introduced."

"They themselves bought almost wholly in Canada, because they did not want to be bothered about paying the duty."

"The N. P. had helped some of the manufacturers a good deal by excluding American furniture."

Mr. Whitlaw, manufacturer of mill machinery, engines and boilers, thought the N.P. had not benefitted the business, but he said :—

"It has increased the cost of production without increasing the price of manufactures."

"A number of my men have gone over there, (United States), to better their condition, but have nearly all come back."

"The number of our hands has of course increased."

Mr. Watson, manufacturer of stoves and other castings, said the duty did not benefit him, but he made the following admissions :—

"I do not get any higher prices."

"Business is better than a few year ago."

"My losses are fewer, if my profits are not so great."

"Wages have advanced."

Mr. Thomas, organ and piano manufacturer, was also sceptical as to receiving any benefit, but made the following concessions :—

"Business has been better since the N.P. was introduced."

"The number of our employees has largely increased of late years."

Mr. J. Grant, tanner and boot and shoe manufacturer, though also an unbeliever, gave the following testimony :—

"The way in which the duty was levied on foreign goods under the new tariff was praiseworthy, not the mere invoice, which might be made out lower than real market values, being taken as a basis for duty, but the real price."

Mr. Hay, of Hay & Co., furniture manufacturers, Woodstock, though he could not attribute the better business and better times to the N.P., spoke as follows :—

"I am in favour of protection to furniture. It has shut out foreign stuff competing with us, though perhaps yet it has not raised the prices much."

"We think we have gained on the whole by the tariff."

"Wages have advanced somewhat with us, and the number of our hands has increased."

"In our business, at least, the tariff can claim some credit."

So runs the story even with those who profess disatisfaction, and are grumbling because not sufficiently favoured. Increased business, sure payments, higher wages, greater numbers employed, no increase in prices, such are the results as shown by a hostile investigation. We trust that the "commissioner" will continue his researches.

THE TRENT VALLEY CANAL.

The Lindsay *Post* has another specimen of that debased style of journalism with which it too often disfigures the columns of an otherwise creditable paper. It says :—

"The manner in which the government deals with the Trent Valley Canal project will afford one indication of the coming elections. A vote of a quarter of a million or so for a portion of the work and for further surveys will show that the contest is not far off. Sir John Macdonald has dilly-dallyed with the scheme and Sir Chas. Tubper has been handling it very diplomatically, but with a view of tickling half-a-dozen constituencies the government would not hesitate to expend half a million in piece-work and patch-work and then let the complete scheme go to the dogs after the election."

Even if there was any foundation for its charge, is this the proper tone in which to attack a policy of which the critic disapproves? Is there any patriotism—any decency, even—in thus vilifying the leading statesmen of the country?

But, in fact, the charge is absolutely without foundation. It is a deliberately malicious and mendacious invention, put forth in the hope that it may prejudice against the goverment those who are ignorant of the circumstances.

In 1878 the REVIEW contained several articles opposing the transfer of the Trent River Works by the Mackenzie Administration to the Provincial authorities, for which Mr. Mowat was applying at the instance of Mr. Ferris, who had personal interests to serve. We showed that this would be injurious to the contemplated Trent Valley Canal, which had been lying in abeyance since Mr. Boyd obtained his charter in 1874, and this aroused a new interest in the project. The subject came before Parliament in 1879, and Mr. Stark, C. E., was sent down to make a survey in conjunction with Mr. Belcher, the resident engineer, from the Georgian Bay to the Bay of Quinte, and to make a report. This was so favorable that in 1880 Sir Charles Tupper and Mr. Mackenzie Bowell themselves paid a visit of inspection, and held out hopes that the government would undertake the work as soon as the financial situation allowed. In 1881 an appropriation was placed in the estimates for a detailed survey, and Thos. Rubidge, C. E., was sent down to make it, which he did. His report is not yet submitted, but we believe that it will be favorable. We also believe that there will be an appropriation in the supplementary estimates this session and that the construction will be proceeded with at once. This the *Post* also evidently believes, from its attempt to discredit in advance, by vile insinuations, an action that it knows would be popular.

Where, in all this, is the dilly-dallying of Sir John A. Macdonald? Where the "diplomatic handling" of Sir Charles Tupper? If the *Post* is correct, and there is a vote this session for the Canal, the history of the project for five years will be :—

1st. Agitation for it.
2nd. Preliminary survey.
3rd. Report of survey and Ministerial visit.
4th. Appropriation and detailed survey.
5th. Construction.

What more rapid progress could the best friends of the project have hoped to secure? What sign is there of a delay till the eve of a general election? The charge is so utterly preposterous, so disgraceful in its shameless perversion of the truth, that instead of doing an injury to those thus maligned, it only serves to show what desperate straits the opposition are in to find even the semblance of a fault to criticise, and how reckless they have become in their despair.

BROWNLEY'S RASCALITY.

After a Night in the Cells he is Discharged from Custody.

The arrest of Alex. Brownley on Friday night for writting an indecent letter to his ward, Miss Amey Howie, created considerable excitement in the city, and the *Free Press* was eagerly persued by people from the locality where Brownley hails. At midnight his wife arrived in the city and had an interview with Detective Schram. As was natural, she felt keenly the disgrace which her husband had brought upon them, and stated that his conduct in this particular was a mystery to her, as he had always been kind and affectionate in his dealings. She informed the authorities that as he was in trouble she considered it her duty to help him out of it, and that she intended to do so. Public sympathy is strongly expressed for Mrs. Brownley, who has always been looked upon as a model wife, while on the other hand, as the full text of the letter written by the prisoner becomes better known and understood, the feeling grows apace that his is a case where, if the law allows it, the cat-o'-nine-tails could be used with wholesome effect.

County Crown Attorney Hutchinson was interviewed in reference to the probability of punishing Brownley for this offence against morality, and he gave it as his opinion that the ofience was not an indictable one. If this be the case, and there is no reason to doubt Mr. Hutchinson's conclusions, society should demand a remedy immediately; for when there are brutes in human form vile enough to write such stuff to an innocent girl, and when the fiend cloaks his animal passions from public gaze by occupying a front pew in one of the principal churches, carrying around the collection plate on Sundays and officiating as exhorter, etc., at convenient seasons, no female is safe. The sooner a change in the law in this respect is made the better for the public.

BROWNLEY LIBERATED FROM CUSTODY.

After the above advice had been received from Mr. Hutchinson, Brownley was brought up from jail and signed a document resigning all claims upon the girl Howie. He also guarantees to forward all her clothing and other effects to her address here, besides paying all the costs incurred. On this understanding he was released from jail and on Saturday proceeded to Ailsa Craig, where he will have to face an indignant community.

Miss Howie and her friends feel greatly relieved now that she is out of the power of this man, and as this has been accomplished without a public trial they are satisfied to let the matter drop.

Thus ends what at one time promised to be a case of considerable interest, and if it proves a warning to the man who attempted the ruin of this girl, and influences him to lead a different course in future, the experience may be a great benefit to all concerned.

Mrs. Brownley was shown the letters, which her husband says are not his productions, and she at once stated, in the presence of witnesses, that they "were Alex.'s writing." Although Brownley stiffly denies that the letter was written by him, the veriest ignoramus in caligraphy by comparing the two, cannot come to any other conclusion than that the letter to the girl and also to Schram are the work of the same hand.

Mayor Meredith, after perusing the letter, remarked that it was "the most obscene and filthy he had ever read," and ventured the opinion that Brownley, or any other man who would pen such an effusion, should get two years in Penitentiary and a dose of the lash."—*London Free Press.*

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—In the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

TRADE NOTES.

MESSRS. S. LENNARD & SONS, have just completed a large addition to their knitting factory. The building is of red brick, 53x36, and two storeys high. A large number of new machines of the most improved patterns are on their way from England, and when they are set up the firm will be able so turn out a finer class of goods than has heretofore been attempted in Canada. This increase of facilities will give employment to about thirty additional hands.

MESSRS. B. GREENING & Co., of the Victoria Wire Mills, Hamilton, have just had erected a most valuable addition to their works, in the shape of a tower sixty feet high. It is to be used for the purpose of facilitating the painting and drying of their wire cloth, and this system is calculated to much improve the quality, the colour being laid on with great eveness. Although for pratical purposes, the addition is a ornamental one, and is surmounted by a ventilator of very neat design.

MR. R. B. MCPHERSON, of Thorold, proprietor of a stone flouring mill there, some time ago determined to convert the building with additions, into a knitting factory, and the work is now nearly completed. The new building is four storeys, 62x71 feet, to which the old mill, 75x25, forms a wing, and there is also a large boiler house besides. Water power from the canal will be used to drive the machinery, which is now on its way from England and the States. From 100 to 150 hands will be employed, and it is claimed that the mill, when ready for operation, will be one of the most complete of its kind in Canada.

MR. ARTHUR TOOMEY finds it imperative that he should enlarge his factory to keep pace with orders, and he has made arrangements for doubling the capacity of his establishment within the next four weeks. Mr. J. A. Cliff has the contract for the erection of a building 30x40 feet, three stories high, to be veneered with brick. The machinery is already on the way, and is expected to arrive in about a week. A short time since, Mr. Toomey received an order from a Toronto firm for 3,000 pairs of blankets, to be delivered as soon as practicable. Business is booming with him; a fact which may be largely attributed to the excellent quality of the goods which he turns out.—*The Canadian Manufacturer.*

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

THE AGE OF MIRACLES is past, and Dr. Pierce's "Golden Medical Discovery" will not raise the dead, will not cure you if your lungs are almost wasted by consumption. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe disease of the throat and lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, cures pimples, blotches, and eruptions, and causes even great eating ulcers to heal.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

THE VITAL FORCES are speedily renewed by Mack's Magnetic Medicine, the great brain and nerve food, it is the best and cheapest medicine ever discovered. See advertisement in another column.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved vond a doubt that **"Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure. I have since then been well and free from lameness. It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1wly

THE CANADIAN PACIFIC.

DESCRIPTION OF THE COUNTRY TRAVELLED BY OUR GREAT RAILWAY.

The Inhabitants and their Occupations—Fine Hunting and Fishing—The Mining Camps—The Indians and Chinese—How the Construction of the Road is Progressing.

Perhaps no part of the North American continent is less known to the general public than the southern portion of the British possessions, soon to be traversed by the Canadian Pacific Railroad; and with this idea strongly in mind, a reporter of the *Tribune* proceeded at once to interview Major Rogers, who has been engaged in the surveys of the line during the past summer as follows:

"Good morning Mr. Rogers; I want to hear you talk about the Canadian Pacific. Where were your surveys prosecuted?

"Across British Columbia, and in the western part of the Northwest Territory, about 150 miles north of the boundary."

"How does your proposed route cross the provinces?"

"The route leaves the Pacific coast at Port Moody, near the mouth of the Frazer River, which it follows for about 150 miles, leaving it at Lytton, when it follows northerly up the Thompson river to, or near, Kamloops. It is our effort to find a nearly east route from Kamloops across the mountains."

"What distance from Kamloops to the east side of the mountains?"

"About 300 miles, or 500 miles from the coast. The mountains may be said to be solid from the coast to the east side of the Rockies, the divisions or ranges of mountains being

DEFINED BY THE GORGES

through which the rivers run. Thus between the coast and the Frazer river are the cascades, between the Frazer and the West Columbia, the gold range. Within the bend of the Columbia or the Selkirks, and east of the Columbia are the Rockies. The ranges which are encountered on the line of the Union and Central Pacific, the Black Hills, Wasatch, Sierra Nevadas, and the coast ranges, have run together in one latitude and form one body of mountains."

"Is any portion of this mountainous district settled?"

"Yes. The western 200 miles contain several towns. Such as New Westminster, Hope, Yale, Lytton and Kamloops, besides the intermediate smaller towns in the Frazer and Thompson valleys. They were founded, and have been mainly supported by the mining interests, all of the rivers being to a greater or less degree, gold bearing. The first discoveries of gold in British Columbia were made at or near Kamloops Lake."

"Has quartz mining been conducted to any extent?"

"No—such mines have been discovered and opened, but the difficulty of getting supplies has prevented their growth, and has, in fact, caused suspension of operation in many cases."

"Is there much farming or grazing land in British Columbia?"

"The best farming lands I saw were along the Thompson and its tributaries, where comparatively large tracts are now under cultivation and producing excellent wheat, of both the winter and spring varieties. The grazing is excellent along the Thompson and at the head waters of the Columbia River, and also along the Kortenay. The Indians, the Kortenays especially, have engaged in stock raising to a great extent. Some of the finest beef that I ever ate was raised and fattened on the bunch grass of that valley. Southeastern British Columbia contains a very extended acreage of the finest grazing land. Around the Columbia lakes, at the head waters of the river, cattle graze all winter, bands of them being driven north for one hundred miles or more to be wintered there."

"Is this section limited to grazing for its support?"

"No.

SOME OF THE FINEST PLACER WASHINGS

occur here. The Wild Horse creek and the Perry creek mines are located here. The Wild Horse mines have been operated for years and are still good property, while the Perry creek mines are newer. They have turned out good yields and give splendid promise?"

"Do you find much timber on your route?"

"The valleys or gorges through the Gold and Selkirk ranges are magnificently timbered, the Douglas fir and white pine predominating. Cedars are also plenty. The growth is the finest I ever saw, trees of two-and-a-half feet diameter, attaining a height of 150 to 200 feet, and frequently 100 feet from the ground to the lower limbs. If Major Camp could see them he would think he had found the lumberman's elysium. The largest trees I saw were white cedar. I measured one which was twenty-seven feet and one inch in circumference, and four feet above the ground. The large trees are almost invariable hollow, those of three feet in diameter or less being sound."

"Do you find much game in the mountain?"

"Yes, black bear, cariboo, sheep and goats are very plenty. Very few grizzlies are found there. Their territory is farther north, near the big bend of the Columbia, while cinnamons are found farther south, about and south of the boundary. They infest more the region traversed by the Northern Pacific. Fish are plenty, and good ones, too. I saw but two fish during the trip except salmon and trout. One of my men landed a

TROUT WEIGHING EIGHTEEN POUNDS.

The Salmon come to the lakes at the head of the Columbia in August, in enormous quantities, to spawn, at which time the Indians gather from all parts of central and southern British Columbia, and even from Washington Territory, to spear them. They are dried and carried away for winter use."

"Did you meet many Indians on the route?"

"Very few. We had to take with us those whose services we would require as guides and packers."

Had you any trouble with them?"

"Not in the least. Every Indian is pious and hungry. Their teachings and their stomachs keep them peaceably inclined. Any one of them can out-eat two white men, and any white man can out-work two Indians."

"How did you communicate with them?"

"By taking the Chinook, a jargon gotten up by the employees of the Hudson Bay Co. as a trade language. Nearly all the Indians and very many Chinese, who are to be found at the mining camps, have learned it. It is a vocabulary of about three hundred words only, yet one can travel among nearly all the tribes and converse with them quite readily by its use."

"You speak of the Indians being pious. To what denomination do they belong?"

"Those west of the Rocky range are mainly Catholics, though there are several Episcopalian missions near the coast. The Shuswaps, Colvilles, and Kootenays are almost without exception Catholics, while the Stonys and some others whose range is the eastern slope of the Rockies and the plains at their eastern base, are Methodists."

"Are birds plenty in the mountains?"

"They are surprisingly rare. In crossing Gold and Selkirk ranges, which route we made on foot, being a full month in going 100 miles, I don't think we saw to exceed a dozen birds of all varieties. In spring and fall aquatic birds—geese and ducks—are very plentiful along the Columbia, especially about the lakes of its source. The geese are of the large, gray variety, and nearly double the weight of our ordinary wild geese, and delicious eating. So is porcupine when one is hungry."

THE BUILDING OF THE ROAD.

"How long a time, do you think, will be required to complete the road to the Pacific?"

"Of course, until the line is finally located, any answer must be somewhat indefinite, but I think at present, it will take about five years."

"Have the Indians generally adopted the habits and customs of the civilized?"

"To no great extent. It might, perhaps, be said of some of them near the coast, but the others are of the breech-clout and leggings sort. Some dignify themselves by the name of Farmer Indians, but that generally means those who raise horses. The horse is the standard of wealth. The Kootenays are the finest specimens of the genus Indian I have ever met. They are athletic and bold, and fine in feature and physique. Some of the squaws are very handsome. I never saw a Kootenay who did not look as though he was panting to go on the warpath. They are the natural enemies of the Blackfeet, and until a few years ago were constantly warring with them. The Nez Perces, of whom I saw but little, are said to be the most inclined to adopt the habits of the whites. Their women often 'work out' among the whites in the vicinity of Fort McLeod, and, I am told, carry back to their lodges the habits of tidiness which they have learned among the whites. The tribe is said to be far superior to the average—to be 'good fighters and good friends.'"

"What sort of canoes do they use?"

"Dugouts and bark canoes. The bark canoes are made of the white pine, which is taken from the tree of sufficient length to from the canoe of only one piece. Some of them are 40 feet long, and capable of carrying 10 to 12 people. The bark is turned inside out, and makes a canoe which is very light and graceful."—*Minneapolis Tribune.*

FROM ALL OVER.

MR. THOMAS WOOD, one of the veterans of 1812, who has been a resident of Normandale for the past 74 years, has gone to his long home. He was born in New Brunswick in 1790.

GET THE ORIGINAL.—Dr. Pierce's "Pellets"—the original "Little Liver Pills" (sugar-coated)—cure sick and bilious headache, sour stomach, and bilious attack. By druggists.

WHILE King Alphonso of Spain and his suite were out hunting a few days since in Anadlusia, the King's horse was wounded by a wild boar. His Majesty dismounted forthwith, and killed the animal with his hunting knife.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

THE Kirkton Butter and Cheese Company operated the factory three months last year and made 25,758 pounds of butter, which sold at an average of 21.9 cents per pound. The average expense for making was 3.2 cents per pound.

DESERVING OF PRAISE.—Too much cannot be expressed in favor of that unsurpassed remedy for coughs, colds, asthma, croup, sore throat, and all lung complaints. If you suffer from neglected cold, try Hagyard's Pectoral Balsam. The cost is trifling, only 25 cents.

A WISCONSON woman who was lost in the woods for three days says she did'nt suffer so very much, but was greatly annoyed by her absence of mind in not bringing along a small looking-glass.

OLD GENT:—"Well, my good man, I never could buy a horse with legs like that." Gypsy Dealer:—"Wot? Legs. Wy, I I thought year wanted a fast one, and you'll never see 'is legs when 'e gits a trottin'."

No article ever attained such unbounded popularity in so short a time as Burdock Blood Bitters, and that too during the existence of countless numbers of widely advertised bitters and blood purifiers. It is evident that this medicine begins it work at once, and leaves no disirable effect unattained.

KEEP THE FEET DRY.—This is the season of sloppy weather so productive of colds, and lung troubles; neglected cold or damp feet is a great source of these difficulties. Cure your cough with Hagyard's Pectoral Balsam. Pleasant to take and always reliable.

OLD Mr. and Mrs. Smiler were looking at the comet from their chamber window, "No, Mollie, no, that cannot be the comet of 1843; the appendage is so much larger." "But, my dear Horace, the comet was younger then." They retired in silence.

"I LEFT off my overcoat yesterday and caught cold," said a gentleman as he went in for a glass of soda; "but on a bright day like this you may leave of with impunity." Just then the clouds came suddenly, the wind blew severely and the air was filled with little flakes of snow.

THE oldest inhabitant of this or the past generation could not, we believe, says the Charlottetown *Patriot*, remember when the Island was so completely blockaded with snow as it is at this present moment. The roads are impassable, the railroads are blocked up, even the streets of the city are a series of snowbanks.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

A correspondent writing from Winnipeg describes how people are packed in some parts of that thickly populated city. In the house where he lives, taking the area of all the floors in the house, each occupant has just 28 feet for his own use. In Ontario very few persons have less than 250 or 300 feet.

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family liniment. Immediate relief will follow its use in all cases of pain in the stomach, bowels or side; rheumatism, colic, colds, sprains and bruises. For internal and external use. It has no equal in the world for what it is recommended. For sale by all dealers at 25c. per bottle.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

THE largest livery owner in Maine uses Kendall's Spavin Cure with the best success.

Says one, "Kendall's Spavin Cure is the best liniment for human flesh I ever used," and thousands have extolled it in similar terms.

The proprietors of Kendall's Spavin Cure have hundreds of letters on file speaking in the highest terms of the benefits derived from its use. When you find one case where it has failed to give relief, there are hundreds where it has proved a success. Read advertisement.

NEW GOODS
AND
NEW STORE.
THOMAS KELLY

Takes much pleasure in informing the People of Peterborough and surrounding country that he has COMMENCED BUSINESS

In Burnham's Block,

Corner George and Simcoe Streets,

On WEDNESDAY, 15th MARCH

The Best Field
FOR
EMIGRANTS.

An IMMENSE AREA of RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

Daily Evening Review

WEDNESDAY, MARCH 22, 1882.

THE WEST RIDING.

Meeting of the Liberal Conservatives of West Peterborough—A Large Gathering.

There was a meeting of the Liberal Conservatives of the West Riding of Peterborough in the Music Hall, this afternoon, for the purpose of electing officers of the Liberal Conservative Association of the Riding, and for other business.

There was a good attendance, all the different portions of the Riding being represented.

Mr. R. A. MORROW, the President took the chair.

Mr. GEO. HILLIARD, the member for the Riding in the House of Commons, addressed the meeting, ably reviewing the rival policies and actions of the two parties. He was received with warm applause.

Mr. H. COLLINS, Warden of the County of Peterborough, moved the following resolution which he supported briefly, but to the point :—

Mr. THOS. TELFORD, (chairman of a Reform Committee at the last election), had much pleasure in seconding the motion, and in endorsing the policy of Sir John A. Macdonald.

Moved by Mr. HENRY COLLINS, seconded by Mr. THOS. TELFORD,—That we view with anxiety the centralization of patronage and power in the hands of the Mowat Administration, its interference with the vested rights of property, and its endeavors to embroil the Province of Ontario with the Dominion and the other Provinces, and its reckless and practically uncontrolled expenditure of the public money.

We consider the language used by members of the Government and their supporters in the late debates was intended to force the Province of Ontario into a position of hostility to her sister Provinces, to sap the foundation of Confederation, and to place this Province in a state of isolation utterly at variance with its true interests.

These men admit that there are peaceful and constitutional modes of settling the boundary question, but they have not sought, and do not intend to seek them, but threaten to resort to force.

We desire to express our thanks to the leader and members of the Opposition in the Ontario Legislature, for their active and energetic criticisms of the various measures and policy of the Mowat Administration, and especially the policy of that Government in the centralization of power in their own hands for political purposes.—Carried unanimously.

Mr. JAS. STEVENSON moved the following resolution, seconded by Mr. ISAAC GARBUTT :—

Moved by Mr. JAMES STEVENSON seconded by Mr. ISAAC GARBUTT,—That the Conservatives of West Peterborough in convention assembled express their continued confidence in the able and patriotic Government of Sir John A. Macdonald, in carrying out the wishes of the people expressed at the last general election, a policy which is rapidly extending, and developing the industries of the country and promoting its prosperity.

By its policy, the administration has given employment to thousands who formerly had to leave our country for want of work, has enlarged our manufactures, increased our capital, opened rapidly for settlement the vast Territory in the North-West, drawn each Province into closer union with the other Provinces, developed the resources of every part of Canada, and insured a magnificent future for this Dominion, safe from all danger, save that of such bitter sectional feeling as has lately been displayed by the present Ontario Government and its supporters. We further approve of the policy adopted by the Government in securing the construction of the Pacific railway, by a responsible Company, thereby relieving the Government and people from the responsibility of building and maintaining the same.

We further express our gratification for the able manner in which the financial affairs of the country have been managed, by converting deficits into surpluses and by applying portions of the surplus in diminishing the public debt, and constructing those public works which are so necessary to the full development of the country.—Carried unanimously.

The following officers were elected :—

President,—Mr. H. H. Smith, Mayor of Peterborough.

Secretary,—Mr. G. W. Hatton.

NORTH MONAGHAN.

First Division,—R. A. Morrow.
Second Division,—Charles Brealy.

SOUTH MONAGHAN.

First Division.—Dr. Gray.
Second Division.—T. M. Willan.

ENNISMORE.

First Division,—D. Costello.
Second Division,—A. Clark.

The officers of the Association for the Town will be elected at a future meeting.

LAKEFIELD.

First Division,—R. C. Strickland.
Second Division,—W. C. Sanders.

A Splendid Chance.

The library of the late T. Douglas Harington, Esq., formerly Deputy-Receiver-General for Canada, will be sold by auction in Ottawa on the 29th and 30th of March. The collection consists of many valuable books on Canadian history, typographp, statistics, etc., etc., as also a great variety of works on travel, voyages, adventure and discovery. Members of Parliament and others seeking information on these subjects would consult their interests by attending the sale, as many of the books are valuable and scarce. Catalogues can be had on application to Mr. John Moore, *Free Press* office, Ottawa.

An Old Settler Gone.

On the 21st of March, Mr. Wm. Clark, sen., of Springfield, died at the ripe age of 84 years. Mr. Clark was one of the earliest settlers in this district, having resided for nearly fifty years in Springville. He had a number of friends and relatives in this neighborhood, among whom is his son-in-law, Mr. William McBain, sen., of this town.

Ourselves.

Regarding our new dress the Belleville *Intelligencer* says :—

"The Peterborough REVIEW now issues occasionally a twenty-four column sheet. Our spirited and newsy contemporary has deserved the success which it has achieved.

Lager.

A fresh supply of O'Keefe's Lager has been received, and will be kept constantly on hand at W. H. Chamberlain's Restaurant, next door to Bradburn's Opera House.

"Nor-West Ale."

Just received, two brewings of the above celebrated ale at Davy Wheeler's.

THE MILITARY COLLEGE.

Special Excursion from Ottawa to Kingston—The College and its Working.

KINGSTON, March 18.—The old Limestone city put on this morning a thoroughly holiday appearance, the occasion of the display being the reception of an excursion party organized by the Minister of Militia, and including about half the members of the House of Commons, with a fair sprinkling of Senators and a few others not connected in any way with either House of Parliament. The cost of the entertainment given at Kingston was borne jointly by Mr. Gunn and Mr. Kirkpatrick, members for Kingston and Frontenac respectively, and that of the train by Mr. Caron. The latter was made up of Canada Pacific cars and started from Ottawa at nine. After a rapid run it reached this place shortly after noon.

The first part of the programme was partaking of an excellent lunch in the City Hall, and after this had been discussed to the satisfaction of all present, Mr. Kirkpatrick proposed the only toast allowed, namely, that of "Her Majesty the Queen." This was received with great applause, and was followed by the reading of an address to Mr. Caron from the Corporation and citizens of Kingston, which elicited two speeches in reply—one from the Minister of Militia and the other from Speaker Blanchet.

After lunch a movement was made to the docks where the steamer Pierrepont was lying, part of the plan being to use her for ferrying the excursionists across to the peninsula occupied by the College. The first item on the programme there was the marching forth of the cadets and putting them through manual and bayonet-exercises. These were done in such a way as to reflect great credit on the drill instructors, and there some time was spent by the visitors in looking through the various lecture rooms, where the appliances of school work exhibited to the gaze of all those who chose to inspect them more or less thoroughly. The cadets were then put through a series of gymnastic exercises, at which they were no less proficient than they were at drill. After spending a little while overlooking some engineering operations, a heavy charge of gun cotton under the water some distance from the shore was fired by an electric current, causing a large amount of commotion in the water, and illustrating the effectiveness of submarine explosions for inflicting damage on vessels in the vicinity.

During the latter part of the time spent in and about the College a large contingent of the guests found their way backs to the Penitentiary, which they thoroughly inspected, returning in time to meet the others at the Grand Trunk station.

The special train left for Ottawa a few minutes after six, the guests of Messrs. Caron, Gunn, and Kirkpatrick having spent a most enjoyable day. What the effect will be on the College itself remains to be seen.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow ; you will be inspired with new life ; strength and activity will return ; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis. Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

Buckien's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

THROUGH the months of March and Apri be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

THE CAUSES OF COLDS are getting overheated in hot rooms or crowded assemblies, sitting in a draught, or cooling too rapidly after exercise, muffling up warm and changing to lighter wrappings, cold and damp feet. No matter what is the cause Hagyard's Pectoral Balsam is the cure for all throat and lung disease that induce consumption.

PRESERVING FENCE POSTS.

A correspondent at Benton Harbor, Mich., sends us the following statement by Parker Earle (a widely known horticulturist), in the Chicago *Times*, and requests our opinion of his mode for preserving fence posts. In answer it may be stated that no single experiment, or no single series of experiments under like circumstances, can be adopted as a rule for unlike conditions. Our own observations and experiments have led uniformly to the opinion that coal tar applied warm to dry wood) is a good preservative for timber underground, or exposed to wet and shade, but does more harm than good if exposed to the heat of the sun and weather. But varying circumstances may vary the rule. The character of the soil may have a controlling influence, and experiments should be repeated in different places and on different kinds of wood.

The experiments of Mr. Earle are a valuable contribution to such a series of trials. For general application, we would recommend first impregnating the whole of the post with crude petroleum as a general preservative, and when dry apply hot tar to the portion going under ground, but none above. The petroleum will penetrate the pores, and the tar coating will hold it there. The following is Mr. Earle's statement :—

In building a fence around our young orchard, several years ago, we tried many plans for preserving the posts. Having occasion to remove the fence this winter, we noted the condition of the posts as follows :—Those set with no preparation were decayed an inch or more in thickness ; those coated with a thick wash of lime were better preserved, but were quite seriously attacked by worms ; those posts coated with hot tar were perfectly sound as when first put in the ground ; those painted with petroleum and kerosene were equally sound and as good as new. In future we shall treat all posts in the following manner before setting : Let the posts get thoroughly dry, and then, with a pan of cheap kerosene and a whitewash brush, give the lower third of the post, the part to go into the ground, two or three good applications of the oil, letting it soak in well each time. Posts so treated will not be troubled with worms or insects of any kind, but will resist decay to a remarkable degree. This we find to be the simplest, easiest, cheapest, and best method of preservation.—*Country Gentleman.*

Dr. Pierce's "Favorite Prescription," for all those weaknesses peculiar to women, is an unequalled remedy. Distressing backache and "bearing-down" sensations yield to its strength-giving properties. By druggists.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

FROM A PROMINENT PHYSICAN.—Washingtonville, Ohio, June 17, 1880.—Reading the advertisement of Kendall's Spavin Cure, and having a valuable and speedy horse which had been lame from a spavin eighteen months, I sent to you for a bottle by express, which in six weeks removed all lameness and enlargement, and a large splint from another horse, and both horses are to-day as sound as colts. The one bottle was worth to me one hundred dollars. Yours truly, H. A. BERTOLETT, M. D.

Australia, New South Wales, Victoria, Queensland :—Letters, 15 cts., papers 4 cents.

New Zealand, *via* San Francisco :—Letters, 15 cents papers, 4 cents. H. C. ROGERS, Postmaster.

English Advertisements.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them, It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d. ; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort witein 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

THE CAR WORKS.

To the Editor of The Review.

DEAR SIR,—Judging from the spirit of those who spoke last night, who are offering to put their hands in their pockets to help on with those carworks, in my mind it shows a strong desire on the part of the Company to help to forward the interests of this town. I feel that we are fortunate in having men among us with such noble pluck. We may feel proud that we have such men, and especially Mr. G. A. Cox. I admired the way Mr. Cox defined his position and his desire before the meeting, and was glad to hear him rallying others of wealth in our town to come down with their subscriptions handsomely. Let us take his views and his example, and come down with our mites—our moneyod men, handsomely. Let the object be that we will have one of the greatest carworks in the Dominion, which, I believe, with Mr. Cox at the head, will be an everlasting benefit to Peterborough. Yours, &c.,

March 21, 1882. JOHN BELL.

Presentation.

The following is the address which was presented to Mr. G. H. Johnston by the members of Peterborough Lodge No. 111, I. O. O. F. It was accompanied by a very handsome dressing case:—

PETERBOROUGH, Ont., March 20th, 1882.

To Geo. H. Johnston, Esq.:

DEAR FRIEND AND BROTHER,—The members of Peterborough Lodge No. 111, I.O.O.F., having learned that you are about to remove from our midst to the "Great Nortn-West," cannot allow you to depart without giving an expression of the loss we feel the Lodge will sustain by your removal, and of our appreciation of the manly qualities, genial disposition and valuable services which have endeared you to all, and especially to your Brother Oddfellows. We regret to lose your presence at our meetings of the Lodge in which you have always taken a deep interest, and of which you have been so long a member and an exemplary officer. We ask your acceptance of this dressing case as a token of the respect and esteem in which you are held by all, and we hope it may remind you of the good wishes which accompany you to your new sphere of labor. We trust your future may be attended with happiness and prosperity, and that you may ever be actuated by the noble principles af our Order, and if not permitted to meet again in Lodge below that we may all meet you in the Grand Lodge above.

Signed on behalf of Peterborough Lodge, No. 111., I. O.O.F. J. C. T. LACY, N.G.

Mr. Johnston replied in a few suitable remarks, being wholly taken by surprise.

"Nor-West Ale."

Just received, two brewings of the above celebrated ale at Davy Wheeler's.

MIDNIGHT TELEGRAMS

CABLE.

DISARMAMENT ORDERED.

PHILIPPOLIS, March 22.—It is stated that the Bulgarian Government has ordered the disarmament of the malitia because of disorders.

THE EGYPTIAN CABINET.

ATHENS, March 22.—A change in Egyptian Ministry is imminent. The new Cabinet will probably be more anti-European.

A TOWN BURNT.

VIENNA, March 22.—The whole of Emod was burned and all the inhabitants were compelled to camp in the fields.

BISMARCK'S RESIGNATION.

BERLIN, March 22.—It is reported that Prince Bismarck contemplates resigning, because the Economic Council rejected his tobacco monopoly bill.

A SUSPECTED CARGO.

CONSTANTINOPLE, March 22.—The Customs authorities at Kertch arrested a vessel flying the Turkish flag. The captain declared that he had a cargo of oranges, but large quantities of dynamite and gunpowder were discovered. The captain then stated that the dynamite and powder were shipped for a landed proprietor at Taganrog, and the vessel was escorted to Taganrog by a Government steamer.

GEN. SKOBELEFF ON ENGLAND.

ST. PETERSBURG, March 22.—At the Grenadier's banquet in St. Petersburg this evening, Gen. Skobeleff spoke in warm terme of the friendly relations existing between England and Russia.

A REVOLUTIONARY LEAGUE.

LONDON, March 22.—The association styling itself the International Revolutionary, League, consisting of foreign refugees in London, and professing to include American, held a meeting last evening. The commutation of the sentences of the Nihilists was referred to as merely the stratagem of a despot. A resolution was adopted deprecating McLean's attempt upon the life of the Queen.

EXILED RUSSIAN JEWS.

ST. PETERSBURG, March 22.—It is stated that the eight hundred persons expelled from Moscow some time since for not having passports were Jews. The Czar has refused to sanction General Ignatieff's proposal to expel the Jews from the village and small towns in the south of Russia.

THE STORY OF METZ.

PARIS, March 22.—Marchal Bazaine is preparing to issue a history of the siege of Metz.

THE NIHILISTS.

LONDON, March 22.—Several members of Parliament have received letters signed by Vera Sassulich, inviting subscription in behalf of the imprisoned Nihilists.

THE CZAR AND THE KAISER.

ST. PETERSBURG, March 22.—The Czar to-day telegraphed a congratulatory message to the Emperor William on the occasion of his birthday, expressing a hope that his life, which was so necessary to the peace of Europe and the maintenance of friendly relations between Russia and Germany, might be long preserved. A State dinner was given in the Gatschina palace, to which all the members of the German embassy and all the knights of the German order of the Red Eagle were invited. The Czar toasted the Emperor William.

THE REVOLUTIONARY MOVEMENT.

BERLIN, March 22.—The German Emperor, replying to a deputation of Conservatives yesterday, who presented an address expressing devotion, said that every new period of life reminded him that it was the Almighty who at certain times chose His instruments. God had called upon him to carry out certain tasks. In neither civil nor military matters had He ever failed to find fit and capable men for his purposes. The times were serious. Considering that the Czar a year ago had fallen a victim to the party party of anarchy, who could now deem himself safe? He had learned with pleasure that the country largely approved of his recent message. He laid greats tress upon the importance of a fervent religious feeling, which he had often exhorted the people to cultivate. He referred with deep emotion to the preservation of the life of the Empress. He declared that he considered it necessary to again remind the country what the Crown in Prussia was. It was a symbol of the absolute authority given by God and not to be taken away by man. The speech produced a great impression on those who heard it.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

AMERICAN.

ALL HE KNOWS.

NEW YORK, March 23.—The *Sun's* Washington special despatch says that the impression seems to be that Shepherd has told about all he knows in the way of implicating his office in the speculations.

PROBABLE MINERS' STRIKE.

PITTSBURG, Pa., March 23.—The railroad coal exchange has determined to reduce the price paid for mining half a cent a bushel. If this reduction is made it is expected that four thousand miners will strike.

COST OF IMMIGRANTS.

NEW YORK, March 23.—The representives of the city held a meeting last night to consider several bills offered to the House to relieve the city and state of the burden of immigrants. A committee was appointed to draft a new bill.

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

UNGALLANT CRONN.

He Punishes Two Fair Damsels For Deserting His Employment.

The following from the Winnipeg *Sun* will be read with interest by many readers to whom "Bob" is well known:—

"If anybody has had trouble with his female help, it is Cronn, of the Palace Hotel. Some months ago he brought six girls from Ottawa, but before they were with him long enough to find their way to the kitchen in the dark they, to his great disgust, got married off, and left him in the lurch. Again and again he tried it on, but they would get married in spite of his fatherly warning that the wedded state was 'mighthy onceertin.' Finally, however, he engaged two good-looking American girls, by name Millie Sharland and May McCarty. They were young, supple, and like Barkiss, they were 'willin',' and Cronn felt that his troubles now were over.

But oh, deceptive fate!

A change came o'er the spirit of their dream, and Cronn woke up one morning to find himself not famous—but what was far worse, without a servant girl. He got mad, and laid an information against them for unlawfully deserting his employment. This morning the fair delinquents were brought before the 'Kurnel,' who sat in state in Judge's chambers to receive them. There was quite a party there to witness the proceedings, which were sure to be interesting. Cronn told his sorrowful story with that modesty which becomes him so well and for which he is so widely celebrated. He said the ladies were engaged with him at $20 a month, and called Mr. McCann, one of his boarders, who witnessed the bargain, to prove it. Mr. McCann, who, like George Washington, of immortal memory, never told a lie, corroborated Cronn's evidence, and one of the defendants, turning upon him with a look of withering scorn which fairly scorched McCann's moustache, exclaimed, 'Oh, you wretch!' The defence was then called and the defendants were sworn. They said that their sleeping room was not suitable, and that there was no looking glass in the room. That settled it! What man in his right senses would expect any woman to sleep in a room where there was no looking glass. The Khan asked for an immediate discharge of the fair defendants, but the Kurnel overruled him and fined both defendants $10 and costs each.

Mistaken For a Deer.

The Kingston *News* says:—"Father McWilliams has just returned from the back townships, where he has been holding Lenten services, and has brought with him an interesting relic in the shape of a bullet which a young man carried around in his body for almost six months. The facts of the case are these: Just about dark on the evening of the tenth of August last, Albert Arcand was paddling around in a canoe on Trout Lake, in the Township of South Canonto, when the gentle noise of his paddling attracted the attention of Fred Osler, who was hunting for deer in the vicinity. In the dim twilight, Osler mistook the form on the lake for the head of a buck and fired, striking Arcand in the hip, the bullet lodging in the kidney fat of the right side. From that time the latter was confined to his bed until the 6th of February, when the bullet, which was never probed for dropped out. The bullet is from a Snider Enfield cartridge and weighs a little over an ounce. It is flattened and furrowed where it struck the hip bone and a small piece of bone and cloth are still imbedded in it. The young man can now walk with difficulty with the aid of a stick, his right leg being paralyzed."

THE QUESTION SETTLED.—There's no use in arguing the question of the potency of some substances for especial service in emergencies. They will do all they promise, and more, if judiciously used. The following from Mr. P. Murphy, of No. 1 Fire Station, Ottawa, Canada, bears upon the point stated stated above. Mr. Murphy says:—I had occasion to use St. Jacobs Oil recently, and must say that it is the best Liniment I ever saw used. I caught cold from getting wet at a fire, and it settled in my shoulder and down my back to my hip. I suffered a great deal from the pain. I was advised to try St. Jacobs Oil. I did so, and after the fourth application I was entirely free from pain. I cannot speak too highly of it, and advise others to use it.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

MARY—Who had a little lamb
Had teeth as white as snow;
She always brushed them twice a day
With "TEABERRY" you know.

BABY CARRIAGES.

Parties who have been looking at our CARRIAGES, had better come in and secure the one they want, as the majority of those in stock last week are now sold.

will arrive next week.

This line of Carriages is the popular line, because of their Superior Looks, together with Reasonuble Prices.

A. L. DAVIS & CO.

Daily Evening Review

THURSDAY, MARCH 23, 1882.

THE WEST RIDING

THE meeting on Wednesday to elect the officers of the West Riding Liberal Conservative Association passed off in a very satisfactory manner. There was a good attendance of representative men from the different portions of the constituency, among them being gentlemen who formerly acted against us, but who have now been convinced who are the true friends of the country, and are, therefore, ready to support them.

Mr. Hilliard, our representative in the House of Commons, forcibly contrasted the policies of the two parties, and the very different results, as shown in the present prosperity of the country. He also clearly showed that it is Mr. Mowat, and not Sir John Macdonald, who is surrendering territory claimed by this Province; that it is Mr. Mowat, not Sir John, who is placing difficulties in the way of a valid settlement of our boundaries.

Other gentlemen, in moving and seconding resolutions, dwelt upon the benefits which have been derived from the present able administration, as manifested in the improvement of business and the prosperous condition of the country, their remarks being received with general and enthusiastic assent.

Excellent selections were made of officers of the Association and Vice-Presidents for the different townships. We have no doubt that an equally good choice will be made of Vice-Presidents and Committeemen for the different wards of the town at the meeting to be held in the market house on Friday evening.

We hope then to see a good attendance of those who are prepared to work for the good cause.

Sir John Macdonald has not yet taken us into his confidence as to the date of the general election, having seemingly as yet confided only in the *Globe*, but whether the election is to come this year or the next, we will do well to be efficiently organized, so as to ensure the due meed of support for an Admininistration which has done so much for the country.

CANADIAN PARLIAMENT.

MR. RYKERT resumed the debate on the budget and showed up the inconsistencies of many members of the opposition.

Mr. Paterson made a speech that was very different from his former utterances.

Mr. Thos. White contrasted the financial management of the two administrations in a very able speech.

Mr. Laudry spoke for, and Mr. Bechard against the budget.

Mr. Burpee spoke in a strain, which may be imagined, when he began with quoting a long ago exposed *Globe* forgery of words falsely attributed to Sir Charles Tupper. An attempt of Mr. Plumb to expose this mistatement was stoped by the opposition, who declined to hear him.

Mr. Macdonald, of King's, Mr. White, of Renfrew, Mr. Beaty, Mr. Doull and Mr. Gault supported the budget and Messrs. Killam, Fleming, King and Rymal opposed it.

BROWNLEY'S BLUSTER!

Additional Facts in Connection With the Vile Letter Case.—A Bold Challenge.

The *Advertiser* last evening published the following apology, with the view, no doubt, of condoning the grave offence against public morallity alleged to have been committed by an Ailsa Craig jeweller named Alexander Brownley, whose arrest and subsequent release has been referred to in these columns:—

"Last Saturday Mr. and Mrs. Alex. Brownley arriv. from Ailsa Craig and proceeded to where Annie resided with her London relatives. After an interview, which lasted a considerable length of time, Annie consented to return quietly and peaceably to her old home at Ailsa Craig. Mr. and Mrs. Brownley asserts more emphatically than ever that they are the victims of a base conspiracy, that the whole affair is a vile concoction, got up by certain enemies with a view of ruining their reputation. Further, it is widely rumored that the girl, Annie Howie, has consented to appear before the Ailsa Craig Reeve, Mr. Joseph Rosser, and make affidavit that Mr. Brownley never handed her, or left under her pillow, nor sent her in any shape, any of the vile letters he (Brownley) has been accused of writing and sending. Certainly the return of Annie to the residence of the Ailsa Craig jeweller places a different aspect on the whole state of affairs, and numbers in Ailsa Craig, as well as elsewhere, are beginning to look upon Mr. Brownley as a much injured man. Mrs. Brownley reposes the utmost confidence in the integrity of her husband, and he and she challenge the most rigorous and thorough investigation into the proceedings. There is a deep mystery somewhere that would be the better of being unravelled."

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

AN EMIGRANT'S EXPERIENCE.

Results of Four Years' Work—Advice to Intending Emigrants—Interesting Questions.

(*Montreal Witness, March 18.*)

Mr. W. J. Brown, of Boyne Settlement, Dufferin North, Manitoba, called at the *Witness* office on Friday and gave some particulars of his experience in that country. Mr. Brown, with his wife and ten children, left Plympton Township, Lambton County, Ontario, four years ago this spring. He took up a homestead and pre-emption, containing altogether 320 acres, and each of his three grown-up sons took up the same amount of land. They had to pay a hundred and sixty dollars each for the pre-emption claim, and ten dollars entrance fee for the homestead. The first year Mr. Brown broke up 28 acres, and each of his sons five acres. The ground was sown principally in wheat and oats, and the first crop, in the second year reached from twenty-five to thirty bushels of wheat, and fifty to fifty-five of oats per acre. Each of them has now a comfortable log house. In December last, Mr. Brown threshed twelve hundred and seventy bushels wheat, eleven hundred bushels oats, two hundred and sixty bushels barley, besides small quantities of peas and flax. His sons had proportionately good returns from the ground cultivated. For next season's crops Mr. Brown has a hundred and fifty acres prepared, and his sons, respectively, twenty-five, twenty and ten acres. All aimed at in the raising of vegetables so far is enough to supply their own tables. Mr. Brown would not advise intending emigrants, unless they have friends to stay within the new country, to go before the first of May, for the breaking up of winter in April makes matters very disagreeable and forbids work to the new comer. Like everybody else who ought to know, Mr. Brown says the winters are colder and clearer, but not much harder to bear than Ontario winters. He had never witnessed a thaw in winter all the time he was there. They have to go six to ten miles from Boyne for wood, which is got on Pembina Mountain and consists of oak, elm and popular. Pomeroy, two miles away, is the nearest town to Boyne, and it is a station on the South-Western Railway now being built. The farmers get improved machinery for their work as soon as possible, generally being possessed of selfbinding reapers after the third year. When he left, a Toronto firm had twenty orders for these machines from Boyne for next season. Mr. Brown thinks the districts bordering upon United States territory are losing settlers for want of a relaxation in the homestead conditions, such as would admit of a farmer selling his homestead to newly arrived immigrants, with due precautions against speculative land deals. He thinks it would be an advantage to the seller, in allowing him fresh privileges of selection, which his experience of the country will enable him to use profitably, and in providing him with means whereby his new estate may be as far advanced as the old one without the toilsome pioneering process; while the operation would be a great advantage to the new comer, who is able to pay for it, in saving him all the privations and a large part of the toil of the original pioneer. Mr. Brown also gave his opinion upon another matter that is well worth discussing. He is opposed to class and denominational colonies settling in solid masses, believing such to be planting through the vast new domains of Canada, narrow and exclusive communities whose existance will not be a real benefit to the social or ecclesiastical division to which they belong, while utterly opposed to that catholicity of spirit and toleration which it should be a leading aim of Canadians to cultivate in their young nation. The isolation or the Mennonites from all outside sympathy and co-operation in the advancement of the country's general intrests is a very good illustration, Mr. Brown thinks, of the evils of the system he deprecates. Mr. Brown was asked particularly whether he was satisfied with the results of moving from Ontario to Manitoba, and he said he was well satisfied and that he would advise farmers, with boys whome they wished to see settled upon farms of their own, to go to Manitoba.

"BILLY THE KID"

Particulars of Arrest of a Noted Criminal. Tracked Through Canada.

ST. PAUL, Minn., March 21.—Sheriff Houck and Detective Hale, of albany, N.Y., reached St. Paul to-day, and were met at the Union Depot by Detective Hay. The officers came after one of their charges, who had escaped from the custody of the Sheriff on January 7th, and who eluded the vigilance of the best detectives in the country until one week ago yesterday. While attempting to sneak the bank at Minneapolis he was captured by Thomas Wilson. Subsequently the story of the case is that the boy who was arrested gave the name of Frank Lewis, and told of his home in Winnipeg. He explained his presence in the bank by saying that he was there to find out about a contractor. He smashed the camera when an attempt was made to photograph him on Saturday evening. He was bailed out by Detective Hay and immediately re-arrested on a charge of being a fugitive from justice and none other than the noted bank robber, William Burke, better known as Billy the Kid. The Albany officers on their arrival were shown photographs and indentified the prisoner as the man they wanted. They immediately proceeded to the Governor's office to get a proper requisition to take the Kid to Albany. Billy has plenty of money and plenty of friends to use it for him when he gets into a scrape, and nothing that money can do is left undone. The friend from Winnipeg who visited him in gaol last week was his brother, a Chicago saloon-keeper. The other friends reached St. Paul yesterday and have been shadowing the officers and working hard. Accordingly it was no surprise to-day when the Minneapolis attorneys of Burke telegraphed down to the Governor that they desired to be heard. His Excellency thereupon informed the officers that he would await the arrival of the attorneys. Detective Hale, went to Minneapolis gaol and the prisoner was marched in. Detective Hale said besides being wanted at Albany for the bank robbery, Burke is wanted at Lockport, N. Y., for murdering an officer and detective. He says he is also wanted at Fargo, Dekota, for sneaking a bank for $700 a few weeks ago. Hale has been on Burke's trail through Canada and Michigan for several weeks.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

THE VITAL FORCES are speedily renewed by Mack's Magnetic Medicine, the great brain and nerve food, it is the best and cheapest medicine ever discovered. See advertisement in another column.

SAD SUICIDE IN MANITOBA.

A Keewatin Magistrate Ends His Life with a Razor—A Middlesex Man.

Referring to the paragraph which appeared in these columns a few days ago, the Winnipeg *Free Press* of the 16th says:—Parties who arrived by train last evening from Rat Portage brought in the intelligence of the death by suicide of S. Huston, J. P., well known to many residents of Winnipeg. It will be remembered that the deceased worked for some time for Joseph Whitehead, on section 15 of the C. P. R., but was shortly afterwards appointed by Manning, Macdonald & Co. to the position of Superintendent of construction on the east half of section B, with headquarters at Eagle Lake. In addition to occupying this position he was also clothed about six months ago with the powers of a magistrate, to preserve peace on the works in the locality, over which he presided in another capacity. He was highly respected, and the act which has so suddenly ended his career on earth has been a source of surprise to all who knew him. He had come in from Eagle Lake to Rat Portage, and through some unknown cause took a razor, just after tea on Saturday evening, the 11th inst., and cut his throat, from the effects of which he shortly after died.

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & CO., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN.

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved vond a doubt that "**Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & CO., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

☞ Sold by all druggists.

Lyman Sons & Co., Montreal, P. Q., Wholesale Agents. 1d 1w1y

FARM AND GARDEN.

SEEDING TO CLOVER.—Our best success has been in scattering the seed over growing wheat, on a cool morning early in April, when an inch depth of frost opens the grounds in cracks into which the seed falls and is lightly covered by the thawing earth. Both this and the wheat, but especially the clover, are usually benefitted by a broadcast sowing of ground plaster in May. So marked is this sometimes, that one can write his name in large letters with plaster sowing, and the letters will be distinctly visible in the more luxurious green, when the clover plants, at first protected from the sun by the wheat plants, have a chance for full growth, after the wheat is cut. The experience of many who raise much clover is, that a good catch is most certain, if the seed is not sown until the soil is warm and mellow. The clover starts into growth at once and strong plants are soon obtained. The chief danger of delay is that the still feebly rooted plants may be caught by dry, hot weather and killed. While plaster is a good top-dressing for clover on most soils, if one's own experience or that of his near neighbors does not indicate this, other light top-dressings may be useful—some soluble fertilizer, as superphosphate or muriate of potash. Clover responds to any attentions of this kind, and makes a good return in the mass of foliage and rich material it gathers from the soil and air—material that, when plowed in, richly prepares the soil for other crops.

KEEP IN REPAIR.—Machinery of all kinds used upon the farm should be inspected and all repairs made before the time for spring work begins. An hour spent in mending in March saves a more valuable hour in the busy months that follow.

SEED.—The first thing to do, and the very first, if not already attended to, is to secure all the seed wanted or likely to be wanted, before midsummer, for the field, for the garden, or for the flower bed. The plowing, and the harrowing, and the cultivating will be labor lost if there is not enough good seed. If on the average only three vigorous stalks of any crop grow well where four might grow, that is a loss of 25 per cent, as other work and expenses are the same for a full crop as for a 75 per cent one; and this lost 25 per cent is where the real profit comes in, because 50 to 75 per cent of almost all crops is eaten up by the expenses. If one seed out of four is not healthful enough to send up the most vigorous plant, it helps the 25 per cent loss.—If one has all needed seed, let it be immediately tested. If any seed is to be bought, order it now, not only to test it in time, as there is much poor seed this year, but especially because seed dealers will soon all be overcrowded with orders, and many will run out of the best quality of perhaps just the seed one may want.

BEETS FOR THE GARDEN.—Those who only know the long late "Blood Beet," have yet to learn the difference in beets. As soon as any part of the garden can be worked, a sowing of early beets should be made. Select a light soil if possible, and manure it well; make the rows a foot apart, sow the seed thickly, at least two inches deep, and press down the soil firmly with a light roller, or pat it down with the hoe. The earliest varieties are the "Egyptian," and "Blood Turnip." The "Bassano" is not quite so early, or so fine grained, though good. The thick sowing is advised in order to have plenty of young beets at thinning; when two or three inches high, thin to 4 to 6 inches in the row, saving those that are pulled out to be used as greens." Many prefer them even to spinach. It is well to sow seed for a succession, once in two weeks up to July. The "Blood Turnip" is so much superior to any of the large beets, that we prefer it for winter use. For this purpose the seed should not be sown before the middle of June, else they will grow stringy.

GREENS.—In spring nearly every one likes what our forefathers called "pot herbs," and are classed by us as greens. A large number of wild plants, from Dandelion to Nettles and Pokeweed, are made to do service in different parts of the country. While several wild plants are very acceptable, none equal Spinach, and some others. The time expended in gathering these scattered plants, if devoted to sowing a few rows of spinach, would give more satisfaction, and the greens be at hand when wanted.

FEEDING PLANTS AT THE SURFACE.—If winter grain, meadows, pastures or lawns need artificial food, or stimulants, we must resort to top-dressing, since we can not now disturb the soil. Well-rotted yard-manure scattered finely over growing grain and grass, uniformly, or more on poorer portions and less on vigorons portions, so as to even off the field, will always tell well, especially if this be done in time for the rains to wash the manure into the soil. It may be done at any time while the grass or grain plants are small, but the earlier the better, so as to receive more washing in showers. The same of unleached ashes. The amount of manure per acre, will depend upon the wants of the soil, and the available supply of fertilizers. Of ashes, use 20 to 40 bushels per acre, as needed. Application of any top-dressing on any but the richest soil, will generally bring back far more than the cost the first season, and contribute much to the future fertility of the soil.

CROPS SUFFER FROM WET FEET.—Next to lack of nourishment (plant food), in the soil, both grain and grass, and other cultivated crops in field and garden, trees and flowers included, all suffer from standing in soils that hold too much water. Spade a whole a foot deep, and if it contains water four days after a rainfall, plants in that soil will suffer more or less from wet feet. Water standing in the soil keeps it cold and clammy; it prevents the entrance of air to act upon the elements contained, and fit them for plant food; it often keeps iron salts in a poisonous form. Let all dead furrows and their outlets be carefully cleaned now with spade or hoe. An hour's work of this kind may add twenty to forty bushels or more to the yield of a field. If any soil, in a whole field, or in any part of it, is wet from holding its own catch of rain, or from water flowing or soaking from a higher to lower levels, and it is not underdrained, it is best to run deep double or triple plowed furrows through it, down the grade, to carry off excess of water in rainy weeks, and then at harvest run the mowers and reapers parallel with these open ditches.—*American Agiculturalist.*

Drowning Accident.

DETRIOT, March 21.—A sad drowning accident occurred on Sunday afternoon on the river near the American shore. A party of young men started for Sandwich on a pleasure trip. Ternes and Vogel owned one of the boats, the Dramatic, in which the party went; the second boat was a hired one. The river was crossed without anything happening, and some time was spent in Sandwich. Lingemann, Debold, and Weitzel left about an hour before the others, reaching this side about five o'clock. Vogel, Ternes, Stemmetz, and Diederich started from Sandwich about six o'clock. Ternes and Vogel had charge of the oars, which were uneven. When about two-thirds across the river Ternes caught a crab. He had the longer oar, and while pulling remarked to Vogel, "Let us spurt up." Vogel did as he was asked, and Ternes oar got caught, striking him in the breast, and the handle fastening itself in his pocket, he was knocked over in his seat, and simultaneously the boat capsized, throwing the occupants into the water. Ternes and Diederich were drowned. The former's body has not been recovered

MME. CARLA SERENA, the noted traveller, is a small, delicate woman, with dark hair and brilliant black eyes. Her figure is erect, and her step is quick and light. She speaks several languages, and lectures eloquently upon subjects suggested by her journeys in the East.

ZOPESA.
(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample or a large bottle for 75 cents, and tell your neighbor about it.

LAKEFIELD NEWS.

From Our Own Correspondent.

CARNIVAL.

The carnival held in the Lakefield Skating and Curling Rink on the 17th inst. was a decided success when we consider the bad roads and the disappointment occasioned by not being able to secure the Peterborough Fire Brigade Band. The committee communicated with the band with a view of securing their services, but owing to a previous engagement they were unable to come. The ice was in splendid condition and and all present appeared to enjoy the evening's amusement very much. The skating and the general get up of the dresses of the characters were much superior to those of the carnival given here some time since. The provision made by the proprietors and managers of the rink for the convenience and comfort of the visitors was all that could be desired. Below is a list of those in character who gave their names at the door:—

LADIES.

Miss A. Coates	National Policy
" L. Grylls	Swiss Flower Girl

G. Chapin	Starry Night

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

WHEN quackery and ignorance go hand-in-hand—and they are seldom dissociated—their capability for mischief is unlimited. A negro at Norfolk, Va., undertook the other day to vaccinate his too confiding brethren with small-pox virus, with the natural result of establishing a lively epidemic of the disease he had sought to combat. Quacks are not without their uses; they create work for good men and true. *Ex uno disce omnes.*

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

CONSUMPTION CURED.—From Andrew Archer, of Fairfield, Me.—"Seeing numerous certificates in the *Maine Farmer*, endorsing the Great Lung Remedy, Wistar's Balsam of Wild Cherry, I take great pleasure in giving publicity to the great cure it accomplished in my family in the year 1856. During the summer of that year my son, Henry A. Archer, now postmaster of this place, was attacked with spitting of blood, cough, weakness of lungs, and general debility, so much so that our family physician declared him to have a 'seated consumption.' He was under medical treatment for a number of months, but received no benefit. At length, from the solicitation of himself and others, I was induced to purchase one bottle of Wistar's Balsam of Wild Cherry, which benefitted him so much I obtained another, which in a short time restored him to his usual state of health. I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—The great lung remedy for the times! The above statement, gentleman, is my voluntary offering to you in favor of your Balsam, and it is at your disposal." 50 cents and $1 a bottle. Sold by dealers generally.

The Best Field
FOR
EMIGRANTS.

An IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

For pamphlet and maps, descriptive of country, its resources, climate, route of travel, rates and full information, address

A. L. STOKES,
Gen'l Eastern Pass'r Agent,
52 Clarke St., Chicago, Ill

FRAZER
AXLE GREASE!

Best in the world. Get the genuine. Every package has our trade-mark and is marked Frazer's. SOLD EVERYWHERE.

YOUNG MEN If you want to learn Telegraphy in a few months, and be certain of a situation, address VALENTINE BROS., Janesville, Wis.

Newspaper Advertising Bureau, 10 Spruce Street, N. Y. lmd65 w12

PATENTS!

We continue to act as Solicitors for Patents, Caveats, Trade Marks, Copyrights, etc., for the United States, Canada, Cuba, England, France, Germany, etc. We have had **thirty-five years experience.**

Patents obtained through us are noticed in the SCIENTIFIC AMERICAN. This large and splendid illustrated weekly paper, $3.20 a year, shows the progress of Science, is very interesting, and has an enormous circulation. Address MUNN & CO., Patent Solicitors, Publishers of SCIENTIFIC AMERICAN, 37 Park Row, New York. Hand Book about Patents sent free. 1dw&t

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

W. JOHNSTON & CO., Manufacturers,
AMHERSTBURG, ONT.

For Sale by Ormond & Walsh, Peterboro

ALL IN!

The shipment of **Dress Goods** just opened out completes our stock for this season's trade, and is without exception, the finest we have ever shown, varying in price from 8 cents to $1.00 a yard in colored goods. At the popular price of 25 cents a yard, we are showing six different ranges of the newest goods and splendid values.

In coloured Cashmeres we are showing two shades of all the leading colours.

The new and popular **Nun's Veiling** in Cream, Sky, Navy, Sage, Tawn and Black, very rich. All wool.

Cashmeres Beiges, all wool, ½ yard wide, just the thing for those who appreciate a first-class article.

Cashmere Beiges ⅞ wide, all wool, in Greys and Tweed effects.

Nun's Beiges, all wool, in Greys and drabs, very neat.

Fancy Dress Goods in great variety including Sateens, Cords, Brillantines, Buntings, Towels, Serges, Etc., Etc.

SPECIAL.

ALL WOOL **15c** DRESS GOODS

A BARGAIN.

Selling Fast! See Them!

MUNRO & ALEXANDER.

Daily Evening Review

THURSDAY, MARCH 23, 1882.

LOCAL AND MUNICIPAL.

Railway Notes.

The Belleville *Intelligencer* says that the surveying party engaged in locating the line of the Trent Valley Railway have reached Chisholm's Rapids.

The Tweed correspondent of the Belleville *Intelligencer* says that the survey of the Ontario and Quebec R. R., is now completed as far west as Peterborough. The men have returned to Tweed, and are on their way to Scouten's, at the Perry Road, where they left off locating. They will commence the work of locating again running west from that point until they meet the gang locating from Peterborough, which they think will take six weeks or thereabouts. The work of construction has already began in the vicinity of Perth. The surveying party are a fine lot of men and very intelligent.

Personal.

On Wednesday, the 22nd instant, the Rev. Vincent Clementi was inducted as Rector of St. Paul's, Lindsay, by the Venerable Archdeacon Wilson, who acted as the Commissary of the Lord Bishop of Toronto. After the induction morning prayer was said by the Rector and the Rev. G. J. Taylor, of Toronto, and the ante-Communion service by the Archdeacon, who also preached an excellent, practical sermon, founded on St. John, viii, 51. The Holy Communion was celebrated by the Archdeacon, assisted by the Rector. The special service, adopted by the Synod, was used throughout.

The Weather.

The sky to-day is bright and clear, but this pleasant state of the weather is not likely to continue long. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes—Strong winds and gales from the south and west, fair to cloudy milder weather, light snow or rain in some localities to-night, followed towards morning and to-morrow by high winds and gales from north-east and north, colder weather.

Capt. Cheyne Again.

We learn that it is probable that Capt. Cheyne, the arctic explorer, who now is in this part of the country, may be induced to pay us another visit. If so he would lecture on the the subject of "Sir John Franklin," and as his large lanterns have now been repaired, his fine views would be adequately shown, which could not be done on the previous occasion.

Midland Railway of Canada.

The Traffic of the above Railway for the week ending March, 18th, 1882, was as follows:—Passengers and Mails, $5908.33; Freight, $10396.94; Total, $16302.27 as compared with $11015.66 for the corresponding week of 1881, being an increase of $5289.61; and the aggregate traffic to date is $151343.81, being an increase of $56228.91 over 1881.

The Latest Gag.

When one of the boys asks another out to drink he does not use the hackneyed phrase, "come an' have somefin." He merely remarks "I'm agoin out to sign a mortgage, will you witness the affidavit?"

Farewell Supper.

The supper given on Wednesday night at Centreville to Mr. Crossley was a grand success in every respect. We are obliged to hold over an extended notice.

Lager.

A fresh supply of O'Keefe's Lager has been received, and will be kept constantly on hand at W. H. Chamberlain's Restaurant, next door to Bradburn's Opera House.

T. V. C.

Mr. T.D. Belcher, has returned from Ottawa, where he has been for the last few days on business connected with the Trent Valley Canal.

O'Keefs Celebrated Imperial Lager.

The Caisse House is where you can get is right, try it. 6d70

NORTH-WEST COLONIZATION.

Rev. Mr. Stobo's Scheme For the Colonization of Baptists and Others in our North-West.

We have been requested to publish the following letter:—

DEAR SIR,—Our people for years past, in growing numbers, have been leaving these Provinces to settle in Minnesota and Dakota, impressed with the idea that it is much easier to settle in the States than it is in our own North-west Territories, and thus they are lost to Canada and to us. A very large number of our good Baptist people go to Dakota this spring. To prevent so great an exodus, and to induce our people and others to settle in our own North-west, God has laid it on my heart to settle at least six Townships, on the following plan:—

Settlement on Government terms, homestead and pre-emption; entrance fee, $26, which covers the cost of survey, at five cents per acre, entry deed, and the right to pre-empt 100 acres. Three-fourths of the rebate granted to me by the Government will be handed over by me to settlers to provide houses of worship and Gospel ordinances. The other fourth will be retained by me to cover the expenses of management. Each Township, if duly settled on Government terms and the Government conditions fulfilled, will receive at least $7,000 to provide houses of worship and to pay pastors. Each Company of thirty-two settlers, (*who pre-empt,*) elect trustees to locate chapels, hold deeds of the same and to receive the Government rebate from me, as manager of the Company. The three-fourths is not in any sense to be regarded as *State aid* to religion, but as my gift to the settlers, if they work with me to make the plan a success. The settlers who pre-empt constitute the Company, the trustees elected by them the Directorate. All profits from town-sites and from the increase of values of unoccupied lands, will be divided two-thirds to those who homestead and pre-empt, and only one-third to homesteaders, less what interest we may have to pay on borrowed capital. You will see, sir, that this is a square bargain, by which I desire to serve our country and the Baptist denomination. What I retain of the rebate is to cover all expenses of working the scheme, namely,—correspondence, printing, advertising, office assistance and rent, travelling charges in this country and Great Britain, and the rent of halls for lectures on the North-West and the advantages which it offers to tenant farmers.

After what has been said about the "Temperance Colonization Scheme," I am thus explicit as to my plan, so that I may avoid if possible, unhealthy criticism. I am a Scotchman by birth, but I love the land of my adoption, and I am prepared for my country's sake to make the venture (putting trust in God) to carry out what my circular proposes.

ADVANTAGES OF MY PLAN OVER THE HAP-HAZARD METHOD OF SETTLING:

1st—It will prevent our people from changing their nationality for a bit of bread, and retain in the country an excellent class of citizens.

2nd—It will bring together a sufficient number of Baptists at once to sustain the ordinances of the Gospel—thus preventing a great deal of discomfort to them and probable loss to the denomination.

3rd—It will provide for a meeting house and afford aid to a pastor during the time the settler is most hardly pressed—the first two years.

4th—It will afford congenial society to our own people, a great consideration in settling a new country, and at the very outset it will provide a school for their children.

5th—It will create a good town at the very outset, thus giving the settlers the advantage thereof and save them the toil, danger and expense of long journeys to market or store.

6th—It will provide employment to mechanics and others who may be only able to homestead, and it will also enable poor settlers to combine to purchase oxen and farm implements for common use during the first years of settlement.

7th—It will cause a speedy rise in real estate values for the benefit of the settlers themselves, while it allows five years instead of three for the payment of the pre-emption money, and this by instalments instead of in a lump sum.

8th—It will lessen the cost of travel, conveyance of baggage, stock, implements, and seed grain, and provide at a cheaper rate the common necessaries of life, while the difference in cost over the usual hap-hazard method of settlement is the paltry sum of five cents an acre for survey. Already one township is nearly spoken for. The scheme is not yet a week before the public.

Application has been made to the Minister of the Interior for six townships of the best farming land, with timber at hand, sufficient for settlement purposes—the location either the Qu'Appelle or Souris River country, the supposed Garden of the North-West. To ensure home comforts we have:—

Robt. Dow, Esq., Pembroke, Ont., flour and and custom miller; Fred Beyer, Esq., Carleton Place, iron founder and machinist; D. Cameron, Kincardine, general merchant; E. J. Stobo, jr., hardware merchant; W. A. King, Esq., Peterborough, druggist; W. J. Shaw, Esq., Orangeville, real estate and conveyancer; Jas. Cox, Esq., Brantford, watch-maker and jeweler, Geo. Jeffery, builder and contractor, London, all of whom take up among them 5,000 acres for actual settlement. Then we have three ordained ministers of character and ability, who homestead and pre-empt, and with the foregoing list comes a host of tillers of the soil. We intend to take possession of our allotment, making the acknowledgment that the God of revealed religion is the Lord over men. I have been desired to give the following information:

"A settler may begin on a comparatively small capital, that is, enough to build one of the inexpensive houses of the country, to buy a yoke of oxen and a plough, his seed-grain and provisions sufficient to enable him to live till he reaps his first crop.

One yoke of oxen, cost say	$120
One waggon, cost	80
Plough and harrow, cost	25
Chains, axes, shovels, etc., cost	30
Stoves, bedsteads, etc., cost	60
House and stable, cost	150
Provisions, cost	135
In all cost	600

The mode of sowing grain is to scatter the seeds on the grass and then turn a thin sod over them. The grain thus sown quickly finds its way through, and in a few weeks the sod is perfectly rotten. Potatoes may be planted as late as the 20th of June. The method of planting is to turn over a furrow, put the potatoes on the ground and turn over another furrow to cover them, the face of the grass being placed directly on the seed, no hoeing or further cultivation is required, except it may be to kill a few weeds. Oxen are best suited to the wants of the country.

I am,
Yours in the Gospel,
E. J. STOBO.

P.S. Correspondents will please enclose a three cent. postage stamp to ensure a reply.

Water-Works Bill.

The following clauses in the new act for the construction of waterworks by cities, towns, and villages, applies to our own case, and will be of interest to our readers:—

47. In case there are in any city, town, or incorporated village, water-works under the control of any person or company, the municipal council, upon the petition of at least two-thirds of the freeholders and householders resident in any street, square, alley or lane, or part of a street, square, alley or lane, representing in value one-half of the assessed property therein, may pass by-laws for raising such sums as may be necessary for renting, or erecting and renting, hydrants to be used for the protection of such property, and whatever may be thereon, from fire, and for the use of the owners and their tenants for such other purposes as may be desired, or agreed upon, by means of a special rate on the said real property, according to the assessed value thereof;

(2) If only part of the street, square, alley or lane, is to be included in the assessment the council may exclude from the assessment, property the owners whereof object to being assessed, if such property is situated at a greater distance from the hydrant nearest thereto, than is the property of every person signing the petition, and the council considers it unfair that such property should be assessed;

(3) If hydrants erected under this section are used for the general purposes of the municipality the corporation shall contribute for such use a fair amount out of the general funds, in relief of the said special rate, or make some other equitable allowance to the persons liable to such rate, in lieu of such contribution.

48. This Act shall be deemed to be incorporated with, and shall be constructed as part of the Muncipal Acts now, and from time to time, in force.

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

On Thirty Days' Trial.

IS ALL DONE BY MYSELF, CONSEQUENTLY MY PATRONS CAN RELY ON GETTING GOOD WORK. I HAVE NO BOYS AROUND ME TO PRACTICE ON OR TO BUTCHER CUSTOMERS' WATCHES.

Don't Forget the Place.—Cluxton's New Block, opposite McKee & Davidson's, George Street.

R. W. MUNCASTER.

N. H. DOWNS' ELIXIR

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry—then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort witam 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

A POSITIVE CURE

Without Medicines.

ALLAN'S SOLUBLE MEDICATED BOUGIES, Patented October 16, 1876. On Box

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

FRIDAY, MARCH 24, 2882.

OTTAWA.

Special to the Review, March 24.

THE HOUSE was startled last night by an alarm that the Western block was on fire. Sir John Macdonald promptly suggested that the House adjourn during pleasure and the alarm. A number of members rushed out to see the fire. It was a very small affair in the messenger's room of the Custom Department, and appears to have been caused by a lighted pipe having been left in the pocket of an office coat hanging near the window. Only a portion of the woodwork of the window was burnt, the staff in the building promptly extinguishing the flames. Superintendent O'Neil was left in charge of the building, and Sir Hector Langevin ordered that an investigation should be held to-morrow.

Worthy of Attention.

The following from the Lindsay *Post* is well worthy of attention from the directors of the local Institute:—

"Some time ago the directors of the Mechanics' Institute in Lindsay determined at the suggestion of Mr. C. E. L. Porteous to purchase a number of plaster casts, models, designs and other helps to the study of perspective and free hand brawing. Mr. Porteous personally made search but could not procure what was wanted. However, having heard that there was a collection, the property of the education department at Toronto, Mr. Porteous at once applied to Hon. S. C. Wood to endeavor to obtain the assent of the officials to their being loaned for a time. Mr. Wood at once complied and word has been received by Mr. Porteous that a sufficient number will at once be sent to the institute here, to be returned when done with, when others will be sent."

The Weather.

"Probs" yesterday hit the nail on the head exactly. During the entire night a regular gale raged, and for a time a mixture of rain and snow fell. To-day is very cold, with the wind still blowing hard. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes—Fresh to strong northerly winds. Fair, cold weather, with flurries of snow in some localities. Stationary or lower temperature.

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

MIDNIGHT TELEGRAMS

CABLE.

MOODY AND SANKEY.

LONDON, March 23.—A paper signed by 300 persons, including Earls Shaftesbury, Cairns, and Aberdeen, Canons Farrar and Fleming, Mr. Spurgeon, and 273 clergymen, has been forwarded to Messrs. Moody and Sankey, asking them to spend a year in London in evangelical work.

AN EDITOR'S ASSAILANT.

PARIS, March 23.—The hearing of the notorious case of Lesueur, who assaulted M. Perivier, of the *Figaro* drew a large number of people to the Paris police court to-day. No new facts were elicited, but those already published were sufficiently strange and sensational to account for the public curiosity. After a sarcastic address of Maitre Lamaud, in which the peculiar foulness of the assault on Perivier was denounced in strong terms, Lesueur was sentenced to six months' imprisonment.

THE MARRIAGE LAW.

MADRID, March 23.—In the new law on marriage read in the Cortes civil and religious unions are to produce the same legal effects, but only from the moment they are duly inscribed on the civil register. All demands for nullity of marriage or for divorce can only be made before the ordinary civil tribunals, thus abolishing the jurisdiction of the ecclesiastical tribunal and the Roman See. Breach of promise after the legal betrothal will give a right to damages to cover all the expences incurred in the suit. Marriages duly contracted abroad will be held valid in Spain. The Catholic members and bishops announce a formidable opposition to this law.

SLAVERY IN CUBA.

MADRID, March 23.—The Abolitionist Society held its annual banquet yesterday. All the speeches were very enthusiastic in favour of the abolition of the corporal punishment of negroes, and of the institution of slavery. A feature of the banquet was the speeches of a Cuban mulatto and a North American negro. Both were highly educated men.

THE TELEPHONE IN SPIAN.

MADRID, March 23.—Telephones are about to be established in Madrid, with the sanction of the Cortes, and the principal towns in Spain, for the use of the public as well as the Government authorities. An American company has made offers for the privilege in Madrid.

MINISTERIAL CRISIS.

VIENNA, March 23.—M. Economoff, President of the Council of State of Bulgaria, has tendered his resignation, which has not been accepted. The other six members of the Council are believed to be ready to resign if the President leaves office.

UP IN A BALOON.

LONDON, March 23.—Col. Burnaby, author of "My Ride to Khiva," left Dover alone in a balloon at ten this morning in an endeavour to reach France. If he passes over Boulogne, as he hopes to, he will continue in the air until near Paris. Col Burnaby landed five miles south of Boulogne.

PRINCE LEOPOLD'S MARRIAGE.

LONDON, March 23,—In the House of Commons this afternoon the message from the Queen regarding the marriage grant to Prince Leopold came up for consideration, and during the discussion that ensued Mr. Gladstone moved to make the grant £10,000 annually, in addition to the Prince's present annuity of £15,000, and to empower the Queen to provide for the Princess Helen, Prince Leopold's betrothed, an annuity of £6,000 in the event of the death of the Prince. Mr. Storey (Radical) objected to spending the public money in support of titled idleness. Messrs. Labouchere, Broadhurst, and Healy (advanced Liberals) opposed the grant. The motion passed by 387 to 42.

AMERICAN.

A NEW ALLIANCE.

PARIS, March, 23.—It is announced that Don Philippe de Bourbon, second son of Count d'Aquila, is about to marry Miss Mackay, the American heiress.

FATAL BOILER EXPLOSION.

PHILADELPHIA, March 23.—The boiler of the boat Henry C. Pratt exploded this morning. George Scully, the captain, was blown over some house tops, and was taken to the hospital, where he died. The dead bodies of Bernard McCann and Patrick Flannigan, a fireman, and a man named Maloney were recovered. John Lyons, engineer, is missing, and supposed drowned. Two other men are also reported missing. The tug was about to take out a canal boat at the foot of Walnut street, of which Maloney was captain. The boiler was thrown across Delaware avenue, knocking the out of a building. The boiler and wheel-house fell in front of the same building. Had the explosion occurred a few hours later, when front avenue was crowded, the result would have been appalling. After the explosion flames broke out in all directions. Pier No. 8, occupied as a passenger and freight station of the Philadelphia and Atlantic railroad, was destroyed. The tug Ella also took fire and sank after being well burned. Windows were shattered in all directions for squares distant. The Pratt's anchor flew through the air to Walter and Walnut streets, where it became entangled, and remained hanging among the telegraph wires. The watchman jumped from the ferry house, as the latter was falling. The tugs Ella and Pratt are valued at $15,000 each.

LATER.—It now appears that Lyons, the engineer of the Pratt, is not accounted for. The only survivor of the tug is a cat. A laborer named Morrison is still missing. The railway company's loss is $10,000. The buildings in the neighborhood of the explosion are damaged to the extent of several thousand dollars. The Pratt's boiler was old, and worn in some places to 3-16 of an inch in thickness.

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

MARY—Who had a little lamb
Had teeth as white as snow;
She always brushed them twice a day
With "TEABERRY" you know.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

DEATH OF A CARLIST LEADER.

MADRID, March 24.—Don Antonio Darremarrey, formerly Commander-in-Chief of the Carlist Army is dead, aged 66 years.

DOWN ALL RIGHT.

LONDON, March 24.—Burnaby who left Dover yesterday in a balloon finally descended this morning at Chateau De Montigny in Normandy.

AMERICAN.

LONGFELLOW DYING.

BOSTON, March 24.—Henry W. Longfellow at four o'clock this morning was dying. His death is momentarily expected. He was ailing for some time yesterday and sank very rapidly, and at midnight all hopes of his recovery were abandoned.

LATEST. Information from Cambridge states that Longfellow is barely alive. His family have been summoned and are with him.

WRECKED.

STOREYS POINT, L. I., March 24.—The sloop, Despatca, foundered a mile from here, on Wednesday, in a blinding snow storm. Capt. Spring and Wm. Holmes, were drowned. Wm. Gardener, was saved after clinging to the mast head for several hours, which remained near the surface of the water.

MINISTER TO CHINA.

WASHINGTON, March 24.—There is a good deal of speculation as to whether the President will dispose of the Chinese Bill. Grant is specially informed with regard to the Chinese, towards whom he entertains feelings only of kindness. It is not believed, in view of their personal relations, that that the President would have consulted Grant's wishes with regard to the appointment of Minister to China, had he intended to take such action as would naturally make that position one of discomfort.

PRETTY STEEP.

PROVIDENCE, R.I., March 24.—Erastus Cook's forgeries are estimated as high as $100,000.

SETTLED AT LAST.

WASHINGTON, March 24.—There is apparently no longer any doubt that Teller will be nominated for Secretary of the Interior.

OF AN ULTRA SHADE.

WASHINGTON, March 24.—John H. Smith, who has been nominated as Minister to Liberia, is a young lawyer, and is said to be the blackest man in the world.

A SOMNAMBULIST'S END.

STANTONSBURG, N. C., March 24.—Emma Braes, aged 22, while walking in her sleep the other night, fell into a creek 400 yards from her house, and was drowned.

THE CHINESE BILL.

NEW YORK, March 24.—The *Herald's* Washington correspondent is of the impression that the President will veto the Chinese Bill on the ground that suspension of immigration for twenty years violate the treaty, and he will ask Congress to reconsider the terms of suspension, and bring it within the bound of the treaty. It is believed the veto will approve of the general object of the bill, but will object to the twenty years' clause. If such was done it would bring about the passage of a bill, providing either for five or twenty years' suspension of the immigration term. Five years would probably secure the votes of many who voted against it as it stands, and would not lose the votes which supported it before.

THE CIVIL SERVICE.

WASHINGTON, March 24.—The House Committee on Civil Service Reform is in favour of the appointment of a non-party Board of Examiners to pass upon the fitness of all who apply for the various classes of work which belongs to the pension office.

DROWNED.

WILMINGTON, Del., March 24.—John Emmis and James Holliday left the schooner Jeanie in a boat to come here. The boat with the body of Emmis was found in a marsh. It is supposed that Holiday was also drowned, although foul play is suspected.

A BIG DEFICIENCY.

NEW YORK, March 24.—The deficiency of the Wabash, St. Louis and Pacific Railway for the years 1880 and 1881 is officially stated at $1,453,000.

A LIBEL SUIT.

BOSTON, March 24.—The libel suit of Ex-collector Simmons against the publishers of the *Sunday Mail*, which attracts great attention opened yesterday. It is alleged that the paper contained libellous articles though Simmons name was not mentioned directly, stating that Simmons was accesary to Mrs. Howe's woman's Bank swindle.

FREE CANALS.

NEW YORK, March 24.—The *Herald's* Albany special says there seems to be no doubt that the free canal resolutions will secure no less a decisive majority in the Senate than in Congress.

STORM RAGING.

PORTSMOUTH, N. H. March 24.—13 vessels were driven into the lower harbour since last night on account of the weather.

EXPIATED THEIR CRIME.

HARRISBURG, Pa., Masch 24.—Frank and Henry Rumberger were hanged to-day, for the murder of David Troutman, aged 68 near Morristown in 1880. The Rumbergers entered Troutman's house at night for the purpose of burglary.

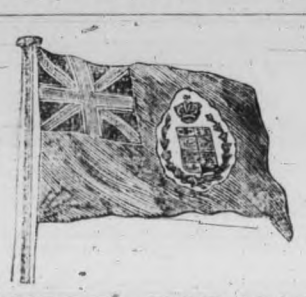
A Belleville Merchant's Crime.

BELLVILLE, March 22.—R. Jacobs was tried at the Police Court this morning for committing an indecent assault on a young girl named Annie Mills, who had been employed as a saleswoman in his shop. The girl herself was placed in the witness-box and testified that Jacob had on the occassion specified, as well as on other occasions previously, accomplished his purpose, partly by force and partly by means of threats of exposure. The prisoner was remanded until Friday. The girl is sixteen years of age, but is apparently weak, both physically and mentally.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d57w9

BABY CARRIAGES.



Parties who have been looking at our CARRIAGES, had better come in and secure the one they want, as the majority of those in stock last week are now sold.

Our Second Large Lot

will arrive next week.

This line of Carriages is the popular line, because of their Superior Looks, together with Reasonuble Prices.

At 7.30 p. m., to appoint Vice-Presidents and Committees for the several Polling Divisions of the town.

GEO. W. HATTON, Secretary. H. H. SMITH, President.

Peterborough, March 21, 1882. 2d70

Daily Evening Review

FRIDAY, MARCH 24, 1882.

UNFOUNDED ABUSE.

UTTERLY unable to find grounds for fair criticism of the present administration, the more unscrupulous portion of the Reform press, their local organ of course among the rest, deal chiefly in abuse, slander and misrepresentation.

They still continue to vilify Sir Charles Tupper in connection with the contract for the construction of the section of the Canadian Pacific Railway between Emory's Bar and Port Moody. They persist in these mendacious charges, although they cannot get any responsible member of Opposition to bring them before parliament, where they would at once be refuted. The slander is too base for the most unscrupulous member of the party to further it.

There are two points to be considered in relation to this contract, though the slanderers endeavour to confuse them together, and in regard to both their assertions are equally false.

The first question is whether the contract was properly awarded, and the second is whether its being given to the successful tenderers causes any money loss to the country.

As to the first point Mr. Mackenzie is himself responsible for the very salutary rule that the tenders should be in all cases accompanied by the deposit of a bank cheque marked good. This condition was not complied with by Messrs. McDonald and Charlebois, who deposited a cheque marked good on January 24th for two days only." Thus at the time for opening the tenders on February 1st they had no valid deposit, as is admitted by the bankers, for they afterwards wished to charge their endorsements, which seems to have been made by them in error. This may be very unfortunate for Messrs. McDonald and Charlebois, but it is obvious that such a rule, to be of the least use, must be maintained scrupulously. To allow "errors" to be corrected by a tenderer after he finds his offer is the lowest, would be to open the door to the gravest abuses. Neither the engineer-in-chief, nor the minister, nor the cabinet, had any choice in the matter.

The other question is whether the country has lost money by the necessity of passing over the tender of McDonald & Charlebois. We have no hesitation in saying that even if the tender had been regular it would not have been prudent to accept it. It is, in fact, the rule, rather than the exception, that the lowest tender is not always accepted, and there were numerous instances of this when Mr. Mackenzie was at the head of the Department and of the Government. In this case we find that this irregular tender was $283,000 less than the estimate of the engineer-in-chief. This, in itself, is a grave objection; it is usually found when contracts are taken for less than the carefully prepared estimates of the Department, that the contractor fails to carry out the work, and the country is put to a much greater expense for its completion. The tender of A. Onderdonk is only $74,000 less than the official estimate—a difference which is fully accounted for by the fact that he has his plant and rolling stock near at hand, and the employment of a large amount of these, the engineer-in-chief tells us, would be necessitated. But there is another fatal objection to the tender of McDonald & Charlebois. Whether inadvertently or with ulterior objects, the detailed schedule of prices is extremely high in most of the important items—so high, indeed, as in some instances to be three or four times as great as those of the next tender. As payments are to be made on monthly "progress certificates," it might easily happen that the whole sum would be drawn long before the work was completed, and then that the Government would be saddled with the unfinished job—a thing that has happened before now, at great cost to the country, under similar circumstances.

It will thus be seen that the tender of McDonald & Charlebois was fatally irregular, and that even if it had been regular, the ordinary business precautions would have required its rejection. As it is, we we have a substantial firm doing the work, on account of their exceptional facilities, for less than the estimates of the engineer-in-chief.

LAKEFIELD NEWS.

From Our Own Correspondent.

MISTAKEN.

Your correspondent at Young's Point, according to his remarks last week concerning the new dam to be erected shortly at Young's Point, seems to be sadly mistaken. No one in Lakefield finds any fault at all with the prospect of improvements being done at Young's Point. The people of Lakefield are quite satisfied, even delighted with the progress made by the people at the Point in getting Government aid, &c., in public works, as no improvement can be made there without being a benefit to Lakefield. Now all that has ever been said about the new dam at the Point is that it was used as an argument in favor of the Government spending money in keeping up navigation between Lakefield and the Point. No one even objected to the money being spent in building a new dam, or in any other way, but Lakefield folks did think and do think still that the Ontario Government, spending money at Young's Point from year to year in repairs, caretaking, &c., of the locks there were in duty bound to keep up the navigation on this side, or the locks would be useless. It will not hurt Young's Point to have navigation kept up between there and Lakefield. The progress of the Point wont hurt Lakefield and *vice versa*.

MANITOBA.

The Nor'-West fever is slowly spreading in this village; two more of Lakefield citizens leave for Manitoba next week, viz., Messrs. G. Preston and Wm. Dixon. Mr. Preston goes on a prospecting tour, but Mr. Dixon, for some time, our respected station master, leaves for good, with the intention of going into business some where in the Far West. Mr. Dixon will have an auction sale of his household furniture on Monday next, the 27th instant, at one o'clock p.m.

HOUSES ARE SCARCE.

Houses are very scarce in Lakefield at present, so much so that it is almost impossible to get a habitable house in the village for love or money. Some of our monied men would do well to build a few cottages during the coming season. There can be but little doubt that it would be a good paying speculation.

CHANGED HANDS.

Mr. James Moore sold his house and lot on Albert street where it joins Rabbit street, for the sum of $600 cash to Mr. Carveth, of Dummer, last week. Mr. Carveth has moved into it and become a permanent resident of Lakefield.

SALMON FISHING.

Several very fine trout have been caught lately at Burleigh Falls and at Clear Lake, by different parties. Our sports are having a good time—especially those of silver bait proclivities.

LUMBERING.

Messrs. Roland and George Strickland have both been away for the last few days personally superintending their shanty operations. This firm have over 5,000 pieces of square and board timber out, and we are informed that the appearance and quality is unsurpassed. Several pieces run over 300 cubic feet each.

WOOD.

Mr. Thomas Whatley delivered to the Midland Railway in Lakefield, from the 11th to the 18th instant, over 400 cords of wood, and if the sleighing, poor though it was, had continued a week longer, he would have brought in about six hundred cords more.

REMOVED.

Mr. John Sutton, boot and shoe maker, has moved into the corner store in Leonard's block, on Queen street. He has opened out a large stock of ready-made boots and shoes, and intends to do his part to make business on our main street lively. Peg away. The more the merrier.

PORT HOPE.

AN OLD IDEA WITH A NEW APPLICATION.—The *Times* says "the ingenooity o' mon," remarked the old Scotchman, as he contemplated a brand new "totum" constructed by his "own chiel." We would say so. But the ingenooty 'o mon" never was better illustrated than in the efforts to raise money for church purposes, and further, necessity has had, invariably to bear the responsibility of such divers ways and means. A Methodist missionary in the North-west being, as might naturally be supposed, in straightened circumstances as well as his flock, has devised a means of raising money to build a church out on the prairies, which should immortalize him, and is sufficiently well devised, to turn the proprietors of St. Jacobs Oil green with envy. About a week ago Rev. Mr. Laird received from the North-west a package about two feet square. It naturally excited his curiosity, being both unusual looking, and quite unexpected. Upon opening it he found it to contain twenty packages. A note explained all. These were different varieties of prairie grasses and flowers, which the missionary had collected, classified, and boxed up for distribution throughout Ontario, with the intention of receiving therefor $2 per package. These packages are at present at Mr. Clemes' store, where they can be examined and purchased, if desired, at the above named prices. Such an enterprise shows that even the necessities of the North-west are not too great to be met and overcome, and the missionary who can contrive such a way out of his difficulties has paved the way for a more successful career. The idea is not only novel, but commendable, and we do not know but what the collection of seeds are well worth the price asked.

SAILORS' UNION.—At the regular meeting of the Port Hope Branch of the Chicago Seamens' Benevolent Union on Tuesday evening, the annual election of officers took place. The following is a list of officers for the ensuing year:—

PRESIDENT—George McGaffey.
1st VICE-PRESIDENT—Wm. McCauley.
2nd VICE-PRESIDENT—Thos. Connors.
SECRETARY—Michael Mailley.
STANDING COMMITTEE—Albert Sainsberry, Jos Mayon, Matthew Curran.

As will be seen, Mr. Geo. McGaffey has been re-elected, this time by acclamation. Last year the position was hotly contested for, but as a proof of the degree of efficiency with which he presides, he was not only unanimously elected for the presidency this year, but his salary was increased by $100. We congratulate him upon his success, and hope that it will not stop at the presidency of the Port Hope Branch. At the meeting in question, the members of the Union agreed upon a uniform wage of $1.25 per day, to open the season with.

NAVIGATION.—The first arrival of the season was made on Monday, when the Plough Boy entoted the harbor from Wilson. She is loading lumber now for the return trip. The Lewis Ross and M. A. Lydon are also loading.

TELEPHONE EXCHANGE.—For the past week men have been busily engaged establishing a telephone exchange in town, and now eighteen bell telephones are in working order, with the central exchange office in Mr. Thomas Long's office, Parson's book store. Telephones are placed at the following points:—Trinity College School, Queen's Hotel, Bank of Toronto, Station, switch-house, elevator and junction, and at th offices of the following gentlemen: Dr. Powers, F. Beamish, Clemes & Son, E. Peplow, Ambrose & Wilson, G. B. Salter, J. B. King and E. S. Vindin. The rent of the instruments per annum is $35. As soon as the work is completed in town, it is proposed to connect Port Hope and Cobourg. Lindsay and Peterborough are not likely to be connected with us this year, as was at first stated. The convenience of the telephonic system is beginning to be appreciated already. The other day Trinity College gave Clemes & Son an order for provisions, and in ten minutes they were delivered at the College, the distance being nearly a mile.

CAMPBELLFORD.

WORK OF THE LADIES' AID.—The *Herald* says that a large number of persons passed the evening at the residence of Mr. Ferris, where the last weekly social was held. The proceeds amounted to $23. As a result of this means of raising funds the Ladies' Aid Society of the C. M. Church have placed in the hands of their treasurer over $200. Last year's socials netted sufficient to purchase a bell for the church. What is now in the treasury, with the proceeds of a late tea meeting, that which will be realized from one or two more socials, and the sale of an autograph quilt which is now in the hands of the ladies, will amount to nearly $500, a sum not far short of that which will be expended in furnishing the new church—the work they undertook to do.

ASSESSOR AND COLLECTOR.—Mr. Loren Young has been appointed Collector for 1882,—an office which he filled satisfactorily last year. The Council requires an active, honest man to discharge the duties of this office, and he has been secured by Mr. Young's appointment. The office of Assessor was given to Mr. Stewart Cock, but that gentleman after some deliberation declined to accept it. As a fitting man for this work Mr. J. M. LeVesconte has come into possession of the Roll, and will do the work of assessing Campbellford's material wealth.

SUPPER.—A number of the young friends of James Bogart invited him to an oyster supper on Saturday night last. It was partaken of at the St. Lawrence Hall, and served on a nicely-laid table by Messrs. W. & D. Kerr. About 25 were present. Young Bogart is about to take up his home in Sorrocco, New Mexico. The usual toasts proposed on such occasions were drunk, and to use the words of one who was present, "all went home sober."

CHURCH BUILDING.—The Presbyterians are working assiduously to secure a place of worship better than the dull old building in which they now meet Sabbath after Sabbath. Notices have been printed asking for tenders for the erection of a new church, and we believe it is their intention to proceed with the work at an early day. Success to their efforts.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

THE VITAL FORCES are speedily renewed by Mack's Magnetic Medicine, the great brain and nerve food, it is the best and cheapest medicine ever discovered. See advertisement in another column.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & CO., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN

Kendall's Spavin Cure

ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that **"Kendall's Spavin Cure** has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & CO., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure, I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & CO., Enosburgh Falls, Vt.

☞ Sold by all druggists.

THE MURDERER'S CONFESSION.

Michael O'Rourke Tells How He Killed his Victim.

Michael O'Rourke, who killed Mr. Maher and his daughter recently, has made the following confession :—

"I know that I am not obliged to make any statement, and I have been warned that any thing I say may be used against me ; but I desire to tell the whole facts of the case, which I do not deny. I had been boarding at Mr. Maher's house. I had lived with him about one month. Yesterday I left his services ; it was morning when I left. I returned to the house, as nearly as I can recollect, about ten last night. The front door was open when I got to the house, and the lamp was burning. The daughter was standing outside the door, and when she saw me she screamed. I said nothing to her. She ran into the house screaming, and the old man met me at the door with a club in his hand. He asked me what I wanted, and struck at me with the club, but missed me. This was in the front room. I took up an axe, which was lying in the corner near the door and struck the old man. It knocked him down. Just then the daughter blew the lamp out. I cannot say whether it was with the blade or blunt back I struck him. Just as I struck the old man I saw the daughter with an

AXE IN HER HAND

I do not know where she got it. She clinched me, and we struggled for some minutes, for she had my arms held. She kept saying to me, 'Don't hurt the old man.' I freed my arms from her and struck her with the axe too. She fell down saying 'I'm killed.' This occurred in the front room, and she afterwards got up and walked into the back room, or bed-room. She was bleeding profusely. I heard her fall down as soon as she got into the back room. I then turned to leave the house, and opened the door to get out. Jnst at the threshold I met Pat Maher. He struck me on the head, but I cannot say with what. He gave me, I think, three blows. The blows knocked me down. I don't remember striking at Pat Maher, although I may have had the axe in my hand when Pat met me at the door. I knew before I opened the door that both the old man and the daughter were dead.

I DENY MOST POSITIVELY

that I outraged or attempted to outrage or violate the daughter either before or after the blows were struck. I went to the house with the full intention of striking the old man, but I did not intend to kill him. I also intended to strike the daughter, and would have done so even if she had not clinched me. I went purposely to the house to assault them. I do not remember when I came to my senses after the blows I got from Pat, but I remembered rising and going through the woods, and heard Pat (for I knew his voice) calling out 'murder!' I made for the house where I was found this morning, that I might get shelter there. The people of the house gave me shelter, but did not ask me any questions, although they wondered why I was bleeding. I told them Pat Maher had struck me. This morning I told them that I thought the old man and daughter were murdered, and that it occurred through Pat Maher seeing his sister sitting on my knee—that he then struck at me, but missing me, struck and killed the father. I also told them that I left Pat and his sister struggling together with the axe, and that Pat had struck me before I left. All this story told these people at the house is false. There is not a word of truth in it. I did not like to scare the women, and the real story and truth is what I have now told in presence of these witnesses. I have made this statement of my own free will, without being asked or urged to do so, and knowing the consequences thereof, and I declare it to be absolutely true."

FATAL GUN ACCIDENT.

A Boy of Twelve Kills His Companion of Seventeen in the West End.

TORONTO, March 22.—A terrible illustration of the danger of playing with loaded firearms occurred in the West End yesterday afternoon. Rupert Ross, aged 17, and Chas. Thomson, aged 12, were chums. They lived on Lake View avenue, and in spare moments were invariably together. About four o'clock yesterday afternoon the boys got an old gun and commenced shooting at a target, as they had been in the habit of doing for some time past. After firing several shots, young Thompson shouldered the gun and said, "Suppose you were a bear how easily I could shoot you." The hammer proved to be full-cock, and by mischance the young fellow pulled the trigger, lodging a marble with which the gun was loaded into his companion's left side just below the heart. Death followed almost instantaneously. The grief of Thompson knew no bounds, and Mrs. Ross, who is a widow, was almost frantic. The case was reported to the police, and they considered it advisable to take Thompson into custody. The sad end of young Ross has excited the sympathy of the entire neighborhood for his mo ther and other family friends.—*World*.

Gladstone's Home Life.

When Mr. Gladstone returns to his residence in the small hours of morning, from the House of Commons, he continues the custom he has observed through his whole political life, of sitting down to the piano and accompanyiug himself on the instrument in an old English or Scottish ballad or two. Mr. Gladsone adds to his many sided gifts as statesman, legislator, orator, author, woodman, atrocity monger, and general sympathiser, no small musical faculty, a natural turn inherited by his son Herbert. It is hardly news that, no matter how prolonged the sitting may be, Mrs. Gladstone waits up for her husband and prepares for him with her own hands the cup of tea, with a lemon squeezed in it, which the Prime Minister holds to be the most effective form of refreshment.

The Timber of Newfoundland.

The most valuable timber grown in Newfoundland says a recent issue of the Society of Arts *Journal*, is the white variety of pine (*Pinus strobus*). It is especially prized for the manufacture of lumber. In the Gander country alone Mr. Howley estimates there are 850 square miles covered with this growth, easily accessible by means of small boats on the Gander River. The yellow or red pine (*Pinus resinosa*) is another well known variety. Neither beech, elm, oak, nor cedar is found. Around St. George's Bay, and in the valley of the Humber also, are fine forests of timber. The colony derives no revenue from its forests, which are cut at will by all comers.

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

LINDSAY.

LARGE SHIPMENT.—The *Post* says that Mr. James Hamilton ships the first week in April for the North-west, fifteen wagons, twenty buckboards, four buggies and two democrats, all consigned to parties at Brandon. Part of the shipment is to stock up a large livery concern started in that town. The balance will be for general sale. The Manitoba wagon is in some respects different from the vehicle used in this part of the country. In addition to being much stronger the box is of double the ordinary depth and to facilitate getting into it, short steps are attached. Of course as freight is very high it is of the greatest consequence that everything should be packdd so as to take up the smallest room. The wagons will be all taken apart and set up again at their destination

BROKE GAOL.—A notorious blackguard named Allen Austin, escaped from gaol at Haliburton, on Saturday night last, by removing an iron bar from one of the cell doors and smashing the stone work around the window which enabled him to pry off the bars. It is known that he received assistance from outside by a party of roughs. However, he cannot escape from the woods where he is hiding, as two detectives are watching his movements. He, when first arrested, kicked County Constable, W. Crosthwaite, in a most brutal manner.

RE-ELECTED.—Mr. S.S. Peck, has been again elected reeve of Dysart, by a vote of 66 to 19 for Mr. Quarry, with 18 to 6 in the other townships. Some say Mr. Quarry will claim the seat, and some say he will not, as Mr. Peck did not take the declaration of qualification in full. The Council met on Saturday and Mr. J. F. Young, treasurer, got the G. B., and Mr. John Dover was appointed in his stead. There is considerable feeling in the matter.

FATAL ACCIDENT.—On Saturday night last a runaway occurred near the village of Balsover which resulted in the death of Peter McQuaig. On the day mentioned the deceased went to Beaverton with a load of barley, and the accident happened while returning. No one appears to have witnessed it, the man being found dead jammed between the sandboard and axletree of the waggon, on the side of the road. He leaves a wife and four children.

ENLARGING.—It is understood that the congregation of the Baptist church have decided to materially enlarge and much improve the church building. The work would be taken up and gone on with at once could the material, joists, etc., be readily procured. As it cannot, a delay will occur until suitable material can be cut. About a month will see the improvemeuts under way. The friends of this denomination are to be congratulated on this evidence of enlargement of their borders.

CURLING.—During the past week the Lindsay curling club have been contesting for supremacy among themselves with the result that Mr. John Flavelle has won the Bertram tankard : Mr. Needler takes Hon. S. C. Wood's medal; and Mr. Keith takes the club medal. There has been some sharp play and more yet to follow as there are two trophies to find owners, the junior and the rink medal. All of these valuables will become the property of the winners if they can hold them for three years in succession.

WOOD.—One of the singular things about the scarcity of wood is that slabs are sold in town, having been brought from Haliburton by rail for that purpose. If the rise keeps on we shall be presently asked to tender at so much apiece for the old railroad ties which will be ripped up in a few days.

The Fuel Problem.

If it be true that the fuel problem has been solved for Dacota, as below affirmed, we may consider it as solved also for the Canadian North-west, in extensive regions of which lignite and coal exist in quantities larger than the public are generally aware of. The St. Paul *Pioneer Press* says :—"General Manager Haupt, of the Northern Pacific, is now satisfied that the fuel problem of Dacota has at last been solved. The feasibility of burning the lignite coal of the Bly Mines has been amply demonstrated. That it can be used for all heating purposes is no longer an equivocal proposition. Superintendent Hobart, of the Dacota division, is testing the coal in a base burner. One day recently, with a high wind and unusually low temperature, the room was perfectly warmed with the consumption of between four and five scuttles of coal in the twenty-four hours. The same amount of the best Pennsylvania coal has often been consumed under like circumstances, showing a saving of at least 55 per cent. ; when the difference in cost and weight is taken into account, this is much cheaper than wood."

A Plan for Protecting Sheep from Dogs.

Tennessee has no dog law. A correspondent of the *Country Gentleman* in that State tells how he takes the law into his own hands, as follows: "For the benefit of sheep breeders, I give my plan of dealing with the worthless curs. My sheep were being killed at night, and I had no means of ascertaining where to find the guilty dog, and was not long in reaching the conclusion that unless something was speedily done my pack of fine Southdowns would all soon be killed. Therefore, I decided to build a pen with rails, commencing at the ground and gradually drawing in each additional caurse of rails, like a bird trap, until sufficiently high to prevent a dog from jumping out; leaving the top open. I then put into this a sheep that had been killed. It will readily be seen that a dog could easily get on the top of the pen from the outside and jump in, but it was impossible for him to get out. My pen was a complete success, and so far I have not had a single sheep bitten outside of that pen by a dog. I will not say how many dogs I caught in my pen, for fear some of the readers of the *Country Gentleman* might be inclined to doubt my statement."

CONSUMPTION CURED.—From Andrew Archer, of Fairfield, Me.—"Seeing numerous certificates in the *Maine Farmer*, endorsing the Great Lung Remedy, Wistar's Balsam of Wild Cherry, I take great pleasure in giving publicity to the great cure it accomplished in my family in the year 1856. During the summer of that year my son, Henry A. Archer, now postmaster of this place, was attacked with spitting of blood, cough, weakness of lungs, and general debility, so much so that our family physician declared him to have a 'seated consumption.' He was under medical treatment for a number of months, but received no benefit. At length, from the solicitation of himself and others, I was induced to purchase one bottle of Wistar's Balsam of Wild Cherry, which benefitted him so much I obtained another, which in a short time restored him to his usual state of health. I can safely recommend this remedy to others in like condition, for it is, I think, all it purports to be—The great lung remedy for the times! The above statement, gentleman, is my voluntary offering to you in favor of your Balsam, and it is at your disposal." 50 cents and $1 a bottle. Sold by dealers generally.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

UPON MY WORD SHE DID.

MARGARET EYTINGE.

Her hair *was* black, "But black," she sighed,
"Is very much too cold ;"
And so she bleached her locks until
They looked almost like gold.
A simple satin robe she wore,
Which closely to her clung
(In fact it was *extremely* scant)
And from her belt a lily pale
And four sunflowers hung—
Four big sunflowers hung.

She would not touch a bit of meat,
But oft she'd sit and weep,
To think the broiled chops were once
Part of a baby sheep,
"And oh !" she'd moan, "those seared steaks,
So full of gravy now,"
(This was a slight mistake, I think),
"Once wandered o'er the fields and meads,
Attached to a cow—
A gentle, browsing cow.

She was the most poetic thing ;
She would'nt harm a fly ;
It's life is short at best," she'd say—
"Oh, pray don't make it die !"
The very cat, for catching mice,
In tearful voice she chid,
And then at last she married
(And seemed quite glad to get him, too)
A butcher ; yes, she did—
Upon my word she did !

Harpers' Magazine for March.

FROM ALL OVER.

THE editorial expenses of the Paris *Figaro* are less than $350 a day.

CARDINAL MANNING refused to drink wine, although ordered to do so by his doctor.

GAMBETTA is reported to have discovered in Gen. Scobeloff the coming ruler of Russia.

THE daughters of the late Dr. Leonard Bacon are preparing a memorial volume of the family.

MUNKACSY'S great picture "Christ Before Pilate," has been bought by the Austrian Goverment.

Mr. BANCROFT says that he is almost ready to write "The End" to his history of the United States.

IOWA will hereafter issue no teachers' certificates to females under 17 years of age nor to males under 19.

IN the person of Charles Joseph Tissot, the new French Minister to England, the literary arts have again been honored. M. Tissot is a Doctor of Letters, and a most learned writer on history, archæology, and comparative geology.

THERE are now more British troops in the three southern provinces of Ireland than Lord Raglan took to the Crimea.

PADDY RYAN, the Trojan ex-pounder, has reformed and will go into the saloon business near the Chicago stock yards.

DESERVING OF PRAISE.—Too much cannot be expressed in favor of that unsurpassed remedy for coughs, colds, asthma, croup, sore throat, and all lung complaints. If you suffer from neglected cold, try Hagyard's Pectoral Balsam. The cost is trifling, only 25 cents.

VICTOR HUGO says that he now lives only for his gradchildren. They are constantly with him except in the morning hours, when he is at work.

JAMES YOUNG, a practical printer and member of the Maryland legislature, intends to bring a bill before that body imposing a tax of $50 on all amateur printers.

KEEP THE FEET DRY.—This is the season of sloppy weather so productive of colds, and lung troubles; neglected cold or damp feet is a great source of these difficulties. Cure your cough with Hagyard's Pectoral Balsam. Pleasant to take and always reliable.

THE importation of eggs into Great Britain last year was 750,000,000, or about two dozen for each man, woman and child in the country. Their money value was over $10,000,000.

THE question of railroad deadheadism is up in the Ohio legislature. The bill under consideration would fine every public official who rides on a free pass $100, one-half of the money to go to the informer.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

IN the far north of Europe spring has been unusually early this year. Primulas and rosebuds were gathered in Danish gardens in Jan., and the starling, the first harberings of spring, had arrived from the south in flocks.

No article ever attained such unbounded popularity in so short a time as Burdock Blood Bitters, and that too during the existence of countless numbers of widely advertised bitters and blood purifiers. It is evident that this medicine begins it work at once, and leaves no disirable effect unattained.

THE mother of Potter Palmer, the Chicago millionaire, has just died at Preston Hollow, N. Y., aged 83. She requested that her coffin be of simple white pine, not stained or coloured, and that her four sons should be the bearers.

A DUBLIN comic paper says that the government are about to prohibit "The Meeting of the Waters" at Avoca, and that the growing of potatoes is to be interdicted because the government objects to "drilling" for the "Irish champions."

THE CAUSES OF COLDS are getting overheated in hot rooms or crowded assemblies, sitting in a draught, or cooling too rapidly after exercise, muffling up warm and changing to lighter wrappings, cold and damp feet. No matter what is the cause Hagyard's Pectoral Balsam is the cure for all throat and lung disease that induce consumption.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

THE Saginaw *Currier* says : A gentleman in this city purchased a farm on the Cass river recently, on which were several black walnut stumps. By some means while digging he discovered some buried trees and has since taken out considerable walnut, which, when cut up, he has disposed of at the rate of $60 a thousand. The reporter was shown a piece yesterday from a tree that was taken out nine feet below the surface. It is supposed that the river changed its course somewhat years ago and that these fallen trees were imbedded in the deposits that filled up the old channel.

Bucklen's Arnica Salve.

The Best Field

FOR

EMIGRANTS.

An IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co, in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

Daily Evening Review

FRIDAY, MARCH 24, 1882.

LOCAL AND MUNICIPAL.

Railway Notes.

Mr. George Chamberlain, George street, agent for the Oredit Valley, has received a letter which states that the Credit Valley and Cadada Southern Excursion train for Manitoba which left Toronto on the 14th, arrived at Winnipeg in 65 hours—the fastest trip ever made by seven hours. The next excursion leaves on Tuesday 28th.

The Grand Junction pier and some booming piers at Belleville were damaged by an ice shove on Tuesday night.

Twenty-three cars are ordered for the purpose of accommodating the Millbrook contingent for the Great North-West, which leaves on Tuesday next. Three loaded cars for the same destination arrived on the Grand Junction the other evening.

Mr. Haggas, formerly mechanical superintendent of the Nipissing railway, has been appointed to the same position on the Midland, taking up the duties formerly done by Mr. Marling, who has severed his connection with the Midland. Mr. Haggas is now on a tour of inspection on the joint lines.

The *Ontario* has the following account of the case of Barnhart vs. Midland Railway Company, which was tried at Belleville on Thursday:—

"This action is for damages sustained by being struck by an engine when crossing the track at Lime street within the limits of the city. The plff. is a deaf mute, living with her mother, and while driving a cow to pasture in September last, she had to cross the track. A freight train going from Belleville station with a long train, engine backing, and running at a faster rate of speed than allowed by law, and consequently the defendents were guilty of negligence. Defence. Deft. guilty of contributory negligence. This was an important case and different legal questions arising. Mother of the girl who was injured, also claims damages. Verdict of $60 damages for the mother and $600 for the girl. Clute & Burdett for plff.; Bethune, Q.C., and Bell and Biggar for deft."

The locomotive which was damaged at the collision on the Victoria railway a few months ago has been repaired and is now doing duty on the line.

A fine passenger coach for local service is approaching completion in the railroad workshops, Lindsay. This is the first coach that has been built entirely in Lindsay and is a substantial piece of work.

The Lindsay *Post* says that John Hurst, a brakeman on train No. 1 on the Midland railway, was killed at Orillia on Wednesday about half-past one. He was endeavoring to uncouple some cars while in motion, backing up with the train, when he slipped, falling across the track, and was run over by the train, breaking both thighs and nearly cutting him in two. He died about seven o'clock. He was much esteemed by all who knew him. He was the only support of his mother, who resides at Port Hope.

Personal.

From the St. George's *Chronicle* and *Grenada Gazette*, published at St. George's, Grenada, we learn that Dr. E. F. Hatton, son of D. G. Hatton, Esq., P. M., arrived at that city on the fourth of February last to assume the position of House Surgeon to the Colony Hospital, to which he was appointed by the government. He commenced his labours by holding a *post mortem* examination on the body of a child said to have been poisoned. The position is a very lucrative one, and we have ho doubt that our young friend will fill it with credit to himself and to the government.

Railway Time Table.

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART, at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

O'Keefe's Celebrated Imperial Lager.

The Caisse House is where you can get is right, try it. 6d70

FAREWELL SUPPER

Tendered to Mr. Holden Crossley, of South Monaghan, Prior to His Departure for the Prairie Province.

On Wednesday evening there took place at Raper's Hotel, Centreville, one of the most enjoyable affairs that we have attended for some time. The occasion was a complimentary supper tendered to Mr. Holden Crossley, of Centreville, by a few of his many friends, prior to his departure for the Great North-West.

For the long period of about 22 years Mr. Crossley has been a resident of the village, during the greater portion of which time he has been in business. He is well known, and thoroughly respected by every resident, not only of the township, but surrounding country. By his departure South Monaghan loses one of its most respectable and responsible men, but all hope that he will carve out for himself fame and fortune in the "Great Lone Land."

The supper took place in the large hall in rear of the hotel, which was tastefully decorated with flags, banners, evergreens, and mottoes, the principal of the latter being "God Save the Queen" and "Welcome to Our Guest." The artistic work was done by Mr. H. Wilburn, of Millbrook, and reflected great credit on him.

The chair was ably occupied by Mr. T. M. Willan, to whom in a large measure the success of the supper is due, and the Vice-Chairs by Messrs. Rutherford, Reeve, and Davey. The Chairman was supported on his right by the guest of the evening, and on his left by Messrs. G. Hilliard, M. P., and Dr. Kincaid, M. P. P., Peterborough, and among the others present were Messrs. C. Brealy, North Monaghan; S. Aitkins, W. H. Armstrong, John Byers, M. Parker, J. Richardson, W. Steele, Millbrook; John Devell, R. Lancashire, Cavan; W. Rutherford, Geo. Berry, J. Lightfoot, W. O'Brien, James Kells, A. T. Armstrong, John Campbell, Thos. Donaldson, and many others to the number of about sixty altogether.

The spread was really an excellent one, surpassing in many respects the ordinary suppers prepared at hotels of greater pretensions, and reflected the greatest credit on the genial host.

Those present having satisfied the wants of the inner man, the post prandial prooceedings commenced.

The chair gave "The Queen."—Cheers. "The Governor-General and Princess Louise" followed, and was replied to by Mr. George Hilliard, M. P., in an able manner.

"The Army, Navy and Volunteers brought Dr. Kincaid, M. P. P., to his feet, and his speech was an admirable one, teeming with loyalty. It was received with loud applause.

The toast of the evening, "Our Guest," came next, and was received with three times three. Mr. Crossley returned thanks in a few words, stating that he could not find language to express his feelings.

"The Press" was replied to by Messrs. W. T. R. Preston, Port Hope *News*, and James G. Macdonald, DAILY EVENING REVIEW.

"The Agricultural Interests" by Messrs, Perrin and Lytle, and "The Ladies" by Messrs. G. Berry and R. Fair.

"Canada our Home" drew forth good speeches from Messrs. Dr. Kincaid, M. P. P. and W. T. R. Preston, *News*.

"The Commercial Interests" was replied to by Mr. W. Steele, and "The South Monaghan Council" by Mr. Rutherford, Reeve.

During the evening songs were sung by Messrs. Berry, Fletcher, Wilburn, Richards, and others.

The happy gathering broke up at an early hour, all present being delighted with the manner in which everything had passed off, and all joining in wishing Mr. Crossley "God speed" in his adopted home.

A Wrinkle for our Firemen.

An exchange remarks that the Washington firemen are trying the experiment of shooting arrows with life-lines attached as fire-escapes. An arrow, with the end of a line attached, was easily thrown over a flag-staff eighty feet high. It is said that with a little practice any fireman would be able to throw the line into a window 75 feet above the pavement, or throw a small ball of twine as high as the Washington monument. The twine would support the weight of 100 feet of rope, which would support a ton. Archery will probably become quite popular among the Washington firemen, and our men will do well to give it a trial.

Conservative Organization.

This evening at half past seven o'clock a meeting of the Conservative electors of the town will be held at Hill's Music Hall for the purpose of electing Vice-Presidents and Committees of the Liberal Conservative Association for the different polling divisions. All those who are prepared to work for the cause of good government, and a policy adapted to the wants of the country should be present, so as to assist in perfecting the local organization of the party.

Enjoyment for Skaters.

All lovers of skating will be pleased to learn that the ice at the rink is in better condition at present than it has been all season. The management have arranged to have the Peterborough Orchestra Band present this evening, and we bespeak a bumper house. Admission 15 cents, ticket holders free.

No. 1 Company.

Col. Rogers having given his consent to the cup presented by him last winter being used as prize for a rifle match instead of for a snowshoe race as originally intended, the cup will be shot for by two squads of five men each, advancing as skirmishers. The match probably takes place on Good Friday.

The Provincial Exhibition.

It was decided at Toronto this morning, to hold the next Provincial Exhibition at Kingston, commencing September 18th.

"Nor-West Ale."

Just received, two brewings of the above celebrated ale at Davy Wheeler's.

Ourselves.

This is how the Port Hope *Times* talks:—

"The DAILY EVENING REVIEW, Peterborough, has been enlarged by the addition of four columns. The REVIEW is one of the smartest local dailies published. May its shadow never grow less.

The Lindsay *Post* remarks:—

"The Peterborough DAILY REVIEW has been enlarged by adding a column to each page. Already one of the neatest and spiciest dailies in the province, the addition will give it more weight and momentum. We congratulate our cotem, that in spite of the disastrous effects of the N.P., the agricultural and lumbering prosperity of the town and county has given it additional business and necessitated an enlargement."

Says the Millbrook *Messenger*:—

"We congratulate our esteemed friend, the Peterborough DAILY REVIEW, on his enlarged appearance. May he continue to speed."

Cobourg *Sentinel-Star*:—"The Peterborough DAILY REVIEW comes to us now as a twenty-four column sheet. This change indicates the deserved success it receives."

Agriculture and Arts.

The Council of the Agriculture and Arts Association met at Toronto on Thursday afternoon. Mr. John Carnegie represented this district. Mr. Drury was elected President, Mr. McKinnon Vice-President, and Mr. Graham Treasurer. Mr. Carnegie moved that the thanks of the Council be tendered to the Commissioner of Agriculture for the hearty manner in which he fell in with and carried through the Legislature the amendments to the Arts and Agricultural Act recommended by the board last year.—Carried. Messrs. Carnegie, Rykert, and Parker were appointed a committee to confer with the Commissioner as to the alterations required in the building. Mr. Carnegie was placed on the Finance and Printing, and Herd Book Committees.

Another Reason.

Mr. H. Calcutt says that he has another reason for voting against the N. P. He has been trying to get a number of beer barrels to ship to his brewery in Winnipeg, but finds that the coopers are too busy to supply him. He says he found no such trouble when Mr. Mackenzie was in power.

MR. THOMAS I. RUSSELL, one of the best known cabinet makers and undertakers in Wilmington, Del., says he contracted an exceedingly severe attack of rheumatism this winter. He is subject to the disease, but rarely every felt it so severely as he did the time now under consideration. The disease located itself in his right leg and foot, rendering that member so stiff and sore that he could not move without enduring excrvciating pain. St. Jacobs Oil had been so highly recommended that he concluded to try it. He has every cause to be glad that he did so. Two applications of the wonderful remedy gave him entire relief, and he has not been troubled with rheumatism since. Mr. Russell says he considers St. Jacobs Oil a very fine remedy for rheumatism and now keeps it by him for ready use.

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

HAGYARD'S YELLOW OIL will be found invaluable for all purposes of a family liniment. Immediate relief will follow its use in all cases of pain in the stomach, bowels or side; rheumatism, colic, colds, sprains and bruises. For internal and external use. It has no equal in the world for what it is recommended. For sale by all dealers at 25c. per bottle.

THROUGH the months of March and Apri be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

New Zealand, *via* San Francisco:—Letters, 15 cents papers, 4 cents.

H. C. ROGERS, Postmaster.

English Advertisements.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

A. L. DAVIS & CO.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1½ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

SATURDAY, MARCH 25, 1882.

LIBERAL CONSERVATISM.

Appointment of Members of the Executive Committee of the Association for the Town.

According to due notice given, a meeting of the members of the Liberal Conservative Association of the West Riding, resident in town, was held in Hill's Music Hall, for the purpose of electing Vice-Presidents, and members of the executive committee for each of the polling subdivisions.

The chair was occupied by Mayor Smith, President, and Mr. G. W. Hatton acted as Secretary.

The following gentlemen were appointed in the sub-divisions named:—

WARD NO. ONE,

Sub-division one.—Mr. Angus Williams, Vice-President, and Messrs. Thos. Sabin, P. McNamara, J. D'Olier, and A. Morton.

Sub-division two.—Mr. Enos Dunsford, Vice-President, and Messrs. John Bell, John Corkery, Jos Picard and Geo. Benton.

Sub-division three.—Mr. E. Phelan, Vice-President, and Messrs W. English, Jos. Barbeau, Jno. Alford and T. Laplant.

SECOND WARD.

Sub-division One.—Mr. C. W. Sawers, Vice-President, and Messrs. T. Kelly, T. G. Harper, J. Madden and T. Pratt.

Sub-Division Two.—Mr. T. Rountree, Vice-President, and Messrs. A. P. Poussette, R. Rowe, W. Croft and Dr. Hourigan.

Sub-Division Three.—Mr. J. Stevenson, Vice President, and Messrs. C. McGrath, T. Cavanagh, Geo. W. Hall and W. H. Wrighton.

THIRD WARD.

Sub-Division One.—Mr. W. Langford, Vice-President, and Messrs. Dr. Geo. Burnham, Dr. R. P. Boucher, J. P. Metheral and H. C. Stapleton.

Sub-division Two.—Mr. Thomas Rutherford, Vice-President, and Messrs. James Hope, W. Logan, Bryan Lynch and W. H. Moore.

Sub-Division Three.—Mr. Jno. Douglas, Vice-President, and Messrs. John Lynch, H. Charman, A. Dawson and W. H. Trout.

FOURTH WARD.

Sub-Division One.—J. D. Baptie, Vice-President, and Messrs. Samuel Griffith, W. Armstrong, James Wason and D. Breeze.

Sub-Division Two.—Mr. Jas. Kendry, Vice-President, and Messrs. T. M. D. Croly, J. P. Long, C. Richardson and M. Fawcett.

The meeting then adjourned, there being no other business to transact.

MIDNIGHT TELEGRAMS

CABLE.

IRISH AMERICAN SUSPECTS.

LONDON, March 24.—In the House of Commons this afternoon Sir Charles Dilke stated that the Government is now considering the representations of the United States Government regarding the trial or release of the American imprisoned in Ireland.

FRENCH EDUCATION BILL.

PARIS, March 24.—The debate in the French Senate on the primary education bill was very excited. M. d'Hassonville provoked angry protests by declaring that numerous letters received from Alsace expressed regret that the passage of so irreligious a bill diminished the pain of separation from France. M. Scoelcher, president of the committee on the bill, declared that he had particular pleasure in voting against its opponents, as he is an atheist. The bill passed as it came from the Chamber of Deputies, by 179 to 108.

LONGFELLOW'S DEATH.

LONDON, March 24.—The news of the death of the poet Longfellow was received in London too late for the morning journals to give a detailed announcement. They all, however, make short notices which are fervid and sympathetic in tone. The *Standard* says:—"Longfellow commands a wider audience among our people than any other poet of this age, save perhaps Tennyson." The *Telegraph* says:—"Death has taken America's greatest literary son."

TARIEFS AND TRADE.

PARIS, March 24.—The House of Commons to-night, by a vote of 140 to 89, refused to appoint a select committee to enquire into the influence of foreign tariffs upon British trade.

THE MONACO HELLS.

PARIS, March 24.—Committee of the French Chamber of Deputies to whom the subject was referred have reported, refusing to suppress the gambling tables at Monaco.

AMERICAN.

THE FRANKING PRIVILEGE.

WASHINGTON, March 24.—The House Appropriation Committee yesterday decided not to concur in the Senate amendment to the Post Office Bill restoring the franking privilege.

MASON'S CASE.

WASHINGTON, March 24.—In the United States Supreme Court at Washington yesterday. Mr. Liddy filed a request for leave to file a petition for writ of *habeas corpus* and *certiorari* to bring Mason before the court. The Chief Justice took the papers, and said he would try to give an answer on Monday.

PANAMA CANAL.

PANAMA, March 24.—On account of illness nearly all the work at the several stations on the line of the canal is at a standstill. Fever and dysentery have prevailed among the entire staff of officers, particularly at Empire, and smallpox has broken out among the labourers, but it is said to be of a mild type. Many cases of smallpox of a mild character have appeared in Guatemala. In Canalapa, an important pueblo of the department of Chidmaltenango, 150 Indians died in a brief period from typhoid fever.

AUSTRALIA'S N. P.

WASHINGTON, March 24.—The American consul at Melbourne writes in a discouraging strain in reference to the effect of the high Victorian tariff in causing a decline of American trade with Australia. He states that American goods rank deservedly high in the markets there, but that they encounter great obstacles in freights and insurance rates, and particularly the unfriendly tariffs. This latter heavily handicaps American enterprise, and although American houses are represented by energetic American agents they have to make progress against the tide in getting their goods before the colonies. The consul urges that relief might be secured by reducing our own heavy tariff on wool, which is the staple product of the Australian colonies. This would prompt a mutual concession in the colonies, he thinks, and promote a material and permanent development of the now declining American commerce in this particular field.

DEATH OF LONGFELLOW.

BOSTON, March 24.—The poet Longfellow died at 3,15 p.m. He suffered from a complication of ailments, the chief being peritonitis. The funeral takes place on Sunday or Monday, and will be strictly private. This evening there has been more profound sorrow amongst the people than has been caused by the death of any Massachusetts man since Summer passed away. Indeed, Longfellow had more sympathy from the hearts of the people than did any other man of that generation. The grief is not least evident among the children, hundreds of whom knew him as a friend,

UNJUST DISCRIMINATION.

NEW YORK, March 24.—The Quebec Steamship Company have been obliged to withdraw their line of steamers between Porto Rico and this port. Outerbridge & Co., the New York agents of the line, say that the Spanish Government discriminates so strongly in favor of vessels sailing under it own flag that foreign vessels are unable to compete with them. No duties are charged on goods imported there by Spanish vessels, while there is a high tariff on articles landed from English and other foreign vessels. This unjust discrimination is only of recent date, and should the present tariff laws in force at Porto Rico be annulled the Quebec Company will again resume their trade between that island and New York. They have been sending sthamers on this route about once a fortnight for the past three years.

BELLEVILLE.

INDECENT ASSAULT.—In the police court on Friday Robt. Jacobs was convicted of indecent assault on Amy Mills. A fine of $50 was imposed.

THE MARKET FEES.—The Market Committee recommends the City Council to pass a by-law under section eight of the Market Fees Bill, and to offer the fees for sale by auction as usual.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood, Also for Rheumatism, neuralgia, Paralysis. Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

THE newest thing in wall decoration this spring is papier-mache.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

FENIANS ALERT.

LONDON, March 25.—A Dublin despatch says there can be little doubt but Fenianism is terribly raging here.

FOR THE CANAL.

BERLIN, March 25.—German workmen are being engaged for the Panama canal.

CURIOUS STATE OF AFFAIRS.

LONDON, March 25.—There has been continual disturbance in Galway between the 88th regiment, Connaught Rangers, and 84th English regiment. On Thursday night the Connaught Rangers assisted by a mob attacked the picket of the English and cheered for Ireland. There were several bayonet wounds on both sides.

AN AMERICAN WINNER.

LIVERPOOL, March 25.—The race for the Liverpool spring cup to-day was won by the American bred horse "Wallenstein," "Vallour" 2nd "Dreamland" 3rd.

A HARD HIT.

BERLIN, March 25.—The *Koneig Zeitung* doubts whether the Emperor of Russia has sufficient peace at home to make his resolve in favour of peace prevail.

AMERICAN.

NO UNION MEN.

ALBANY, March 25.—The state printers Weedon, Parson & Co., have discharged 40 compositors, supposed to be members of the Union. The house has been non-Union for four years.

THE CHINESE BILL.

WASHINGTON, March 25.—The President will not act upon the Chinese bill until the question has been considered by the Cabinet in all its bearings.

HE WILL SIGN IT.

NEW YORK, March 25.—The *Graphic's* Washington despatch says Grant approves of the anti-Chinese bill and thinks it is better to exclude the Chinese from the country. The President will sign the bill without hesitation.

OFFICIAL BRIBERY.

DEADWOOD, March 25.—It is publicly charged that the late Grand Jury found a true bill against Andrew Furay, special postal agent, for attempted bribery in prosecuting ex-Postmaster Starr, but the United States District Attorney kept it from coming into court.

WAGES GOING UP.

GAVAGATUCK, Conn., March 25.—Seven hundred iron moulders here will have their wages raised ten per cent on April 1st. The other manufacturing companies are also increasing their employee's pay.

A RED MURDERER.

DEADWOOD, March 25.—Crow Dog has been found guilty of the murder of Spotted Tail. Crow Dog will appeal to the Supreme Court.

SWEPT BY FIRE.

CLIFTON, Hill, Mo. March 25.—All the business part of the town, excepting one store was burned on Thursday night. The loss is $30,000.

THE COLOR LINE.

BROCKLIN, March 25.—The daughter of a colored citizen here was refused admission to a public school, on the ground that the school was used exclusively for white pupils, and also because within a few blocks of the girl's residence there is a school set apart for colored pupils. The matter was taken into court and Judge Neilson, yesterday, decided that colored children are not entitled to attend schools set apart for white scholars, except when separate for the former are not provided.

IS LAMSON CRAZY?

NEW YORK March 25.—The friends here of Dr. Lamson are working to obtain evidence of his insanity and will seek to have the Government to formally instruct Lowell to ask for his reprieve. Petitions of prominent residents ask the president to instruct Lowell to have the evidence examined by counsel for the purpose of seeing whether there were matigating curcumstances or points upon which a reconsideration might be requested. Instructions have been telegraphed.

A CLERICAL SCANDAL.

NEW YORK, March 25.—In the libel suit of the Rev. Hinman against Bishop Hare, the latter yesterday admitted, since this controversy began he heard that he himself had been charged with improper behaviour with an Indian woman and with being the father of a half breed child. He believed that he had heard reports about other clergymen than Hinman with relation to their intercourse with Indian women.

DEATH OF AN ACTOR.

NEW YORK, March 25.—Jas. W. Thorp, a veteran actor died yesterday aged 52. He was born in Auburn N. Y.

SARAH BURR'S WILL.

NEW YORK, March 25.—Sarah Burr's executor denies that relatives of deceased have been discovered in Kentucky. He says there is no probability that her will will be contested.

ALMOST A HORROR.

NEW YORK, March 25.—This morning the locomotive on a train on the Sixth Avenue Elevated Railway collided with the rear coaches of another train at Cartland st. The front part of the locomotive was badly wrecked and the two coaches were thrown from the track and would have fallen to the sidewalk but for the guard. The railway cars contained 50 passengers, who were thrown from their seats, but were not seriously injured. Two Brightland girls attempted to jump into the street below. The engineer of the locomotive and fireman have been suspended. The engineer claims that the brakes would not work.

Montreal Pickings.

While waiting for a car we called at the Smith Medicine Co.'s office 663 Craig Street, and find it a place well worth a visit. While there a Mr. John Reynolds, living at 102 Canal Street, came in with a monster tape worm some 45 feet in length, which he had expelled the day before, after taking Dr. Smith's Great German Remedy—and he spoke of it in terms of the highest praise, having tried numberless other remedies and doctors without success. We were also shown elevan large stomach worms, removed from a little child of Patrick Smith's living at 96 Chenneville street, with one dose of the Remedy. They have thousands of testimonials, and before our car came along we were fully convinced of the wonderful merits of Dr. Smith's Great German Worm Remedy.—*Montreal Star.*

WINNIPEG LODGINGS.

The scarcity of lodgings is such in the City of Winnipeg that we expect shortly to see the papers there filled with announcements of this kind:—

FOR SALE.—A splendid hogshead, just vacated by the former occupant, who leaves it for no fault. The premises are a sweet location for a family with young children; are in thorough repair, with bung-hole centrally situated and hoops in good order. Apply to Richard Figgs, Grocer, Cinnimon street.

TO LET.—One roost on the rail recently put up at Bantamville in the building formerly occupied by Henry Fowle. Price $350 per annum and taxes. Apply to A. Ruster, on the premises.

RARE CHANCE.—The suscriber, having recently introduced steam-heating apparatus into his house, has no further need for his splendid and commodious ashhole, which has been cleared out, utterly regardless of dirt and expense, and will now be leased to a few single gentlemen who require lodgings in a quiet and retired situation. Terms made known on application. George Gripe, 34 Bullion avenue.

GENTEEL RESIDENCE FOR SALE.—A splendid Saratoga trunk, formerly the property of Miss Fitsflutter, has been moved upon the new land, its roof raised and the keyhole materially enlarged; these alterations, with the different compartments in complete order, render it one of the finest residences, for a gentleman of wealth, now in the market. Price $182,000. For key apply to Knockemorf & Co., Auctioneers. $100,000 must be paid down to the auctioneers before entering.—*Exchange.*

His Bondsmen to Fork Over.

OTTAWA, March 22.—In the Exchequer Court yesterday, before Judge Strong, the case of the Postmaster-General *v.* Robert Smart *et al.*, was argued. This was an action brought by plaintiff to recover penalty of a bond of $2,000. Defendants were bondsmen of Robt. Smart, late postmaster of Port Hope, who during the period of his office tenure neglected and refused to account for sums of money to her majesty on account of the money order system of the post office department. The case came on for trial this morning, and after the examination of witnesses judgment was given for the amount of penalty of the bond, namely, $2,000, with costs. Mr. Lush, Q.C., and Mr. Hogg for plaintiff.

Petroleum For Fuel.

Petroleum is more extensively used in Russia for fuel than in this country. Upon the Balachanskoi railway the locomotives are heated with crude naphtha, which is introduced into the tender as it comes from the wells, and so far no accidents have resulted from its use, it is claimed. All the ships upon the Caspian sea are also heated exclusively with this liquid combustible, the cost being only half that of coal. The use of petroleum, with injectors for introducing it into furnaces, is found to be very convenient. The combustion is easily regulated, the absence of sulphur causes the furnaces to last longer; cinder, smoke and sparks are done away with, and the work of the stroker is much simplified.—*North-Western Lumberman.*

One Secret of Success.

Don't live a single hour of your life without doing exactly what is to be done in it, and going straight through it from beginning to end. Work, play, study, whatever it is—take hold at once and finish it up squarely and cleanly; then do the next thing, without letting any moments drop between. It is wonderful to see how many hours those prompt people contrive to make in a day; it is as if they picked up the moments that the dawdlers lost. And if you find yourself where you have so many things pressing you that you hardly know how to begin, let me tell you a secret; take hold of the first one that comes to hand, and you will find the rest all fall into file, and follow after, like a company of well drilled soldiers; and though work may be hard to meet when it charges in a squad, it is easily vanquished if you bring it into line. You may have often seen the anecdote of the man who was asked how he "accomplished so much in his life." "My father told me," was the reply, "when I had anything to do, to go and do it." There is the secret, the magic word—now.

Mr. E. M. Gifford, of the Norway Iron Works, Boston, Mass., gave the following description to a Boston *Globe* representative as suggesting the special propriety of the points he makes in favor of the popular article mentioned below. Mr. Gifford observes: I am connected with the Norway Iron Works, one of the largest manufacturing concerns in the country. There is more St. Jacobs Oil used by the men in the works than I would like to state, lest you would put me down as a romancer. They use it right along for everything, and it does its work every time. I never thought anything advertised in the papers could take such a hold among men. You see those who work in hot iron are constantly receiving hurts in one way or another, the most common being burns. Well, there is nothing equal to St. Jacobs Oil for burns. It takes all the fire out instantly—not after continued applications—but instantly. Therefore, you will at once perceive that it is an invaluable remedy to men who are constantly having their flesh singed by red hot iron. Oh, yes, many have used it in rheumatic affections, and I have yet to hear the first man say it failed to give relief. They keep it in their families, too, and all swear by it. At the works the men club in and buy it and place it in the hands of the carpenter, who dispenses it when occasion requires. There is seldom a day when it is not called for. All use it. You must understand that a cut from hot iron is not like a slash with a knife or any other cold instrument. The iron not only cuts, but it destroys the tissues and leaves a ghastly, quivering wound exposed to the air, and a fainting, agonized wretch writhing with pain. Many a time I have seen a poor fellow thus situated soothed and relieved by the St. Jacobs Oil, as if by magic. Only the other day a boy got frightfully cut with a piece of hot wire rod while at work. The wound was a very bad one. He suffered intensely, and was fainting with pain. As soon as possible, a bottle of St. Jacobs Oil was brought from the carpenter's chest, and the wonderful liquid was poured into the wound, which was in the calf of the leg. The relief was immediate, and the boy went to work a short time afterward, apparently unmindful of what otherwise would have undoubtedly laid him up.

List, maiden, though you'er keen of wit,
And though of many charms possessed,
You'll never, never, make a hit
Unless with pearly teeth you're blest,
Unless upon your toilet stand,
Your Sozodont's kept close to hand.

MARY—Who had a little lamb
Had teeth as white as snow;
She always brushed them twice a day
With "TEABERRY" you know.

BABY CARRIAGES.

Parties who have been looking at our CARRIAGES, had better come in and secure the one they want, as the majority of those in stock last week are now sold.

Our Second Large Lot

will arrive next week.

This line of Carriages is the popular line, because of their Superior Looks, together with Reasonable Prices.

A. L. DAVIS & CO.

Daily Evening Review

SATURDAY, MARCH 25, 1882.

N. P. BENEFITS.

We are sorry and disappointed to find that the Lindsay *Post* still persists in its system of misrepresentation, which it calls chaff, as Mr. Patterson dubbs *his* falsifications, "figurative" language. We pointed out that the *Post*, to discredit the National Policy, insinuated that the farmers had to pay more for their agricultural machinery, though in truth they have to pay less. Our contemporary could not find space for retraction or explanation, but attacked us instead for articles which the *Examiner* falsely asserted to be inconsistent with our present course, the articles having been writen ten years ago, when the REVIEW was under other management. We pointed out the unfairness of this, and the *Post*, while again pleading want of space to explain its original misstatement, answers us by a charge of "garbling," "falsifying," &c. the *Globe* commissioner's interviews with manufacturers.

Now, anyone who has not read our articles on the subject would suppose from this that we had misrepresented what was published in the *Globe*, but the truth is that the *Post* has again resorted to falsehood.

We pointed out at starting that these witnesses were hostile to the N. P. and condemned it. We mentioned, in introducing each name, that the speaker repudiated the idea of benefitting by the present tariff, but that in spite of this they made most important admissions and concessions. It appears to us, and we think reasonable men will agree with us, that their theories and arguments against the tariff, however interesting, have not the same weight as their statements of facts, which show how well it is working. The very point of our argument was, that as these witnesses were hostile to the N. P., their casual admissions in its favor were all the more important, and we gave some of them. Where is the unfairness in this?

And what are these are these admissions in the very midst of censures of the N. P.? To summarize them briefly they are:—that business is better; that there are fewer bad debts; that more men are employed; that wages are higher; and that prices have not increased. We pointed out that Mr. Noxon, of Ingersoll, is the solitary exception in this last respect, as he says frankly that he is shifting the burden upon the farmers, who, he intends, shall recompense him for the taxation he pays. Of course, however, they can decline to deal with him on these terms, and patronize honest manufacturers, who will not try thus to squeeze them on false pretences.

We have shown that there was no unfairness in our course in this matter, and we wish that we could say the same of our contemporary, who still leaves his mistatement as to the increased cost of agricultural machinery unretracted. Since the National Policy can only be attacked by such weapons, reasonable men will be strengthened in their belief in its success.

RAILROAD SMASH UP.

Two Freight Trains Collide on the Great Western Railway—A Brakeman Injured.

LONDON, March 23.—Shortly before three o'clock this morning a serious collision occurred on the main line of the Great Western Railway about a mile west of Mount Brydges, between No. 27 freight bound west and a special freight train coming east. The two engines and four cars were badly damaged, and one horse belonging to Mr. A. Munn, of Wellington, who was *en route* to Minnesota, was killed. A car-load of eighteen horses on No. 27 train (which was in charge of Conductor Johnston), belonging to Messrs. Reynolds & Meight, of Norwich, though badly shaken up, were not injured to any extent. Among the freight on the regular train was a quantity of household effects, consigned to immigrants at Emerson and Winnipeg, a large portion of which was smashed. The only person seriously hurt by the collision was Patrick Carney, a brakeman, of this city, who was upon the engine of No. 27 freight at the time, and who attempted to spring from the footboard on to the ground. Unfortunately he fell against a pile of ties, and was seriously injured about the head and shoulder. He was brought home about half-past eleven this forenoon, and shortly afterwards attended by Dr. Moore, the Company's physician. His injuries are said to be of a severe character. Conductor Thompson of the special train, had one of his ankles slightly sprained. The engineers and firemen of both trains jumped and escaped unharmed.

THE DAILY EVENING REVIEW is delivered to subscribers at ten cents a week.

DISTRICT INTELLIGENCE

PORT HOPE.

PARADE FUNERAL.—The *Guide* says that the funeral of the late John Hurst, who was killed on the 22nd March, took place on Friday afternoon. He was buried under the auspices of the Orangemen of the district of Port Hope and the Sailors' Union—the deceased being a member of both the above societies. There was a large gathering of the members of the foregoing associations in their respective halls. When the members were formed in marching order, Jas. Evans, Esq., District Master of Port Hope, and David Marshall, Esq., Grand Master of Ontario East, took the place of honor in the Orange body, and the Sailor's Union was marshalled by Mr. George McGaffey, the President of the Union. The members of the Lodge of True Blues, employees of the Midland railway shops, and a large number of citizens joined the procession—which was headed by a band playing the "Dead March in Saul"—as a mark of esteem for the deceased.

BOBCAYGEON.

A NATIONAL POLICY FOR VERULAM.—The *Independent* says that the municipal Council of Verulam had a lengthened sitting on Monday, and transacted a large amount of business. This township has an excellent council, and its business is conducted with great ability and sound judgement, and if what we hear is correct the Council has in contemplation a policy which will distinguish it above all others. The report is to the effect that some of the members of the Council are of the opinion that the township is urgently in need of good roads to Fenelon and Lindsay, and it has been proposed to borrow the sum of $1,000, repayable in four years, and to expend it this summer between Bobcaygeon and Fenelon. This would make the road really good. It is also proposed, at the end of the four years, to borrow the same money again, and expend it between here and Lindsay. Thus the township would obtain four excellent leadroads. The amount of taxation involved is so great as to be almost imperceptible. About one mill in the dollar. An annual payment of about $270 would clear off the debt in four years. Such a policy as this would be highly conducive to the prosperity of the whole district, and would entitle its promoters to the best thanks of the community.

FIRST.—Mr. Murray, one of our leading sportsmen, has already hooked and landed a very fine maskalonge. Smiff also hooked some very nice fish the other morning. They were herrings, red ones, and the way he got landed outside by his landlord was anything but dignified or agreeable. For once he neglected to take it slack.

CUT.—Mr. Wm. Church, whilst engaged at a circular saw in the planing mill of Mr. John Kennedy, unfortunately allowed his hand to slip in front of the saw. In future Mr. Church will dispense with the third finger of the left glove.

NAUTICAL.—Engineer Stevens is engaged in preparing the Eva for the coming season. The Beaubocage is having her boiler put to rights, and her upper decking is being generally fixed. Capt. Lane intends to yank things around lively this summer.

MILLBROOK.

PRESENTATION.—The *Messenger* says that a presentation of a very pleasing character took place at the residence of Mr. Thos. Gillott, on Friday evening last. On behalf of the congregation, the committee of the Presbyterian church, here, presented that gentleman with two elegant pieces of plate, in acknowledgement and as a slight but sincere expression of their very high appreciation of his valuable and cheerfully rendered assistance, in the "service of song," in that church, during the past six years. To the accompanying address, which was presented on behalf of the committee by the Rev. Mr. Cameron, Mr. Gillott briefly responded, expressing at once the surprise, pleasure and gratitude which he felt at the present moment, with this beautiful present before him; he should like to make known, in words, the deep sense of gratitude and of pleasure which he felt, both for this token of esteem and friendship, and for the encouraging words and good feeling which had accompanied it, but could only say that he should always remember it. The proceeding, throughout, was of an extremely pleasant and informal character, and a very sociable evening was spent, by the company, previous to their breaking up. In connection with the above, it might be mentioned, that it was the intention of the committee, at the same time, to have presented Miss Cosgrove, who has very kindly presided at the organ during the past two years, with a corresponding token of esteem and gratitude, (the present, indeed, being in their possession at the time), but owing to circumstances, peculiarly unfortunate, the presentation was reluctantly deferred.—

SUDDEN DEATH.—On Tuesday, at noon, as Mr. John Hewston, shoemaker of this place, who had just arrived home from St. Thomas, whither he had been to look for work, and who was very weak, from poor health, as he was about to step from the platform to the cab, he fell, stricking himself against the wheel of the vehicle. He was taken into the station, and then brought down home. He came to, and walked around for some time. Towards evening his symptoms became alarming and about 9 o'clock, he breathed his last. He was 38 years of age. He leaves a wife and four small children.

HO! FOR THE WEST.—Before another issue of our paper, the long-talked of special train, for Brandon, Souris, and other North-West points will leave this Village, carrying about 150 emigrants. The train, as far as at present known, will consist of three passenger coaches, 1 baggage car and 23 freight cars. We wish our friends a pleasant and successful journey.

COBOURG.

TWO ACCIDENTS IN COLBORNE.—The *World* says that on Saturday evening last, as Dr. C. H. Dorland, dentist of Warkworth, was walking upon the sidewalk in Colborne, he went to one side in the darkness and fell off the walk to the ground below, a distance of three feet. He sustained a compound fracture of the left leg. Drs. Gould and Willoughby were called to the case, and reduced the fracture; and as Dr. Gould was leaving, the wheel of his buggy was run against the platform of a well, and he was thrown to the ground, with very serious injury to his shoulder. The spot where Dr. Dorland fell is a dangerous one, and those who left it unguarded would almost appear to be accountable for both of these serious accidents.

FIRE.—On Friday morning last, at 3 o'clock, some scamp set fire to the old brick building on John street, originally erected for a Baptist Church, and afterwards, for some years, occupied as the High School. The Brigade turned out, but the fire had gained such headway before any alarm was given, that the building was almost gutted before water was applied. On the following day, such of the walls as had not fallen were pulled down by the town teamster. The building was the property of Mr. A. Dickson, whose loss, though without insurance, is not very heavy.

DECEASED.—The many friends of Dr. Moore, who for many years resided here as a physician, and who left last year to practice his profession in Muskoka, will regret to learn that he died at his new home in the early part of last week. His illness was a somewhat protracted one.

MYSTERIOUS DISAPPEARANCE.—The *Sentinel Star* says that the friends of Miss Maggie Merrill are distressed over her disappearance. She left the residence of her brother, Mr. John Merrill, on Division Street, on the 27th of February last, intending to go to her uncle's, Mr. James Clarkson, who lives about two miles east of Baltimore. She can only be traced as far as Mrs. Drum's grocery shop at the G. T. R. station, where she had stopped to wait to get a ride. No one was in the shop when she left, as those who wait on the customers often go into the other part of the house. No trace can be found of her after she left Mrs. Drum's. She never arrived at her destination and her friends did not know for a week after that she had left Cobourg to visit them. They have enquired of her friends in Rochester, Bowmanville and other places, but no trace can be found of her. Her friends have suspicions of foul play but cannot find anything to verify them. Miss Merrill is about 29 years old, above the average height, and has black hair, black eyes and dark complexion. When she left home she wore a navy blue cloth dress, a black beaver jacket and a black English walking straw hat, trimmed with black velvet, black feather, and black bugles, she also carried a plaid shawl of different colors and a small parcel. Any information as to her whereabouts will be most gratefully received by her distressed mother and friends.

A DISGRACEFUL EXHIBITION.—A walking match was advertised to take place in Phœnix Hall last Friday evening. Hand bills were distributed challenging any two men to walk against a Miss Morahan. The scene that occurred in Phœnix Hall on Friday evening last, was one of the most disgraceful ever witnessed in Cobourg. A crowd of drunken rowdies were present, and any woman who had any self-respect would refuse to be in such company, much less to give an exhibition for their pleasure. Some one entered Pat Flanigan who was also "too full" to navigate against her, but she refused to walk. After an exhibition of her pedestrianism the chairs were thrown at each other, the lights extinguished, the floor was swept with the door-keeper, and other such compliments were mutually exchanged. We understand that the "combination" was broken up by one of the parties appropiating the other's suit of clothes. The parties who give such exhibitions should be made walk from the Police Court Chamber to the Gaol.

THE WEST WIND.—Our readers will remember that in the fall of 1880, a schooner named The West Wind, ran ashore about two miles east of this town. She proved a good staunch vessel. She remained almost wholly intact during the next winter and following summer. The people in the east end of the town, have been supplied with firewood for nearly two years from her. The rough weather last fall, however, broke up what was left from the axes of the industrious. The kilson and ribs of her still remain where she ran on the beech.

BURGLARY.—Three attempts have been made during the last six weeks to burglarize the shop of Mr. J. Wright, on King street, and each time the parties have been successful. The first time the guilty parties gained an entrance through the front window and took from the till about $5 in small change. The entrance in the other cases were affected through the back way. The last time was on Sunday afternoon, when about five dollars worth of candies, &c. were carried off.

THE "HUM."—New life is to be put in an agricultural and machine shop in Bowmanville, Mr. Sylvester, of Cobourg, having purchased the plant and buildings belonging to Mr. McClung. This industry, it is hoped, will meet a want long felt there.

BRILLIANT SCIENTIFIC TRIUMPH.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

"FEMALE COMPLAINTS."—Dr. R. V. Pierce, Buffalo, N. Y.: *Dear Sir*—I was sick for six years, and could scarcely walk about the house. My breath way short and I suffered from pain in my breast and stomach all the time; also from palpation and an internal fever, or burning sensation, and experienced frequent smothering or choking sensations. I also suffered from pain low down across my bowels and in my back, and was much reduced in flesh. I have used your "Golden Medical Discovery" and "Favorite Prescription," and feel that I am well. Very respectfully, DELILAH B. MCMILLAN, Arlington Ga.

MAINE NEWS.—Hop Bitters, which are advertised in our columns, are a sure cure for ague, biliousness and kidney complaints. Those who use them say they cannot be too highly recommended. Those afflicted should give them a fair trial, and will become thereby enthusiastic in the praise of their curative qualities. *Portland Argus.*

FOR all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

Lace Curtains,	Table Damasks,

AND A LARGE STOCK OF

Grey and White Cottons, Ducks, Tuckings, Denims, Sheetings, Table Linens, Towelings, Towels, Pillow Cottons, Quilts, Etc., Etc.

MY AIM

Will be at ALL times to Sell only such Goods as will give satisfaction both in QUALITY and in PRICE.

I PROMISE

That the Display of FASHIONABLE GOODS will INTEREST you, and that the PRICES will be PROFITABLE to you. All Goods will be marked in **Plain Figures**, and only **One Price.** No Discounts will be allowed, for to be candid, the profits will NOT ALLOW it.

An Inspection and Comparison of Goods and Prices cordially invited.

THOMAS KELLY.

IMPRESSIONS.

I.—LE JARDIN.

The lily's withered chalice falls
Around its rod of dusty gold,
And from the beech trees on the wold
The last wood-pigeon coos and calls.

The gaudy leonine sunflower
Hangs black and barren on its stalk,
And down the windy garden walk
The dead leaves scatter—hour by hour.

Pale privet-petals white as milk
Are blown into a snowy mass;
The roses lie upon the grass
Like little shreds of crimson silk.

II.—LA MER.

A white mist drifts across the shrouds,
A wild moon in this wintry sky
Gleams like an angry lion's eye
Out of a mane of tawny clouds.

The muffled steersman at the wheel
Is but a shadow in the gloom;
And in the throbbing engine room
Leap the long rods of polished steel.

The shattered storm has left its trace
Upon this huge and heaving dome,
For the thin threads of yellow foam
Float on the waves like ravelled lace.

—*By Oscar Wilde.*

THE TEMPORALITIES FUND.

The Bill is at Last Passed by the Private Bills Committee.

OTTAWA, March 23.—The discussion in reference to the temporalities fund of the Presbyterian church was resumed before the committee on private bills this morning. On the first clause, confirming the present board in their office, and for payment of a certain annual amount on the lump sum representing that amount capitalized to Queen's college, great objections was offered by the opponents of the bill, the chief of whom were Messrs. Macmillan and Strange.

Mr. Girouard (Jacques Cartier) moved an amendment providing that the capitalization should not interfere with the rights of commuting ministers in the old church. The amendment was lost.

A basis of compromise was submitted by Mr. Macmaster, on the authority of the Rev. Gavin Lang, moderator of the synod of the old church, to the effect that the fund should be divided in the proportion of $100,000 to the old church and the balance to the unionist, and that the old church should have an act of incorporation.

Principal Grant, representing the unionists, said he could not accept this compromise, because he maintained that the commuters had only a life interest, and because he did not think it right to give them an act of incorporation, holding the name which he and his friends went into the union with.

Several amendments looking to a compromise were voted down by large majorities, and the first clause was passed.

Mr. Macmaster then announced, that as it was impossible to carry an amendment in the direction of what he and his friend believed to be right, they would not offer a factious opposition. The bill was passed.

The clause providing for indemnifying the united church for costs in the Dobie suit was struck out at the instance of the promoters of the bill.

The bill to incorporate the old church under the name of the Presbyterian Church of Canada in connection with the Church of Scotland was then taken, and after a partial consideration the committee adjourned.

HALF-DAY HEARERS.

Those who are inclined to take an unfavourable view of the present condition of the Christian Church in all its branches, are often found crying out, among other things, about the general prevalence of half-day hearing, and the consequently languid and supposedly dying interest in the services of the sanctuary. Now, before going further in the consideration of this matter, it might be well to settle whether or not there is any greater amount of this shortcoming, or sin, than there was in former days which are so frequently referred to as models to be remembered and mentioned with regret. That there is a large amount of non-church-going is notorious, but we are inclined to think that the absence of reliable statistics, and the natural tendency on the part of many to exaggerate to the excellences of the past lie very greatly at the root of much that is said about the modern degeneracy in this respect. Was there ever a time in the history of the Church in which the non-church-goers were not a very formidably large proportion of the population, both relatively and absolutely? We more than doubt if there ever was. And then as to half-day hearers must there not necessarily be always a very large number of such in all churches? The different members of many a family have always had to take their turns in staying at home, and have, in so doing, been as directly and as fully serving God as when attending public worship. Then, even apart from this, may it not be found that many more who may have only been once at public worship, have been present at two or more religious services, and have been taking a very active part in these, so that they may not only be excused, but justified, in spending the evening of the Lord's day with the younger members of their families? We are never to forget that many fathers are all the week to a great extent strangers to their own children. They are away to their regular employment before the young ones are out of bed, and in many cases they have not returned when these little folks are again in the land of dreams. The various church and school meetings on Sabbath morning and throughout the day tend also to keep father and children so far apart. In many cases there is the bustle to get ready for the Sabbath morning school; after which there is church service, and after a hurried interval there is often Sabbath school again. Well, what is left for the cultivation of family life and family religion but what remains of the Sabbath evening? Is it then part of many a Christian father's duty, and his privilege as well, to spend those few remaining hours with the children, of whom he necessarily sees and knows far too little? We can easily believe that very often it is; even though, in order to its being done, attendance on the second public service may have to be sacrificed. Will any one say that even to hint at such a thing is to introduce a loose and dangerous principle, to the adoption of which at any rate many are only too prone? We cannot see this. Oh! but then it is said those people who don't attend church in the evening, do not spend the time in any such fashion as that just indicated. How do you know that they don't? They might at any rate do so, and in a good many cases we are convinced they do.—*Canada Presbyterian.*

SHREWDNESS AND ABILITY.—Hop Bitters so freely advertised in all the papers, secular and religious, are having a large sale, and are supplanting all other medicines. There is no denying the virtues of the Hop plant, and the proprietors of these Bitters have shown great shrewdness and ability in compounding a Bitters, whose virtues are so palpable to every one's observation. —*Examiner and Chronicle.*

FROM ALL OVER.

THERE are more Hebrews in Philadelphia than in all New England.

THE population of Pitcairn Island now numbers 96 persons. The latest tidings from that strange community report its health and contentment as perfect.

By the use of Fellows' Compound Syrup of Hyphosphites the blood is speedily vitalised and purified, and so made capable of producing a sound mind and a sound body.

THE Huron *Signal* announces that Mr. D. McGillicuddy will not be a candidate for nomination at the coming Reform Convention for North Huron.

R. A. PROCTER, the well-known lecturer, denies that he said the world would come to an end in 1897 by the falling into the sun of the comet of 1880. He thinks there is still a chance for the good old world after that date.

YOUNG MEN suffering from early indiscretions lack brain and nerve force. Mack's Magnetic Medicine, advertised in another column, supplies this want and thus cures when all other preperations fail.

CANCERS AND OTHER TUMORS are treated with unusual success by World's Dispensary Medical Association, Buffalo, N. Y. Send stamps for pamphlet.

The accidents of life are unavoidable, but should a writer accidentally get hold of a bad pen, the remedy is easy: procure one of Esterbrook's Steel Pens. The Stationers have them. Brown Bros., Toronto, wholesale dealers.

PROF. SMITH, of Leadville, who recently visited the McKellar Island silver mine, considers that with a vein fifty feet in width and well defined, there is a grand future in store for this property. More native silver in the shape of leaves and wires has been taken out.

FROM ROSWELL M. KENNY, M. D., OF MANNSVILLE N. Y.—"I do not hesitate to say that the Peruvian Syrup has claims to my confidence equal if not superior to those of any medicine that has ever come to my knowledge. I have used it with great success for Dyspepsia and Epilepsy. Sold by dealers generally.

DURING the stay of the Black Watch (the 42nd Highlanders) in Edinburgh it has more than doubled its strength. The citizens seem to take all the pride in the men which they used to do in the old days, and look upon their honour as bound up with that of the "Gallant 42nd."

RECENTLY at the funeral of a soldier at Shotley, near Ipswich (Eng.), the rector of the parish, the Rev. J. F. A. Harvey, courteously allowed a portion of the Roman Catholic burial service to be read within the church, after which the interment took place, the church bell tolling as at other funerals.

WM. LYONS and M. Blake have purchased the Postage agricultural grounds, consisting of ten acres, a short distance north of the Canada Pacific Railway, by tender, for $24,000. The Agricultural Society bought this land two years ago for $400.

GREAT GAIN IN WEIGHT AND PROLIFICNESS.—Is the uniform results where Harvell's Condition Powders are mixed freely with the feed of live stock, whether animals or poultry. These great specifics never fail, and are for sale everywhere. Ask for them at your druggist's or your grocer's.

A FEW days ago, for the first time in the history of British Columbia, a large shipment of live beeves was made from Victoria to the United States. British Columbians are jubilant over the prospect. Not long since American cattle were imported to supply the Provincial demand for beef.

FOR weak lungs, spitting of blood, shortness of breath, consumption, night sweats and all lingering cough, Dr. Pierce's "Golden Medical Discovery" is a soverign remedy. Superior to cod liver oil. By druggists.

IT IS unofficially reported that preparations are in progress for the sinking of the shaft at Silver Islet another one hundred feet. At present the company are taking out from ten to thirty tons of silver-bearing rock per day. Some unexpected "finds" of native silver have occurred recently at this mine.

THE Belleville *Intelligencer* says:—All the fish which are now exposed for sale are full of spawn. If the Fishery Inspector of this district had the power of fixing the period for the close season the greater portion of this spawn would have been deposited and millions of fish, which are now lost, would have been the result.

KINMOUNT had a most interesting attempt at suicide late week. A young man hung himself up in a stable, and just as he was in the agonies of death two girls discovered him and let the rope loose. The young man was jilted by a girl, and had lost money in a horse trade. Which was the cause of his attempt at suicide, nobody knows; some think it was love, some horses.

THE new treatment for rapidly conditioning horses, Zock's Tonic Compound and Blood Mixture. Each package contains a good Purging Ball which is given to the animal previous to using the strong tonic powders. This is the common sense treatment and will accomplish more in one week than the old system of Spices, Feeds and Condition Powders would do in a month. Ask your druggist about it. J. D. Tully, agent.

THE British volunteers are to be incorporated with the several regimental districts, so as to form fifth and sixth battalions, as the case may be, to the regiments in their respective "territories," and they will appear grouped with them in the *Army List*. This will give a reality to the contemplated arrangement, and add greatly to *esprit de corps* of the volunteers regiments.

THE other night a professional mesmerizer found great difficulty in persuading any one to come on the stage. Finally a young man concluded to risk it, and the first experiment was with a glass of water, the youth being made to believe that it was alternately brandy, whiskey, champagne, etc., and drinking it with great gusto. In five minutes thirty-seven men were on the platform, asking to be mesmerized.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chopped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For Sale by Taylor & Macdonald.

Never Give Up.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprise to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle by Taylor & Macdonald—1.

Snatched From the Grave.

Mrs. Helen Pharviz, No. 331 Dayton St. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with consumption for about ten years, was treated by nine physicians, all of them pronouncing her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for consumption completely cured her. Doubting one, please drop her a postal and satisfy yourselves. Trial bottles free at Taylor & Macdonald's Drug Store. Large size $1.—1.

ST. JACOBS OIL
TRADE MARK.

THE GREAT
GERMAN REMEDY.

The Best Field
FOR
EMIGRANTS.

AN IMMENSE AREA OF RAILROAD AND GOVERNMENT LANDS, OF GREAT FERTILITY, WITHIN EASY REACH OF PERMANENT MARKET, AT EXTREMELY LOW PRICES, is now offered for sale in EASTERN OREGON and EASTERN WASHINGTON TERRITORY.

These lands form part of the great GRAIN BELT of the Pacific Slope, and are within an average distance of 250 to 300 miles from Portland, where steamships and sailing vessels are directly loaded FOR ALL PARTS OF THE WORLD.

GRAIN AT PORTLAND, OREGON, COMMANDS A PRICE EQUAL TO THAT OBTAINED IN CHICAGO.

The early completion of the Northern Pacific R.R. is now assured, and guarantees to settlers cheap and quick transportation and good markets both East and West. The opening of this new overland line to the Pacific, together with the construction of the network of 700 miles of railroad by the O. R. & N. Co. in the valleys of the great Columbia and its principal tributaries, renders certain a rapid increase in the value of the lands now open to purchase and pre-emption. There is every indication of an enormous movement of population to the Columbia River region in the immediate future.

LANDS SHOW an AVERAGE YIELD of 40 BUSHELS OF WHEAT PER ACRE. No Failure of Crops ever known.

RAILROAD LANDS offered at the uniform rate of $2.50 an Acre.

CLIMATE MILD AND HEALTHY.

Potatoes! Potatoes!

There seems to be every probability of an Active Shipping Demand for the above as soon as the weather moderates sufficiently to allow of their being handled with safety. The almost immediate effect of this will be to give prices, already firm, a decidedly upward move, hence we advise Early Purchase. We will deliver first-class EARLY ROSE POTATOES this week on the basis of Present Market Values.

FULL WEIGHT guaranteed in each Bag.

J. W. FLAVELLE
SIMCOE STREET.

Kendall's Spavin Cure

For Horses and other Animals—It has no equal—It cures spavins, curbs, splints, ring-bones and all similar blemishes and removes the enlargement without blistering. It always cures sore teats on cows and foot rot in cattle and sheep. It also cures scratches, grease heel, thrush, saddle-galls, &c. It has no equal for flesh wounds, bruises, cuts or sores on all animals.

Kendall's Spavin Cure

KELLEY'S ISLAND, Ohio, Mar. 28th, 1880.

DR. B. J. KENDALL & Co., Gents:—I have used your Spavin Cure on a bone spavin and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident that if it is properly used it will do all you claim for it.

Yours truly,
C. M. LINCOLN

Kendall's Spavin Cure
ON HUMAN FLESH.

Thousands of trials on Human Flesh has proved yond a doubt that "Kendall's Spavin Cure has sufficient strength to penetrate and virtue to cure the worst cases of rheumatism, corns bunyons, frostbites or any bruise, cut or lameness which are not affected in the least by ordinary liniments. It does not blister, but on the contrary, removes all soreness.

DUNHAM, P. Q., March 10th, 1879.

DR. B. J. KENDALL & Co., Gents:—About a year ago I fell in the road on to some ice and was badly hurt in the hip joint, which caused me much suffering. I tried various remedies, but none gave relief until I tried Kendall's Spavin Cure. I applied it full strength twice a day for two weeks during last October, and it effected a perfect cure I have since then been well and free from lameness It is very valuable for man as well as or beast.

Yours truly,
CHESTER K. GREEN.

Kendall's Spavin Cure

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors. DR. B. J. KENDALL & Co., Enosburgh Falls, Vt.

Sold by all druggists.

Selling Fast! See Them!

MUNRO & ALEXANDER.

Daily Evening Review

SATURDAY, MARCH 25, 1882.

LOCAL AND MUNICIPAL.

Market Fees.

As the Act respecting market fees, underwent some changes since published by us, we now give a summary of its provisions. The Act provides that, after the first April next, no market fee shall be charged upon cereals, wood, dressed hogs, cheese, or fooder that may be brought to a market place; nor upon butter, eggs or poultry, unless a proper market place be provided to afford shelter and protection from cold. No fee is to be charged on any kind of produce taken directly to the place of delivery, nor upon any produce brought in after 10 a.m. No person is to be compelled to stay on the market after 9 a.m. between the 1st of April and the 1st of November, or after 10 a.m. during the other months. The scale of maximum fees for markets and weighing machines hereafter to be taken is settled. Provisions is then made that the foregoing enactments shall not apply to any municipality which will allow articles to be sold at other places than the market place without payment of market fees. Such municipalities may collect fees from all who resort to the market place, but the fees are never to be greater than those in force on March 1st, 1882. The fees are to be collected from every person who remains on the street within 100 yards of the market place but not from persons who are merely passing through the streets in order to deliver goods. No market fees are to be collected in respect of any market place hereafter constituted. Municipalities which collect no market fees are to have power to regulate the sale and place of sale of articles brought in, to the same extent as they possessed the power before the passing of this act. The act is to take effect on 1st of April next.

The Weather.

The cold weather still continues and the average citizen, especially if he has to purchase wood, is numbered among the growlers. The intense cold is felt far more now than at any time during the season, as after the exceedingly fine weather that preceded the cold snap, people were not prepared to combat with the North-West blizzard. The weather probabilities for this district for the following 24 hours, as reported from Toronto at 10 a.m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes—Increasing easterly to southerly winds, fair to cloudy milder weather with light rain or snow in some localities to-night or to-morrow.

Trent Valley Canal.

The Bobcaygeon *Independent* in an article on the Trent Valley Canal wishes the Peterborough REVIEW to explain "what it meant by saying that it was assured that an appropriation would be made for the Canal." We cannot explain what we meant by saying this, for the simple reason that we did not say it. As the supplementary estimates have not yet been presented, it might be well for the *Independent* to defer its abuse of the Dominion Government.

Railway Time Table,

The following gives the time of arrival and departure of the Midland and Grand Junction trains at Peterborough station:—

MIDLAND RAILWAY TRAINS DEPART at 7 and 10.20 a.m., and 4.30 and 6.40 p.m.

ARRIVE at 8.35 and 11.50 a.m., and 6.15 and 9.55 p.m.

GRAND JUNCTION TRAINS DEPART at 7 a.m. and 3 p.m.

ARRIVE at 11 a.m. and 6.10 p.m.

A Change.

Says the Brockville *Recorder*:—"A young man from Ottawa passed through here yesterday who entered Winnipeg less than eighteen months' ago with $20 in his pocket. To-day he isn't worth half that. This isn't much of an item but we give it for a change."

License Commissioners.

The Lieutenant-Governer of Ontario has appointed Messrs. John McClelland, Thomas Dolan and James Elliott as License Commissioners for the West Riding of Peterborough.

O'Keefe's Celebrated Imperial Lager.

The Caisse House is where you can get it right. Try it. 6d70

PETERBOROUGH PRESBYTERY.

The Regular Meeting in St. Paul's Church—The Principal Business Transacted.

The Presbytery of Peterborough met in St. Paul's Church, Peterborough, on the 21st of March, 1882. There were present 11 ministers and 8 elders.

Mr. Torrance was appointed Moderator for the next six months.

The Rev. D. D. McLeod, of Paris, being present, was invited to sit as a corresponding member.

The application of Oak Hill for union with Garden Hill and Knoxville was not granted.

On motion of Mr. J. HENDERSON, seconded by Mr. BELL, the Presbytery resolved as follows: The Presbytery having considered the application from Oakhill, and recognizing the difficulties in the way of the union sought for, decide that the application be not granted, but recommend to the families at Oakhill to join in attendance upon the services at Garden Hill and Kendal, and thus strengthen the Church at these points."

The Presbytery agreed to ask permission of the General Assembly for Mr. Windell to retire from the active duties of the Ministry. Leave was granted to the congregation of Cobourg to Moderate in a fresh call to a Minister when ready.

Mr. F. R. Beatty accepted of the call from the first congregation of Brantford.

Mr. Beatty, of Port Hope, was appointed to declare the pulpits of Baltimore and Coldsprings vacant on the second Sabbath of May, to be Moderator of Session during the vacancy, and to moderate in a call when needed.

A delegation was received from Hastings, asking leave to engage the services of a student on their own behalf for the next six months. A meeting of the Presbytery was appointed to be held at Hastings on the 5th of April at ten o'clock a.m., to consider the application, and the Clerk was instructed to cite all parties interested to be present at said meeting.

The session books of ten of the congregations of the Presbytery were ordered to be attested as carefully and correctly kept.

The name of Mr. McLeod, an ordained missionary laboring at Apsley, was ordered to be added to the roll of the Presbytery.

Messrs. Cameron and Torrance were appointed as delegates to the General Assembly by rotation, and Messrs. Cleland, Bell, and R. J. Beatty by election by ballot. The elders appointed by open vote were Messrs. Henderson, Haultain, Carnegie, Johnston, and Roxboro. Dr. Cochrane was nominated as Moderator of the Assembly.

Mr. Cleland reported on the Home Mission work of the Presbytery.

Mr. STEVENSON reported that the debt on the Minden manse had been almost extinguished. Arrangements were made for the obtaining of the small balance yet unprovided for.

Messrs. R. J. Beatty, Cleland, and Williamson were appointed a committee on temperance, Messrs. Torrance, Bell, Bennett, Haultain, and Carnegie on the state of religion, and Messrs. Henderson, F. R. Beatty, Russell and Jeffrey, on Sabbath Schools. These committees were invested with Presbyterial powers so as to be able to prepare reports for the Synod in May.

The Presbytery resolved unanimously to petition in support of the Temporalities Bill, and the Moderator and Clerk were authorized to sign said petition on their behalf.

The Presbytery approved of the changes proposed in the remit on standing orders. The consideration of the report of the committee on Sustentation and Supplement was deferred until the meeting to be held in May.

The Presbytery adjourned to meet in Hastings on the 5th of April at ten o'clock a.m., and was closed with prayer and the benediction.

Wanted.

A telegram received by the authorities states that $150 reward is offered for the arrest of Samuel Lindsay, the gaol breaker and burglar who escaped from Deputy Sheriff Gibson, of Hamilton, at Bowmanville, on Wednesday, 22nd instant. Description as follows:—Height, fully six feet, hollow sunk chest, medium build, face deeply pitted with small-pox, clean shaved but may grow moustache, first finger of left hand off at knuckle, second finger of right hand off at middle joint; wore dark clothes and Christy stiff hat; supposed to be hurt in jumping off train; keep a sharp lookout; arrest on sight, and telegraph me. A. D. Stewart, Chief of Police, Hamilton.

Ourselves.

The Trent Valley *Advocate* says:—

"The Peterborough REVIEW now issues a twenty-four column sheet. The REVIEW is without exception the spiciest daily printed in the eastern portion of Ontario, and success is written on every sheet."

The Napanee *Standard* thus speaks:—

"Our sprightly co-tem, the Peterborough EVENING REVIEW, has been enlarged by the addition of four columns, making the daily issue now a twenty-four column paper. The REVIEW is conducted with great enterprise, is staunchly Conservative and we are glad to see that a substantial success is the reward of the energy, business and literary talent that make it one of the best evening journals in the province."

The Armstrong Family.

The Napanee *Express* says that the Armstrong family, at one time residents of Peterborough, have secured an engagement for the coming tenting season in the orchestra of the Great International Circus, one of the best organizations of the kind travelling in the United States. They will leave Napanee about the first of the month to join the Company. All the members are general favourites, not merely because of their musical abilities but on account of their geniality, hence any advancement they receive is always welcomed by their friends.

Lecture.

On Monday evening next the Rev. D. M. Milligan, of Old St. Andrew's Church, Toronto, will deliver a lecture in St. Paul's Presbyterian Church. Subject: "The Contented Man, Who is He? The admission is only 25 cents, and the proceeds are to be applied to the church extension fund. The lecturer and his subject are very highly spoken of and we anticipate to see a crowded house.

Personal.

Mr. S. S. Peck, M.P.P. for Haliburton, was at the Caisse House last night.

Mr. Fairbairn, of the Midland Railway, Port Hope, arrived home from his trip to the South-west, last night. He enjoyed himself immensely while away.

Mr. James Jardine, who for quite a number of years resided in Peterborough, but who of late has been stationed in Barrie, has joined the "fleeting army," and left for Winnipeg on Friday night, where we understand he intends to embark in the banking and broking business, on his own account. Mr. Jardine has had many years' experience, is a thoroughly reliable man, and we predict for him a successful career.

By the Chicago *Times*, we notice that Mr. Virgil Lee, at one time a resident of Peterborough, has been admitted to the practice of law. We congratulate him on his success.

The Campbellford *Herald* says:—

"Mr. E. J. Hartley, of Peterborough, gave an exhibition of what he can do on a pair of skates, at the skating rink, Warkworth, last Saturday night. Mr. Hartley is said by all who have seen him on the ice, to be a very easy, graceful, yet dexterous, and truly wonderful skater."

Winnipeg Notes.

Mr. Harry Morgan, formerly of Peterborough, has purchased the bar and privileges of the St. Louis Hotel, Winnipeg. He will doubtless succeed.

Mr. John Haggart, druggist, an old Peterborough boy, has also embarked in the hotel business and is prospering.

Mr. R. H. Cronn, of the Grand Central, advertises in the *Sun* for a lady cashier, and says "she must wear diamonds."

Mr. Alexander Elliott is making a rather protracted stay in the City of Booms," but we understand that he is profiting by his visit.

From the *Sun* we learn that the Messrs. Long Bros., of Peterborough, are investing rather heavily in Manitoba land, as witness these transactions:—

Robbins & Co. sold section 23, township 13, range 18, west, to Long Bros., of Peterborough, for $6.00 per acre.

The same section was resold by the same firm for the owners, to Dr. Robinson, of Aurora, for $6.50 per acre.

The same firm sold the S½ of section 6, township 7, range 22, west, to Long Bros., at $6.00 per acre.

The American House.

As the majority of our readers are already aware, Mr. M. Halpin, for many years, known so favorably in connection with the Dublin Hotel, George Street, has leased the premises on Hunter Street, formerly occupied by Mr. John Sullivan, and will conduct it under the name of the American House. The house has been refitted, repainted, and repapered throughout, and much of the furniture is also new. The yard, stables and sheds are large and commodious. The bar is one of the best fitted up and most attractive in town, and taken altogether Mr. Halpin has a just right to feel proud of his new premises. The bar and furniture are from Mr. M. McFadden's establishment, and the painting, graining, etc., were done by Mr. Chas. Robinson. We have, no doubt, that Mr. Halpin, with his greatly increased facilities will do a far greater business, which his enterprise deserves.

Agriculture and Arts.

The Council of the Agricultural and Arts Association met again at Toronto on Friday morning. Mr. Carnegie moved, and Mr. Rykert seconded, "That should sufficient accommodation be made for the exhibition, it shall be held in Kingston. He thought it was the duty of the Council to hold the exhibition in Kingston. It was on the understanding that the exhibition should be held there this year that the Government made their usual grant to the association." In amendment it was moved that the exhibition be held at Ottawa. Deputations from both places were heard. The amendment was lost on the following division: Yeas—White, McKinnon, Morgan, Hunter, Shipley—5. Nays—Parker, Rykert, Graham, Aylesworth, Legge, Carnegie—6. After transacting some minor business the meeting adjourned.

A Good Reason.

It is currently reported around town that the reason why "Jim" Murphy has not yet shown up is because he is not able to do so. It is said that after the row in town he went to Ennismore, and was engaged in the pastime (for him) of beating a man, when the individual's wife interfered, and by a well directed blow with a heavy chair cut Murphy's head badly.

Carworks.

As an evidence of the fact that carworks will pay well if established here, we may state that a representative of a railway company has offered to take all the cars that the car works, now being constructed at Kingston, can make for two years. The proposal is under consideration.

Town Council Meeting.

The regular meeting of the Town Council takes place on Monday evening next at the Council Chamber at 7.30 o'clock.

New Time Table.

The new Midland Combination time tables have been issued and distributed. We will give the changes in a few days.

TAKE CARE OF THE LITTLE ONES.—Children are the mother's idol, the father's pride; they are entrusted to your care to guide and protect, to fill positions of honor and trust. If you truly feel the responsibility of your trust, and want to make the duties of your office as light and pleasant as possible, don't allow a slight cold to prey upon the little ones, for even a single day or night may reveal the dreaded destroyer, Croup, but a few doses of Down's Elixir, if taken in season, will banish it, as well as Whooping Cough, Bronchitis, and all throat and lung affections. For sale by all dealers in medecine. Price 25 cents and a $1 per bottle.

THROUGH the months of March and April be careful not to use Purgatives containing Calomel or other injurious substances. The proper and safe Purgative is the Great Vegetable Preparation Dr. Carson's Stomach and Constipation Bitters, the purest and best Blood Purifier known. J. D. Tully, agent.

DIARRHŒA AND DYSENTERY are perhaps the most common of our every day ills, and every person nearly has some special cure of their own. Ours is Perry Davis' Pain-Killer, and having used it for many years we can confidently recommend it.

RELIGIOUS NOTICES.

Mothers! Mothers!

Are you disturbed at night or broke of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and gives rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases and pleasant to the taste, and is the prescription of one of the oldest and best female physicians, and nurses in the United States. Sold everywhere. 25 cents a bottle. d52w9

N. H. DOWNS' ELIXIR

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

English Advertisements.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. It a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

FACTS!

It is a well-known fact that HACKETT'S is the CHEAPEST PLACE IN TOWN to buy your Dry Goods. The following facts speak for themselves:—

It is a fact you can buy at HACKETT'S Fresh Colored Prints for 5 cents a yard.

It is a fact you can buy at HACKETT'S 5 pairs of Cotton Towels for 25 cents.

It is a fact you can buy at HACKETT'S 7 yards Heavy Oxford Shirting for 50 cents.

It is a fact you can buy at HACKETT'S 1¼ yards wide Table Linens for 16 cents a yard.

It is a fact you can buy at HACKETT'S Heavy Brown Duck for 10 cents a yard.

It is a fact you can buy at HACKETT'S a Heavy White Quilt for 80 cents.

It is a fact you can buy at HACKETT'S a Rich Colored Gro Grain Silk for 75 cents a yard, "same as other stores sell for 88 cents."

It is a fact you can buy at HACKETT'S a Heavy Black Gro Grain Silk for 75 cents a yard.

It is a well-known FACT that when you go to HACKETT'S you get what he advertises.

JOHN HACKETT.

Daily Evening Review

MONDAY, MARCH 27, 1882.

Child Lost.

On Saturday afternoon a little girl aged about two years was found wandering on the street and handed over to P. C. McGhee. For nearly two hours John tried to learn the child's name, but not being well versed in "baby talk," was unsuccessful. After considerable coaxing, backed up by candies, etc., the youngster volunteered the information that she had an Aunt Abby. After making a few further enquiries, he also learned that she had an uncle named Tighe. The latter statement put him onto the right track, and the child was handed over to Mr. George Tighe, at the Collegiate Institute, where she is at present residing.

Personal.

Mr. W. S. Johnston left this morning for Windsor, Ontario, where he has secured a lucrative position in a drug store. We wish him success.

Rev. E. H. Dewart, of the *Christian Guardian*, D. D. is at the Caisse House.

Rev. M. Hill, of Millbrook is at the Caisse House.

Town Council Meeting.

The regular meeting of the Town Council takes place this evening at the Council Chamber at 7.30 o'clock. The market by-law will come up, and probably some other important business.

Lumber for Winnipeg.

We learn that Mr. C. H. Edwards, lumber dealer, Yonge street, has been shipping several carloads of dressed lumber from Toronto for Winnipeg.

Australia's N.P.

WASHINGTON, March 24.—The American consul at Melbourne writes in a discouraging strain in reference to the effect of the high Victorian tariff in causing a decline of American trade with Australia. He states that American goods rank deservedly high in the markets there, but that they encounter great obstacles in freights and insurance rates, and particularly the unfriendly tariffs. This latter heavily handicaps American enterprise, and although American houses are represented by energetic American agents they have to make progress against the tide in getting their goods before the colonies. The consul urges that relief might be secured by reducing our own heavy tariff on wool, which is the staple product of the Australian colonies. This would prompt a mutual concession in the colonies, he thinks, and promote a material and permanent development of the now declining American commerce in this particular field.

MIDNIGHT TELEGRAMS

CABLE.

WELL SERVED.

DUBLIN, March 25.—Thirty men on Friday night attacked the house of a farmer suspected of paying rent near Thurles. While the party were firing shots into the house three ambushed policemen fired into the moonlighters, who fled, and were pursued. The police fired twenty rounds of buckshot at them. The road was stained with blood for half a mile, and one of the attacking party was found mortally wounded.

KAISER TO CZAR.

BERLIN, March 25.—The German Emperor replied to the Czar's congratulations as follows:—"Accept for yourself and the Empress my most heart-felt thanks for your kind wishes. Every word of yours has found a lively response in my grateful heart. I beseech the Almighty to bless your reign, and to make it conducive to the welfare of your people and the strengthening of the peace of Europe."

ANOTHER IRISH OUTRAGE.

DUBLIN, March 25.—Mr. Heffernan, postmaster at New Pallas, suspected of paying rent, has been brutally beaten by an armed party. His condition is precarious.

MR. TENNYSON.

LONDON, March 25.—The news comes that Mr. Tennyson has gout in his right arm. This may account for the feebleness of his latest patriotic song, and tends to blight the hope regarding the new play of which Mr. Irving has the refusal.

A SCIENTIFIC CURIOSITY.

LONDON, March 25.—Inspired by Edison's electic lamp is a lady's brooch, in which a tiny incandescent spark takes the place of and outvies the brilliancy of a diamond of the purest water. But perhaps a still greater scientific curiosity is the speech of Sir Erasmus Wilson, who condemns the electric light and favours gas, on the ground that the former gives too much light, and consequently causes too much shadow.

THE NEW IRISH CARDINAL.

DUBLIN, March 25.—While Irish politics are disturbed, Archbishop McCabe awaits his red hat at Rome, and his countrymen are preparing to present him with four horses and a State carriage, with magnificent liveries, so that his Eminence may go about the diocese in princely State.

THE "JUMBO" FARCE.

LONDON, March 25.—The week has been memorable for seeing, and it is to be hoped hearing, the last of Jumbo, who is safely boxed as a passenger in the choicest situation amidships of an Atlantic steamer. Not, however, till he is actually out at sea shall we reach the end of the most ludicrous and puerile outpouring of gush which has been known to the present generation and which amply justifies Lord Beaconsfield's dictum about the excessive sentimentality of the English people.

DISTINGUISHED VISITORS.

LONDON, March 25.—As a consolation for the lost Jumbo, we have the prospect of the coming of Cetewayo with his attendant chiefs, and also of Messrs. Moody and Sankey, who have been requested to spend not less than a year in London. The petition to that effect is signed by more than 300 persons of position, of whom more than two-thirds are representative clergymen.

PARLIAMENTARY SCANDAL.

LONDON, March 25.—The parliamentary incidents have consisted of tempests in teapots. The most momentous was the omission of several radical members, including Messrs. Chamberlain and Bright, both Cabinet Ministers, to doff their hats when the Prime Minister brought a message from the Queen announcing the marriage of Prince Leopold, with the usual pecuniary suggestion attached to it. The offenders disdained to explain, and an appeal to the Speaker produced no result. The Conservatives seized the opportunity to sneer that, being unable to knock a crown off the Queen's head, Radicalism gets even with Her Majesty by keeping its own hat on.

PRINCE LEOPOLD'S GRANT.

LONDON, March 25.—A lively discussion ensued over the proposed additional yearly allowance of $10,000 to Prince Leopold and Princess Helena. Mr. Labouchere, in leading the Opposition, was seconded by the fiery Mr. Healy, who said that he did not know what a prince was like, as he had never seen one. Mr. Gladstone protested against the violence of the speeches, and when he asserted that the grant to Princess Louise was made without opposition he drew down confusion on the heads of his colleagues. The senior member for Leicester, Mr. Peter Taylor, contradicted the Prime Minister, stating that he had voted against the grant in the respectable company of Messrs. Chamberlain and Fawcett, who now, as Cabinet Ministers, occupied the Government bench beside the Prime Minister. The sting of this observation was that they were now compelled either to vote for the grant, or to walk out of the House without voting.

AMERICAN.

FINANCIAL.

NEW YORK, March 25.—The Bank statement of loans show a decrease of $1,097,100, specie an increase of $214,000, legal tenders a decrease of $196,900, deposits a decrease of $1,441,000, circulation an increase of $21,000, reserve an increase of $184,800.

LONGFELLOW'S FUNERAL.

CAMBRIDGE, Mass., March 26.—The burial service over the remains of Longfellow were held this afternoon at the residence. They were strictly private, and none but relatives and near friends were present. Among the latter were Oliver Wendell Holmes, Ralph Wald Emerson, W. D. Howells, Bronson Alcott, Richard D. Dana, John G. Whittier, Louis Agassiz, Goe. Wm. Curtis, and Professors Norton and Monti. The casket was covered with black broadcloth and wholly unornamented save by a silver plate, which bore the inscription:—

"HENRY WADSWORTH LONGFELLOW,
"Born Eebruary 27th, 1807. Died March 24th, 1882."

The floral decoration of the casket consisted of a handful of passion flowers. The face of the deceased wore a peaceful expression, and disclosed no sign that death was painful. The services were brief and impressive. The were conducted by the Rev. Samuel Longfellow, of Portland, brother of the poet. The remains were deposited in the family vault at Mount Auburn. There were no services at the grave. Public memorial services were held in the chapel at Harvard College. The exercises at Harvard opened with singing. The Rev. Francis Peabody offered prayer, and read selections from the Scriptures. Prof. C. C. Everett then delivered an address, and the Havard Glee Club rendered "Forever Blessed." There were about one thousand persons present, including many of prominence.

AFTERNOON TELEGRAMS

Press Despatches to the Review.

CABLE.

THE POSTAL FRAUDS.

WASHINGTON, March 28.—The Government attorney is confident that the attempt to quash the "Star Route" indictments will be a failure.

CAPTAIN BURNABY'S EXPLOIT.

LONDON, March 27.—Another remarkable event is the passage from England to France in a balloon made by the hero of the "Ride to Khiva," who, without any fuss, threw into the wicker car of the balloon two pair of socks, a bottle of mineral water, and half a dozen sandwiches, and jumped in himself, loosed the rope, barely cleared a factory chimney, and landed in Calvados.

AMERICAN.

THE CHILIAN MATTER.

NEW YORK, March 27.—The *Herald's* Washington special says it is not believed that the State Department received from Trescott a copy of the protocol. The Senate intends to request the State Department to send in any correspondence or instructions to Trescott bearing on the matter. The terms of the protocol are viewed with dislike among Congressmen who have paid attention to the question. They say that the agreement puts it in the power of Trescott to go single handed to Peru and creat a government on such terms as seem best to him. This might lead to complications by which the United States would be involved.

CONGRESSIONAL NOTES.

WASHINGTON, March 27.—There are indications that the session of Congress will continue until the middle of July. It is said that 100 speeches are to be delivered on the tariff commission Bill before a vote is reached, if full discussion is allowed.

TRADE BRISK.

NEW YORK, March 27.—The volume of the dry goods trade is large and prices are higher than they were a year ago. The south has bought less this year than usual but the west has been a heavy purchaser. The City trade including that of Brooklyn and the cities across the Hudson has been exceptionally heavy.

FOUR TRACKS.

BATAVIA, N.Y. March 27.—The New York Central and Hudson River Railway yesterday placed an additional track in position a mile east of here, making four tracks complete from Buffalo to Albany.

FARMERS' TROUBLES.

BROOKLYN, March 27.—The cold snap has had a bad effect upon farming operations on Long Island. The other night the ground in many places was frozen several inches, killing peas which were beginning to show above the ground. The severe drought and insect pests of last year, by which the farmers lost heavily, have deterred many farmers from planting. Potato bugs and cabbage worms have already been found.

LABOR TROUBLES.

BROOKLYN, March 27.—Duryea denies the allegation that the Knight of Labour referred to the treatment of the employees in his starch factory at Glencove.

CRASY LAMSON.

HAMILTON, Ohio, Mar. 27.—Dr. Vonklein yesterday made an affidavit that Dr. Lansom, sentenced to death in England, prescribed aconite in a reckless manner to his patients during Russo-Turkish War, believing it to be an infallible cure. The affidavit will be given to the British Consul to-day.

FENELON FALLS.

OFF FOR MANITOBA.—The *Gazette* says that Mr. Joseph McArthur left last Wednesday morning for Manitoba with sixty head of cattle and two hundred hens and roosters, which he and his agents had been buying for some time past. It is to be hoped for the sake of the farmers of this part of the country that his venture will prove profitable; but the steady export of cattle to Europe, the States, and now to Manitoba, will soon raise the price of flesh meats to home consumers. But never mind, when farmers prosper all classes are benefitted, and so we hope Mr. McArthur will soon be back for a few more car loads.

THE FOUNDRY.—The Cameron Lake Foundry is in full blast—so busy, in fact, that orders are coming in a good deal faster than they can be executed, and more men will be set to work as soon as they can be obtained.

A TALL CHIMNEY.—If John A. & Co. were here their hearts would rejoice, for a "tall chimney" is "rising in our midst," as some papers are addicted to saying. It is being built of brick, and is ascending above the kiln that burns the refuse from Mr. R. C. Smith's new mill, but as it lies a long way out of our daily course to and from the office, we have not yet obtained any facts and figures concerning it.

Well Paid.

Some thirty years ago Mr. Green an amiable Englishman, seeing a rather shabby old man looking for a seat in church, opened his pew door, beckoned to him, and placed him in a comfortable corner with prayer and hymn books. The old gentleman, who carefully noted the name in these latter, expressed his thanks warmly at the close of the services. Time had effaced the incident from Mr. Green's recollections when he one day received an intimation that by the death of a gentleman named Wilkinson he had become entitled to $35,000 a year. Mr. Wilkinson was a solitary old man, without relatives. Mr. Green's act prepossessed him in his favor; he inquired about him, and found that he bore the highest character.

On Thirty Days' Trial.

We will send Dr. Dye's Celebrated Electro-Voltaic Belts and other Electric Appliances on trial for thirty days to young men and older persons who are afflicted with Nervous Debility, Lost Vitality, etc., guaranteeing speedy relief and complete restoration of vigor and manhood. Also for Rheumatism, neuralgia, Paralysis, Liver and Kidney difficulties, Ruptures, and many other diseases. Illustrated pamphlet sent free. Address Voltaic Belt Co., Marshall, Mich.

DESERVING OF PRAISE.—Too much cannot be expressed in favor of that unsurpassed remedy for coughs, colds, asthma, croup, sore throat, and all lung complaints. If you suffer from neglected cold, try Hagyard's Pectoral Balsam. The cost is trifling, only 25 cents.

KEEP THE FEET DRY.—This is the season of sloppy weather so productive of colds, and lung troubles; neglected cold or damp feet is a great source of these difficulties. Cure your cough with Hagyard's Pectoral Balsam. Pleasant to take and always reliable.

Daily Evening Review

MONDAY, MARCH 27, 1882.

THE BUDGET DEBATE.

It is with a feeling of relief that the whole country has welcomed the close of the debate upon the budget, which had been spun out to an unconscionable length, weeks having been consumed in its discussion, when much of the time might have better employed.

The speech of Sir L. Tilley was so able, so conclusive as to the beneficent effects of the National Policy, that desperate efforts were made by the Opposition to neutralize its effect. The leader of their party certainly had nothing to say in regard to this most important of all the topics that will come before parliament this session, and their deposed leader contented himself with defending his own late administration, without any advocacy of the present Reform policy, it may be because he is not in their secrets, or it may be because there is no programme to advocate. Other Opposition members, however, spoke in great numbers and at great length, but without finding a vulnerable point in the position of the Government. Their speakers in fact used arguments which contradicted each others', if not their own. The manufacturers were amassing wealth by robbing their customers, and they were also being ruined by an oppressive tariff—the prices received by the farmers for their produce were lowered, and the prices paid by the consumers for the same were raised, all by this iniquitous tariff—and so it went on, each speaker refuting some pet assertion of his predecessor on the same side. Of course, however, each contradictory utterance by itself required some attention, and there were some excellent speeches on the Government side. But in truth their task was easy, for the fallacies of the Opposition were easily unmasked, and the different descriptions of the prosperity of the country, of the progress of our industries, and the elasticity of our revenue found an echo in the minds of all hearers and all readers, who are quite convinced of their truth, although it may please some to ascribe them to Providence. Well, it is an old saying that "Providence helps those who help themselves."

The budget debate in short has established, though at too great an expenditure of time, that the National Policy has had its expected effects, that the country is flourishing under its influence, and has no wish to turn back to the old unpatriotic system of its opponents.

The Eton boy, who, in his indignation at the dastardly attack on Her Majesty at Windsor, administered personal chastisement to the miscreant on the spot with his umbrella, is Gordon Wilson, the eldest son of the present occupant of Hughenden Manor. "An eye-witness," in an evening paper, asserts that it was the Eton boys who diverted the villain's arm and caused the ball to strike the ground instead of Her Majesty.

The Daily Evening Review is delivered to subscribers at ten cents a week.

YOUNG'S POINT.

From Our Own Correspondent.

Men for the Drives.—A good number of men passed through here last week in livery teams from Peterborough *en route* to the back woods for Messrs. Rathbun & Son, to be in readiness for driving the logs when navigation opens. The wages are ranging very high this year.

Saw Logs.—During the last fall of snow in this quarter the farmers took the advantage and had a great many saw logs drawn to the mill to get sawn into timber. Many farmers ars going extensively into building operations this coming summer—some are building new houses, barns, driving sheds, &c. So when the farmers and lumbermen go ahead everything follows in good order.

Furious Driving.—Your correspondent wishes all parties interested to take notice—that all those that indulge in furious driving (which is too often the case), will be pulled up and fined before a magistrate without any respect of persons.—One day last week, a man from Douro, (but deserving not the name of a man), drove through this village, lashing his horses to such an extent that it was pretty near a runaway. His name is known to the writer, and in future he will be fined should it occur again. The hoots and yells of him were more like a man out of a mad house than a sane man. If he should be addicted to drinking to excess, he had better look out—as it will not be taken as an excuse.

Grist Mill.—Mr. McLean is doing such an extensive business in his line that he has engaged the services of a first class miller. McLean's reputation as a tip top miller is getting to be known far and near, he has been shipping flour to Peterborough, Lakefield and Apsley in large quantities; a good man Mac.

Village Improvements.—The villagers started a subscription list headed very handsomely by Mr. Geo. Chalmers, on Tuesday last for the purpose of having a side walk erected from the Locks bridge to the two churches on the hill, which will be a very great boon for all concerned, more especially the ladies. Surely we are getting to be a great people.

Removal.—Mr. P. Young, jr., who was born and brought up at the Point, has removed with his family to Julien's Landing, to take charge of Mr. John Hull's steam saw mill there. Mr. Hull is to be congratulated on getting such a good man, and Mr. Young will find in Mr. Hull a good kind master and a man of business, therefore we wish Mr. Young and family every prosperity in their new abode.

Personal.—We were favoured last Tuesday with two personages, one was the worthy live Mayor, Mr. Randall, from Port Hope, the other Mr. Rutherford, one of Peterborough's town Councillors. We had quite a chat with the latter *re* towns like Peterborough giving bonuses, &c., &c., both of them think Young's Point is going ahead, and no need of any of us going to Manitoba in the meantime.

OMEMEE.

Exodus.—The *Herald* says the exodus from Omemee will have reached its highest pitch about next week. We have heard of some ten or a dozen of our villagers getting ready to visit the Great Lone Land. Some, no doubt, will return home wiser but poorer by a good deal after their trip. The stories we hear daily about persons with whom we are acquainted making hauls of thousands of dollars and that apparently without any effort on their part, is no doubt a great incentive to more ambitious men.

Burst.—A hole was discovered in the dam on Tuesday last large enough to pass a bag of sawdust through. A few boards and a bundle of hay remedied the break. Mr. Joseph Beatty while attempting to stop the flow of water, slipped and took a cool bath.

A Bad Burn.—We regret to learn that one of Mr. Joseph Parson's little boys met with a severe accident on Tuesday last, by falling against a hot cooking stove, receiving a terrible burn on the left side of the face, from which we fear he will ever carry an ugly scar, as the burn is deep.

Stopped up.—The main drain on King street has caved in or something else has gone wrong, for there is water in Mr. I. McNeely's and Mr. Jas. Ivory's cellars. Work of finding the stoppage was commenced on Wednesday last, in front of Mr. Mick's shop.

Nearly an Accident.—While George, eldest son of Mr. John Kincaid, was engaged around the circular saw in their mill, when not in motion, the engine was suddenly started, the saw catching the sleeve of his coat and tearing it almost off. This should prove a warning to persons, and teach them to be more careful while in dangerous places.

Blown Down.—During the heavy storm of Tuesday morning last one of Mr. Wm. Clark's large driving sheds was blown down, smashing two pleasure sleighs and one cutter, which were in the shed at the time.

LINDSAY.

Action for Libel.—The *Warden* says: "The editor of the *Post*, we understand, has given the name of Dr. Herriman as the writer of the letters, in last week's *Post*, signed "Inquest" and "Veritas," and Drs. Coulter and Burrows have caused writs to be issued against Dr. Herriman. As the matter is now virtually before the courts it would be out of place to make any comments."

Decided.—Mr. Sylvester has finally decided to move his agricultural works to Lindsay, and yesterday the Mayor signed the lease between Mr. Sylvester and the town.

The Jeannette Search.

Washington, March 24.—The Secretary of the Navy has received from Melville a copy of his instructions to the Russian officials regarding the search for DeLong. In them he states that the party, dead or alive, are between Qui Vini and Bulcam on the west side of the Lena. Melville has already traversed this ground, but followed the river bank and more careful search was therefore necessary on the high ground back from the river. He examined many huts and small houses, but could not possibly examine them all. The persons of the dead, Melville desires, be conveyed to a central position convenient of access to Bulcam. They are to be placed in a small house, arranged side by side for future recognition. The hut will then be securely closed and banked up with snow or earth, and remain so until a proper person arrives from America to make a final disposition of the bodies. In banking up the hut it is to be done in such a monner that animals cannot get in and destroy the bodies.

Bright's Disease of the Kidneys, Diabetes. No danger from these diseases if you use Hop Bitters; besides, being the best family medicine ever made. Trust no other.

A DASH FOR LIBERTY.

A Convict Leaps From a Train and Escapee To the Woods.

Hamilton, March 223.—Last evening at five o'clock Sam Lindsay, who was sentenced to a term in the Penitentiary, left the Hamilton depot for that place in charge of Deputy-Sheriff F. J. Gibson. The prisoner was handcuffed securely, and Mr. Gibson feared nothing as to his escape. Everything went all right, until the train neared Oshawa. A man was standing with his back to the car door, and just as the occupant of the closet came out, a brakeman pushed the car door in and entered. The deputy-sheriff stood to one side to let the brakeman passed through. Lindsay, as quick as a flash, darted behind the man who was standing with his back to the door when the brakeman entered, jumped from the car and was gone. The train was going at a pretty high rate of speed, but Mr. Gibson sprang after Lindsay, and was jumping off the car steps, when a man who was standing on the platform grabbed him by the collar, and, after he had him safely hauled back from the platform, the man exclaimed,—"Good God! don't you know where you are going to jump?" Mr. Gibson looked down and realized his narrow escape—they were just speeding over the bridge 45 feet above the creek. The train slowed up when nearing Bowmanville. Mr. Gibson got off, and in company with a couple of gentlemen, went back to where the man jumped from the train. They tracked him through the woods towards Oshawa, but the tracks became extinct not far away from the starting point. They then went back to Oshawa, secured a team and buggy, and again resumed the search, but without any success. Mr. Gibson telegraphed from Oshawa to all points, but as yet has received no tidings of the man. He offered a private reward of $50 for his arrest.

The Northwest.

The following is from the *Army and Navy Gazette*: "The accomplished soldier who gave to the Canadian Northwest the name of 'The Great Lone Land,' knew more probably of the sword than he did of the ploughshare. Later visitors saw in the prairie lands, stretching from the old Red River settlement to the Rocky Mountains, a boundless expanse of wheat-and-meat-growing territory. As a contractor sometimes bases his estimate on the existence of hard work in a cutting, and in working his way finds himself on the high road to fortune by the sudden appearance of a bed of soft clay, so did this once insuperable link between the Atlantic and Pacific ocean turn out to be most valuable as well as most easily worked. It would be hard to speak in exaggerated terms of the extraordinary fertility of Manitoba and its capacity for farming operations. A railway has been allowed by its terms of contract with the Crown to select twenty-five million of acres along their line there suitable for settlement. The cost of the land and the terms of payment are within the reach of any but the very poorest emigrants, while anybody possessed of capital can purchase the land-bonds of the Company, and with them pay for whatever number of acres he may desire to take up. The Marquis of Lorne should understand what he is saying when he declares that "in the new Northwest there will be room for a great population, whose opportunities for profitable occupation of the soil will be most enviable."

Railway Smash-up.

St. John's, Que., March 24.—Owing to a misplaced switch, a freight train of thirty five cars coming north ran into a number of cars standing on the siding at Iberville at midnight last night. Eight or ten cars were thrown from the track, some of them shoved a long distance, others upset, while two were landed upon the platform of the passengers station, completely blocking the entrance to the ladies' department. In their course the cars knocked over two telegraph poles. Nobody was hurt. Engineer Anderson, seeing what was ahead, reversed the engine, and jumped off. The misplaceing of the switch is supposed to be the work of some evil disposed person, as two trains came over the same place a short time previously. The wreck train came up from St. Albans and had the track clear for passengers this morning.

Brilliant Scientific Triumph.—Thousands cured of catarrh, bronchitis, asthma and lung disease by Dr. M. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the parts affected. These wonderful instruments are used in all first-class hospitals, and prescribed by leading physicians. Full directions, for treatment sent by letter, and instruments expressed to any address. It is only since Souvielle's invention that lung disease are no longer feared until their very last stage. Write for particulars to Dr. M. Souvielle, ex-Aide Surgeon of the French Army, 13 Phillips Square, Montreal, and branch office 75 Yonge Street, 1 door north of King, Toronto. All letters must contain stamp for reply. d64-w11

For all affections of the Chest, Lungs and Throat, use Dr. Carson's Pulmonary Cough Drops. They speedily cure Coughs, Colds, Influenza, Hoarseness, Bronchitis, &c. As an expectorant the Cough Drops are unequalled, loosening phlegm very readily. J. D. Tully, agent.

No article ever attained such unbounded popularity in so short a time as Burdock Blood Bitters, and that too during the existence of countless numbers of widely advertised bitters and blood purifiers. It is evident that this medicine begins it work at once, and leaves no disirable effect unattained.

Read and Remember!

T. FITZGERALD

Begs to notify his customers and the public generally, that in future his terms will be strictly

CASH

For all REPAIRS done at his Carriage Factory, for all HORSE and CARRIAGE HIRE, and for all orders for WOOD. ☞Please take notice and govern yourselves accordingly.

Peterborough, March 6, 1882. d55

Written for the REVIEW.

HENRY WADSWORTH LONGFELLOW.

IN MEMORIAM.

The earth has lost her brightest star—
A glorious light is gone,
The nations worshipped from afar—
A mighty spirit flown!
So great, so good, the common lot
Of all beneath the sky
Seemed not for him—we had forgot
That such as he could die.

Tho' some far blazing orb of space,
Amid yon starry host,
Were blotted from its shining place,
A radiant wanderer lost,
Unmourned, unmissed on earth's dim shore,
Would be the glory gone,
Along the skies, while millions more
Still blazed as brightly on.

But of thy spirit light bereft,
That blest all human kind,
A waste and dreary wood is left
Amid the world of mind;
Its loveliest thoughts with thee expire—
It darkens with thy doom,
And hath no Promethean fire
That may such light relume!

A Babel of the boundless sea,
And with the blue sky blent,
E'en cloud capped Teneriffe were for thee
Too mean a monument;
The haughty temple soars to shine
The glory that departs,
But the great globe itself is thine,
With all its human hearts.

Earth's towers and trophies shall decay,
Their tomb oblivion be—
The pyramids shall pale away
From their eternity;
But never shall *thy* fame graw wan,
Thy golden words expire,
Till perish every trace of man,
In Nature's funeral fire!

Peterborough, March 26th, 1882.

THE NELSON MURDER.

The Prisoner Convicted and Sentenced to be Hanged—Address of Counsel and Judge.

At the trial of O'Rourke in Milton, for the murder of the Mahers, the evidence was concluded and Mr. Murphy addressed the jury on behalf of the prisoner. He urged on the jury their grave responsibility as the judges of the life and death of the prisoner, to whom should be given every reasonable doubt. Going into the difference between murder and manslaughter he said murder was the killing of a person with malice aforethought; in manslaughter the deed is done in hot blood and without any premeditation. There was no possible motive why O'Rourke should have a premeditated intention of killing an old man 85 years of age. He had no money to tempt the commission of such a crime, and no one knew it better than O'Rourke, who had eaten and slept in the house for seven weeks. Even the Crown counsel would not claim that the daughter had been outraged, nor could revenge have been the motive. Mr. Murphy examined very minutely the testimony pointing out everything that was favorable for the prisoner. He regarded the confession of O'Rourke as something of very little value, as they had been obtained in an unscrupulous way, and by questions which should never have been put to the prisoner, and by inducements that should never have been held out to him; but, even if the jury were determined

TO RECEIVE THE CONFESSIONS

as true, then that part which goes to show that the blow that killed the old man was on sudden impulse, should receive consideration, and the verdict should be manslaughter. Everything was advanced that could in any way sustain the theory that the old man and O'Rourke had quarrelled, and that then the blows had been struck. In concluding he appealed to them to err on the side of mercy, if errors crept in at all. Mr. Murphy's address lasted an hour and five minutes. It was an able and eloquent plea for a merciful consideration of the prisoner's case. During its delivery O'Rourke watched intently the faces of the jury, turning occasionally to look at Mr. Murphy. The jury seemed much interested, but it was vain to look in their faces for any expression of their opinion of the case so far as it had gone.

Mr. Osler replied, contending that the evidence given was sufficient presumption that the prisoner had returned to Maher's house and was at least preparing to outrage the daughter when Pat Maher arrived. Going over the particulars of the evidence he said without the confessions a case of murder had been made out against O'Rourke.

JUDGE SUMMING UP.

Mr. Justice Cameron, in his charge to the jury, made a clear and exhaustive review of all the evidence. He placed before the jury all the circumstance of the case, and explained the difference between manslaughter and murder. If O'Rourke had gone to Mahar's for any improper purpose, and killed the old man even in a quarrel, the crime would still be murder. Nothing had been shown to prove that the prisoner was in any way weak minded. If he was the man who had killed Edward Maher there was nothing shown in evidence to reduce the crime from murder to manslaughter.

SENTENCED TO BE HANGED.
